FURNITURE LOGIC.

The Real Bargain and the Imitation.

The greatest evil in the country today is the misuse of the term BARGAIN, which misleads thousands and thousands of honest people. Manufacturing industries are being demoralized to cheapen the cost of articles. The imitation is made to look like the real, by using inferior qualities of stock and making cheats and bad workmen of countless boys that might otherwise become mechanics of high skill, just for the sole purpose of making goods to sell as bargains, and sap the hard earned money of millions of people by giving worthless values and filling homes with rickety furniture, unhealthy and unsightly garments and poisoned food.

Occasionally we lose a customer who is misled by the deception of an article offered as a bargain in some other store. We have lost a sale, but kept our reputation, and will probably get that customer when the deception of the cheaper article shows. Honesty is the best policy, slow as is the lesson in learning, and its just to this latter policy our success and steadily increasing business may be attributed.

There are many people yet to learn of our stores and our store methods. More for your money here, quality being equal, than in any other store in New England. Honest Reliable Goods. No deception. No matter what you may need for your home this spring we have much for your consideration.

PENNELL A MURDERER

In Opinion of Judge Who Conducted Burdick Inquest

HAD MOTIVE FOR THE CRIME

Mrs. Hull Criticized and Mrs. Burdick Censured—Belief That Murderer Would Have Been Arrested If Investigation Had Been Prompt

Buffalo, April 1.—The verdict in the Burdick inquest, handed down by Judge Murphy yesterday, while stating that the identity of the murderer of Edwin L. Burdick has not been proven, practically charges Arthur R. Pennell, the dead lawyer, with the crime.

Pennell had a stronger motive than any one else for putting Burdick out of the way, Judge Murphy says, and all the facts brought out by the inquest constitute just grounds for the issuance of a warrant against Pennell if he were alive. The verdict is softened somewhat, so far as it relates to Pennell, by stating that if Pennell were alive he would be given the presumption of innocence until proven guilty.

In the opinion of Judge Murphy Burdick had no woman guest in his "den" on the night of the murder and the crime was not the work of a burglar. He exculpates Mrs. Gertrude B. Paine and Miss Hutchinson from any connection with the crime, and in conclusion criticizes Mrs. Maria A. Hull and censures Mrs. Burdick, the former for her attitude toward the authorities and the inconsistency of her actions with the theory that she had no knowledge of the murder.

"The Burdick inquest has taught us one thing," said Judge Murphy, "and that is to hold such investigations promptly. The police court inquest is the most natural machinery under the law for investigating such matters. Under it persons under suspicion can be brought before a magistrate and compelled to tell what they know, while there is no chance for sentimental persons to shout against a 'third degree.' It abolishes the 'third degree' absolutely."

Medical Examiner Danzer says: "If this inquest into the Burdick murder had been held within a day or two after the murder I believe it would have been the means of arresting the murderer and at the same time it would have saved the lives of Mr. and Mrs. Pennell. I am not saying this in criticism of anybody. The law is new. As a matter of fact the police judge, county judge or any supreme court judge can hold such inquests. The Burdick case has taught the authorities a lesson which they will apply the next time a mysterious murder is committed in Buffalo."

Police Must E-chew Politics
New York, April 1.—Police Commissioner Greene yesterday issued a general order to the police department calling the attention to sections of the city charter prohibiting police officers from contributing to political funds, joining political associations, becoming a member of any association intended to affect legislation or contributing any funds for such purposes. He directs enforcement of his order prohibiting the making of presents.

Extinction of Slavery "Later"
Washington, April 1.—General Wood, it is stated at the war department, is not to interfere with conditions in the Moro country so far as they relate to religious practices and slavery and polygamy. Later, when the United States authority is more fully established, the gradual extinction of slavery and suppression of polygamy may be attempted.

Leaves Fortune of \$5,000,000
Portland, Ore., April 1.—H. W. Corbett, ex-banker and former United States senator from this state, died yesterday of heart trouble. He was 76 years old, and had lived in Portland 54 years, coming from New York. His death was not unexpected, as he has been in poor health for some time. His fortune is estimated at about \$5,000,000.

Losses Sent In Produce Exchange
New York, April 1.—W. M. Townsend, member of the firm of W. M. Townsend & Bros., was expelled from the Produce exchange yesterday after the investigation of charges that he had been executing orders on the floor of the exchange for a concern that was, it is alleged, conducting a discretionary pool business.

Y. M. C. A. AND POST OFFICE.

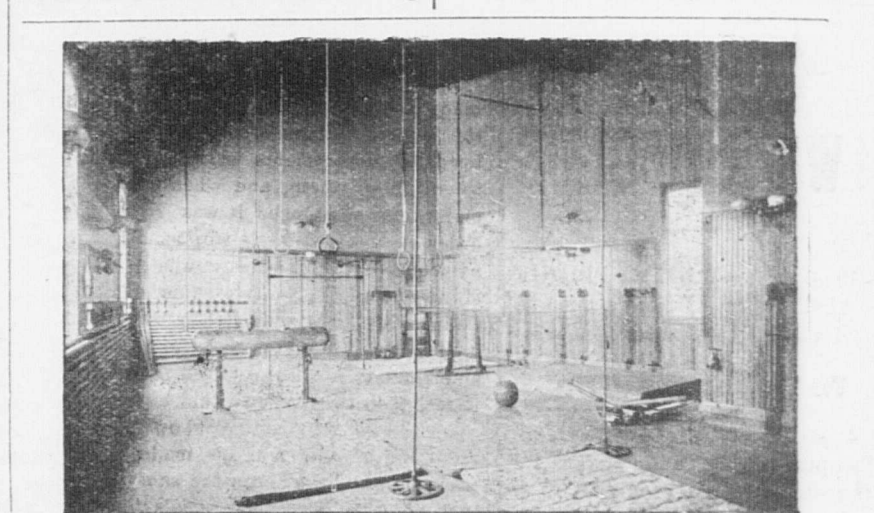

As Well As Public Library, District Court and Masonic Hall.

The Gymnasium for Y. M. C. A. Meeting with Financial Encouragement.

It is very evident from the drift within a year that Washington street, the main thoroughfare between Quincy and the shipyard, and also between Boston and all the South Shore towns, will soon rival Hancock street as the business street of the city.

Some years ago the Thomas Crane Memorial Hall was built on Washing-

ton street for the Public Library, but until recently there have been but few other improvements, the only exceptions being the erection of the two \$20,000 residences on the Hardwick estates.

ton street for the Public Library, but until recently there have been but few other improvements, the only exceptions being the erection of the two \$20,000 residences on the Hardwick estates.

A few months ago the School Committee took rooms on Washington street, and in the same building a dining room and business offices have been established.

Then the Quincy Real Estate Trust started the erection of a large three-story brick block which has been leased by W. G. Shaw for a furniture store; by the District and Probate courts, and for Masonic headquarters. Recently the government has purchased a large estate for the site for the post office, and has appropriated \$70,000 for a building.

Now comes the Young Men's Christian Association which has purchased the Ditson estate and will immediately erect a gymnasium and later an Association building.

A partial report of the enthusiastic Y. M. C. A. meeting of Monday evening was published yesterday. The remarks of President Bailey, George H. Brown, and Rev. W. E. Gardner were given.

The next speaker was Dr. E. R. Johnson, who needed no introduction to many present who were members of the old gymnasium classes when Dr. Johnson was physical director. The doctor explained in behalf of the committee appointed by the directors to report upon plans for a gymnasium building, that it was proposed to erect a building about 40 x 60 in the rear of the Ditson house and equip the structure with bowling alleys, a running track, baths, and all modern gymnastic apparatus. Such a building of brick was estimated to cost about \$7,000 and a suitable wooden building could be erected at a little lower figure.

to bear. He thought that one first class gymnasium was about all that the city could afford to support, and urged the young men present to do all that they could financially to aid in the building of the proposed gymnasium.

Secretary Coburn of the State Executive Committee was the next speaker, and he stated that he had come to Quincy to assist the directors of the Young Men's Christian Association and the young men of the city in securing a property and erecting thereon a gymnasium. Mr. Coburn paid a high tribute to the clubs of the city. He said that the Elward Hewitson Associates had deeply interested him. Mr. Coburn stated that the Young Men's Christian Association represented the best gymnasiums and best physical directors in the country; that when Columbia University sought a physical director she came to Boston, not to a club, but to the Young Men's Christian Association.

Secretary Coburn stated that the directors were contributing in amounts as high as \$500 and that he felt the young men would want to do their part,—own their share in the new "Gym." The coupon certificate plan was outlined by which a man could pledge say \$12, and by paying \$1, per month at the office of the treasurer to be established in the new home of the Association, a coupon would be detached by the treasurer for each monthly payment and the certificate delivered to the subscriber on his final payment.

The next speaker introduced by the chairman was Mr. Theodore H. Hermonson, who spoke very convincingly of the need of a gymnasium, and stated that last fall the Swedish young men organized an athletic club and raised nearly \$1000, but was obliged to abandon the project as it was found

Good Afternoon.

The manner in which the annual appropriation order of the city was passed this year, must be unsatisfactory to many. When the City Council took up the appropriations item by item, the heads of departments were not present to enlighten them, and when the officials were summoned it was ruled the order should not be taken up again item by item. To be sure it was a very clumsy way in which some of the Councilmen attempted to reduce the appropriations. If instead of questions, amendments had been moved to certain items, then the burden would have been upon the departments to show why a reduction should not be made. The result might have been the same, but it would have been more satisfactory.

The growth of Washington street is not confined alone to the City Square end, but the location of the Fore River shipyard at Quincy Point is causing great changes at that end. A mile of State highway has recently been built, and several new stores have been established where three years ago there were only two. Norfolk county has just completed over Fore River a beautiful steel bridge, with two draw openings of 100 feet each, at a cost of \$100,000. The city has purchased land and is erecting a \$75,000 schoolhouse. At the City Square end the post office, new Y. M. C. A. building, Public Library, District court, Probate court, Masonic headquarters, School Committee rooms, and business enterprises, will draw more business, and thus both ends of Washington street will grow until the whole street in a few years will become a business street.

Drift of Opinion.

Those persons who claim that the Bible is going by—and indeed already gone—ought to contemplate the business of the Oxford University Press, which issues on an average forty Bibles a minute, year in and year out. —New Bedford Standard.

It is figured that if all the men who are talking about "going on strike" put their talk into effect, there will soon be from 50,000 to 70,000 strikers in New England. Some of the anticipated strikes will probably not occur, because in a few employments, at any rate, there is considerable conservatism, while in others there is a feeling of apprehension as to the prospects of striking. Fifty thousand men on strike at once in New England would surely be a misfortune from which this section may well pray to be delivered. Even if every one of them should gain the point of contention, the loss in many directions would be very great. —New Bedford Standard.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm; and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." ENLARGEMENT.

Of Quincy High School
Proposed.

Plans Have Now Been Drawn.

Debate on Substitute Teachers by
School Committee.

The regular monthly meeting of the School Committee was held Tuesday evening. The members present were: Messrs Porter, Smith, Foley, Hollowell, Churchill and Peirce and Miss Adams. The chairman announced that the annual budget had passed the City Council but that the amount appropriated for school purposes was \$111,000. This was somewhat less than the amount asked for. It was referred to the Finance committee to apportion.

SCHOOL DECORATION.

A request was received from T. B. Pollard of the Washington school for the use of High school hall sometime in May for a lecture to be given under the auspices of the teachers of the Washington school to raise funds to decorate the interior of the new school building.

Mr. Foley opposed. He believed it established a bad precedent. It was not a good custom. If we grant this, other schools will come forward and ask the same privilege.

Miss Adams did not think it a bad precedent. The lecture was for educational purposes. Tickets would not be sold among the children. It would be no harm if all the schools did want the use of the hall, as it was to benefit the schools.

It was voted to grant the request.

REQUEST GRANTED.

A request was received from the guardian of Julia Beahn that she be permitted to finish the year at the Gridley Bryant school. She was a pupil of the seventh grade and after her parents died she was taken into a family at East Milton.

It was voted she be permitted to finish the year at the Gridley Bryant without tuition.

NEW DIPLOMA.

The matter of changing the diploma of the High school was referred to the sub-committee of that school.

SUBSTITUTE TEACHERS.

The matter of filling the vacancy at the Quincy school came up. Chairman Porter said a substitute was now in charge. That she showed indications of being a good teacher, but he should like to try her a while before recommending her election.

This brought out quite a discussion on substitute teachers. Superintendent Parlin said the substitutes understood that he would not recommend a substitute to election unless she had had some experience out of town.

Mr. Foley thought this wrong. If we have substitutes who are capable of taking a room in the absence of the regular teacher and have the approval of the master, she should be promoted if opportunity offered. He believed that under such conditions she would be better qualified to teach and that an experience in a school in the mountains would be of no benefit to her.

Miss Adams differed. A substitute in our schools has all her work mapped out for her. The plan is made up by some one else, and she only follows this plan and hears recitations. If a substitute takes a school out of town she has to plan out the work of that school, and no matter how small the school, it is a good experience and shows her capabilities.

Chairman Porter said there were exceptions. That some substitutes showed that they would make good teachers; showed a natural ability for the work, and these had been advanced. Supt. Parlin said that the substitutes had been called for teachers and that a larger part of the present substitutes preferred to remain as at present rather than become teachers.

Mr. Foley believed it unfair to the substitute, to the school and to the pupil. If a substitute works two or three years in our schools that experience should be far more valuable than an experience in a backwood's school.

SOCIETY WOMEN

Give a Grand Minstrel Show at
Wollaston.

The minstrel entertainment given by the ladies at the Wollaston Unitarian vestry Tuesday evening, attracted a crowded house. From the first number of the programme the show was a complete success, judging by the applause.

The director and pianist was Mr. Frank A. Wheeler of Boston, and Mrs. Alma F. Smith was interlocutor. Seated with Mrs. Smith on the platform were the following black-faced comedians: Mrs. Gurney and Miss Nichols, tambos; Mrs. Boyce and Mrs. J. Q. Litchfield, bones.

The chorus included Mrs. Adams, Mrs. Bennett, Mrs. Comins, Mrs. Curtis, Mrs. Delano, Mrs. Doane, Miss Helen Foster, Miss Mary Hastings, Miss Florence Hall, Mrs. Merrill, Mrs. Osborne, Mrs. Frank Page, Miss Julia Page, Mrs. Parker, Miss Phelan, Mrs. Rowe, Miss Winnie Seaman, Mrs. Mary Smith, Miss Elizabeth Thayer, Miss Gertrude Waterhouse. These all made an effective coloring in pink and white.

The show opened with "Witnart Minstrel Overture and opening chorus. Then followed the solo, "Pinky Panky Po" which was sweetly sung by Mrs. Frank Page with chorus.

The end songs, "I'm my own Boss," by Mrs. Boyce, "Flirty Gertie Brown," by Miss Nichols, "Mah Gal's a Butterfly," by Mrs. Litchfield, were all finely done as well as the part of the chorus. Mrs. Gurney made a fine hit in her Topical Song, "These Things can now be Explained," and occasioned much merriment. "Dinah" sung by Mrs. Doane and "I'll be your Raineau" by Miss Phelan were received with much favor.

Miss Mary Hastings gave an excellent rendition of "Little Creole Babe."

The second part of the program opened with a sextette composed of Misses Page, Waterhouse, Hall, Thayer, Seaman and Phelan entitled "Just Fancy It," which proved one of the attractive specialties of the evening and won much applause.

Mrs. Osborne amused the audience with her stump speech, "The Relation of the Mosquito to the Human Family," while Miss Hastings in "Mammy's Pickaninny" (by Mr. Wheeler) was capital.

The end minstrels did their part to perfection and entertained the company with their jokes. The sextette appeared again in the "Poster Girl" and were charming in orange and black costume. The finale was a Medley by the minstrels. Especially attractive was the introduction of fans and huge butterflies in two of the numbers.

The entertainment closed a little late on account of the frequent encores which really doubled the original number of selections.

Still Missing.

State Officer Pratt was in town this morning looking up the matter of the disappearance of Frank Leroy Litchfield of Hyde Park, who has been missing since March 7. On that day he left Hyde Park to come to Quincy to deliver packages to workmen in the quarries at West Quincy.

His movements were traced up to 10.30 that morning when he was seen to leave one shed and go to another. At that time the matter was reported to the Quincy police but they were unable to find any trace of the missing man.

His friends fear foul play, and have interested the State police in the matter, so far that they are making inquiries.

Before Railroad Commissioners.

The Railroad Commissioners gave a hearing this morning on the petition of the Fore River Ship and Engine Co. for consent to construct a railroad track for private use, to be operated by steam power at grade, across certain streets in Quincy and Braintree to connect with the tracks of the New York, New Haven and Hartford railroad at Braintree.

No opposition of any kind developed at the hearing, the representative of the New Haven road present saying that they did not offer any objections. The Commissioners then took the matter under advisement.

Reunion of Orangemen.

A reunion of Bay View lodge, L. O. L., and the Daughters of John Adams, L. O. L., was held Tuesday evening at Orangeman's hall in the Wilson building. Past Master Frank Tinney presided and addresses were made by Past Grand Master, Henry M. Stormes of Braintree, Alexander Knox, and E. Field McVey of Everett. These were interspersed with vocal solos by Miss Arabella McDougal and Mrs. Annie Lamont. Brief remarks were also made by Miss Alva Hamilton, Miss Mabel Johnson, Miss Evelyn McDonald. The evenings entertainment closed with a supper.

A fire department has been organized in Scituate with John J. Ford as chief. He has five assistant engineers.

THE SLIDING SCALE

Adopted in Lowell --- Unofficial
Count of Quincy Vote.

The Lowell division of the Boston & Northern railroad has accepted the sliding scale of wages similar to that in operation in Quincy. The first of the five questions was, "Are you in favor of accepting the sliding scale?" and was decided in the affirmative by a decisive vote in the proportion of 90 to 0.

The question, "Are you in favor of the flat scale of 25 cents per hour?" was decided in the negative. The question relative to abiding by the will of the majority and giving the delegates full power was held to be at variance with the union, and no such powers could be delegated. That the constitution provides that delegates should report to their respective unions and that a two-thirds vote of the members of each division, and not a majority should be required. These questions were then laid on the table.

This is the first division to make its vote on this important question public. It has been said that the vote in Quincy was sealed up not to be counted until the next meeting of the delegates. It is, however, reported that the officers have made an unofficial count. Whether they had a right to do this is a question which will probably be brought up at the next meeting, as it left an opening for the ballots to be tampered with.

It is reported among the men of the Quincy division that the result of their vote will be known Thursday.

The five questions were rather misleading, and it is not surprising that there has been a mix up at Chelsea and Brockton, and that the men in some divisions did not vote, as their officers ruled they must affix their names to their ballot.

[Continued from Page 1]

too expensive to equip and maintain a

gymnasium.

One of the interesting points made

by Mr. Bernanson was his reference

to the work of the association for the

soldiers. He said that while he was in

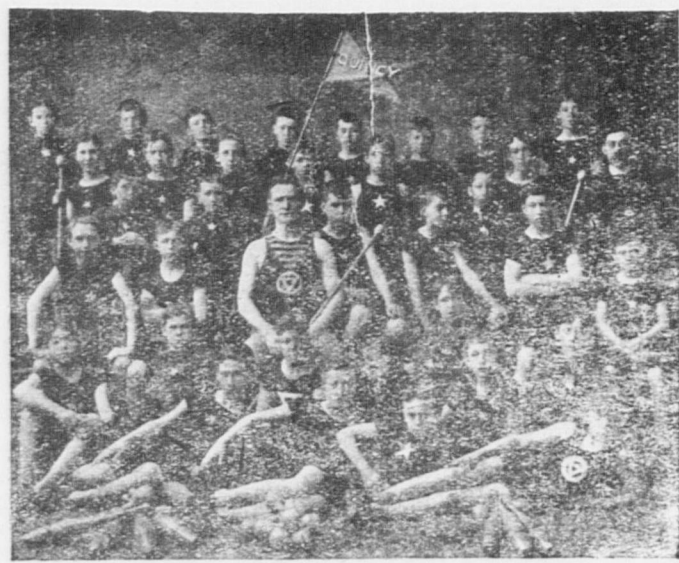

the service during the late war the

Army Secretary of the Association

gratuitously supplied writing materials

and reading matter and made every

effort to aid the young soldiers.

GROUP OF QUINCY Y. M. C. A. ATHLETES.

Mr. Hermanson pledged his support

and that of the young men with whom

he was associated in this movement,

and suggested the appointment by a

chairman of a committee of young men

to obtain subscriptions upon the

coupon certificate plan outlined by

Mr. Coburn. The committee was

published yesterday.

Several gentlemen present discussed

the plan and ex-Councilman E. E.

Jameson said he was very much inter-

ested in the work of the association

and hoped that the directors had

planned for a first-class home, and said

he would try and secure the coopera-

tion of the People's Union, as he be-

lieved the object of that organization

was to aid all work which would be a

benefit to the city, and he knew of no

work that was more favorable than

that of the Association in improving

the minds, morals and health of young

men through its varied departments.

Quite a number of the young men

expressed their appreciation of the

efforts that were being made in their

behalf and pledged themselves to work

hard to secure a large number of sub-

scriptions among young men for the

gymnasium building. The young men

subscribed about \$200, and many ex-

pressed their intention of taking a

certificate in the near future.

The chairman called attention to the

fact that no persons other than the

treasurer of the association and Mr.

Coburn were authorized to collect any

money in behalf of the association.

The enthusiasm shown by the young

men augurs well for the movement and

it is believed that a large amount will

be subscribed by the young men them-

selves, a result which cannot fail to

enlist the sympathy and generous fi-

nanial aid of all citizens who are in-

terested in the welfare of young men.

The plan proposed to raise the funds

for the new Y. M. C. A. gymnasium

is by pledges of \$50, or \$30, or \$12 or

\$6, to be paid in twelve equal instal-

ments, for which the following certifi-

icates with twelve coupons attached is

issued:

BRAINTREE.

Mrs. Fanny Harra and family of River street have moved to Norfolk Downs. They desired to remain in Braintree but could not find a suitable house to rent.

Miss Bina M. Shorey, teacher at the Monatiquot school, severs her connection there this week to teach in Everett at a much larger salary.

Landlord W. A. Tracey of the Branswick House has bought a plot of land in front of the hotel between Mr. Heath's jewelry store and Pearl street.

Mr. Alonzo A. Cole of Boston, under the auspices of the South Congregational church King's Daughters, will give the "Brownie Ball" in the Town hall next Wednesday evening assisted by nearly 150 local young people. He has recently given this entertainment in East Braintree and Quincy to large audiences.

Miss Annie Tracey returned to Hyannis Normal school on Monday.

Miss Bessie W. Legg of Worcester and Mr. W. Gray Harris of Northport, N. Y., were entertained from Saturday to Monday afternoon by Rev. Mr. and Mrs. Legg of Tremont street.

Rev. Albert E. Legg was the guest of friends in Roslindale Tuesday. Mrs. Legg spent the greater part of the week with her parents in Springfield.

Miss Annie K. Dyer spent the early part of the week in Salem, the guest of her sister, Mrs. Jessie Chapman.

Mr. Andrew Dyer has resingled his house.

Miss Eliza Jane Mansfield has rented two tenements in the Dillon block on Crescent avenue.

Mrs. Lizzie Daggett returned from Providence Monday afternoon.

Mrs. Tyler and son and Mr. and Mrs. Girard were guests over Sunday of Mrs. William Tracey.

Thomas J. Tucker has rented the east side of the Randall block for a barber shop.

The following friends and relatives from South Braintree attended the funeral in Brockton, last Sunday, of the late Charles F. Porter, who was killed in an automobile accident: Mr. and Mrs. Axel R. French, Prof. and Mrs. Oakman, Mr. and Mrs. D. A. Brooks, Miss Annie Brooks, Mr. and Mrs. G. D. Willis, Mr. and Mrs. F. A. Hobart, Messrs. James T. Stevens, George W. Stevens, Herman Porter, W. T. Connell, William A. Ross, Mr. and Mrs. Joseph H. Schrant, Mrs. Isaac Porter, Miss Susie Porter. The hymn "How gentle God's commands," known as "Dennis," was one of the selections sung by the Gerrish quartet. This hymn is known among the friends of the Porter family as the "Porter favorite," or the "Porter piece." It is well known that this hymn was always sung at every family gathering. It was also sung at the funerals of Mr. Porter's brothers, Joseph, Isaac and Rodolphus and at the funeral of a sister-in-law, Mrs. Mary Porter and of other members and connections of the Porter family.

will be at a seasonable hour. Very ac-
commodating.

The location selected by the Y. M.
C. A. for their new gymnasium is a
very desirable one, as it is on one of
the main streets and centrally located.
It is an unusually deep lot and admir-
ably adapted for a long building such as
is required for a gymnasium with a
running track and by a bowling alley.
At some future time it can be easily en-
larged if required either toward Maple
place or toward Chestnut street or
Foster street.

Drift of Opinion.
April 1 generally means one on
you—Transcript.

Good for the people of Saugus,
who, at their recent town meeting
voted that the town and its institu-
tions be hereafter known as the
Saugus Home instead of the poorhouse.
There is a great deal in a name, and
if by such a simple method as this
any part of the sting of poverty and
dependence can be removed from the
lives of the unfortunate inmates of
these institutions, it should be done.
The Saugus reform should be generally
imitated.—Haverhill Gazette.

Whether or not the ethics of
business has improved, it is certain
that the manners of business are much
more polished than they used to be.
The dissolving dealer is now seldom
encountered, and it is commonly under-
stood in commercial circles that polite-
ness pays. One even encounters some-
thing better than mere politeness; one
meets with the kind of courtesy that is
supposed to be found only in drawing
rooms, but which in reality may go
with the selling of dry goods as well as
the dispensing of afternoon tea. To
press a customer too much is consid-
ered as rude as the forcing of unwashed
dishes upon dinner guests, and to de-
cline to accept returned goods, as bad
as to refuse to take back words care-
lessly spoken. Dealers who practice
these high courtesies have an enviable
reputation among shoppers, for it is
universally acknowledged that in shop-
ping an accommodating salesman or
saleswoman is "half the battle." Of
course commercial generosity of this
order is bound to be imposed upon, and
if salespeople were but possessed of the
literary gift there would be some inter-
esting confessions from behind the
counter. Yet, on the whole, this spirit
of accommodation and courtesy not only
pays but it greatly assists the develop-
ment of that rare and fine old art of
living.—Chicago Tribune.

Quarrymen Wanted.
The Winston company and Locher,
constructors of the Metropolitan water
works at Clinton, Mass., have just
negotiated for the lease of the Edward
G. Kittredge quarry at Milford, N. H.
Gen. Supt. Albert T. Blades stated
Monday that the company will im-
mediately put between 300 and 400 to
work in the quarry. One hundred of
these will be stone cutters. They want
to ship twenty carloads of stone per
day if possible. The quarry is leased
for five years at a stipulated amount
per day.

CARD OF THANKS.
Mrs. Elizabeth L. Dawson wishes to thank
the Quincy Police Officers and her many friends
in Atlantic for their kindness during her hus-
band's illness.

WARRANT WANTED.

For Arrest of the Chief of
Police of Weymouth.

Assistant United States District At-
torney W. H. Lewis, of Harvard foot
ball fame, appeared before Judge Avery
in the district court this morning, in
behalf of certain colored women in Wey-
mouth, asking for a warrant for the
arrest of Chief of Police Thomas Fitz-
gerald and Officer Richards of Weymouth
and William Hillhouse, a private detec-
tive of the New York, New Haven and
Hartford railroad. It is alleged that
the officers entered the house of the
complainants, whose name is Watkins,
and placed them under arrest for an
offense, not a felony, and that they also
assaulted the women.

The affair dates back to the latter
part of last week, when a woman lost
her pocket book in the Weymouth
Heights depot of the New Haven road.
Suspicion was directed to Samuel H.
Watkins, a young colored boy. It is
alleged that the three officers visited
the boy's home Tuesday to see the boy,
but were not permitted to see him. It
was at this time that the assault is al-
leged to have taken place. Finding
that they were unable to see the boy,
Officers Richards and Hillhouse were
left on guard while Chief Fitzgerald
came to Quincy for a warrant. When
he returned the boy had escaped the
eagle eyes of the officer on guard.

Chief Fitzgerald alleges that the
women assaulted him, and exhibits the
backs of his hands which bear evidence
of having come in contact with some-
one's finger nails.
Judge Avery refused to issue the
warrant this morning but will give the
parties interested a hearing tomorrow
morning to determine whether a warrant
shall be issued as requested by Mr.
Lewis.

OPPOSITION.

Councilman Nickerson Against
Grade Crossings.

The Daily Ledger of yesterday was
misinformed relative to the hearing be-
fore the Railroad Commissioners rela-
tive to the freight railroad at grade
across Quincy avenue and other streets
at grade.

Councilman Nickerson arrived late,
and the hearing was about to close
with the remark of the chairman, "As
there appears to be no objection—" when
Mr. Nickerson said there was
opposition. He spoke vigorously against
grade crossings. He said he was not
at all opposed to the railroad or the
company. The Council had done all it
could for the company in the way of
street widenings, new streets, and was
building a \$55,000 school house because
of the influx of children. As a Council-
man he would favor the city paying
part of the cost of eliminating the
grade crossings. A grade crossing in a
valley at the foot of two hills would be
a mistake especially as an electric rail-
way traversed the avenue.

Mr. Nickerson caused the Railroad
Commissioners to admit that no regu-
lations adopted by a City Council
would be operative; further that the
City Council could never revoke loca-
tion.
The Commissioners intimated that
regulations would be imposed on them
if location was approved.
The hearing was adjourned to a later
date that the board might inspect the
route.

Seniors Entertainment.

A large audience gathered at High
school hall, Wednesday evening to en-
joy the entertainment under the aus-
pices of the Seniors, so many in fact,
it was necessary to provide more seats.
Prof. Elbert Poland of the Emerson
College of Oratory, was down for three
readings and responded to several en-
cores and was a clever entertainer.
John Findlay, a pupil of the school,
who has made a reputation as a soloist,
sang beautifully. He was accompanied
by Miss Litchfield. The wit of the
evening was the sleight of hand by Prof.
Ernest A. Cornell. He did some very
clever tricks and was very successful in
bringing forth from an empty hat an
unusually large miscellaneous collec-
tion. His feats in making articles
disappear were also mystifying. The
committee on entertainment were
George Bailey and Harvey Jewell. Over
\$50 were cleared.

Mrs. Herbert J. Polk of Beach street,
Wollaston, is visiting friends in Cum-
berland, Rhode Island.

Cuffs' orchestra will furnish the
music at the annual ball of Quincy
Council, K. of C., Monday night,
April 13.

A. A. Linscott and George P. Mead
secured the souvenirs at the Granite
City club whist tournament on Wednes-
day evening.

Tonight will probably settle the ques-
tion whether the Granite City club will
secure any of the four prizes in the
Norfolk County league games.

John Odum has moved into the new
house on Charles street, Quincy Point,
and intends to become a permanent
resident of the Point district.

Congressman McNary will recommend
Richard T. Kiernan of Dorchester for
West Point with Francis J. Comerford
also of Dorchester as first alternate.

May 1 is the date set by the Junior
class at the High school for their annual

trip of two or three weeks to the South.
They left Boston in a steamer for Ports-
mouth and Norfolk; from there they go
to Gettysburg, Washington, Baltimore
etc.

A Boston paper reports that May
Fook of Quincy told quaintly in En-
glish at Berkeley Temple, Monday even-
ing, "The difference between Chinese
and American education." It was the
eight anniversary of the New England
Chinese Mission. About 150 Chinese
were present.

The youth who aspire to play base
ball in Atlantic are having a hard time
trying to find a campus. Several com-
plaints have been made as their choice
fell on different fields, although the
boys are not troublesome. The only
place they have not chosen is the play-
ground on Sagamore street, where the
boys should play unmolested.

Swedish Monument.

A monument was unveiled at Wil-
mington, Del., on Monday, to mark the
place where the first Swedish settlers in
America landed. It is a place called
the Rocks, at the foot of Seventh street,
on the banks of the Christiana river.
The landing was made on April 29,
1638.

Chinese R. bellion Spreading
Shanghai, April 2.—After defeating
the imperial troops with heavy loss, the
Kwang Si rebels have laid siege to Lin-
chow, where the governor, who had
been deposed and ordered to Peking, is
surrounded. Kweilin, the provincial
capital, is also in a state of siege, and
three rebel armies are approaching that
city to aid the besiegers in making a
joint attack on the place.

Fatally Shot by Policeman
Lock Haven, Pa., April 2.—A man
giving the name of Harry Williamson,
New York city, was shot and fatally in-
jured last night by Policeman Brendel.
Brendel saw Williamson lying in the
gutter. The latter, when spoken to,
arose and fired at Brendel. The police-
man then shot Williamson through the
lungs.

FURNITURE LOGIC.

The Real Bargain and the Imitation.

The greatest evil in the country today is the misuse of the term BARGAIN, which misleads thousands and thousands of honest people. Manufacturing industries are being demoralized to cheapen the cost of articles. The imitation is made to look like the real, by using inferior qualities of stock and making cheats and bad workmen of countless boys that might otherwise become mechanics of high skill, just for the sole purpose of making goods to sell as bargains, and sap the hard earned money of millions of people by giving worthless values and filling homes with rickety furniture, unhealthy and unsightly garments and poisoned food.

Occasionally we lose a customer who is misled by the deception of an article offered as a bargain in some other store. We have lost a sale, but kept our reputation, and will probably get that customer when the deception of the cheap article shows. Honesty is the best policy, slow as is the lesson in learning, and its just to this latter policy our success and steadily increasing business may be attributed.

There are many people yet to learn of our stores and our store methods. More for your money here, quality being equal, than in any other store in New England. Honest Reliable Goods. No deception. No matter what you may need for your home this spring we have much for your consideration.

Piece Work at Navy Yard.

A Washington dispatch to the Herald
says: The battleship Connecticut, under
construction at the New York navy
yard, is but 1 per cent. advanced, while
the Louisiana, which is under con-
struction by the Newport News Ship
Building Company is advanced 3 per
cent. The New York yard lacks the
appliances which the private firm
possesses. In view of the race on be-
tween the government and the private
shipbuilder, Rear Admiral Bowles has
recommended the adoption of a system
of piece work at New York, employees
being required to do a minimum
amount of work each day. The men
are understood to favor the plan.

Quincy Man Publisher.

After negotiations that have pro-
gressed for several weeks, the deal was
consummated this week by which John
Wanamaker ceases to be a magazine
publisher. He has sold the rights and
titles of his publication, Everybody's
Magazine, to a corporation that in
future is to conduct the periodical.
The new corporation will be known as
The Ridgway-Thayer Company, and is
composed of Erman J. Ridgway, John
Adams Thayer, formerly of Quincy,
and C. W. Wilder. Mr. Thayer is a
director of the Butterick Publishing

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and
Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin
Caskoden's Memoir

By **EDWIN CASKODEN [CHARLES MAJOR]**

Copyright, 1898 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger
of Monday, March 16, and
will be continued daily until com-
pleted.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a
duelist on the field of honor and is appointed
captain of the king's guard at the English court.
The king's sister, Mary Tudor, quickly sets her
fancy upon the gallant stranger. Brandon
makes a confidant of Edwin Caskoden, master
of the dance. III.—Caskoden is attentive to
Lady Jane Bolingbroke, companion to the
princess. In a fit of petulance Mary rebukes
Brandon, then craves forgiveness. IV.—Brandon
teaches Mary a new dance learned in
France. The young princess is shocked at
first, then delighted with the sensation of Bran-
don's arm around her waist. Brandon declares
that the girl is perfect, but the game of making
love to royalty is dangerous. V.—Brandon
crosses swords with the Duke of Buckingham,
an unwelcome admirer of the princess. VI.—
Mary, Lady Jane, Brandon and Caskoden
ride to Windsor with the king. Mary shows
decided partiality for Brandon's company, and
on the return he is sent a day ahead of the
royal party.

CHAPTER VII.

LOVE'S FIERCE SWEETNESS.

AFTER we had all returned to
Greenwich the princess and
Brandon were together fre-
quently. Upon several occa-
sions he was invited, with others, to
her parlor for card playing. But we
spent two evenings with only four of
us present prior to the disastrous
events which changed everything, and
of which I am soon to tell you. During
these two evenings the "Sailor
Lass" was in constant demand.
This pair, who should have remained
apart, met constantly in and about the
palace, and every glance added fuel to
the flame. Part of the time it was Mary
the princess with her troublesome dignity,
and part of the time it was Mary—
simply Mary. Notwithstanding these
haughty moods, any one with half an
eye could see that the princess was
gradually succumbing to the budding
woman; that Brandon's stronger na-
ture had dominated her with that half
fear which every woman feels who
loves a strong man—stronger than her-
self.

One day the rumor spread through
the court that the old French king,
Louis XII, just died, Anne of Brit-
tany, had just died, had asked Mary's
hand in marriage. It was this prob-
ably which opened Brandon's eyes to
the fact that he had been playing with
the very worst sort of fire, and first
made him see that in spite of himself,
and almost without his knowledge, the
girl had grown wonderfully sweet and
dear to him. He now saw his danger
and struggled to keep himself beyond
the spell of her perilous glances and
siren song. This modern Ulysses made
a masterful effort, but, alas, had no
ships to carry him away and no wax
with which to fill his ears. Wax is a
good thing, and no one should enter
the siren country without it. Ships,
too, are good, with masts to tie oneself
to and sails and rudder and a gust of
wind to waft one quickly past the is-
land. In fact, one cannot take too
many precautions when in those en-
chanted waters.

Matters began to look dark to me.
Love had dawned in Mary's breast,
that was sure, and for the first time,
with all his fierce sweetness; not that
it had reached its noon, or anything
like it. In truth, it might I hoped, die
in the dawning, for my lady was as ca-
pricious as a May day, but it was love
—love as plain as the sun at rising.
She sought Brandon upon all occasions
and made opportunities to meet him—
not openly, at any rate; not with Bran-
don's knowledge, nor with any con-
viviality on his part, but apparently car-
ing little what he or any one else might
see. Love lying in her heart had made
her a little more shy than formerly in
seeking him, but her straightforward
way of taking whatever she wanted
made her transparent little attempts
at concealment very pathetic.

As for Brandon, the shaft had en-
tered his heart, too, poor fellow, as
surely as love had dawned in Mary's.
He knew the hopeless misery such a
passion would bring him, and helped
the good Lord, in so far as he could,
to answer his prayer and lead him not
into temptation. As soon as he saw
the truth he avoided Mary as much as
possible.

ly believe he did not. Although he
was quite at ease in her presence, too
much so, Mary sometimes thought, and
strangely enough, sometimes told him
in a fit of short lived, quickly repented
anger that always set him laughing,
yet there was never a word or gesture
that could hint of undue familiarity.
After these last two meetings, al-
though the invitations came frequent-
ly, none was accepted. Brandon had
contrived to have his duties, ostensibly
at least, occupy his evenings and did
honestly what his judgment told him
was the one thing to do—that is, re-
main away from a fire that could give
no genial warmth, but was sure to
burn him to the quick. I saw this only
too plainly, but never a word of it was
spoken between us.

The more I saw of this man the more
I respected him, and this curbing of his
affections added to my already high es-
teem. The effort was doubly wise in
Brandon's case. After a time Mary
began to suspect his attempts to avoid
her, and she grew cold and distant
through pique. Her manner, however,
had no effect upon Brandon, who did
not, or at least appeared not, to notice
it. This girl could not endure, and,
lacking strength to resist her heart,
soon returned to the attack.

Mary had not seen Brandon for nearly
two weeks and was growing anx-
ious, when one day she and Jane met
him in a forest walk near the river.
Brandon was sauntering along read-
ing when they overtook him. Jane told
me afterward that Mary's conduct up-
on coming up to him was pretty and
curious beyond the naming. At first
she was inclined to be distant and say
cutting things, but when Brandon be-
gan to grow restive under them and
showed signs of turning back she
changed front in the twinkling of an
eye and was all sweetness. She laugh-
ed and smiled and dimpled, as only she
could, and was full of bright glances
and gracious words.

She tried a hundred little schemes to
get him to herself for a moment—the
hunting of a wild flower or a four
leaved clover or the exploration of
some little nook in the forest toward
which she would lead him—but Jane
did not at first take the hint and kept
close at her heels. Mary's impulsive
nature was not much given to hinting
—she usually nodded, and most em-
phatically at that—so after a few fail-
ures to rid herself of her waiting lady
she said impatiently: "Jane, in the
name of heaven, don't keep so close to
us! You won't move out of reach of
my hand, and you know how often it
inclines to box your ears!"

Jane did know, I am sorry for Mary's
sake to say, how often the fair hand
was given to such spasms; so with this
emphatic hint she walked on ahead,
but sulky at the indignity put upon
her and half amused at her whimsical
mistress.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and
I went into gardening, I was sure to have an
attack of rheumatism, and every attack was
more severe than the preceding one," says
Josie McDonald, of Man, Logan county,
West Va. "I tried everything with no relief
whatever, until I procured a bottle of Cham-
berlain's Pain Balm, and the first application
gave me ease, and before the first bottle was
used I felt like a new person. Now I feel
that I am cured, but I always keep a bottle
of Chamberlain's Pain Balm in the house,

soon drive it away with one or two applica-
tions of this liniment." For sale by all

SHORT OVER \$21,000

**Cooke's Misdeeds Said to Include
Embezzlement and Forgery**
Milford, Mass., April 2.—Walter S.
V. Cooke, former treasurer of the
Milford Co-operative bank, was short
\$21,217.22 in his accounts at the time
he tried to kill himself at his home
in Boston a month ago. The report of
the expert accountants was submitted to
the bank directors last night.

The accountant, G. W. Manson, says
that embezzlement, forgery and per-
jury are shown by the books. The
shortage to the bank is \$16,217.22, to
which is added the loss of \$5,000 on the
treasurer's bond. The accountant
found that notes on mortgages had
been paid, the mortgages left uncan-
celled and the notes marked unpaid;
false entries were made in the cash
book, and checks had been forged with
President Eldridge's name and the pro-
ceeds taken by Cooke. The books of
the bank, Manson says, were badly
kept, and traces of dishonesty were to
be found in the accounts as far back
as 1897. He confined his report to the
last year.

Cooke was brought here from Bos-
ton Monday and held in \$20,000 for the
grand jury on the charge of embezzle-
ment. He is now at the Worcester jail,
and is on the road to recovery from a
bullet wound in the head. From the
time of his arrest it has generally been
accepted that the defalcation was about
\$15,000. It is stated that if Cooke
should manage to get bail he will be
re-arrested, charged with forgery.

Ellhu Hayes Dead

Lynn, Mass., April 2.—Ellhu B.
Hayes, a former mayor of Lynn and
known as the father of the Australian
ballot law, died at his home here last
evening from irritation of the brain,
resulting from a fall at his home last
October. He was born at West Leb-
anon, Me., in 1848. He came to Lynn
in 1865 and was employed in the shoe
industry until 1872. Later he estab-
lished a wholesale newspaper trade.
He became one of the owners of the
old Lynn Bee in 1882, and in 1885 ac-
cused charge of the Boston Daily
Advertiser and Record.

Negro Student Wins Yale Prize

New Haven, April 2.—The Henry
James TenEyck prize at Yale was
awarded last night to William Pickens,
a member of the junior academic class,
whose home is at Little Rock. The
prize is the income of \$2000 given an-
nually for excellence in the junior ex-
hibition speaking. Pickens is a negro.
The subject was "Hayti." He
treated the history of the island his-
torically and predicted that its welfare
lay in the control of its destinies by
Great Britain or America.

Discouraged by Ill Health

Fall River, Mass., April 2.—A chance
caller yesterday at his home on Main
road, Tiverton, R. I., found O. E. Har-
good, aged 51, seated in a chair at the
kitchen table dead from morphine
poisoning. The others of the family
were away from home and the suicide
had spent the night alone. He left sev-
eral letters addressed to friends giving
the address of his wife and children
and saying that ill health prompted the
act he was about to commit.

Merchants' Carnival at Gloucester

Gloucester, Mass., April 2.—The
merchants' carnival opened auspicious-
ly yesterday and will continue for four
days. The streets are beautifully
decorated, store windows attractively
trimmed and frequent band concerts
contribute to the pleasure of the crowds
attracted from a distance. Last night
the streets were brilliant with colored
electric lights.

Means Life Imprisonment

Boston, April 2.—The exceptions of
Edward Carter, who was convicted of
murder in the second degree for kill-
ing Thomas Keefe, a policeman of
Everett, while the latter was on duty,
were overruled by the full bench of the
supreme court yesterday. The penalty
for one convicted of murder in the second
degree is life imprisonment in the
state prison.

Labor Measure Turned Down

Concord, N. H., April 2.—The bill
restricting the labor of women and
children employed in the manufactur-
ing establishments of the state to 58
hours per week was killed in the sen-
ate yesterday after having passed the
house unanimously. A resolution
that it was inexpedient to legislate on
the matter resulted yes 15, no 7.

Vermont's First Liquor Licensees

Middlebury, Vt., April 2.—The first
liquor licensees granted in the state un-
der the new license law have been is-
sued by the board of license commis-
sioners to John H. Sargent of the
Hotel Logan and John Higgins of the
Addison house, this place. The fee in
each case was fixed at \$800, spot cash.

Hub's Oldest Policeman Dead

Boston, April 2.—Captain Henry J.
V. Myers, the oldest retired member
of the Boston police force, died yester-
day. He was 86 years old and had a
long and eventful police career. He re-
tired from the Boston force in 1872 and
became a private detective.

Suicide by Drowning

Fall River, Mass., April 2.—The body
of Albert Onrod, 25 years old, who has
been missing since his arrest last
January for assault, was found yester-
day in the Taunton river. The medi-
cal examiner pronounced the case a
suicide.

Strik-Breakers Backed Down

Pittsburg, April 2.—One hundred and
fifty non-union structural iron workers,
imported from Baltimore by the Amer-
ican Bridge company, arrived in this
city yesterday. They were met by a
committee of strikers, who prevailed
on them not to go to work.

THE DEERING MURDER

Explained by the Story of Woman
Who Stood Abuse For Years

Bangor, Me., April 2.—Whatever light
was needed to clear up the mystery of
the death of William A. Deering in
Brewer on the night of March 14 was
furnished yesterday by the widow,
Mrs. Mary H. Deering, who is dying
of a cancer and who has been charged
by a coroner's jury with having killed
her husband, made a statement under
oath practically confessing that it was
she who committed the deed. She does
not clearly state just how the fatal
shot was fired, but says that she took
the revolver from beneath the mattress
of her bed and went to her husband's
room with the intention of killing him
and then herself. She says that her
intentions were after it was too late.

Mrs. Deering deposes that she was
married 21 years ago and that her life
for the most part since then has been
most unhappy. She says that Deering
has beaten her unmercifully and has
made life a burden for her for many
years. She says he has entered her
room in the dead hours of the night,
seized her by the hair and dragged
her from room to room. He has then
stripped her clothing from her in shreds
and dared her to move a muscle or to
cry for help. On one occasion when
he was slightly ill and in bed she was
caring for him, although she was her-
self very ill and weak, he asked her
to bring him something. She did not
respond immediately, whereupon he
leaped from the bed and struck her
with a heavy dining chair. From the
effects of this blow she lay in bed three
weeks unable to turn over. Her at-
tending physician told her that three
ribs were broken. Two years ago he
struck her a fearful blow with his fist,
causing great pain, which became worse.
A physician whom she consulted told
her that the bruise would result in a
cancer and it has. She is dying from
the effects of the cancer.

On the afternoon previous to the
shooting Deering came into her room.
He stood by her bedside and coolly told
her that she could not last long and
that he constantly prayed that her
end would come soon. He taunted her
with her condition and told her what
joy would be his when he should look
within a coffin and view her corpse.
She decided then to kill him and then
commit suicide. Her greatest fear
was not that Deering would kill her,
but that he would kill her sister. Such
in brief is the story of Mrs. Deering.

FURNITURE LOGIC.

The Real Bargain and the Imitation.

The greatest evil in the country today is the misuse of the term BARGAIN, which misleads thousands and thousands of honest people. Manufacturing industries are being demoralized to cheapen the cost of articles. The imitation is made to look like the real, by using inferior qualities of stock and making cheats and bad workmen of countless boys that might otherwise become mechanics of high skill, just for the sole purpose of making goods to sell as bargains, and sap the hard earned money of millions of people by giving worthless values and filling homes with rickety furniture, unhealthy and unsightly garments and poisoned food.

Occasionally we lose a customer who is misled by the deception of an article offered as a bargain in some other store. We have lost a sale, but kept our reputation, and will probably get that customer when the deception of the cheap article shows. Honesty is the best policy, slow as is the lesson in learning, and its just to this latter policy our success and steadily increasing business may be attributed.

There are many people yet to learn of our stores and our store methods. More for your money here, quality being equal, than in any other store in New England. Honest Reliable Goods. No deception. No matter what you may need for your home this spring we have much for your consideration.

THE RULE OF HUMAN RIGHT

Not Merely Profession on the Part of
Our Nation—Adjacent American Re-
publics Cannot Be Imposed Upon
by Foreign Powers—President Says
We Must "Speak Softly and Carry
a Big Stick"

Chicago, April 3.—Six thousand people in a hall, the seating capacity of which is but 5000, gave enthusiastic greeting to President Roosevelt when he stepped upon the stage of the Auditorium last night. The great building has held many a throng, but never one that was more hearty and unstinted in its applause for any man than the crowd that filled it last night.

Chairman McVeigh in a few words announced that the nation's chief executive would be made welcome to the city by Mayor Harrison, who then spoke briefly, extending to the president a hearty welcome.

The president bowed his thanks to Mayor Harrison, and then proceeded in his peculiarly energetic manner to deliver his address. He had some difficulty in commencing for the reason that the cheers that had greeted his first appearance in the hall burst forth with renewed vigor and it was several minutes before he was able to proceed. The address was as follows:

Today I wish to speak to you, not merely about the Monroe doctrine, but about our entire position in the western hemisphere—a position so peculiar and predominant that out of it has grown the acceptance of the Monroe doctrine as a cardinal feature of our foreign policy; and in particular I wish to point out what has been done during the lifetime of the last congress to make good our position in accordance with this historic policy.

Ever since the time when we definitely extended our boundaries westward to the Pacific and southward to the Gulf, since the time when the old Spanish and Portuguese colonies to the south of us asserted their independence, our nation has insisted that because of its primacy in strength among the nations of the western hemisphere it has certain duties and responsibilities which oblige it to take a leading part thereon. We hold that our interests in this hemisphere are greater than those of any European power possibly can be, and that our duty to ourselves and to the weaker republics who are our neighbors requires us to see that none of the great military powers from across the seas shall encroach upon the territory of the American republics or acquire control thereof.

This policy, therefore, not only forbids us to acquiesce in such territorial acquisition, but also causes us to object to the requirement of a control which would in its effect be equal to territorial aggrandizement. This is why the United States has steadily believed that the construction of the great isthmian canal should be done by ourselves. The canal must of necessity go through the territory of one of our smaller sister republics. We have been scrupulously careful to abstain from perpetrating any wrong upon any of these republics in this matter. Our intention was steadfast; we desired action taken so that the canal could always be used by us in time of peace and war alike, and in time of war could never be used to our detriment by any nation which was hostile to us. Such action, by the circumstances surrounding it, was necessary for the benefit and not the detriment of the adjacent American republics.

After considerably more than half of a century these objects have been exactly fulfilled by the legislation and treaties of the last two years. Two years ago we were no further advanced toward the construction of the isthmian canal on our terms than we had been during the preceding 90 years. By the Hay-Pauncefote treaty, ratified in December, 1901, an old treaty with Great Britain, which had been held to stand in the way, was abrogated and it was agreed that the canal should be constructed under the auspices of the government of the United States, and that this government should have the exclusive right to regulate and manage it, becoming the sole guarantor of its neutrality. Immediately following this treaty congress passed a law under which the president was authorized to endeavor to secure a treaty for acquiring the right to finish the construction of, and to operate, the Panama canal, which had already been begun in the territory of Colombia by a French company. The rights of this company were accordingly obtained and

a treaty negotiated with the republic of Colombia.

These treaties are among the most important that we have ever negotiated in their effects upon the future welfare of this country, and mark a memorable triumph of American diplomacy—one of those fortunate triumphs, moreover, which redounds to the benefit of the entire world.

About the same time trouble arose in connection with the republic of Venezuela because of certain wrongs alleged to have been committed, and debts overdue, by this republic to citizens of various foreign powers, notably England, Germany and Italy. After failure to reach an agreement these powers began a blockade of the Venezuelan coast and a condition of quasi-war ensued. The concern of our government was to keep an attitude of watchful vigilance and see that there was no infringement of the Monroe doctrine—no acquisition of territorial rights by a European power at the expense of a weak sister republic—whether this acquisition might take the shape of an outright and avowed seizure of territory or of the exercise of control which would in effect be equivalent to such seizure. This attitude was expressed in two published memoranda, the first being the letter addressed by the secretary of state to the German ambassador, the second the conversation with the secretary of state reported by the British ambassador.

Both powers assured us in explicit terms that there was not the slightest intention on their part to violate the principles of the Monroe doctrine, and this assurance was kept with an honorable good faith which merits full acknowledgment on our part. At the same time, the existence of hostilities in a region so near our own borders was fraught with such possibilities of danger in the future that it was obviously no less our duty to ourselves than our duty to humanity to endeavor to put an end to that. Accordingly, by an offer of our good services in a spirit of frank friendliness to all the parties concerned, a spirit in which they quickly and cordially responded, we secured a resumption of peace—the contending parties agreeing that the matters which they could not settle among themselves should be referred to the Hague tribunal for settlement.

The terms which we have secured as those under which the isthmian canal is to be built, and the course of events in the Venezuela matter, have shown not merely the ever growing influence of the United States in the western hemisphere, but also have exemplified the firm purpose of the United States that its growth and influence and power shall redound not to the harm but to the benefit of our sister republics whose strength is less. Our growth, therefore, is beneficial to human kind in general. We do not intend to assume any position which can give just offense to our neighbors. Our adherence to the rule of human right is not merely profession. The history of our dealings with Cuba shows that we reduce it to performance.

The Monroe doctrine is not international law, and though I think one day it may become such, this is not necessary as long as it remains a cardinal feature of our foreign policy and as long as we possess both the will and the strength to make it effective. This last point is all important, and is one which as a people we can never afford to forget. I believe in the Monroe doctrine with all my heart and soul; I am convinced that the immense majority of our fellow-countrymen so believe in it; but I would infinitely prefer to see us abandon it than to see us put it forward and bluster about it, and yet fail to build up the efficient fighting strength which in the last resort can alone make it respected by any strong foreign power whose interest it may ever happen to be to violate it.

Boasting and blustering are as objectionable among nations as among individuals, and the public men of a great nation owe it to their sense of national self-respect to speak courteously of foreign powers, just as a brave and self-respecting man treats all around him courteously. But though to boast is bad, and causelessly to insult another, worse; yet worse than all is it to be guilty of boasting, even without insult, and when called to the proof to be unable to make such boasting good. There is a homely old adage which runs: "Speak softly and carry a big stick; you will go far." If the American nation will speak softly, and yet build, and keep at a pitch of the highest training, a thoroughly efficient navy, the Monroe doctrine will go far.

Well, in the last two years I am happy to say we have taken long strides in advance as regards our navy. Meanwhile the navy department has seen to it that our ships have been constantly exercised at sea, with the

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." SEVEN OUT OF NINE

Granite City Boys Give
Baintrees a Surprise.

Won at Pool, Billiards
and Whist.

Lost Two on Bowling but One
on a Tie.

The Granite City club took nearly everything in sight Thursday night in the games with Baintree in the Norfolk County league. Granite City scored seven out of the nine points. The result makes it an assured fact that Granite City will carry off the prize for whist, and they have a chance of winning or tying on pool and billiards. It is almost certain that Granite City and North Quincy will tie on billiards, and that Granite City will tie Baintree on pool. Surprises are in order, however, and these games are in doubt.

Had Granite City protested the game of pool with North Quincy, where Emerson a semi-professional was permitted in one set of games to play both the billiard and pool game, which was contrary to all rules of fairness, Granite City would probably have been a sure winner at pool.

In Thursday night's games Granite City won both games of billiards, pool and whist and one string of bowling. There was a tie on the last string, and later this was bowled off, each team bowling two boxes; Baintree won.

The first game of billiards was between McGrath of Granite City and Waite of Baintree. McGrath won by a score of 75 to 68. The second game was between Sears of Granite City and Barnes of Baintree. Sears won by a score of 75 to 58.

At pool, McDonnell of Granite City beat B. Tenney 50 to 34, and Graham of Granite City beat F. Tenney 50 to 45.

The Baintree whist teams, which had become to be considered proof against anything that came along, got up against the real thing and were given a bad beating.

Johnson and Cudworth of Granite City beat Gammon and Keith 10 to 1, and Penniman and Rideout of Granite City beat Johnson and Hazeltine 8 to 2.

All three strings of bowling were close. Baintree won the first string by two pins. Granite City won the second by 23 pins, and the teams tied on the third string, each bowling 300.

When the tie was discovered the teams went back and each bowled two boxes. Baintree bowled 72 and Granite City 71. This gave Baintree two out of the three strings; the total scores were Granite City, 1147; Baintree, 1123.

Ross was high man on singles for Granite City with 99, and on three-string totals with 252. Hill was low man on singles with 63, and on three-string totals with 217.

For Baintree, Hobart was high man on singles with 88, and on three-string totals with 262. Morrow was low man on singles with 63, and on three-string totals with 207.

Governor Bates insists that items of repairs by the State Highway Commission shall be paid out of current funds, and not covered by bond issues. This is the principle that should also prevail in cities. Borrowed money should not be used for the collection of ashes, and assessments levied for payment of sewer debt should not be used for maintenance of Sewer department and interest. The \$30,000 borrowed annually for water extensions in Quincy is used in part for current expenses, and other cases might be cited where borrowed money is used for current expenses.

C. E. Social.

The social at the Wollaston Congregational vestries Thursday evening was greatly enjoyed by a large crowd of Christian Endeavorers and their friends. A special invitation had been extended to the older people and many availed themselves of the privilege of attending.

The program was carried through in good style by the committee, of which Miss Mary A. Sayward was chairman. The playing of the orchestra made a hit with all. The boys, Jack Simmons, Tyler Brigham, Ernest and Bert Armstrong played well together, receiving well deserved applause. Mrs. Dr. Thompson's readings were carefully rendered and well received by her many friends. Mr. W. E. Howard who has been ill for several days was heard to good advantage in Spencer Adams', "Oh Shining Light", accompanied by Miss Hinkley. Misses Gertrude Sayward, Marion West and Gertrude Jones played "Selections from Faust," a trio for the pianoforte showing faithful preparation. They responded to an enthusiastic encore.

Refreshments were served by young ladies of the society, Miss Elizabeth Frame, Miss Thompson, Miss Taylor and Miss Carrie White.

Previous to the social a business meeting of the Y. P. S. C. E. was held at which officers and committees for the coming year were elected. The officers are: Miss Alice Thompson, president; Miss Susie Dorey, vice president; Miss Margaret Thompson corresponding secretary; Mrs. A. P. Saxe secretary and treasurer; and Carlton White librarian.

Kite Flying at Blue Hill.

Thursday was the regular international kite flying day at Blue Hill, the kites going in air shortly after noon. This observatory is the only one at which kites are used in the United States, and the only one on this coast which co-operates with the various stations in Europe, all of which fly kites on the first Thursday of each month.

Gilbert P. Walker, the English expert, who is to have charge of the recently established meteorological service in India, modeled after the United States weather bureau, has left the observatory, where he spent a week in studying the methods used.—Post.

Norfolk County King's Daughters.

Mrs. Elizabeth Drake of this city was elected second director of the Norfolk County association of King's Daughters and Sons at the semi-annual convention at Foxboro on Thursday. Miss M. A. Pedrick of Dedham is the first director, Mrs. Susie P. Sampson of East Weymouth, recording secretary, and Mrs. Annie B. Collins of Hyde Park, treasurer.

ENLARGED HIGH.**Plans for Accommodating One Thousand Pupils.**

The plans for the enlarging of the High school, which were presented to the School Committee by the Committee on Public Buildings of the City Council, will if carried out, furnish accommodations for a thousand pupils, with a hall that will have a seating capacity of one thousand. The present hall will be divided into school rooms. It is not proposed, however, to complete the enlarging in one year.

The plan is to build an addition on the northerly end of the present building this year, which will increase the capacity of the building to seven hundred. This will be sufficient for several years, and will enable the School board to give up the use of the Old High school building. Later on when necessary the second wing will be built, which will furnish accommodations for three hundred more pupils and make the capacity of the school one thousand.

Double Tracking.

The selection of Holbrook is petitioning the railroad commissioners, says the Herald, to recommend to the Old Colony Street Railway Company, "not only to increase its power and improve its equipment, but to ask for a location for a double track in the cities and towns through which its tracks run from Brockton to Neponset, in the expectation that the local authorities will grant the same upon terms which protect the interests of the cities and towns and at the same time enable the company to meet the demands which those who have occasion to use its railway have a right to make upon them for efficient service."

This petition is in line with the recent recommendations of the commissioners on the question of a double track through Randolph, on the Brockton & Milton line.

Best Mocha and Java Coffee Free.

A general invitation is extended to the public to attend the formal opening of the branch store of E. E. Gray Co., at 1523 Hancock street, tomorrow, Saturday. Every visitor purchasing goods to the amount of twenty-five cents will be given a half pound package of the best Mocha and Java coffee. The E. E. Gray Co. really need no introduction to our people, because for a long time hundreds of Quincy people have been patronizing their Boston stores, and so large has grown the Quincy trade that the firm decided to make buying easier and more convenient by opening a branch here. This decision is appreciated as is evidenced by the very many who called at 1523 Hancock street during the past week. If you are not already acquainted with the Gray Co. prices and high grade of goods, you do not want to lose any time visiting the Quincy branch store, because you will find it a channel through which you can add largely to your saving account. Whatever you do don't fail to attend the formal opening, and get the half pound of coffee free.

Two Runaway Boys.

Early Thursday evening Officer Hinchon found two young lads preparing to spend the night in a stone shed at West Quincy. He took them in charge and upon questioning them learned that their names were William Condon and Martin Fenney, aged 13 and 12 years. They had run away from the Home for Destitute Catholic Children on Harrison avenue, Boston.

Condon said he was on his way to Bradford, Conn., where he was born, and where he wanted to spend old home week. Fenney said he belonged in Pawtucket, R. I., where he had a brother.

They were sent to the police station for the night and this morning they were taken back to the home.

Granite Men's Banquet.

The committee on banquet of the Granite Manufacturers Association has done its utmost that all may enjoy themselves. They have chartered a special electric car to leave East Milton at 3.40 P. M. to carry the members and guests from West Quincy to the Quincy station. There will be two special cars on the 4.12 P. M. inward train, and the 11.28 P. M. outward. They also have two electric cars to convey the party from the United States Hotel to the Museum. Anyone who carries a load of care after such arrangements is to be pitied.

Metropolitan Sewer.

In the House on Thursday the Committee on Metropolitan Affairs and Water Supply reported a bill appropriating \$900,000 for additional expenses incurred in constructing the high level sewer for the relief of the Charles and Neponset river valleys; also a bill appropriating \$250,000 for additional expenses in constructing the North metropolitan sewer system.

MILES—In Quincy, April 2, Mrs. Lucy E., widow of Mr. Dawson Miles, of 189 Arlington street, aged 82 years.**MILTON.****Resignation of Pastor Accepted with Regrets.**

Rev. Andrew H. Mulnix, pastor of the East Milton Congregational church, read his letter of resignation last Sunday at the close of the morning service. He also announced that he desired it to take effect May 1. A parish meeting was held Monday evening and the resignation was accepted with great regret. Rev. Mr. Mulnix has been pastor of this church for four years and these four years have been among the most successful in the history of the church. He goes to Faneuil where he will be settled over a new parish.

The Thursday Evening club held its annual meeting this week.

Mr. and Mrs. Frank Gallagher are being congratulated on the birth of a son on Monday.

The Mt. Pleasant Quarry Co. has been awarded the contract to furnish the granite for the new Mission of Our Saviour church.

A match game of checkers was played Monday evening between Charles Fisher and Eugene Gallagher for the championship of East Milton. Gallagher has held the belt up to these games when he surrendered it to Fisher, who won two out of the three games.

Rev. Theodore I. Reese gives a lecture on the "Life of Christ," illustrated with the stereopticon at Ellsworth hall next Wednesday evening.

Mrs. A. B. Cooper entertained friends at whist Wednesday evening at her home on Otis street.

The alarm from Box 48 at 3.10 Thursday afternoon was for a grass fire off Eliot street.

Plans for remodeling the East Milton Congregational church have been made and work will be commenced at an early date.

Chief Pierce attended the meeting of the Police Chiefs at the American House, Boston, Thursday evening.

Quarrymen on Strike.

A Lowell dispatch of Thursday to the Globe says the quarry workers of Westford, Graniteville and the Chelmsfords, to the number of nearly 600, are on strike, their demands for an eight-hour day at the same wages they received previously being refused by the quarry owners.

The men held a meeting this morning at Westford and voted unanimously to remain out until their demands are acceded to.

The quarry owners are as determined as their employees. They state that they cannot and will not pay the wage schedule asked for by their employees, but that they are willing to pay as much to their men as their competitors.

The places affected by the strike are H. E. Fletcher & Co., West Chelmsford, 250 men; F. A. Mallory, North Chelmsford, 125 men; P. A. Carkin, North Chelmsford, 60 men, and L. F. Palmer and H. N. Hildreth of Graniteville, about 150 men.

McKinley Certificates.

Postmaster Hammond has received from the McKinley National Memorial Association a limited supply of the certificates which have been prepared for distribution to contributors to the monument fund as souvenirs of their participation in that great enterprise. The certificate is a beautiful work of art on which is given an excellent reproduction of Mrs. McKinley's favorite likeness of her husband, together with a picture of the McKinley home in Canton and of the White House. The wording below the illustrations is as follows: "This certifies that—has contributed to the fund for the erection of the national memorial at Canton, Ohio, in honor of William McKinley." The workmanship and artistic effects are of the very highest order.

March Was Warm.

According to the Boston meteorological summary for March, the month was a great deal warmer and somewhat wetter than the average since the establishment of the weather bureau, 33 years ago. The mean temperature was 44 degrees, while that for March was 49 degrees. The mean temperature was 44 degrees, while that for March was 49 degrees. Morrill's Tree Ink.

Those who have nice trees should now protect them for the next few weeks. The frost is out of the ground and the grubs have commenced to crawl up the trunks of the trees. A little ink used now will catch hundreds of the millers and save your trees from the destructive work of the canker worms. For sale at this office by George W. Prescott & Son.

MONROE DOCTRINE.

[Continued from Page 1]

great guns, and in maneuvers, so that
their efficiency as fighting units, both
individually and when acting together,
has been steadily improved. Re-
member that all of this is necessary.

To lay up a battle ship and only send
it aloft at the outset of a war, with a
raw crew and untried officers, would
be not merely a folly but a crime, for
it would invite both disaster and dis-
grace. The navy which so quickly de-
cided in our favor the war in 1898 had
been built and made efficient during
the preceding 15 years. The ships that
triumphed off Manila and Santiago had
been built under previous administra-
tions with money appropriated by
previous congresses. The officers and
the men did their duty so well because
they had already been trained to it by
long sea service. All honor to the
gallant officers and gallant men who
actually did the fighting; but remember,
too, to honor the public men, the ship-
wrights, and steel workers, the owners
of the shipyards and armor plants, to
whose united foresight and exertion
we owe it that in 1898 we had craft
so good, guns so excellent, and Amer-
ican seamen of so high a type in the
cannon towers, in the gun turrets, and
in the engine rooms. It is too late to
prepare for war when war has come;
and if we only prepare sufficiently no
war will ever come.

We wish a powerful and efficient
navy, not for purposes of war, but as
the surest guaranty of peace. If we
have such a navy—if we keep on build-
ing it up—we may rest assured that
there is but the smallest chance that
trouble will ever come to this nation;
and we may likewise rest assured that
no foreign power will ever quarrel
with us about the Monroe doctrine.

Will Cut Out "High Ball"

New York, April 3.—After a meet-
ing of the executive committee of the
Dealers' association yesterday to con-
sider the law increasing the excise tax
50 percent, a member of the committee
said: "A small uniform glass will be
adopted for beer and 5 cents will go
on the cans. The whiskey, too, may be
measured out so that there will be no
chances for four-fingered drinks."

Albany, April 3.—Governor Odell
yesterday signed the bill increasing the
excise tax in New York state 50 per-
cent.

Running Short of Provisions

St. Johns, April 3.—According to re-
ports from Bay of Islands the 10 Amer-
ican fishing vessels which have been
frozen into the ice field there since Jan.
17 are in a perilous position owing to
the ice does drifting after a severe
storm on Tuesday night. The vessels'
provisions are also running out and the
crews have been put on short rations.
The whole settlement of 3000 people at
Bay of Islands is dangerously short of
provisions and much anxiety prevails.

and eight others injured, a panic in
which 22 families were driven into the
street and a property loss of \$10,000,
make up the result of a fire last night
in a five-story tenement house in
Rivington street. Of those injured
two were seriously hurt. The fire was
the result of the annual clean up of the
East Side district, prior to the beginning
of the feast of the passover.

ing official notices from Premier
Combes to the congregations of the ac-
tion of the chamber of deputies re-
quiring them to disband. This affects
25 teaching orders, having 15,664 mem-
bers, and 28 preaching orders, having
3040 members.

Judge Decides Against Ames

Minneapolis, April 3.—Judge Elliott
yesterday denied the motion to quash
the indictment against former Mayor
Ames, which had been attacked because
of alleged irregularities in drawing the
grand jury. The defense then de-
murred to each of the seven indict-
ments. The court overruled the de-
murrers.

Y. M. C. A. WORK.

Endowment to Erect Buildings in Greater Boston.

Two events of last week have in-
vigorated the management of the Boston
Y. M. C. A., one being the announce-
ment of a legacy of \$100,000 from the
estate of the late Arioch Wentworth,
and the other the urgent advocacy of
new work by the outlook committee of
the Boston Congregational Club, Rev.
Allen E. Cross, assistant pastor of the
Old South Church, chairman.

The large legacy is one-tenth of the
amount needed to begin the expansion
of the association into about twenty
departments and a variety of buildings
in all parts of Greater Boston; and it is
one-thirtieth of the amount needed to
complete those plans. Its chief
significance is said to consist in the
evidence furnished that men of means
are beginning to estimate the work,
actual and potential, according to its
true dimensions.

There are other financial evidences
that the recent efforts toward securing
fruit, inasmuch as two bequest have
been received and two more have
been announced since the plans for ex-
pansion were announced and the total
amount is \$101,000. The Wentworth
legacy is the largest donation in the
form of a gift or legacy that the as-
sociation has ever received. The propo-
sition made by the outlook committee
to the Congregational Club was in the
following terms:

"Let us strengthen our fellowship
through united work. Let the laymen,
if the ministers have not time for it,
get together and pull together. Let
them practice religious team-work in
some great common centre like the
Boston Y. M. C. A., where they can
come to know and esteem one another.
Here is our common parish house, this
Y. M. C. A., never so strong, never so
aggressive, even now asking for three
million dollars to increase its plant.
Let us rally about it. Let us help it by
our good words, by our good gifts, and
by our constant prayers.

Charles E. Smith of Mayflower Park,
father of the late Francis Smith, of
Pearl street, dropped dead Thursday
morning while getting wood for break-
fast. He was a member of Gen. Syl-
vanus Thayer Post 87, G. A. R.

Mrs. H. A. Pierce is on the sick list.
Dr. Burleigh is entertaining his
mother from Newport.

The drama "The Flower of the
Family" lately given under the auspices
of the ladies of All Souls' church, will
by request, be repeated soon at East
Braintree.

The many friends of Franklin D.
Thayer, will be pleased to learn that
he is doing as well as could be expected,
resting quietly at his home.

The work of painting the First
church will be commenced next week;
the color will be kept practically the
same. Some inside carpenter work
will also be done.

Miss Gladys Sampson was given a
surprise party last Friday evening by
her many friends.

A letter received from Atlantic City,
the "Florida of the North," reports an
ideal winter, not a particle of snow
having fallen, while in Philadelphia
only 57 miles away, heavy snow storms
have prevailed. Where the people, who
flock there on Easter, will be accommo-
dated, is becoming a problem, as all
the large hotels have been turning away
applicants since Washington's Birth-
day.

About twenty-five little friends of
Miss Ethel Doane assembled at her
home on Bowditch street on Saturday
afternoon for the purpose of assist-
ing her in celebrating her tenth birthday.
The afternoon was delightfully enjoyed
in playing the usual children's games,
until five o'clock, when they were
summoned to a dainty lunch which had
been prepared for them. Miss Ethel
was the recipient of numerous tokens
in remembrance of the occasion.

Mrs. Harry Blanchard of Neponset,
was the guest of her sister, Mrs.
Hussey on Wednesday.

Warrant Refused.

Judge Avery gave a hearing this
morning on the application of Assistant
U. S. District Attorney Lewis, for a
warrant against Thomas Fitzgerald,
Chief of Police of Weymouth, for as-
saulting a colored woman. Chief Fitz-
gerald was represented by Albert P.
Worthing. The hearing was a private
one and occupied a greater part of the
morning. At its conclusion Judge
Avery refused to grant the warrant.

More Rain Than Usual.

The mean precipitation for the month
of March is 4.27 inches, while the
March just passed showed a rainfall of
5.95 inches, which has been equalled
only once and exceeded only four times
in the 33 years. The excess was 1.68
inches above the mean. There were 11
clear days, 4 that were partly cloudy
and 16 that were cloudy, while on 14
days, 0.1 inch or more of rain fell.

After Sickness

Take Vinol—Our Great Strength Creator.

IT GIVES ONE A SPLENDID APPETITE.

AND QUICKLY REBUILDS THE SYSTEM.

We Will Refund the Price of Vinol if It Fails.

The worst part of sickness, frequently, is getting over it. The patient's strength is depleted, his system is generally demoralized, relapses are continually feared, and naturally.

The one thing to aid recovery is to give the patient that which will enable him to get strong, and at the same time give strength direct to the different organs of the body.

Nothing will do this like Vinol. It acts directly on the stomach, creates a healthy appetite, and enables the digestive organs to obtain the necessary elements to increase the weight of the patient and to make new healthy flesh and muscle tissue and pure, rich, red blood.

The following is a letter showing where Vinol was taken and did good after a case of sickness. It reads as follows:

"I wish to certify to the very great benefit which has been derived from the use of Vinol in my family. My wife was very sick with the grippe and afterward was wholly run down. One bottle of Vinol places her on her feet in better condition than she had been before in six months. I heartily recommend and endorse it."—HENRY F. STURTEVANT, 84 Huntington St., Brockton, Mass.

Everything that is in Vinol is plainly printed on the label of each package.

We know Vinol is a splendid preparation, and in many cases we have been able to see for ourselves the wonderful results it brings about.

Remember that we guarantee Vinol and refund the purchase money if you are not satisfied.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Caskoden's Memoir

By **EDWIN CASKODEN [CHARLES MAJOR]**

Copyright, 1902 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party.

CHAPTER VII.—Continued.

Mary lost no time, but began the attack at once.

"Now, sir, I want you to tell me the truth. Why do you refuse my invitations and so persistently keep away from me? I thought at first I would simply let you go your way, and then I thought I—I would not. Don't deny it. I know you won't. With all your faults, you don't tell even little lies; not even to a woman—I believe. Now there is a fine compliment—is it not?—when I intended to scold you!" She gave a fluttering little laugh, and, with hanging head, continued: "Tell me, is not the king's sister of quality sufficient to suit you? Perhaps you must have the queen or the Blessed Virgin? Tell me now?" And she looked up at him, half in banter, half in doubt.

"My duties," began Brandon.

"Oh, bother your duties! Tell me the truth."

"I will, if you let me," returned Brandon, who had no intention whatever of doing anything of the sort. "My duties now occupy my time in the evening."

"That will not do," interrupted Mary, who knew enough of a guardsman's duty to be sure it was not onerous.

"You might as well come to it and tell the truth; that you do not like our society." And she gave him a vicious little glance without a shadow of a smile.

"In God's name, Lady Mary, that is not it," answered Brandon, who was on the rack. "Please do not think it. I cannot bear to have you say such a thing when it is so far from the real truth."

"Then tell me the real truth."

"I cannot; I cannot. I beg of you not to ask. Leave me, or let me leave you! I refuse to answer further." The latter half of this sentence was uttered doggedly and sounded sullen and ill humored, although of course it was not so intended. He had been so perilously near speaking words which would probably have lighted, to their destruction, the flames within their breast that it frightened him, and the manner in which he spoke was but a tone giving utterance to the pain in his heart.

Mary took it as it sounded and in unfeigned surprise exclaimed angrily: "Leave you? Do I hear aright? I never thought that I, the daughter and sister of a king, would live to be dismissed by a—by a—any one."

"Your highness!" began Brandon, but she was gone before he could speak.

He did not follow her to explain, knowing how dangerous such an explanation would be, but felt that it was best for them both that she should remain offended, painful as the thought was to him.

Of course, Mary's womanly self-esteem, to say nothing of her royal pride, was wounded to the quick, and no wonder.

Poor Brandon sat down upon a stone, and as he longingly watched her retiring form wished in his heart he were dead. This was the first time he really knew how much he loved the girl, and he saw that, with him at least, it was a matter of bad to worse and at that rate would soon be—worse.

Now that he had unintentionally offended her and had permitted her to go without an explanation she was dearer to him than ever, and as he sat there with his face in his hands he knew that if matters went on as they were going the time would soon come when he would throw caution to the dogs and would try the impossible—to win her for his own. Caution and judgment still sat enthroned, and they told him now what he knew full well they would not tell him after a short time—that failure was certain to follow the attempt and disaster sure to follow failure. First, the king would in all probability cut off his head upon an intimation of Mary's possible fondness for him, and, second, if he should be so fortunate as to keep his head, Mary could not and certainly would not marry him even if she loved him with all her heart. The distance be-

tween them was too great, and she knew too well what she owed to her position. There was but one thing left—New Spain, and he determined while sitting there to sail with the next ship. The real cause of Brandon's manner had never occurred to Mary. Although she knew her beauty and power, as she

There was but one thing left—New Spain.

could not help but know it—not as a matter of vanity, but as a matter of fact—yet love had blinded her where Brandon was concerned, and that knowledge failed to give her light as to his motives, however brightly it might illumine the conduct of other men toward whom she was indifferent.

So Mary was angry this time—angry in earnest—and Jane felt the irritable palm more than once. I, too, came in for my share of her ill temper, as most certainly would Brandon had he allowed himself to come within reach of her tongue, which he was careful not to do. She did not tell Jane the cause of her vexation, but only said she verily hated Brandon, and that, of course, was the key to the whole situation.

After a fortnight this ill humor began to soften in the glowing warmth of her heart, which was striving to reassert itself, and the desire to see Brandon began to get the better of her sense of injury.

Brandon, tired of this everlasting watchfulness to keep himself out of temptation and dreading at any moment that lapse from strength which is apt to come to the strongest of us, had resolved to quit his place at court and go to New Spain at once. He had learned upon inquiry that a ship would sail from Bristol in about twenty days and another six weeks later. So he chose the former and was making his arrangements to leave as soon as possible.

AFTER EQUINOX

The season has changed. Cold winds, damp air, coughs, colds, grippe, pneumonia—that's the order of events.

This is the time of year for those with weak lungs or a tendency to heavy colds to fortify themselves against exposure by taking Scott's Emulsion.

Regular doses give great protection to the throat and lungs. What's the use of staying near the edge when such easy treatment will keep you out of danger.

For obstinate colds, for old coughs, for catarrh and bronchitis Scott's Emulsion is a standard remedy. You can feel the effects of even a small bottle.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl Street, New York.

A REVISION OF TARIFF

Should Not Be Attempted Except For Grave Reasons

IT WOULD MEAN DISASTER

In the Opinion of Secretary Root—Lodge Defends Soldiers in the Philippines—Bryan Denounces Cleveland and Rejects "Harmony"

Boston, April 3.—Secretary of War Root and Senator Lodge were the guests of honor and principal speakers last night at the annual dinner of the Home Market club, the representative Republican organization of New England. Mr. Root spoke upon the tariff and Mr. Lodge upon the question of Canadian reciprocity and of the charges made against the American soldiers in the Philippines. Governor Bates also spoke, although briefly, in the way of greeting to the guests. All three speakers were accorded magnificent ovations.

After prayer by Rev. Dr. Gordon, Toastmaster Hutchins introduced Governor Bates, who said that the country appears to be suffering from a disease that is peculiar. The railroad companies cannot furnish trains enough to carry the goods that are offered them, strikes are breaking out among those who seek a large share of the country's wealth, manufacturers are thriving, and all this indicates that the country is suffering from a disease commonly known as prosperity. He then presented a few statistics to show the wealth and commercial development of Massachusetts and the whole country.

When Mr. Root arose he at once entered into the subject of the tariff and its revision. After submitting the proposition that whatever policy is introduced that there is always a large body of people opposed to it, Mr. Root said that this class of citizens had recently turned its attention to the protective system of the United States. These people are free traders, augmented by the members of the Democratic party, and the two demand what they call revision of the protective tariff, but which they really mean to be a destruction of the protective tariff.

Assuming that the principle of protection should be maintained, Mr. Root contended that revision should not be undertaken, except for grave and serious reasons, on account of its disastrous effect on the country, and when subjected to revision it should be done from an active political campaign, and particularly it should be revised by its friends.

Senator Lodge first addressed himself at some length to consideration of Canadian reciprocity and then later to the alleged cruelties by the American soldiers in the Philippines. He deplored whatever cruelties had occurred, but pleaded that they were in a measure justified. He said:

"We deeply regret that any American soldier ever administered the water cure. But there are some things that we remember that the other side wholly forget. We remember the dangers to which our men were exposed and their solitary perils in those distant tropical forests. We remember their provocations. We deplore and censure the cruelties they may have committed, but we do not forget, as the other side forgets, the cruelties that our men endured."

"The Republican party has passed in both sessions of this congress wise, far reaching legislation for the benefit of the Philippine islands. We are not defenders of cruelty or of wrong doing anywhere, at home or abroad, but we are the defenders of the officers and men of the American army against persecution and injustice, and we propose to remain so."

"CLEVELAND'S CRIMES"

Referred to by Bryan in a Speech in Which He Rejects "Harmony"

Des Moines, April 3.—Three hundred Democrats attended the Jeffersonian banquet here last night. The principal speakers were William J. Bryan and Adlai E. Stevenson. Mr. Stevenson said that we are almost upon the threshold of another presidential contest and in unrelenting hostility to the policy of the party in power the Democratic party will favor the abolition of all unnecessary and unjust taxes; will demand a reduction to the minimum the cost of every needed article of consumption. It will stand in reality the antagonist of trusts. Confident that the experience of a century has demonstrated the wisdom of avoiding "foreign complications and entangling alliances" it will oppose imperialism.

Mr. Bryan, who spoke on Democracy, said in part: "While this banquet has not been advertised as a 'harmony banquet,' it is much more in the interest of harmony than high-priced banquets, which are held for the purpose of securing a select audience for the men who have not recently appeared on the stump in behalf of the Democratic party."

"The difference which existed on the money question still exists, for while the Republicans are boasting that the money question is settled, money is tight in the great financial centers. On the trust question the same line of cleavage appears. The men who threatened a panic if silver was restored, now threaten a panic if the trusts are disturbed and the trust magnates are casting about for a Democratic candidate so much like a

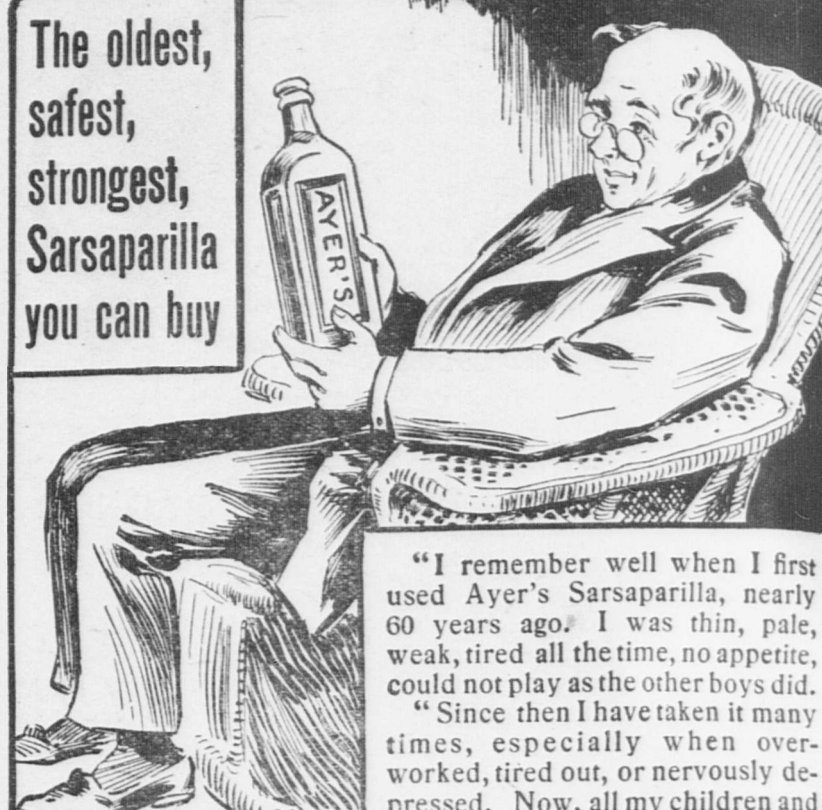

Republican that the trusts can rest easy no matter which candidate is elected. "Reorganization means retreat and retreat means demoralization and disaster. From the low standpoint of experience retreat could not be justified. The party polled nearly 1,000,000 more votes in support of the Chicago and Kansas City platforms than were polled by Mr. Cleveland, even before his political crimes were exposed. It is really insulting to a man to intimate that he thinks it is more important that we get control of the administration than that we administer power in accordance with Democratic principles and in the interest of people at large. I say that a right principle must be dropped because the party has suffered defeat in support of the principle is as ridiculous as it is cowardly."

The banquet proper was announced as a gathering of Democrats without regard to differences of opinion as to party policy, but in the afternoon a meeting of Kansas City platform adherents was held at which an organization was formed.

Mr. Bryan attended the meeting and endorsed the movement. "The Democracy of America does not want 'harmony,'" he told those present. "It wants the triumph of Democratic principles."

—Open air concert season began last Friday night says the Weymouth Gazette and frog solos, quartettes and choruses were wafted along by the evening zephyrs.

The oldest, safest, strongest, Sarsaparilla you can buy

"I remember well when I first used Ayer's Sarsaparilla, nearly 60 years ago. I was thin, pale, weak, tired all the time, no appetite, could not play as the other boys did. 'Since then I have taken it many times, especially when overworked, tired out, or nervously depressed. Now, all my children and their children use it. As a medicine for the whole family it has no equal. 'I long ago learned the first great rule of health—keep the bowels regular—so I am never without Ayer's Pills.' J. C. Ayer & Co., Lowell, Mass."

The Compass whist club were enter-
tained Tuesday evening by Mr. and
Mrs. Charles R. Safford at their resi-
dence on Clive street. The fortunate
prize winners were Mrs. Charles R.
Safford and Councilman Charles R. Al-
den and Mr. and Mrs. Charles L. Coe.
Light refreshments were served at the
close of the evening. The last meeting
of the club for the season will be held
with Mrs. James E. Curtin. This club
is among the oldest in Quincy, having
met together twelve seasons with very
little change in membership.

Mr. and Mrs. Charles F. Harper of
Putnam street are spending a few days
at Walpole.

One of the prettiest social affairs of
the week was the dancing party given
at Colonial hall on Tuesday evening,
by Mrs. Everett C. Bumpus, for her
daughter, Miss Christine Bumpus.
Guests were present from Boston,
Braintree and Quincy.

Rev. Mr. Butler gave a paper before
the Woman's Alliance at Brighton on
Wednesday April 1st.

Mrs. Van Wagner of New York has
been visiting her daughter, Mrs. Ernest
L. Cole of Elm knoll, Braintree.

Mrs. Frank E. Hall of Worcester has
been the guest for a few days of Mrs.
Tupper of Spear street and her former
neighbors and friends had the pleasure
of greeting her.

Mr. Joseph C. Morse, Jr., Mr. Walter
S. McKenzie and Mr. Edwin M. Morse
have issued invitations to a subscription
dancing party to be held at Colonial
hall on Wednesday evening, April
eighth, from eight until half after
eleven.

Miss Helen Claflin, daughter of Mr.
and Mrs. R. F. Claflin of Greenleaf
street, is expected home from Europe
on Monday. She has been away a year
and her many friends are anticipating
her return with much pleasure.

A recent Abington engagement which
is calling forth hearty congratulations
is that of Miss Annie M. Nash and
Mr. Otis D. Allen.

Invitations have been issued by Mr.
and Mrs. C. Edward Lichtenhein for
the marriage of their daughter Lillian
Vennard to Mr. Henry Rutherford
Gabay on Wednesday evening, April
fifteenth, at St. Andrew's Episcopal
church, Rev. Dr. Van de Water
officiating. A large reception will be
given at their residence, No. 255 West
131 street. The bridal party will con-
sist of Miss Anthy Gorton of Gloucester,
Mass., as maid of honor and two
bridesmaids and a matron of honor.
Mr. Gabay will have a best man and
four ushers. Mrs. Charles A. Winslow
has gone to New York to attend the
wedding of her niece, Miss Lichten-
hein is well known in Quincy.

The next meeting of the Ladies'
alliance will take place next Wednes-
day in the Wollaston Unitarian vestry
at 2.30 o'clock, and Mrs. John Litch-
field will repeat her paper on "Historic
Quincy." The inclement weather pre-
vented many from hearing this superior
paper before, and it is hoped a full
house will be in attendance.

Mr. Alfred Jelinek has gone to New
York to spend a few weeks with
friends.

Miss Alberta Webster, of Braintree
has gone to New York City where she
will spend her vacation at the home of
her uncle, Dr. David Webster.

The issue of the New York Dramatic
Mirror of March 28 printed a double
column half-tone of Clara Blandick,
playing Glory Quayle in Liebler & Co.
production, "The Christian." Miss
Blandick is the stage name of Miss
Clara Dickey, formerly of Quincy, who
is meeting with success as a star. She
was leading woman in "Because she
loved him so," and other plays.

Mr. A. F. Campbell of the Quincy
High school is spending his vacation
at Derry, N. H.

The Philergians met Tuesday after-
noon with Mrs. George W. Stevens of
Tremont street, Braintree.

Miss Lane's dance at Colonial hall,
Saturday evening from seven to ten, for
the young people of First Church Sun-
day school, was a great success. Nearly
seventy-five attended and it was an
extremely pretty party, the young ladies
all wearing dainty muslins. Miss
Edith Randall and Mrs. William Ed-
wards were the matrons. Miss Lane
was presented a bunch of violets by the
young people.

Miss Grace E. Drumm, one of the
Greenleaf guests, is spending her Easter
vacation at her home in Chatham,
N. Y.

"Thomas Paine, a Mismeasured
Man" is the subject of the next Unit-
ary club meeting upon April 10 and 11.
Walter M. Hatch, the director. Papers
will be read by Mr. Bishop, Mr. Parlin
and Mr. Hatch. Dr. and Mrs. George
B. Rice will sing. "Flashlight" No.
8 will be read to the club. All inter-
ested are invited to attend.

Capt. Rich of Provincetown was a
guest at the Greenleaf the past week.

Miss Edith Hough, daughter of Mr.
and Mrs. William Hough of Weymouth,
and Mr. Ashton Oliver of Ashmont,
were united in marriage Wednesday.
After a brief visit to New York, Mr.
and Mrs. Oliver will make their home
in Ashmont.

W. G. Rose and family of Wollaston
have taken apartments at the Greenleaf.

Rev. E. N. Hardy of the class of '82
at Cushing academy at Ashburnham,
was the toastmaster at the annual re-
union of the alumni held at the Belle-
vue, Boston, Thursday evening, and
attended by 80 or more. Nearly all
the faculty were present and Principal
Cowell spoke.

Mrs. Harry L. Rice, of Grenwood,
Adams street, is hostess at the meet-
ing of the Friday club next week.
Under the leadership of Mrs. John O.
Hall, Jr., English art and artists: Sir
Thomas Lawrence, Sir David Wilkie,
Sir Francis Chantrey and Benjamin
West, will be discussed.

After very pleasant meetings during
the winter months at the homes of its
members, Adams Chapter Daughters of
the Revolution, are to resume their
meetings at the John Adams birthplace
on Monday afternoon. A fine program
has been arranged and there are to be
guests from other chapters. After the
literary program a social tea will follow.

Rev. Dr. Edward Gayer Andrews,
D. D., LL. D., bishop of the Metho-
dist Episcopal church came to Brook-
line from New York this week to attend
the annual New England conference.

NEW FIRE STATION.

Well Built and Well Adapted to Needs of Houghs Neck.

The new fire station at Houghs Neck
is one of the best public buildings of
its size in the city, and when equipped
with a combination hose wagon and
hook and ladder truck, as it will doubt-
less eventually be, it will take care of
that district in good shape.

The building, which is a two-way
house, is located on the corner of Sea
street and Manet avenue. It is a
wooden structure one story high with
a tower on the easterly end.

The dimensions of the building are
63.3 by 34.6. The main room is divided
into an apparatus room and stable.
The apparatus room is 64.6 wide, and
42.3 long. The stable is 34.6 wide and
21 feet in depth. It has three stalls
with room for two more.

There is an entrance to the stable
from the side, and in the rear is a
manure pit and rack.

In the basement is the steam heater.

The tower which is two stories high
is to be used for toilet and sleeping
rooms. The toilet room is located on
the first floor and the two sleeping
rooms on the second floor.

The building, which is built in a
first class and thorough manner, cost
\$4,300. W. R. Lofgren was the con-
tractor, and Badger Bros. put in the
heating apparatus.

League Standing.

The result of this week's games in
the Norfolk County league make the
Granite City club a score winner on
total points won, as there is but one
more game to finish the series, and it
will be impossible for Braintree, who
is second in the list to pass Granite
City even though they secured all nine
points.

It also makes Granite City a sure
winner at whist. On pool Granite City
and Braintree are close. If Braintree
wins both games next week she will
lead but if she wins but one game she
will tie Granite City.

At billiards Granite City and North
Quincy are close. If North Quincy
wins both games next week from Brain-
tree she leads, and if she wins but one
game she will tie Granite City.

At bowling, North Quincy is a win-
ner even if she loses all three strings
next week.

The following table shows the stand-
ing to date:

	Bill-	Pool.	Whist.	Bowl-	Total.
Granite City,	14	16	17-1-2	11	58 1-2
Braintree,	7	15	14	12	48
North Quincy,	13	3	21-2	28	46 1-2

Y. M. C. A. Notes.

The board of directors of the Young
Men's Christian Association will meet
this evening at 8 o'clock in the office
at Music Hall. Several matters of im-
portance must be decided upon at this
time.

The committee appointed at the
public meeting last Monday night will
also meet at 8:30 o'clock this evening
in the Music Hall building.

The officers of the Association expect
to open offices in the Ditson house Sat-
urday, April 11, one week from today.

The many favorable comments on the
selection and location of the new Y. M.
C. A. property and very encouraging to
board of directors, who desire to please
all sections of the city.

Someone asked the other day, "Where
is the Women's Auxiliary?" In

chased. We can't get along without
the ladies. The local Auxiliary is to
resume.

Hot for A. L. Baker.

A building used as a tool house on
the estate of ex-Tax Collector A. L.
Baker at Braintree, was destroyed by
fire at 3 o'clock this morning. Mr.
Baker and his son held the fire in
check with a lawn hose until the fire
department arrived. The large barn
near the tool house took fire several
times, but was extinguished. Mr.
Baker gives the cause of the fire as
spontaneous combustion among a lot of
clothing saturated with oil. Loss \$100
on building and \$100 on contents.

Luce Bill Passed.

The Luce bill as it passed the House
yesterday 110 to 31, is mandatory on
Boston, but optional elsewhere.

Nothing Like Experience.

"One truth learned by actual experience
does more good than ten experiences one
hears about." Tell a man that Chamber-
lain's Colic, Cholera and Diarrhoea Remedy
will cure cholera morbus, and he will most
likely forget it before the end of the day.

and learn from his own experience how
quickly it gives relief, and he will remember
it all his life. For sale by all druggists.

FURNITURE LOGIC.

The Real Bargain and the Imitation.

The greatest evil in the country today is the misuse of the term BARGAIN, which misleads thousands and thousands of honest people. Manufacturing industries are being demoralized to cheapen the cost of articles. The imitation is made to look like the real, by using inferior qualities of stock and making cheats and bad workmen of countless boys that might otherwise become mechanics of high skill, just for the sole purpose of making goods to sell as bargains, and sap the hard earned money of millions of people by giving worthless values and filling homes with rickety furniture, unhealthy and unsightly garments and poisoned food.

Occasionally, we lose a customer who is misled by the deception of an article offered as a bargain in some other store. We have lost a sale, but kept our reputation, and will probably get that customer when the deception of the cheaper article shows: Honesty is the best policy, slow as is the lesson in learning, and its just to this latter policy our success and steadily increasing business may be attributed.

There are many people yet to learn of our stores and our store methods. More for your money here, quality being equal, than in any other store in New England. Honest Reliable Goods. No deception. No matter what you may need for your home this spring we have much for your consideration.

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party.

CHAPTER VII.—Continued.

He told me of his plans and spoke of his situation. "You know the reason for my going," he said, "even if I have never spoken of it. I am not much of a Joseph and am very little given to running away from a beautiful woman, but in this case I am fleeing from death itself. And to think what a heaven it would be! You are right, Caskoden—no man can withstand the light of that girl's smile. I am unable to tell how I feel toward her. It sometimes seems that I cannot live another hour without seeing her. Yet, thank God, I have reason enough left to know that every sight of her only adds to an already incurable malady. What will it be when she is the wife of the king of France? Does it not look as if wild life in New Spain is my only chance?"

I assented as we joined hands, and our eyes were moist as I told him how I should miss him more than any one else in all the earth—excepting Jane, in mental reservation.

I told Jane what Brandon was about to do, knowing full well she would tell Mary, which she did at once.

Poor Mary! The sighs began to come now, and such small vestiges of her ill humor toward Brandon as still remained were frightened off in a hurry by the fear that she had seen the last of him.

She had not before fully known that she loved him. She knew he was the most delightful companion she had ever met and that there was an exhilaration about his presence which almost intoxicated her and made life an ecstasy, yet she did not know it was love. It needed but the thought that she was about to lose him to make her know her malady and meet it face to face.

Upon the evening when Mary learned all this she went into her chamber very early and closed the door. No one interrupted her until Jane went in to robe her for the night and to retire. She then found that Mary had retired herself and was lying in bed with her head covered, apparently asleep. Jane quietly prepared to retire and lay down in her own bed. The girls usually shared one couch, but during Mary's ill temper she had forced Jane to sleep alone.

After a short silence Jane heard a sob from the other bed, then another and another.

"Mary, are you weeping?" she asked.

"Yes."

"What is the matter, dear?"

"Nothing," with a sigh.

"Do you wish me to come to your bed?"

"Yes, I do." So Jane went over and lay beside Mary, who gently put her arms about her neck.

"When will he leave?" whispered Mary, shyly confessing all by her question.

"I do not know," responded Jane, "but he will see you before he goes."

"Do you believe he will?"

"I know it." And with this consolation Mary softly wept herself to sleep.

After this, for a few days, Mary was quiet enough. Her irritable mood had vanished, but Jane could see that she was on the lookout for some one all the time, although she made the most pathetic little efforts to conceal her watchfulness.

At last a meeting came in this way: Next to the king's bedchamber was a luxuriously furnished little apartment with a well selected library. Here Brandon and I often went afterwards to read, as we were sure to be undisturbed.

Late one day Brandon had gone over to this quiet retreat and, having selected a volume, took his place in a secluded alcove half hidden in arras draperies. There was a cushioned seat along the wall and a small diamond shaped window to furnish light.

He had not been there long when came Mary. I cannot say whether she knew Brandon was there or not, but she was there and he was there, which is the only thing to the point, and, finding him, she stepped into the alcove before he was aware of her presence.

ing himself out most deferentially to leave her in sole possession, if she wished to rest.

"Master Brandon, you need not go. I will not hurt you. Besides, if this place is not large enough for us both, I will go. I would not disturb you." She spoke with a tremulous voice and a quick, uneasy glance, and started to move backward out of the alcove.

"Lady Mary, how can you speak so? You know you must know—oh, I beg you— But she interrupted him by taking his arm and drawing him to a seat beside her on the cushion. She could have drawn down the Colossus of Rhodes with the look she gave Brandon, so full was it of command, entreaty and promise.

"That's it. I don't know, but I want to know, and I want you to sit here beside me and tell me. I am going to be reconciled with you despite the way you treated me when last we met. I am going to be friends with you whether you will or not. Now what do you say to that, sir?" She spoke with a fluttering little laugh of uneasy assurance, which showed that her heart was not nearly so confident nor so bold as her words would make believe. Poor Brandon, usually so ready, had nothing "to say to that," but sat in helpless silence.

Was this the sum total of all his wise determinations made at the cost of so much pain and effort? Was this the answer to all his prayer, "Lead me not into temptation?" He had done his part, for he had done all he could. Heaven had not helped him, since here was temptation thrust upon him when least expected and when the way was so narrow he could not escape, but must meet it face to face.

Mary soon recovered her self possession—women are better skilled in this art than men—and continued:

"I am not intending to say one word about your treatment of me that day over in the forest, although it was very bad and you have acted abominably ever since. Now is not that kind in me?" And she softly laughed as she peeped up at the poor fellow from beneath those sweeping lashes, with the premeditated purpose of tantalizing him, I suppose. She was beginning to know her power over him, and it was never greater than at this moment. Her beauty had its sweetest quality, for the princess was sunk and the woman was dominant, with flushed face and flashing eyes that caused a double master from the glowing love that made her heart beat so fast.

With the mood that was upon her I wonder Brandon maintained his self restraint even for a moment. He felt that his only hope lay in silence, so he sat beside her and said nothing. He told me later afterward that while sitting there in the intervals between her speech, the oddest, wildest thoughts ran through his brain. He wondered how he could escape. He thought of the window and that possibly he might break away through it, and then he thought of feigning illness, and a hundred other absurd schemes, but they all came to nothing, and he sat there to let events take their own course, as they seemed determined to do in spite of him.

After a short silence Mary continued half banteringly: "Answer me, sir! I will have no more of this. You shall treat me at least with the courtesy you would show a bourgeois girl."

"Oh, that you were only a bourgeois daughter!"

"Yes, I know all that; but I am not. It can't be helped, and you shall answer me."

"There is no answer, dear lady. I beg you—oh, do you not see?"

"Yes, yes; but answer my question. Am I not kind, more than you deserve?"

"Indeed, yes; a thousand times. You have always been so kind, so gracious, so condescending to me that I can only thank you, thank you, thank you," answered Brandon almost shyly, not daring to lift his eyes to hers.

Mary saw the manner quickly enough—what woman ever missed it, much less so keen-eyed a girl as she—and it gave her confidence and brought back the easy banter of her old time manner.

"How modest we have become! Where is the boldness of which we used to have so much? Kind? Have I always been so? How about the first time I met you? Was I kind then?"

And as to condescension, don't—don't use that word between us."

"No," returned Brandon, who in his turn was recovering himself; "no, I can't say that you were very kind at first. How you did fly out at me and surprise me! It was so unexpected it almost took me off my feet." And they both laughed in remembering the scene of their first meeting. "No, I can't say your kindness showed itself very strongly in that first interview, but it was there nevertheless, and when Lady Jane led me back your real nature asserted itself, as it always does, and you were kind to me—kind as only you can be."

That was getting very near to the sentimental—dangerously near, he thought, and he said to himself, "If this does not end quickly, I shall have to escape."

"You are easily satisfied if you call that good," laughingly returned Mary. "I can be ever so much better than that if I try."

"Let me see you try," said Brandon. "Why, I'm trying now," answered Mary, with a distracting little pout. "Don't you know genuine out and out goodness when you see it? I'm doing my very best now. Can't you tell?"

"Yes, I think I recognize it, but—but—be bad again!"

"No, I won't! I will not be bad even to please you. I have determined not to be bad, and I will not—not even to be good. This," placing her hand over her heart, "is just full of 'good' today." And her lips parted as she laughed at her own pleasantry.

"I am afraid you had better be bad. I give you fair warning," said Brandon huskily. He felt her eyes upon him all the time, and his strength and good resolves were ebbing out like wine from an ill coopered cask. After a short silence Mary continued, regardless of the warning:

"But the position is reversed with us. At first I was unkind to you, and you were kind to me, but now I am kind to you, and you are unkind to me."

"I can come back at you with your own words," responded Brandon. "You don't know when I am kind to you. I should be kinder, to myself at least, were I to leave you and take myself to the other side of the world."

"Oh, that is one thing I wanted to ask you about. Jane tells me you are going to New Spain."

She was anxious to know, but asked the question partly to turn the conversation, which was fast becoming perilous. As a girl she loved Brandon and knew it only too well, but she knew also that she was a princess, standing next to the throne of the greatest kingdom on earth—in fact, at that time the heir apparent, Henry having no children, for the people would not have the Scotch king's imp, and the possibility of such a thing as a union with Brandon had never entered her head, however passionate her feelings toward him. It was not to be thought of between people so far apart as they.

Brandon answered her question: "I do not know about going. I think I shall. I have volunteered with a ship that sails in two or three weeks from Bristol, and I suppose I shall go."

"Oh, no! Do you really mean it?" It gave her a pang to hear that he was actually going, and her love pulsed higher, but she also felt a sense of relief, somewhat as a conscientious housebreaker might feel upon finding the door securely locked against him. It would take away a temptation which she could not resist and yet dared not yield to much longer.

"I think there is no doubt that I mean it," replied Brandon. "I should like to remain in England until I can save money enough out of the king's allowance to pay the debt against my father's estate, so that I may be able to go away and feel that my brother and sisters are secure in their home—my brother is not strong—but I know it is better for me to go now, and I hope to find the money out there. I could have paid it with what I lost to Judson before I discovered him cheating." This was the first time he had ever alluded to the duel, and the thought of it, in Mary's mind, added a faint touch of fear to her feeling toward him.

She looked up with a light in her eyes and asked: "What is the debt? How much?"

"Heaven help me!" he cried.

"How? Let me give you the money. I have so much more than I need. Let me pay it. Please tell me how much it is, and I will hand it to you. How can I come to my rooms and get it, or I will send it to you. Now tell me that I may. Quickly!" And she was alive with enthusiastic interest.

"There, now, you are kind again, as kind as even you can be. Be sure, I thank you, though I say it only once," and he looked into her eyes with a gaze she could not stand even for an instant. This was growing dangerous again; so, catching himself, he turned the conversation back into the bantering vein.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." For sale by all druggists.

A holiday two weeks from next Monday.

WEEKLY TRADE REVIEW

Strikes the Disturbing Factor in Otherwise Prosperous Conditions
New York, April 4.—R. G. Dun & Co.'s Weekly Review of Trade says: Another week of good weather has brought out a large volume of business, many manufacturers receiving urgent requests for immediate shipment. Floods have caused serious losses at a few points along the Mississippi, and traffic was interrupted on railways in that vicinity, but on the whole the freight situation is more satisfactory than at any previous time this year.

April brought more than the customary number of strikes and probably 50,000 men are voluntarily idle who might be well employed at the highest level of wages ever paid in this or any other country. An economic loss of this magnitude affects many more than those directly concerned. Thus far the most serious controversies have occurred in the building trades and textile lines.

Preparation for the largest April dividend payments on record helped to produce a rate of 15 percent for call money and prevented any extensive operations on borrowed capital.

Bowen Cannot Be Swerved

Washington, April 4.—At a joint conference between Mr. Bowen and the British and Italian ambassadors and the German first secretary yesterday Mr. Bowen presented his reply to the amendments which the allies had proposed to his original draft protocol. He informed the other negotiators that under no circumstances would he accept the insertion of a new article providing that Venezuela should pay the costs of the blockade in case the decision at The Hague be adverse to preferential treatment. His refusal on this point was absolute.

Turkey Ties the Mark

Washington, April 4.—The long expected interview between United States Minister Leishman and the Sultan of Turkey took place at Constantinople yesterday. Minister Leishman cabled the state department that he had presented the president's letter to the sultan and had received satisfactory assurances on all points mentioned. These relate to the recognition of diplomas issued by American colleges in Turkey to native graduates and a general admission of Americans in Turkey to the privileges enjoyed by other nationalities.

Big Crowd With Chinese Minister

Washington, April 4.—Sir Chen Tung Liang Cheng, the new Chinese minister to the United States, with his entire suite and party, including in all about 45 persons, reached Washington last night. The minister's suite differs from that China sends to any other country, as many of the members are sons of distinguished families who come to the United States to acquire a thorough mastery of the English language and to enter American institutions of learning.

Miners All Escaped Injury

Wilkesbarre, Pa., April 4.—An explosion of gas occurred in No. 5 mine of the Lehigh and Wilkesbarre Coal company in this city and the greatest excitement prevailed from the fact that this mine is one of the most gaseous in the Wyoming valley. There were 100 men working in that portion of the mine and for a time it was feared they were lost. The rescuing parties, however, found them all within a half hour and none was burned or in any way injured.

Spanish Student Riots

Madrid, April 4.—A mass meeting of students was held last night to demand the release of their arrested colleagues. It led to further rioting and collisions with the police in which several persons were wounded. The students of the university at Barcelona are wearing crepe in mourning for the students killed Wednesday at Salamanca and it is announced from Saragossa that the university there has been closed as a sign of mourning.

Calamity Narrowly Averted

Lake Mills, Wis., April 4.—When President Roosevelt's train passed through here a large crowd was present and the moment the train stopped there was a rush for the rear end of the car from which the president was to speak. There was a jam on the tracks when the train began to move backwards. A yell of warning caused the crowd to scatter and while some were slightly bruised in the scramble, no one was seriously hurt.

Clearing Out Congregations

Paris, April 4.—Reports from various parts of France give particulars of active steps being taken to disband the religious congregations. The courts are appointing liquidators to take charge of the effects of the orders. No disturbances have yet occurred.

Poverty Rather Than "Indignity"
Colon, April 4.—Alejandro Grettano, one of the ministerial congressmen for the isthmus, announces that he is opposed to the acceptance of the Hay-Herran Panama canal convention, on the ground that it is better to suffer poverty than indignity.

The Weather Forecast

Almanac, Sunday, April 5.
Sun rises—5:22; sets—6:14.
Moon sets—1:00 a. m.
High water—5 a. m.; 5:30 p. m.
The northeastern disturbance has passed out by way of the Gulf of St. Lawrence, while the southwest one that was central over Oklahoma has moved east-northeastward to eastern Pennsylvania with the same marked intensity. There will be rain in New England, and possibly snow in north portion; much colder.

Weigh the Child

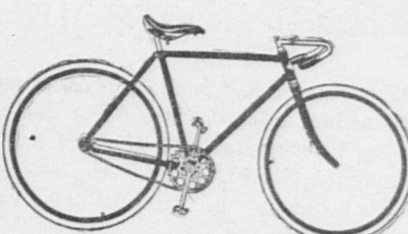

If it is losing flesh it may indicate worms.
If it has indigestion and a variable appetite suspect worms.
Other symptoms, are offensive breath; gripings and pains about the navel; eyes dull; itching nose; short, dry cough; grinding of the teeth; starting during sleep; slow fever and often convulsions.

The certain specific for worms is

**TRUE'S
PIN WORM
ELIXIR**

It has been used since 1851, and has restored thousands of suffering children. Whenever worms are suspected, give True's Elixir. If worms are present it will expel them, if not it can do no harm but acts as a tonic and cures all the common complaints of children. Price 35 cents, at druggists. AN EASTER PROPOSAL

HE wasn't worth having anyway!

No! Not worth having anyway!
That was the way I mused
down the street after seeing her,
and that is still my way of thinking.

About two days before that day I
happened to drop in on poor Bifkins.
Poor, because he is possessed of such a
name as Bifkins; because he hasn't
even the average stock of everyday
brains, and, furthermore, because he is
a good natured, cheerful sort of idiot
all round, easy to impose upon, and
glibly as the day is long.

When I found Bifkins, he was in an
awful state, and as he welcomed me
there were almost tears of joy in his
eyes.

"Say," said he, coming right to the
point, as all born idiots do, "I want to
propose to the loveliest girl—oh, well, I
don't suppose you want to hear all
about her—but I want to propose to her
just the same, and I don't dare go and
ask her outright, so I want to do it by
mail; and, by Jove, I don't know what to
say. Say, isn't writing a proposal
blazes, eh? I've torn up about two
reams of paper already, and I was just
about to give her up, when—you came
in. You'll help me, won't you?"

I chuckled softly to myself. Here was
a chance for a lark. Poor Bifkins was
so confiding he'd do almost anything a
fellow suggested, and I knew he would.
I'd written a letter of proposal that af-
ternoon myself to Miss Helen Goldrox,
and I knew the task was no easy one,
but then imagine poor Bifkins wanting to
do the same thing to some other fair
maid.

"Who is she, Bifkins?" I asked cynic-
ally.

"Well," said Bifkins after thinking
a minute, "I'd rather not tell her name
in case she won't have me. But, say,

"DO YOU THINK IT IS ALL RIGHT?"
old chap, that's no reason for you not
to help me with the letter, is it?" And
he looked at me pleadingly.

"Oh, not at all, not at all," I replied
cheerfully. In fact, on second thought
I considered that I'd rather not know.
For it might be some nice girl I knew,
and that would deter me from helping
Bifkins write the kind of letter I had
in mind.

"Thanks," was all he could say. "You
don't know how good you are."

"Oh, don't I, though?" I replied and
then thought to myself I might prove
too good.

"All right, then," said he. "Let's get
right at it."

I walked about with my hands in my
pockets for a few moments while he
watched me, when I said:

"You'd better write as I dictate."

"Just the thing," he replied and sat
down all ready to go ahead.

"You love her an awful lot, do you?"
I asked before going ahead.

"Oh, heaps!" he replied.

"And she—er—cares for you?"

"I think so. Er—I'm quite sure of it!"
he replied.

All right, thought I to myself. This
will be the test of it. Then I began
thinking. My darling, thought I. No;
that would be too tame. My dearest
darling. Yes, that would be more like
it, I thought, so I quietly chuckled to
myself and began:

"My dearest darling!"

"Oh, say, isn't that putting it a trifle
strong for a proposal?" inquired Bif-
kins, turning round.

"Oh, no," said I carelessly; "the usual
thing."

"Well, you ought to know, you've
proposed and been refused so often,"
he remarked, laughing loud at his own
conceit.

I said nothing, but if I had any com-
punctions before they were now all re-
moved, so I went on, and Bifkins
wrote:

My Dearest Darling—Ever since I first
beheld your sweet, angelic face, your
blue eyes, Bifkins? I thought so—your
laughing, sky blue eyes and tresses gold-
en—(Of course she has red hair, Bifkins?)
You say golden will do? Ah—your
tresses, golden as the sunlight on a sun-
ning summer's day. I have thought of
nothing else, of nothing, nothing else, but
you.

So you will see, darling, that my devo-
tion knows no measure, but is boundless
as the rippling, heaving summer sea.
Darling, you don't know how it makes
my heart beat when I think of your lovely
azure orbs, resembling the sunny skies of

Italy, and of those silky, waving, rippling
tresses that form your crowning glory,
for never was there woman wore such a
crown as thine.

Let me call you mine, dearest darling;
let me call you mine.
Write soon, and believe me, dearest dar-
ling, yours forever and forever,
CHOLMONDY BIFKINS.

When I had completed dictating this
ludicrous, gushing epistle, I could hard-
ly refrain from laughing aloud and
naturally thought how different it was
from the nice, sensible one I had dis-
patched to Miss Helen Goldrox that
afternoon, wherein I had politely added
that I would call for my answer in a
couple of days—on the following Sun-
day in fact, Easter Sunday.

Bifkins looked the whole thing over,
and then, looking up at me dubiously,
asked:

"Say, old fellow, do you think this is
all right? Isn't it just—er—just a trifle
—er—strong?"

It was all I could do to keep from
laughing right at him, poor chap, but I
restrained myself and said in an in-
jured tone:

"That's the usual thanks a fellow
gets for helping a friend out!"

"Oh, say, old chap, I didn't mean
that," he said, apologizing profusely.
"Of course it's all right if you say so"
—this even more dubiously.

"Of course it is," I answered gayly,
and then I stayed until I saw him put
it in an envelope and send it out to be
posted.

It was a great lark, I thought, as I
strolled home afterward, and when
Easter Sunday came I spruced myself
up to wait upon the sweet and wealthy
Helen, to whom I thought, after I had
been accepted, I might tell the farce,
and, as she always exceedingly enjoyed a
joke, after she had playfully chided
me for being so cruel, I was quite sure
to have her join me in a hearty laugh
at poor Bifkins' expense.

I made my way to the Goldrox man-
sion, and being admitted waited in the
parlor several minutes for Helen to
come down. Having to wait was un-
questionably a good sign, thought I;
girls always like to put a few finishing
touches on their toilet before they come
down to meet their future husbands,
and I was rather glad she made me wait.
When she did come down she didn't
act just as I'd hoped she would—that
is, she didn't come nestling into my
arms or anything of that sort. But
then, thought I, Helen always was a
sensible sort of girl and wasn't very
apt to do that sort of thing. So we just
shook hands and I sat down on the sofa,
but instead of joining me Helen
took a seat in one of the chairs that
stood quite near to the sofa, but yet
not near enough to be comfortable.

I confess I was slightly embarrassed
for a moment, but recovering my self
command I softly whispered:

"Helen, I've come in person to urge
what I asked in my letter of proposal
and honestly, sincerely trust that you
care sufficiently for me to trust your
future happiness in my hands."

Helen didn't speak for nearly a min-
ute, when, sinking her voice, she said:
"Believe me, Mr. Hardup, I am equally
sincerely sorry, and I should have writ-
ten you, only I didn't know how to put
it, but the very next day after your
proposal I received another, so passion-
ate, so flattering, so—oh, so beautiful!"

—and her eyes lit up—"that, though I
have always had a most friendly re-
gard for you, I could not resist—the
gentleman who wrote the other pro-
posal's passionate, beautiful pleading,
and I wrote him a letter accepting him
by the return mail. I—I hope I haven't
hurt you, and I'm awfully, awfully sor-
ry, but then there are any number of
other really nice girls, and—and"—and
then no doubt fearing she might put
her foot in it Helen said no more.

I sat half dazed for a moment, and
then I summoned up enough courage to
murmur, "May I ask the gentleman's
name?"

"Yes," she answered timidly; "it's
Mr. Bifkins."

I was almost tempted to burst out
laughing, I thought it must be a joke.
But instead I merely murmured, "And
do you care so much for him?"

"Well, candidly," she replied, "I
hadn't thought much about him before
—before I received his proposal, but
when I read that, so fiery, so kind, so
full of burning admiration, my eyes
seemed to open and read my heart
aright, and in the—the enthusiasm
and fervor of the moment I sent him
my reply."

After that I didn't stay to hear much
more, and as I went down the front
stairs I didn't know whether I ought to
laugh or feel sorry.

But as I went up the street and the
recollection of that ludicrous letter
filled with the imbecile gush and farce
comedy heroics that I had dictated for
Bifkins came back to me, and I came
to consider that Helen Goldrox had
taken the Laura Jean Libbyan senti-
ments as serious and in good part, I
could not help but muse that she
wasn't worth having anyway.—New
York Herald.

Origin of Easter Egg Rolling.
Undoubtedly the coloring of eggs
and so called "egg rollings" originated
in a most curious game of ecclesiastical
ball played with eggs in the churches
of England in the middle ages by the
monks.

These eggs were colored red, in allu-
sion to the blood shed for sinners.
From the records it would appear that
the rules of the game varied in differ-
ent churches, but in the main the pas-
time consisted of tossing the eggs from
hand to hand back and forth and cross-
wise in a bewildering and complex
figure. A missed egg meant a smashed
egg.

When Easter Comes.
Easter is the glad and joyous season
when a man heaves a sigh of relief
as he smokes the last of the cigars his
wife gave him at Christmas and goes
out to buy some of the real kind.—
Somerville Journal.

SHEFFIELD HAD TO FIGHT

For Ample Recognition In Committee
on Athletics at Yale

New Haven, April 4.—The proposed
constitution drawn up by the managers
and captains and several graduate ad-
visers to govern the athletic policy of
Yale was submitted last night to a
mass meeting of the undergraduates.
It was ratified after a warm discus-
sion and some amendments. The pur-
pose of the constitution is to put the
control of the athletics of the university
into the hands of a central authority
vested with powers to govern and de-
termine questions which have always
before been left rather haphazardly to
jurisdiction to which they belonged.

The committee which the constitution
creates will have the right, among
other things, to decide upon matters of
eligibility under the supervision of the
several captains. The presidents or
managers of the several athletic asso-
ciations are chosen from the seniors of
Yale college and are vice presidents
from the seniors of the Sheffield
Scientific school. This fact led to a
vigorous campaign on the part of the
scientific department students to se-
cure the recognition on the committee
they they felt was due. An
amendment was finally passed last
night to add the vice presidents of the
Football, Baseball, Crew and Track
Athletic associations to the committee.
The constitution was passed with that
amendment after much debate.

Conspiracy Charged

Boston, April 4.—Among the indict-
ments returned by the federal grand
jury before Justice Colt were two
charging with conspiracy Thomas F.
Curley and James J. Hughes, and
James M. Curley and Bartholomew J.
Fahy. These indictments are the re-
sult of the recent civil service exami-
nation disclosures in which the Curleys
were detected. It is alleged, in an at-
tempt to impersonate the true exami-
nations in taking the civil service ex-
aminations.

Suit Based on Unusual Grounds

Franklin Falls, N. H., April 4.—Al-
fred K. Brown, a member of the
Franklin High school team, has sued
to recover \$5000 damages for injuries
received in a baseball game. Harry
Coburn, a senior at Tilton academy,
is the defendant. During a game be-
tween the high school and academy
teams Brown was running bases when
he was obstructed by Coburn and fell,
sustaining, it is alleged, a fracture of
two ribs and internal injuries.

Aims to Prevent Repeating

Boston, April 4.—An act providing
for the holding of joint caucuses by all
political parties on the same day and
at the same places was passed in the
house yesterday by a large majority.
The bill is one of the most radical po-
litical measures adopted in this state
for some time, and it is believed will
prevent repeating at primaries.

Aldermen Think Clisnam Insane

Portland, Me., April 4.—The board of
aldermen voted last night to commit
W. J. Clisnam to the state asylum for
the insane. Clisnam was arrested for
making threats to do personal harm to
Mayor Boothby and Chairman May-
berry of the police examining board.

Barge Sank With Seven Men

New London, Conn., April 4.—The
tug Sweepstakes reports the loss of the
barge Fitzpatrick off Long Island.
The barge's boiler blew up and she
sank immediately with seven men.

Said to Have Shot Wife

Fort Fairfield, Me., April 4.—Officers
of Mars Hill are reported to be chas-
ing Charles Melville of that place, who
is charged with shooting his wife. Mrs.
Melville is believed to be dying.

Painters at Work on Reliance

Bristol, R. I., April 4.—The work of
painting the Reliance has begun, a
primary coat of drab being put on
which will be followed by a finishing of
pure white.

Positions All Filled

Washington, April 4.—Secretary
Cortelyou announces that all positions
outside the civil service in his depart-
ment, with the single exception of as-
sistant secretary, have been filled. Fu-
ture appointments to places in the de-
partment of commerce and labor will
be made from the civil service eligible
list or by the transfers from other de-
partments of clerks already under the
civil service.

Columbia Presents Best Argument

New York, April 4.—Cornell lost the
debate with Columbia last night on the
question as to whether the election of
United States senators by direct vote
of the people would be preferable to the
present method. The affirmative was
taken by Cornell.

Poor Maple Sugar Crop

Hoosick Falls, N. Y., April 4.—Re-
ports from maple sugar groves in this
vicinity show that the yield will not
exceed one-third of the average crop.
There have been no "sugar snows" to
give encouragement to producers.

Suicide of County Judge

Troy, N. Y., April 4.—The body of
Henry T. Nason, judge of Rensselaer
county, was found in a field south of
Albany. He had taken his own life.
The reason of the act is thought to have
been despondency.

Good Afternoon.

President Roosevelt's speech at Milwaukee last night is printed on one of the inside pages today. It relates to the "Trusts" and is worthy a careful reading.

Two through lines of electric cars will soon be running from Worcester into Boston, one into the subway as far as Park street, and one as far as Park Square. When will Quincy cars run to Dudley street?

Quincy Day Nursery.

The Day Nursery association organized Tuesday March 31 and elected the following officers:

President—Mrs. W. T. Babcock.
Vice Presidents—Mrs. A. E. Sproul, Miss Emily Wilde, Mrs. Zenas Arnold, Mrs. Herbert Lawton.
Treasurer—Mrs. W. E. Blanchard.
Secretary—Mrs. J. M. Sheahan.
Assistant Treasurer and Auditor—Mr. D. E. Wadsworth.

Directors—Mrs. L. C. Tappenden, Miss Elsie Russell, Mrs. Frank Patch, Mrs. John O. Hall, Jr., Mrs. Wm. G. A. Fattée, Mrs. John Merrill, Miss Kate Randall, Mrs. Thomas Addison, Miss Etta M. Prescott, Mrs. Charles M. Bryant, Mrs. George H. Hitecock, Mrs. Frank Brewer, Miss Dora A. French, Mrs. Kate Hayden, Miss Abbie Wood, Mrs. H. M. Hayden, Mrs. E. G. Pratt, and a long list of endorses.

Ninety One Years Young.

Mrs. Charles A. Spear writes: I received Friday a long letter from Rev. W. W. Dean of Washington, D. C., and many would be pleased to know that he wished to be remembered to all friends living in Quincy, where he was so well known as pastor, school committee member and worker in all good things. Mr. Dean is 91 years young and says he only boasts of being the oldest officer in the Treasury Department at Washington, D. C. His birthday comes April 19.

Was in Quincy.

It is believed that Charles Tedford, aged 47 years, who is reported as missing from his home 74 Middlesex street, Boston, since Feb. 7, was in Quincy last week. The missing man is described as being of medium complexion, slim of build, and a very dark mustache. He is a painter by trade. A man who closely answers that description was seen on Mechanics street late last week. The man said that he was a painter and inquired the way to the house of a painter as he said he wanted to get a job.

Medical School Won't Get Body

Boston, April 3.—The body of a woman who committed suicide by taking poison at the Young Women's Christian association rooms Wednesday night, and who will be buried at the Harvard Medical school and her clothes to the Salvation Army, was identified yesterday as that of Miss Emily Chase of Newport, R. I. The only motive suggested for the suicide is mental trouble. Miss Chase was 55 years old. The body will be sent to Newport for interment.

Objects to Guardianship

Littleton, N. H., April 3.—Katherine V. Richardson, who came into public attention in the court at Chelsea, Mass., when a hearing was held into a supposed mysterious illness of her mother, has appeared from the decree of Judge Westgate by which Frederick G. Fleetwood was appointed her guardian. Miss Richardson has engaged counsel and the town of Littleton, which petitioned for a guardian for the woman, will be represented by lawyers.

Let the Light Shine.

Editors of the Ledger:
Judging by the talk in last Monday's council meeting, it seems there are gentlemen in that very highly intellectual and honorable body, that are under the impression that the city employs laborers who receive \$2.00 per day. Such is not the fact. One of the hardest jobs in the city is the stone crushing plant where the men get \$1.75 only, and have to lose all stormy weather.

All the towns that surround Quincy, pay for such work two dollars and more, and if the gentlemen of the Quincy City Council, wish more fully to understand the true merits in the case, let them take a walk down to the stone plant some hot day, and see for themselves.

One seventy-five, is starvation pay, and if the members of the City Government would prefer a well fed constituency let them see to it that labor is paid as much in Quincy as in neighboring towns.

It seems very much like ingratitude for gentlemen of the Council, to vote to give any part of the city work to a man because he possesses that very peculiar method of working his employees long hours for such measly low pay as was talked of in the Council. It is the very best argument why the City Scavenger should not be continued as City Scavenger.

Those men so employed are presumably American citizens, or should be, and gentlemen of the Council can ill afford to vote to allow any contractor to so deface, degrade and lower the standard of American citizenship, by working men 12 hours for the price mentioned.

Those gentlemen who have legislative tendencies and yearn for higher honors should show a little more gratitude to their constituents.

May Day Festival.

Editors Quincy Daily Ledger:
In view of possible misunderstanding, will the Ledger permit a few words of explanation with regard to the date of the Quincy School Children's Festival, in which so many are interested.

After serious consideration, it was decided some ten days ago by the Quincy Home Science Association executive committee not to ask for the usual half holiday on May Day, so kindly granted by the School Board in former years, but to avoid trespassing further upon the courtesy of the latter and disturbing the regular school routine by having the festival occur on the afternoon of Saturday, April 25.

This decision was reached only after long discussions and with hesitation, since the half holiday as formerly granted, has, the management believe, been a chief factor in the success which has invariably attended the enterprise.

For this reason and because there is more than usual need this year for larger financial results, it is hoped that friends, old and new, will make special effort to ensure the financial success of the festival and give the children the afternoon of fun and frolic, May baskets, candy and mystery boxes, to which they are looking forward.

Quincy Home.

Editors Daily Ledger:
I wish to thank Saugus for saying "Home." It is not "Poor House." Authorities of any town or city would resent their home being called "A Poor Place." It is for toilers that are worn and discouraged to find rest. I call our place "Quincy Home" as it was once named, and have been hoping some organization would elect visitors to our home. A visitor would help matron and superintendent as well as inmates. Mrs. Charles A. Spear.

WEYMOUTH.

Gustavus M. Pratt, contractor, Weymouth, has filed a petition in bankruptcy. His liabilities are \$31,445.33, most of which is unsecured. With the delivery system in Weymouth May 1, will come the abolition of the postoffices at Weymouth Heights, Weymouth Centre, Porter and Nash, but stamp agencies will be established at those places. Mails will arrive at and be distributed from Weymouth, North, East and South Weymouth.

The funeral of Mrs. Alberta W., wife of Elwyn G. Campbell of New Bedford, was held this afternoon from the residence of her father, John A. Raymond of East Weymouth. Mrs. Campbell died Tuesday in her 25th year.

Brownie Ball at Braintree.

The "Brownie Ball" given in the Town Hall, Wednesday evening, under the auspices of the King's Daughters, was an unqualified success. All seats in the auditorium and gallery were taken and even standing room was at a premium. "A little child shall lead them," proving as true in the present era as when spoken so many years ago.

The manager of this now famous ball, Mr. Alonzo Cole of Boston, under whose untiring zeal and patience it was brought to a grand finale, has become well known in many of the neighboring towns and cities by his effective work in training a collection of little people to act as a unit. The pianist, Mrs. John R. Arnold, who gave of her talent so freely to make the affair a success is entitled to the highest encomiums.

It is almost impossible to select among the various good numbers some few thought to be of especial merit without striking a note of discord. However, Marion Bradford, the little lady who represented Miss Vivian, pleased everybody by her unaffected manner and clear enunciation.

Harold Bean, personating Duke Robin, made a hit and Esther Cone, the woodland fairy, was altogether charming. Charles Crathern as the rabbit and John Bridgman as the cat elicited much laughter, and proved skilled actors. In fact everyone from Wonderland was very wonderful indeed. Charles Bangs, the Brownie chief was pronounced "fine" as were also the "old maydes from Lee." The "Dutch dancers" kept excellent time, and the "cake walkers," "took the cake," if we may be excused for using the vigorous but effective language of the present day.

All in all, the Brownie Ball was a success, and the energetic chairman, Miss Alice Holbrook, who has almost forgotten how to walk so much has she run about to make this affair successful, is entitled to much praise.

The committee of arrangements were: Miss Alice A. Holbrook, chairman; Mrs. Eugene Dyer, Mrs. W. A. Torrey, Mrs. C. F. H. Crathern, Mrs. S. S. Bridgman, Mrs. O. A. Bridgman, Miss Nellie Potter, Mrs. O. B. Oakman, Mrs. Parker Hobart, Mrs. R. F. Burleigh, Mrs. George Stevens, Mrs. J. H. Schraut, Mrs. Herbert Annis, Mrs. J. A. Dyer, Miss Estella Pierce.

Quincy Mutual.

The fifty-second annual statement of the Quincy Mutual Fire Insurance Company, has been issued this week and it is a fine showing. This mutual company is one of the most successful in New England. It has a cash fund of over \$800,000, which is invested in first-class stock as will be noticed by reading the statement in another column.

All claims are met and paid promptly. There is no waiting or lawsuit for those who insure in this company. The management is most excellent, and the promptness with which the business is transacted is a credit to the president and his excellent assistants.

The company has now one of the best offices in the city. Since the old three-cornered building on the street was taken down, the company has added windows and made other improvements which make their office very pleasant and attractive.

School Attendance.

The school attendance for the four weeks ending March 27 shows a decided improvement, the average being 4006 or 92 per cent. Only two buildings had less than 90 per cent., while the Gridley Bryant, John Hancock, Willard and High had over 93 per cent. Supt. Parlin's report:

Atlantic patrons of the steam trains feel that two and one-half cents for a ride across the Neponset bridge is very unjust and a good deal of indignation is felt at the discrimination. The fare from Boston to Neponset will be 5 cents. To Atlantic, 7 1-2 cents. This they say is not what was promised by the officials of the road at the hearing a few weeks since.

Now that travel on Hancock street is to be interrupted by the building of the new bridge at Atlantic, the street railway people have a most excellent opportunity of making a belt route from Quincy to the Neponset bridge via Atlantic, using Faxon road, Squantum, Billings and the lower end of Atlantic streets. This route would be well patronized by Atlantic people.

RELATIONS TO PEOPLE

Of Great Corporations and Corporate Combinations

VIOLATIONS OF STATUTES

In Methods of Transportation Checked by Anti-Trust Law—The President Tells What Has Been Accomplished in the Way of Anti-Trust Legislation and Its Enforcement

Milwaukee, April 4.—President Roosevelt was the guest of the Milwaukee Merchants and Manufacturers' association at a banquet at the Plankinton house last night, the occasion being the climax of the president's 10-hour visit to Milwaukee. Covers were laid for 530 banqueters.

The president sat in the center of a long table with other guests of honor. Extending in opposite directions from the president's table were 12 other tables at which the members of the association and their friends were seated. After the banquet had been served, President Roosevelt introduced President Woodhull, who responded to the toast: "The President of the United States." The president took occasion to give his views on the subject of "trusts." He spoke in part as follows:

I think I speak for the great majority of the American people when I say that we are not in the least against wealth as such, whether individual or corporate; that we merely desire to see any abuse of corporate or combined wealth corrected and remedied; that we do not desire the abolition or destruction of big corporations, but, on the contrary, recognize them as being in many cases efficient economic instruments, the results of an inevitable process of economic evolution, and only desire to see them regulated and controlled so far as may be necessary to subvert the public good. We should be false to the historic principles of our government if we discriminated, either by legislation or administration, either for or against a man because of either his wealth or his poverty.

In consequence of the extraordinary industrial changes of the last half century, and notably of the last two or three decades, changes due mainly to the rapidity and complexity of our industrial growth, we are confronted with problems which in their present shape were unknown to our forefathers. Our great prosperity, with its accompanying concentration of population and of wealth, its extreme specialization of facilities, and its development of giant industrial leaders, has brought much good and some evil, and it is as foolish to ignore the good as willfully to blind ourselves to the evil.

The evil has been partly the inevitable accompaniment of the social changes, and where this is the case it can be cured neither by law nor by the administration of the law, the only remedy lying in the slow changes of character and of economic environment. But for a portion of the evil, at least, we think that remedies can be found. We know well the danger of false remedies, and we are against all violent, radical, and unwise change. But we believe that by proceeding slowly, yet resolutely, with good sense and moderation, and also with a firm determination not to be swayed from our course either by foolish clamor or by any base or sinister influence, we can accomplish much for the betterment of conditions.

The president here quoted from previous speeches regarding trusts and from his message to congress in 1901, in which he said:

"In the interest of the whole people the nation should, without interfering with the power of the states in the matter, itself also assume power of supervision and regulation over all corporations doing an interstate business."

The views thus expressed have now received effect by the wise, conservative, and yet far-reaching legislation enacted by congress at its last session.

In its wisdom congress enacted the very important law providing a department of commerce and labor, and further providing therein under the secretary of commerce and labor for a commissioner of corporations, charged with the duty of supervision of and of making intelligent investigation into the organization and conduct of corporations engaged in interstate commerce. His powers to expose illegal or hurtful practices and to obtain all information needful for the purposes of further intelligent legislation seem adequate; and the publicity justifiable and proper for public purposes is satisfactorily guaranteed. Those who are entrusted with the administration of the new law will assuredly administer it in a spirit of absolute fairness and justice and of entire fearlessness, with the firm purpose not to hurt any corporation doing a legitimate business—on the contrary to help it—and, on the other hand, not to spare any corporation which may be guilty of illegal practices, or the methods of which may make it a menace to the public welfare. The enactment of this law is one of the most significant contributions which have been made in our time toward the proper solution of the problem of the relations to the people of the great corporations and corporate combinations.

But much though this is, it is only a part of what has been done in the effort to ascertain and correct improper trust or monopolistic practices.

Some 18 months ago the industrial commission reported to congress the result of their investigation of trusts and industrial combinations. One of the most important of their conclusions was that discriminations in freight rates and facilities were granted favored shippers by the railroads and that these discriminations clearly tended toward the control of production and prices in many fields of business by large combinations. These unjust practices had prevailed to such an extent and for so long a time that many of the smaller shippers had been driven out of business, until practically one buyer of grain on each railway system had been able by his illegal advantages to secure a monopoly on the line with which his secret compact was made; this monopoly enabling him to fix the price to both producer and consumer. Many of the great packing house concerns were shown to be in combination with each other and with most of the great railway lines, whereby they enjoyed large secret concessions in rates and thus obtained a practical monopoly of the fresh and cured meat industry of the country.

These fusions, though violative of the statute, had prevailed unchecked for so many years that they became entrenched in and interwoven with the commercial life of certain large distributing localities; although this was of course at the expense of the vast body of law-abiding merchants, the general public, and particularly of unfavored localities. The decisions of the courts upon the law had betrayed weaknesses and imperfections, some of them so serious as to render effective efforts to apply any effective remedy for the existing evils.

Congress, having had its attention drawn to the matter, enacted a most important anti-trust law, which greatly strengthens the interstate commerce law. This new law prohibits under adequate penalties the giving and as well the demanding or receiving of such preferences, and provides the preventive remedy of injunction. The vigorous administration of this law, and it will be enforced, will, it is hoped, afford a substantial remedy for certain trust evils.

This law represents a noteworthy and important advance toward just and effective regulation of transportation. Moreover, its passage has been supplemented by the enactment of a law to expedite the hearing of actions of public moment under the anti-trust act, known as the Sherman law, and under the act to regulate commerce at the request of the attorney general; and furthermore, additional funds have been appropriated to be expended under the direction of the attorney general in the enforcement of these laws.

The president here reviewed the work of Attorney General Knox in prosecuting 14 suits against the principal railroads of the middle west, restraining them by injunction from further violations of either of the laws in question, the case against the Northern Securities company, the investigation into the methods of the beef trust, the pooling arrangement of southern railroads and the action against the Federal Salt company, and said that they constituted the most important steps, legislative and administrative, taken during the past 18 months in the direction of solving, so far as at present it seems practicable by national legislation or administration to solve, what we call the trust problem. Continuing, he said:

They represent a sum of very substantial achievement. They represent a successful effort to devise and apply real remedies; an effort which so far has succeeded because it was made not only with resolute purpose and determination, but also in a spirit of common sense and justice, as far removed as possible from rancor, hysteria, and unworthy demagogic appeal. In the same spirit the laws will continue to be enforced.

The people may wisely, and with confidence, await the results which are reasonably to be expected from the impartial enforcement of the laws which have recently been placed upon the statute books. Legislation of a general and indiscriminate character would be sure to fail, either because it would involve all interests in a common ruin, or because it would not really reach any evil. We have endeavored to provide a discriminating adaptation of the remedy to the real mischief.

Many of the alleged remedies advocated are of the unpleasantly drastic type which seeks to destroy the disease by killing the patient. Others are so obviously futile that it is somewhat difficult to treat them seriously or as being advanced in good faith. High among the latter I place the effort to reach the trust question by means of the tariff. You can, of course, put an end to the prosperity of the trusts by putting an end to the prosperity of the nation; but the price for such action seems high. The alternative is to do exactly what has been done during the life of the congress which has just closed—that is, to endeavor, not to destroy corporations, but to regulate them with a view of doing away with whatever is of evil in them and of making them subserve the public use. The law is to be administered in the interest of the law-abiding man, rich or poor. We are no more against organizations of capital than against organizations of labor. We welcome both, demanding only that each shall do right and shall remember its duty to the republic. Such a course we consider not merely a benefit to the poor man, but a benefit to the rich man. We do no man an injustice when we require him to obey the law. On the contrary, if he is a man whose safety and well-being depend in a peculiar degree upon the existence of the spirit of law and order, we are rendering him the greatest service when we require him to be himself an exemplar of that spirit.

"PICKING" EASTER EGGS

SEE the shop windows full of all sorts of pretty things that betoken the approach of Easter," said Mr. Snoggleton, "but none of the displays attracts me so much as that in a Main street window which is largely devoted to dyed eggs and dyes for coloring Easter eggs. It takes me back to boyhood as nothing else could do. They tell me that here in the north the children don't have very much fun with Easter eggs, but in the south, where I was raised, we used to have great sport from Good Friday to Easter Monday, and the old customs still survive to a large extent. 'Picking' eggs was the popular sport with the boys. It was not altogether as harmless a form of gambling as fond parents usually imagined.

"The process is simple. The contestants must first be provided with the requisite number of hard boiled eggs

THE BATTLE OF THE EGGS.

usually dyed in gay colors. Sometimes we used to be able to buy real dyes and boil the eggs in them, but the popular method in the little town where I was raised was to get all the scraps of gay colored calico that could be obtained, wrap each egg carefully in the calico and boil it. This would result in transferring the pattern of the calico to the egg, and the gaudier the colors the better we liked them. The brilliantly colored prints which are made for the negro trade in the south are seldom seen in the north, but they were just the things we wanted.

"In 'picking' eggs the challenger attempts to break the shell of the other contestant's eggs with his own egg. The eggs are held tightly in the closed hands, only the points protruding, and one boy strikes with the point of his egg the point of the other, the blows being only just hard enough to crack the shell of one of the eggs. The one whose egg is broken forfeits the egg to the owner of the stronger egg. I have known boys to accumulate many dozen eggs in this way in the course of the Easter holidays, although if there is no cheating the best egg is sure to be broken sooner or later.

"But the boys in my town used to be up to all sorts of tricks. Of course all eggshells are not alike. Some have much more lime in them than others, and the eggs of the guinea hen, or 'guinea keat,' as the fowl is always called in the south, are ever so much harder than ordinary hens' eggs. So guinea keat eggs were barred in egg picking, and every egg offered for picking was carefully inspected by the other boy before the challenge was accepted to make sure that it was not a keat egg. It is easy enough to tell the difference ordinarily, the keat egg being smaller and of a more pointed shape."—Buffalo Express.

Symbol of the Easter Egg.

When the nations of the west, or Europe, were converted to Christianity, the sentiment of the egg was universally accepted as a suggestive symbol of their faith in the risen Saviour, and it has ever since remained the most favored figure of the Easter festivities all over the continent. The children, who rule the heart and home of mankind, are doubtless responsible for the keeping alive of this old custom, for they love and demand the visit of the rabbit, with his nest of beautiful eggs, on the glad Easter morn, just as they love and long for the coming of dear Santa on Christmas eve.—Pittsburg Dispatch.

Omen of the Paschal Lamb.

To see a lamb out of a window on Easter morning is a good omen, according to the belief of many pastoral people, especially if the lamb be heading in the direction of the house. To meet a lamb as lucky, as, according to the old notion, the devil can never assume the form of either a lamb or a dove.

The Easter Kiss.

It is the Russian usage that no lady, however lofty of birth, may refuse to kiss the humblest petitioner if the request is preceded by a proffer of an Easter egg. This is commonly compromised, however, by the payment of a small coin on the lady's part.

CHRISTIAN ENDEAVOR.

People For the Week Beginning April 5.—Comment by Rev. S. H. Doyle.

Topic.—What the parable of the good Samaritan teaches us.—Luke x, 30-35.

The parable of the good Samaritan is the second of those to be found only in Luke's gospel and is one of the loveliest and most suggestive of all the parables of Christ. If Luke had preserved nothing else than this parable and that of the prodigal son, the world would have been immeasurably indebted to him. Nothing so much as these priceless stories illustrates the fact that Christ "spoke as never man spoke."

The parable was called forth by the question of a lawyer, one whose business it was to interpret the Mosaic law concerning eternal life. Six times Christ met this question in some form: "What shall I do to inherit eternal life?" The lawyer asked it that he might test Christ. In answer Jesus referred to the law, which the lawyer correctly quoted as embracing love to God and love to our neighbors. Attempting to justify his interpretation of the law, which was an exclusive one, the lawyer asked, "And who is my neighbor?" This question called forth the matchless parable of Christ, the good Samaritan.

1. The parable of the good Samaritan teaches us who is our neighbor. A man fell among thieves and was left half dead. A priest passed him by without looking at him; a Levite chanced along, "came and looked on him and passed by on the other side;" then came a Samaritan, a man of different race and religion, and he cared for him and in doing so illustrated neighborliness. In this story Christ teaches us that the man who needs our help and whom we are able to help is our neighbor, regardless of race, nationality, religion or social position. The Jews were most exclusive in their definition of neighbor, while Christ is most comprehensive. Any man the world over who needs our help, temporarily or spiritually, is our neighbor. This truth needs still to be emphasized, and the world needs more and more to see in Jesus Christ the ideal good Samaritan and to imitate His example.

2. The parable of the good Samaritan teaches us how to "love our neighbor as ourselves." How to do this is often a serious question. It cannot mean that there is to be as strong affection in our hearts for all men as for our own interest and that of those bound to us by the natural ties of life. God has placed us in peculiar relation to many people, and our first duty is to them. What does it mean then? What did the Samaritan do? He did unto another as he would have had that other do unto him had the conditions been reversed. Undoubtedly Christ's Golden Rule is the best definition of loving our neighbor as ourselves. Such love is more in the action than in the heart. It is philanthropy rather than affection. The man who keeps the Golden Rule will always love his neighbor as himself.

3. The parable of the good Samaritan teaches that all men should love their neighbors as themselves. Priest and Levite are condemned for their failure to do so, while the Samaritan is commended, and Christ also exhorts the lawyer to follow his example. The world is full of the needy and unfortunate. Let us, following Christ's example and precept, "do unto them as we would have them do unto us."

The Quiet Hour.

Every comrade of the Quiet Hour will appreciate the following Scripture that bears out so strikingly the idea of the movement:

Our Master's Invitation.—"Come ye yourselves apart."—Mark vi, 31.

Our Master's Command.—"When thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret."—Matt. vi, 6.

Our Master's Example.—"And in the morning, rising up a great while before day, He went out and departed into a solitary place and there prayed."—Mark i, 35.

Our Master's Promises.—"Lo, I am with you always."—Mark xvi, 15. "And thy Father which seeth in secret shall reward thee openly."—Matt. vi, 6.

The Servant's Response.—"O God, thou art my God; early will I seek Thee; my soul thirsteth for Thee."—Ps. lxxiii, 1. "My voice shalt Thou hear in the morning, O Lord; in the morning will I direct my prayer unto Thee and will look up."—Ps. v, 3.

Begin the day with God! He is thy sun and day, His is the radiance of thy dawn; To Him address thy lay.

Take thy first walk with God; Let Him go forth with thee; By stream or sea or mountain path Seek still His company.

NATURE BEST GUIDE TO DEVELOPMENT OF SYSTEM

LECTURE BY EUGEN SANDOW.

(From the Philadelphia Evening Telegraph.)

Ever since I introduced my system of consuming food by the average person a considerable amount of the amount required. If the quantity of food taken were smaller, the substantial lighter, and the mastication more thorough, the labor of the extrinsic organs would be less, and the general health much better.

The question of alcohol is one which seems to trouble a great many of my correspondents, and is the subject of many anxious inquiries. Now, myself am not a total abstemious in moderation I believe alcohol is a valuable food; but, of course, we cannot but shrink from the enormous drink traffic of civilization. Let me say, then, that alcohol is not necessary to the upbuilding of the muscular system, but if taken in moderation it can do little or no harm. In the same way, tobacco in excess is bad. But a man who is a follower of physical culture need not fear an occasional pipe or cigar. Consuming more particularly to the strengthening quality of foods, those articles which contain the most albumen are, of course, the most nourishing. Milk, cheese, and eggs contain large percentages of albumen, but the stomach cannot deal with more than a limited quantity of these foods without being upset. Of recent years, however, a method of extracting albumen from milk—rather than from butter—has been discovered, and the extract has been put on the market under the name of "Plasmon."

This plasmon was discovered by an enterprising German chemist and its use is spreading all over England and the Continent; in fact, all over the world, for I have seen it on sale in medicinal form as an article of diet. Doctors who are about to perform operations give their patients plasmon instead of drugs before the operations, as the bulk is very small and the waste practically nil.

As to its sustaining qualities I can bear personal testimony. I lived entirely on it for seven weeks, taking about eight teaspoonfuls a day, dissolved in water, this being my only food during that period, and I was performing twice a day. It is prepared in various ways, being from flavor and smell, and perfectly soluble. It can be dissolved in water and made into soup, or added to other soups or gravies, or may be kept on the table and added dry. It can be dissolved in milk, and then added to tea or coffee, and is now, I believe, made up in chocolate bars. Whenever I travel I carry some with me.

FRIENDLY TO IRELAND

Wyndham Will Do All In His Power For Her

HAS LACKED THE CHANCES

At Disposal of Other Parts of the Empire—Worth While to Make the Effort to Have Her a Bridge Between England and Canada

London, April 4.—Mr. Wyndham, chief secretary for Ireland, speaking at Manchester last night, suggested in a distant manner that a dissolution of the house of commons was imminent. He said he believed that when the bell rang for the next elections the Tory party would be found ready and would again carry its flag to victory.

Referring to the Irish land bill, Mr. Wyndham declined to believe that it would be repudiated. Ireland, he said, had not enjoyed the opportunities at the disposal of other parts of the empire, partly because in 1881 parliament, instead of giving her justice, gave her litigation. Furthermore, the last 50 or 60 years, the age of steam and coal, had not been happy or profitable for Ireland, a country lacking in mineral wealth. Apart from the justice of the case, continued the speaker, it was to England's interest that Ireland should have a fair opportunity to develop her agriculture.

"In times of peace," said Mr. Wyndham, "Ireland is our best customer, and in war time, when everything would depend upon our control of the sea, it would be well to have a big meat supply in Ireland. Every true imperialist wishes Ireland to be a bridge and not a chasm between ourselves and Canada, and with Canada I would associate our kinsmen in the United States, and for even an outside chance of attaining that object it was worth while to make an effort."

In seeking a solution, he would set only two limits: "One that we must not weaken the imperial credit, and the other that we must not sap the elasticity of our revenue, which is our reserve in times of danger."

Assent having been given to a policy of agrarian peace, he was hopeful that the result of the Irish land bill would be something they could contemplate with pleasure.

The Liberal papers this morning, commenting on Mr. Wyndham's remarkable speech at Manchester and the flying rumors of the government's intention to appeal to the country on a program of local self-government for Ireland, declare that it might have been the speech of a Gladstonian, so friendly were its accents towards Ireland and the wisdom of trusting the Irish people and consolidating the Irish sentiment in the United States and Canada.

The Daily News remarks the significant silence of Colonial Secretary Chamberlain on the Irish problem and the Irish land bill and the fact that the government appears to be threatened with the alternative of defeat or dependence on the Irish vote.

William Redmond, speaking at London last night, said that King Edward was assured of a courteous welcome in Ireland, because Irishmen, even in the hottest moments of agitation, always recognized that the king was not responsible for the misgovernment of Ireland.

Starving Parents Sell Children

EASTER STYLES FOR INDIANS

Ludicrous Results of the Imitation of the Paleface Fashions.

Easter Sunday, with its new spring hats and gowns, brings pangs of envy to many feminine hearts, and the little town of Arapahoe, Okla., where the Arapahoe Indians have chosen to set a pace in fashion, is no exception to the rule. Ever since the paleface came among them in their Oklahoma home the Arapahoe Indians have essayed to be the best dressed of any of their red neighbors. An Arapahoe buck will go without food in order to have the latest fashion in neckwear. He may not tie it according to the prevailing fashion among white men, but if the color be gaudy he will arrange it in a flashing manner that will attract equal attention.

For some years past the village of Arapahoe, which is mainly populated by Cheyenne and Arapahoe Indians, has been the scene of great parades of Indian fashionables on Easter Sunday. At daylight the squaws and bucks begin to parade the streets clad in gayappings. The bucks wear the latest cut of white men's clothing, but the goods are not always of fine texture nor neatly fitting. On the other hand, they are always gaudy pattern. Many of them wear silk hats and light tan shoes. Their makeup is rather rude and especially so when they don a high collar that has never been to a laundry and on which finger marks may be plainly seen at a distance of several feet.

The squaws wear loud colors in lawn and calico dresses, but the hat is the crowning feature. These hats are piled high with paper roses, and long green or red ribbons trail behind for several feet. Milliners who visit Arapahoe say that some of the squaws have as many as fifty paper roses put on a single hat, which would make it weigh not less than ten pounds. An amusing thing among the bucks is the awkward manner in which some of them carry canes made out of old umbrella handles.

The Indians got the idea of coming forth in spring costumes on Easter from a delegation of their people who went to Washington to attend an inauguration. They were in New York on Easter Sunday and saw the parade of fashionables on Fifth avenue.—Chicago Inter Ocean.

EASTER IN A PRISON.

Touching Story of Mrs. Ballington Booth's Visit to State Convicts.

"There is one Easter in my life," says Mrs. Ballington Booth, the "Little Mother" of the state convicts, "which stands out with the brilliancy of the stars on a moonless night. It was spent in Clinton, a state prison at Danvers, N. Y. Never before had I met an audience like that one. There were no sullen expressions, no faces of scoffers among those whom I looked down upon. They all wore the prison stripes, and many looked as though the waters of the earth had rolled over them. But it had left them hope, and that hope made their faces radiant. As I arose to sing my little daughter, who sat with the warden's family in the audience and who was making her first visit to a prison, became impatient and leaving her seat came to the platform. She clung so tightly to my skirts that I finally lifted and placed her on the desk at my side. When I had given out 'You've Carried Your Burden,' I asked her if she would not sing a verse of it for the boys. Much to my surprise she immediately began and sang the verse through without a break.

"I shall never forget that scene. The childish voice rang out sweet and clear and so distinctly that every word was heard. The little figure in white, with her golden curls about her face, smiling sang her message, and tears streamed down the faces of the men as the baby voice repeated, 'Oh, bring it to Jesus; he's loving and strong.' I believe more than one lonely, aching heart, who perhaps for many years had not heard a childish voice, was lightened that Easter day and found for the first time the great Burden Bearer.

"In the afternoon we held our second service, and it was like gathering in a harvest. There wasn't much said; there seemed no need for talking, but when I left Danvers that evening I felt that Christ had risen again and that to many men I was leaving, though in stripes and behind prison bars, the peace that passeth understanding, a renewal of hope and faith in God and mankind."—Cincinnati Commercial Tribune.

The Easter Hare Supplies the Eggs.
In Germany not the hen, but the hare, is responsible for Easter eggs. The houses in which good children live are visited at night by a white hare, who hides numbers of beautifully colored eggs in nooks and corners for the children to find with much merrymaking on the morrow.

An Easter Song.
[By Mrs. J. H. Lambert.]
Dear God, how good thou art to me this Easter day.

Thou knowest, all my life, I have been loath to do

I could not see why fragrant, bright hued flowers should bloom

To fade so soon nor why the summer birds their way

To warmer clime when cold days came, their dulcet songs

To sing, I wanted southern ease, fair fruit and broad expanse

Of space; Thou gavest me toil and northern city walls! Nature's

I see but in the sun, the moon, the stars, when I

Look high, And even now a breath of sweetness wafts from flowers

That lie Down at my feet, and I, dear Lord, give thanks for earth

OPPOSED BY A MAJORITY

Operatives Struck Against Their Own Inclination

OPINION OF MILL AGENTS

Head of Big Corporation Says Help

Sincerely Regrets Closing of Mills—Gates Will Open If Reasonable Number Express Desire to Return

Lowell, Mass., April 4.—Mill agents in Lowell express their conviction that the present trouble in the textile industry in Lowell is against the wishes of the great majority of the wage-earners. To emphasize this, Agent Connell of the Tremont and Suffolk mills last night authorized The Citizen to print the following interview:

"The mills of Lowell will open just as soon as there is a general desire to return to work. If a reasonable number of Tremont and Suffolk operatives should express a willingness to return to work on Monday, or a week from that time, the gates would be opened for them. By a 'reasonable number' I mean a representation of the operatives in all departments. One department is dependent upon the other; eliminate one and it is like moving a link from a chain, so that you can see how impossible it will be to reopen the mills until representatives of every craft are willing to come back to work. I have thought all along that the present strike movement is in opposition to the wishes of the majority of the operatives, and if it had been put to a vote of all the operatives there would have been no strike.

"We paid off 3500 operatives today, the total sum being \$24,000. I wish to say I never saw a more orderly crowd of people in my life. They received their money without suggestion of anything that could be considered as unfriendliness. Hundreds of them expressed regret that the mill was closing, and so sincere did they seem to be that I am convinced that the vote of the Textile council did not represent the wishes of the minority.

"So impressed was I with the attitude of the operatives that I have decided to do away with the services of special police officers at the Tremont and Suffolk mills. The property of the Tremont and Suffolk mill would be just as safe in the hands of the operatives being paid off today as in the hands of the police of the city of Lowell."

The mills concluded paying off their help yesterday, the sum total of cash distributed in three days being \$108,200. With the exception of paying a few tardy operatives the relations heretofore existing between employer and employee are severed, the former having no financial obligation for the latter.

On the train going north last night 200 Canadians departed for the province of Quebec. The travelers were accompanied to the station by friends who numbered in the aggregate not less than 2500, and the scene at the North station was one that never has been equalled in all the years of incoming and outgoing of provincial help to this city.

Last evening many union meetings were held, when admission of new members took up considerable time. Otherwise, the day closed even quieter than on a Sunday.

The Textile council will endeavor to prevent the Lawrence company from obtaining yarn elsewhere, and it understands that yarn is scarce there now. This is one result of the strike among the carders, ring spinners and mule spinners of the Lawrence Manufacturing company. There is still a supply of certain kinds of yarn, but in order to keep the 200 or more knitters in work yarn of all kinds peculiar to Lawrence must be in evidence. Under the present shortage a portion of the knitters must of necessity quit work, say the Textile council members.

The Textile council members say that just as soon as the source of the Lawrence mill yarn supply is known the manufacturers will immediately be notified to remove the Lawrence company from its list of customers, and in the event of a refusal, a second strike will be the result.

Wabash Trouble Still Unsettled
St. Louis, April 4.—The controversy over an agreement upon was between officials of the Wabash Railway company and its employees is still unsettled, but every indication points to a final agreement early next week. Both sides are making strenuous efforts to come to an amicable understanding and avert a strike. There is no particular activity manifested by either side, so confident does each seem of an ultimate amicable agreement.

Kick Against Two Looms
Millbury, Mass., April 4.—The weavers at the Ramshorn woolen mill are out on a strike because a man who was thrown out of work by the strike in Fitchburg was given work and proved his ability to run two looms. This led to a cut of 1½ cents a yard. Seventeen weavers are out and other hands will be secured if the strikers hold out for the old prices.

Chemicals Exploded
New York, April 4.—An explosion of chemicals in the laboratory of the Ursuline convent here resulted in serious injuries to two young girls and precipitated a panic among the students of the institution. The character of the chemicals used in the experiment could not be ascertained. Neither of the girls was fatally hurt.

BOSTON AMUSEMENTS.

Colonial Theatre.

Up to date sixty-five performances have been given of Klaw & Erlanger's beautiful, stupendous production of the Drury Lane spectacle, "The Sleeping Beauty and the Beast," at the Colonial Theatre, Boston. These sixty-five performances have attracted nearly one hundred and fifty thousand people, a record truly to be proud of and one which completely eclipses all previous theatre offerings in the history of the New England amusement world. The engagement at the Colonial Theatre is a limited one and those who have not already witnessed it should embrace the remaining opportunities. The management is giving special attention to mail orders. Seats are on sale three weeks in advance, so all the public has to do is to write, selecting a date, and choice seats will be forwarded. The many beautiful scenes, wonderful mechanical surprises, gorgeous costumes, brilliant electrical effects, charming music and the hundred-and-one entertaining incidents, coupled with the specialties of the principals, make up the greatest indoor entertainment ever placed upon a New England stage. Many of its features are a whole show in themselves, notably, the Grigolatis in their flying ballet act—a novel, unique and mystifying entertainment and a glorious adjunct to the ballet of "The Four Seasons," which presents the greatest feat imaginable to the eye, while the car is charmed with music. Aside from its spectacular features, "The Sleeping Beauty and the Beast" might well be termed an incessant fun treat.

Castle Square Theatre.

The favor in which plays of the Shakespearean repertoire are held by the patrons of the Castle Square theatre is again made evident by the announcement of a revival of "The Merchant of Venice" next week in response to many requests received by the management for further performances of this play. The remarkable impersonation of Shylock, the Jew, by Mr. John Craig, of the Castle Square stock company, when the play had its first production at this house two years ago will be pleasantly recalled, and the changes in the company, bringing new people into the cast, will add to the interest of this revival. The educational value of these performances of Shakespeare's plays is fully appreciated by students of dramatic literature, and many parties from the schools of Boston and vicinity have been planned to improve the opportunities given for a better acquaintance with the beauties of "The Merchant of Venice." Great care will, as heretofore, be given to the scenic and costume effects of the production. The leading characters have been cast as follows:—Duke of Venice, Lindsay Morrison; Antonio, James L. Seelye; Bassanio, Thomas McLaughlin; Gratiano, John Sainpolis; Lorenzo, George E. Mack; Salanio, Edward Wade; Shylock, John Craig; Clerk of the Court, William C. Mason; Portia, Lillian Lawrence; Nerissa, Mary Saunders; Jessica, Izzetta Jewel.

Keith's Theatre.

Sandow, the noted strong man and expert physical culture, will be the only holdover attraction at Keith's for the week of April 6, but he will be surrounded by an extra list of first class vaudeville entertainers, including Eddie 1410 and Jessie Gardner, in their comedy singing and dancing skit, "The Soubrette and the Cop." Edmund Breeze, a former Castle Square theatre favorite, in dramatic and humorous monologue; Fred St. Onge, the comedy bicyclist, just returned from a world's tour; Jess Dandy, the popular Hebrew parody singer; Hal Davis, and Inez McAuley, in a laugh-provoking farce; the Lamons, noted equilibrist and hand balancers, and Auriel Dagwell, a talented vocalist. Special attention is directed by the management to the new series of motion pictures which are claimed to be the most interesting that have been exhibited since the machine was added to the regular attractions of the weekly show.

Mortgagee's Sale.

PURSUANT to the power of sale contained in a certain mortgage deed given by Creighton A. McIntosh and Mary W. McIntosh, in her own right, to John Chamberlain, dated August 1st, 1900, and recorded in Norfolk Registry of Deeds, Lib. 876, Fol. 582, for breach of the condition of said mortgage deed, and for the purpose of foreclosing the same, will be sold at Public Auction in Quincy, in the County of Norfolk, and Commonwealth of Massachusetts, on the premises described in said mortgage, on MONDAY, the twenty-seventh day of April, 1903, at 3 o'clock in the afternoon, all and singular the premises conveyed by said mortgage deed and therein described as follows, to wit:

A certain piece or parcel of land with the buildings thereon, situated on the westerly side of Hancock street, in said Quincy, and shown on plan entitled, "Plan of land belonging to John Chamberlain, Esq., Quincy, Mass.," dated July, 1900, made by Percy Lawton, C. E., recorded with deed of this grantee to said Mary W. McIntosh of even date herewith, said land is bounded and described as follows: Beginning at a post where the line which divides the herein granted premises from premises of heirs of Alacia C. Marden, intersects the westerly line of Hancock street, thence running in a westerly direction along line of land of heirs of Alacia C. Marden, two hundred and twenty-nine and 53-100 (229.53) feet to a nail in fence; thence turning and running in a northerly direction along line of land formerly of Greenleaf, thirty-one and 50-100 (31.50) feet to a stake on the westerly line of Hancock street; thence turning and running in a southerly direction along line of land of grantee, fourteen and 43-100 (14.43) feet; thence turning and running in a northerly direction along land of grantee, ninety-nine and 83-100 (99.83) feet to a nail in tree; thence turning and running still in a northerly direction along land of grantee, one hundred and thirty-four and 95-100 (134.95) feet to a stake on the westerly line of Hancock street; thence turning and running in a southerly direction along the westerly line of Hancock street, forty-six and 63-100 (46.63) feet to a post at the point of beginning; containing 12,818 square feet of land.

Said premises will be sold subject to all unpaid taxes, outstanding tax titles, or assessments, if any.

Terms of sale \$100.00 cash at sale and balance in ten days thereafter.

WILLIAM G. A. PATTEE,

Executor under the will of John Chamberlain, Mortgagee.

The Magazines.

The April number of Country Life in America contains "Tarpon Fishing in Florida," illustrated by photographs of these seven-foot fish leaping out of the water in pursuit of smaller fish; "The Story of a \$2100 House," being the personal narrative of an actual experience; "Photographing in the Trees," showing how two expert bird photographers climb a tree one hundred and twenty feet high to secure a complete pictorial life-history of the red-tail hawk; "New England Wood Roads" is a superb five-page pictorial feature, and "The New Life in the Dahlias," explains the reason of the dahlias revival and tells how to grow the new creations.

McClure's Magazine for April has for its leading article an illustrated description of "Masters of Their Craft," showing how the days of activity pass with a cable car gripman, the driver of a Fifth Avenue bus, a compositor on a great New York daily, two railroad engineers, and a pick-pocket. The short stories are numerous. The Quick Decision Board, by Grace Richmond, introducing an invention for the use of changeable-minded young mothers that ought to be patented.

The World's Work for April has a long and varied table of contents. Frederic Emory, chief of the Bureau of Commerce, describes the work the new Department of Commerce and Labor will do; David S. Barry gives an intimate view of his new head. The personal story of how the Methodist church collected \$20,000,000 for education and benevolence, is told by Rev. Dr. Mills, who conducted the canvass; and there is an article full of human interest about the automobile, while full of new facts, is almost as vividly prophetic as one of H. G. Wells's anticipation.

Commonwealth of Massachusetts,
Court of Land Registration.

TO Helen L. Richards, Lewis Dyer, Mrs. J. Q. Adams, Charles Crane and Frank S. Patch of Quincy, Town of Braintree, Frank E. Dearing, T. Haven Dearing, John Gustafson, Michael Preston, Mrs. J. Haven Dearing seventy-eight and 3-10 (78.3) feet; southwesterly by land of said Dr. Haven Dearing four and 85-100 (4.85) feet; southerly by land of the Town of Braintree one hundred seventy-five and 15-100 (175.15) feet; containing twelve thousand five hundred thirty-five (12,535) square feet.

Fourth Parcel. A certain parcel of marsh land situated in said Quincy, bounded as follows: Northerly, northwesterly and southeasterly by the center of Rye Island Creek, ten hundred seventy (1070) feet, more or less; northeasterly by land of the Commonwealth of Massachusetts, one hundred forty-nine (149) feet; northwesterly by land of said Commonwealth, one hundred fifty (150) feet; westerly and southwesterly by land of said Commonwealth, seven hundred sixty-eight (768) feet; southerly by land now or late of Mrs. J. Q. Adams, three hundred seventy (370) feet; and southeasterly by land of the Town of Randolph, one hundred ninety-eight (198) feet; containing four and 71-100 (4.71) acres.

You are hereby cited to appear at the Court of Land Registration, to be held at Boston, in said County of Suffolk, on the twenty-seventh day of April A. D. 1903, at ten o'clock in the forenoon, to show cause, if any you have, why the prayer of said petition should not be granted. And unless you appear at said Court at the time and place aforesaid your default will be recorded, and the said petition will be taken as confessed, and you will be forever barred from contesting said petition or any decree entered thereon.

Witness, LEONARD A. JONES, Esquire, Judge of said Court, this first day of April in the year nineteen hundred and three.

Attest with seal of said Court.

Lowell Mills Have Small Stock

APPLETON MILLS EVENTS

Closely Watched by Operatives Be-
cause of Rumors That Demands
Will Be Conceded—Many Families
of Weavers Leaving the City

Lowell, Mass., April 6.—The situa-
tion in the general strike of textile
operatives is practically unchanged.
None of the six mills is expected to
make an attempt to open any new de-
partments and it is understood that by
the close of this week they will all be
closed throughout the works. The cloth
rooms are still being operated. The
amount of unfinished goods on hand
is not large and will furnish employ-
ment for only a few days.

Reports are in circulation that the
Hamilton mills will be reopened, the
demand of 10 percent increase being
granted. Agent Moulton's refusal to
either deny or affirm the assertion
causes a feeling of uncertainty.

Officials of the Boott, Massachu-
setts, Tremont and Suffolk say their fac-
tories will shut down altogether dur-
ing the week. Some doubt is ex-
pressed as to what will be done at the
Appleton mills. For several days it
has been generally understood that the
officials of this corporation were on the
verge of breaking their agreement with
the other manufacturers and conceding
the demand of the operatives, and the
events at the Appleton are more closely
watched than at the others.

The four mill spinners who made a
personal demand for an increase from
Treasurer Hall of Shaw's hosiery on
Saturday refuse to say whether they
intend to go to work. The impression
of the mill officials is that they will
report. When the agents of the cotton
mills received the communication of the
Textile council requesting the increase
a similar note was sent to the Shaw
hosiery, but by agreement of the mem-
bers of the mill spinners those of that
craft were allowed to keep on working
after the time limit set by the council
had expired, the sentiment being to
concentrate the battle on the big cor-
porations and then turn to the small
ones.

The sudden change was the result of
a somewhat unexpected discussion at
Friday night's meeting of the Mule
Spinners' union. Those out on strike
claimed that all should fare alike and
they insisted that the spinners at
Shaw's hosiery enforce the demand.
One of the managers of Shaw's hosiery
said last night that the demand had
been refused and that the company
had plenty of yarn on hand, so it has
no cause to worry.

Over 125 families of weavers will
leave Lowell within a few days for
places in other cities being provided
for them by the Textile council. "Those
whom we are sending off to other
places are operatives who were outside
the union ranks until the strike was de-
clared," said a Textile council officer.

The reason for this is that those con-
nected with the industrial unions
that were affiliated with the Textile
council before the difficulties are being
taken care of financially and offered to
remain on the scene to take an active
part in the struggle. Several large
contributions from persons and cor-
porations outside of labor circles have been
made to the strike fund.

Cutters Benefit by Arbitration
Haverhill, Mass., April 6.—Arbitra-
tion through the state board of arbi-
tration and conciliation has resulted in
a victory for the cutters who had asked
for an increase in their wages. Be-
tween 375 and 450 cutters in local
union stamp factories will be benefited
by the decision of the state board, to
whom the wage matter was submitted.
Their finding is as follows: A work-
ing schedule of 59 hours a week, giving
outside cutters an increase of 50 cents
a week; establishing a wage scale at
\$15.50; trimming cutters allowed \$12.75
a week, an increase of 75 cents, while
the block boys get \$11.50 a week, they
having received previously anywhere
from \$6 to \$10 a week; cloth lining and
gore cutters get the same wages as
heretofore, \$13.50, and the sorters get
\$15.50. Every one of the 11 union
stamp factories in Haverhill is affected
by the recommendation.

it all his life. For sale by all druggists.

LARCENY OF \$23,000

Jury Returns a Verdict of Guilty
Against Broker Dunning

Boston, April 6.—Edwin J. Dunning,
the State street broker, charged in four
counts with the larceny of \$23,000 from
the estate of the late Francis A.
Brooks, was found guilty by a jury in
the superior criminal court after less
than two hours' deliberation.

The case will go to the supreme
court on questions of law, relating to
the admissibility of evidence and to
the sufficiency of the indictment.

While the indictment charged the
larceny of \$23,000, it is said that Dun-
ning obtained about \$300,000 from
Brooks, who was well advanced in
years and in feeble health. That
amount is set forth in the schedule of
liabilities in the petition Dunning filed
in bankruptcy as owing to the Brooks
estate.

The case was on trial for a week,
the contention of the government be-
ing that Brooks was deceived by Dun-
ning's pretences and gave the latter
checks in the expectation that he was
to receive larger checks for stock
owned by him from Belgian capitalists,
whom Dunning claimed to represent.

Unexpected Change in Weather

Boston, April 6.—Jack Frost dipped
early sprouts on trees and bushes quite
sharply in all parts of New England
Saturday night and repeated the
twinges last night. Coming after a
mild week the fall in temperature was
especially noticeable and it has been
some years since a harder April morn-
ing was experienced than on Sunday.
Frost sparkled on the grass at sun-
rise and dead water froze firmly dur-
ing the night. Some damage un-
doubtedly has been done to vegetation,
but this will not be known until the
blight sets in on the tip ends of tender
foliage.

Woman Jumped Overboard

Portland, Me., April 6.—A woman
whose name on the passenger list is
Mrs. Alexander jumped from the steam-
er Governor Dingley when the boat
was about two miles out from Boston
on the way to this city. A search was
made for the body, but without avail.
The woman was about 30 years old,
average size and of dark complexion.
She was neatly dressed.

Cambridge, Mass., April 6.—Miss
Marion E. Alexander, 39 years old, is
missing from her home in this city and
some fear is entertained that she is
the woman who jumped off the Gov-
ernor Dingley.

Talk of Bribery at Cambridge

Cambridge, Mass., April 6.—Mayor
McNamee has secured evidence that a
certain man has tried to bribe the city
government committee on wires and
lamps. Councilman Nelligan says: "I
was offered \$50 for my vote. The
man who did it is connected with a
Boston corporation that does business
in Cambridge." Alderman Barry
says that the same man approached
him with hints about a bribe. He said
that he had Alderman Davis and
Councilmen Morrison and Dihan
"fixed." The officials named deny the
truth of the allegation.

Outfit Struck by Electric Car

Haverhill, Mass., April 6.—James
Lanigan is a patient at the Holy hos-
pital, having been the victim of a col-
lision of an electric car with a vehicle
in which he was riding at Groveland.
Lanigan was driving on the track.
The force of impact killed the horse
and reduced the wagon to fragments.
Lanigan has a broken jaw and a badly
wounded head.

Bulldog Didn't Scare Robbers

Springfield, Mass., April 6.—The re-
markably long list of daily robberies of
recent weeks in this city received two
additions last night. The houses of
E. S. Decker and F. M. Johnson were
thoroughly ransacked by professional
thieves, but little was taken. The
Johnsons had a bulldog in the house,
just bought on account of the burglary
scare.

Ex-Minister Washburn Dead

Worcester, Mass., April 6.—John D.
Washburn, United States minister to
Switzerland under President Harrison
from 1889 to 1892, is dead. He was
born in Boston 70 years ago but passed
most of his life in Worcester, where
he succeeded to the insurance business
of Alex. H. Bullock when he was
elected governor of Massachusetts.

Perhaps a Victim of Assault

Boston, April 6.—The body of an
unknown man about 35 years of age,
which had apparently been in the
water three months, was found floating
near Commercial wharf yesterday.
There were several abrasions on the
head and face and an autopsy will be
held to determine the cause of death.

Ring Found in Duck's Stomach

Marshfield, Mass., April 6.—Franklin
W. Bryant of Brant Rock has just re-
covered a ring lost last fall while on a
duck shooting trip in this town. Ex-
Postmaster Sears of Green Harbor
shot a duck and in the stomach was the
ring Bryant lost six months ago.

Rumors of Royal Betrothal

Copenhagen, April 6.—Rumors are
current among the German emperor's
suite and in Danish court circles that
the German Crown Prince, Frederick
William is to be betrothed to Duchess
Cecile. Duchess Cecile was born at
Schwerin and will be 17 years old next
September, while the German crown
prince is four years her senior.

Engineman Costa in Charge of

Central Fire Station.

Matters at the Central fire station
have been straightened out and no
public investigation will be had. Some
weeks ago when John M. Denneen and
Thomas F. Hogan were laid off,
Mayor Bryant made a personal investi-
gation of affairs at this station. Several
conferences were held between Mayor
Bryant and Chief Williams.

The result of these conferences was
that on Saturday Chief Williams made
some changes which it is believed will
have the desired result. Both Denneen
and Hogan have been reinstated and
both reported for duty Saturday. Ho-
gan returned to the central station and
Denneen was assigned to duty at the
Wollaston station, taking the place of
Ernest H. Bishop, driver of Hose 2,
why was transferred to the Central sta-
tion.

James F. Rooney who has been at
the Central station as a substitute and
all-round man, has been dropped alto-
gether, and Charles Costa, engineer of
the steamer, has been placed in charge
of the Central station.

It is believed that these changes will
have the desired effect and that the
department will still continue to hold
its excellent reputation as an up-to-date
fire fighting squad.

Many Charges of Fraud

Cincinnati, April 6.—The local elec-
tion through Ohio today are espe-
cially important because of the new
municipal code enacted recently by the
legislature which reorganizes every
municipality. With more at stake than
ever before the party organizations have
been unusually active and many
charges of fraudulent registration have
been made. It is charged that more
than 1000 false registrations have been
made in a single ward.

Flood on Lower Mississippi

New Orleans, April 6.—The levees
broke at the upper line of ex-Governor
Warrington's plantation at Magnolia,
west side of the river, about 60 miles
below this city. As the river bank at
that point is very steep, the break will
have to be closed from the inside. The
Grand Isle railroad refuses freight or
passengers for points below Magnolia.

To Tune Up in American Waters

Gourock, April 6.—Sir Thomas Lip-
ton has decided to take both the Sham-
rocks to New York. His satisfaction
with the early performances of the
challenger has decided him to curtail
the trials in British waters. He hopes
that six weeks of tuning up in America
will ensure the challenger being in the
best trim for the cup races.

Sheriffs Surprised Bandits

Guthrie, O. T., April 6.—Four sheriffs
surrounded a ranch near Cordele and
captured six of the remaining outlaws
of the Bert Casey gang, supposed to
have robbed the Leger bank of \$3000
last Friday. The bandits were sur-
prised and taken without trouble.

Engineers Had Sunday Off

Wilkesbarre, Pa., April 6.—The an-
t-tracite strike commission award, with
reference to the mining engineers,
which gives the engineers a holiday on
Sundays, was observed yesterday
throughout the region for the first time
in the history of coal mining.

Good Afternoon.

Germany has appropriated \$750,000 to defray the expense of preparing an extensive exhibit at the big World's Fair at St. Louis, and a like sum will be allowed next year to carry the work to completion, making \$1,500,000 in all.

Evidently Germany is for expansion and is looking for a big market in the United States.

Surprise Party.

A very enjoyable surprise party was given Friday evening, April 3, to Miss Mamie Kennedy at her home, 20 Pleasant street, South Quincy. Miss Kennedy was presented with a handsome gold ring set in opal stones.

The presentation speech was made by Mr. J. J. Donahue. Though taken by surprise Miss Kennedy responded in a few well chosen words.

There were a number of her friends from Boston, Lynn, Randolph, Brockton, Weymouth and surrounding places.

An enjoyable evening was spent in singing, dancing and games. Refreshments were served during the evening. Mr. Mitchell from Boston officiated on the piano. Songs were rendered by Miss Belle McIntosh, Miss May Rose, Miss Mamie Kennedy, Miss Helen Kennedy, Mr. Robert Kennedy, and Mr. L. Nason. The feature of the evening were comic songs by D. J. Donahue and from our well known comedians, P. Savard of South Quincy.

Waiting the Result.

Nothing new has developed in the street railway situation. The men are keeping quiet waiting for the result of the recent voting to be announced. An officer of the local union informs the Ledger that the official result of the recent voting will not be made public until the next meeting of the delegates in Boston, and that meeting will not be held until all of the union men of the Old Colony and the Boston & Northern systems have voted. This same official also informed the Ledger that he regretted that so much had been said in regard to a strike, as that was the last thing the men wanted.

World's Fair.

St. Louis is planning for a grand time the last of this month, the formal dedication of the Louisiana Purchase Exposition, which however will not open until next year. Acceptances have been received from President Roosevelt, former President Cleveland, the President's cabinet, diplomatic representatives of foreign countries, Governors of states and other distinguished men. The first day, April 30, is dedication day; May 1 is diplomatic day, and May 2 governors' day. The military parade on April 30 will be composed of 15,000 to 20,000 troops, and the civic parade on May 2 will be equally as large if not larger.

GRANITE MEN.

Enjoy Annual Banquet at the United States.

Association 25 Years Old.

Theatre Party in Evening—150 in Attendance.

There were just 150 gentlemen, by actual count, who enjoyed the annual banquet and theatre party of the Granite Manufacturers Association of Quincy on Saturday evening. The banquet was at the United States Hotel, Boston, and "The Vinegar Buyer," at Boston Museum was the theatre attraction.

From 5 until 6.30 P. M., the following menu was served, and seemed to give complete satisfaction:

Oysters on shell

Mock Turtle au Maderia

Olives

Baked Sea Trout, fine herb sauce

Leed Cucumbers

Parisienne Potatoes

Young Turkey, cranberry sauce

Lamb with currant jelly

Victoria Potatoes

Green Peas

Sweetbread Cutlets, macedoine

Bananas in Jelly with whipped cream

Brandy Bavarian Cream

Peach Jelly

Harlequin Ice Cream

Frozen Pudding

Assorted Cake

Fruits

Water Wafers

Sage Cheese

Coffee

Wilson's orchestra of six pieces discoursed popular music during the banquet, and the guests frequently joined in the chorus, and applauded heartily. The favorite selection was "The Good Old Summer Time," when Henry McGrath acted as chorister and everyone let himself out.

President Harry S. Nicol welcomed the guests, and introduced John L. Miller, the chairman of the Banquet committee as toastmaster.

Mr. Miller at the outset reminded the guests that it was the 25th anniversary of the association, it having been organized in 1878. He said the association had something to show for these years, but not half it should. The granite business had benefited in many ways, but he hoped some day the manufacturers would be able to control the business and not allow the jobbers to do it.

Early next year there would be opened at St. Louis the greatest of World's Fairs. He queried if the association proposed to allow the jobbers to control that also. Mr. Miller advocated a large exhibit by the association, and claimed it would return a 100 fold more than cost.

Mayor Bryant was complimented for what he had done to relieve the coal crisis the past winter, and was introduced as the first speaker. It was the first time he said that he had been able to accept the many invitations of the association. Gatherings of this kind of the representative men of our city were a good thing.

Relative to his administration as Mayor, he said he had endeavored to improve the city government; to give a business administration; to be fearless and independent of politics, and to treat all perfectly square. He expected from each official and employee an equivalent.

Chairman Miller read regrets from Congressman McNary, ex-Congressman Naphe, Senator Brackett and others.

Previous to his introduction Representative Peter T. Fallon had received an ovation, and it was renewed when he was introduced. Mr. Fallon thought the manufacturers were looking better; that they must be more prosperous, and he was glad to see it.

The association he said should take a stand and not be second to anyone. It could because Quincy has the best mechanics, expert draftsmen, and wide awake salesmen. There was more brain in Quincy than in any town in the United States. He thought quarry owners could help Quincy business by reducing the price of stock. More capital was needed to advertise and push the business.

Representative R. R. Freeman followed and congratulated the association that it had come to a long agreement with all unions of employees. Not only the industry but the city would be benefited thereby, and prosperous times result.

Mr. Freeman complimented ex-Representative Elihu B. Hayes of Lynn, recently deceased, as author of the Australian ballot law, and he regarded the Luce bill which has just passed the House as second in importance to the Australian act. He explained the bill briefly.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Caskoden's Memoir

By **EDWIN CASKODEN [CHARLES MAJOR]**

Copyright, 1898 and 1901, by the Boston-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference.

CHAPTER VII.—Continued.

"Ah, you want to pay the debt that I may have no excuse to remain? Is that it? Perhaps you are not so kind after all."

"No, no; you know better. But let me pay the debt. How much is it, and to whom is it owing? Tell me at once, I command you."

"No, no, Lady Mary; I cannot."

"Please do. I beg, if I cannot command. Now I know you will. You would not make me pay twice for anything?" She drew closer to him as she spoke and put her hand coaxingly upon his arm. With an irresistible impulse he took the hand in his and lifted it to his lips in a lingering caress that could not be mistaken. It was all so quick and so full of fire and meaning that Mary took fright, and the princess for the moment came uppermost.

"Master Brandon!" she exclaimed sharply and drew away her hand. Brandon dropped the hand and moved over on the seat. He did not speak, but turned his face from her and looked out of the window toward the river. Thus they sat in silence, Brandon's hand resting listlessly upon the cushion between them. Mary saw the eloquent movement away from her and his speaking attitude with averted face; then the princess went into ecstacy, and the imperial woman was ascendant once more. She looked at him for a brief space with softening eyes and, lifting her hand, put it back in his, saying:

"There it is again—if you want it."

"Want it? Ah, this was too much! The hand would not satisfy now. It must be all, all! And he caught her to his arms with a violence that frightened her."

"Please don't! please! Not this time! Ah, have mercy, Charles! Well! There! There! Mary mother, forgive me!" Then her woman spirit fell before the whirlwind of his passion, and she was on his breast, with her white arms around his neck, paying the same tribute to the little blind god that he would have exacted from the lowliest maiden of the land.

Brandon held the girl for a moment or two, then fell upon his knees and buried his face in her lap.

"Heaven help me!" he cried.

She pushed the hair back from his forehead with her hand and as she fondled the curls leaned over him and softly whispered:

"Heaven help us both, for I love you!"

He sprang to his feet. "Don't! Don't, I pray you," he said wildly, and almost ran from her.

Mary followed him nearly to the door of the room, but when he turned he saw that she had stopped and was standing with her hands over her face, as if in tears.

He went back to her and said, "I tried to avoid this, and if you had helped me it would never— But he remembered how he had always despised Adam for throwing the blame upon Eve, no matter how much she may have deserved it, and continued: "No, I do not mean that. It is all my fault. I should have gone away long ago. I could not help it. I tried, oh, I tried!"

Mary's eyes were bent upon the floor, and tears were falling over her flushed cheeks unheeded and unchecked.

"There is no fault in any one. Neither could I help it," she murmured. "No, no; it is not that there is any fault in the ordinary sense. It is like suicide or any other great self-inflicted injury with me. I am different from other men. I shall never recover."

"I know only too well that you are different from other men, and—and I, too, am different from other women. Am I not?"

"Ah, different! There is no other woman in all this wide, long world. And they were in each other's arms again. She turned her shoulder to him and rested with the support of his arms about her. Her eyes were cast

down in silence, and she was evidently thinking as she toyed with the lace of his doublet. Brandon knew her varying expressions so well that he saw there was something wanting, so he asked:

"Is there something you wish to say?"

"Not I," she responded with emphasis on the pronoun.

"Then it is something you wish me to say?"

She nodded her head slowly. "Yes."

"What is it? Tell me, and I will say it."

She shook her head slowly. "No."

"What is it? I cannot guess."

"Did you not like to hear me say that—that I—loved you?"

"Ah, yes! You know it. But—oh! do you wish to hear me say it?"

The head nodded rapidly two or three times. "Yes." And the black curling lashes were lifted for a fleeting, luminous instant.

"It is surely not necessary. You have known it so long already, but I am only too glad to say it. I love you."

She nestled closer to him and hid her face on his breast.

"Now that I have said it, what is my reward?" he asked, and the fair face came up, red and rosy, with "rewards," any one of which was worth a king's ransom.

"But this is worse than insanity," cried Brandon as he almost pushed her from him. "We can never belong to each other. Never!"

"No," said Mary, with a despairing shake of the head, as the tears began to flow again. "No, never!" And falling upon his knees he caught both her hands in his, sprang to his feet and ran from the room.

Her words showed him the chasm anew. She saw the distance between them even better than he. Evidently it seemed farther looking down than looking up. There was nothing left now but flight.

He sought refuge in his own apartments and wildly walked the floor, exclaiming: "Fool, fool that I am to lay up this store of agony to last me all my days! Why did I ever come to this court? God pity me—pity me!" And he fell upon his knees at the bed, burying his face in his arms, his mighty man's frame shaking as with a palsy.

That same night Brandon told me how he had committed suicide, as he put it, and of his intention to go to Bristol and there await the sailing of the ship and perhaps find a partial resurrection in New Spain.

Unfortunately, he could not start for Bristol at once, as he had given some challenges for a tournament at Richmond and could furnish no good excuse to withdraw them, but he would not leave his room or again see "that girl who was driving him mad."

It was better, he thought, and wisely, too, that there be no leave taking, but that he should go without meeting her.

"If I see her again," he said, "I shall have to kill some one, even if it is only myself."

I heard him tossing in his bed all night, and when morning came he arose looking haggard enough, but with his determination to run away and see Mary no more stronger than ever upon him.

But Providence or fate or some one ordered it differently, and there was plenty of trouble ahead.

A STUBBORN COLD OR BRONCHITIS

yields more readily to Scott's Emulsion of cod-liver oil than to anything that you can take; and if persistently used a few days, will break up the cold.

When you awake in the night choked up and coughing hard, take a dose of the Emulsion, and you will get immediate relief, where no cough medicine will give you relief. It has a soothing and healing effect upon the throat and bronchial tubes.

Most people understand Scott's Emulsion is a great body builder—but it is equally good to allay inflammation and cure colds and violent coughing.

A TALK ON THE TARIFF

With Reference to Trusts in a General Way.

LET WELL ENOUGH ALONE

This, and the Maintenance of Protection Idea, the Two Essentials in President Roosevelt's Tariff Scheme—Tribute to American Workmen

Minneapolis, April 6.—The most enthusiastic reception ever tendered any man in the twin cities was that to President Roosevelt. From the time he arrived until his departure from Minneapolis for the west he was the recipient of a continual ovation, the streets through which he passed in both cities being a solid mass of people, and Armory hall, at the University of Minnesota, being crowded to its limited capacity. The speech, which was on tariff and reciprocity, brought out much enthusiasm. The president said in part:

At the special session of the senate held in March the Cuban reciprocity treaty was ratified. When this treaty goes into effect, it will confer substantial economic benefits alike upon Cuba, because of the widening of her market in the United States, and upon the United States, because of the equal widening and the progressive control it will give to our people in the Cuban market.

The treaty was not merely warranted but demanded, apart from all other considerations, by the enlightened consideration of our foreign policy. More and more in the future we must occupy a preponderant position in the waters and along the coasts in the region south of us; not a position of control over the republics of the south, but of control of the military situation so as to avoid any possible complications in the future. Under the Platt amendment Cuba agreed to give us certain naval stations on her coast. The navy department decided that we needed but two, and we have specified where these two are to be. President Palma has concluded an agreement giving them to us—an agreement which the Cuban legislative body will doubtless soon ratify.

Equally important was the action on the tariff upon products of the Philippines. We gave them a reduction of 25 percent, and would have given them a reduction of 25 percent more had it not been for the opposition. In the hurried closing days of the last session, of certain gentlemen who, by the way, have been representing themselves both as peculiarly solicitous for the interests of the Philippine people and as special champions of the lowering of tariff duties.

Moreover, a law was enacted putting anthracite on the free list and completely removing the duties on all other kinds of coal for one year.

We are now in a condition of prosperity unparalleled not merely in our own history but in the history of any other nation. This prosperity is deep rooted and stands on a firm basis because it is due to the fact that the average American has in him the stuff out of which victors are made in the great industrial contests of the present day, just as in the great military contests of the past; and because he is now able to use and develop his qualities to best advantage under our well-established economic system. There will be fluctuations from time to time in our prosperity, but it will continue to grow just so long as we keep up this high average of individual citizenship and permit it to work out its own salvation under proper economic legislation.

The present phenomenal prosperity has been won under a tariff which was made in accordance with certain fixed and definite principles, the most important of which is an unwavering determination to protect the interests of the American producer, business man, wage-worker, and farmer alike.

The general tariff policy, to which, without regard to changes in detail, I believe this country is irrevocably committed, is fundamentally based upon ample recognition of the difference between the cost of labor—here and abroad, and of the need to see to it that our laws shall in no event afford advantage in our own market to foreign industries over American industries, to foreign capital over American capital, to foreign labor over our own labor.

This country has and this country needs better-paid, better-educated, better-fed, and better-clothed workmen, of a higher type, than are to be found in any foreign country. It has and it needs a higher, more vigorous, and more prosperous type of tillers of the soil than is possessed by any other country. The business men, the merchants and manufacturers, and the managers of the transportation interests show the same superiority when compared with men of their type abroad.

It is, of course, a mere truism to say that we want to use everything in our power to foster the welfare of our entire body politic. In other words, we need to treat the tariff as a business proposition, from the standpoint of the interests of the country as a whole, and not with reference to the temporary needs of any political party. A nation like ours could not long stand the ruinous policy of readjusting its business to radical changes in the tariff at short intervals, especially when, as now, owing to the immense extent and variety of our products, the tariff schedules carry

sands of different articles. Sweeping and violent changes in such a tariff, touching so vitally the interests of all of us, would be disastrous in any event, and they would be fatal to our present well being if approached on the theory that the principle of the protective tariff was to be abandoned.

Yet, on the other hand, where the industrial conditions so frequently change, as with us must of necessity be the case, it is a matter of prime importance that we should be able from time to time to adapt our economic policy to the changed conditions. Our aim should be to preserve the policy of a protective tariff, in which the nation as a whole has acquiesced, and yet wherever and whenever necessary to change the duties in particular paragraphs or schedules as matters of legislative detail, if such change is demanded by the interests of the nation as a whole.

In making any readjustment there are certain important considerations which can not be disregarded. If a tariff law has on the whole worked well, and if business has prospered under it and is prospering, it may be better to endure some inconveniences and inequalities for a time than by making changes to risk causing disturbance and perhaps paralysis in the industries and business of the country.

One point we must steadily keep in mind. The question of tariff revision, speaking broadly, stands wholly apart from the question of dealing with the trusts. No change in tariff duties can have any substantial effect in solving the so-called trust problem.

Speaking broadly, it is evident that the changes in the tariff will affect the trusts for weal or for woe simply as they affect the whole country. The tariff affects trusts only as it affects all other interests. It makes all these interests, large or small, profitable; and its benefits can be taken from the large only under penalty of taking them from the small also.

To sum up, then, we must as a people approach a matter of such prime economic importance as the tariff from the standpoint of our business needs. We cannot afford to become fossilized or to fail to recognize the fact that as the needs of the country change it may be necessary to meet these new needs by changing certain features of our tariff laws. Still less can we afford to fail to recognize the fact that these changes must not be made until the need for them outweighs the disadvantages which may result; and when it becomes necessary to make them they should be made with full recognition of the need of stability in our economic system and of keeping unchanged the principle of that system which has now become a settled policy in our national life.

We have prospered marvelously at home. As a nation we stand in the very forefront in the giant international industrial competition of the day. We cannot afford by any freak of folly to forfeit the position to which we have thus triumphantly attained.

Sunday at Sioux Falls

Sioux Falls, S. D., April 6.—President Roosevelt was the guest of Sioux Falls Sunday. He attended church both in the morning and evening, and in the afternoon went for a horseback ride, accompanied by Seth Bullock, superintendent of the Black Hills forest reserves. Owing to the fact that both in Milwaukee and Minneapolis the length of the program did not permit the president to reach his car until after midnight, he has announced that hereafter he will not begin speaking later than 8:30 in the evening and always will be back in his car by 10 o'clock. He will adhere strictly to this rule.

Made Threats Against President

San Bernardino, Cal., April 6.—R. P. Brown of Redlands, who was arrested just before the last visit of President McKinley under instructions from Governor Gage, who learned that he had made threats against the president, is again in the county jail, having been taken into custody at Redlands on a similar charge, he having been overheard making threatening allusions to President Roosevelt. Brown's arrest was decided upon as a measure of precaution. He is charged with vagrancy.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." PENNELL A DEFAULTER

According to the Story of a
Buffalo Newspaper

HE WAS HEAVILY INSURED

That After His Death Estates Which
He is Alleged to Have Defrauded
Might Recoup Losses—Said to Have
Long Contemplated Suicide

Buffalo, April 7.—The Commercial publishes a story in which it is alleged that Arthur I. Pennell, who was killed in an automobile accident on March 10, was a defaulter to the extent of from \$150,000 to \$200,000. The story, The Commercial says, leaked out as the result of a legal dispute over two life insurance policies and is to the effect that Pennell induced friends in the east who had known his family and the family of his wife to place money in his hands for investment. He acted, in fact, as their financial agent. He would inform them of some good investment which he had come across which would pay an excellent rate of interest, and they would send him money. The money which was sent to him for investment, it is alleged, he spent, and when interest payments fell due he made the payments out of his own pocket.

Wallace Thayer, who was Pennell's attorney and intimate friend, is referred to by the paper as saying he had suspected irregularities but that he had no proof of any such wrongdoing. Incidentally, it has been learned that Pennell made provision for the payment to Mrs. Edwin L. Burdick of \$25,000 out of his life insurance.

Pennell carried over \$200,000 life insurance in order that after his death the eastern estates against which he is alleged to have defrauded might be able to recoup the losses which they had sustained through him. In his will Pennell named as administrator of his estate his brother, J. F. Pennell. He left to his administrator sealed instructions that upon his death he should make good in full out of his estate all the losses which had been sustained through his defalcations.

The Commercial adds that Pennell had contemplated suicide for two years and says the fact is known that "Pennell planned two years ago to throw himself in front of a train at Peekskill in order that it appear that his death was an accident. He stopped off at Peekskill on the way back from New York, with the intention of committing suicide in that way, but his nerve failed him. Recently he told the story of the Peekskill incident himself. During the Pan-American exposition he sought for days for an opportunity to commit suicide in a manner that would make it appear accidental. He had an idea that he could be run over in some way while at the exposition, but he never could nerve himself up to the point where he could throw himself under a train or drop under the wheels of a trolley car."

It appears there were two life policies which had not been handed over to the administrator. One was for \$15,000 and the other for \$10,000. These two policies had been assigned by Pennell to Attorney Thayer, in trust. In one he was referred to as "Wallace Thayer, trustee," and in the other he was designated "Wallace Thayer, as trustee."

The insurance companies took legal counsel in the matter and held up payments. J. F. Pennell, the administrator of the estate, was called in and insisted on having more information before he would consent to the payment of any insurance money to Thayer as trustee. It was then that the story of Pennell's alleged defalcations and his plans to commit suicide were made known. The \$25,000 insurance money,

assigned to Thayer by Pennell in trust, is supposed to be paid over to Mrs. Burdick in accordance with the provisions of the bond for \$50,000 which Pennell gave prior to his death. Mr. Thayer declined to give the administrator of Pennell's estate any information concerning it.

Mr. Pennell, the administrator, went to Thayer for the purpose of finding out the nature of his trust, as it was his duty of administrator to do. Mr. Thayer would not talk. He said Pennell had left sealed instructions advising him as to how he was to dispose of the \$25,000, and that, as a lawyer, he could not divulge the nature of that transaction.

Mr. Pennell urged that as administrator he was entitled to know the nature of the trust before he consented to have the money paid over. Mr. Thayer still refused to say what the trust was.

Thomas Penny, attorney for the Pennell estate, accordingly charged the insurance companies to pay over no money to Mr. Thayer. The probability is that the \$25,000 will be paid into the courts unless the insurance company takes a chance on paying it either to Mr. Penny or Mr. Thayer.

Mr. Penny states that if Pennell has swindled any estates in the east he is absolutely ignorant of it.

MULE SPINNERS SATISFIED

With Conditions as They Exist in the Shaw Hosiery at Lowell

Lowell, Mass., April 7.—Surface indications are that the Textile council has insubordination in its own ranks. Mule spinners employed in the Shaw Hosiery, who last week were ordered to demand a 10 percent increase in wages, say that they will not leave their work and join in the general strike of the Textile operatives. These spinners claim that they are now receiving more pay than the mule spinners who are employed in the other mills and, moreover, that they have been promised an increase of 10 percent regardless of the outcome of the difficulties in the other corporations. On this matter of an increase Treasurer Hall of the Shaw company denies that he has made any such increase, but says that if the increase is granted in other places the Shaw company will immediately follow the example.

The Mule Spinners' union will meet Friday night, at which time action will be taken probably to order out the mule spinners in the Shaw hosiery. It is believed that these spinners will point blank refuse to obey the order and in event of an attempt to discipline them they will break away from the union and act independently.

Representatives of cotton concerns throughout the New England states continue to visit here in quest of skilled operatives. The second week of the mill idleness has seen little or no change from the quietness which prevailed all last week. The chief topic in the labor halls is the reported intention of the mill agents to operate their mills during the week beginning May 20. The labor leaders do not think that the mill agents will be able to open the mills.

Sad Incident of Strike

Lowell, Mass., April 7.—The first death resulting directly from the shutdown of the mills occurred last night. Ann Meehan, aged 40, an operative of the Massachusetts mill until the shutdown, was found in a dying condition in the road on the outskirts of the city. She was taken to St. John's hospital and died soon after her admission there. She had taken poison. She had been living at the corporation boarding house of Richard Hayes. Hayes was obliged to close his house when the mills shut down. It is believed that the woman had little or no means and became despondent at failure to obtain work.

Three Italians Blown Up

Gloucester, Mass., April 7.—About 40 Italians have been at work excavating a trench in a street at Pigeon cove for the extension of the water plant main. Six charges of dynamite were put in a rock and presumably all were exploded. Later, while three men were at work on the rock, an explosion occurred. One Italian received the full force of the dynamite and was killed, another lost both eyes and was fearfully mangled and the foreman was badly cut up. All the Italians at work are known by numbers, their names not being kept.

Thirteen Burglaries in Thirteen Days
Nashua, N. H., April 7.—Thirteen burglaries in as many days in this city led the police to arrest on suspicion three men who were posing as cripples and by means of printed slips were asking alms from door to door. One of the men has been identified by a householder as the individual whom he interrupted at work on his door. Most of the breaks have been made with skeleton keys and only money has been stolen.

VOTE TO REVOKE

City Council Accede to
Wishes of Mayor.

The City Scavenger
Must Go.

Fire Department Ordinance and
Other Matters Come Up.

Another hot session of the City Council, and a late one, was held Monday evening. As at the previous meeting the contract of the City Scavenger was under discussion, and the Council was so evenly divided when the vote was taken after a debate of an hour and a half, that the vote of the chairman was necessary to dissolve the tie.

Several other important matters came before the meeting as will be seen by the report which follows. The attendance of citizens was unusually large.

Councilman Thompson and Nickerson were absent.

CEMETERY ENTRANCE.

Mayor Bryant forwarded a communication from the Managers of Public Burial Places relative to improvement of land in front of main entrance to Mt. Wollaston cemetery. To Committee on Streets.

STREET WATERING.

Mayor Bryant forwarded a communication relative to street watering. Laid on the table until later when an order for \$6,800 for street watering was offered, substantially as last year. To Finance Committee.

PRESIDENTS SQUARE.

Mayor Bryant forwarded a letter of Hannah S. Porter suggesting that the name of "City Square" be changed to "Presidents Square." Later an order was offered to this effect and then laid on the table.

SCAVENGER CONTRACT.

The Mayor and Board of Health sent a communication asking the Council to revoke the contract with C. L. Prescott as City Scavenger. Laid on the table until later.

BILLS OF 1902.

The City Auditor sent a communication relative to bills for repairs of public buildings and removal of snow for 1902. Later an order was offered for \$186.25 to cover these bills. To Finance Committee.

SEWER APPROPRIATION.

The Mayor forwarded a communication from the Sewer Commissioners asking for an appropriation of \$6,000 for sewer connections. To committee on Sewers and Drains and Finance.

APPOINTMENTS.

The Mayor forwarded the appointments of George Weston as weigher of vessels, and John Hannigan as a constable. Confirmed.

SIDEWALK.

F. J. Pierson forwarded a bill for sidewalk in front of his premises on Granite street, requesting the city to pay one-half. To Finance Committee.

BILL FROM TAUNTON.

The City Clerk forwarded a bill from the Taunton Asylum for board of a Quincy woman. To Finance Committee. Continued on page 3.

ADAMS CHAPTER

Resume Meetings at the John
Adams Birthplace.

Monday was sort of an at-home day for Adams Chapter, Daughters of the Revolution, for after holding the winter meetings at the homes of members, they opened up the John Adams birthplace for the April meeting and invited friends to enjoy the afternoon with them.

There was a large attendance, among the guests being Mrs. John A. Heath of Lynn, Mrs. Wheeler, Mrs. Annie L. D. Mason and Mrs. James L. Chapman, past regent of the State society, D. R., also Mrs. Frederick Plummer of Quincy; Mrs. T. H. Watson and Mrs. F. O. Wellington of Weymouth; Mrs. John H. Litchfield and Mrs. Frederick H. Bishop of Wollaston; Mrs. Sylvester Miller and Mrs. E. N. Hultman of Quincy.

After a short business meeting there was singing by Mrs. Farnam of Randolph, and a paper by Mr. Frederick Plummer of the Woodward Institute, which were listened to with much enjoyment.

An informal reception followed, during which refreshments were served by the house committee for the day: Mrs. A. H. Gilson, Mrs. Frank E. Granger, Mrs. George T. Magee, and Miss Mary Hinkley.

The chapter voted to set out maple trees on the grounds surrounding the house so that coming generations may enjoy the shade when they have grown to be big trees.

The Junior society is arranging for an entertainment at the house the afternoon of the 18th and on June 13 are to assist the Adams chapter in celebrating Flag Day.

Defaulter Wilson Sentenced
Maula, April 7.—W. A. Wilson, formerly disbursing officer of the bureau of coastguard and transportation here, who defaulted and was arrested in Montreal, and who was brought back to this city, was sentenced to 12 years' imprisonment.

Clan McGregor hall, South Quincy,
April 2. The members had invited
their friends and those who had as-
sisted the lodge in the past and this
brought out a large number, among
them being many able entertainers. The
first of the evening was given to enter-
tainment and temperance speeches and
a review of the past work of the lodge,
which the balance of the evening was
spent in a social way during which ice
was served.

LAWRENCE OFF.

Delivered Today to Uncle
Sam.

Was Built by Fore
River Co.

A Sister Ship of Torpedo Boat
Destroyer Macdonough.

Today the United States Navy De-
partment became full possessor of one
of the most complicated and delicate
war engines in the torpedo-boat de-
stroyer Lawrence, which was delivered
to the commandant of the Charlestown
Navy Yard, having steamed across the
harbor from the place of construction,
the Fore River shipyard at Quincy.

The Lawrence is an interesting vessel
in many ways; she is one of the first
government vessels built by the Fore
River Company, her keel having been
laid in the old yard at Braintree, April
10, 1899, and she was launched Nov. 4,
1900.

She is one of 16 of the class author-
ized by the act of Congress of May 4,
1898, as a nucleus for a fleet of 40 de-
stroyers, and by Sept. 29 of the same
year the Fore River Company submitted
designs. It was not for a number of
months, however, that the department
was ready to consider them, so delay
occurred in commencing the work.

Another peculiarity of the Lawrence
is the fact that her design was original
with the Fore River Company, and
differed in many ways from the Navy
Department design, but the differences
seemed so indicative of progressive
thought that the design was accepted
for the Lawrence and the sister boat,
the Macdonough.

The principal characteristic of the
torpedo-boat destroyers is speed, and
in the case of this vessel 28 knots was
required; to this end space and com-
fort for the crew are sacrificed, in the
interests of the powerful engines, but
so well-planned is the Lawrence that
the living quarters for officers and crew
are remarkably roomy and comfortable.

In building such a vessel as the Law-
rence new problems were developed,
the solution of which was absolutely
necessary, and careful experiments
were required and much study of results
entailing calculations of great accuracy
and changes in the mechanical con-
struction.

The lines of the hull were admirably
conceived, and the tests showed that
the requirements were fully met, but
the action of the engines on the two
propellers brought out an unexpected
vibration which was eliminated only
after much study and changes in the
engines.

The motive power of the Lawrence is
two four-cylinder triple expansion
engines, the cylinders of which are 22
inches, 31 inches, 34 inches in diameter
with a 20-inch stroke; with a steam
pressure of 240 pounds 360 revolutions
of the propellers are made, and 8400
horse power developed.

With such an immense driving power
so disproportionate to the size of the
vessel, a speed of 29.4 knots was
developed on Oct. 11, which was 1.4
knots faster than the required speed for
the official trial.

The dimensions of the Lawrence are:
length over all, 246 feet; beam 22 feet,
three inches; depth 14 feet; draught 6
feet, one inch; displacement 407 tons;
displacement when fully loaded 514
tons.

ning tower from which the vessel is
worked.
The commander's room is comfortable
and well arranged, the executive and
watch officers' comfort is well consid-
ered and the petty officers have a large
room. In fact, the actual amount of
living room is surprisingly large for so
small a vessel, and in general it is
stated that the Lawrence has the best
quarters of any of the vessels of this
class.

The armament of the Lawrence con-
sists of two torpedo tubes for long 18-
inch Whitehead torpedoes, mounted on
the fore and aft line of the main deck.
She will also carry two three-inch and
five six-pounder rapid-fire rifles. Four
torpedoes will be carried; one in each
tube, and two in boxes on deck. A
searchlight is mounted forward; elec-
tric lights are used through the vessel.

The Lawrence is unarmored save for
the three-quarter inch nickel steel of
her conning tower. The outside skin
is of five-sixteenths-inch steel, and the
coal in the bunkers is the only protec-
tion of the engines and boilers. To get
into fighting range quickly, discharge
the torpedo and get away as quickly is
the only defence of this class of vessel.

The sister ship to the Lawrence, the
Macdonough, is now being completed
at the Fore River shipyard. A test was
made recently off Boston harbor to de-
termine the valve settings, and during
the hour and a half when the vessel
was steaming, 26 knots was easily
maintained, the engines working satis-
factorily in every way.

BRAINTREE.

Adjourned Town Meeting Held
Last Evening.

When the adjourned town meeting
was called to order by Moderator Wood-
sum there was a small gathering of
voters present but in the course of a
half hour the gathering increased to
about 200 voters. Article 28 of the
warrant, which was under considera-
tion when the previous meeting ad-
journed, was taken from the table.
Under this article the sum of \$100 was
appropriated to the Tree Warden's de-
partment.

The appropriation of \$100 for the
Board of Health brought out consid-
erable feeling which existed between
that board and the Water Commis-
sioners. \$100 was appropriated.

Under article 33 upon the motion of
Hon. F. A. Hobart, the sum of \$100
was appropriated to be expended for
the improvement of French's common
or other town lands.

The following motion by Mr. Hobart
was adopted: That the various town
officers and heads of departments in
publishing notices or advertisements
shall insert the same in both local
newspapers, the Braintree Observer and
the Braintree Bee.

Rev. C. F. Hill Crathern called for
article three and made a report upon
the progress of the committee appoint-
ed to investigate the school house ac-
commodations of the future, and under
article twenty \$150 were appropriated
to be expended to the employment of
an architect. The committee desire
the plans of an architect for the en-
largements of the Union and Pond
schools to eight room buildings. They
also favor using the Montiquot build-
ing for High school scholars with
possibly the addition of eighth grade
grammarians.

Mr. D. E. Cain moved that article
thirty-two be considered and the bal-
ance of the evening was devoted to
supplying Mayflower Park with town
water. Mr. Cain moved that the sum
of \$9,000 be appropriated to extend the
water system to the Holbrook line.

Hon. S. T. Stevens, chairman of the
water board, made a lengthy report.
He said that the prices had been ob-
tained for water pipes from several
manufacturers the figures ranging from
\$29.40 to \$32.50 per ton. Holbrook
would sell Braintree water by meter
which would cost us \$635 at the rate of
twenty cents per 1000 gallons.

There are twenty-one possible takers
of the water when the pipes are laid to
the Holbrook line. An annual expense
of \$523.07 in addition to the receipts
from the 21 takers, would have to be
paid by the town.

Mr. Cain's motion to appropriate
\$9,000 and extend the water system to
the Holbrook line, was carried 43 to 8.

At ten o'clock the meeting adjourned
to Monday evening, April 13, at 7.45.

Telephone Rates.

Representative Fallon spoke in the
House Monday in favor of lower tele-
phone rates and was again successful.
Mr. Olney of Leicester, moved to
substitute for the adverse report of the
committee on mercantile affairs the bill
for a reduction in telephone rates.

Mr. Deitrick of Cambridge moved to
amend, making a 5-cent rate on
messages within 10 miles of Boston.
This was adopted 72 to 43.
Substitution was favored by Messrs.
Deitrick of Cambridge, Olney of Leicester
and Fallon of Quincy, and opposed
by Messrs. Seiberlich of Boston, Dyer
of Hyde Park, Lohan of Cambridge
and Pingree of Haverhill. The bill
was substituted 68 to 52.

In Justice to City Scavenger.

I wish to say that I had no notice
from any of our very efficient City
Officials that an order would be put in

CHAS. C. HEARN SUCCESSFUL.

Induced Dr. Howard Company to
Make Special Price.

After a great deal of effort and corres-
pondence, Chas. C. Hearn the popu-
lar druggist, has succeeded in getting
the Dr. Howard Co. to make a special
half-price introductory offer on the
regular fifty cent size of their cele-
brated specific for the cure of constipa-
tion and dyspepsia.

This medicine is a recent discovery for
the cure of all diseases of the stomach
and bowels. It not only gives quick re-
lief, but it makes permanent cures.
Dr. Howard's specific has been so re-
markably successful in curing constipa-
tion, dyspepsia and all liver troubles,
that Chas. C. Hearn is willing to re-
turn the price paid in every case where
it does not give relief.

Headaches, coated tongue, dizziness,
gas on stomach, specks before the eyes,
constipation, and all forms of liver and
stomach trouble are soon cured by this
scientific medicine.

So great is the demand for this specific,
that Chas. C. Hearn has been able to
secure only a limited supply, and every
one who is troubled with dyspepsia,
constipation or liver trouble should
call upon him at once, or send 25 cents,
and get sixty doses of the best medicine
ever made, on this special half-price
offer with his personal guarantee to
refund the money if it does not cure.

FURNITURE and CARPET CHANGES.

When spring cleaning takes place, changes are invariably necessary. Carpets if worn, should be cleaned and made over to fit less important rooms. Furniture should be changed about, a new piece added here and there, a piece upon which time and hard service have left the marks of wear should be replaced by new. New carpets and rugs should be considered at least once a year, if you desire to keep up the appearance of your home. We do much to assist you, we take your old furniture, carpets and ranges and make you a reasonable allowance for them, towards new.

PROSPERITY OF NATION

Rests on Prosperity of Wage
Worker and Tiller of Soil

EDUCATION OF THE FARMER

Has Been Greatly Aided by the De-
partment of Agriculture—Wage
Workers Find an Object Lesson in
the Work of the Anthracite Coal
Strike Commission

Aberdeen, S. D., April 7.—President
Roosevelt yesterday traversed South
Dakota and made more speeches than
on any other day during his present trip.
He ended his 12th speech last evening
at Aberdeen. The speeches were
confined for the most part to the tariff
and to the general prosperity of the
country. In all his speeches he fol-
lowed closely the lines of his former
addresses on these subjects. The
only set speech was made at Sioux
Falls on "The Wage-Worker and the
Tiller of the Soil." He said in part:

There are many, many lesser
problems which go to make up in their
entirety the huge and complex problems
of our modern industrial life. Each
of these problems is, moreover, con-
nected with many of the others. Few
indeed are simple or stand out by
themselves. The most important are
those connected with the relation of the
farmers, the stock growers and soil
tillers, to the community at large, and
those affecting the relations between
employer and employed. In a coun-
try like ours it is fundamentally true
that the well-being of the tiller of the
soil and the wage-worker is the well-
being of the state. If they are well
off, then we need concern ourselves
but little as to how other classes stand,
for they will inevitably be well off
too; and, on the other hand, there can
be no real general prosperity unless
based on the foundation of the pros-
perity of the wage-worker and the tiller
of the soil.

But the needs of these two classes
are often not the same. The tiller of
the soil has been of all our citizens
the one on the whole the least affected
in his ways of life and methods of in-
dustry by the giant industrial changes
of the last half century. There has
been change with him, too, of course.
He also can work to best advantage if
he keeps in close touch with his fellows:

A STRENGTHENER

Vinol Promptly Overcomes
Weakness.

DEBILITY OFTEN PRECEDES
COMPLETE COLLAPSE.

We Want Every One to Know
How to Get Strong.

OUR VINOL IS A STRENGTH
CREATOR.

The saddest sight on earth is a broken-
down man or woman.

We see such people every day right
here in our city.

It is pitiful to see a man that should
be in his prime dragging himself
through life dejected, discouraged and
broken down, due to some premature
weakness. It does not make any dif-
ference whether this weakness is the
result of dissipation, indiscreet living
or disease; it can be overcome.

We have known of many very serious
cases of debility quickly overcome by
Vinol.

Vinol is a scientific re-builder and
strength creator. It contains the active
curative principles of Cod-Liver Oil in
a highly concentrated form. The
benefit that can be derived from the
use of these properties is so well known
that there is no need for us to enter
into that subject.

We could quote many instances where
Vinol has done good; as an example,
here is one coming from Jane S. Fen-
fren, a prominent member of the W. C.
T. U., and a resident of Suncook, N. H.
She writes:

"I was run down, was in bed from
May to March. Was so nervous and
sickly that every one thought I was in
a most precarious condition. My weight
was reduced to 120 pounds. I was ad-
vised to take Vinol, which I did, and
am now very much better, and am able
to be about again. As a re-builder and
a strength giver nothing can equal it.
Vinol is a God-blessing to anybody."

Because Vinol is delicious, and
because it does contain these
much-sought-after medicinal
properties we endorse it, and we
unhesitatingly proclaim that it is
better than any preparation of
cod-liver oil or tonic re-builder we
have ever had in our store.

EDWARD J. MURPHY,
DRUGGIST.

and the success of the national depart-
ment of agriculture has shown how
much can be done for him by rational
action of the government. One of the
greatest and most beneficial meas-
ures passed by any congress in recent
years is the irrigation act, which will
do for the states of the great plains
and the Rocky mountain region at
least as much as ever has been done
for the states of the humid region by
river and harbor improvements.

The department of agriculture de-
votes its whole energy to working for
the welfare of farmers and stock
growers. In every section of our
country it aids them in their con-
stantly increasing search for a better
agricultural education.

There are a number of very important
questions, such as that of good roads,
with which the states alone can deal,
and where all that the national gov-
ernment can do is to co-operate with
them. The same is true of the educa-
tion of the American farmer. A num-
ber of the states have themselves
started to help in this work and the
department of agriculture does an im-
mense amount which is in the proper
sense of the word educational, and
educational in the most practical way.

It is therefore clearly true that a
great advance has been made in the
direction of finding ways by which the
government can help the farmer to
help himself—the only kind of help
which a self-respecting man will ac-
cept, or which will in the end do him
any good. The farmer himself still
retains, because of his surroundings
and the nature of his work, to a pre-
eminent degree the qualities which we
like to think of as distinctly American
in considering our early history.

But the wage-worker in our cities,
like the capitalists in our cities, face
totally changed conditions. The de-
velopment of machinery and the ex-
traordinary change in business condi-
tions have rendered the employment of
capital and of persons in large aggre-
gations not merely profitable but often
necessary for success and have spe-
cialized the labor of the wage-worker
at the same time that they have
brought great aggregations of wage-
workers together.

Of course, fundamentally each man
will find that the chief factor in
determining his success or failure in
life is the sum of his own individual
qualities. He can not afford to lose his
individual initiative, his individual
will and power; but he can best use
that power if for certain objects he
unites with his fellows. Much can be
done by organization, combination,
union among the wage-workers; finally
something can be done by the direct
action of the state. It is not possible
empirically to declare when the in-
terference of the state should be deemed
legitimate and when illegitimate.

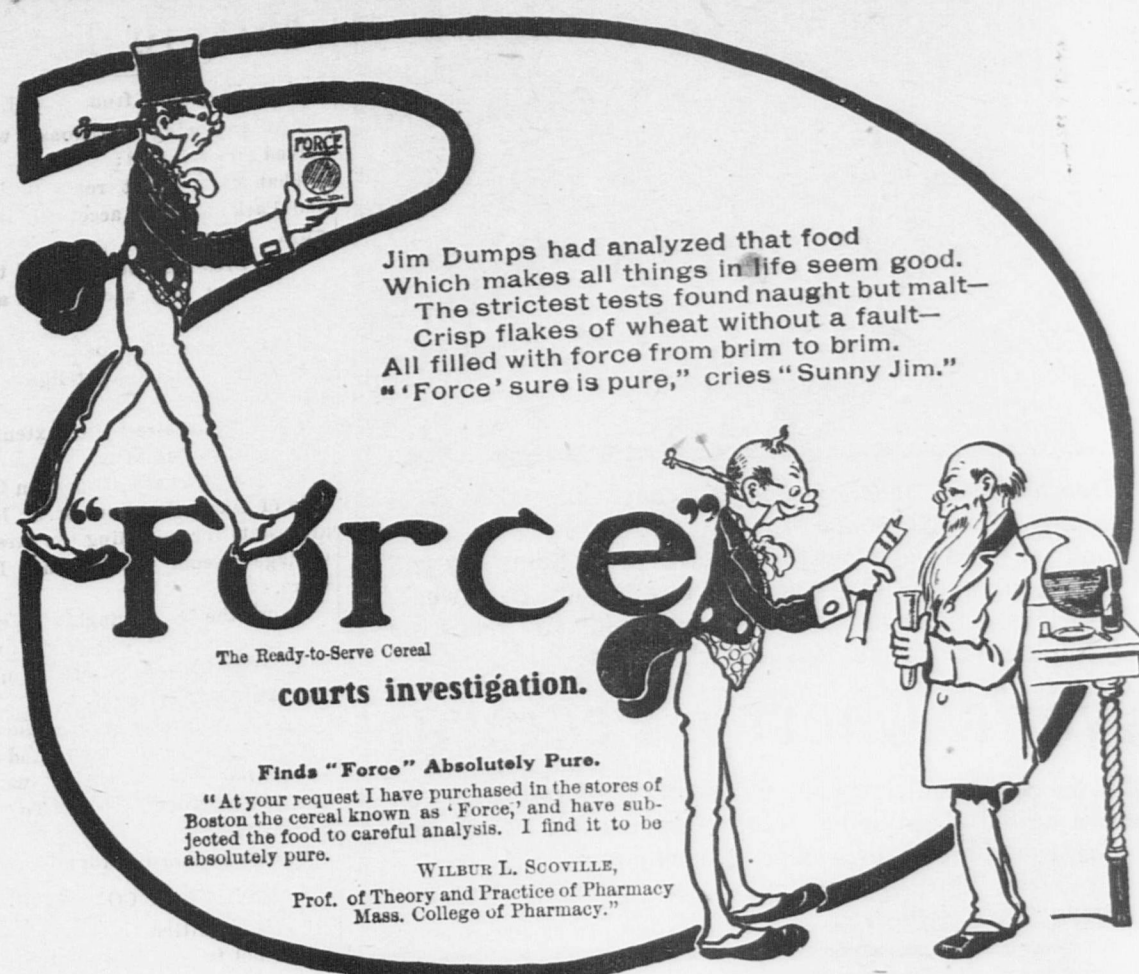

The line of demarcation between un-
healthy over-interference and unhealthy
lack of regulation is not always well
defined, and shifts with the change in
our industrial needs. Most certainly
we should never invoke the inter-
ference of the state or nation unless it
is absolutely necessary; but it is equally
true that when confident of its neces-
sity we should not on academic
grounds refuse it.

Very much of our effort in reference
to labor matters should be by every
device and expedient to try to secure a
constantly better understanding be-
tween employer and employee. If met
with a sincere desire to act fairly by
one another, and if there is, further-
more, power by each to appreciate the
other's standpoint, the chance for
trouble is minimized. I suppose every
thinking man rejoices when by media-
tion or arbitration it proves possible to
settle troubles in time to avert the suf-
fering and bitterness caused by strikes.

Moreover, a conciliation committee can
do best work when the trouble is in its
beginning, or at least has not come to a
head. When the break has actually
occurred, damage has been done, and
each side feels sore and angry; and it
is difficult to get them together—diffi-
cult to make either forget its own
wrongs and remember the rights of the
other.

When we deal with such a subject
we are fortunate in having before us
an admirable object lesson in the work
that has just been closed by the an-
thracite coal strike commission. Their
report was made just before the senate
adjourned at the special session; and
no government document of recent
years marks a more important piece
of work better done, and there is none
which teaches sounder social morality
to our people. The commission con-
sisted of seven as good men as were to
be found in the country, representing
the bench, the church, the army, the
professions, the employers, and the em-
ployed. They acted as a unit, and the
report which they unanimously signed
is a masterpiece of sound common
sense and of sound doctrine on the very
questions with which our people
should most deeply concern them-
selves. The immediate effect of this
commission's appointment and action
was of vast and incalculable benefit to
the nation; but the ultimate effect will
be even better, if capitalist, wage-
worker and lawmaker alike will take to
heart and act upon the lessons set
forth in the report they have made.

In the field of general legislation re-
lating to these subjects the action of
congress is necessarily very limited.
Still there are certain ways in which
we can act. Thus the secretary of the
navy has recommended the enactment
of a strong employers' liability law in
the navy yards of the nation. It should
be extended to similar branches of the
government work. Again, sometimes
such laws can be enacted as an incident
to the nation's control over interstate
commerce. In my last annual message
to congress I advocated the passage of
a law in reference to car couplings—to
strengthen the features of the one al-
ready on the statute books so as to
minimize the exposure to death and

mailing of railway employees. Much
opposition had to be overcome. In
the end an admirable law was passed
"to promote the safety of employees and
travelers upon railroads by compelling
common carriers engaged in interstate
commerce to equip their cars with
automatic couplers and continuous
brakes and their locomotives with
driving-wheel brakes." This law re-
ceived my signature a couple of days
before congress adjourned. It repre-
sents a real and substantial advance
in an admirable kind of legislation.

Patented Bait For the French

Halifax, April 7.—Cable advices from
St. Pierre state that a scientist in the
employ of the French government has
discovered a bait fish which is good
for the whole season. The experiment
has been made on the coast of
Iceland. The French government has
patented the discovery and if it realizes
the anticipations formed for it, this
will render St. Pierre fisheries inde-
pendent of the Newfoundland bait
supply.

Results Not Quite Satisfactory

Vienna, April 7.—Professor Lorenz
has received an invitation from J. O.
Armour to go to Chicago and visit his
child, Lolita, who has not completely
recovered from the operation performed
upon her by Lorenz last October. Pro-

Coming to "Enemies' Country"

New York, April 7.—W. J. Bryan has
notified his New York friends that he
will be in the east in May and that he
will deliver a series of addresses on
political subjects in New York, Con-
necticut, Rhode Island, Massachusetts,
New Jersey and Maryland, says
the Brooklyn Eagle.

Ban on Cigarettes

Harrisburg, April 7.—Governor
Pennypacker has signed the act of
legislation prohibiting the sale of
cigarettes or cigarette-paper to any person
under 21 years of age. The penalty for
violation of the act is a fine of from
\$100 to \$300.

NEWS IN BRIEF

Lumber schooner Maud H. Dudley
arrived at Providence with colors at
half mast, John Ikenio, a seaman,
having been lost while taking the reef
out of the spanker.

Daniel O'Connell, 12 years old, was
decapitated and his right arm was
severed by a freight train at Boston.
O'Connell was playing near the tracks
when he ran in front of a train.

Almost the entire town of Kennedy,
Ala., was destroyed by fire. The loss
will reach \$40,000.

The wagonmakers of Brooklyn, to
the number of 1500, have struck to
compel the employers to fix eight in-
stead of 10 hours as a day's work.

The captured Spanish gunboat Isla
de Luzon, which recently completed the
long trip from the Philippines, has been
put out of commission at Pensacola, Fla.

Captain A. C. Merrillat, Fifteenth
cavalry, has been retired on account of
disability incident to the service.

Gunning For Inebriates

Cedar Rapids, Ia., April 7.—Twenty-
two inmates of the Independence in-
ebriate asylum, while out walking
with attendants, refused to return.
The attendants procured shotguns and
fired several shots in the direction of
the fleeing men. Two men were
wounded. It is believed others were
injured and all but five escaped.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and
I went into gardening, I was sure to have an
attack of rheumatism, and every attack was
more severe than the preceding one," says
Josie McDonald, of Man, Logan county,
West Va. "I tried everything with no relief
whatever, until I procured a bottle of Cham-
berlain's Pain Balm, and the first applica-
tion gave me ease, and before the first bottle was
used I felt like a new person. Now I feel
that I am cured, but I always keep a bottle
of Chamberlain's Pain Balm in the house,
and when I feel any symptoms of a return I
soon drive it away with one or two applica-
tions of this liniment." For sale by all
druggists.

Good Afternoon.

That was quite a slice which the

Committee on Sewers and Drains took

from the request of the Sewerage Com-

missioners for \$80,000 for sewer exten-

sion, but \$30,000 is enough to appro-

priate at one time in a general way for

this work. When this is expended, the

Commissioners can come again to the

City Council. Meanwhile quite a sum

will be saved in interest and no sec-

tion of the city will suffer because of

delay. The interest on \$80,000 for a

year even at three and one-half per

cent. amounts to \$2,800,000.

Every season, about this time of the

year it has been the custom for the

Park Commissioners to have a fire at

Merrymount Park and burn off not only

the dead grass but the underbrush in

the groves. While this burning is all

right for the groves, the fire should not

be permitted to burn the underbrush

in the groves. It would do no harm if

only the dead wood were burned, but

the fire destroys the young new growth

and if continued year after year it will

not be long before these beautiful

groves will be ruined. People who are

authority upon such matters declare

such to be the case, and it is hoped that

this year the Park Commissioners will

confine their burning to the dead grass.

At first thought we were inclined to

favor the change of name for City

Square to Presidents Square. While it

would be very appropriate, it does not

suggest all that the present name does.

By City Square one understands the

Centre as it was formerly termed. If

the square was in a residential section

it would be more feasible, but in busi-

ness we cannot be too sentimental.

City Square is short and business like,

and the name has become well estab-

lished. At the birthplace of the Presi-

dents we have Adams Square, and we

might have John Hancock Square in

front of Adams Academy. A more

appropriate memorial to the Presidents

would be tablets on the front of the

First church.

It is time that the entrance to Mt.

Wollaston cemetery was improved as

suggested by the Board of Managers.

Since the relocation of Sea street, the

land between the street and the ceme-

tery has not been attractive, yet Quincy

people pride themselves that Mt. Wol-

laston is beautiful. It has been sug-

gested that the Soldier's Monument now lo-

cated on a small lot in the cemetery,

and surrounded by private lots, be

moved to some other location, as on

Memorial Day all the lots are trampled

over and then people are unable to

secure advantageous spots to hear the

exercises. Many who pass the ceme-

tery daily, are not aware that there is

such a monument in the cemetery.

There are two desirable sites for the

monument outside the wall near the

entrance; one in a triangle directly in

front of the gateway, with point of

triangle towards entrance, and a drive-

way each side; the other location on

the knoll toward Valley street near the

"Unknown lot." If the monument

could be relocated before Memorial

Day, the change would be appreciated

then, and the monument would be

seen daily.

Not This Year.

In the House on Tuesday the Com-

mittee on Harbors reported reference

to the next General Court on the peti-

tion of Representative Horace R. Drink-

water that Weymouth Fore river be

dredged.

THE ATLANTIC CLUB.

Life of Lucy Stone—Paper on Sole
Leather—Music, Etc.

The Atlantic Monday Evening club at its last meeting had a paper read by the secretary on "Lucy Stone," describing the beauty of the great reformer's life and character, her early sacrifices and indomitable courage in gaining her college education and paving the way for a college opportunity for other girls; also speaking of her development as a speaker on "Slavery" and "Woman's Rights;" the galaxy of noble men and women associated with her, and the grand results of her life work.

Her exquisite housekeeping and love of all that makes home attractive, were touched upon, as also the refinement and intelligence which were always so much to her taste.

Mr. Crawford Harvie of Atlantic read a paper on "Sole Leather," interesting the club in the mysteries of the manufacture, and presenting warning notes in the purchase of cheap boots with thick soles.

The musical program was in charge of Miss Alice G. Coe. The music was altogether fine and the genuine applause showed marked appreciation by the Club.

Miss Dadmun is one of the club's favorites and she sang in her usual satisfactory manner and responded to encore with "Mighty Lak a Rose" by Nevin.

Mr. Bullock won the club's favor immediately with the sweetness and ease and expression of his voice and the manner he sustained his tones. He responded with "Serenade" by Neidlinger, and "Beam from Yonder Star" by F. F. Bullard.

The duet by Misses Dadmun and Coe captivated the audience and the club called for its repetition which was acceded to by the artists.

Miss Whiton of Dorchester accompanied Miss Dadmun and Miss Emma Curtin accompanied Mr. Bullock. The accompaniments were especially finely rendered and aided in their effect and brilliancy in the musical success of the evening.

Mrs. W. I. Scholes was the director of the social intermission.

At the next meeting of the club Mr. James Keene of the Boston University School of Law is expected to speak on "The Right of Eminent Domain," and Mr. James H. Churchill of Atlantic on "The Development of Heating."

TO DECIDE FRIDAY.

Whether the Street Railway Men
Will Strike Or Not.

It will be decided Friday, says the Herald, whether or not a strike of the employees of the Old Colony and Boston & Northern street railway systems shall be ordered. The five questions bearing upon the wage and strike propositions submitted to local unions by the Massachusetts Council of the Amalgamated Association of Street Railway Employees have been voted upon and the result transmitted to the executive council. It seems to be the opinion that the older employees have carried the day and the sliding scale will prevail.

Dedham Town Meeting.

The board of health was under fire at a town meeting in Dedham Monday night, and an ex-Selectmen suggested that they resign. The appropriation for the board was reduced from \$2,000 to \$1,200, and for police from \$5,000 to \$4,200. For the poor department \$10,000 was voted; for fire department, \$7,500.

WANTED: 50 MEN AND WOMEN.

To take advantage of Special Offer made by Chas. C. Hearn.

Chas. C. Hearn, the enterprising druggist, is advertising today for fifty men and women to take advantage of the special half price offer he is making on Dr. Howard's celebrated specific for the cure of constipation and dyspepsia, and get a fifty cent package at half-price, 25 cents.

So positive is he of the remarkable power of this specific to cure these diseases, as well as sick headaches and liver troubles, that he agrees to refund the money to any customer whom this medicine does not quickly relieve and cure.

With Dr. Howard's specific at hand, you can eat what you want and have no fear of ill consequences. It strengthens the stomach, gives perfect digestion, regulates the bowels, creates an appetite, and makes life worth the living.

This is an unusual opportunity to obtain 60 doses of the best medicine ever made for half its regular price, with the personal guarantee of a well known business man to refund the money if it does not give satisfaction.

If you cannot call at Chas. C. Hearn's store today, send him 25 cents by mail, and he will send you a package, promptly, charges paid.

Another Victim of Gas

Providence, April 8.—William R. Briggs, 65 years old, was found dead in his room on Weybosset street, while the odor of illuminating gas from a small heater told the story of his accidental death. Briggs' death is the 13th that has taken place from the same cause in this city since Nov. 1. It was discovered that two of the burners of Briggs' heater did not light readily.

Best Powder in the World

Newport, R. I., April 8.—After 15 years of continual experiments, the torpedo station here is now turning out over 200 pounds of smokeless powder daily of a quality which is said to excel that of any other nation. The smokeless powder now manufactured here is considered very safe, as pyrocellulose is used instead of nitrocellulose.

A Mysterious Disappearance

Dover, Me., April 8.—Much anxiety is felt here and at Charleston, Me., for the safety of Frank Goodwin, aged 16, a student at the Higgins Classical Institute, who has disappeared. Ralph Goodwin, a brother, disappeared from his home at Charleston three years ago and has not been seen since. It is thought Frank's mind was temporarily deranged.

SHOT BY FARM HAND

Two Sisters on a Lonely Farm Were
Left in a Terrible Predicament

Foster Centre, R. I., April 8.—An atrocious and utterly unprovoked assault was made upon Miss Euneline Paine, 58 years old, and his sister, Mrs. Eliza P. Bancroft, 86 years old, on Sunday evening at their home on a lonely road by a man who fired five shots point blank at them. Two bullets struck each woman, the fifth going wild. Neither suffered a wound which of itself is mortal, but the danger of blood poisoning, due to the length of the time which elapsed between the hour of the shooting and the arrival of the physician, is great. Although both women were wounded they made a plucky fight and finally ejected the intruder, who made his escape. News of the assault did not come to light until late yesterday.

Town Sergeant Clapp arrested a man who was identified by the women. His name is John Handy, and he makes a living chopping wood near the Paine homestead. The only possible motive for the act which the women can offer is suggested by an erroneous report that a brother who died recently had left them a large sum of money.

Handy was taken to Knightsville and late last evening was arraigned before Judge Palmer on two charges of assault with a dangerous weapon. He pleaded not guilty. Bail was placed at \$750 on each count, in default of which he was sent to jail.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." For sale by all druggists.

Larceny of Grain Charged.

Solair Fenicio, Michael Cuniff, Antonio D. Lucel and Amabel Caffalini were arrested Tuesday by Inspector McKay for officers of the New York, New Haven and Hartford railroad, for the larceny of grain. The story is that there arrived at South Quincy recently a car of grain for F. H. Crane & Sons. There was a leak in the car, and a large quantity of oats ran out on the ground. One man is alleged to have secured five barrels, and all of the defendants are alleged to have secured a supply. The cases will be heard April 11.

all the good this world holds, and God's love. Be just, be grateful. Put the laurel wreath upon the noble living man who has done so much fearless work for Massachusetts.

I tell you Henry H. Faxon has sent his coin on ahead. He will find his little mansion all right in his Father's house. In South Quincy there is a railroad station called Quincy Adams.

Would it not be a graceful act, to call the station at Quincy Centre "Quincy Faxon"? The Quincyites are a noble and magnanimous people. May they consider this suggestion.

Valuable Property.

That Quincy is booming and that the Fore River District of this city is jumping to the front is evidenced by the extraordinary demand for real estate in that vicinity. Rarely a day goes by but many transfers of land take place in the new industrial Centre of Quincy.

Among the recent sales in Quincy Point is the old homestead estate of John R. Graham fronting on Washington, Summer and Main streets. This property embraces over ten acres of beautiful rolling land in the centre of the Fore River District. The property passes into the hands of a syndicate composed of well known Quincy gentlemen headed by Thomas Swithin, Dr. John F. Welch, and J. Winthrop Pratt, who act as trustees.

It is their intention to develop the property and put it upon the market for house lots. Being so conveniently located and being on the line of electric cars this estate will undoubtedly have a ready sale. The name given to the property is Summer Park. The purchase was negotiated through the office of Swithin Bros.

Dream Proves Stern Reality

New York, April 8.—When arraigned in court on a charge of burglary, Herman Weiss told the magistrate that he was asleep when he committed the robbery.

A patrolman found Weiss in a cellar of a Brooklyn factory and saw him gather 150 pounds of lead pipe into a bag and start for home. Not until the patrolman shook him did Weiss seem to realize where he was.

In court he said: "This is all a dream. I don't remember breaking into the place." He was sent to jail.

Western Municipal Elections

Little Rock, April 8.—Dispatches from all parts of Arkansas show that thus far not an independent or a Republican has been elected in any of the municipal elections. The only two Republican counties in the state have no railroad or telegraph line and reports from them will be delayed.

Kansas City, April 8.—In the elections in all the large cities of Kansas the liquor question was an issue. The result as a whole shows large Republican gains.

Drift of Opinion.

In view of the experience of Burlington people with the trading stamp it is easy to understand the action of the deputation from the retail dry goods stores, grocers and other trades who waited upon the provincial government at Quebec and asked that the use of trading stamps be prohibited. WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion of the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love.

CHAPTER VIII.

THE TROUBLE IN BILLINGSATE WARD.

ABOUT a week after Brandon's memorable interview with Mary an incident occurred which changed everything and came very near terminating his career in the flower of youth. It also brought about a situation of affairs that showed the difference in the quality of these two persons thrown so marvelously together from their far distant stations at each end of the ladder of fortune in a way that reflected very little credit upon the one from the upper end. But before I tell you of that I will relate briefly one or two other matters that had a bearing upon what was done and the motives prompting it.

To begin with, Brandon had kept himself entirely away from the princess ever since the afternoon at the king's antechamber. The first day or so she sighed, but thought little of his absence; then she wept and, as usual, began to grow piqued and irritable. What was left of her judgment told her it was better for them to remain apart, but her longing to see Brandon grew stronger as the prospect of it grew less, and she became angry that it could not be gratified. Jane was right; an unsatisfied desire with Mary was torture. Even her sense of the great distance between them had begun to fade, and when she so wished for him and he did not come their positions seemed to be reversed. At the end of the third day she sent for him to come to her rooms, but he by a mighty effort sent back a brief note saying that he could not and ought not to go. This, of course, threw Mary into a great passion, for she judged him by herself, a very common but dangerous method of judgment, and thought that if he felt at all as she did he would throw prudence to the winds and come to her, as she knew she would go to him if she could. It did not occur to her that Brandon knew himself well enough to be sure he would never go to New Spain if he allowed another grain of temptation to fall into the balance against him, but would remain in London to love hopelessly, to try to win a hopeless cause and end it by placing his head upon the block.

It required all his strength even now to hold fast his determination to go to New Spain. He had reached his limit. He had a fund of that most useful of all wisdom, knowledge of self, and knew his limitations, a little matter concerning which nine men out of ten go all their lives in blissful ignorance.

Mary, who was no more given to self-analysis than her pet linnæist, did not appreciate Brandon's potent reasons and was in a flaming passion when she received his answer. Rage and humiliation completely smothered for the time her affection, and she said to herself over and over again: "I hate the lowborn wretch. Oh, to think what I have that she had been too quick to give, no more comforting thought to a proud girl even though a mistaken one. As the days went by and Brandon did not come her anger cooled as usual, and again her heart began to ache, but her sense of injury grew stronger day by day and she thought she was beyond a doubt the most ill used of women.

the help of France at the cost of his beautiful sister and a handsome dowry. Mary of course had not been consulted, and although she had coaxed her brother out of other marriage projects Henry had gone about this as if he were in earnest, and it was thought throughout the court that Mary's coaxing would be all in vain—a fear which she herself had begun to share, notwithstanding her usual self-confidence. She hated the thought of the marriage and dreaded it as she would death itself, though she said nothing to any one but Jane and was holding her forces in reserve for a grand attack. She was preparing the way by being very sweet and kind to Henry.

Now, all of this, coming upon the heels of her trouble with Brandon, made her most wretched indeed. For the first time in her life she began to feel suffering—that great broadener, in fact maker, of human character. Above all, there was an alarming sense of uncertainty in everything. She could hardly bring herself to believe that Brandon would really go to New Spain and that she would actually lose him, although she did not want him as yet—that is, as a prospective husband. Flashes of all sorts of wild schemes had begun to shoot through her anger and grief when she stared in the face the prospect of her double separation from him, her marriage to another and the countless miles of fathomless sea that would be between them. She could endure anything better than uncertainty. A menacing future is the keenest of all tortures for any of us to bear, but especially for a girl like Mary. Death itself is not so terrible as the fear of it.

Now, about this time there lived over in Billingsate Ward, the worst part of London, a Jewish soothsayer named Grouche. He was also an astrologer and had of late grown into great fame as prophet of the future—a fortune teller. His fame rested on several remarkable predictions which had been fulfilled to the letter, and I really think the man had some wonderful powers. They said he was half Jew, half Gypsy, and if there is sleight in the mixing of blood, that combination should surely produce something peculiar. The city folk were said to have visited him in great numbers, and notwithstanding the priests and bishops all condemned him as an imp of Satan and a follower of witchcraft, many fine people, including some court ladies, continued to go there by stealth in order to take a dangerous, inquisitive peep into the future.

Mary had long wanted to see this Grouche, at first out of mere curiosity, but Henry, who was very moral—with other people's consciences—would not think of permitting it. Two ladies, Lady Chesterfield and Lady Ormond, both good and virtuous women, had been detected in such a visit and had been disgraced and expelled from court in the most cruel manner by order of the king himself.

Now, added to Mary's old desire to see Grouche, came a longing to know the outcome of the present momentous complication of affairs that touched her so closely.

BREACH OF THE PEACE

On the Part of Greeks on Strike at Lowell.

CELEBRATION OF A HOLIDAY

Finally Develops Into a Demonstration Which Might Have Wound Up With a Riot but For the Determined Attitude of the Police

Lowell, Mass., April 8.—A body of police officers marching in solid front from curb to curb drove a thousand noisy Greek mill workers through the streets of Lowell for nearly a mile last night and prevented what might easily have developed into a riot growing out of the return to work of a number of ring spinners of the Lawrence hosiery who left work a week ago Monday in sympathy with the strike order of the Textile council.

Yesterday was the Greeks' national holiday, the anniversary of the Greek Federation, and in the colony and especially in coffee houses the occasion was celebrated in a lively but, as far as the public was concerned, a peaceable way up till late in the afternoon. Trouble had its inception in an attempt of the Greeks to hold a mass meeting on Market street, in the heart of the colony. The police stopped this because the crowd of 2000 or 3000 was obstructing free passage.

The Greeks, dispersed by the officers, took the advice of the latter and went to the South Common, where the mass meeting was held. Greek orators urged the men around them to keep up a stiff fight for the 10 percent increase. Constantin Anton, the Greek society president, said to his countrymen: "Don't go to work until you get your rights. Stay out as long as any one stays out and don't let any one go to work until you all go to work, until you all get your raise."

Enthusiasm was shown by the loud cheering. After the mass meeting broke up the Greeks and the people, who by this time numbered thousands, drifted down town and finally as if by common consent headed for the mill section. Superintendent Moffatt of the city police had anticipated some sort of a gathering, for word had gone about that at noon a large number of striking ring spinners had returned to the Lawrence. It was a fact that the influx of ring spinners had been considerable. The reason given was that these operatives feared that as the Lawrence company could obtain plenty of yarn elsewhere, their services would not be needed until the company felt disposed to take them back in event of a general resumption of work in all the mills.

It so happened that at 6 o'clock, when the mill gates opened and the operatives came out to return to their homes, they saw in front of them lining the streets great numbers of men and women. As the gates opened on Suffolk street a body of Greeks was marching down it headed by a young woman. On either sidewalk the crowd was applauding the marchers. About 300 yards above the Lawrence gate the body came in contact with a squad of city and corporation police officers, which was guarding the property in the immediate vicinity. The police officers immediately disorganized the marchers, and then there began a verbal demonstration.

It was just at this critical time that the Lawrence gates were pouring out hundreds of operatives. The hubbub became very exciting and as the crowds surged off the sidewalks, re-enforced by the crowd of men who a few minutes before had been marching in phalanx, the police were swept back for quite a little distance. As it looked as if the crowd might break through the cordon the order was given to the officers to draw their sticks. This altered the aspect quite materially, for the rowd felt back, giving the officers a chance to rush forward and make a grand effort at dispersion.

The crowd offered no violence to the operatives who were leaving work, but from every quarter there were jeers and hootings and occasionally personal epithets as some strike breaker was recognized. This demonstration was not, it is believed, aimed at the great body of operatives who were leaving work, for at least 1000 of them who left this particular corporation gate were knitters who are not involved in the strike, the knitters having been granted neutral rights and they later declining to strike in sympathy with the other craft in other mills.

It is estimated that the Greek contingent last night was not less than 1000, and as most of them do not speak English they naturally clung together. These Greeks in the course of half an hour became massed on Coolidge and Cheever streets, which are the main thoroughfares in the section locally called "Little Canada." The police, having no further work to do in looking after the homeward bound operatives, were drawn into a close formation and marched against the Greeks. The police kept marching and the Greeks continued to retreat and through "Little Canada" across the canal bridge up Cabot street to Castle square and then down Market street to the Greek colony went the procession. At Castle square some show of resistance apparently was made, for the police made a little quicker rush and gathered in four men who were sent in the patrol wagon to the police station and in court will be charged with breach of the peace.

THE PENNELL INQUEST

Will Not Be Trial of a Dead
Man For Swindling

ADMISSION BY HIS LAWYER

That Pennell Gave No Security, What-
ever For About \$200,000 Borrowed
—Left Sealed Instructions For His
Attorney's Guidance

Buffalo, April 9.—Justice Murphy
and District Attorney Coatsworth held
a conference last evening on the Pen-
nell inquest, which begins at the
morgue Friday afternoon. The course
of the public inquiry, so far as it could
be discussed beforehand, was settled.
The inquests of Pennell and Mrs.
Pennell are to be joined. The last
known statement of Pennell in his own
defense, in which he says a woman
killed Burdick at midnight, is to come
out.

The question of suicide or accident
is not to be tried so far as the
district attorney is concerned. That
part of the case will be directed by
Justice Murphy. The alleged defalcations,
announced as equaling the total
of Pennell's life insurance, have nothing
to do with the death of Burdick,
and the inquest will not be a trial of a
dead man for swindling. But what in
any way may tend to throw light on the
murder of Burdick is to come out.

The letters Pennell wrote, the state-
ment he left behind and all other papers
that in any way touch upon or pertain
to the affairs of Burdick are to be
brought on if the authorities can get
them. The statement and some of the
letters are certain to come out, say the
authorities. The facts about the trust
fund or bond for Pennell to Mrs. Burd-
dick may also be made known unless
Attorney Thayer on the stand pleads
his privilege as attorney for the dead
man. Even then, it is for the court
to decide whether the plea is valid, and
Justice Murphy will pass whether
Thayer should produce the papers in his
possession at the time of Pennell's
death.

It is intimated that in the event that
those interested in the Pennell estate
are called upon at an official inquiry to
divulge any information as to Pennell's
financial operations in the east an ef-
fort will be made to show that the
money which he obtained from his
friends and relatives was in the nature
of legitimate loans. In other words,
it may be asserted that funds to the
amount of about \$200,000 were ad-
vanced to him without any security
whatever. His attorney, Wallace
Thayer, admits that Pennell had no
security to give for such loans; that he
possessed no real estate and had no
bonds or stocks or mortgages.

"Do you consider that he could bor-
row \$200,000 from friends and rela-
tives without giving security far in ex-
cess in value of \$200,000?" Mr. Thayer
was asked.

"No; it is not likely, and that is one
reason why I believe Pennell was a de-
fault," was the reply.

Mr. Thayer said that he had not yet
opened the sealed instructions left him
by the dead man. "Pennell left written
orders that they should not be opened
until the insurance money was paid in,"
said Thayer. "I therefore do not know
what my secret instructions are. In
the sealed package are a number of
papers. I don't know what they con-
sist of."

Investigation Not Begun

Paris, April 9.—The Dreyfus affair
continues to fiercely agitate the news-
papers. The war office denies that
War Minister Andre has actually begun
the formation of an investigating
committee. This denial is taken to
mean that the government is not ready
to proceed, but the anti-government
newspapers assert that plans are on
foot for the rehabilitation of Dreyfus
to the point of his restoration to the
army.

Bank Cashier Shot to Death

Sheridan, Tex., April 9.—Ben Thomp-
son, a bank cashier, was shot to death
on the public square of this city by W.
E. Stone of Texarkana. The men met
on the street and without a word drew
their revolvers and opened fire. Stone
is about 22 years old and is a traveling
salesman. He surrendered. He said
the tragedy was the result of a family
difficulty.

American Ports Will Lose Trade

Toronto, April 9.—Vice President Bos-
worth of the Canadian Pacific railway
has announced that now that the com-
pany has secured its own Atlantic fleet
as much as possible of the wheat from
the Canadian northwest will be carried
through Canada and shipped from
Montreal and Quebec instead from
New York and Boston.

STILL ALARM.

Fire in Jewelry Store of Charles
F. Pettengill.

Shortly before midnight last night T.
J. Collins, having assured himself that
the city was all right and that every-
thing was safe for the night, started up
Hancock street toward his home. As
he passed Pettengill's jewelry store he
saw that the ceiling of the store above
the light fixture was on fire. He ran
into The Greenleaf and notified the fire
department by telephone.

When the department arrived the fire-
men tried to force the door but were un-
able to do this. Then the transom was
smashed and a line of chemical hose taken
in that way.

The well directed chemical stream
soon had its effect, and in a few min-
utes the fire was out. It had, however,
burned quite a hole in the ceiling about
the fixture and the smoke had found
its way into the hotel, filling several
rooms.

The fire damage is not heavy but the
smoke and chemicals ruined the finish
on the store fixtures.

In the centre of the store was a table
containing a lot of German souvenir
china, yet so well did the firemen do
their work that not a piece of this was
broken.

The fire was caused by the electric
light wires near the fixture. It had
probably been smoldering for some
hours, for early in the evening people
passing along in front of the store, de-
tected an odor of burning wood.

Brother and Sister Dead

Holyoke, Mass., April 9.—Miss Mary
McGurkin, 10 years old, who was shot
by her brother, Peter McGurkin, died
last night at a hospital. McGurkin
was driven to the rash act through
worrying over his sister's hopeless con-
dition as a consumptive. He killed
himself by cutting his throat after
shooting his sister.

Bay State Will Do Her Share

Boston, April 9.—Governor Bates
has signed a bill providing for an ap-
propriation of \$100,000 for state rep-
resentation at the St. Louis exposition.
The appropriation will be under the di-
rection of the governor's council, and
no provision is made for the payment
of the expenses of any legislative com-
mittee.

Thought Someone Was Untrue

Berlin, N. H., April 9.—Charles
Roberts, a harness maker, committed
suicide at the Central house by tak-
ing an overdose of morphine. He was
30 years old and unmarried. He left a
note reading: "The right one will
know why I do this. I have watched
you and found you untrue."

Child Burned to Death

Newton, Mass., April 9.—A fatal
burning accident occurred at Newton
Highlands when Maud Redmond, 5
years old, set fire to her clothes while
playing with matches. The little girl
was alone at the time and died before
assistance could reach her.

First Degree Murder Charged

New Haven, April 9.—The grand
jury which has been considering the
case of Michael Terrible, charged with
the murder of Patrick Coffey, returned
a true bill and Terrible will be put
to plea for murder in the first degree.

In Good Health at 85

Copenhagen, April 9.—King Chris-
tian celebrated his 85th birthday in the
best of health and was the recipient of
very many congratulations and gifts.
The members of the diplomatic corps
were among those who called at the
palace to offer their felicitations.

Wholesale Druggists Insolvent

Chicago, April 9.—Lord, Wyden &
Co., one of the oldest wholesale drug
firms in the city, is insolvent. The
firm places its liabilities at \$762,731.

CHAS. C. HEARN SUCCESSFUL.

Induced Dr. Howard Company to
Make Special Price.

After a great deal of effort and corres-
pondence, Chas. C. Hearn the popu-
lar druggist, has succeeded in getting
the Dr. Howard Co. to make a special
half-price introductory offer on the
regular fifty cent size of their cele-
brated specific for the cure of constipa-
tion and dyspepsia.

This medicine is a recent discovery for
the cure of all diseases of the stomach
and bowels. It not only gives quick re-
lief, but it makes permanent cures.

Dr. Howard's specific has been so re-
markably successful in curing constipa-
tion, dyspepsia and all liver troubles,
that Chas. C. Hearn is willing to re-
turn the price paid in every case where
it does not give relief.

Headaches, coated tongue, dizziness,
gas on stomach, specks before the eyes,
constipation, and all forms of liver and
stomach trouble are soon cured by this
scientific medicine.

So great is the demand for this specific,
that Chas. C. Hearn has been able to
secure only a limited supply, and every
one who is troubled with dyspepsia,
constipation or liver trouble should
call upon him at once, or send 25 cents,
and get sixty doses of the best medicine
ever made, on this special half-price
offer with his personal guarantee to
refund the money if it does not cure.

INDICTED.

Bill Found Against Krobeck
for Murder

By the Norfolk County
Grand Jury.

P. L. Litchfield Also Indicted for
Perjury.

Indictments were found by the Nor-
folk grand jury at Dedham on Wednes-
day against both Constant Krobeck and
Peter L. Litchfield.

Abram C. Paul of Stoughton was
foreman of the jury, and Theodore Mc-
Intosh of Needham. Judge Holmes
was on the bench.

The bill against Constant Krobeck
was for murder in the second degree,
at Quincy, March 15, 1903, the victim
being Fred A. Peterson.

Krobeck was in the court room when
the grand jury reported, but was not
arraigned. Isaac F. Paul of Boston
appeared in Krobeck's interest, and
asked the court to assign counsel for
Krobeck, which Judge Holmes said he
would do later.

The bill against Peter L. Litchfield
was for perjury in a liquor case on trial
in the district court at Quincy.

An indictment was found against
George E. Despeaux for an assault on
John McGill at Medway, Feb. 12, 1903,
with a loaded rifle with intent to kill.

Other indictments and pleas were:

George Kuntz, larceny in a building
at Hyde Park, Dec. 10, 1902; guilty.

Thomas Joseph Costello, breaking
and entering at Norwood, March 24,
1903; guilty.

Thomas Joseph Costello and Albert
Robinson, breaking and entering at
Foxboro, March 26, 1903; guilty.

Antonio Carelli, adultery at Hyde
Park, April 1, 1903; not guilty.

Charles M. Miller of Saratoga Springs,
N. Y., larceny at Cohasset, July 1,
1901.

Joseph J. Broderick of Canton, break-
ing and entering the shed of Eldon R.
Gay at Stoughton, April 3, 1903; not
guilty.

Valentine K. Nickerson, adultery at
Dedham, Feb. 24, 1903; not guilty.

William Johnson and John Reilly,
breaking and entering at Norwood,
March 24, 1903, the store of Osborne
B. Carter; not guilty.

Frank Pullen, alias Frank Gaston of
Boston, breaking and entering at
Brookline, Dec. 20, 1902, the shop of
Hiram K. Whitcomb; guilty.

Albert D. Fuller of Walpole and
Edith A. Johnson of Lynn, adultery
with incest, at Walpole, Feb. 14, 1903;
each pleaded guilty.

The best physis: Chamberlain's Stomach
and Liver Tablets. Easy to take; pleasant
in effect. For sale by all druggists.

Silver Not Acceptable

Pekin, April 9.—It appears that the
American financial agent acted with-
out instructions in presenting the in-
demnity bond providing for payment in
silver tials. Under instructions from
his government he is substituting a
bond providing for payment in gold
dollars.

Relative to the loan of \$6,000 for house connections with the sewer, why is it necessary to borrow the money for a longer period than one year and pay interest? The city requires prompt payment for all connections made, and the receipts last year for this purpose were \$5,807.66. Receipts in a case like this should not be diverted for current expenses of the city. A one-year loan will save interest.

The suggestion that the Quincy depot be called "Quincy Faxon" will hardly be considered seriously. We doubt if it would meet with favor with Mr. Faxon. The name of "Quincy" stands for a city of 30,000 population and as such should receive good service, low fares and an attractive station. "Quincy Faxon" would suggest some outlying section of the city or some back town, and that is not what we want.

Now that Massachusetts has appropriated a liberal sum (\$100,000) for the World's Fair at St. Louis next year, it is desirable that Quincy urge the importance of an exhibit of Quincy granite, as briefly outlined by John L. Miller at the annual dinner of the Quincy Granite Manufacturers Association. Mr. Miller believes that well-executed work of artistic design will return benefits 100 fold to the Quincy granite trade, and reminds us that there is none too much time to raise funds, consider designs, manufacture the memorials, etc., etc.

The resolve as passed by the Legislature and signed by Gov. Bates reads: "Resolved, That for the purpose of securing at the Louisiana Purchase Exposition, to be held in St. Louis in the state of Missouri in the year 1904, a suitable representation of the resources, products and progress of the commonwealth, a board of Louisiana Purchase exposition managers for Massachusetts, consisting of five residents of the commonwealth, of whom three shall be men and two women, shall be appointed by the Governor, by and with the advice and consent of the council. Said managers shall not receive any compensation for their services. They shall have charge of the interests of the commonwealth and of its citizens in the preparation and exhibition at said exposition of the natural and industrial products of the commonwealth and of objects illustrating its history, progress and moral and material welfare and development. They shall communicate with the officers of the exposition and they shall obtain and disseminate throughout the commonwealth all necessary information regarding it and in general have and exercise full authority in relation to the participation of the commonwealth and its citizens in the exposition. Toward carrying out the provisions of this resolve a sum not exceeding \$100,000 may be expended under the direction of the Governor and council."

Quincy granite is one of the few natural products of Massachusetts, and at the same time a superior granite. It is a more beautiful and enduring polish, and the contrast between the polished surface and the hammered is marked and pleasing. Many should be interested in booming Quincy granite.

The members of the Wollaston Yacht club have taken most of the tickets for the grand minstrel show to be given by the club next week Thursday at Quincy Music hall. The public may secure the remaining few on early application to the officers of the club.

BURNED TO DEATH

Clothes of Miss Mollie Kinna Catch Fire

While She Was Alone in House.

Died Almost Before Assistance Came.

Miss Mollie Kinna, aged about 24 years, and unmarried was burned to death at 10.30 this morning at her home on Summer street. Miss Kinna lived with her brothers James, and Frank for whom she kept house. She was alone at the time and no one knows just how it happened.

It is said, however, that she was at work sitting ashes in the back yard and that in some way her clothing took fire. She then rushed into the house to the sitting room.

That here she tried to extinguish the flames with a table cover but was unsuccessful. In the meantime she had been discovered by a little Hartrey girl who lives in the other side of the house. The girl rushed into her home and told her mother that Miss Kinna was on fire.

Someone then rushed to Box 35 and gave the alarm. Timothy O'Connell who was "near at hand" rushed into the house and found the woman seated before the stove in the sitting room. She was alive at that time, and he lost no time in wrapping a floor mat about her and extinguishing the flames.

The unfortunate woman almost immediately expired, and when the firemen arrived they were shocked to see her badly burned body on the floor. She was taken up tenderly and laid on the dining room table. Chief Williams rolled her up in a blanket.

There was but little fire outside of the burned clothing worn by the woman. The carpet in the sitting room was burned in some places, and a small table was scorched. There were several other marks of fire and it may have been that these were caused by her running about the room in frantic effort to find something with which to put out the flames.

The damage to the house which is owned by E. J. Costello of Milton was slight.

Mrs. Hartrey who lives in the other side of the house was talking with the woman five minutes before the fire, and had just entered her own home when her daughter rushed in with the cry that Miss Kinna's clothing was on fire.

A sad feature of the burning was the fact that Miss Kinna was to have been married next month to a Weymouth gentleman.

She leaves two brothers James T. and Frank E. and a sister, Mrs. Richard Prout.

Totals 1287 to 1289.

A match game was bowled on Merry-mountain club alloys Wednesday night between teams from that club and the South Boston Yacht club. The yacht club team won two out of the three strings although the teams were tied on totals. Merry-mountain won the first string by 32 pins. The Yacht Club won the second string by 6 pins, and the third string by 26 pins. This gave each club a three-string total of 1280.

McKee of the yacht club was high man on singles with 110, and Reddy second with 100. For the Merry-mountain club Starrett was high man with 98, and Monroe second with 94.

Parker of Merry-mountain was high man on three-string totals with 208, and Ross of the Yacht club second with 207.

The summary:

	1	2	3	Total
McKee,	65	85	110	261
Chadbourne,	78	74	85	237
Reddy,	100	81	77	258

CYCLONE IN ARKANSAS

Sweeps Through Two Counties, Resulting in Death of Nine Persons. Little Rock, April 9.—A cyclone, three miles wide, passed through Cloburne and White counties north of here, razing everything in its path. The scene is remote from telegraph and details are hard to obtain.

At Little Rock, 18 miles from Judson, seven out of eight persons in one house were killed instantly, the survivor being an infant. Near Pangburn an old man named Williams was blown off a mountain side and killed. Many are reported injured and it is feared the loss of life will be large.

Houses were picked up and carried several hundred feet. The record of casualties thus far is nine dead, three dying and 13 others badly injured.

Twelve Killed in Alabama. Birmingham, Ala., April 9.—Without warning, the little hamlet of Hopewell, 40 miles north of this city, was swept away by a cyclone, which cut a path of desolation a mile wide and two miles long across a prosperous farming section of Blount county. Twelve persons were killed instantly, three or four fatally and a score seriously injured.

Fighting American Trust

Berlin, April 9.—The Dresdener Cigaretten Fabrik, the name under which the American Tobacco company operates in Germany, is being prosecuted by a combination of dealers for alleged unfair competition in placarding that the company's cigarettes can be bought everywhere, which, the complainants aver, is not true. They ask for protection from the foreign concern with 180,000,000 marks capital.

Strike Due to "Misunderstanding"

Wallingford, Conn., April 9.—As a result of a conference between the officials of Rogers Bros.' silver factory and a committee representing about 100 men who went out on a strike a week ago, the strikers resumed work today under practically the same arrangement that existed before the strike was instituted, which is said to have been caused by a misunderstanding.

Shamrock III Is Speedy

Weymouth, Eng., April 9.—Shamrock III made a splendid showing in her first trial race against Shamrock I. She proved especially good in windward work, which is the real test of good sailing. In running before the wind the old boat held the challenger much better, but on the whole the new boat gave the old one a decisive beating in each of the two races sailed.

College Professor a Suicide

Columbus, O., April 9.—Professor Ernest A. Eggers, head of the department of German at the Ohio state university, committed suicide last evening by shooting at his home. It is said he was despondent from ill health. Though himself not a college graduate, Professor Eggers was noted among college educators. He was 42 years old.

A Surprise in Store

Washington, April 9.—Admiral Melville, engineer-in-chief of the navy for more than a year past has been making quiet inquiries and preparing plans for a turbine propelled warship. The plans have advanced to a point where it is thought satisfactory results are assured. Details of the novel arrangements of this ship are withheld for the present.

Well Worth the Money

Washington, April 9.—The postoffice department has awarded to S. R. Spriggs the contract for carrying the mail from Point Barrow to Kotzebue, Alaska, about 650 miles, two round trips to be made each winter for the next three winters at \$750 a round trip. The mail is to be carried by reindeer.

Hawaii Lones Influential Citizen

Honolulu, April 9.—J. B. Atherton, one of the richest and most influential men in the Hawaiian islands, died last night after a long illness, aged 60 years. His son hastened from Boston to be with his father during his last hours, but he arrived a few hours too late. Mr. Atherton came here from Boston in 1858.

Swift Leaves \$250,000 to Charity

Chicago, April 9.—The will of the late Gustavus F. Swift has been filed in the probate court. The estate is valued at \$12,200,000. The principal feature of the will was a bequest of \$250,000 to charity. The greater part of the remainder of the estate is divided among the widow and direct heirs.

King Promotes General White

Gibraltar, April 9.—King Edward was present last night at a state banquet given by Governor White of Gibraltar, the defender of Ladysmith during the late South African war. During the banquet the king announced that he had promoted White to the rank of field marshal.

Bishop Sees Trouble Ahead

St. Petersburg, April 9.—The French bishop of Sze Chuan, the middle province on the western frontier of China, predicts a general "Boxer" rising throughout the province.

The Weather Forecast

Almanac, Friday, April 10. Sun rises—5:13; sets—6:19. Moon sets—4:24 a. m. High water—10 a. m.; 10:30 p. m.

The disturbance that was central over western Arkansas has moved rapidly northward by way of the Ohio valley to southern New England, attended by general rains. Temperatures are now about normal. From present indications there will be no precipitation of consequence in New England during the next two days except showers in eastern Maine.

A large delegation from the Wollaston Congregational Y. P. S. C. E. enjoyed the bi-monthly meeting at Bethany church Tuesday evening. They were much pleased with the good time they had at Quincy and extend a hearty invitation to the next meeting in June which will be at the Wollaston Congregational church.

The public will be welcome at Christ church tomorrow evening at 8 o'clock at the oratorio of the Crucifixion by J. Stainer to be sung by the choir of St. Chrysostoms and Christ churches, under the direction of E. Landis Snyder. J. D. Buckingham will be the organist, and the soloists will be H. Y. Follett, bass, and J. Russell Abbott tenor.

CHALLENGE FROM C. C. HEARN.

Offer to Refund Money if Dr. Howard's Specific Will Not Cure Any Case of Constipation or Dyspepsia.

Charles C. Hearn is seeking the worst case of dyspepsia or constipation in Quincy or vicinity to test Dr. Howard's new Specific for the cure of those diseases.

So confident is he that this remarkable medicine will effect a cure, quickly and lasting, that he offers to refund the money should it not be successful. In order to secure the quickest possible introduction Mr. Hearn will sell a regular fifty cent package of this medicine at half price, 25c.

This specific of Dr. Howard's will cure sick headache, dizzy feelings, constipation, dyspepsia, and all forms of malaria and liver trouble. It does not simply give relief for a time; it makes permanent and complete cures.

It will regulate the bowels, tone up the whole intestinal tract, give you an appetite, make food taste good and digest well, and increase vigor. Joy and happiness will take the place of that "don't care whether I live or die" feeling.

Take advantage of Mr. Hearn's challenge and secure a bottle of Dr. Howard's specific at half price, with his personal guarantee to refund your money if it does not help you.

Jim Dumps, at Buffalo, went through Large mills, and more delighted grew At every step. "How clean!" said he. He saw them mingle skilfully Malt, wheat and sunshine—strength for him. "And that makes 'Force,'" nods "Sunny Jim."

crisp cleanliness and purity.

Cleanliness the Characteristic.

"I have thoroughly inspected the mills and the method of manufacturing the product called 'Force.' I find that the sole ingredients—malt and wheat—are of the highest possible quality and of absolute purity, and that every step in the process of manufacture is characterized by perfect cleanliness. The final drying, or roasting, thoroughly sterilizes the product, and from the time the grain is delivered at the mill until the final sealing of the packages, the food is handled entirely by machinery."

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love.

CHAPTER VIII.—Continued.

She could not wait for Time to unfold himself and drop his budget of events as he traveled, but she must plunge ahead of him and know beforehand the stores of the fates, an intrusion they usually resent. I need not tell you that was Mary's only object in going, nor that her heart was as pure as a babe's, quite as chaste and almost as innocent. It is equally true that the large proportion of persons who visited Grouche made his soothing an excuse. The thought of how wretched life would be with Louis had put into Mary's mind the thought of how sweet it would be with Brandon. Then came the wish that Brandon had been a prince or even a great English nobleman, and then leaped up, all rainbow-hued, the hope that he might yet, by reason of his own great virtues, rise to all of these and she become his wife. But at the threshold of this fair castle came knocking the thought that perhaps he did not care for her and had deceived her to gain her favors. Then she flushed with anger and swore to herself she hated him and hoped never to see his face again. And the castle faded and was wafted away to the realms of airy nothingness.

Ah, how people will sometimes lie to themselves, and sensible people at that. So Mary wanted to see Grouche, first through curiosity, in itself a stronger motive than we give it credit for; second, to learn if she would be able to dissuade Henry from the French marriage and perhaps catch a hint how to do it, and last, but by no means least, to discover the state of Brandon's heart toward her.

By this time the last named motive was strong enough to draw her any whither, although she would not acknowledge it, even to herself, and in truth hardly knew it, so full are we of things we know not of.

So she determined to go to see Grouche secretly and was confident she could arrange the visit in such a way that it would never be discovered.

One morning I met Jane, who told me with troubled face that she and Mary were going to London to make some purchases, would lodge at Bridewell House and go over to Billingsgate that evening to consult Grouche. Mary had taken the whim into her wilful head, and Jane could not dissuade her.

The court was all at Greenwich, and nobody at Bridewell, so Mary thought they could disguise themselves as orange girls and easily make the trip without any one being the wiser.

It was then, as now, no safe matter for even a man to go unattended through the best parts of London after dark, to say nothing of Billingsgate, that nest of water rats and cutthroats. But Mary did not realize the full danger of the trip and would, as usual, allow nobody to tell her.

She had threatened Jane with all sorts of vengeance if she divulged her secret, and Jane was miserable enough between her fears on either hand, for Mary, though the younger, held her in complete subjection. Despite her fear of Mary, Jane asked me to go to London and follow them at a distance, unknown to the princess. I was to be on duty that night at a dance given in honor of the French envoys who had just arrived, bringing with them commission of special ambassador to De Longueville to negotiate the treaty of marriage, and it was impossible for me to go. Mary was going partly to avoid this ball, and her wilful persistence made Henry very angry. I regretted that I could not go, but I promised Jane I would send Brandon in my place, and he would answer the purpose of protection far better than I. I suggested that Brandon take with him a man, but Jane, who was in mortal fear of Mary, would not listen to it. So it was agreed that Brandon should meet Jane at a given place and learn the particulars, and this plan was carried out.

Brandon went up to London and saw Jane, and before the appointed time hid himself behind a hedge near the private gate through which the girls intended to take their departure from Bridewell.

They would leave about dusk and return, so Mary said, before it grew dark.

The citizens of London at that time paid very little attention to the law requiring them to hang out their lights, and when it was dark it was dark.

Scarcely was Brandon safely enclosed behind a clump of arbor vitae when whom should he see coming down the path toward the gate but his grace, the Duke of Buckingham. He was met by one of the Bridewell servants who was in attendance upon the princess.

"Yes, your grace, this is the gate," said the girl. "You can hide yourself and watch them as they go. They will pass out on this path. As I said, I do not know where they are going. I only overheard them say they would go out

"Yes, your grace, this is the gate," at this gate just before dark. I am sure they go on some errand of gallantry, which your grace will soon learn, I make no doubt."

He replied that he would take care of that.

Brandon did not see where Buckingham hid himself, but soon the two innocent adventurers came down the path attired in the short skirts and bonnets of orange girls and let themselves out at the gate. Buckingham followed them, and Brandon quickly followed him. The girls passed through a little postern in the wall opposite Bridewell House and walked rapidly up Fleet ditch, climbed Ludgate hill, passed Paul's church, turned toward the river down Bennett hill, to the left on Thames street, then on past the bridge, following Lower Thames street to the neighborhood of Fish street hill, where they took an alley leading up toward East Cheap to Grouche's house.

It was a brave thing for the girl to do and showed the determined spirit that dwelt in her soft white breast. Aside from the real danger, there was enough to deter any woman, I should think.

Jane wept all the way over, but Mary never flinched.

There were great mudholes where one sank ankle deep, for no one paved the street at that time, strangely enough, preferring to pay the sixpence fine per square yard for leaving it undone. At one place, Brandon told me, a load of hay blocked the streets, compelling them to squeeze between the houses and the hay. He could hardly believe the girls had passed that way, as he had not always been able to keep them in view, but had sometimes to follow them by watching Buckingham. He, however, kept as close as possible and presently saw them turn down Grouche's alley and enter his house.

Upon learning where they had stopped, Buckingham hurriedly took himself off, and Brandon waited for the girls to come out. It seemed a very long time that they were in the wretched place, and darkness had well descended upon London when they emerged.

Mary soon noticed that a man was following them, and as she did not know who he was became greatly alarmed. The object of her journey had been accomplished now, so the spur of a strong motive to keep her courage up was lacking.

"Jane, some one is following us," she whispered.

"Yes," answered Jane, with an uncertainty that surprised Mary, for she knew Jane was a coward from the top of her brown head to the tip of her little pink heels.

Opinion as to Arbitrators' Visit to Lowell

REAL QUESTION AT ISSUE

Declared to Be Outside the Jurisdiction of Investigators—Both Operatives and Mill Men Extremely Unlikely to Heed Finding

Lowell, Mass., April 9.—The investigation by the state board of arbitration and conciliation of the cotton industry in this city begins today, but no one in this city seems to know what method will be pursued in conducting the inquiry. There is also a feeling on the part of both the employees and the mill men that the hearing will avail nothing so far as the real question is concerned. Both sides declare that they will not be influenced by any decision of the investigators, and it is practically certain that any decision that the board may arrive at will receive but scant consideration.

As to the method of procedure, Charles D. Palmer, the local member of the board, says that he supposes that the operatives will be called upon first to present their side and that the mill men will follow with what facts and arguments they may have.

Notification of the meeting was received at the headquarters of the Textile council and President Conroy said that the executive committee will probably be present when the hearing opens. He declined to state, however, whether the committee would present any facts which they may have in their possession. Two mill agents also stated that they would not be at the investigation unless they were notified and that up to the time of the interview no notification had been received. Agent Connell of the Tremont and Suffolk mill stated that he might be in the room as a spectator if he happened to be down town at the time, while Agent Thomas of the Boott mill said that he had no official knowledge of the inquiry. In view of the sentiment of the parties on both sides it is likely that the opening investigation will be of an obstructive character.

The operatives claim that the state board was not directed to come to Lowell to inquire into the merits of the demand for a 10 percent increase, and they declare that they will not be influenced by any decision which the board may render. The mill men, while loath to commit themselves, are in much the same condition, and it is generally believed that they will pay little attention to the finding, especially if it is unfavorable. A delegate to the Textile council said: "We want to settle this ourselves, and we are going to do so regardless of any investigation which a body of politicians may try to force upon them."

The cases against the four Greeks who were arrested for obstructing the streets were heard by Judge Hadley in the police court and placed on file. The judge made some well directed remarks about the situation in general and cautioned the Greeks to preserve their good reputation.

To Insist Upon Increase

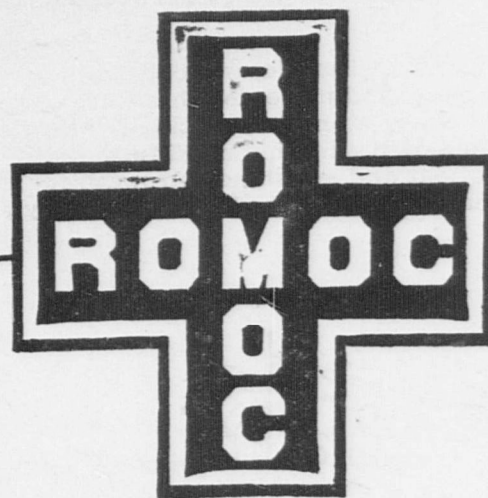

Boston, April 9.—Preparatory steps for ordering strikes of spinners in the New Bedford, Fall River, Taunton and other factories of the New England Yarn company, in Lawrence, Waltham, Manchester, Dover, Suncook and Somersworth were taken by the convention of the National Mule Spinners' association by ordering Secretary Ross to investigate the conditions in the various places and report his findings to the executive council. The council was instructed in case Secretary Ross fails to induce the mill owners to advance wages to order strikes at such time as may be deemed most expedient. It was considered best by the convention to postpone action until after the Lowell, Woonsocket and Manville fights have been settled. It was decided to financially support the textile strikes in these three places and to levy an assessment upon all spinners for the purpose. In addition it was determined to call upon labor men throughout the United States and Canada to support the men, women and children, now locked out or upon strike. The discussion brought out an expression of opinion that the Lowell mills could grant the increase of wages asked by the operatives.

Alleged Indiscretion of Jurymen

Rutland, Vt., April 9.—A motion for a new trial was made in the Rutland county court by the defendant in the case of the Patch Manufacturing company against the Protection Lodge of Machinists, on the ground that one of the jurymen had stated during the trial that he was opposed to the union. The \$2500 in the case returned a verdict of \$2500 in favor of the plaintiffs. Counsel MacManus filed an affidavit signed by four men in which it is alleged that they heard a member of the jury state that the union had tried to injure him and that he would get even with them. He also declared that the plaintiff would win the suit. Arguments on motion will be held next week.

Got Non-Union Teamsters

Providence, April 9.—Forty-five men have been brought here from Boston by the Eastern Coal company to take the places of some striking teamsters. This action on the part of the largest coal concern in the state came as a result of the failure of negotiations for a settlement of the teamsters' strike.

BRIBE OF \$2000

Said to Have Been Asked of a Boston Man by a City Official

Boston, April 9.—At the Unitarian banquet last evening Laurence Minot charged that he had been approached recently by a certain city official who told him that for a bribe of \$2000 he (the official) could have an order for a certain street passed by the board of aldermen. The street would pass by property of which Minot was trustee. Minot refused to hand over the money, but the street, a wholly needless bit of work, was built.

Louis D. Brandeis described the present board of aldermen as "men with no capacity, who are unknown or ought to have remained unknown." He said: "Some of their actions are a disgrace to the city. They are teaching our new citizens that liberty means a license to loot the city, to get pay without work, to sell supplies to the city at inflated prices and sell real estate at an enormous profit."

Baby May Have Been Poisoned

Lynn, Mass., April 9.—For the past two months Mr. and Mrs. John Riley of this city, shoe factory operatives, have been boarding their 4-months-old daughter in the family of James Herschel. The mother paid the child a visit yesterday when it was apparently as well as usual, but later it was taken with convulsions and died. A doctor expressed his opinion that there were symptoms of poisoning and notified the medical examiner, who will perform an autopsy.

Police and Firemen Did Good Work

Boston, April 9.—Fire, which was discovered late last night in the five-story tenement building, 72 Dorchester avenue, imperilled nearly 40 lives, several persons being overcome and many being carried down ladders by members of the police force and firemen. Captain Smith, Lieutenant Mulligan and Hosemen Chicklet and Hickey and Patrolmen Cook, Scott and Cummings distinguished themselves in the work of rescue.

Nothing Criminal Revealed

Lynn, Mass., April 9.—David Ross, whose desire to secure the hasty burial of his wife, who died last Thursday, aroused suspicion and caused his arrest, was held in \$500 bonds on the charge of being accessory to a criminal operation that caused his wife's death. Mrs. Ross' body was exhumed and the result of the autopsy is more than ever puzzling to the authorities, as no evidence of a criminal operation was disclosed.

Fines For Wearing Feathers

Boston, April 9.—Ladies who enjoy adorning their headgear and the army of milliners are likely to be thrown into a flutter by a bill reported in the Massachusetts legislature by the fisheries and game committee. It is based upon a recommendation of the commissioners of fish and game, and imposes a fine of \$10 upon a person having in possession or wearing for dress or ornament the body or feathers of native birds.

Remembered Old Employees

Boston, April 9.—William F. Grubb, for more than 30 years clerk to the late Charles U. Cotting in his office, is left \$5000 in trust, and Michael Drury, for 39 years coachman to Cotting, is left \$2000 without restrictions in the latter's will. The entire estate, which is considered to total millions, is left in trust for his three sons and daughter. Cotting made no public bequests.

FURNITURE and CARPET CHANGES.

When spring cleaning takes place, changes are invariably necessary. Carpets if worn, should be cleaned and made over to fit less important rooms. Furniture should be changed about, a new piece added here and there, a piece upon which time and hard service have left the marks of wear should be replaced by new. New carpets and rugs should be considered at least once a year, if you desire to keep up the appearance of your home. We do much to assist you, we take your old furniture, carpets and ranges and make you a reasonable allowance for them, towards new.

Rumored Plan of Treasurers
of Big Corporations

TEXTILE COUNCIL SURE

**That It Can Keep Out Enough Oper-
atives to Make General Resumption
Impossible--Neither Side Willing to
Abide by Arbitrators' Decision**

Lowell, Mass., April 10.—While the brief session of the state board of arbitration and conciliation, which has come here to discover if possible common ground upon which the mill corporations and their 17,000 idle operatives can get together, was not productive of definite results, the moral effects of the investigation are already felt. There is a persistent rumor that the mills will be opened Monday.

The mill agents refused to deny or confirm the rumor, but a usually well informed member of the Textile Council says that he has definite information to the effect that at a meeting of mill treasurers yesterday afternoon it was decided to open the mills Monday and make an effort to resume operations in all departments.

Should such a course be pursued the Textile Council will accept the challenge and is confident of being able to hold in line a sufficient number of operatives to make a general resumption impossible.

The operatives, who have been regarded as rather hostile to the intervention of the board of arbitration and conciliation, have signified their willingness to become a party to the investigation and have retained counsel to present their side of the controversy. That they expect much of the board in the way of settling the dispute is denied, but they are anxious to appear friendly to well intended efforts towards conciliation. They have announced, however, that they shall not feel under any obligation to adopt any suggestion the board may make.

On the other hand, the mill treasurers told the board that they could not possibly grant the increase asked, but were willing the board should see their books. They said they would be bound by nothing the board might resolve upon. The mill treasurers and operatives agree upon one thing only, and that is that the board may go ahead and investigate to its heart's content.

Meantime it is more than likely, according to the general opinion, that the mill gates will soon be opened and those who will be invited to return. A bitter contest is certain to follow before the trouble is effectually settled one way or the other.

Big Strike Over a Trifle
Altoona, Pa., April 10.—Until the question of whether or not a bridge is part of a set of harness has been settled, 1200 bituminous miners of the Beech Creek Coal and Coke company will remain idle. The drivers at these mines say a bridge is part of the harness. Yesterday they found the mules all harnessed save the bridges. They refused to touch the bridges and struck. The miners, therefore, could not work. The superintendent says a bridge is no more a part of the harness than a hat is part of a suit of clothes.

A Compromise Settlement
Boston, April 10.—Representatives of the various steamship lines met representatives of the several Longshoremen's unions here and settled the differences existing between the two parties. To the request for an increase in pay to 40 cents an hour for handling bulk cargoes the agents declined to accede. The request for pay for extra work was granted, and a satisfactory agreement was reached as to the hours for lunch.

Building Operations Checked
Boston, April 10.—Work has been checked on the new State Mutual Life Assurance building through a strike ordered by the building trades council. This building, which is being erected by Norcross Bros., is in the million-dollar class, and in the strike 10 unions are involved. The council has demanded that union labor provisions be inserted in the sub-contracts, but it has been unable to carry its point.

Persuaded Not to Work
Providence, April 10.—Indifferent success has attended the importation of strike-breakers to man the wagons for the delivery of coal in this city. Of the 60 men who came here from Boston not more than a dozen survived the interviews with the union officials and went to work. The strikers, who number 400, say they will remain out until their demands are granted.

CHARGES AGAINST POLICE

Alleged Lack of Effort to Suppress Disorderly Houses at the Hub

Boston, April 10.—Charges of non-compliance with the rules of the police department and the failure to suppress disorderly houses within the confines of his division have been preferred against Captain Gaskin of Division 3 to the Boston police board. The charges were filed by Francis J. Horgan, who appears as counsel for Marie Bateman, by whom the charges are made.

The complainant alleges that Gaskin has not caused to be enforced the law against disorderly houses and that there are 30 of them now running in the West End. The charges, other than those relating to the alleged inability of Gaskin to close disorderly houses, are of the most general nature, including "conduct unbecoming an officer," lack of "attention and zeal," a bad temper, impatience and lack of civility.

Marie Bateman is well known in charitable and philanthropic circles. She has lived in the West End many years and has often called at the day street station to make complaints. She has been specially interested in women on probation.

Fine Exhibition of Wrestling

Hartford, April 10.—George Bothner, the lightweight champion wrestler of the world, failed last night to throw Oscar Johnson of this city twice within an hour, which were the conditions of the match. Bothner succeeded in putting the shoulders of the New Englander to the mat once in the allotted time, but for the remainder of the bout Johnson kept on even terms with him. Referee Quinn declared the first 22 minutes of the bout, at the end of which time Bothner threw his opponent, to be the best wrestling he had ever seen.

Convicted of Forgery

Barnstable, Mass., April 10.—Ensign E. Howes of Falmouth, to satisfy judgment in a suit and release of personal property filed with the court a \$1500 bond on which there were six names. Five of these names were found to be forgeries, all the parties appearing at the trial and repudiating the signatures on the bond. Howes was found guilty of forgery. When the verdict was announced Howes fainted. The court postponed sentence and Howes was locked up in jail.

Killed Brother-in-Law

Boston, April 10.—Chief Wade of the state police has received word from Seattle that John E. Gallagher, who was arrested there 10 days ago at the request of the Taunton police, has confessed that he killed his brother-in-law, Joseph McMahon, in Taunton on Nov. 21, 1899. Gallagher went to Seattle directly from Taunton and has been employed there as a bartender ever since. Gallagher will be brought back here as soon as requisition papers have been honored.

Fresh Cases of Cattle Disease

Haverhill, Mass., April 10.—The hoof and mouth disease has broken out afresh in this vicinity and a herd of 40 cattle was killed yesterday in Hamstead, N. H., a few miles from this city. Fears are entertained as to the spreading of the disease, as it is not known how long it has existed or how widely cattle have been exposed.

Walked Out of Jail

Boston, April 10.—Edward W. McCullough escaped from the Charles street jail, where he has been confined for theft, and is still at large. The escape was made in broad daylight and it is the first time that a prisoner has been able to make an unauthorized exit from the institution within 35 years.

Met Death In Swamp

North Attleboro, Mass., April 10.—The body of Mrs. Ellen P. Franklin, aged 75, who had been missing from her home, was found in a swamp a short distance from her house. For some time she had suffered with mental trouble, and is supposed to have unwittingly wandered into the swamp.

CHAS. C. HEARN SUCCESSFUL.

Induced Dr. Howard Company to Make Special Price.

After a great deal of effort and correspondence, Chas. C. Hearn the popular druggist, has succeeded in getting the Dr. Howard Co. to make a special half-price introductory offer on the regular fifty cent size of their celebrated specific for the cure of constipation and dyspepsia.

This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures.

Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and the liver troubles, that Chas. C. Hearn is willing to return the price paid in every case where it does not give relief.

Headaches, coated tongue, dizziness, gas on stomach, specks before the eyes, constipation, and all forms of liver and stomach trouble are soon cured by this scientific medicine.

So great is the demand for this specific, that Chas. C. Hearn has been able to secure only a limited supply, and every one who is troubled with dyspepsia, constipation or liver trouble should call upon him at once, or send 25 cents, and sixty doses of the best medicine ever made, on this special half-price offer with his personal guarantee to refund the money if it does not cure. 7-10-14-17

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first bottle was gone like a new person. Now I feel used I feel like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." house on Thursday after a spirited de-
bate.

The Senate has referred the Carey
Hospital bill to the next Legislature.
The Carey picketing bill was ordered
to a third reading in the House on
Thursday.
Engrossment of the Carey bill relative
to advertising during strikes and lock-
outs was referred engrossment by the

The City Debt.
The itemized schedule of the municipal
debt on Jan. 1 as it will appear in
the City Book shows that the aggregate
of \$177,740.35 is made up of 154 items,
making the average amount \$1,154.21.
There were however, thirteen loans,
of over \$10,000, the highest unpaid
being \$55,000 for the new Washington
schoolhouse.

But eight of the 154 items will be
paid in full this year, while loans for
Coddington, Sea and Copeland streets
extend to 1924.
With three exceptions all the loans
are at three and one-half per cent. The
sum of \$3000 for Faxon Park road was
borrowed at three and one-third per
cents, and \$4,000 at four per cent.
The sum of \$70,540.35 matures in
1903, and less than \$58,000 in other
years, all within ten years, except
Coddington, Sea and Copeland streets.

Brooks Adams at B. U.
Dean Bigelow of the Boston Uni-
versity law school announced Wednesday,
says the Record, that Brooks Adams,
of Quincy, the well known author and
lecturer, had been appointed lecturer at
the B. U. law school, his duties to be-
gin next fall. He will give a course on
the economic side of the commerce
clause of the federal constitution. This
is a new subject. Admitted to the bar
in this country, Mr. Adams has prac-
tised law extensively in this city. He
has also spent much of his time in li-
terary pursuits. Among his best known
books are: "The emancipation of Mas-
sachusetts," "The law of civilization
and decay" and "American economic
supremacy."

Y. M. C. A. Notes.

Treasurer W. F. Cummings has
arranged to be at the association office
in the Ditson house on Monday even-
ings from 7:30 to 8:30 o'clock.
The officers and directors of the

mittee of association directors Tues-
day, April 14, at 3 P. M.
President H. B. Bailey has called a
meeting of the members of the Association
for Monday evening, April 20, at 8 P. M.
The meeting will be held in the
Y. M. C. A. home on Washington street.
The young men's soliciting com-
mittee for the gymnasium fund met at
Dr. E. R. Johnson's residence Thurs-
day evening. Encouraging reports were
made by the different members, show-
ing a substantial increase in the fund.
The next meeting will be held at the
association building Thursday, April 16.

TODAY'S COURT.

until Saturday.
Oscar Hanson was arraigned for disorderly
conduct in the public streets at Quincy and was
fined \$3.

THE BATTLESHIPS.

Fifty Tons of Steel per Day Added
to the two Building.

The form of the hull of the battle-
ship New Jersey, now building at the
Fore River shipyard, has been made
more complete by the addition of the
frames between the already plated part
and the stern-post. The stern-post has
been ready for some time, the necessary
rivet-holes having been drilled, and the
plates will soon be put in place.
Very satisfactory progress was made
on this vessel during the month of
February, the government constructor
reporting a gain of four per cent.,
making the structural work about 30
per cent. completed, and last month
steel was added to both the battleships
at the rate of 50 tons per day.

During the past week the hull of the
battleship Rhode Island has grown con-
siderably. The frames have been ex-
tended to the height of the gun deck
on both sides amidships; bulkheads
have been placed forward; the bottom
frames have been set, and Nos. 96 and
97 being bent, indicate the location of
the two propeller-shafts; the reinforce-
ments of the stem have been placed, and
in the structural work the vessel is
rapidly following the New Jersey. This
vessel has also received the first section
of the coning-tower tube, within a few
days, the similar section on the New
Jersey having been placed first.

Funeral of John J. Day.

The funeral of John J. Day was held
this morning from his late residence,
No. 317 Washington street. The ser-
vices were largely attended by many of
his business and personal friends. He
was a man noted for his kind acts and
his loss will be deeply felt.

W. E. Brown had charge of the ar-
rangements and the services were con-
ducted by Rev. John P. Cuffe.

The remains were encased in a solid
metallic lined mahogany casket, elabo-
rately hand carved with heavy silver
mounted handles. The body was shown
at full length and gave Mr. Day the ap-
pearance of being peacefully asleep.
Surrounding the casket was a mass of
beautiful flowers, among which was a
pillow from Mr. and Mrs. H. P. Tracy,
his life long friends; a stand of flowers
from the children of Mr. and Mrs. Tracy;
a pillow from Mr. T. J. Dion;
wreath from Mr. J. F. Sweeney;
wreath from Mr. M. Cantwell; wreath
from Mrs. Whitcomb; bouquets from
Mr. and Mrs. M. Lynch, Miss Mary B.
Smith, N. Garbarino and a stand of
flowers from a friend.

The burial was at Mt. Calvary. The
bearers, who were his close personal
friends, were: Dennis Walsh, Michael
Campbell, John W. Murray, Patrick
Cannon, John Walker, Herbert Griffin.

West Point Examination.

Congressman McNary writes, Exam-
inations for admission to West Point

THE FINAL GAMES.

Honors are Divided between the
three Clubs.

The final games in the Norfolk
County league were played Thursday
night at South Braintree between the
Braintrees and North Quincys. It was
Braintree's night, and they scooped
everything but the two games of
billiards, winning seven out of the nine
points.

The result of these games makes
North Quincy a winner in the billiard
and bowling series. Braintree a winner
at pool, and Granite City a winner at
whist and in totals. As trophies are
to be given in each event, Braintree
and Granite City will receive one each
and North Quincy two.

At Thursday night's games, North
Quincy, which has usually taken every-
thing in sight at bowling, dropped all
three strings. The totals were, Brain-
trees, 1105; North Quincys, 1115.
Braintree won the first string by 29
pins, the second by 34 pins, and the
third by 13 pins, giving them a total
lead of 80 pins.

Cuff of Braintree was high man on
singles with 90 and on three-string
totals with 250. Call of Braintree was
second on singles with 88 and on three-
string totals with 256. Hollis and
Hobart were neck and neck for low
man on singles, but Hollis carried off
the honors for low man on three-string
totals for the team.

For North Quincys, Osgood was high
man on singles with 86, and Hall on
three-string totals with 235. Hall and
Thorpe tied for second position on
singles with 85, and Osgood was sec-
ond on three-string totals with 230.
Tobin, a substitute, was low man on
singles with 65, and on three-string
totals with 194.

At billiards North Quincy did not
send up its professional, but Walsh and
Kendall both won; Walsh defeating
Barnes by a score of 75 to 46, and
Kendall defeating Waitt 75 to 50.

At pool the two Tenneys of Brain-
tree won out; B. Tenney defeating
Fairclough, 50 to 34; and F. Tenney
defeating Kenley, 50 to 17.

At whist North Quincy got a bad
beating; Jackson and Colbert defeating
Beale and Johnson, 15 to 0; and Gam-
mons and Keith defeating Hill and
Parker, 1 to 0.

The scores of the games follow:

Rival Odd Fellows.

On the Granite street alleys Thurs-
day evening, teams from the John Han-
cock lodge and Mt. Wollaston lodge of
Odd Fellows had an interesting match.
John Hancock boys won the first game
by a large margin, but the second was
in doubt until the finish, when the
Hancocks forged ahead and won by 10
pins. The Mt. Wollastons took the
third by a rally in the last boxes and
won by 3 pins. There was great
excitement, and as the Mt. Wollastons
are not quite satisfied with the result,
there is talk of another match in the
near future.

Falls into Lawson's Hold.

While on board the schooner Thomas
W. Lawson, lying at Metropolitan
wharf, Boston, Thursday, Frank Holo-
ran, 27 years old, of 61 Fifth street,
South Boston, fell from the deck into
the hold, a distance of 25 feet. In his
fall he struck an iron cross beam and
received fractures of the knee pan and
ribs. He was taken to the Relief
Hospital.

attractive new house on Adams street
next week.

Charles Jones is having the lot ad-
jacent to his house on Grand View avenue
graded for a tennis court.

The big event on the social calendar
next week is the Knights of Columbus
ball on Easter Monday night.

The executive committee of the Ward
Two People's Union meet with Miss
Raycroft, the secretary, this evening.

W. A. Bradford will do the plumbing
of the Southern house on Foster street,
which will be connected with the sewer.

Abbott & Miller's express has leased
the building on Washington street re-
cently occupied by the Beacon Ice
Cream Co. for an office.

The successful winners of spoons at
the Granite City club whist tournament
Wednesday night were Warren H.
Rideout and Benjamin Johnson, Jr.

Christ church early this evening in
order to obtain seats for Stainer's
"Crucifixion" to be sung by the choir
of Christ and St. Chrysostom's
churches.

The Easter window at the market of
Johnson Bros. in City Square attracts
lots of attention. There is a pretty
exhibit of plants and flowers, but the
cute little chickens from the House Rock
farm catch the eye of young and old.

It is about time those large signs on
the corner of Washington and Temple
streets and near the fountain, which
say that the Quincy Point bridge is
closed to travel, were removed. The
bridge has been open to teams for
some weeks.

Arrangements have been made for
excellent car service to and from the
minstrel show of Wollaston Yacht club
at Quincy Music hall next Thursday
evening. Two cars will leave the turn-
out on Beale street at 7.15, 7.30 and
7.45, and a car via Norfolk Downs will
leave the corner of Hancock street and

A DUAL RESPONSIBILITY

Of North and South For Slav-
ery and War of Secession

OUR COUNTRY NOW UNITED

The "Solid South" and the Black
Problem Discussed by Henry Wat-
terson, Who Says Political Agita-
tion Will Accomplish NothingChicago, April 10.—The annual ban-
quet of the Hamilton club, which is
held each year on the anniversary of the
surrender of Appomattox, was held
here last night. A large number of
guests were present and many from
distant states. The principal address
was by Henry Watterson of Louis-
ville, who said:I want to talk to you tonight, not as
a Democrat to Republicans, but as an
American to Americans. I have al-
ways resisted and resented the idea
that party lines are lines of battle; that
party issues are proclamations of war.
Our government rests upon the theory
that we are equal shareholders in a
common property. Touching the ad-
ministration of this property there will
always exist honest differences of
opinion. Good citizenship imposes up-
on each of us the duty of entertaining
his own convictions and of living up to
them; but he becomes little other than
a bigot who thinks more of himself
on this account, and loves his neighbor
less, because that neighbor, exercising
the same right, does the same thing.
The 13th of April, 1861, Sumter fell.
The 9th of April, 1865, Lee sur-
rendered. The four years intervening
between those dates, marking the be-
ginning and the end of the most mo-
mentous struggle of modern times,
witnessed such an outpouring of blood
and treasure, such displays of courage
and endurance, such sacrifices for opin-
ion's sake, as stagger human credulity
and beggar alike the powers of com-
putation and recapitulation. Never
in any preceding war was there so lit-
tle generosity; nor ever were the re-
sults of any war so complete and final.
Elsewhere upon the surface of the
earth traces may yet be seen, some-
times yet lurking in the hearts of men
sensibilities may be found, of strifes,
religious, or racial, international or
civil, one, two and three centuries
ago; in America not a vestige except
what springs from associated charities
and reciprocal ministrations of patri-
otism and benevolence. Northern men
and women mark and decorate the last
resting place of southern soldiers who
died in federal prisons. Confederate
officers sit in both houses of congress
and upon the bench of the national
judiciary, and have repeatedly served
in presidential cabinets and repre-
sented the country abroad. At least
two Confederate generals wear the uni-
form of the United States army, glad
to be assured that the flag which waved
over their cradles shall wave over
their graves. The chief magistrate of
the United States is half a southerner
and all a rebel; God bless him, and may
the Lord keep him in the path of wisdom
and virtue.To what do we owe these miracles
of enlightened progress? Mainly to
the good sense and good feeling, the
rich, red blood of American manhood;
partly to the recognition by reflecting
and generous minds that neither party
to that great sectional conflict had all
the wrong. On this point I can speak
with tolerable assurance. I belonged
to that segment of conservative men in
the south who loved the union and did
not accept either the gospel of African
slavery or the dogma of secession.The debate ended, the God of battle in-
voked to settle what had indeed proved
an irrespressible conflict, we went with
our own side. But four years later,
when in 1865, all that we had feared in
1861 was actually come to pass, we
needed no act of congress either for our
redemption or reconstruction.I claimed to be in Europe a little
while after the war. Such trifling
distinctions as Federal and Con-
federate were unknown. All of us
were Yankees. Then and there, I took
a bee line in the direction of the bun-
ting, and have been sunning beneath
its folds from that day to this. I did
not believe in slavery. I did not be-
lieve in secession. Heavens, if I
had! But what is the use speculating
about inconsequential possibilities? The
doctrine of secession did not originate at
the south, but at the north; it was not
the south that brought the negro from
Africa, but the north.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and
Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English From Sir Edwin
Caskoden's Memoir

By **EDWIN CASKODEN [CHARLES MAJOR]**

Copyright, 1898 and 1901, by the Bowen-Merrill Company

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love.

CHAPTER VIII.—Continued.

"On, if I had only taken your advice, Jane, and had never come to this wretched place! And to think, too, that I came here only to learn the worst! Shall we ever get home alive, do you think?"

They hurried on, the man behind them taking less care to remain unseen than he did when coming. Mary's fears grew upon her as she heard his step and saw his form persistently following them, and she clutched Jane by the arm.

"It is all over with me, I know. I would give everything I have or ever expect to have on earth for—Master Brandon at this moment." She thought of him as the one person best able to defend her.

This was only too welcome an opportunity, and Jane said: "That is Master Brandon following us. If we wait a few seconds, he will be here." And she called to him before Mary could interpose.

Now this disclosure operated in two ways. Brandon's presence was, it is true, just what Mary had so ardently wished, but the danger and therefore the need was gone when she found that the man who was following them had so evil intent. Two thoughts quickly flashed through the girl's mind. She was angry with Brandon for having cheated her out of so many favors and for having slighted her love, as she had succeeded in convincing herself was the case, all of which Grouche had confirmed by telling her he was false. Then she had been discovered in doing what she knew she should have left undone and what she was anxious to conceal from every one, and, worst of all, had been discovered by the very person from whom she was most anxious to hide it.

So she turned upon Jane angrily: "Jane Bolingbroke, you shall leave me as soon as we get back to Greenwich for this betrayal of my confidence."

She was not afraid now that the danger was over, and feared no new danger with Brandon at hand to protect her, for in her heart she felt that to overcome a few fiery dragons and a company or so of giants would be a mere pastime to him. Yet see how she treated him. The girls had stopped when Jane called Brandon, and he was at once by their side with uncovered head, hoping for and of course expecting a warm welcome. But even Brandon, with his fund of worldly philosophy, had not learned not to put his trust in princesses, and his surprise was unbecomingly when Mary turned angrily upon him.

"Master Brandon, your impudence in following us shall cost you dearly. We do not desire your company, and will thank you to leave us to our own affairs, as we wish you to attend exclusively to yours."

This from the girl who had given him so much within less than a week! Poor Brandon!

Jane, who had called him up and was the cause of his following them, began to weep.

"Sir," said she, "forgive me. It was not my fault. She had just said—Slap came Mary's hand on Jane's mouth, and Jane was marched off, weeping bitterly.

The girls had started up toward East Cheap when they left Grouche's, intending to go home by an upper route, and now they walked rapidly in that direction. Brandon continued to follow them, notwithstanding what Mary had said, and she thanked him and her God ever after that he did.

They had been walking not more than five minutes when, just as the girls turned a corner into a secluded little street, winding its way among the fish warehouses, four horsemen passed Brandon in evident pursuit of them. Brandon hurried forward, but before he reached the corner heard screams of fright and as he turned into the street distinctly saw that two of the men had dismounted and were trying to overtake the fleeing girls. Fright lent wings to their feet, and their short skirts affording freedom to their limbs, they were giving the pursuers a warm little race, screaming at every step to

the full limit of their voices. How they did run and scream! It was but a moment till Brandon came up with the pursuers, who, all unconscious that they in turn were pursued, did not expect an attack from the rear. The men remaining on horseback shouted an alarm to their comrades, but so intent were the latter in their pursuit that they did not hear. One of the men foot fell dead, pierced through the back of the neck by Brandon's sword, before either was aware of his presence. The other turned, but was a corpse before he could cry out. The girls had stopped a short distance ahead, exhausted by their flight. Mary had stumbled and fallen, but had risen again, and both were now leaning against a wall, clinging to each other, a picture of abject terror. Brandon ran to the girls, but by the time he reached them the two men on horseback were there also, hacking away at him from their saddles. Brandon did his best to save himself from being cut to pieces and the girls from being trampled under foot by the prancing horses.

One of the men on foot fell dead.

A narrow jutting of the wall, a foot or two in width, a sort of flying buttress, gave him a little advantage, and up into the slight shelter of the corner thus formed he thrust the girls and with his back to them faced his unequal foe with drawn sword. Fortunately the position allowed only one horseman to attack them. Two men on foot would have been less in each other's way and much more effective. The men, however, stuck to their horses, and one of them pressed the attack, striking at Brandon most viciously. It being dark and the distance deceptive, the horseman's sword at last struck the wall, a flash of sparks flying in its trail, and lucky it was or this story would have ended here. Thereupon Brandon thrust his sword into the horse's throat, causing it to rear backward, plunging and lunging into the street, where it fell, holding its rider by the leg against the cobblestones of a little gutter.

A cry from the fallen horseman brought his companion to his side and gave Brandon an opportunity to escape with the girls. Of this he took advantage, you may be sure, for one of his mottoes was that the greatest fool in the world is he who does not early in life learn how and when to run. In the light of the sparks from the sword stroke upon the wall, brief as it was, Brandon recognized the face of Buckingham, from which the mask had fallen. Of this he did not speak to any one till long afterward, and his silence was almost his undoing.

CURING CONSUMPTION.

When Scott's Emulsion makes a consumptive gain flesh it is curing his consumption.

The weight is the measure of the consumptive's condition. Every pound of weight gained is a matter for congratulation.

Exactly what goes on inside to make the consumptive gain weight when taking Scott's Emulsion is still a mystery.

Scott's Emulsion does something to the lungs, too, that reduces the cough and the inflammation.

More weight and less cough always mean that consumption is losing its influence over the system.

For all stages of the disease Scott's Emulsion is a reliable help.

ACCIDENT ON THE IOWA

Results in the Instant Killing
of Three Men.

FIVE OTHERS WERE HURT

Shell Exploded Midway in Twelve-
Inch Gun and Tons of Fragments
Crashed Through Deck Upon Men
Below—The Victims Mutilated

Pensacola, Fla., April 10.—An explosion occurred on the battleship Iowa while the vessel was at target practice in the gulf. The forward port 12-inch gun burst from the premature explosion of a shell, 12 feet of the piece outside the turret being demolished. Three men were killed and five injured, two seriously.

The killed are: W. F. Kelle, first-class seaman; E. L. Purcell, landsman, and E. L. Berry, ordinary seaman. The injured are Seamen Gaugh, Thursdale, Brown, Mansdale and Prucker.

The men killed and injured were on the second, or gun deck, at mess. Three pieces of the exploded gun, each weighing over a ton, passed downward through the spar deck, falling upon the men at mess, instantly killing the three named. All of the men were horribly mutilated. The heavy missiles, after passing through the gun deck, continued down to the third deck, where they came in contact with the armored deck, the heavy steel bringing them to a stop, thus saving the engineers and firemen, who were at work below. Although the upper decks were covered with men, no one there was seriously injured.

The explosion occurred just as the mess call had been sounded. Firing was to have ceased after the shot for the dinner hour. The range had been set and the Iowa was steaming along at a speed of 12 knots an hour when Lieutenant Reed, in charge of the forward 12-inch turret gun, gave orders to load and fire. The time fuse was cut for the range, the piece charged, breech closed and the word given to fire. Following the report of the gun there was a smothered noise as the shell exploded midway in the gun and pieces of the burst gun and shell were scattered broadcast.

Three great holes were torn through the deck. Those who were below began coming on deck, some bloody and mutilated, while lying on the floor, crushed almost beyond recognition. The Massachusetts, six miles distant was signalled for aid, and one of the cutters put off with the surgeon and assistants. The wounded men were taken to the hospital and their injuries dressed. The dead were brought to Pensacola.

Some claim the explosion was caused by a defective shell and others think that the frequent firing of the pieces at Culebra during the winter, added to the work done here during the past 10 days, so strained the piece that the force of the charge burst the gun.

Judge Cowhided Minister

No Word From President
Cincinnati, Mont., April 10.—Secretary Loeb has received no word from the president beyond the announcement that he has left his headquarters for a trip in the park.

NEWS IN BRIEF

The state executive committee of the Massachusetts Women's Christian Temperance Union voted to incorporate the Francis E. Willard settlement, as an auxiliary to the W. C. T. U. Henry Perry, an employee of the Arlington mills, Lawrence, Mass., was caught between an electric car in the mill yard and a platform and was so badly crushed that he died soon afterwards.

Herbert G. Brockway, 20 years old, of Saugatuck, Conn., was asphyxiated at the residence of a relative in Brooklyn. A leaky gas burner allowed the escape of sufficient gas to overcome him.

The brush factory of Jordan & Christy at Malden, Mass., was damaged \$13,000 by fire.

Dwight Benton, artist and journalist, and formerly United States consul general to Hawaii, died at Rome, aged 69. He was from Norwich, N. Y.

The navy department has awarded the contract for the Philippine floating drydock to the Maryland Steel company, whose bid was \$1,124,000.

The engagement is announced of Mrs. Zella Perley of Alton, Ill., to Count Otto Von Koenigsmark of the German army.

A dispatch from Rio Janeiro announces that the provincial legislature of Sao Paulo has passed a bill imposing a maximum tax of 2 percent on exported coffee.

Mrs. Clara Forrest of Danvers, Mass., on account of ill health and dependency, attempted to end her life by shooting. Although she was unsuccessful, it is thought that she will die from the effects of the wound.

Walter Clark, 24, entered the house of a neighbor at Corinna, Me., and in attempting to stand a loaded rifle in a corner, it was discharged, the contents entering his side, causing his death in a few minutes.

Walter Clark of West Corinna, Me., while walking with the muzzle of a shotgun under his arm, was shot and killed by the accidental discharge of the gun.

VIOLATED TRUST LAW

Government's Contention in Northern Securities Case Is Sustained
St. Paul, April 10.—The position of the United States government in the suit brought against the Northern Securities company, the Northern Pacific and Great Northern railways and individual officers and directors of those companies, was sustained in the decision handed down in the United States circuit court of appeals in this city.

The case was originally brought in the United States district court here, but under a special act of congress was taken at once to the court of appeals, which court was to expedite the hearing and decision of the case in every manner possible. The taking of testimony lasted for several weeks and the arguments in St. Louis took several days.

The decision enjoins the company from voting the stock of the Northern Pacific or Great Northern Railway companies, but allows the return of such stock as had been delivered to the holding company.

The company's charter is declared forfeited and it is also enjoined against doing further business. The stock is to be returned to original holders. The court holds that the merger was a combination in restraint of trade as defined by the federal law against trusts.

An appeal to the United States supreme court will be taken immediately. All four judges concurred in the conclusion of the court.

PURE BLOOD

Necessary to Life.
Vinol Makes it.

POOR BLOOD CAUSES ERUPTIONS AND WEAKNESS.

Vinol Makes Pure, Rich, Red Blood.

BECAUSE WE KNOW THIS
WE GUARANTEE ITS ACTION.

Impoverished blood is a sure sign of internal disorders. We see every day too many people whose face plainly shows that there is something radically wrong.

We want all of our fellow-citizens to know of our splendid blood purifier and blood maker.

We refer to Vinol.
Vinol, as we have before stated, is a purely scientific preparation. Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles, taken from the livers of live cods—the same elements that formerly were found in cod-liver oil, and which made it famous.

Vinol does not contain the grease or fat that characterized cod-liver oil and made it in many cases worthless. Vinol acts upon every one of the great vital organs, and by invigorating and giving them strength, enables them to properly perform their functions.

Vinol's effect on the stomach is marvelous. It tones up this, the greatest of the organs of the body, and enables it to obtain from the food which is taken into it the necessary elements to create flesh and muscle tissue, bone structure and pure, rich, red blood. We are in receipt of a letter from a Salvation Army woman which reads as follows:

"I took Vinol after a bad attack of grippe, and so much good did it do me that I persuaded my sister to take it. She was all tired out. Had no appetite and her blood was very poor. It did her as much good as it did me."—BETSY HABERSHAW, 718 River St., Fall River, Mass.

Don't you please come in and see us? We are always glad to extol the merits of Vinol.

We will give you back your money if you don't find Vinol will do all we claim it will. Could any one do more for you?

HUNDRED MURDERED

Bacolod Capital Taken by
Americans Under Pershing

THREE OF OUR MEN HURT

Sultan Had Been Hurling Defiant
Letters at Commanders For Some
Time and Inviting Them to Fight—
American Sovereignty Assured

Manila, April 11.—Captain Pershing's force has captured Bacolod, Island of Mindanao. His force consisted of Shaw's battalion of the Twenty-Seventh infantry, Kilpatrick's troop of the Fifteenth cavalry and McNair's battery.

Pershing was surveying the west shore lands when the Bacolodians opposed his advance and provoked the fight. Pershing surrendered and attacked their stronghold, first shelling them, and rushing his troops forward charged gallantly. After crossing a deep moat and entering the fort, the Americans engaged the Moros, bayonets against knives.

A hundred of the defenders were killed, including the dano and panadungan, and many were wounded. Only three Americans were wounded. After the capture of the fort, it was destroyed. The Bacolod leaders and the majority of the people of that district had been hostile to the Americans, and encouraged attacks on the American camps. They rejected the tenders of friendship. It is expected that the defeat of the Bacolodians will result in all the Moros acknowledging American sovereignty.

Pershing's column is proceeding to Marabou, which is also hostile.

The Sultan of Bacolod has been looking for trouble for some time. In the latter part of 1902 his chief confidence seemed to be the hurling of defiant letters at the American commanders in Mindanao. The following is an example of the letters received by the American officers bearing the imprimatur of the sultan and the panadungan of Bacolod:

"We want war if you do not get out of here and go back to the sea, because neither the Sultan of Bacolod nor the panadungan wants to be your friend. Within this month we want the war to begin and if you do not want it, you are a lot of cowardly rascals. Follow our Mohammedan religion. Do not look for the maulers for we have them. They were captured by Bantuas and Bantuas, people of the Sultan of Bacolod. We send our regards to the four generals and their vermin. If you do not want to go from here, come to this place and the sultan and panadungan will take care of you, for you are a lot of dogs that eat dogs and in not presenting yourselves at Bacolod look out for me, shall you fight you?"

General Sumner, who was in command in Mindanao, prepared three times last year to attack the Bacolodians, but delayed proceeding against the Moros, as overtures for peace were expected. Indeed, a few weeks ago the sultan wrote a letter to Major Bullard of the Twenty-Eighth Infantry, in which he said he desired peace and asked for a conference with the Americans. The Sultan of Marabou, who controls all the hostile tribes east of Lake Lanao, sent a similar letter to Major Bullard. Evidently there has been a slip between the cup and the lip in the proposed peace negotiations.

Rebel Victories Reported
Willemstad, April 11.—News has been received here that the Venezuelan revolutionists have defeated the forces of the government in the neighborhood of Caracas and captured two cannon and a large quantity of ammunition. They have also captured the city of Barquisimeto, which is the key to the western part of Venezuela, taking many prisoners.

Planned to Kill the King
Vienna, April 11.—The rumors of a plot against the life of King Alexander of Serbia receive apparent confirmation in private dispatches, according to which an attack on the king's life was planned for tomorrow. The plot was discovered and 50 persons suspected of complicity therein were arrested.

President Enjoying Himself
Cinnabar, Mont., April 11.—President Roosevelt is in the mountains at a camp 40 miles from his headquarters. Snow has fallen in the vicinity to which the president has gone, but the fall apparently was not heavy. The president is studying animal and plant life in the park and is enjoying himself.

Great Plunge of Freight Cars
Paterson, N. J., April 11.—The rear end of a freight train on the Susquehanna railroad which had broken loose from the front part of the train demolished a 150-foot trestle over the Poquannoc river, and 12 cars plunged into the river. No one was injured.

Libel Bill Before Governor
Harrisburg, April 11.—The libel bill, which has stirred up the entire newspaper press of the state, has come into the possession of Governor Pennington for his approval or disapproval. He has 30 days in which to consider the matter.

"Republic at Peace"
Washington, April 11.—Senator Coren, the Nicaraguan minister has received a dispatch from Foreign Minister Sanchez at Managua which says: "Revolution is suppressed. The entire republic is at peace."

INITIAL DIP TODAY

All Is In Readiness For the Launching of the Cup Defender

Bristol, R. I., April 11.—There will be launched just before sunset today from the Herreshoff works in this city a 90-foot composite fin keel sloop yacht, which a syndicate of six yachtsmen of the New York Yacht club have had constructed for the defense of the America's cup against Sir Thomas Lipton's third challenger. As the yacht moves down the days, Miss Nora Iselin, daughter of C. O. Iselin, the managing owner, will name her the "Reliance" and the club is convinced that she will keep intact the successful record of the past 52 years against more than a dozen attempts on the part of British yachtsmen to regain the blue ribbon of the seas.

The Reliance is the sixth yacht which the Herreshoffs have constructed for the defense of the America's cup. Three of their productions, the Vigilant, Defender and the Columbia have defeated the British challengers, while two others, the Columbia and the Constitution, did not prove in the trying-out process sufficiently reliable to warrant their selection for the honor.

Although the Reliance, as in the case of nearly all the cup defenders, has been built in secret, it is known that her underbody is constructed of Tobin bronze, and her top sides of nickel steel. It is also known that she is about 40 feet over all, just short of 90 feet on the water line, about 24 feet deep, and 224 feet beam. When fully rigged she will be able to spread over 15,000 square feet of canvas, which is the largest amount ever hoisted by any racing 90-foot sloop.

Contest Over Wentworth Millions
Salem, Mass., April 11.—Judge Harmon has appointed as special administrators of the estate of the late Arioeh Wentworth of Boston A. P. Loring and J. J. Storow. This was done for the purpose of administering the vast estate pending its final distribution. The estimated value of the estate is \$3,000,000 in real estate and \$3,400,000 in personal property. Wentworth left two wills. One, drawn in 1899, gave practically all his property to his relatives, with some public bequests. The later will, drawn in 1903, gives his widow, her children and several other relatives only moderate annuities, the residue of the vast estate going to found and maintain an industrial school. Both wills have been presented for probate in the Essex county courts and a legal battle is anticipated.

Mrs Langtry's Presence of Mind
Salem, Mass., April 11.—During the performance of "Monsieur Mars" by Lily Langtry and company in the Salem theatre last night a fire was started by a defective electric light wire at the base of the proscenium wall, near the footlights. Mrs. Langtry noticed the fire, and without missing a line or giving a hint that she was not closely following the dialogue, she lifted a rug from the floor, carried it across the stage and extinguished the flames. She was liberally applauded by the audience, which had begun to show uneasiness, and stepping to the footlights explained that there had been no real danger, but that she was afraid that some in the audience might be alarmed and that trouble might follow.

Girl and Escort Shot
Manchester, N. H., April 11.—Charles W. Sell, aged 21, last night shot twice and critically wounded Miss Mabel S. French, aged 19. Then he put a bullet through the arm of Grover Davis, and another through the collar of Joseph Clough. Davis and Clough were escorting Miss French home from a grange meeting and were passing through Taylor street when Sell jumped from behind a clump of brush and began firing. Sell has been attentive to Miss French for about three years and at various times has shown great jealousy. He has not been captured.

Railroad Property Destroyed by Fire
Portland, Me., April 11.—Fire broke out in the car shops of the Maine Central railroad at Thompson's Point, an isolated spot in the outskirts of the city, and before it was under control the entire plant had been destroyed except the roundhouse. The loss will reach \$150,000. Besides a number of cars in the repair and paint shops, two locomotives were included in the property burned.

Hearing Is Denied
Boston, April 11.—Governor Bates announces that he will not grant a hearing on the charges made by William H. Baker, an attorney, against the Boston police commission. The charges specified 22 counts and covered a wide range in relation to the granting of liquor licenses.

Smuggler Pleaded Guilty
Boston, April 11.—Having pleaded guilty to two counts of an indictment charging him with smuggling tobacco across the Canadian border, Byron E. Lurchin of Pembroke, Me., was sentenced to serve three months' imprisonment in jail here.

Death Probably Accidental
Boston, April 11.—The body of Dennis Reardon, who lived with his brother at Cambridge, but who had been missing about four weeks, was found in Mystic river at Somerville. There is no suspicion that his death was other than accidental.

Madman's Estate Worth \$600,000
Lafayette, Ind., April 11.—A cablegram from Paris announces to relatives here that Moses F. Chase has started for his home here in custody of Samuel P. Baird, an attorney of this city. Chase has spent the past four years in a madhouse near Paris. His father here has been appointed guardian of the estate, which amounts to \$600,000.

DER GERMAN COBBLER

He Enters Into a New Field of Business

(Copyright, 1902, by R. A. Hamm.)

IN four days I don't haf no peensness in my shop except to put on one cement patch for feefteen cent, and I vhas so blue ash never vhas when dot plummer comes offer to see me. When I tells him how I vhas, he says:

"Der cobbling peensness vhas played out. Peoples vhas so rich and shoes vhas so cheap dot nopody vhas any repairs any more. You must go into something else. I haf got some ideas."

"How vhas it?"

"In der first place start a saloon. You may lose money on a coal mine or government bonds, but you can't lose

"ONE VHAS FOR BEER UND DER CDDER ONE FOR A MUSEUM."

money on a saloon. She vhas right on hand all der time, and der profits buys a farm in two years. In der next place start a museum. Eaferypody who owns a museum vhas a rich man. A museum interests old folks, pleases der children and aids der cause of education. If you make a museum and a saloon together, you vhas one of der biggest men in America in three months."

"But how can I do it?" I says. "I dunno, Hans, but you should think it offer. I gif you hints, and you work 'em out. I vhas a poor man when a friend told me to go in der plumbing peensness and charge two tollar for stopping a leak in a water pipe, and now I own seven houses and haf ten children. You vhas my frendt, and I put you on to a good thing."

When dot plumber goes out, I sit down and talk mit myself. Der trouble mit me vhas dot nottings vhas two times alike. One day a man cums in my place and drinks my beer and reads my gas meter, and dot fat policeman says I vhas awindles and should look out. Next day another man cums and acts shust the same, and I gif him der boot and vhas fined twenty-five tollar. One time an expressman cums mit a package and collects fife tollar, and when I open him he vhas a big stone. Dot fat policeman says I vhas a greenhorn and don't know somebody. Next day dot expressman cums mit a package and I fight mit him and haf to pay feefty tollar. One day der man who makes der taxes cums in my place and drinks four beers and says he makes my taxes lower. I go by der police, and he laughs at me and says I better go back to Sherman. Next day another man cums to drink my beer and see about taxes, and I run him out und vhas in troubles. If somebody vhas nopody, how you going to tell about it?

I speak to my wife all about der saloon and museum peensness, howfever, and I talk for an hour mit der druggist and coal man, and I shall see about her. Dot little tailor don't like to see me get ahead of him in peensness, but last night he comes around und talks to me und writes me out a piece for der papers as follows:

"Ladies and Shentlemen—I like to introduce myself in my new peensness. I haf opened some saloons for beer, but she vhas divided off in two pieces. One vhas for beer and der udder one for a museum. It vhas no sharge to go in or come ondt, and stay as long as you like. You can stay in or stay out—she vhas der same to me. Dot beer vhas for sale at der usual price, and she vhas ten X's, but if you don't vant some you go by der museum and she vhas shust der same. She vhas innocent for women and children, and no one vhas made better for seeing my place."

"I like to call your attention to my lulu. I don't know he vhas a lulu till der man who sells him to me gifs me dot pointer. I belief all der time he vhas a stuffed cat mit glass eyes and a bobtail. Dot lulu vhas from Africa, and he vhas so fierce dot efen der elephants run avhay from him. If a man should meet a lulu in an African forest at midnight, God help dot man! He would shust hear one awful scream, und den he would be in kindling wood, und dot lulu would drink his blood und scream 'Ha! ha! ha!' Nopody shall be afraid of my lulu because he vhas deadt und can't fight, and because I vhas at handt to protect der women and children. I like to say in conclusion dot nopody shall poke him mit a stick, und dot he vhas der only specimen offer brought to America. Some time dot policeman says I vhas a lulu myself, but he don't haf time to point himself."

"In dot next cage you find der hodag I don't know some hodags untill I buy him for feefteen tollar. I belief he vhas a stuffed fox, und I shmile at him,

but der man proofs dot he vhas right. Dot hodag vhas from Australia, vhave he goes roaming to eat eaferypody oop. While he vhas a small animal, he has a big appetite, und if he don't eat one man a day he vhas hungry. He don't fear nopody. If you meet him when you vhas walking out, you vhas gone oop der spout. He shumps on your back und flings you down, und for ten minutes he toys mit you und makes you belief he vhas all in fun. You pet him und call him fond names und belief you vill go home, but he shumps at you, und you vhas in heafen in two minutes. Nopody else has a museum mit a hodag in it. He vhas not to be had. Dis one vhas found deadt, und he vhas valued at ten t'ousand tollar. He don't hurt anybody untill you poke him in der eye mit an umbrella. In conclusion I vill say dot der more beer you drink in der saloon part der bigger dot hodag looks in der museum."

"It gifs me pleasure to speak of dot dodo in dot third cage. He vhas rare. You may go by ten museums, und you don't find him. My oldt woman said he vhas half turkey, but I pay twenty tollar for him und find outt he vhas a dodo. I vhas not well posted aboutt dot dodo, as der man who sells him to me has to go right away to Chicago, but I know he vhas a badt bird. He comes from Switzerland, und he flies aboutt und looks for women und children. If he finds one outdoors, it vhas goodby! He screams two times und seizes dot victim und bears him off to his nest, und it vhas no good to follow after. Some day you may find some bones; dot vhas all. A full grown dodo, like the one you see before you, can eat one woman or two children eafery day, und such vhas der fear of him dot no Swiss woman goes outt by her hopeen midoudt a rope aroundt her waist. You can see by his tail dot dis bird flies by night as well as by day. If a girl stands outt by her gate at night waiting for her feller to come along, maybe dot feller finds her und maybe she vhas—whish!—gone oop der mountains to feed der dodo. She kicks und screams und cries for mercy, but it vhas no use. Two years later maybe her hatpin vhas found among der rocks, but no more. She vhas inside dot dodo, und der dodo can't be seen."

"My friends, I like you to come in und call on me und look aroundt. She vhas no free lunch, und she vhas no prize package, but she vhas a respectable place, und you vhas interested. If some innocent people call for beer, he shall haf it und be welcome, but if he shust like to see der museum nopody vill say a word. I vhas open eafery day und eafenings in der week except Sunday, und I vhas always glad to explain und be friendly. Please remember dot she vhas free to all, und dot my saloon vhas in two pieces—one for der saloon und one for der museum."

Time's Changes.
Alas, how fast time flies!
What changes does it make!
Fair Mabel now denies
What once I'd boldly take.

Some fifteen years ago
When she was only four,
I'd like to have you know
I kissed her o'er and o'er.

Sometimes the kiss was free,
Sometimes she'd not comply,
But dimes would e'er for me
This pleasing favor buy.

What makes time charge us so?
I saw the maid tonight,
Yet she'd refuse, I know,
What once was her delight.

Now dollars would not buy
What dimes have often bought.
Indeed, she'd now decry
An insult in the thought.

Yet now I've older grown
And favors would elate,
Which I could not, I own,
Before appreciate.

ARE STILL MYSTERIES

No Light on Burdick or Pen-
nell Tragedies

PAPERS OF DEAD LAWYER

Were Not Produced at the Inquest—
Counsel Refused to Answer Ques-
tions as to Alleged Defalcations—
Pennell's Statement to the Public

Buffalo, April 11.—The evidence
given at the inquest into the deaths of
Arthur R. Pennell and Mrs. Pennell be-
fore Justice Murphy will not help the
authorities in any way to a solution of
the Burdick murder mystery. Whether
the tragedy at Gehres' stone quarry on
March 10, in which Pennell was killed
and Mrs. Pennell was fatally injured,
was due to accident or design, was not
proven.

Thomas Penney, who has acted as at-
torney for the Pennell family since
Arthur's death, declared that so far as
he was aware nothing in the papers left
by Mr. Pennell would throw any light
upon the murder of Burdick. When
questioned regarding the alleged defal-
cations by Pennell, Penney declined to
answer. J. F. Pennell, brother of the
dead lawyer and administrator of his
estate, who had possession of most of
Arthur's papers, was out of the city,
and Penney informed the court that he
did not know where he was or when
he would return to Buffalo.

Mr. Penney's refusal to answer ques-
tions relating to the alleged defalcation
on the grounds of professional
privilege was sustained by Justice
Murphy.

"Evidence that would show defalcation
would simply be accumulative,"
said Justice Murphy after the evidence
was all in. "No stronger motive could
be proven than has already been
brought out here. But proving a mo-
tive does not establish suicide. The
court is prepared to announce its
findings."

"I hereby find and certify," continued
Judge Murphy, "that Arthur R. Pennell
came to his death on the 10th day of
March, 1903, as a result of injuries re-
ceived while riding in an automobile,
the said automobile plunging from an
embankment into Gehres' stone quarry;
that I cannot determine from the evi-
dence submitted whether such plunge
was accidental or designed."

"That Carrie Lamb Pennell came to
her death as a result of the said plunge
of the automobile into the quarry."

There were several sharp tilts be-
tween District Attorney Coatsworth
and Mr. Penney during the day. Judge
Murphy and Penney also exchanged
warm words, the judge threatening to
exclude Penney from the room unless
he conducted himself in a proper
manner.

The first witnesses called were the
medical examiners who viewed the
bodies of the deceased, the boys who
saw the automobile take the fatal
plunge and persons living in the vicin-
ity of the Gehres' stone quarry who
saw an automobile supposed to have
been Pennell's hovering about in a
drenching rain on the night of March 10.
Attorney Penney, Wallace Thayer,
who acted as confidential attorney for

Pennell before his death, and W. C.
Omphellus, formerly Pennell's steno-
grapher, were examined last.

Mr. Omphellus produced a typewritten
copy of the first draft of a statement
prepared for publication by Pennell be-
fore his death. The statement was
addressed to the public. In it Pennell
stated that he had satisfied the au-
thorities that he had nothing to do with
the Burdick murder. He declared
there was no truth in the charges
brought against Mrs. Burdick or him-
self; that Burdick had been infatigable
with a woman he (Burdick) intended
to marry and it was not until he learned
Mrs. Burdick was to sue him for di-
vorce that he decided to forestall her.

Must Strictly Observe Law
Paris, April 11.—Premier Combes
has issued two circulars addressed to
the bishops. One notifies them that
they must absolutely forbid the mem-
bers of congregations from preaching
in churches and warns them that ne-
glect to do so will result in the closing
of those churches in which the law is
infringed. The other circular directs
the immediate cessation of religious ser-
vices in all establishments to which au-
thorization has not been granted.

Criminal Negligence Charged
Philadelphia, April 11.—Israel Is-
danor, owner of a tenement house in
which three lives were lost by fire, has
been committed by the coroner to await
the action of the grand jury on the
charge of criminal negligence. Isdanor
failed to provide fire escapes on the
property as required by law and the
coroner's jury held him responsible for
the death of the tenants.

Americans Well Thought Of
Genoa, April 11.—The commanders
of the United States war vessels Cin-
cinnati, Chicago and Machias paid a
courtesy visit to the local authorities
here, who entertained them at dinner
last evening. The people are displaying
much cordiality towards the American
seamen and many persons have visited
the American ships, which are greatly
admired.

NEWS IN BRIEF

Five men at work on the mines and
metallurgy building at the World's
fair site were injured, three of them
probably fatally, by the falling of a
derick with several tons of building
material.

Governor Odell has appointed Rich-
ard O'Brien port warden of the port of
New York, to succeed Hiram Calkins.
The body of a woman with a black
silk handkerchief tied tightly around
her neck was found in the Hudson
river at New York. The body had
been in the water a long time.

Acting Postmaster General Wynne
has ordered the consolidation of the
postoffices at Arlington, Auburn and
Cranston, R. I., with the Providence
postoffice.

WEEKLY TRADE REVIEW

Labor Controversies the Adverse Fac-
tor in Industrial World

New York, April 11.—R. G. Dun &
Co.'s Weekly Review of Trade says:
Lower quotations in the stock market
than at any other time since October,
1901, do not signify depression in busi-
ness. The law of supply and demand
must prevail. Compared with the high
prices for stocks last September the 60
most active railways have declined
15.85 per share on the average and the
volume of new securities offered to in-
vestors has proved greater than the
available funds could assimilate. An-
other weakening influence as to stocks
is the increased cost of materials and
labor, which reduces net earnings. Yet
this very necessity for greater disburse-
ments puts more money in circulation
through regular channels and stimulates
dealings in commodities.

Aside from the prevalence of strikes
and possibility of further interruption
to industrial activity next month on
this account, the business outlook is
most gratifying. The prospects are
bright for large crops. Despite some
unfavorable weather Easter retail
trade has been heavy and jobbing ac-
tivity in summer fabrics indicates ex-
pectation of a vigorous consumption as
the season advances. There is less
complaint regarding deliveries, due to
better traffic facilities.

Foreigners' Enemy is Dead

Pekin, April 11.—Yung Lu, the con-
troller of finance and first grand sec-
retary, is dead. He had been suffering for
some time past from dropsy. Yung Lu
was a Manchian and at the time of the
beginning of the "Boxer" outbreak was
vicerey of the province of Pe Chi Li and
generalissimo of the Chinese army. He
was said to be the real author of the anti-
foreign outbreak and he commanded the
best disciplined troops which opposed
the allies. His death removes the
greatest power in the government of
China except the dowager empress,
and many consider that the dowager em-
press was under his domination. While
outwardly friendly to foreigners since
he returned to court, as was really less
bitter against them than when he was
one of the leaders of "Boxerism."

A Much Wanted Witness

St. Louis, April 11.—It is stated at
the four courts that either Attorney
General Crow or Circuit Attorney Folk
will proceed to New York at once unless
D. J. Kelly is arrested by the police
authorities there. Kelly is now con-
sidered the most important man in
connection with the hoodie investigation,
as it is said by the authorities that
he is familiar with the manner in which
alum baking powder legislation was de-
feated at the 1900-1901 sessions of the
Missouri general assembly.

L Employees Accept Scale

New York, April 11.—Employees of the
Manhattan Elevated railroad were in
session almost continuously from early
yesterday morning until a late hour last
night discussing the recent offer of the
officials of the road to increase wages
and reduce the hours of labor. The new
wage scale was accepted, but the men
will continue to agitate for a day of
nine hours instead of 9½ hours, as pro-
posed by the company.

"When merchants advertise to sell
goods at less than cost, what they
mean is that they will sell them at less
than they would cost you if the price
was higher."

EASTER POEMS GRAVE AND GAY

Easter-tide.

[By Zitella Cooke.]

SAY, how shall we keep it—the Easter-
tide,
When the glad earth smiles, like a
flower crowned bride,
And her lord, the sun, in his shining
place,
As giant, rejoices to run his race;
When birds and bells in sweet carol and
chime
Are telling the joy of the blessed time
And nature is thrilling with ecstasy—
Oh, what shall our song and our keeping
be?

Shall we challenge the world with swell-
ing pride?
Shall we wear its pomp that the Lord de-
nied?
Shall we follow the things of death, whom
he

Hath vanquished in triumphant victory?
Shall our Easter die with the altar flowers
And praises that burst from these lips of
ours?

Aye, the Lord is risen in verity.
Say, what shall our joy and keeping be?

O friends of the Master, what can it be
But the feast of truth and sincerity,
Unleavened with malice or wickedness,
The heart to forgive and the hand to
bless,
The eyes that shall pity our brother's
thrall.

Since Jesus has died and risen for all,
In the gospel spirit and love to bide,
Lo, this is the keeping of Easter-tide!
—Youth's Companion.

Easter Lilies.

[By Edward Zeldell.]

The lily bud's now budding,
A dream of purest white;
The sun the scene is flooding
With rays of dazzling light.
The sparrow,
Like an arrow,
Flits gaily through the street,
E'en fleet-
That's the meter
Of this effusion sweet.
From "faster" e'en to "feaster"
The woodchuck soon will change,
For soon the sun kissed Easter

Will strike our vision's range.
Oh, the heyday
Of that gay day,
Gayer yet than any May day
Is the day when Easter lilies blossom in
their fragrance rare,
Pinned to Elsie's swelling bosom
(Pinned there tightly, lest she'd lose
'em),
And the sun is gaily shedding on the
streets a radiant glare,
And in togs of latest fashion,
Which we spend our hard earned cash
on
(A most common human passion),
We parade,
And the Easter bells are tolling,
And we're noble and cajoling
As upon the streets we're strolling
In the shade.
—New York World.

An Easter Patriot.

Never ketch me growlin' 'bout millinery
bills;
I likes ter see, at Easter, the dear wife
put on frills;
Like ter see her fixin' of her dear ole self
in style,
Fer she's sweeter in a minute than the
others in a mile!

Nuthin' in the country's too good fer her,
an' I
Have sot it down to never pass the Easter
ribbons by
Er I half suspect she wants 'em; ef she
only hints that she
Wants somethin' in the winders, they
ain't big enough fer me!

Jest buy the store out fer her, fer it
"lives on yer life"
Ter know this thing called "money" is a
blessin' ter yer wife.
An' when Easter bells air ringin' an' the
world's on dress parade
Ter know thar ain't a woman that kin
throw her in the shade!

It don't take much ter dress her, but it's
got ter be the best
That's in the fashion papers, whar the
purty ones air dressed;
Love ter see her fixin' of her dear ole self
in style,
Fer she's sweeter in a minute than the
rest air in a mile!

The Easter Table.

Without encouraging a practice of
greater effort for the preparation and
service of home meals on Sundays,
some little forethought will make pos-
sible a few innovations in the decora-
tion of the dining table on Sunday in
keeping with the Easter season.
Green and white is the usual color
scheme of decoration for the dinner ta-
ble. If possible, let the flowers be a
bunch of white lilies in a cut glass
bowl. Lilies of the valley, too, may be
effectively used in the center.
Eggs are wont to be used on this day.
For the breakfast decoration use a sim-
ple jardiniere of ferns.
A bunch of violets at each plate is a
pleasing remembrance, if expense need
not be considered.—Brooklyn Citizen.

WILD FLOWERS FOR EASTER

Plants From the Woods That Will
Bloom Indoors.

The most beautiful centerpiece for
the Easter table when Easter comes so
near the opening of spring as it does
this year is one of blue hepaticas and
spring ferns. The hepatica is usually
the first flower of spring. Close to the
russet earth in the warm light which
drifts through the bare woodland
boughs it opens its abundant azure
blossoms, as blue as the wings of the
bluebird or the sky of March. Like the
sky and water of March the flower has
so perfect an azure hue that it seems to
have been purified by frost. It has
none of the purplish color of the violet
that blossoms later in the green grass
of May.

The hepatica, the trailing arbutus
and nearly all the early spring flowers
perfect their flower buds in the au-
tumn, wrapping them up in furry lit-
tle covers close to the earth, where
they rest through the winter under the
snow to wait the awakening suns of
the vernal equinox. Sometimes it seems
to be a race between these early flow-
ers as to which shall open its petals
first and earn the right to be called the
first bloom of spring. "The brave spora
of the skunk cabbage," however, often
push themselves through the frozen
earth before the blue hepatica or the
trailing arbutus breaks its furry
sheaths.

Any of these early flowers may be
easily forced in a wild window garden,
so that they will blossom indoors long
before they appear in the forest. The
plants must be taken from the woods
in the fall or at the beginning of
March, brought into the house and
thawed out and then planted in a sun-
ny window, where they will soon come
into perfect bloom. They are extreme-
ly pretty planted with the evergreen
spleenwort ferns, which are so charac-
teristic of the spring woods and rocks,
and which are more filmy and delicate
than the most delicate maidenhair
ferns that grow in the summer forests.

The mandarin spleenwort, or As-
plenium trichomania, is an abundant
fern on limestone rocks in shady places.
It grows in thick tufts in pockets in
the rocks, its delicate leaflets mounted
on threadlike ebony stripes.

When the blossoming hepatica is
massed in thick clusters in a deep cen-
ter dish of delft with only the spleen-
wort fern, it is exceedingly effective,
as it has no leaves until after it bloss-
oms. The leaves that cling to the
flowers are the half withered leaves of
last year, and they should be trimmed
away. These flowers grow in such clus-
ters and are so intense in hue that
they are much more attractive as a ta-
ble centerpiece than the trailing arbu-
tus, which is sometimes forced into
bloom in the house and used in the
same way.

The hepatica comes into bloom in the
open woods late in March or at the be-
ginning of April. To force it into
bloom at as early a date as Easter
Sunday it will be necessary to start
the plants a week or more in advance.
See that the plants selected have abun-
dant roots and show a full cluster of
buds in their little hairy sheaths close
to the roots.

Thaw out the plants at first with
cold water and place them in the cel-
lar. Do not bring them into a warm
room until all the frost has disappeared
from the earth around the plants.
After a few days place them in the
dish in which they are to grow in a
sunny window. Water them daily. If
they develop too rapidly and are in
danger of blossoming before Easter,
put them back in the cellar for a few
days. These flowers, massed with
spring ferns, make an attractive piece
for the Easter altar.—New York Trib-
une.

Seasonable Easter Gifts.

Each year finds the custom of ex-
changing gifts at Easter more wide-
spread. Unlike Christmas presents, in
which wide latitude is allowed, the
Easter gift should be both dainty and
seasonable. The scent sachets, so popu-
lar for Christmas cards, have re-
appeared in charming guise for Easter.
They are decorated with all the flowers
that bloom in the spring and tied with
ribbons to match. There are, too, unique
little sachets of satin in the shape of a
lily or pansy. A novelty which will
find favor is a basket of colored tissue
paper resembling a big chrysanthem-
um. Its long leaves are meant to
conceal Easter eggs or bonbons. Tiny
potted ferns set in cups of crimped and
painted paper are just the thing for an
Easter greeting. Some of the cups re-
present Easter lilies. Decorated china
violet holders are another pretty sug-
gestion. Seasonable gifts which may
be used for Easter will be found
among the art linen, traveling cases,
steamer pillows, fancy silk bags and
the new washable cases for turnover
collars. New and beautiful designs in
decorated china are adaptable both
for Easter and wedding presents.—

Winter Weather in Mountains

Salt Lake City, April 11.—A severe
windstorm, accompanied by rain, hail
and snow, is raging throughout the en-
tire inter-mountain region. The
weather bureau has sent out warnings
through the fruit districts.

Villages Destroyed by Tornado

Newport, Ark., April 11.—Related
reports from Van Buren and Cleburne
counties show that the damage done
by the tornado has been under-esti-
mated. Six villages are known to have
been destroyed.

Gamblers Obeyed Warning

Denver, April 11.—The fire and police
board issued an order that no more open
gambling will be permitted in this city
and every gambling house was closed
promptly.

Good Afternoon.

There is before the City Council a petition for the acceptance of Broadway by the city. Unlike most streets which the city is asked to accept, this street never was built. Not even the loam was removed. All that was done by the Wilbur Co., which placed it upon the market was to make a plow furrow on each side of the street defining the line. For this reason the real estate firm was able to sell at low prices and get out, but now the abutters find themselves in a hole. The street should be built, extended and accepted as prayed, but probably the city will not do it, unless the abutters agree to contribute toward the expense. It would not be justice to residents of other streets to ask them to pay in taxes for this improvement, when they were called to put their streets in order for acceptance, or else paid more for their land because it was upon a well built street.

A cherry tree full of white blossoms was noticed today in the orchard of Judge Pratt on Spear street. A remarkable occurrence for so early a date as April 11. Worthy of a record in your calendar of remarkable events.

THE CRUCIFIXION.

United Choirs Give Stainer's Cantata at Christ Church.

Christ church was much too small last evening to accommodate all who wished to hear the oratorio of the Crucifixion by Stainer, as sung by the united choirs of Christ and St. Chrysostom churches, with J. D. Buckingham at the organ; J. Russell Abbott and Herbert V. Follett as soloists, and all under the direction of E. Landis Snyder. Every available seat and standing room was utilized, and then many were turned away.

It was a fine production, the choir doing good work. Mr. Abbott was at his best and rendered the tenor parts with much feeling and expression, as did Mr. Follett the bass solos, both being exceptionally pleasing.

To Mr. Buckingham at the organ and Mr. Snyder as director was due much of the pleasure derived by the listeners as their shading and direction contributed to the fine results obtained by the chorus and soloists.

Presentation.

At the church meeting of the Universalist Society held on Tuesday evening, the members were presented with an individual communion service consisting of a base, two trays, glasses, cover, filler and holders by the Quincy Dramatic Club.

The gift was a surprise, but the pastor spoke heartily of appreciation, and the members present testified by a rising vote of thanks. The Dramatic club was a society formed about twenty years ago, and when the members gave up their meetings, they had some money in the Savings Bank.

Two years ago, they contributed money to pay the sidewalk assessment in front of the church and this last week gave the balance of their funds to buy and present this individual communion service to the church.

The steamship Minnesota for the White Star line, will be launched at New London, Conn., next Thursday. She is 630 feet long and larger than any vessel ever built in this country.

1000 ACRES

Will Be Opened Up By New
Freight Railroad.

And Benefit Our New
Industries.

Take Place of Old Gravity Rail-
way Built in 1867.

History is repeating itself in the vicinity of the Fore River shipyard, for where in 1867 Mitchell & Wendell constructed a gravity-railroad from their quarry a few hundred rods from Quincy avenue, along the creek to the deeper water where vessels could receive cargoes of stone, a standard-gauge railroad is being constructed from the Fore River shipyard to East Braintree, the nearest point of the South Shore branch of the N. Y. & H. R. R. The road built by Mitchell & Wendell was a short one, only about seven-eighths of a mile, and it was then the custom to load two flat cars with stone, and let them run slowly down the gentle grade, till they reached tide water, and when unloaded a pair of horses could easily pull them back to the quarry.

They carried on the quarry and maintained the road till 1870, when it was discontinued. About 1885 the quarry was again opened, and for some seven or eight years it was in use; but in 1899 the rails were sold to a shrewd dealer for \$1,000, who made a good investment in the old iron. Since then the line of track has become almost obliterated.

Ever since the Fore River shipyard was opened all the heaviest freights received there have been shipped by lighters from Boston at much extra expense and loss of time. The more so has this been evident since the heavy steel armor-plates for the United States battleships New Jersey and Rhode Island have begun to come.

In order to save this extra handling and insure promptness of dispatch, the company proposed to connect the tracks in the yard with the South Shore branch of the N. Y. & H. R. R. at Braintree, by a short line, and for the past month work has been in progress.

This road enters the shipyard near the office building by crossing Quincy Avenue and Howard Avenue. In order to do this a dwelling house and some smaller outbuildings, owned by Mr. Henry Faxon, near East Howard street, were relocated, being in the direct line of the track.

The road is built at grade and crosses the Old Colony Street Railway Company's line near East Howard street. It is 1 3/4 miles long, and when finished will open for industrial purposes 1,000 acres of land and develop new red-granite quarry properties.

Another Aged Lady Gone.

Mrs. Loring French, whose death occurred this week, came here for her home more than a half century ago, when Quincy was but a quiet country village, and neighbors drew close together in their interests. Here have been her joys and her sorrows; here she has given and received neighborly kindness from a host of friends, many of whom remain to mourn her loss.

On April 8th, she passed peacefully away, in her happy home, surrounded by children and grandchildren.

Beside her four daughters, she is survived by a sister, Miss Washburn of Bridgewater, and a brother, Elmer Washburn of Chicago.

The funeral took place at the residence of her daughter, Mrs. Robert Josselyn 783 Hancock street, yesterday, at 2:30 o'clock. Rev. Ellery C. Butler conducted the service, which was simple. There was a profusion of beautiful floral emblems, consisting of Easter lilies, roses and pinks.

High Pressure Days.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the pressure worthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

—Mrs. Carrie Chapman Catt says she has in her pocket evidence that would send 10,000 New Hampshire men to jail. But no one ever finds a woman's pocket.

The Court to Decide.

Editors of Quincy Ledger:
Will you kindly publish the following in today's Ledger.

To the Citizens of Quincy:—I wish to inform the public through the columns of this paper that I thought that to protect my rights and interests I must oppose order No. 45, which came up for final passage in the City Council on March 30, and which was, for the Council to authorize the city to borrow a sum of money to do its own scavenger work. This order failed to pass.

As it was apparent at this meeting that I refused to be ruled or to have my rights in my contract taken away from me without any compensation, it was I should judge, decided upon and very quickly.

During the next week an order was drafted, signed by "The Board of Health," and I think also by Mayor Bryant, asking the City Council to revoke my contract. None of these gentlemen were courteous enough to notify me of said order so that I could be prepared to defend myself and my rights. Was this justice, or was it the "Rule or Ruin" policy?

My contention now is that this order was illegally passed, and after a most thorough consultation with my attorneys, Messrs. Bartlett & Anderson, I shall file a Bill in Equity in the Superior Court, against the City of Quincy, Chas. M. Bryant, Mayor, John S. Gay, Thomas J. Dion, William E. Badger, (so called Board of Health,) and Arthur W. Loud, Councilman, of said City of Quincy.

This bill is to enjoin each and every one of "The Respondents" from interfering with the carrying out of my rights under my contract. When this matter is heard in the courts I am sure it will prove very interesting to our peaceful community.

I remain,
Your humble servant,
C. L. Prescott.

League Standing.

The result of the tournament games between the Granite City, North Quincy and Braintree clubs which has been in progress since Dec. 4 last year, makes it possible for each club to have a trophy to exhibit for their skill.

The result also shows that taken as a whole the clubs are quite evenly matched, when total points won are considered. Granite City leads with 58 1-2 points. Braintree second with 55 points and North Quincy third with 48 1-2 points.

At billiards North Quincy leads with 15 points, with Granite City second with 14 points.

At pool Braintree leads with 17 points, and Granite City is second with 16 points.

At whist Granite City leads with 17 1-2 points, and Braintree is second with 16 points.

At bowling North Quincy leads with 28 points with Braintree second with 15 points.

The following table shows the complete standing of the teams.

	Billiards.	Pool.	Whist.	Ing.	Total.
Granite City	14	16	17 1/2	11	58 1/2
Braintree	7	17	16	15	55
North Quincy	15	3	2 1/2	28	48 1/2

Braintree Odd Fellows.

Puritan Lodge No. 179, L. O. O. F., for the third time this year was privileged April 7th, to witness the initiatory degree by P. G. W. F. Woods. The work was performed for the benefit of five candidates, making a total of fifteen who have joined us since the first day of January. The work was of the usual good order, Degree Master Woods, performing his work in such a manner as to create admiration from those who witnessed it.

Tuesday April 14, the first degree will be again conferred by D. M. A. A. Saunders, past grand.

April 21, the second degree will be conferred by D. M. B. H. Woods, past grand.

April 20, third degree by D. M. F. F. Tupper, P. G.

Saturday evening of this week the hall will be open as usual for members of the order. These Saturday evening social meetings have proved a benefit in many ways and all who have attended have been well paid for so doing. Call and see Degree Master B. H. Woods this evening.

A communion service will follow the regular morning service at First church on Sunday.

The annual meeting of the Wollaston Co-operative bank will be held Tuesday evening, April 21.

A great many houses are being painted this spring although the weather has not been favorable the past few weeks.

The Gleaners' Circle of King's Daughters will meet with Mrs. Record Newport avenue on Monday, April 13, at half past two P. M.

Richards and Macomber the painters and decorators employ skilled workmen and are giving satisfaction. Their shop is in the Bates block near the depot.

The Wollaston W. C. T. U. will meet next Tuesday afternoon at three o'clock at the home of the President, Mrs. George A. Brown, 263 Farrington street.

Rev. William R. Lord, formerly of Wollaston, now of Rockland, will give his beautiful stereopticon lecture on "Birds" at the Wollaston Unitarian church next week.

Frank Wild of the firm of Field & Wild, who has been confined to the house since Thanksgiving by a broken leg is able to get about and spends some time each day at the quarry.

The Sunday School Union meets at the Chelsea Universalist church next Wednesday evening. Dinner at 6.30. At 7.30 Rev. Merrill C. Ward will give an address upon "What the Sunday School Needs Most."

A lecture illustrated by the stereopticon on Hoffmann's pictures of the life of Jesus, will be given in the chapel of the Unitarian church on Sunday evening at 7 o'clock by Mr. Chas. H. Johnson. All are cordially invited.

Music will not be a feature of the early morning service at Christ church as it has been in the past, the singing being congregational instead of by the choir, but a fine musical program has been arranged for the ten-thirty service.

The Rev. William S. Jones will give a paper on "Emerson and Transcendentalism" at the meeting of the Women's Alliance in the chapel of the First church on Monday, April 13, at 3 o'clock.

In observing the Sacrament of Communion during (this) Holy Week, the Universalist Church used the new individual communion service. This beautiful set is the gift of the Quincy Dramatic Club; an organization active in the society several years ago.

The next meeting of the Fragment society will be held in the Unitarian chapel, on Wednesday afternoon, April 15, at two o'clock. The ladies who are to serve as supper committee for Wednesday, April 22, are requested to be present at this meeting.

The funeral of Dorothy Brooks, the young daughter of Dr. and Mrs. Frederick E. Jones was held yesterday afternoon from the home of her parents at No. 1569 Hancock street. Rev. William E. Gardner of Christ church conducted the services. There was a very large number of relatives and friends present. The burial was at Mt. Wollaston.

The Ward Two People's Union is a live, earnest organization and will soon hold another public meeting. The president, Mr. Pollard, certainly deserves much praise for the active work and earnest endeavor which he has unceasingly put forth. He is arranging for another instructive and entertaining lecture by an accomplished person. As soon as the plans are perfected notice will be published.

Arrangements have been made for excellent car service to and from the minstrel show of Wollaston Yacht club at Quincy Music hall next Thursday evening. Two cars will leave the turn-out on Beale street at 7.15, 7.30 and 7.45, and a car via Norfolk Downs will leave the corner of Hancock street and Billings road at 7.30. There will be plenty of cars in front of the hall at the close of the performance for Wollaston, Norfolk Downs and Atlantic.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by The Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed.

CHAPTER VIII.—Continued.

How often a word spoken or unspoken may have the very deuce in it either way!

The girls were nearly dead from fright, and in order to make any sort of progress Brandon had to carry the princess and help Jane until he thought they were out of danger. Jane soon recovered, but Mary did not seem anxious to walk and lay with her head upon Brandon's shoulder, apparently contented enough.

In a few minutes Jane said: "If you can walk now, my lady, I think you had better. We shall soon be near Fishmonger's hall, where some one is sure to be standing at this hour."

Mary said nothing in reply to Jane, but as Brandon fell a step or two behind at a narrow crossing whispered:

"Forgive me, forgive me. I will do any penance you ask. I am unworthy to speak your name. I owe you my life and more—and more a thousand times." At this she lifted her arm and placed her hand upon his cheek and neck. She then learned for the first time that he was wounded, and the tears came softly as she slipped from his arms to the ground. She walked beside him quietly for a little time, then, taking his hand in both of hers, gently lifted it to her lips and laid it upon her breast. Half an hour afterward Brandon left the girls at Bridewell House, went over to the bridge where he had left his horse at a hostelry, and rode down to Greenwich.

So Mary had made her trip to Greenwich, but it was labor worse than lost. Grouche had told her nothing she wanted to know, though much that she supposed she would like to learn. He had told her that she had many lovers, a fact which her face and form would make easy enough to discover. He informed her also that she had a lowborn lover, and in order to put a little evil in with the good fortune and give what he said an air of truth he added to Mary's state of unrest more than he thought by telling her that her lowborn lover was false. He thought to flatter her by predicting that she would soon marry a very great prince or nobleman, the indications being in favor of the former, and in place of this making her happy she wished the wretched scoundrel in the bottomless pit—he and all his prophecies; herself, too, for going to him. His guesses were pretty shrewd—that is, admitting he did not know who Mary was, which she at least supposed was the case; so Mary wept that night and moaned and moaned because she had gone to Grouche's. It had added infinitely to the pain of which her heart was already too full and made her thoroughly wretched and unhappy.

CHAPTER IX.

PUT NOT YOUR TRUST IN PRINCESSES. I THOUGHT the king's dance that night would never end, so fond were the Frenchmen of our fair ladies, and I was more than anxious to see Brandon and learn the issue of the girls' escapade, as I well knew the danger attending it. All things, however, must end, so early in the morning I hastened to our rooms, where I found Brandon lying in his clothes, everything saturated with blood from a dozen sword cuts. He was very weak, and I at once had in a barber, who took off his shirt of mail and dressed his wounds. He then dropped into a deep sleep, while I watched the night out. Upon awakening Brandon told me all that had happened, but asked me to say nothing of his illness, as he wished to keep the fact of his wounds secret in order that he might better conceal the cause of them. But, as I told you, he did not

speak of Buckingham's part in the affair.

I saw the princess that afternoon and expected, of course, she would inquire for her defender. One who had given such timely help and who was suffering so much on her account was surely worth a little solicitude, but not a word did she ask. She did not come near me, but made a point of avoidance, as I could plainly see. The next morning she, with Jane, went over to Scotland palace without so much as a breath of inquiry from either of them. This heartless conduct enraged me, but I was glad to learn afterward that Jane's silence was at Mary's command, that bundle of selfishness fearing that any solicitude, however carefully shown, upon her part might reveal her secret.

It seems that Mary had recent intelligence of the forward state of affairs in the marriage negotiations and felt that a discovery by her brother of what she had done, especially in view of the disastrous results, would send her to France despite all the coaxing she could do from then till doomsday.

It was a terrible fate hanging over her, doubly so in view of the fact that she loved another man, and looking back at it all from the vantage point of time I cannot wonder that it drove other things out of her head and made her seem selfish in her frightened desire to save herself.

About 12 o'clock of the following night I was awakened by a knock at my door, and upon opening it walked a sergeant of the sheriff of London, with four yeomen at his heels.

The sergeant asked if one Charles Brandon was present, and upon my affirmative answer demanded that he be forthcoming. I told the sergeant that Brandon was confined to his bed with illness, whereupon he asked to be shown to his room.

It was useless to resist or to evade, so I awakened Brandon and took the sergeant in. Here he read his warrant to arrest Charles Brandon, Esq., for the murder of two citizens of London, perpetrated, done and committed upon the night of such and such a day of this year of our Lord 1514. Brandon's hat had been found by the side of the dead men, and the authorities had received information from a high source that Brandon was the guilty person. That high source was evidently Buckingham.

When the sergeant found Brandon covered with wounds, there was no longer any doubt, and although hardly able to lift his hand, he was forced to dress and go with them. A horse litter was procured, and we all started to London.

While Brandon was dressing I said I would at once go and awaken the king, who, I knew, would pardon the offense when he heard my story, but Brandon asked the sergeant to leave us to ourselves for a short time, and closed the door.

"Please do nothing of the sort, Caskoden," said he. "If you tell the king, I will declare there is not one word of truth in your story. There is only one person in the world who may tell of that night's happenings, and if she does not they shall remain untold. She will make it all right at once, I know. I would not let her do the wrong to think for one instant that she will fail. You do not know her. She sometimes seems selfish, but it is thoughtlessness fostered by flattery, and her heart is right. I would trust her with my life. If you breathe a word of what I have told you, you may do more harm than you can ever remedy, and I ask you to say nothing to any one. If the princess would not liberate me—but that is not to be thought of. Never doubt that she can and will do it better than you think. She is all gold."

This, of course, silenced me, as I did not know what new danger I might create or how I might mar the matter I so much wished to mend. I did not tell Brandon that the girls had left Greenwich or of my undefined and perhaps unfounded fear that Mary might not act as he thought she would in a great emergency, but silently helped him to dress and went to London along with him and the sheriff's sergeant.

Brandon was taken to Newgate, the most loathsome prison in London at that time, it being used for felons, while Ludgate was for debtors. Here he was thrown into an underground dungeon foul with water that seeped through the old masonry from the moat and alive with every noisome thing that creeps. There was no bed, no stool, no floor, not even a wisp of straw; simply the reeking stone walls, covered with fungus, and the windowless arch overhead. One could hardly conceive a more horrible place in which to spend even a moment. I had a glimpse of it by the light of the keeper's lantern as they put him in, and it seemed to me a single night in that awful place would have killed me or driven me mad. I protested and begged and tried to bribe, but it was all of no avail. The keeper had been bribed before I arrived. Although it could do no possible good, I was glad to stand outside the prison walls in the drenching rain all the rest of that wretched night that I might be as near as possible to my friend and suffer a little with him.

As soon as the prison gates were opened next morning I again importuned the keeper to give Brandon a more comfortable cell, but his reply was that such crimes had of late become so frequent in London that no favor could be shown those who committed them, and that men like Brandon who ought to know and act better, deserved the maximum punishment.

I told him he was wrong in this case; that I knew the facts, and everything would be clearly explained that very day and Brandon released.

"That's all very well," responded the stubborn creature. "Nobody is guilty who comes here. They can every one prove innocence clearly and at once. Notwithstanding, they nearly all hang, and frequently, for variety's sake, are drawn and quartered."

I waited about Newgate until 9 o'clock and as I passed out met Buckingham and his man Johnson, a sort of lawyer-knight, going in. I went down to the palace at Greenwich and, finding that the girls were still at Scotland palace, rode over at once to see them.

Upon getting Mary and Jane to myself I told them of Brandon's arrest on the charge of murder and of his condition, lying half dead from wounds and loss of blood in that frightful dungeon. The tale moved them greatly, and they both gave way to tears. I think Mary had heard of the arrest before, as she did not seem surprised. "Do you think he will tell the cause of the killing?" she asked.

"I know he will not," I answered. "But I also know that he knows you will." And I looked straight into her face.

"Certainly we will," said Jane. "We will go to the king at once." And she was on the qui vive to start immediately.

Mary did not at once consent to Jane's proposition, but sat in a reverie, looking with tearful eyes into vacancy, apparently absorbed in thought. After a little pressing from us she said, "I suppose it will have to be done—I can see no other way—but blessed Mother Mary, help me!"

"The girls made hasty preparations, and we all started back to Greenwich, that Mary might tell the king. On the road over I stopped at Newgate to tell Brandon that the princess would soon have him out, knowing how welcome liberty would be at her hands, but I was not permitted to see him. I swallowed my disappointment, and thought it would be only a matter of a few hours' delay, the time spent in riding down to Greenwich and sending back a messenger. So, light hearted enough at the prospect, I soon joined the girls, and we cantered briskly home.

After waiting a reasonable time for Mary to see the king I sought her again to learn where and from whom I should receive the order for Brandon's release and when I should go to London to bring him.

What was my surprise and disgust when Mary told me she had not yet seen the king; that she had waited to "eat and bathe and dress" and that "a few moments more or less could make no difference."

"My God, your highness! Did I not tell you that the man who saved your

Here he read his warrant to arrest Charles Brandon, Esq.

life and honor, who is covered with wounds received in your defense and almost dead from loss of blood, spilled that you might be saved from worse than death, is now lying in a rayless dungeon, a place of frightful filth, such as you would not walk across for all the wealth of London bridge; is surrounded by loathsome, creeping things that would sicken you but to think of; is resting under a charge whose penalty is that he be hanged, drawn and quartered? And yet you stop to eat and bathe and dress! In God's name, Mary Tudor, of what stuff are you made? If he had waited but one little minute, had stopped for the drawing of a breath, had held back for but one faltering thought from the terrible odds of four swords to one, what would you now be? Think, princess; think!"

I was a little frightened at the length to which my feeling had driven me, but Mary took it all very well and said slowly and absently: "You are right. I will go at once. I despise my selfish neglect. There is no other way—I have racked my brain—there is no other way. It must be done, and I will go at once and do it."

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 12.—Comment by Rev. S. H. Doyle.

Topic.—Christ's teaching about the resurrection.—John xi, 21-27, 46-48. (An Easter meeting.)

Easter is one of the most joyous of the Christian festivals. It speaks of those who have in sadness been taken from loved ones on earth, but it speaks also of hope—yes, even of assurance of resurrection from the dead and reunion with loved ones. Blessed hope of Eastertide, first heard when the angels announced the fact that Christ was risen from the dead and never to cease to be heard till earth and sea shall give up their dead and those who died in Christ, having risen, shall reign with him forever and forever!

In consideration of the fact that Christ was divine as well as human and could see and understand life beyond the grave, what He had to say about the resurrection becomes of infinite importance. The Old Testament Scriptures, while giving us some information upon the subject of the future, is not as definite and comprehensive upon the subject as we might wish, and yet even here we are not without encouragement to our faith. This is shown in Martha's reply to Christ's statement concerning the resurrection. "I know," she says, "that He will rise again at the resurrection in the last day." Evidently therefore Martha had faith in a resurrection at the last day, and this was true of most of the Jews. The Pharisees at least had derived from the Old Testament—Genesis, Job, the Psalms, Daniel and Ezekiel—a belief in both the immortality of the soul and the resurrection of the body. And it is with joy that we hail the fact that Christ abundantly corroborated their faith upon these subjects.

It is one of the crowning glories of the New Testament that here Christ brings "life and immortality to life through the gospel."

1. Christ taught that Lazarus should rise again. To Martha in her sorrow Jesus said, "Thy brother shall rise again." Nor did He refer to a future but a present resurrection, and that His prophecy was true was soon afterward demonstrated by His miracle of raising Lazarus from the dead. This fact convinces us of the truthfulness of Christ's words concerning the general resurrection of the dead.

2. Christ taught the doctrine of a general resurrection of the dead. "I am the resurrection and the life. He that believeth on Me, though he die, yet shall he live." He came as man's life to make it possible for man to be raised again and to spend eternity in fellowship with him and the Father and all the redeemed. Christ's doctrine of the resurrection has been accepted and taught in all the Christian centuries. Paul developed it in all its phases, and little has been or can be added to what they have said upon the subject. The fact is glorious, and it is true, and, accepting it as such, we can leave the mysteries and perplexities surrounding it until revealed in God's own time and way.

BIBLE READINGS.

Job xix, 26, 27; Ps. xvii, 15; Isa. xxv, 19; Dan. xii, 1-3; Matt. xxii, 31, 32; Luke xiv, 1-14; John v, 28, 29; Rom. vi, 1-11; 1 Cor. xv, 12-58; 1 John iii, 1, 2.

A Stalwart Endeavor.

Rev. Edwin Forrest Hallenbeck, D. D., of Binghamton is making an exceptional record as president of the New York State Christian Endeavor union, and in this connection his name is being prominently brought before the Endeavor world at large. Dr. Hallenbeck was born in Alexandria, Va., in 1894. He first came into marked prominence in state Christian Endeavor work in 1900, when he was elected vice president of the New York State union. The next year he was chosen president and is now serving his second term in that office as a recognition of his devotion to the work. He made an exceptional record as a convention speaker in convention with the "tour of the state plan," giving nearly three weeks of undivided attention to meetings "from Erie to the sea."

New York State's Keynote. The New York state executive committee has selected "Soul Winning" as the keynote for the next year. An evangelistic committee has been added to the working force of the union, with F. H. Jacobs as chairman. Mr. Jacobs is secretary to William Phillips Hall, the noted evangelist.

Our Clearing House. The prayer meeting is the clearing house, the stock exchange of the Father's business. I have a helpful thought, and I give it to you; you have one, and you give it to me, and God's business is doubly profited by the transfer.—"Business," by Amos R. Wells.

D. 1903, at 3 o'clock in the afternoon, all and singular the premises conveyed by said mortgage deed and therein described as follows, to wit:

A certain piece or parcel of land with the buildings thereon, situated on the westerly side of Hancock street, in said Quincy, and shown on plan entitled, "Plan of land belonging to John Chamberlin, Esq., Quincy, Mass.," dated July, 1900, made by Perry Lawton, C. E., recorded with deed of this grantee to said Mary W. McIntosh of even date herewith, said land is bounded and described as follows: Beginning at a post where the line which divides the herein granted premises from premises of heirs of Alana C. Marden, intersects the westerly line of Hancock street, thence running in a southeasterly direction along line of land of heirs of Alana C. Marden, two hundred and twenty-nine and 53-100 (229 53) feet to a nail in fence; thence turning and running in a northerly direction along line of land formerly of Greenleaf, thirty-one and 50-100 (31 50) feet to a nail in fence at land of grantee; thence turning and running in a northeasterly direction along line of land of grantee, ninety-nine and 83-100 (99 83) feet to a nail in fence; thence turning and running in a southeasterly direction along line of land of grantee, fourteen and 43-100 (14 43) feet; thence turning and running in a southeasterly direction along line of land of grantee, ninety-nine and 83-100 (99 83) feet to a nail in fence; thence turning and running in a southeasterly direction along line of land of grantee, forty-six and 63-100 (46 63) feet to a post at the point of beginning; containing 12,518 square feet of land. Said premises will be sold subject to all unpaid taxes, outstanding tax titles, or assessments, if any. Terms of sale \$100.00 cash at sale and balance in ten days thereafter.

MANAGEMENT OF MILLS

Agent Southworth Says No Trickery Is Resorted To

WAGES CAN'T BE ADVANCED

Lowell Operatives Get as Much as Those in Other Cities Engaged on Same Class of Goods—Denial of Combination to Control Prices

Lowell, Mass., April 11.—The cotton manufacturing corporations of Lowell were on the defensive almost the entire session yesterday of the investigation of the textile situation here, which is being conducted by the state board of conciliation and arbitration at the behest of the legislature. At the opening of the proceedings counsel for the Textile council announced that the burden of proof lay with the manufacturers regarding their claim that they could not pay higher wages. The manufacturers had admitted that Fall River and New Bedford paid the operatives more than was received in Lowell, and the council declared it to be the duty of the manufacturers to prove that they could not afford an advance.

The executive committee of the council this declining to put in evidence, the board called William S. Southworth, agent of the Massachusetts mills and secretary of the Lowell Agents' association, to the stand. Mr. Southworth rehearsed the entire history of the present controversy for the benefit of the board, and after explaining methods of manufacture, etc., was subjected to a fierce cross-examination by Edward D. McVey of counsel for the operatives. McVey sought to show that there was a "cotton combine" in the north section of New England and that there was an understanding between the mills and the selling agencies respecting the control of prices. He also laid emphasis on the numerous offices held in the various corporations of Lowell and elsewhere by Arthur T. Lyman of Boston, but Southworth strongly denied that a pool or combination existed, and thought the fact of Lyman being president of several corporations did not influence matters.

Mr. Southworth denied that there was any trickery or underhanded methods employed, so far as he knew, in the management of the mills. The Lowell factories could not afford to advance wages, in view of the conditions which had been previously explained to the operatives, such as old plants and machinery, keen competition from more modern plants, etc. He asserted that the Lowell mills were paying the highest wages in their history and were paying as much as any other mill in New England engaged on the same class of goods.

The hearing was well attended throughout, although there is no general confidence in the ability of the legislature to bring about a settlement of the strike. The proceedings were enlivened at intervals by tilts between McVey and Southworth, with an occasional interposition on the part of Frank E. Dunbar, attorney for the manufacturers. It is expected the cross-examination of Agent Southworth will be resumed when the board reassembles Monday.

From comment of members of the executive committee of the Textile council there appears to be happiness among the operatives over the developments of the second day's session in the inquiry. The council itself feels that a point of value has been gained in prevailing upon the mill men to present first their side of the case. When the inquiry is reopened on Monday it is expected that the council will ask for a postponement until the next day, as arrangements have been made for a street parade and demonstration of the operatives upon the south common for that day.

The ban placed by the Textile council on the Shaw hotel was lifted last night when the four mill spinners who had broken away from the union appeared and made a statement explanatory of their refusal to obey the strike order. The spinners claim that they are promised a 10 per cent increase of wages when the trouble in the big mills is ended. These four spinners were restored to good standing in their union.

Strike Action Postponed
Boston, April 11.—The possibility of a strike of motormen and conductors on the Boston and Northern and Old Colony street railways was averted, temporarily, at least, by the action last night of the state convention of the delegate executive committee of street railway men's unions in postponing decisive action until a future meeting on account of the failure of several of the unions on the Boston and Northern division to vote upon the propositions submitted to them.

Strong Strike Sentiment
New Bedford, Mass., April 11.—Indications point to a fight by the Spinners' union against the yarn mills of this city. At a meeting of the local union last night after a long discussion it was voted to lay the matter of striking over until the general meeting on April 21, but the sentiment expressed indicated that the members were ready for a strike.

Police as Targets For Stones
Providence, April 11.—Sympathizers of the striking coal teamsters stoned the police who were patrolling near the coal yards, but no serious damage was done. The police charged the crowd and dispersed it, but made no arrests.

THREE DECKS WRECKED

In Addition to Other Damage on the Battleship Iowa

Pensacola, Fla., April 11.—The damage to the battleship Iowa, caused by the premature explosion of a shell in the forward, or 12-inch gun, has developed to be more serious than was thought when the first examination was made, and as a consequence the big ship has been ordered to the New York navy yard to go out of commission. She stamed down to the Pensacola navy yard where she is fitting out with supplies and coal preparatory to sailing as soon as possible for the north.

It is known that three decks, including the upper deck in the forward part of the ship, will have to be entirely removed and rebuilt. It is feared that the steel supports under the 12-inch port turret are sprung to such an extent that they will have to be removed, though this cannot be stated positively as yet. The gun itself is a hopeless wreck.

The services over the graves of the three men killed by the explosion of the gun on the Iowa were conducted by the fleet chaplain, assisted by the chaplain of the Iowa. As the caskets were being lowered into the grave the marine band rendered "Nearer, My God, to Thee." The services were concluded by a naval salute over the grave and "taps." Floral tributes from the citizens of Pensacola and the officers of the fleet were unusually beautiful. The entire fleet will go into mourning for one week.

Investigation Not Amiss

Toledo, April 11.—Congressman Southard of this city has started an investigation into the charge that ex-orbitant charges are being made by officials for the disinterment and shipment of the bodies of dead soldiers from Cuba, when it should be done free of cost. Homer Pugh, who enlisted in the navy last August, died at Havana on April 2. His mother here was notified on April 7. Two days later she received a cablegram stating that the body would be exhumed, embalmed and shipped to New York for \$225. The mother brought the matter to the attention of Congressman Southard, who has started an investigation.

Liquor Dealers' Threats

Albany, April 11.—Threats of reprisals, said to have been made against up-state members of the legislature because of the passage of the bill increasing the excise tax 50 percent in the state, do not seem to alarm the legislators. The New York liquor men are said to have threatened to buy hops outside the state, and to use free lunch supplies from any other state other than New York and thus take revenge on the farming districts for the votes of their representatives for the tax bill.

Death of Chaplain Milburn

Washington, April 11.—Rev. William H. Milburn, the venerable blind chaplain of the United States senate, died in Santa Barbara, Cal. Word to this effect was received here last night by Sergeant-at-Arms Ramsdell of the senate. Mr. Milburn was in broken health and when congress met in December he forwarded his resignation to Washington, but it was never acted on. The deceased was a native of Philadelphia, where he was born in 1823.

Good Friday Not Observed

Wilkesbarre, Pa., April 11.—For the first time in over a quarter of a century every colliery in the Wyoming coal field, excepting one at Plymouth, remained at work Good Friday. The operators made no particular request except to say that work would be continued as usual. The breaker boys at the Parrish colliery at Plymouth considered it a legal holiday and quit work at noon.

Rich Offer to Quaker City

Philadelphia, April 11.—P. A. B. Widener has offered to the city his entire art collection, providing an art museum is erected at the Green street entrance to Fairmount park. Mr. Widener says also that the Wilstach collection will be added to his. Mayor Weaver says he can see no reason why the project cannot be accomplished.

Bowen's Course Endorsed

Washington, April 11.—News from Venezuela is to the effect that President Castro will remain firm and sustain Mr. Bowen in the attitude he has taken respecting the settlement of the claims against Venezuela and in favor of referring the question of preferential treatment of the blockading powers to The Hague for determination.

Fisher Went Out Under Fire

London, April 11.—Arthur R. Douglas will succeed William H. Fisher as financial secretary of the treasury. Fisher announced his resignation in the house of commons April 7 as a result of his connection as director with a financial syndicate the affairs of which are now before the court.

To Look Over Maine's Defects

Newport News, Va., April 11.—The battleship Maine has arrived in Hampton Roads from San Juan. The ship's six-inch gun platform will be examined by a naval board to determine the extent of the weakness developed.

Fifteen Hundred Reported Killed

Hong Kong, April 11.—An explosion has occurred at the Canton arsenal powder factory. Fifteen hundred persons are reported to have been killed.

The Weather Forecast

Almanac, Sunday, April 12.
Sun rises—5:10; sets—6:21.
Moon rises—7:16 p. m.
High water—11:45 a. m.; midnight.
In the east the weather has been fair. Temperatures are high for the season from the Rocky mountains eastward. Rain is probable in New England.

FRUIT & FLOWERS

A NEW ROSE.

It Blooms Spring and Fall, is of Superb Color and Fragrant.

This promising new type of rose blooms early in the season and again in the fall and is considered one of the most promising roses of recent introduction. It is a good grower, making firm, well ripened wood to its tips. It has a green, glossy foliage, somewhat

NEW ROSE SUN OF GOLD.

fragrant. The buds are of a yellowish hue, and the flowers are frequently four inches in diameter. The color is superb, varying from gold to orange yellow and reddish gold and shaded nasturtium red. In fragrance it reminds one of primroses.—American Agriculturist.

The Business Way.

My favorite way of growing strawberries is in matted rows. This is the business method. I set my plants far enough apart so that I get just plants enough for the runners to make a good matted row with a good big patch left between each two rows. This avoids the necessity of cutting out many runners. In small gardens I sometimes set plants closer together, say fifteen to eighteen inches apart in the rows and the rows two feet apart. In that case the plants must be kept down to single stools. This requires very close attention as to the removal of the runners. The plants will run, usually with great persistence, and the runners must be removed just as persistently to avoid trouble. These single plants give a superior lot of berries, especially berries of large size. But for quantity the matted row is far ahead, and we get good berries too.—T. Greiner in Farm and Fireside.

How to Set Dewberries.

Dewberry plants should be set six feet apart. A good plan is to run the rows six feet apart and then cross at right angles, with rows the same distance apart. Right in the check, where the cross comes, the plant can be set, spreading out the roots well. Raspberries, blackberries and grapevines can all be set this way. Plants or vines set this way can be plowed both ways and hoeing almost entirely dispensed with in cultivating the crop. A good way to apply manure or fertilizer to plants set this way is to drill it in the open furrow on the four sides of the plant and cover with earth. About the same manure can be used on dewberries, blackberries and grapes as on the strawberries.—American Gardening.

The Carnation.

The carnation has of late years become a flower of vast importance, and it seems a question of rivalry between the carnation and the rose for supremacy. Carnations love new soil, and if a newly broken up piece of land is available it will always pay to use it for this purpose. Set out the plants in straight rows, with good strong labels to each sort to avoid confusion. The ground should be frequently hoed and kept free from weeds. Care should be taken, however, not to go too deep. Later on a mulching of old and well decomposed manure should be put between the rows. It will greatly assist in retaining the moisture. If the weather becomes very dry, one good watering will be found better than ten sprinklings.

The Seed Flat.

An excellent box in which the seeds for early flowers can be sowed is about 18 inches long, 15 inches wide and 3 1/2 inches deep. This box can be placed in the window beside the cutting box. A good soil for the seed box is made of three-fourths soddy loam and one-fourth sand. This mixture gives a soil that drains well and does not run together after it has been watered a few times.

In this box can be sowed pansy, verbenia, petunia, snapdragon, sweet alyssum, Salvia splendens or seeds of any other similar plants that will stand transplanting and are desired for early blooming. Enough plants can be grown in a box of this size to supply a good sized flower garden.

The Automobile and the Florist.

In consequence of increased rates by express companies for the carriage of flowers the growers near New York are considering the undertaking of transporting their products to market themselves. American Garden believes that the automobile florists' express from Jersey grows to the New York trade is not a remote possibility, but a near probability.

BRAINTREE.

Schools in town begin Monday after a week's vacation.

Miss Gladys Sampson has passed through a painful operation on her tonsils.

Ex-Senator B. H. Woodsum candidate for selectman is one of the many supporters of the local ball nine. "Chub" as he was called when he played on the local team, knows the game from a to z.

Mr. and Mrs. William Sweeney of Pond street are rejoicing over the advent of two beautiful boy babies at their home, on Saturday morning.

The lecture on the Passion play by Professor Ward, at the Town hall on Friday evening, was much enjoyed by the large number who attended.

Miss A. M. Penniman is visiting her niece Mrs. F. F. Tupper of Central avenue during the school vacation.

Miss Alice Dyer, daughter of Albert Dyer, and a former resident of Pond street died while undergoing an operation for goitre the first of the week.

Mr. and Mrs. William H. Cuff of Franklin street are taking a short trip for the benefit of Mrs. Cuff's health which has been of late quite impaired. The prayers and hopes of a host of friends accompany them wishing her a speedy and entire restoration to her usual good health.

Miss Mary Foss entertained the young women's whist club Tuesday evening. Mrs. Charles Whitman received a souvenir.

In the absence of the pastor of the Union church Rev. H. J. Patrick of Newtonville will deliver the Easter addresses, morning and evening. Special music at the morning service and Easter concert by the Sabbath school in the evening at 7 o'clock.

Hon. Francis A. Hobart made the motion to appropriate \$100 for the repairs and improvements to the common at the town meeting Monday evening. Mr. Hobart is a great lover of base ball, and attends nearly every game during the year.

A preliminary meeting of the Kingsbury family was held at the United States hotel, Boston, Tuesday evening. The object was to discuss plans for a reunion of the family, to be held at some future date. The first step was the appointment of a Ways and Means committee, consisting of the following: Mr. George N. Kingsbury, Mr. Frederick B. Kingsbury, Mr. Herbert N. Kingsbury, Mrs. L. E. Brown, Miss Mabel H. Kingsbury. The meeting adjourned subject to the call of the chairman, Hon. Addison Kingsbury.

About two dozen of the friends of Miss Helen G. Briody assembled at the home of Helen J. Moran, Pond street, Sunday evening to celebrate with Miss Briody the passing of another milestone on life's journey. The gathering was a complete surprise to "Viola" but was none the less an enjoyable affair and the day will long be remembered by her, as one of the happiest birthdays of her life. A beautiful turquoise ring and a gold brooch testified to the esteem and regard of her friends. Her talented little nieces, Lottie and Marguerite Packard contributed to the entertainment of the evening.

OVER A GRAVE

(Original.)

EDITH IDA WHITMARSH.
Born May 10, 1880.
Died Feb. 25, 1903.

A girl carrying some plants entered the cemetery and passing over the walks to the grave thus marked stopped before it. She was surprised to see that some one had placed fresh flowers on the rounded earth. Drooping the plants, she bent over the flowers to see if there was anything to identify the person who had placed them there. She was disappointed. There was not even so much as a bit of ribbon to bind them together. She had come on the birthday of the dead to plant some shoots and knew that he or she who had been there before her had known of the anniversary, for there were just twenty roses.

Between Edith Whitmarsh and Geraldine Sheldon had been one of those rare attachments in which two girls became absorbed in one another to the exclusion of all others. At least this was the construction Geraldine Sheldon had put upon their intimacy, supposing that she was Edith's only friend. Yet here was evidence that some one had been sufficiently intimate with her to love her and had loved her sufficiently to place flowers on her grave on the anniversary of her birth.

Leaving the plants where she had dropped them, she turned and left the cemetery. Was it dissatisfaction with her friend that she had deceived her, or was it jealousy? She did not know herself.

She did not visit the grave again for a month, when what was her surprise to see the plants she had left growing on the mound and bearing buds just ready to bloom. This was too much. This monster with whom she had been forced unknowingly to divide her friend's love had had the assurance to plant the shoots she had in a fit of jealousy left unplanted. Besides, there was a vine creeping up the headstone.

For a year Edith continued to visit the grave of her friend, noticing that some one had from time to time added little decorations. She herself had refused to divide the care of the sacred spot with another, but when the next anniversary came round she had so far softened as to take to the cemetery a pet azalia which she had been long training. There was no new trace of her rival. Breathing a sigh of relief, she imbedded the roots of the azalia and was smoothing the earth about it when she heard a step. Looking up, she saw a man of perhaps thirty advancing toward her. He paused before the gate shutting off the lot.

"You are?" she asked.
"Earle Gardner."
"My mysterious rival?"
"No. You had no rival in Edith's feminine love."
"But you loved her?"
"As my wife."
"As your wife?" The voice and the manner bespoke an overpowering wonder.

"And the mother of my child."
"The mother of your child?"
"Edith was forbidden by me to tell you of our love and marriage. My mother was for a year on the brink of the grave, and for reasons which for the present I will pass over I could not acknowledge a wife so long as she lived. You remember Edith's visit to Washington a year ago last winter and her death there. She died in childbirth."

Like a ray of light struggling through gloom a bit of forgiveness entered Geraldine's soul.
"The child?"
"She is at my home. My mother is dead, and I am now master of the estate. But Edith left her instructions with regard to her little namesake when she should become a year old. This came round last February. Till now I have made no change, but if you are ready to assume the charge—"

"She left the child to me?"
"During her babyhood."
"And then?"
"That can only be determined by circumstances. It is hard for one about to die to make a wise provision for the future. Edith only arranged for a few years."

"But why did she not leave the babe to me from the first?"
"Because at the time my marriage must still be kept a secret. Besides—"

"Well?"
The man looked embarrassed.
"Come, I am impatient. You said, I believe, that Edith left her instructions for the child when it should be a year old."

"Yes, when Edith would have been dead a year."
"What had that to do with it?"
"A husband may marry again at the end of a year."

"Marry again? If you loved Edith as I loved her—as I love her today—you would never marry another."

"She left her instructions to me to marry at the expiration of the year."
"She did?"
"Yes; conditionally on the consent of the woman of her choice."

"Her choice? You mean your choice."
"Explain."
"You are the woman she chose to care for her bereaved husband and child."

Geraldine's eyes turned and looked out on vacancy. Then they were lowered to the grave. Tears began to course down her cheeks. The man stood reverently bent.

"Well," she said, mastering her voice, "do you obey her wish?"
"I do."
"Then it only remains for me—to obey. When can I have the child?"
"As soon as you decide to take her." Then, walking side by side, they left the cemetery.

FURNITURE and CARPET CHANGES.

When spring cleaning takes place, changes are invariably necessary. Carpets if worn, should be cleaned and made over to fit less important rooms. Furniture should be changed about, a new piece added here and there, a piece upon which time and hard service have left the marks of wear should be replaced by new. New carpets and rugs should be considered at least once a year, if you desire to keep up the appearance of your home. We do much to assist you, we take your old furniture, carpets and ranges and make you a reasonable allowance for them, towards new.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." For sale by all druggists.

BOSTON MUSEUM.

Playgoers from all over New England are delighted that there is another opportunity of witnessing "A Country Girl," the delightful musical comedy from London which scored such an unquestioned triumph when it was given at the Boston Museum earlier in the present season. Its success here was universally known, and for weeks the capacity of the Boston Museum was tested in every part, and thousands of playgoers were turned away unable to buy seats for this delightful production. London and New York had already voted this one of the most attractive musical comedies ever seen, and the great triumph at Daly's Theatre was repeated here. At the height of the success, "A Country Girl" had to be withdrawn from the New England stage and taken to Philadelphia and the other cities in which engagements had been previously made. Efforts were made in vain to secure an extension of the stay here, but it was impossible and the last performance had to be given at a time when the theatre was crowded nightly. From all over New England came expressions of regret that playgoers had been unable to see this comedy, and the hope was universally expressed that a return visit might be possible. At the greatest of expense this has finally been arranged for, and on Monday, April 12—Easter Monday—"A Country Girl" will return to the Boston Museum for a limited engagement. William Norris and Maudie Ashley, two of the greatest favorites ever seen in musical comedy upon the American stage, head the cast and contribute to the delight of all by their cleverness in song and dance. Only a few more weeks remain for this historic playhouse, and then it will be torn down to make way for a business block, so that to "A Country Girl" falls the honor of being the last musical attraction to be seen upon the stage where so many noted productions of the sort have been given in the past.

COLONIAL THEATRE.

Klaw and Erlanger's great Drury Lane spectacle, "The Sleeping Beauty and the Beast," is in its last nights at the Colonial Theatre, Boston. The final performance takes place on Saturday evening, May 2, after which the entire scenery and effects will be returned to London, England. This does not do away, however, with Drury Lane spectacle in America, for next season Klaw and Erlanger will present "Mr. Blue Beard," their current success at the Knickerbocker Theatre, New York City, which they brought over from Drury Lane a few months ago. This line of entertainment is now a fixture in American amusements. It seems to be exactly what the public wants, if the great patronage extended this particular production may be accepted as a criterion. From its introduction to the New England public on February 2, up to the present time it has tested the capacity of the Colonial Theatre at every performance, and is estimated by the theatre management that fully 250,000 people will have enjoyed its beauties before the final curtain drops. An extra matinee is announced for Patriots' day, April 20.

CASTLE SQUARE THEATRE.

For the coming week at the Castle Square Theatre the attraction will be the English version of D'Ennery & Gormon's play, "A Celebrated Case," which has not had a production at this theatre since December, 1897. The value of this drama was quickly recognized by American managers and its original production in Paris, December 1877, was followed by its presentation by the Boston Museum stock company a month later. The strong, eventful story told by the authors introduces typical characters in French life, and the admirable way in which the plot is developed makes the play one of uninterrupted interest from its first scene to the final curtain. The prologue and four acts, into which the drama is divided, afford excellent opportunities for scenic and mechanical effects. The cast of characters in the four acts making the play proper is as follows: Jean Renaud, John Craig; Count DeMornay, John Sainpols; Duke D'Aubeterre, James L. Seely; Viscount Raoul De Langey, George E. Mack; Denis O'Rourke, John T. Craven; Sergeant of the Guard, Edward Wade; Joseph, George F. Carroll; Adrienne, Mary Sanders; Valentine DeMornay, Lillian Lawrence; Duchess D'Aubeterre, Cordelia Macdonald; Chanoinesse of the College of Hyeres, Leonora Bradley; Julie, Josephine Sherwood. Following "A Celebrated Case" comes a revival of the Shakespearean tragedy, "Othello."

THE SOCIAL REALM.

(Continued from page 1.)

The Ward One branch of the People's union is to hold a meeting on Thursday evening at Woodward Institute when problems of importance will be discussed.

Miss Gertrude Siders of Wollaston was the guest of Mrs. Frank Reed, of Hingham, over Sunday.

Miss Velma Russell of Cambridge has been a guest the past week of her cousin, Mrs. Madison Mott Cannon of Spear street.

Miss Georgiana Lane is in Framingham over Sunday.

The New England Woman's Press club gives a breakfast at hotel Vendome, at one o'clock on Wednesday, the fifteenth, which is for members only, and will be in the nature of a reunion for the renewing of old acquaintances and becoming acquainted with new members.

Miss Corlew gave a delightful party to her Brookline pupils in Whitney hall last Saturday from 7 to 9 o'clock. Many of her Wollaston pupils and mothers attended the reception. The hall with its fine appointments and the dainty costumed children presented a beautiful scene. Miss Corlew was exquisitely gowned in cream with black trimmings and was the recipient of many beautiful flowers from her pupils. The graceful dancing of the children reflected great credit upon Miss Corlew's excellent training.

During Mr. and Mrs. William H. Fay's absence at Jamaica, their daughter and husband, of Randolph, have been in town caring for the house. It has been a pleasure to Mrs. Spear's friends to have her among them once more, and so frequent have been the callers that she has not been lonely. Mr. and Mrs. Fay returned this week.

The annual meeting of the Granite City club will be held tonight. James H. Penniman, who has been president of the club for the past three years, will voluntarily retire from office. The candidates for the office are Dr. Fred E. Jones, John Q. A. Field and Henry F. Tilden.

Mr. and Mrs. Henry E. Hardwick, who purchased a pretty cottage at Kennerly, Hull, last year, are to occupy it this season.

Miss Myrtle Lothrop has been the guest this week of Abington friends.

The marriage of Miss Mary White of this city and Mr. Edward F. Murphy of Boston, formerly of Scituate, is to be solemnized on Wednesday, April fifteenth. They are to make their home on Frederika street, Ashmont.

Mrs. Horace C. Briggs of Wollaston was a recent guest of Mrs. C. E. Mitchell of North Scituate.

Mr. Perry Lawton of Foster street is recovering from the accident to his foot and is able to be about again.

The Hiawatha club will have a grand banquet this evening at Hotel Greenleaf.

Miss Elsie Turner is spending the spring months at the Glades, North Scituate.

Miss Alice Brown of Plymouth was the guest of her cousin, Mrs. C. E. Bates, Arlington street, Wollaston, on Wednesday.

HE DISOBEYED ORDERS

Engineer Is Responsible For
Wreck and Deaths

MAY HAVE BECOME INSANE

As He Sped His Train Along to What
Was Known to Be Certain Death—
A Nova Scotia Disaster In Which
Four Lives Were Lost

Halifax, April 13.—Four persons
dead, two fatally hurt, at least one
missing, and several others slightly in-
jured is the record of a head-on collision
on the Intercolonial railway which oc-
curred near Windsor Junction. The
wreck prostrated the poles and tele-
graph lines along the roadside and cut
this city off from communication with
the outside world for several hours.

The trains that were in collision were
a Canadian Pacific railway express
from Montreal for Halifax and a fast
freight from Halifax for Montreal.
The conductor and driver of the freight
had orders to take siding at Windsor
Junction and let the express cross, but
for some unknown reason Driver Cope-
land of the freight ran past the func-
tion on the main line and met the ex-
press two miles beyond. The freight
was running 25 miles an hour and the
express was two hours late and travel-
ing about 45 miles an hour at the time
of the collision.

Both trains were hauled by new and
powerful locomotives and they crashed
together on a level piece of road skirt-
ing a lake. The engine crew of the
express and Fireman Hill of the freight
and a brakeman named Thorp were
instantly killed. The driver of the
freight is in a hospital with a broken
spine and cannot live. A tramp who
was in the cab of the express with
Fireman Oakley is also fatally hurt.

The tramp had been caught stealing
a ride on the train and had been put off
each time by the train hands, but man-
aged to swing on again and was finally
taken into the cab out of danger.
A coroner's jury has been empanelled
to investigate the accident, for which
on explanation is given. There is no
one who can tell why Driver Copeland
disobeyed orders received in Halifax,
and ran past Windsor Junction. The
semaphore was also against him at the
junction, but he apparently determined
to take chances on reaching the next
siding and crossing the express there.
If Copeland lives, of which there is
hardly a remote chance, it is said he
will be charged with manslaughter.
If not a more serious offense. The
wreck still blocks the road. In the
meantime passengers arriving at the
scene on other trains are transferred
past the wreck by boats on the lake and
are forwarded to their destination by
trains in waiting on the other side.

The deceased engine crews were all
veterans and knew every inch of the
road. Driver Copeland had a reputa-
tion on fast running, but had never had
a charge or an accident against him.
To disobey orders as he is alleged to
have done in this instance is held by
railway officials to indicate that his
mind was temporarily unbalanced and
that the fast freight left Halifax with
the madman at the throttle. J. E.
Price, general superintendent of the
Intercolonial, accompanied by General
Passenger Agent Lyons and other of-
ficials, came from Moncton to the scene
of the collision in a special and com-
menced an investigation of the cause
of the disaster. To The Associated
Press these men stated that Driver
Copeland had received explicit orders to
stop at Windsor Junction and that no-
body knew better than he that to pass
that point meant almost certain death.
The officials are now investigating the
dying driver's movements immediately
prior to taking his train out of Halifax.
They expect to find that he was ill and
that his actions were not usual for the
man to display. It appears that there
was no object in running past the
junction, inasmuch as there was no
other crossing for a long distance which
could receive so long a train as Cope-
land had in hand.

HIAWATHA CLUB.

The First Annual Banquet Held at
Hotel Greenleaf.

The Hiawatha club, composed of
Swedish young men, held their first
annual banquet Saturday evening at The
Greenleaf. It was the first social affair
that the club has ever held, and so
successful was it that other similar
gatherings will doubtless be the rule in
the near future.

The club had the ladies as their
special guests on this occasion and a
very pretty party it made. From 8 to
9 o'clock there was an informal recep-
tion in the hotel parlors. At 9 o'clock
they adjourned to the banquet hall,
where the tables were arranged in the
form of the letter "U."

The tables were decorated with potted
plants, and at each plate was a candy
Easter egg and a fluffy little chicken.
Edward J. Sandberg, who was toast-
master of the occasion, with Mrs.
Sandberg occupied the seats of honor at
the head of the table. At his right was
President A. S. Sandberg and Miss
Hermann Carlstrom. On his left were
Vice-President E. T. May and Miss
Annie May, Secretary O. S. Sandberg
and Miss Beatrice Nash, Treasurer R.
M. Ackerson and Miss Ada Nutting.

Others seated about the tables were:
L. G. Murray, John Olsen, Frank L.
Craig, Miss Anna Jacobson, Gideon
Spencer, E. W. Currier, Somerville,
Mademoiselle I. M. Hobbs, Mademoiselle
M. Edith Dillon, Bernard La Hand,
Miss Bada Erikson, Theo H. Herman-
son, Peter A. Johnson, Sigrid Nelson,
and Solomon Norberg, Malden.

Otto Gelotte, Mrs. Otto Gelotte,
Charles Pearson, Mrs. Pearson, Harris
C. Spencer, Miss Elida M. Nelson, Mr.
and Mrs. John Japson of Boston, Mrs.
Clara Svenson of Boston, Karl Svenson
of Boston, Mrs. Marlotte Jephson, Miss
E. Gertrude Smith, Bernard Gailbrand-
son.

Toastmaster Sandberg read telegrams
from President Roosevelt and John D.
Rockefeller expressing regrets at in-
ability to be present and Vice Presi-
dent May made a few introductory re-
marks of welcome. For the next hour
the following menu occupied the atten-
tion of the party.

Bouillon in Cups.
Oyster Patties.
Roast Young Turkey with French Dressing.
Cranberry Sauce.
Potato Croquets. Hot Rolls.
Sliced Tomatoes. Lettuce.
Chicken Salad.
Marble Cake. Nut Cake. Angel Cake.
Bananas. Vanilla Ice Cream. Oranges.
After Dinner Coffee.

It was intended that there should be
some speaking after the banquet, but
the presence of ladies made the young
men bashful about showing their ora-
torical powers, and it was case of de-
clining except for President Sandberg,
Vice President May and Theodore Her-
manston.

The party then returned to the parlor
where there was vocal and instrumental
music and a social hour.
Everybody pronounced it a most
enjoyable affair and the general wish
was that there could be more. Land-
lord Abrams of the Greenleaf did all
possible for the comfort of the guests,
and received many words of praise from
the committee in charge, who were:
Messrs. A. S. Sandberg, E. T. May, O.
S. Sandberg and M. M. Ackerson.

LARCENY OF TROLLEY CAR

Charged Against Youths Who Took a
Long and Dangerous Spin

Lowell, Mass., April 13.—The trolley
thieves who took from the car barn
in Dracut about 1:30 a. m., a car and
went for a 20-mile ride into the town of
Hudson and then returned as far as Mc-
Namara's corner, near Lakeview park,
have been arrested. They are Fred K.
Eckart, aged 18, and Irving Bancroft,
aged 17, both of Dracut.

The car barn was broken into by the
two young men while they were going
to their homes on a return from a
jollification. They were well supplied
with liquor. Eckart has worked on a
snowplow and claimed to know some-
thing about the running of electrica.
They broke in a window at the barn,
picked their car and then started out.
They turned on the power for speed
and made one of the record runs,
Eckart at the brakes while his com-
panion took any number of imaginary
fines, the two hooting and shouting,
unmindful of the rocking of the car
from side to side.

After Hudson was reached the trolley
was turned and the mad run back was
begun. When they reached Mc-
Namara's corner the car jumped the
track, the rear trucks only holding to
the rails. The men succeeded in turn-
ing the car over the embankment into
the bushes, after which they hurried
home. The two are charged with
breaking and entering and larceny.

—The statue of Miss Frances E.
Willard will be placed in Statuary Hall
of the national Capitol at Washington.
The Illinois legislature recently voted
an appropriation of \$9,000 for this pur-
pose.

NEW POLICEMEN.

New Beats Established and City
Better Protected.

John P. Reddington, Patrick A. Mil-
ford and John Boutin, the three recent
appointees to the permanent police
force, went on duty for the first time
Saturday night. The addition of these
men gives the city much better protec-
tion, as some beats are shortened, and
new territory will be covered.

Officer Reddington was assigned to
the Norfolk Downs beat to take the
place of Officer Burrell, who was given
a new beat at Quincy Point, patrolling
that section between Edison street and
the junction of Washington and Canal
streets. This is one-half the beat for-
merly covered by Officer Larkin.

Officer Milford was given a new beat
taking in Adams street and vicinity.
Officer Boutin was assigned to Wollas-
ton, and Officer Bradley who has been
covering the Wollaston beat, has been
assigned to day duty in the Fore River
section.

The beat of Officer Murray the day
man in City Square has been lengthen-
ed, so that he now covers the section
between Quincy Adams and Presidents
bridge on Adams street.

The night beats in City Square are so
arranged that Officers Goodhue and Mil-
ford will meet at the depot on the ar-
rival of the late trains so as to handle
the crowds that usually arrive on these
trains, especially on Saturday nights.

Officer Golden the present driver of
the patrol wagon will probably make
application to be assigned to active
duty as his position now requires him
to be on duty day and night except the
hours taken for meals.

NEWS IN BRIEF

Herman R. Dietrich of Utica, Mo.,
has been appointed consul general at
Guayaquil, Ecuador, to succeed Thomas
H. Nast, who died of yellow fever while
serving at that post. Mr. Dietrich is
an editor.

George Cates, 16 years old, was
drowned at Newburyport, Mass., hav-
ing fallen off a raft on which he was
playing.

Silas Rice, aged 20, a section hand,
fell while attempting to board a mov-
ing freight at Bellows Falls, Vt., and
sustained injuries from which he died.

William Cagon, aged 33, fell from the
suspension bridge over the Androscog-
gin river at Brunswick, Me., and was
drowned.

John F. Sheehan, aged 45, committed
suicide at Lowell, Mass. He used a
razor and severed his jugular vein. No
particular cause is assigned for the
deed.

William Sherman, aged 12, was play-
ing in a boat at Fall River, Mass.,
in attempting to spring ashore fell in
the Taunton river and was drowned.
The boy talked of trolley road for
Sutton and Douglas, Mass., has at last
taken definite shape in the form of a
petition from the Worcester and
Blackstone Valley Street Railway
company to the selectmen of North-
bridge for a franchise to extend its
line from Whitinsville to the towns
named.

Involuntary bankruptcy proceed-
ings have been filed against the Akron
Twine and Cordage company of Akron,
O. The liabilities are placed at \$180,000.

Right Rev. George Montgomery,
coadjutor-archbishop of San Francisco,
who was recently appointed archbishop
of Manila, has refused that post.

Second Lieutenant Theodore Monell,
U. S. M. C., now attached to the battle-
ship Massachusetts, has resigned from
the service.

The J. C. Gilechrist Transportation
company, the so-called steamship com-
pany, has increased its capital stock
from \$1,000,000 to \$10,000,000.

Miss Alice Roosevelt, daughter of the
president, will visit Maine during the
coming summer.

Examinations for candidates for ap-
pointment as midshipmen to the acade-
my at Annapolis will be held in the
principal cities of the United States,
beginning April 21.

Gov. Bates in his veto of the act rais-
ing the salary of the messenger of the
Suffolk Superior court, gives good
reasons for his action. The veto will have
the approval of the public.—Gardner

Adams Academy Schedule.

The Adams Academy will play
its first game tomorrow afternoon with
the Hopkinton School nine of Boston.

The game will be played on the upper
field, at Merrymount Park, and will be-
gin at 3:30.

The Academy will have a good nine
this year. Six of last year's players are
back and the new material is making
an excellent appearance. The team
this year chose S. A. Moyle for cap-
tain, and under his direction the play-
ers have been practising during the
vacation. Former members of the
school and the teachers have assisted in
coaching. Below is the schedule:

CHALLENGE FROM C. C. HEARN.

Offer to Refund Money if Dr. How-
ard's Specific Will Not Cure
Any Case of Constipation
or Dyspepsia.

Charles C. Hearn is seeking the worst
case of dyspepsia or constipation in
Quincy or vicinity to test Dr. Howard's
new Specific for the cure of those
diseases.

So confident is he that this remark-
able medicine will effect a cure, quickly
and lasting, that he offers to refund the
money should it not be successful.

In order to secure the quickest possi-
ble introduction Mr. Hearn will sell a
regular fifty cent package of this
medicine at half price, 25c.

This specific of Dr. Howard's will
cure sick headache, dizzy feelings, con-
stipation, dyspepsia, and all forms of
malnutrition and liver trouble. It does not
simply give relief for a time; it makes
permanent and complete cures.

It will regulate the bowels, tone up
the whole intestinal tract, give you an
appetite, make food taste good and di-
gest well, and increase vigor. Joy and
happiness will take the place of that
"don't care whether I live or die" feel-
ing.

Take advantage of Mr. Hearn's
challenge and secure a bottle of Dr.
Howard's specific at half price, with
his personal guarantee to refund your
money if it does not help you.

AN IDEAL EASTER.

Quincy Churches Vied With
Each Other.

Beautiful Decorations—
Rich Music.

Sunday School Concerts, Carol
Services, Plants Presented, Etc.

All nature was in tune Sunday for an
ideal Easter. The day was fair and of
delightful temperature. The season
was well advanced and full of life and
flower. The churches were active and
made elaborate arrangements.

FIRST CHURCH.

The old First church was well filled
at the 10:30 service Easter morning.

Pots of Easter lilies, potted plants and
bouquets of lilies, added their beauty
to the pulpit. Rev. Elvay Channing
Butler gave a short sermon on the
lessons of Easter time. The music was
unusually good especially the solo by
Miss Florence R. Emery during the
offertory. The sudden death of Sat-
urday of Mrs. Harlow, wife of Mr.
James F. Harlow, organist of the
church, did not prevent the Easter
musical program from being carried
out, the substitute organist reading
the difficult Easter music at sight and
playing beautifully.

A very happy session of the Sunday
school was held from twelve to one,
Easter carols and anthems were sung,
and there were pieces and readings by
the children. A collection of about
fifteen dollars was taken up for the
Children's Mission. A pleasant sur-
prise for the school was an Easter
gift of twenty-five dollars from Mr. L.
Dowley Williams and a gift of five
dollars from Mrs. Edwin E. Davis, in
memory of her little son, who died a
few years ago.

At the four o'clock vesper service
the music was by a double quartette
and of a high order.

The chapel was filled to overflowing
in the evening for the stereopticon
lecture. Hoffman's beautiful colored
pictures of the life of Christ were
thrown on the sheet, while Mr. Chas. H.
Johnson read New Testament stories
in illustration of the picture. Another
illustrated lecture is to be given next
Sunday evening, it being Patriots' day.

UNITARIAN, WOLLASTON.

The Unitarian Sunday school of Wol-
laston observed its Easter service Sun-
day afternoon at 4 o'clock. Songs
were sung by the kindergarten depart-
ment and the Sunday School. The fol-
lowing children had recitations, Kath-
erine Freeman, Walter Parker, Mar-
guerite Hall, Kenneth Smith, Kitty
Sprague and Gladys Parker. Mr. Parlin
gave an interesting address on Easter.
The usual Easter collection was taken
up for the Children's Mission.

Epitaphs Were Topped

Topeka, April 13.—The Kansas
Utopian association is an illegal or-
ganization, says the supreme court in a
decision handed down in an appeal in
the case of a lodge keeper from Brown
county. "Stripped of its subterfuge
and pretense it is simply a whiskey
saloon," says the court. The decision
will result in the closing of 200 "lodge-
houses" with 65,000 members.

Numerous Tragedies at Buffalo

Buffalo, April 13.—A shooting affray
in which a 3-year-old boy was killed
and a woman fatally wounded, an at-
tempted murder, two suicides and two
attempts at suicide that may result
fatally occurred in this city last night.

Death of Brigham Young

Salt Lake, April 13.—Brigham Young,
president of the council of 12 apostles of
the Mormon church, died in this city
after a lingering illness. He was born
at Kirtland, O., in 1836 and was the
eldest son of President Brigham Young.

Iron

For

Color

In no other preparation has Iron ever
been so effectively and agreeably com-
bined as in PEPT-IRON—a specific
remedy for all forms and degrees of
anemia, curing not only the paleness
but also the nervousness and dyspepsia
from which anemic patients so com-
monly suffer.

Pept-iron is a blood nutrient, nerve
and stomach tonic, beneficial to all
pale, nervous, dyspeptic people.

Mr. Chas. Dinwiddie, East Lexington,
Mass., writes that his daughter was pale
and had spells of not wanting to move
about and of not caring
whether she
not. Then she began taking Pept-iron and
it gave her color, animation and a good
appetite.

It leaves no ink or metallic flavor in
the mouth, is agreeable to the taste,
does not injure the teeth nor cause
constipation.

Pept-iron is made in two forms: In a liquid—
an aromatic cordial elixir—at \$1 per bottle,
also in chocolate-coated pills at 50c. or \$1 per
box. By C. L. HOOD CO., proprietors Hood's

CHRIST CHURCH.

Christ church was filled to overflowing
at all four services Sunday. The
decorators were chiefly of Easter lilies
and were arranged under the direction
of the Woman's Guild. The attendance
was the largest in the history of the
Sunday school. Two hundred plants
were distributed among the pupils.
This number was not sufficient to

supply all, and the twenty or more who
did not receive plants will be remembered
next Sunday. The music was of
very high order and beautifully rendered
by the choir under the direction of
E. Landis Snyder.

AT QUINCY POINT.

The Easter services at the Point
Church were very largely attended.

Rev. L. H. Austin preached in the
morning, and the evening was devoted
to the children who recited poems and
sang. The Easter music was furnished
by a choir of twenty voices at both
services. The pulpit and platform
were beautifully decorated by Easter
lilies and other flowers and a large
rubber plant.

SWEDISH LUTHERAN

Many Easter lilies were used in the
decorations of the Swedish Lutheran
church and special music was rendered
at all services. In the evening there
was a largely attended Sunday school
service.

WEST QUINCY M. E.

Rev. W. A. Mayo, the new pastor of
the West Quincy Methodist church
assumed his pastorate Sunday. He
took for his text, "He is not here, He
is risen." There was a large congrega-
tion and the church choir rendered a
special musical program.

ST. MARY'S, WEST QUINCY.

Large congregations were present at
all the services at St. Mary's church
Easter Sunday. The Easter floral de-
corations, together with the many elec-
tric lights, made a very beautiful ef-
fect. The music was of the highest or-
der. The regular choir of fifty voices
was assisted by an orchestra of six
pieces. Haydn's S-mass in C
was sung at the 10 o'clock mass. The
soloists were Misses Alice Foley, Har-
riet Haley and Cassie McDonald, so-
pianos; Mrs. James Fennessey, alto;
Robert Teasdale, tenor; James Ogle
and Daniel Keardon, bass.

PARK AND DOWNS.

The stereopticon lecture given by Mr.
Negathlin at the Park and Downs
church Sunday evening drew a full
house. Between forty and fifty beau-
tiful illustrations of Christ were thrown
upon the screen. Mrs. Hill contributed
some vocal selections appropriate to the
subject.

WOLLASTON M. E.

Rev. W. J. Heath the new pastor of
Wollaston M. E. church, preached ac-
ceptably on Sunday morning from the
text: "For though He was crucified
through weakness, yet He liveth by the
power of God. For we also are weak
in Him, but we live in Him by the
power of God toward you." He had a
large congregation.

UNITARIAN, WOLLASTON.

The Unitarian Sunday school of Wol-
laston observed its Easter service Sun-
day afternoon at 4 o'clock. Songs
were sung by the kindergarten depart-
ment and the Sunday School. The fol-
lowing children had recitations, Kath-
erine Freeman, Walter Parker, Mar-
guerite Hall, Kenneth Smith, Kitty
Sprague and Gladys Parker. Mr. Parlin
gave an interesting address on Easter.
The usual Easter collection was taken
up for the Children's Mission.

Dr. Jones President.

The annual meeting of the Granite
City club was held Saturday evening.
Previous to the election reports were
read by the various officers. These
showed that all bills against the club
had been paid, and a good balance on
hand aside from a substantial sum in
the hands of the trustees. These
officers were elected:

President, Dr. Fred E. Jones.
Vice President, George H. Field.
Clerk, Warren H. Rideout.
Treasurer, W. W. Ewell.

Trustees, George H. Field, George
W. Prescott and J. W. Nightingale.

Rumors Regarding Pop's Health

Rome, April 13.—Easter Sunday here
was marked by magnificent weather.
A private mass was held at the Vatican
with a few select guests. The pontiff
was present, but for the first time in
his pontificate he did not officiate per-
sonally. This circumstance has given
rise to all kinds of rumors respecting
Pope Leo's health.

Just What Was Wanted

Denver, April 13.—About three inches
of snow has fallen along the eastern
slope of the Rocky mountains in
Wyoming and Colorado. It will be a
boon to stockmen and farmers. The
storm was unaccompanied by wind and
there is no danger to exposed stock.

Two Drowned in Cloudburst

Henryville, Ind., April 13.—A cloud-
burst flooded this part of Clark county
and did great damage. County Com-
missioner Raymond and wife were
drowned while crossing Big Lick
creek. The waters rose so rapidly that
the buggy was swept away.

Defalcation Caused Big Drain

Atlanta, April 13.—The Capital City
National bank, whose collection clerk,
G. H. Sims, confessed to a defalcation
of \$94,000 a week ago, has been
amalgamated with the Atlanta National
bank. The bank was capitalized at
\$250,000.

CITY BREVITIES.

Over a hundred black duck and many flocks of herring gulls were seen out in Quincy bay yesterday.

The Association of Railway Employees will hold a grand ball in Quincy Music hall the last of the month.

Invitations are out for a birthday dance to be given April 24, in Brasse's hall, by Miss Gertrude Syward and Miss Gertrude Jones.

The boys of the C. E. Athletic Association, Wollaston, have purchased base ball supplies, and intend to have a good nine this season.

South Shore Commandery, Knights Templar, attended services on Easter day at the Third Universalist church at North Weymouth. There was a special service, with address by Rev. Melvin S. Nash, the pastor, and music by the church choir.

Tennis will boom at Wollaston this year. Mr. Frank Waterhouse is putting in a dirt court; Mr. Charles Jones is building a court; the court at the "Playground" will again be in condition, also the two courts on Safford street. Then there are a few other courts about the village.

Tomorrow evening the Wollaston Baptist church will hold its annual business meeting with the roll call of its members. It is earnestly hoped that the attendance will be large. Not only the members but the entire adult congregation is cordially invited to be present. Supper will be served promptly at seven o'clock, to be followed by the roll call, and election of officers for the coming year.

The series of whist parties given by Mrs. B. Porterfield at her home on Granite street, during the winter, have been very enjoyable. The last one for the present season was on Friday afternoon. There were fifteen tables and souvenirs were given to Mrs. R. M. Mavers, sofa pillow; Mrs. R. R. Smith, tray cloth; Mrs. Langhorn, puff; Mrs. A. Russell, cups and saucers; Mrs. A. Phillips, chair seat; Mrs. W. Prout, six spoons; Mrs. Robinson, pitcher; Mrs. White, bureau scarf; Mrs. McLellan, Easter eggs; Mrs. Henley, china plate; Mrs. W. Pratt, salad dish; Mrs. A. Rogers, china plate; Mrs. A. Emslie, china plate; Mrs. Mavers had the fine score of 54. The winners in this series were Mrs. C. G. Fletcher and Mrs. A. Emslie, each receiving five towels.

Large Sums for New Buildings in Massachusetts Cities.

The present year promises to be a remarkable one in the construction of buildings for the Young Men's Christian Associations of Massachusetts and Rhode Island.

At Fall River a new Association Building will be dedicated April 19. The cost was \$100,000 in addition to the land.

At Chelsea a canvass has been successfully completed for \$50,000 for a building.

At Gloucester a lot valued at \$16,000 and a bequest of \$15,000 in addition has been received and a canvass is being made to secure \$15,000 more.

At Lynn \$22,000 has been secured toward the \$75,000 to be raised for their new building. This money added to the value of the present building will produce an amount sufficient to erect one of the best association buildings in New England.

Plans have been drawn for a new building at Reading.

A special secretary of the State Executive Committee is now conducting a canvass in Quincy for the erection of a building, the ground for which has recently been purchased.

A secretary is at work at Haverhill under the auspices of the State Committee to free the Haverhill building from debt.

Secretary R. M. Armstrong of the State Y. M. C. A. has received deeds to a farm comprising over 200 acres in the town of Becket, near Springfield. The gift includes a large, well appointed farm house and other buildings. The property will be used by the associations of Western Massachusetts for outing purposes, and they expect to take possession on July 1. The names of the parties who made the gift have not been announced, as they are anxious to keep their identity secret.

LEAGUE FIGURES.

Individual Records by Granite City Players.

It would be interesting, if possible, to give the individual standing of the players in each club of the league in the different events. The record of the game of January 1, between Braintree and North Quincy has been lost, however, and it is therefore impossible to give the individual standing of these two clubs. The records of the Granite City club are complete and the individual standing of its players in billiards, pool and bowling will be of interest, and they are published below. At whist there was no regular team, and it was seldom that the same team played two games. As the whist teams are so mixed up, they are omitted. The other individual scores follow:

Quincy Historical Society.

The greater interest in this historic city draws more people here each season, and it is a pity that our historical society has not room sufficient to show the large quantity of various things it has collected and which at present are stored away in a safe room in Adams block.

The librarian seems the only member who is alive to the needs of the organization.

The president, Mr. Adams, is now in Europe; the secretary is in New York, and the treasurer says he has no debts, no funds on hand, and we do not know where the members are.

Much good work has been done in a purely literary way for Quincy. Many short papers of value are filed away, coming to light occasionally.

Mrs. John Litchfield has done good work along these lines. Rev. D. M. Wilson, the late Edward H. Dawson, Charles Francis Adams, the late Dr. Pattee and others, including Mrs. Wilson Marsh.

We could have quite a valuable nucleus of a library about Quincy and by Quincy people.

It seems as if every society of worth should hold at least regular quarterly meetings and we hope this spring to see healthy shoots from our good historical society.

TODAY'S COURT.

George E. Porter, Frank A. Baxter, Edward Small, James Ellison were fined \$5 each for drunkenness at Quincy.

Michael Forest was fined \$10 for drunkenness at Randolph.

Harold Hunt and Joseph McRae were fined \$5 each for disturbing the peace at Quincy.

George Reese was arraigned for drunkenness at Quincy; case continued until April 15.

Robert Johnston was fined \$10 for drunkenness at Quincy.

Andrew Tracey was sent to the State farm for drunkenness at Weymouth.

William E. Roberts was arraigned for drunkenness at Weymouth. Case continued until April 27.

Keith's Theatre.

The principal feature of the Keith show for the week commencing April 13 will be Horace Goldin, the famous magician and illusionist, who has just returned from Europe for a brief tour of the Keith circuit, and returns to London immediately upon the completion thereof. Mr. Goldin is an uncommonly clever worker and a great favorite with the crowned heads of Europe. The entire bill is an unusually good one, comedy being in evidence in a majority of the acts. Among the noted entertainers are Ed. Faver and Edith Sinclair, who will make revival of their old sketch, "The Magicians," with all the original songs, etc.; Hacker and Lester, comedy and trick bicycle riders; Murphy and Slater, "real coon" singers and dancers and comedians. The new motion picture machine is scoring a big hit, and is a great improvement on its predecessors.

BRAINTREE.

Special Election Today for Selectman to Fill Vacancy.

A special town meeting was held in Braintree today to elect one selectman to fill the vacancy caused by the death of Ansel O. Clark. There were two candidates, Edgar W. Gerry nominated by the Socialists, and B. Herbert Woodsum, the Citizens' candidate.

The vote was light, except by the Socialists, who made an effort to elect Mr. Gerry. Mr. Woodsum had a close call, being elected by 237, to 212 for his rival. The total vote was 451.

Sections 1 to 14 of the Park act were accepted 193 to 112.

Mr. Motley won the club cup and a leg for the Brookdale cup at the Saturday shoot of the New England kennel club.

At the annual meeting of the Pond Cemetery Association the following officers were elected: president, Mrs. W. A. Kane; vice presidents, Mrs. F. A. Morris, Mrs. H. S. Thayer, Mrs. S. P. Morrison; treasurer, Mrs. A. Z. French; executive committee, Mrs. D. A. Brooks, Mrs. E. A. Wild, Mrs. G. H. Hamblett.

Mr. Legg has returned from conference to continue his work with the local church. Mrs. Legg has been detained in Cortland, N. Y., and is not expected to return until next week.

Mrs. H. W. Mansfield underwent a successful operation upon her arm Thursday at the Saint Elizabeth hospital. Doctors H. L. Dearing, Conant and Cummings were in attendance.

The handsome residence of Representative Horace R. Drinkwater is shining resplendent in a new coat of paint. Mr. Hobart's, near by has also just received a coat of yellow.

Dr. H. A. Jones will in future have associated with him, Dr. Walter Davis of Worcester. Dr. Davis comes well recommended. It will be remembered, that he married Miss Mattie Mayhew of this place.

There will be a tennis tournament on the Cochato court, Monday, April twentieth. Singles, for men, to commence at nine o'clock. A suitable prize is offered.

This Monday evening the Cochato team bowl the Commercial, at Brockton. The ladies are especially invited to attend.

On Tuesday April 14 the Philergian have their annual children's party at Pythian hall. It is expected that each member will bring two children.

The total amount raised for Sunday school purposes at All Souls' church for twelve months ending April 1, was \$452.66.

Mrs. S. W. Chamberlin of Middle street, who has been in Fiskeade nine weeks caring for a sick sister returned to her home Thursday.

Next Wednesday evening, the Ladies' Aid society connected with the First church, will serve one of their famous suppers, from 6 to 7.30. Following the supper will be an entertainment of music, violin, piano and vocal solos and readings. Who will not want to miss this when you learn that Miss Mabel Simmons of Kingston is to be the reader. She is well known and a favorite with Braintree audiences.

Acceptance of Broadway.

Editor Daily Ledger:

Referring to Saturday's Ledger it seems to me to be a little previous to set forth arguments for or against the acceptance of Broadway by the city. The matter should first be entitled to the consideration of the Council, uninfluenced by the opinion of parties not directly interested. Apparently you expect them to report favorably upon the same, hence your uneasiness.

In all seriousness, why shouldn't Broadway become a full-fledged street with all improvements thereon? Its property valuation is now \$30,000; why shouldn't some of this tax be spent to benefit the property it is assessed upon. This street can be built much cheaper than some now building where there is not one dollar worth of improved property.

I am not a resident upon the street, but in justice to the residents of Broadway and others whose sons have to supply their needs, they should have a good street paid for by the city out of Ward Two assessments, and it should not be long delayed. That the Ward Two Councilmen do their full duty is my earnest wish.

THE LOWELL CONFLICT

Enters Upon Third Week With Conditions Unchanged

WORKERS SEEM CONFIDENT

That Demands Will Be Granted, While Agents Declare to the Contrary—Doubt as to Whether Investigation Will Accomplish Anything

Lowell, Mass., April 13.—The beginning of the third week of the great textile strike in Lowell finds both sides holding firmly to the stand taken in March. The operatives assert with much confidence that in the end they will win the 10 percent increase asked for, while the agents still repeat that present conditions make impossible an increase of wages. As regards the opening of the mills it is believed that the agents will make no move in this direction until the state board of arbitration submits its report of the investigation.

While many people outside the textile mills believe the investigation now on will result in some benefit, it is hard to find a skilled workman or woman who has much faith in the result. Their wish was for an investigation by a legislative committee, and they want testimony, they say, given under oath.

Today's program includes as its big feature a parade in which 12,000 operatives, representing all the textile unions in Lowell, will appear. Letters received from President Gompers of the American Federation of Labor and President Mitchell of the United Mine Workers are to the effect that these men will be unable to come to Lowell to assist in the demonstration.

President Mitchell says that his engagements will not permit him to come to the Spindle city for at least three months.

The organizations expected in the parade are the cotton spinners, loomfixers, carders, spoolers, ring spinners, beamers, slaskers, nappers, cloth room employees, stationary firemen, dyehouse employees, Portuguese, Polish and Greek operatives.

Sunday was observed as Easter is usually observed. A meeting was held in Associate hall in the afternoon, addressed by Rev. Fr. McGrady of Bellevue, Ky., but, with few exceptions, the operatives gave themselves over to a religious observance of the day and to the enjoyment of long walks during the hours between church time.

Money has been distributed among the striking mule spinners as the first contribution of the National Mule Spinners' association to the local union, in conformity to the vote to give financial aid to the craft here. About 270 spinners were benefited. The amounts received by the members varied according to the need. Men with large families received more than the men who have only themselves to support.

Superintendent Whitcomb of the school department has extended an invitation to all children employed in the mills to return to school, pending a settlement of the strike.

The Shaw hosier difficulty, it is understood, has been settled. If the large cotton corporations grant the increase the superintendent of the Shaw hosier, it is understood, will do likewise.

Attack on Non-Union Men

Buffalo, April 13.—When the propeller William S. Mack arrived in port at 1 o'clock this morning, with five non-union firemen on board, a gang of striking union men boarded the vessel, clambering over the railing as soon as she touched at the dock. The five non-union men were captured and taken to the headquarters of the union. The police were at once notified by the steamship officials and a squad of men surrounded and raided the union hall. They rescued four of the kidnapped firemen, one of whom had been terribly beaten. The fifth man is missing and the police fear that he has met with foul play.

Dutch Strike Collapses

Amsterdam, April 13.—An aged Socialist leader who emerged from his retirement in order to run the strike agitation was present at a stormy meeting of the labor organization which set all night. A proposal to terminate the agitation, since the cause of labor had been betrayed. The meeting acquiesced in this view. A similar decision was reached at a meeting of strikers at Rotterdam.

Alleged Traitor Assaulted

Cleveland, April 13.—Peter Jensen, an alleged traitor to the Lake Seamen's union, was badly beaten on the docks by men who got away before police responded to the riot call. Jensen is charged by his co-workers with firing men as deckhands, but who in reality work as firemen, there being a strike among the latter.

Strikers Creating Trouble

St. Petersburg, April 13.—Strikes have broken out at the Morpise shoe works and the Russo-American rubber works here and bloody encounters have taken place. The czar's advisers are endeavoring to dissuade him from taking his intended journey to Italy, for fear of anarchists.

Ran Amuck Aboard Ship

Newark, N. J., April 13.—John T. Larsen, a sailor on the schooner Mary A. Hall, became violently insane and tried to murder the crew. He slashed one man so he may die. In running to escape from the captain and mate of the Hall, Larsen fell overboard and was drowned.

NOT GUILTY.

Charles L. Prescott, Recently City Scavenger, Discharged

The continued case of Charles L. Prescott for failing to supply necessary sustenance to his horses, was heard in the district court this morning and at the conclusion of the evidence Mr. Prescott was found not guilty and was discharged. Agents Burrell and Langdon of the Massachusetts Society testified to the condition of three horses found at the stable on the occasion of their visit March 30. The animals were little more than skin and bones and appeared very hungry. There were three or four quarts of grain in the stable and practically no hay. When some of this hay was fed to one of the horses he appeared very ravenous.

Mr. Prescott produced bills showing the amount of grain purchased by him for his horses

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English From Sir Edwin Caskoden's Memoir

By **EDWIN CASKODEN [CHARLES MAJOR]**

Copyright, 1898 and 1901, by the Boston-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist in the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Boleyn, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed.

CHAPTER IX—Continued.

"And I will go with you," said I. "Do not blame me," she said, "for doubting me since I have failed once. But you need not doubt me now. I shall be done, and without delay, regardless of the cost to me. I have thought and thought to find some other way to liberate him, but there is none. I will go this instant."

"And I will go with you, Lady Mary," said I doggedly.

She smiled at my persistence and took me by the hand, saying, "Come!"

We at once went off to find the king, but the smile had faded from Mary's face, and she looked as if she were going to execution. Every shade of color had fled, and her lips were the hue of ashes.

We found the king in the midst of his council, with the French ambassador, discussing the all absorbing topic of the marriage treaty, and Henry, fearing an outbreak, refused to see the princess. As usual, opposition but spurred her determination, so she sat down in the anteroom and said she would not stir until she had seen the king.

After we had waited a few minutes one of the king's pages came up and said he had been looking all over the palace for me and that the king desired my presence immediately. I went in with the page to the king, leaving Mary alone and very melancholy in the antechamber.

Upon entering the king's presence he asked: "Where have you been, Sir Edwin? I have almost killed a good half dozen pages hunting you. I want you to prepare immediately to go to Paris with an embassy to his majesty King Louis. You will be the interpreter. The ambassador you need not know. Make ready at once. The embassy will leave London from the Tabard Inn one hour hence."

Could a command to duty have come at a more inopportune time? I was distracted, and upon leaving the king went at once to seek the Lady Mary where I had left her in the anteroom. She had gone, so I went to her apartments, but could not find her. I went to the queen's salon, but she was not there, and I traversed that old rambling palace from one end to the other without finding her or Lady Jane.

The king had told me the embassy would be a secret one and that I was to speak of it to nobody, least of all to the Lady Mary. No one was to know that I was leaving England, and I was to communicate with no one at home while in France.

The king's command was not to be disobeyed. To do so would be as much as my life was worth; but, besides that, the command of the king I served was my highest duty, and no Caskoden ever failed in that. I may not be as tall as some men, but my fidelity and honor—by you will say I boast.

I was to make ready my bundle and ride six miles to London in one hour, and almost half that time was spent already. I was sure to be late, so I could not waste another minute.

I went to my room and got together a few things necessary for my journey, but did not take much in the way of clothing, preferring to buy that new in Paris, where I could find the latest styles in pattern and fabric.

I tried to assure myself that Mary would see the king at once and tell him all and not allow my dear friend Brandon to lie in that terrible place another night, yet a persistent fear gnawed at my heart, and a sort of intuition that seemed to have the very breath of certainty in its foreboding made me doubt her.

As I could find neither Mary nor Jane, I did the next best thing—I

wrote a letter to each of them, urging immediate action and left them to be delivered by my man Thomas, who was one of those trusty souls that never fail. I did not tell the girls I was about to start for France, but intimated that I was compelled to leave London for a time and said, "I leave the fate of this man, to whom we all owe so much, in your hands, knowing full well how tender you will be of him."

I was away from home nearly a month, and as I dared not write, and even Jane did not know where I was, I did not receive nor expect any letters. The king had ordered secrecy, and if I have mingled with all my faults a single virtue it is that of faithfulness to my trust. So I had no news from England and sent none home.

During all that time the same old fear lived in my heart that Mary might fail to liberate Brandon. She knew of the negotiations concerning the French marriage, as we all did, although only by an indefinite sort of hearsay, and I was sure the half founded rumors that had reached her ears had long since become certainties and that her heart was full of trouble and fear of her violent brother. She would certainly be at her coaxing and wheedling again and on her best behavior, and I feared she might refrain from telling Henry of her trip to Grouche's, knowing how severe he was in such matters and how furious he was sure to become at the discovery. I was certain it was this fear which had prevented Mary from going directly to the king on our return to Greenwich from Scotland palace, and I knew that her eating, bathing and dressing were but an excuse for a breathing spell before the dreaded interview.

This fear remained with me all the time I was away, but when I reasoned with myself I would smother it as well as I could with argumentative attempts at self assurance. I would say over and over to myself that Mary could not fail and that even if she did there was Jane—dear, sweet, thoughtful, unselfish Jane!—who would not allow her to do so. But, as far as they go, our intuitions—our "feelings," as we call them—are worth all the logic in the world, and you may say what you will, but my presentiments—I speak for no one else—are well to be minded. There is another sense hidden about us that will develop as the race grows older. I speak to posterity.

In proof of this statement I now tell you that when I returned to London I found Brandon still in the terrible dungeon, and, worse still, he had been tried for murder and had been condemned to be hanged, drawn and quartered on the second Friday following. Hanged! Drawn! Quartered! It is time we were doing away with such barbarity.

We will now go back a month for the purpose of looking up the doings of a friend of ours, his grace the Duke of Buckingham.

On the morning after the fatal battle of Billingsgate the barber who had treated Brandon's wounds had been called to London to dress a bruised knee for his grace the duke. In the course of the operation an immense deal of information oozed out of the barber, one item of which was that he had the night before dressed nine wounds, great and small, for Master Brandon, the king's friend. This established the identity of the man who had rescued the girls, a fact of which Buckingham had had his suspicions all along. So Brandon's arrest followed, as I have already related to you.

THE ODD PENNIES.

For the sake of saving odd pennies do not buy an inferior emulsion of cod-liver oil when you really need Scott's Emulsion.

Scott's Emulsion costs more to buy because it costs more to make.

The difference in price is pennies. The difference in results is pounds—pounds of flesh—and days of new strength and comfort.

The consumptive and others who have lost flesh get more cod-liver oil into their systems by means of Scott's Emulsion than in any other way.

AMERICA'S CUP IS SAFE

In Opinion of Yachtsmen Who Have Seen Reliance

SHOWS DECIDED DEPARTURE

On Part of Herreshoff From His Other Cup Defenders—Strongest Point of Sailing Will Be With Started Sheets in Smooth Sea

Bristol, R. I., April 13.—The harbor has been alive with small craft and hundreds of people have lined the shore and crowded about the wharf where the Reliance is moored. Many well known yachtsmen saw her for the first time yesterday and the consensus of opinion seemed to be that the Herreshoffs built better than they knew and that the new boat will surprise even her closest friends.

No one was on deck, but a seaman stationed on the deck warned sight-seers against a too near approach to the aspirant for cup defending honors. Everything is in readiness for the stepping of the mainmast.

Among the yachtsmen here was Charles F. Herreshoff, 2nd., of New York. He had a good view of the Reliance during the launching and a better view later and expressed himself as very favorably impressed with her. He was particularly pleased with the power of the craft throughout. He referred to the fact that she cleared the water at a lesser angle than the Constitution, and said that the sheer was just as well developed as is the latter boat's, though not so noticeable because of the overhangings being greater.

With an American eagle perched on her nose and American wind streaming from her bows, the Reliance was successfully launched. That her skimming dish type will prove faster than the deep-bodied Shamrock III, and that she will successfully defend the America's cup against Sir Thomas Lipton's third challenger, is the confident belief of not only two score of members of the New York Yacht club who saw her, but of all the yachting experts who critically viewed her lines before she entered the water.

Five hundred people stood beneath the glistening underbody of the yacht when, at 5:31 o'clock Saturday evening, Miss Nora Iselin, daughter of C. O. Iselin, the managing owner of the boat, cracked, with the blow of a silver hammer, the traditional bottle of champagne, saying at the same time: "I christen thee Reliance, and may God bless thee."

Laurel wreaths and bunches of pink tied with red and black ribbons, the racing colors of Mr. Iselin, festooned the bow, and as the yacht slowly drew out of the slip at the American Yacht Ensign was hoisted at the stern, Iselin's private signal hoisted amidships, while at the bow were the colors of the New York Yacht club.

Three thousand people in steam yachts, rowboats, on the two piers and back on the street behind the shops greeted the initial plunge of the Reliance with cheers, while a lusty bugler on a torpedo boat played the Star Spangled Banner.

Among the yachts anchored off the works was the Constitution, the unsuccessful candidate for cup honors two years ago, and this year destined to be one of the keenest rivals against the Reliance. The Constitution was gallily decked in flags, nevertheless, and as the Reliance lay for a few minutes alongside her older sister, some comparison of the lines of the two boats could be made. It was then seen that the bow of the Reliance turned out of the water sharper, that her stern was lower and flatter and that she had a trifle less freeboard. The new boat, however, was soon hauled back into the dock, where she will be rigged.

It is expected that she will have her trial spin in about 10 days, after which she will have a thorough trying out, meeting both the Constitution and the Columbia in a series of 35 races in Long Island sound, off Sandy Hook and at Newport. Should she prove superior to her two rivals, she will meet Shamrock III in the first of the cup races on Aug. 21.

The Reliance is a decided departure on the part of Herreshoff from his other cup defenders, and is an excellent example of the American type of flat-floored, fin-keeled boats. She is not such an extreme skimming dish as was the Independence, but she nevertheless resembles the Crowninshield boat more than she does any of her predecessors built here. Her lines are very easy, with few hard places, and a graceful sweeping curve from the bilges into the garboards. Her stern is very flat, so that she will leave but little wake, while her bow, although not quite so broad and flat as that of the Independence, is still very much different from the bow of either the Constitution or the Columbia. She has a long keel, but owing to her good beam, does not carry so much lead in the hull as was the case with other cup defenders. Her bow, toward the end, is quite sharp, while her taffrail measures scarcely eight feet. Her greatest beam is well up in the shoulders and is carried aft for many feet. Her topsides tumble home a few inches and her straight lines constitute a plate and a half in the bilges. At the water line, forward, she is curved like the inside of a saucer. It is believed that her strongest point of sailing will be with started sheets in a comparatively

smooth sea. She is also likely to go very fast down the wind, her long keel holding her well on her course. Her weakest point, therefore, will be on the wind with flattened sheets, a point on which the Shamrock III is said to be very fast. The broad floor of the Reliance will probably cause her to pound considerably, especially in a lump of a sea. The boat, however, with her easy lines, and her tremendous sail spread of over 15,000 square feet, will be easily driven.

Challenger Lost on Weather Fluke

Weymouth, Eng., April 13.—There is an agreement of opinion that the defeat of the challenger by Shamrock I on time allowance on Saturday was entirely due to a weather fluke and gives no reason for reducing the handicap. The same conditions, therefore, will probably govern the next race, unless the weather is light, when the time allowance to the ex-challenger will probably be increased.

Highwaymen Held Up Street Car

Chicago, April 13.—Three masked men held up a street car near Garfield park in this city and robbed seven passengers, the conductor and motor-man of about \$100, a gold watch and some jewelry. One highwayman kept guard on the front platform, one on the rear, while the third entered the car and at the point of a revolver forced the occupants to give up their valuables. The only woman on the car fell on her knees praying for mercy, but without avail. The highwaymen escaped.

Lucky Strike of Coal

Wilkesbarre, Pa., April 13.—An immense tract of coal has just been discovered in Hanover township, south of this city, in land owned by the Delaware, Lackawanna and Western, and the Lehigh and Wilkesbarre Coal company. It is estimated that there are 300,000,000 tons of coal in the tract. The discovery is by far the most valuable ever made in the anthracite region since its general development.

Big Job on the Iowa

Washington, April 13.—The cost of repairing and overhauling the Iowa, including the damage caused by the recent explosion, is estimated by the navy department at \$500,000. It is not thought these repairs can possibly be completed under six months, during which time the vessel will be out of commission at the New York yard.

Lightning and Flood

Pittsburg, April 13.—With terrifying swiftness a thunderstorm which came out of the west last evening crashed over Pittsburg, pouring miniature rivers through streets, flooding cellars and inflicting damage that will reach thousands of dollars. One man was killed by lightning and many buildings were struck.

Hunting Down Assumptionists

Paris, April 13.—The police have searched a number of houses in which reside members of the Assumptionist order. A number of papers and documents were seized with the object of investigating whether this religious order has really been dissolved in conformity with a judgment of the courts four years ago.

O'Brien Backs Redmond

London, April 13.—William O'Brien, the Nationalist member of parliament for Cork, has written a letter endorsing John Redmond's attitude towards the Irish land bill and deprecating "mere nagging and petulant denunciation" when the bill comes up before the national convention in Dublin.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." Emerson.

It lacks only a few weeks to one century

since Ralph Waldo Emerson—poet,

preacher, and seer—was born. He came

at a time when the old New England

thought needed him, and at the end of

one hundred years his followers will

celebrate the liberal thought that the

whole world is now embracing.

The Rev. William S. Jones of Randolph

read a brilliant paper on "Emerson

and Transcendentalism" at the

Alliance session Monday afternoon,

which was followed by informal discussion

with the young disciple of liberal

faith, and with Miss Ellen Emerson,

daughter of Ralph Waldo Emerson, who

came from Concord to be present. Miss

Emerson listened in rapt attention to

the able paper and her beautiful

presence crowned a meeting of thoughtful

women who are studying and aiming

to exemplify its doctrines of Christianity

in this latter era.

Mrs. H. M. Faxon presided at the

piano and the hot chocolate and cakes

were acceptable at the social end of

the meeting.

Mourning by Many.

The funeral of Miss Mollie Kinna was

held from the home of her sister Mrs.

Richard Prout of Whitwell street on

Sunday afternoon, and the house proved

inadequate for the friends, neighbors

and relations who gathered, to pay the

last tribute to one, who was loved by all,

and who was so suddenly taken from

this earth. The services were conducted

by Rev. W. E. Gardner of Christ church.

The floral display was profuse and

beautiful, including:

Pillow, with the word, "Sister," from Frank

and James Kinna.

Standing wreath, with the word Mollie, Mr.

and Mrs. Richard Prout and family.

Pillow, with the word "Molly," Charles Gut-

tersen.

Spray of white pinks, C. Willoughby and

Miss Hough.

Spray of white pinks, Thomas F. Doyle.

Flat bunch of white roses, Mr. and Mrs. H. P.

Furnall.

Large bunch of pinks, Mrs. McManara, Miss

Chipman, Miss Fitzgerald.

Wreath of roses, Mrs. S. Tarbox.

Roses, Mr. and Mrs. E. Bourk.

Roses, Mrs. H. A. Shaw and Mr. and Mrs. E.

G. Woodard.

Pinks, Misses Audrey and Helen Rhines.

Bouquet, Mrs. E. L. Rhines and Miss Hunt.

Callas, Miss Richmond.

Also several other bouquets and cut flowers.

The burial was at Mt. Wollaston.

BRILLIANT BALL

Given by Quincy Council,

Beautifully Gowned

Women

Entrancing Music, Pretty Decorations,

Good Supper.

The fourth annual promenade concert

and ball under the auspices of Quincy

Council, No. 96, Knights of Columbus

at Quincy Music hall, Monday evening,

met all expectations and was a grand

success, a brilliant affair. All the ap-

pointments were of a high standard

and complete.

The music by Cuff's orchestra was

lively and exceedingly popular. The

concert program from 8 to 9 was as

follows:

March, "Our Directors," Holmes

Concert Waltz, "Symphia," Holzmann

Overture, "Lustspiel," Keler Bella

Characteristic March, "The Happy Hayseed,"

Hildreth

S. J. E. Vassallo.

The orchestra was stationed on the

platform and almost hidden behind a

row of palms and potted flowers.

Festooned above was a row of Japanese

lanterns lighted by electricity.

The ball opened at 9 o'clock with a

grand march led by Grand Knight Wil-

liam T. Shea, the floor director, with

Miss Shea, supported by Dr. and

Mrs. Joseph M. Sheahan, and the floor

directors with ladies, and followed by

nearly one hundred couples.

Simultaneous with the start of the

grand march, all the lights of the hall

were turned on, and it was a brilliant

scene, most of the ladies appearing in

light colored and rich evening gowns.

A partial list of the ladies present

and their gowns follows:

Mrs. T. H. McDonnell, black and white silk

trappings with black lace and burnt orange chiff

in trimmings.

Mrs. J. M. Sheahan, white chiffon over white

silk.

Mrs. Katherine Shea, white muslin.

Mrs. E. J. Murphy, China silk with white lace

trimmings.

Mrs. C. C. Hearn, black net over black silk,

the street. That it would block the gutter and that teams were constantly standing in front of City Hall.

Councilman Smith moved to recommend. Lost.

Councilman Polk did not think near the fountain a proper location. He questioned if there was a great demand for public scales. It would block street if near fountain.

Councilman Whiton thought there was a great demand for the scales. At the location proposed they would not block the street.

Councilman Hardwick opposed. It would be dangerous, would block the street and would be unsightly.

Councilman Polk did not see why the Finance Committee should take it into their head to change the report of the Committee on Public Grounds.

The amendment was defeated and the order took its second reading.

SEWER CONNECTIONS.

The joint committee on Finance and Sewers reported an order for \$60,000 for sewer connections with the sewer. Read once.

ALMSHOUSE IMPROVEMENTS.

The Committee on Finance reported ought to pass on order for \$301.10 to repair interior of Almshouse. Rules suspended and order passed.

SEWER CONSTRUCTION.

The Committee on Finance reported an amendment to the order for \$30,000 for sewer construction, making the amount \$50,000.

Councilman Nickerson said the reason for the change was that the work could not be properly done with the \$30,000.

It was proposed to build the main to Quincy Point and build laterals as they proceed. This could not be done with \$30,000.

Councilman Hardwick did not see how another committee could amend a report like this.

President Alden stated that the Finance Committee had a right to recommend any change.

Councilman Bass—If money is appropriated it should not be for general purposes but should specify where it is to be expended. He felt \$30,000 was all that should be appropriated at this time.

Councilman Whiton thought it wise to have the Sewerage Commissioners state where money was to be expended. It was useless to build main sewer unless we have laterals.

Councilman Bass quoted from the Sewer act, and contended that the plans should be submitted to the City Council.

Councilman Adams was called to the chair and President Alden took the floor and asked of the chairman of the Committee on Sewer and Drains what their idea was in regard to the \$30,000.

Councilman Adams said the request

was for \$50,000 of this \$10,000 was to be expended in West Quincy. The people there, however, said they did not need the sewer, now and that was cut out. All of the balance could not be used now and we thought to save interest to make the amount \$30,000 and later when it was needed give the Sewer Commission more.

Councilman Nickerson stated that it was good financing to borrow \$50,000. The City Treasurer has to pay five per cent on loans in anticipation of taxes. The loan of \$50,000 can be floated for three and one-half per cent, and as it will not all be used at once we can use from that instead of borrowing at five per cent. This would be a saving in interest to the city.

Chairman Schenkelberger of the Sewerage Commission, in reply to questions, said if only \$30,000 is appropriated only a beginning can be made, and if let out by contract it may not be enough. Our estimate was that it would take \$35,000 for the main sewer to Quincy Point, \$25,000 for laterals and \$10,000 for other laterals. We propose to build the main sewer to Quincy Point. If we have \$70,000 we can build laterals as we proceed and have money to build other laterals. Last year the board did not expend \$12,000 on the two dumping places, but \$4,000 including \$600 for land. There was no other dumping place under construction and none have been contemplated.

Councilman Langelier said his idea was to borrow a little at a time to save interest.

Councilman Whiton wanted to know if it was a bluff to come here and ask for \$60,000 for some other place or whether it was intended to expend it at Quincy Point.

Chairman Schenkelberger—I have already stated it was our intention to build the main to Quincy Point this year. We can not make any contract until the money is appropriated.

Councilman Alden moved the amount be amended to read \$70,000. Voted.

Councilman Nickerson moved a suspension of the rules.

Councilman Bass and Piper opposed. It was time to stop this wholesale suspension of the rules.

Rules suspended and order passed.

SIDEWALK.

The Committee on Ordinances reported on the order for \$2500 for sidewalk on Whitwell street. Order passed, Councilman Hardwick alone voting no.

Upon motion of Councilman Gassett rule one was suspended, and it was voted when the Council adjourn it be until April 27.

CHUBBUCK STREET POND.

Councilman Johnson moved and it was voted that the Committee on Sewers and Drains report on the Chubbuck street order at the next meeting.

FIRE DEPARTMENT.

The Committee on Ordinances reported on the order amending the Fire Department Ordinance.

Councilman Langelier moved to amend the substitute so as to increase the number of call men on the Atlantic combination.

Councilman Gassett moved to lay on the table. Lost.

Mayor Bryant said there was no use amending the order as the appropriation in the budget was in accordance with this order. If amended there would be no money to pay the men

with. We would have an efficient department under this order and he hoped it would pass.

Councilman Hughes opposed amendment. The Atlantic apparatus answers fewer alarms than any other.

The amendment of Councilman Langelier was lost.

Councilman Gassett moved that Chief Engineer appear before the Council.

A recess was taken while the City Messenger went on a hunt for the Chief. He reported he could not find him.

Councilman Gassett then moved matter be referred to the next meeting.

Councilman Hadlock opposed. He considered the Atlantic apparatus had men enough.

Councilman Piper saw no objection to the motion. If we are called upon to pass a matter that has already passed upon we are being buncoed that is all.

Councilman Smith, chairman of the Committee on Fire Department said that Chief Williams appeared before the Committee and approved the Amendment.

Councilman Whiton—The city is only going to pay for what it gets. We have a good chief but he has extraordinary ideas.

The motion of Councilman Gassett was lost by a vote of 6 in favor and 12 against.

Mayor Bryant denied that there was any bunco game.

The amendment of Councilman Langelier was lost.

FEDERAL AVENUE.

Councilman Diack moved that the Committee on Streets report on the Federal avenue order at the next meeting.

Councilman Nichols thought it would be impossible for the Committee to report on the order at the next meeting.

Adjourned at 10:30, to meet April 27.

Four Buildings Burned

Wilmington, Mass., April 14.—The rapid response and effective work of the Woburn firemen, who were summoned here to battle with a brisk blaze in a group of buildings in the business section, prevented a heavy loss. Four buildings were burned and a number damaged, causing a total loss of \$20,000.

The fire started presumably from a spark from the boiler in the plant of S. H. McIntosh, who conducted a blacksmith shop, paint shop, planing mill and wood working establishment.

Senator Will Be Asked to Explain

St. Louis, April 14.—Information reached Circuit Attorney Folke, last night that Senator J. P. Collins had displayed seven \$1000 bills publicly here soon after the adjournment of the legislature. Attorney Folke at once ordered subpoenas issued for the informant and for others who saw the bills displayed. Senator Collins will be summoned to account for the bills to the grand jury here.

Moroccan Fortress Falls

Madrid, April 14.—An official dispatch from Melill confirms the capture of the fortress of Frajama by the insurgents. The latter exploded a mine beneath a portion of the wall of the fortress and then delivered the assault through the breach made by the explosion. The garrison fled into Spanish territory. Fifty men of the garrison perished in the explosion.

BRIBE OF \$200,000

Said to Have Been Asked Monks For Permission to Remain in France

Paris, April 14.—The correspondent of Le Figaro at Grenoble telegraphs that an article is published in this morning's Petit Dauphinois in which the editor, M. Besson, repeats his recent charges that he was approached with an offer to secure authorization for the monks of the Grande Chartreuse monastery to remain in France on payment of \$200,000.

Besson declares that the person on whose behalf the offer was made by the intermediary approaching him was Edgar Combes, son of the premier, and that the intermediary was a prominent politician named Vervort. Vervort explained that \$200,000 of the \$290,000 would go to Besson as his commission on the transaction. Besson challenges the Combes, father and son, to take the case before the courts.

A Confession of Failure

London, April 11.—John Morley, speaking at Montrose last night, referred to the introduction of the Irish land bill as a new, great chapter in the Irish revolution, and a confession by the government that their virtual policy of a resolute government in Ireland, pursued for 17 years, was an abject failure that they were to pay millions of pounds to get on a completely new track. It was an acknowledgment that the Irish policy of the last century had been upon entirely wrong lines.

Crooked Porto Rican Officials

San Juan, P. R., April 14.—Governor Hunt has ordered the insular police to take possession of Mayaguez and supplant the municipal police tomorrow for the greater security of the interests of good government. Extensive frauds in the expenditure of the Mayaguez \$200,000 loan have been discovered. Superintendent of Public Works Baez is under arrest, charged with frauds amounting to between \$10,000 and \$20,000, and it is believed that six other officers will be arrested.

An Unreasonable Mother

New York, April 14.—In a fire which burned out the top floor of a four-story tenement building in the east side, Edward Lavery, 4 years old, was burned to death. His mother had left him alone in the house and it is supposed he played with matches. Mrs. Emma Johnson, who occupied the floor below, tried to save the child, but was prevented by the flames. The mother bitterly upbraided her for her failure.

Violent Acts at Providence

Providence, April 14.—The coal teamsters' strike, which has been in progress almost two weeks, continues with fewer coal teams running. A number of teamsters were stoned yesterday and two or three hauled off by their teams. The dealers and a committee of the Central Trades union were in session four hours in the afternoon, but nothing definite resulted.

Indications of Trolley Strike

Bridgeport, Conn., April 14.—The arrival of 100 or more men in the city to enter the employ of the Connecticut Railway and Lighting company as trolley men has given rise to apprehensions that the company is anticipating a strike. The matter will be discussed at a meeting of the Bridgeport Business Men's association this evening.

New Steamer's Cargo Afire

St. Johns, April 14.—Steamer Crown Point, Captain Wall, from Philadelphia for London, has arrived here with her cargo on fire. It was decided to discharge the cargo into lighters and on deck while the ship lies in the stream. The steamer has 7000 tons of general cargo and 400 cattle. The Crown Point is a new ship.

Measles in White House

Washington, April 14.—Owing to the fact that Archie Roosevelt has the measles the usual gathering of cabinet children and other small friends at the White House for the Easter egg rolling was omitted. Alice Roosevelt has left here for Asheville, N. C., for a week's visit to Mr. and Mrs. G. W. Vanderbilt.

Fast Mail Train Derailed

POSTOFFICE METHODS

To Be Thoroughly Probed by
Expert Inspectors

SYSTEM MAY BE FAULTY

In Which Event Proper Remedies
Will Be Applied Without Fear or
Favor—Law Branch of the Department
Included in the Inquiry

Washington, April 14.—Postmaster General Payne last evening gave out a statement in which he announced that the investigation of the affairs of the postoffice department will be continued and that any parties found guilty of wrong-doing will be dealt with summarily. The statement says:

"During the months of January and February information and reports reached me which I deemed it for the public interest to investigate, and I personally gathered such information and facts as would enable the proper officers of the department to undertake a thorough investigation as to the truth or falsity of these reports."

"I directed Fourth Assistant Postmaster General Bristow to take the proper steps to institute the necessary inquiry, using for that purpose such methods as would thoroughly ascertain the truth or falsity of the charges or insinuations made, and he was instructed to proceed promptly and with vigor during my absence. Since my return I have not seen General Bristow, so that I am not advised of the progress made. The investigation will continue and if any wrong-doing is disclosed the parties guilty of such wrong-doing will be summarily dealt with. If the system or method of doing business in the department is faulty, the proper remedies will be applied without fear or favor. I inaugurated the investigation with the determination that it should be exhaustive. It is proper for me to add that I laid before the president the information which I had in my possession and that he fully approved of the action proposed by me."

The whole administration of the postoffice department is made subject to the investigation and every charge will be probed thoroughly and the inquiry made as thoroughly as the department's most expert inspectors can make it.

At the same time Mr. Payne's purpose is to give fair and just treatment to all concerned and not to act arbitrarily and with undue haste. For this reason, it can be stated that no immediate changes of importance in the personnel of the service are now contemplated, and changes will depend largely on the report to be made by Mr. Bristow on the investigation, although developments meantime may necessitate some deviation from this policy.

The office of the assistant attorney general for the postoffice department is among the bureaus included in the general inquiry and until the investigation of affairs generally is completed it is possible that no successor to Assistant Attorney General Tyner will be named.

Mr. Payne did not reach the department until late yesterday afternoon. A score of newspaper men were awaiting him with queries concerning the postoffice investigation, but he parried all questions with remarks on his trip to the West Indies. Mr. Payne summoned a number of the officers of the department and held short consultations with them respecting postal affairs. About an hour later he gave out his statement. Subsequently he held quite an extended interview with Mr. Bristow.

It is learned that it may be several weeks before the postoffice inspectors will be able to complete their work. When they have finished Mr. Bristow will prepare a comprehensive report of the whole subject. The report necessarily will embrace matters as to which publicity may not be warranted, so it is probable some parts of the report will be withheld from publication.

Carpenters Decide to Quit Work
Salem, Mass., April 14.—Delegates from all the journeymen carpenters' local unions in the north shore district, at a meeting which began last evening and lasted many hours, voted to call a general strike this morning. More than 800 carpenters employed in this city, Marblehead, Beverly, Danvers, Beverly Farms, Peabody and Manchester are affected.

Freight Bumped Into Trolley
Pittsburg, April 14.—A trolley car was struck by a freight train at a grade crossing in Rankin borough and the 16 passengers aboard the car were all more or less injured. Two women were seriously hurt. The car was dragged 30 yards and completely wrecked. That no more serious results followed the collision is considered a miracle.

Pair of Alleged Poisoners
Philadelphia, April 14.—Mrs. Catharine Danz and George Hossey, a negro herb "doctor," are held responsible by a coroner's jury for the death of the woman's husband. William G. Danz died two years ago and his widow is accused of having administered arsenic said to have been furnished by Hossey.

Odessa, April 14.—General and copious rains have fallen in southern Russia and have removed the fears for the safety of the crops which had been aroused by the long continued drought.

GREAT SOCIETY EVENT

Miss Neilson Becomes the Wife of
Reginald Vanderbilt at Newport
Newport, R. I., April 14.—The wedding of Miss Cathleen Neilson and Reginald Vanderbilt occurred here today. The marriage ceremony was performed at Arleigh by Rev. Fr. Meenan of St. Mary's Catholic church. Afterwards the wedding breakfast was served and the presents displayed. The array of gifts is considered to be the most brilliant and costly seen here for many years. Among the pieces are these: Tiara of diamonds, from Mrs. Cornelius Vanderbilt, Sr.; chain of diamonds and rubies, from Miss Gladys Vanderbilt; tiara of emeralds and diamonds and brooch of the same precious stones, from the bride's mother; stomacher of diamonds, from A. G. Vanderbilt and wife; diamond and emerald pin, from H. P. Whitney and wife; rope of pearls with pearl tassels, from A. T. Kemp; string of turquoises and diamonds, from Frederick Gebhardt; gold jewel box, from C. H. Mackay and wife; five gold compartments, from Commodore Gerry and wife.

Mr. Vanderbilt's gift to his bride is a close fitting necklace of pearls. Mrs. Neilson also has given her daughter a complete table and ten sets of massive silver, which formerly belonged to her parents. There are many gold dishes, vases, as well as silver and crystal services among the gifts. The total value of the display is placed at several hundred thousand dollars.

Child Abducted by Father

Boston, April 14.—The police of the Roxbury district have had their attention called to the abduction of Mary K. Bennie, aged 6, by her father, Dr. J. R. Bennie of Philadelphia, while she was on the street returning to the home of her grandmother, Mrs. Katharine Goeller. The child was placed in the care of the grandmother by Dr. Bennie on the death of his wife, soon after Mary was born. Just why he should have taken the child away is not known. The police could give Mrs. Goeller no assistance as they did not see wherein the father could be prevented from taking his own child.

Death Due to Accident

Gloucester, Mass., April 14.—After investigating the death of a carpenter given employment yesterday by Moses Merrill the police last night secured identification of the body as that of Edward Coburn of Lowell. Coburn was found dead, lying on his face, with an axe at his feet. There was a bad bruise on his head and a cut on the forehead. The opinion is now held that he was seized with apoplexy, probably while using the axe, and in falling he struck himself on the head and cut his forehead by the fall.

Stop Your Cough and Avoid
Future Trouble.

We Will Guarantee That We
Can Do It For You.

Our Vinol is the Remedy for all
Pulmonary Affections.

Vinol is a preparation that is delicious to take.

It consists of a delicate table wine in which has been dissolved the active curative principles that are found in the liver of the live cod, and to which cod-liver oil owes its reputation as a remedy for coughs, colds and all wasting diseases.

If there is any one who has a cough, a tendency to take cold easily, or a dread of consumption, we would like to have them call and permit us to explain what we know about Vinol and why we believe it will cure all such troubles more surely and quickly than any other remedy ever given to the public.

Following is a letter which has just come to hand and which shows how beneficially Vinol acted in one instance:

"I had a severe cough of long standing. I was advised by friends to give your Vinol a trial, which I did. Before taking it I had tried many other remedies for coughs without obtaining any relief. With Vinol it was different. I have now used four bottles of it, and am pleased to say my cough has almost entirely left me. I have been decidedly benefited by its use in every way. Very truly yours,"—H. E. SMALL, Boston, Mass.

Vinol acts beneficially upon the digestive organs, enabling them to obtain for themselves the elements from which are made firm healthy flesh tissue, sound muscle, strong bone structure and pure blood.

We recommend Vinol unreservedly. If you will call on us at our store, we will tell you why we have such faith in this new wine of cod-liver oil.

We guarantee that if you suffer from any symptoms that indicate troubles for which we know Vinol is intended, we will refund to you your money if you don't find Vinol helps you.

Flourishing Season Promised

Amesbury, Mass., April 14.—When the union carriage workers voted to return to work on March 31 there were about 250 carriage makers working out of town. The men have been gradually coming back, to now to accept positions in the local factories. The manufacturers prefer their old employees to the new men. Despite the interruption to the industry caused by the three months' strike indications point to a most profitable year.

To Reopen Coal Hearing

Boston, April 14.—The special coal investigation committee of the legislature voted to reopen the matter to the extent of having Miss Charlotte Fairfield, a Salem coal dealer, before it, together with other dealers whose names are not given out, on the basis of a report that a wholesale dealer is alleged to have refused to sell her coal because of her departure from a price list established by other Salem dealers.

Allen After Roberts' Seat

Lynn, Mass., April 14.—Members of the Lynn Republican club met last night and adopted resolutions favoring the election of a Lynn man to represent the Seventh district in congress. It is openly admitted that this action is the beginning of a boom for F. D. Allen to succeed E. W. Roberts of Chelsea, the present representative in congress from this district.

Looking Into Suspicious Fire

Pepperell, Mass., April 14.—A deputy fire marshal came here and prosecuted a secret investigation into the fire which destroyed Griffin's shoe factory and several dwelling houses here. Fifteen witnesses were examined, but as the greatest secrecy was maintained it was impossible to learn anything regarding what was developed.

Smuggling Investigation

ORDERS FROM WASHINGTON

Not to Present Information to Grand Jury at San Juan Will Be Ignored—Judge Tells Jurymen That They Must Adhere to Their Obligations

San Juan, P. R., April 15.—The grand jury is investigating the so-called smuggling cases, in which officers of the United States navy and other prominent men are involved, notwithstanding the instructions which, it is stated, District Attorney Pettigill has received from the department of justice at Washington not to present information to the grand jury this term. The press and the natives have practically demanded an investigation, inasmuch as last term a native merchant named Ricardo Amado was sentenced to a year's confinement in the penitentiary and a fine of \$500 for having contraband liquor in his possession.

The grand jury came into court last evening and asked for information. The foreman said: "It has come to our knowledge that certain cases of smuggling have occurred. We have asked the district attorney about the matter, and he refused to bring up the matter, alleging that he had received certain instructions. We now ask the judge if we have a right to information in spite of the district attorney's refusal."

Judge Holt had prepared a written charge, the reading of which caused a sensation. He said in part: "When you empaneled at the beginning of the term you swore that you would make a diligent inquiry into and a true presentation of such matters given to you or which might otherwise come to your knowledge touching violations of the statutes of the United States. You could not, if you desired, escape from the obligations of your oath by heeding the instructions of any one. The President of the United States could pardon, but he could not interfere. If you believe that any one has given instructions tending to prevent the fullest investigation into the commission of a crime in the United States and the returning of an indictment if the evidence so warrants, then you should be inspired by an additional determination to do your duty. The court has knowledge of the instructions to which the district attorney alludes. It is proper to say that it is my opinion that there has been no intention of encroaching upon your sworn duty or the judicial domain."

The testimony submitted last December regarding the smuggling cases pointed to a dozen prominent officials of the navy, army and insular government and citizens being implicated in the charges.

Ten Percent or Nothing
Lowell, Mass., April 15.—There is no excitement in labor circles. Operatives and their leaders gather in the different halls, but beyond discussing the situation there is little out of the ordinary to demand the attention of newspaper men. Ten percent or nothing is still the demand of operatives, and mill owners are equally firm against the increase.

Turkey Must "Make Good" to Russia
Vienna, April 15.—It is authoritatively announced here that Russia will demand from the porte an indemnity of \$250,000 for the family of M. Stoberlina, the Russian consul who was assassinated at Mitrovitz; that a chapel be built on the scene of the murder and that the Turkish government send into old Serbia 200,000 troops to maintain order.

Threat to Destroy a Town
Montgomery, Ind., April 15.—Unknown persons have warned local citizens that unless they place a glass jar containing \$2500 at a designated place the town will be destroyed by fire and dynamite. The letter has caused excitement among the people, as incendiaries have made three attempts to set the town on fire within the last three weeks.

Coal Laden Boat Sank
New York, April 15.—The steam canal boat Oregon, coal laden, while at anchor at City island during a northeast storm and in a high sea, sprang a leak and sank. The crew were saved.

Nothing Like Experience.

THE CLASS OF 1903.

Graduation Parts and Honors at
Quincy High School.

Monday was a red letter day in the lives of many of the Seniors of the High school, when Head Master Charles F. Harper announced the honors for the coming graduation. This year the valedictorian is Miss Mary Chase of Wollaston, Miss Margery Melcher of Quincy has the honor of being salutatorian. The other three fall respectively to Miss Hannah Litchfield, and Miss Nettie Gram, both of Wollaston, and Miss Mabel Dorman of Atlantic.

Besides these were five who obtained 90 per cent or over, and therefore worthy of honorary mention. In order of percentage they are, Miss Alice Evans of Atlantic, Miss Bessie Halliwell of Quincy, Miss Louise Bates, Miss Ethel Thomas, and Miss Lizzie Linnell, all of Wollaston.

It is as singular fact that none of the young men have either honors, or honorary mention. Mr. James Forest received the highest per cent, among the young men, standing eighteenth in the class.

The class as a whole has done excellent work and is to be commended for its faithfulness. From the first, or valedictory honor, to the lowest in the list of honorary mention, there is a difference of only three per cent, a fact worth mentioning.

SUITS AGAINST POLICE

Commissioners, Superior Officers and
Patrolmen Are Defendants

Boston, April 15.—Suits for damages for \$2000 each have been filed against the police commissioners of Boston and others by former Police Judge Dewey, acting for D. M. Smolensky and B. B. Elfin. The suits are an outcome of the arrest of the complainants at the North End, some months ago, on charge of having obstructed the sidewalks in the North End. The cases have been before the courts in various phases a number of times.

The suits for damages are based on the declaration that the defendants in bringing about the arrests, and in their endeavor to secure conviction were guilty of conspiracy. The complainant also alleges that, in pursuance of this conspiracy, the defendants on several days unlawfully and maliciously assaulted, arrested and imprisoned the plaintiffs.

The defendants are Chairman Clark, C. P. Curtis, Jr., and H. P. Adams of the police board; Joseph Warren, their legal adviser, Superintendent Pierce, Captain Kimball, Sergeant Vessenden, and Patrolmen Watson, Cooke and Donovan. Each defendant in this action has filed an answer in which he claims that he is not liable.

End of Coal Teamsters' Strike

Providence, April 15.—The coal teamsters' strike has been settled through the acceptance by the Teamsters' union of the proposition submitted by the coal dealers, which suggested that the question of the wages of the helpers be settled by arbitration. The time and wages will be the same as for last year, with the exception of the wages of the helpers, which will be settled later. All of the strikers will have their places back.

Will Be Census Director

Boston, April 15.—S. N. D. North of this city has decided to accept the directorship of the United States census bureau, the position recently offered him by President Roosevelt. The matter was left to the executive committee of the National Association of Wool Manufacturers, to which organization Mr. North felt that he owed prior allegiance, and they have released him from his obligations as secretary.

Massacre by Bulgarians

London, April 15.—The Times correspondent at Constantinople says the latest Bulgarian achievement is the total destruction of a small village of exclusively Mussulman population and the massacre of 165 persons in cold blood, except for a few who escaped by flight. The women were subjected to indescribable mutilation.

The Vanderbilts at Boston

Boston, April 15.—Mr. and Mrs. R. C. Vanderbilt began their honeymoon in this city and are occupying apartments at Hotel Somerset, where they arrived from Newport. It is not known how long the couple will remain in this city. Meanwhile their special train is sidetracked, awaiting Vanderbilt's orders.

Morris Testimonial Brought \$6000

New York, April 15.—At the testimonial performance for Miss Clara Morris, given by the friends and admirers of the afflicted actress, more than \$6000 was obtained for her assistance. Amelia Bingham had charge of the testimonial.

Boston to Albany by Tape Measure

Boston, April 15.—Two men with a tape measure have just completed a measurement of the Boston and Albany railroad from the South terminal station in Boston to the terminal in Albany. The work was done in 90 days. The total distance is 200.37 miles, against 202.10 miles by the old figures.

NEW STEAMERS.

The Keels for Fall River
Line Boats.

Soon to be Laid at
Shipyard.

Nine Derricks Will Be Set Up
for the Work.

Preparations have been made for placing the keel-blocks in position at the Fore River shipyard at Quincy, for the construction of the passenger boat of the Fall River Line. The foundations on which was built the United States cruiser Des Moines have been cleared of the refuse which has collected, and here will be built the passenger boat, about 100 feet away, and between this site and the stocks where the steel schooner William L. Douglas is being built, will be set the foundations for the freight boat of the Fall River Line.

These foundations will differ from the permanent ones of stone and cement on which the Des Moines was built. All the four permanent slips in the yard will be occupied, so slip number 8, as it is officially known in the yard, will have timber foundations. Long timbers a foot square will be laid at regular intervals from the water's edge up the beach, and bedded firmly in the ground; across these and in the direction the keel is to be laid will be placed other timbers, and then on these the keel blocks will be set.

In preparation for these steamers there is now going on work which resembles that done in the shipyards when "ships" were built, and that is the manufacture of masts.

These masts, however, are not to raise canvas to the wind; they are masts for derricks which will raise the materials for the two steamers.

Nine of these derricks will be set up. Each one will be capable of raising a five-ton weight, and they will be set up by three beside, and between the slips numbers 8 and 9, whereon the two steamers will be built.

The yard is being supplied from Tonawanda, N. Y., with seasoned pine lumber for these steamers. Already 450,000 feet have been received; this will be used in the interior finish. Besides this pine lumber, 20,000 feet of spruce will be required; 22,000 feet of sycamore; 7,000 feet of white ash and a quantity of Oregon pine for columns and sills.

Quinby Dismissed From Police Force

Brockton, Mass., April 15.—Police Officer Judson W. Green was removed from the force by the board of officers last night for a dangerous use of his club, after a hearing on charges preferred by P. H. Donnelly, who was arrested by Green Saturday night. In police court Donnelly was charged with drunkenness and assault on an officer, but he was acquitted. Green had been connected with the force 14 years.

Minister's Second Bride

Newport, R. I., April 15.—Charles H. Porter, Jr., of Quincy, Mass., formerly pastor of the Channing Memorial church in this city, and whose resignation from the pastorate some time since was followed by a suit for divorce by his wife, in which she was successful, was married here to Mrs. L. E. Briggs, a widow. The ceremony was performed at the residence of the bride.

Student and Friend Missing

New Haven, April 15.—Lester O. Barton, a student at Yale university, accompanied by a friend, rented a catboat Monday morning and was last seen between this port and Milford. It is known that Barton intended to return to the city in the afternoon. It is believed that he is either drifting helplessly about the sound or has been washed up on the Long Island shore.

Conferences to Continue

Fitchburg, Mass., April 15.—The members of the state board of arbitration who came here to enquire into the conditions of the strike of weavers at the mills of the Parkhill Manufacturing company had conferences with a committee of the company, but state that there is no statement ready for the public. The conferences will be continued.

Notice of Milk Inspector

[Extract from Chapter 57, Sections 3 and 4 Public Statutes.]

SECT. 3.—"In all cities every person who conveys milk in carriages or otherwise for the purpose of selling the same in such city shall annually on the first day of May, or within thirty days thereafter be licensed by the inspector of milk of such city to sell milk within the limits thereof, and shall pay to such inspector fifty cents each to the use of the city."

SECT. 4.—"Every person before selling milk or offering it for sale in a store, booth, stand, or market place in a city or in a town in which an inspector or inspectors of milk are appointed, shall register in the books of such inspector or inspectors, and shall pay to him or them fifty cents to the use of such city or town; and whoever neglects so to register, shall be punished for each offence by fine not exceeding twenty dollars."

Good Afternoon.

The new high school building dedicated at Waltham, on Tuesday, cost \$184,000. The Alumni association did creditable work in decorating it, raising a fund of \$1,000. When will Quincy get a building adequate in size to accommodate all who desire to attend? A \$184,000 building is not expected.

The prospects are brighter for the construction of the Metropolitan parkway through Quincy from Boston to the Blue Hills reservation than many had ventured to hope. The Metropolitan Park Commissioners have assured the Quincy people that Quincy now had first claim and that their parkway would be built when money was available. The committee on metropolitan affairs of the Legislature has voted to report the general park bill in its original form, appropriating annually for five years \$300,000 each for boulevards and parks, making a total appropriation of \$3,000,000.

Soldiers' Monument.

William T. Spargo & Co. have just completed, and are about to ship a handsome soldiers' monument to New Hampshire. The monument is of Quincy granite, which is nearly all polished. It is surmounted by an eight-foot figure of a soldier. The die which is a massive affair has four polished panels upon which will be cut the inscriptions of the soldiers and sailors in whose memory it is erected. On the top sides of the die cut in bas-relief are crossed muskets, crossed cannon, crossed swords and crossed flags. The workmanship on the job is of the best, and it is a credit not only to the firm that cut it, but to Quincy as well. The monument will be dedicated Memorial Day.

Many Estimates Given.

Business in the granite district which has been a little quiet thus far this year has begun to look up some, and the indications are that while still a little quiet, things will be rushing before the end of the month. Manufacturers report that there has been an unusual call for estimates, but for some reason the work has not been let. They give the cause of the quietness to the general shakeup among labor unions all over the country. This has made things uncertain, and until they have quieted down, the manufacturers do not look for much change for the better.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." For sale by all druggists.

The Protestant Bible House of

3747 Indiana avenue, Chicago, has recently gotten out a most interesting picture of the ladies of the White House. The group includes all ladies who have presided at the White House from Martha Washington in quaint old gown to Mrs. Theodore Roosevelt of the present day. It is a picture to frame and preserve.

PORTER--BRIGGS.

Son of Ex-Mayor Porter Marries
Widow at Newport.

Early on Tuesday, says a Newport dispatch to the Herald, the Rev. C. H. Porter, Jr., former popular pastor of the fashionable Channing Memorial church, called at the City Hall with Mrs. H. W. Briggs and took out a marriage license, and they were married before nightfall.

About a year ago, after preaching an Easter sermon, the Rev. Mr. Porter read a letter, in which he stated that he desired to resign from the ministry, feeling that he had mistaken his calling.

He had been married at the time for about one year to one of the best known women of Boston, Mass. Mrs. Porter brought a suit for divorce, which was granted. The case caused a sensation in fashionable Newport, as it did at Quincy, Mass., and also at Hingham, Mass., where the young man preached when he was called to Newport.

The Rev. Charles Hunt Porter, Jr., when he called upon City Clerk Stevens today, said that his occupation was correspondent, his age 32, and place of birth and residence Quincy, Mass. Mrs. Briggs gave her age as 40, her residence as Newport, and she stated that her father's name was J. Hall Staples of Taunton, Mass., where she was born.

The marriage was performed by the Rev. Dr. E. C. Bass, a former presiding elder of the Providence district of Methodist churches.

Dr. Everett's Recitals.

The Listener of the Transcript makes some interesting comments on the recitals of Dr. Everett. He says:

"Some recitations by Dr. William Everett for a Quincy charity, were mentioned the other day in these columns as readings, conveying a wrong impression which was practically cleared up by the accompanying statement that throughout the whole programme Dr. Everett did not use, and did not have, any printed books about him. What Dr. Everett thus did for the Quincy Hospital, he would no doubt do on an urban platform if he were called upon, as he has always been famous for his wonderful powers of memory and has a natural and proper pride in these recitations."

"We have had wonderful exhibitions of that peculiar accomplishment in times past, notably the recitations of practically entire plays of Shakespeare by Herman Liode (who turned up in Boston the other day with his own great Rubens painting that was the keynote of the Exhibition of Old Masters at Copley Hall), the similar recitations of Sidney Wollett and those of Stuart Cumberland."

"Now Dr. Everett is one of those reciters who never bore. People enjoy his recitations of the old masterpieces as thoroughly as the crowd at an exciting political meeting like to hear—and see—him deliver one of his philippics, travelling back and forth upon the platform, like a rampart lion. The same intense emotion that appears in any of his rousing campaign speeches he throws 'with a difference,' of course, into any of the pieces and extracts that he repeats."

"His memorized repertory is rather of an old-fashioned strain, Milton, Gray, Cowper, Campbell, Scott especially, Byron, Moore, Tennyson, Browning, Macaulay, Longfellow, Poe. But he touches nothing that he does not adorn. Even to the rather cheap effects of 'The Bells' he gives a certain new artistic dignity and value."

"Those who remember Jenny Lind's singing tell us that the great thing about it was its charm; its wonderful scope and perfect training were, of course, remarkable, but other singers rivaled her in those respects; but in the quality, the peculiar stamp of the voice, in the captivating tones which touched the hearts of even those without the connoisseur's judgment of music she stood absolutely alone. There have been speakers who had this vocal charm—this appeal to the sensibilities of their hearers, even when not profound in thought or compelling in purpose, so that to listen to them was like listening to the beautiful notes of an organ."

"In his political speeches Dr. Everett has commonly been heard when he was so grimly set and absorbed in his subject, so intensely in earnest, that this charm would become a minor matter, necessarily subordinated. But in recitation, where he can yield himself up to the poetry, his trained voice and the benefit of the whole of his inherited gifts, as they certainly did in this recitation for the Quincy Hospital fund."

VICTORY AT START

Adams Academy Defeats
Hopkinson High.

The Score Was Eight
to Seven.

Adams Had 14 Safe Hits with
Total of 18.

The Adams Academy nine played their first scheduled game at Merry-mount Park Tuesday afternoon, their opponents being the Hopkinson school team of Boston. Adams won 8 to 7. The game was a close and interesting one and in spite of the intensely cold wind blowing across the field a large crowd stayed through the game. The weather naturally interfered with good fielding.

The work of the Academy nine was on the whole encouraging. The out field was weak, but much of the weakness was due to the high wind which made accurate judging of flies impossible. Hoxie pitched a good game except in the fifth and seventh innings. He was well supported by Reardon. Moir had the best fielding record and Weston and Galvin did most of the scoring for their side.

For the visitors Barnes, the third baseman, and Brown the catcher, did the best batting.

Below is the score:

No Strike Expected.

The feeling of unrest among the street railway employees has quieted down and it has come to be generally understood among the men that the sliding scale will prevail. At the meeting in Boston last week two unions were not heard from. The sentiment, however, of the unions that did vote was strongly in favor of the sliding scale, and as it is generally known, there is a strong sliding-scale feeling in the two unions that did not report, so it is safe to say that that system of wages will prevail.

On the question of recognizing the Union it is reported that the vote was that a large part wanted the Union recognized. This matter will probably be settled at a conference between the street railway officers and union committee, and there is but little doubt but what a peaceful agreement will be reached.

Senators by Popular Vote.

Senators Brackett and Bemis of Norfolk both voted in opposition to popular elections of United States Senators on Tuesday. The question came on substitution of a bill to provide that "the secretary of the commonwealth shall, prior to the next state election, cause to be placed upon the official ballot the following words: 'Is it expedient that the General Court should request the Congress of the United States to call a convention for the purpose of proposing an amendment to the constitution of the United States so as to provide for the election of United States senators by direct vote of the people?'" The bill was substituted 19 to 16.

HOPES FOR THE NEGRO

Mainly Depend Upon Best
White Men of the South

DENIAL OF SOCIAL EQUALITY

Not Due to Prejudice as We Usually
Understand the Word—Past, Present
and Future of the Blacks Discussed
by Ex-President Cleveland

New York, April 15.—Former President Grover Cleveland was the principal speaker at a meeting held in Madison Square Garden last night in the interests of the Tuskegee Normal and Industrial Institute. Among those on the platform with Mr. Cleveland were Mayor Low, who presided, Booker T. Washington and other notables. Mrs. Cleveland sat in the gallery with Mr. and Mrs. Andrew Carnegie.

Mr. Cleveland, who was greeted with prolonged applause as he was introduced by Mayor Low, said:

"I have come here as a sincere friend of the negro, and I should be very sorry to suppose that my good and regular standing in such company needed support at this late day either from certificate or confession of faith. Inasmuch, however, as there may be differences of thought and sentiment among those who profess to be friends of the negro I desire to declare myself as belonging to the Booker Washington-Tuskegee section of the organization. I believe that the days of Uncle Tom's Cabin are past. I believe that neither the decree that made the slaves free, nor the enactment that suddenly invested them with the rights of citizenship, any more purged them of their racial and slavery-bred imperfections and deficiencies than it changed the color of their skin. I believe that among the nearly 9,000,000 negroes who have been intermixed with our citizenship there is still a grievous amount of ignorance, and an amount of viciousness and a tremendous amount of laziness and thriftlessness.

"I cannot, however, keep out of my mind the thought that, with all we of the north may do, the realization of our hopes for the negro must, after all, mainly depend—except so far as it rests with the negroes themselves—upon the sentiment and conduct of the leading and responsible white men of the south, and upon the maintenance of a kindly and helpful feeling on their part towards those in their midst who so much need their aid and encouragement. I need waste no time in detailing the evidence that this aid and encouragement has thus far been generously forthcoming. Schools for the education of negro children and institutions for their industrial training are scattered all over the south and are liberally assisted by the southern public and private funds.

"I do not know how it may be with other northern friends of the negro, but I have faith in the honor and sincerity of the respectable white people of the south in their relations with the negro and his improvement and well-being. They do not believe in the social equality of the race and they make no false pretense in regard to it. That this does not grow out of hatred of the negro is very plain. It seems to me that there is abundant sentiment and abundant behavior among the southern whites toward the negro to make me doubt the justice of charging this denial of social equality to prejudice, as we usually understand the word. What ever it is, let us remember that it has conduced the negro's share in the humiliation and spoliation of the white men of the south during the saturnalia of reconstruction days, and has allowed a kindly feeling for the negro to survive the time when the south was deluged by a perilsous flood of indiscriminate, unfeeling and blighting negro suffrage. Whatever it is, let us try to be tolerant and considerate of the feelings and even the prejudice or racial instinct of our white fellow-countrymen of the south, who in the solution of the negro problem must, amid their own surroundings, bear the heat of the day and stagger under the weight of the white man's burden.

"There are, however, other considerations related to this feature of the negro question, which may be regarded as more in keeping with the objects and purposes of this occasion. As friends of the negro it is folly for us to ignore the importance of the ungrudging co-operation on the part of the white people of the south in this work. Labor as we will, those who do the lifting of the weight must be those who stand next to it. This co-operation cannot be forced; nor can it be gained by gratuitously running counter to firmly fixed and tenaciously held southern ideas, or even prejudices. We are not brought to the point of doing or over-looking evil that good may come when we proceed upon the theory that, before reaching the stage where we may be directly and practically confronted with the question of the negro's full enjoyment of civic advantages or even of all his political privileges, there are immediately before us and around us questions demanding our immediate care. These questions have to do with the practical education of the negro and especially with fitting him to compete with his white neighbors in gaining a decent, respectable and remunerative livelihood.

"Booker Washington, in speaking of the conditions and needs of his race, has wisely said: 'It is at the bottom of life we must begin and not at the top. Nor should we permit our grievances to overshadow our opportunities.'

"In summing up the whole matter, there is one thing of which we can be absolutely and unreservedly certain. When we aid Tuskegee Institute and agencies like it, striving for the mental and manual education of the negro at the south, we are in every point of view rendering him the best possible service. Whatever may be his ultimate destiny, we are thus helping to fit him for filling his place and bearing its responsibilities. We are sowing well in the soil at the bottom of life the seeds of the black man's development and usefulness. These seeds will not die, but will sprout and grow, and if it be within the wise purpose of God, the hardened surface of a untoward sentiment or prejudice can prevent the bursting forth of the blade and plant of the negro's appointed opportunity into the bright sunlight of a cloudless day."

Y. M. C. A. Affairs.

The directors of the Women's Auxiliary met at the Y. M. C. A. rooms, Washington street, Tuesday afternoon and a committee of the board of directors was present and explained the plans of the association for the erection of a gymnasium. It was voted to arrange for a mass meeting of women to be held on Tuesday afternoon, April 28, at 3 o'clock, and the following ladies were appointed a committee on program and arrangements: Mrs. Theophilus King, Mrs. C. Theo. Hardwick, Mrs. T. B. Pollard, Mrs. Eben W. Sheppard, Mrs. W. E. Blanchard, Mrs. C. E. Tenney, Mrs. W. G. Shaw and Mrs. E. H. Sprague.

The young men's soliciting committee for the gymnasium fund will hold a meeting at the Association Building tomorrow evening at 8 o'clock.

Those who have signed "certificates" should call at the Building Monday evenings and get their monthly coupons.

A meeting of the Y. M. C. A. members is called for Monday evening, April 20, at 8 o'clock, to be followed by a meeting of the board of directors.

The furniture and equipment owned by the Y. M. C. A., which has been stored for the past two years in Music hall and several other places, has been collected and placed in the new quarters of the association.

Fallon Will Fight for I.
Members of the committee on harbors and public lands are looking forward to an enjoyable time in the house, says Practical Politics, when Messrs. Collins of Boston and Fallon of Quincy, get against each other in debate. Mr. Collins is in charge of the report of the committee recommending reference to the next general court on the petition of Mr. Fallon for an appropriation for the dredging of Town river in Quincy. These two have already gotten in considerable practice on each other in the corridors, and during sessions of the committee, and the strife has been nursed along as much as possible by their fellow-members. Speaker Meyers may be called upon to break a gavel or two in keeping the two men from active hostilities when the measure is debated, but the rest of the members of the house are anticipating some fun.

No New Find of Coal
Wilkesbarre, Pa., April 15.—General Manager Richards of the Lehigh and Wilkesbarre Coal company denies the story that there has been any new find of coal in the Wyoming valley. For the past two days he has been sending telegrams of denial to different scientific papers and periodicals, who have requested him to verify the story.

Further Complications in Serbia
Vienna, April 15.—The political situation in the Balkans is regarded here with apprehension, owing to the growing feeling that the new constitution of King Alexander of Serbia is intended to pave the way to constituting Queen Draga's brother the heir to the throne. The Serbians strongly oppose this project.

Rigging the Reliance
Bristol, R. I., April 15.—The Reliance is now two-thirds rigged and if the present weather holds a week longer the heading of the mainsail will follow the finishing up and fitting of the shrouds and stays. The scamen of the Reliance are assisting the riggers in the splicing of the shrouds and the mainmast.

Bridge Company Recedes
Detroit, April 15.—The Canadian Bridge company's plant at Walkerville, Ont., where a strike has been on since April 14, has resumed operations with 250 men. The company compromised the trouble by withdrawing an order for a 10-hour instead of a 9-hour day.

Vessel Probably Lost
Halifax, April 15.—Evidence of a wreck have been found on the shore at West Jeddore. A 60-foot main boom, with block and gear complete, and two dories, badly smashed, were picked up. It is supposed that some craft struck on the ledges and went to pieces.

Comanches Wanted in Mexico
Guthrie, O. T., April 15.—A conference of Comanche Indians has been called to consider a proposition made by citizens of Chihuahua, Mex., to move the Indians to that country. They are offered 2,000,000 acres of land to make the change.

Mongolians Ordered Deported
Sydney, N. Y., April 15.—The cases of 22 Chinamen, charged with violating the Chinese exclusion act, were before Judge Ray in the United States district court here and he ordered 15 deported.

BESSON'S STORY DENIED

Both by Dr. John Combes' Son and the Alleged Intermediary

Paris, April 15.—Edgar Combes, the premier's son, has asked the public prosecutor to open an investigation into the charges made against him by M. Besson, editor of the Petit Dauphinois, who alleged that an intermediary, whom he declared to be a prominent politician named Vervort, had approached him on behalf of Edgar Combes with an offer to secure authorization for the monks of the Grande Chartreuse monastery to remain in France on payment of \$200,000, of which \$20,000 would be given to Besson as his commission on the transaction. Le Soir publishes an interview with Vervort, who gives a complete denial to Besson's story in the Le Petit Dauphinois. He declares that the only conversations he had with Besson were when the latter asked him to find out if La Grande Chartreuse had any chance of obtaining the authorization to remain in France and when he communicated the fact to Besson that the monastery had no chance of obtaining the desired authorization. These were the only times, says Vervort, that he saw Besson, and neither \$200,000 nor any other sum was mentioned.

A Romance of the West
Chicago, April 15.—A special to The Record-Herald from Kallispell, Mont., says: Mathilda Youngquist, long thought to be dead, helless to a large estate at Stockholm, Sweden, has been found living among Cree Indians as a member of the tribe. A gold ring given her by her father and mother, who were killed in a raid by the Crees many years ago, has established her identity. There was an inscription on the inside of this ring, but as she could not read she did not know what it was. She will go to Sweden immediately with a relative who found her.

May Tie Up L Road
New York, April 15.—Negotiations between the executive committee of the Elevated railroad employees and General Manager Bryan of the system, with a view to averting the threatened strike, finally failed at a conference at the offices of the road, and members of the committee declare that residents of Manhattan and the Bronx will do their travelling on the sidewalk level for some time to come if a final appeal, which is to be made today to the full board of directors of the interborough system, is productive of no better result.

Ten Killed in Tornado
Evergreen, Ala., April 15.—News has reached here confirming rumors of heavy loss of life and property in the neighborhood of Peterman wrought by the tornado which passed near there. Ten persons are known to have been killed and numerous barns, residences, fences and outbuildings were swept away, entailing a loss which will reach high in the thousands. On account of the bad condition of the wires communication is difficult.

Carnegie Will Foot All Bills
Ithaca, N. Y., April 15.—A further communication has been received by President Schurman of Cornell from Andrew Carnegie in which Mr. Carnegie urges that the students' fund subscribed to aid those who became ill with typhoid fever during the epidemic be returned to subscribers and that he be allowed to pay all expenses incurred by students on account of the epidemic, including those of 27 who died.

Decision Against the Church
New York, April 15.—Justice Blanchard has handed down a decision that the \$20,000 legacy left by the late Maria B. Mount to Bishop Tuttle of the Protestant Episcopal diocese of Utah for the purpose of erecting a church within his Episcopal jurisdiction is void. By the decision \$20,000 must be divided in accordance with the distribution of the residuary estate.

Burglars Caused Gas Explosion
Chicago, April 15.—Burglars turned on the gas in a house which they had robbed here and caused an explosion which nearly resulted in the death of Mrs. Ada Brownell, wife of a western mine owner. Mrs. Brownell had been absent from home and as she unlocked her door and lighted a match the gas which filled the rooms was ignited.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Cassoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by the Brown-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Cassoden, master of the dance. III.—Cassoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Cassoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon takes him to America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed. IX.—Brandon in prison charged with murder. Mary to plead with the King.

CHAPTER IX.—Continued.

I afterward learned from various sources how this nobleman began to avenge his mishap with Brandon at Mary's ball when the latter broke his sword point. First he went to Newgate and gave orders to the keeper, who was his tool, to allow no communication with the prisoner, and it was by his instructions that Brandon had been confined in the worst dungeon in London. Then he went down to Greenwich to take care of matters there, knowing that the king would learn of Brandon's arrest and probably take steps for his liberation at once.

The king had just heard of the arrest when Buckingham arrived, and the latter found he was right in his surmise that his majesty would at once demand Brandon's release. When the duke entered the king's room, Henry called to him: "My lord, you are opportunely arrived. So good a friend of the people of London can help us greatly this morning. Our friend Brandon has been arrested for the killing of two men night before last in Billingsgate ward. I am sure there is some mistake and that the good sheriff has the wrong man, but right or wrong, we want him out and ask your good offices."

"I shall be most happy to serve your majesty and will go to London at once to see the lord mayor."

In the afternoon the duke returned, and had a private audience with the king.

"I did as your majesty requested in regard to Brandon's release," he said, "but on investigation I thought it best to consult you again before proceeding further. I fear there is no doubt that Brandon is the right man. It seems he was out with a couple of wenchers concerning whom he got into trouble and stabbed two men in the back. It is a very aggravated case, and the citizens are much incensed about it, owing partly to the fact that such occurrences have been so frequent of late. I thought under the circumstances and in view of the fact that your majesty will soon call upon the city for a loan to make up the Lady Mary's dowry it would be wise not to antagonize them in this matter, but to allow Master Brandon to remain quietly in confinement until the loan is completed, and then we can snap our fingers at them."

"We will snap our fingers at the scurvy burghers now and have the loan, too," returned Henry angrily. "I want Brandon liberated at once, and I shall expect another report from you immediately, my lord."

Buckingham felt that his revenge had slipped through his fingers this time, but he was patient where evil was to be accomplished and could wait. Then it was that the council was called during the progress of which Mary and I had tried to obtain an audience of the king.

Buckingham had gone to pay his respects to the queen and on his way back had espied Mary waiting for the king in the anteroom and went to her.

At first she was irritated at the sight of this man, whom she so despised, but a thought came to her that she might make use of him. She knew his power with the citizens and city authorities of London and also knew, or thought she knew, that a smile from her could accomplish everything with him. She had ample evidence of his infatuation, and she hoped that she could procure Brandon's liberty through Buckingham without revealing her dangerous secret.

Much to the duke's surprise, she smiled upon him and gave a cordial welcome, saying: "My lord, you have been unkind to us of late and have not shown us the light of your countenance. I am glad to see you once more. Tell me the news."

"I cannot say there is much of inter-

est. I have learned the new dance from Cassoden, if that is news, and hope for a favor at our next ball from the fairest lady in the world."

"And quite welcome," returned Mary, complacently appropriating the title, "and welcome to more than one, I hope, my lord."

This graciousness would have looked suspicious to one with less vanity than Buckingham, but he saw no craft in it. He did see, however, that Mary did not know who had attacked her in Billingsgate, and he felt greatly relieved.

The duke smiled and smirked and was enchanted at her kindness. They walked down the corridor, talking and laughing. Mary awaiting an opportunity to put the important question without exciting suspicion. At last it came, when Buckingham, half inquiringly, expressed his surprise that Mary should be found sitting at the king's door.

"I am waiting to see the king," said she. "Little Cassoden's friend, Brandon, has been arrested for a brawl of some sort over in London, and Sir Edwin and Lady Jane have importuned me to obtain his release, which I have promised to do. Perhaps your grace will allow me to petition you in place of carrying my request to the king. You are quite as powerful as his majesty in London, and I should like to ask you to obtain for Master Brandon his liberty at once. I shall hold myself infinitely obliged if your lordship will do this for me." She smiled upon him her sweetest smile and assumed an indifference that would have deceived any one but Buckingham. Upon him under the circumstances it was worse than wasted. Buckingham at once consented and said that notwithstanding the fact that he did not like Brandon, to oblige her highness he would undertake to befriend a much more disagreeable person.

"I fear," he said, "it will have to be done secretly—by conniving at his es-

"What is this?" cried Henry.

cape rather than by an order for his release. The citizens are greatly aroused over the alarming frequency of such occurrences, and as many of the offenders have lately escaped punishment by reason of court interference I fear this man Brandon will have to bear the brunt, in the London mind, of all these unpunished crimes. It will be next to impossible to liberate him except by arranging privately with the keeper for his escape. He could go down into the country and wait in seclusion until it is all blown over or until London has a new victim, and then an order can be made pardoning him, and he can return."

AMERICA'S GREATNESS

Imposes Prudence in Foreign Commercial Circles

PLAN FOR NEW ZOLLVEREIN

To Meet Our Competition in Commerce Postponed—Europe Could Not Compensate Herself For Damage That We Might Do

Rome, April 15.—After a lengthy discussion the international agricultural congress postponed to the next congress further consideration of the proposition for a European zollverein against American competition. The discussion was on what is styled "Europe's declaration of war against America."

The discussion opened with the proposal of Julius Rubinek, a Hungarian deputy, to establish an accord between the European nations for the purpose of checking over-sea competition, especially that of the United States, by applying higher duties to American products.

Count Von Schwerin Loewitz presented and explained his proposition for a European zollverein, adding that he wished Europe to defend herself not only against the United States, but against all other non-European countries. He wished also to find a practical means of securing an early commercial union of the European countries.

Signor Luzzatti, who has been three times an Italian minister of the treasury and who is considered the highest Italian authority on questions of commerce, expressed his astonishment that, in presence of the high tariffs just voted by Germany and Switzerland and the tariff now being prepared by Austro-Hungary, any dare suggest a European customs union to oppose American competition. "Is there hope for a European agreement?" he asked, "before declaring war on the United States?"

It would be ridiculous, he said, to threaten war without an understanding among the allies. Even the renewal of the present European treaties was difficult. The existing tariffs were so enormous that they were threatening to put back Europe economically to the middle-ages.

"How was it possible under such conditions to fight the United States, of which he must speak with respect. Her greatness imposes prudence while her force commands. Italy, especially, cannot take the matter too lightly, as she not only sends goods to America, but men who are going there to seek liberty, work and prosperity. The present threat was not serious, because a customs union was impossible among the European nations. If it were possible America would defend herself, and how could Europe compensate herself for the damage that America could do? He hoped that the commercial treaties would be renewed, for they, containing the most favored nation clause, alone might lead to a sort of European customs union.

Signor Luzzatti asked if the responsibility for the much condemned trusts lies on America or on Europe. "I shall support those states," he exclaimed, "who have no representative here to demonstrate that their sins are not worse than ours. Let us abandon the idea of European leagues against any one and advocate a conference of the representatives of the whole world to take measures against the trusts and leagues which are perturbing the natural equilibrium of the markets."

M. Mellie declared that it was impossible to establish the same duties throughout Europe which had such different products and needs.

"America is such an extraordinary country," he said, "that I am frightened when I think what she may become when she has reached the height of her development, but if some American products threaten us, others are absolutely indispensable to us. If her production increases her population also increases, thus increasing the home consumption. We must study a legitimate organization of defense, not a zollverein which would be war. It will be imprudent to adopt the proposition before the congress, which is an unnecessary threat and an unfair measure."

Baron Riepenhausen, a member of the reichstag, said that the greatest threat of the United States was against the industries of Europe, but agriculture was also menaced. This situation must be faced, bearing in mind the proverb that "attack is the best defense."

The fact that Europe exported men to the American continent was no reason for sparing America. Germany had exported 15,000,000 men who were now fighting Europe worse than the Americans themselves. In conclusion he proposed that a committee of 12, representing France, Italy, Austria and Germany, be appointed to study the best way for Europe to fight American competition.

M. Mellie suggested that representatives of Belgium and Holland be added and moved the postponement of the matter until the next congress, which motion was unanimously adopted.

THE THRIFTY HOUSEKEEPER

Is up and doing at the present time, and has
many ideas of the needs for Spring to make her
home attractive, and to keep up appearances.

People with a limited income sometimes
hesitate about buying the needed furnishings for
their home, feeling they cannot afford them.

This is all a mistake—our short credit system
encourages thrift, refurnishes homes, makes
people happier and more contented, and like a
co-operative bank saves money that otherwise
would be spent with nothing to show for it.

The sooner you come here and buy your new
Carpetings, Rugs, Draperies, Parlor, Chamber,
Sitting or Dining Room Furniture, the sooner
your happiness will be near complete.

Low suburban rent enables us to undersell all

A Reorganization Sale

is now going on which should interest EVERY housekeeper who reads
this paper. In recently reorganizing this corporation a great deal
of stock was taken over at prices so advantageous that we can, FOR
THIS SALE, give our customers goods of the BEST QUALITY at
the PRICE OF THE CHEAPEST. For example:

CARPETS

ROYAL WILTONS. Hundreds of
pieces to be
closed out. The assortment is very large.
The designs are the finest, and the colors
range from softest greens, reds, etc., to
rich effects in Oriental conceptions. The
makes are the well-known Bigelow, Lowell,
Whitall, and the Crossley, Southwell and
Humphries English goods, together with
Templeton's Scotch Wiltons. Our former
price was from \$2.75 to \$3.50
per yard. We have marked
them at, per yard,

BODY BRUSSELS. These most
desirable
goods have always been our specialty, and
the exclusive patterns we have originated
for our wholesale and retail are considered
the best in this country and are famous for
their designs and coloring. But there are
some patterns that must be discontinued
and closed out altogether. There are fully
fifty patterns, containing thousands of
yards of Bigelow, Lowell, Whitall and
English goods that have formerly been sold
in our retail stock at from \$1.40
to \$2.00 per yard. We shall close
them out at, per yard,

RIOTERS IN A FRENZY

Started In by Lynching Al-
leged Negro Murderer

POLICE WERE POWERLESS

Mob Swept Through Negro Section of
a Missouri Town and Burned Houses,
Stoned Negroes and Wound Up by
Driving Them Outside Its Borders

Joplin, Mo., April 16.—A mob took an
unknown tramp negro from the city jail
last evening and lashed him to a tele-
graph pole two blocks from the jail.
The negro was charged with having
murdered Police Officer Leslie, who was
shot dead in the railroad yards while
endeavoring to arrest several negroes
suspected of theft.

City Attorney Decker made a strong
plea in behalf of law and order. This
served temporarily to stay the mob, but
did not appease it, and a short time after
Decker's speech the mob started to bat-
ter in a section of the jail wall.

Every effort was made to prevent the
entrance of the mob, but without avail,
and within 15 minutes the men had
gained entrance to the jail and secured
the trembling negro. As he was
dragged forth City Attorney Decker
again intervened and urged that the
negro be given a trial. For half an hour
he talked and the mob listened to him,
with the negro in their custody. At one
time it seemed that the city attorney
would win, as members of the mob be-
gan dispersing, but suddenly a rush was
made for the spot where the negro was
being held, and he was dragged two
blocks from the jail, a rope fastened
around his neck, and after the rope had
been thrown over the cross-arm of a
telegraph pole a score attempted to pull
the negro from the ground. As many
more seized the negro and pulled to pre-
vent him being hanged. For some mo-
ments it was a veritable tug of war, but
reinforcements on the free end of the
rope proved the stronger, and the negro
despite his protestations of innocence, was
finally swung into the air and
strangled to death, while shouts of satisfac-
tion went up from the mob.

The lynching of the negro served only
temporarily to satisfy the indignation
of the mob, and late at night hundreds
of men again assembled and rioted
through the negro section of the city,
burning houses, stoning negroes and
finally driving every negro from the
confines of Joplin. The police were
powerless.

The first act of the mob after hang-
ing the negro was to demand the release
from jail of a local character known as
"Hickory Bill," who was under arrest
on the charge of assaulting a negro. In
the hope that this would appease the
mob the prisoner was set free.

But the mob did not disperse. In-
stead a rush was made through the
principal street of Joplin, and every ne-
gro was frightened off the street and
driven to the north part of the city, where
the negro population resides. In this
way the negroes were driven from all
parts of the city to the negro section.

Then the mob charged down on the
section. Stones were thrown, doors
and windows of negro houses were
broken in, and finally several were fired.
The fire department responded, but many
of the houses were burned to the
ground. The mob made endeavors to
prevent the fire department from ex-
tinguishing the flames and were par-
tially successful. All the officers of the
city, township and county were called
out, but the mob swept them aside and
proceeded with the rioting.

Mayor Trigg ran from corner to cor-
ner and made earnest appeals to the
mob to cease, but beyond cheering the
mayor vociferously the mob swept on
and the depredations continued. The
saloons were hurriedly closed. After
the hundreds of frenzied men composing
the mob had vented their wrath in the
north end of the city they rushed to the
southern end where lived a number of
negroes. Their houses were vacant and
not a negro could be found. Three more
houses were fired and two were com-
busted.

Fifty Years in German Army
Berlin, April 19.—General Count Von
Vaxler, commander of the Sixteenth
army corps who by many critics is re-
garded as the most able man in the
German army, has asked Emperor Wil-
liam to accept his resignation April 20,
the 50th anniversary of his entrance
into the army.

Boston, April 16.—Convicted of

M. Miles was sentenced to not less than
9 nor more than 12 years in state prison.

TURNED DOWN.

No Scavenger License Will be
Granted H. H. Faxon.

The Board of Health has again
practically refused to grant Henry H.
Faxon a license to do his own scavenger
work. After the City Council had
revoked Mr. Prescott's contract, Mr.
Faxon sent the Board a letter renewing
his application for a license.

The Board of Health in their reply
did not exactly refuse his request, but
they politely informed him that they
had advertised for bids for doing the
City Scavenger work and that he had
the privilege of bidding for the work
if he so desired. They also inclosed in
the reply a copy of their advertisement
for proposals.

It is perhaps not generally known
that the Board of Health has con-
demned every public dump in the city,
which includes Mr. Faxon's private
dump off Coddington street, and here-
after all vault and cesspool matter will
be disposed of through the two city
dumps into the public sewer. For this
reason, the board say, it would be
impossible to grant Mr. Faxon a license
as he would have no place to dump his
vault and cesspool matter, as it could
not legally grant permission to him to
use the City sewer dumps. Thus is
Mr. Faxon again turned down.

LOWELL ARBITRATORS

Will Compare Conditions in Model
Mills With Old Style Plants

Lowell, Mass., April 16.—The taking
of verbal testimony by the state board
of arbitration and conciliation which
is investigating the textile situation
here and the cause of the great strike
was completed yesterday afternoon.
Each side will submit statistics, argu-
ments of counsel will be made and the
members of the board will inspect
Lowell mills and a so-called "model"
mill in New Bedford or elsewhere. It
is the claim of Lowell manufacturers
that the "model" mill can afford to pay
higher wages than the old style plants
here. The operatives have put in no
verbal testimony, the "burden of
proof" being placed on the mill agents,
who sought to show they could not
afford a 10 percent advance.

W. S. Southworth, agent of the
Massachusetts mills and secretary of
the Lowell Mill Agents' association,
was the principal witness for his side.
John F. Conner, agent of the Textile
of Russellville, Ky., the two Yale fresh-
men who were supposed to have ex-
amined at length, and Agent Course
of the Lawrence company was ques-
tioned briefly. No other agent or
treasurer had submitted verbal evi-
dence, although all the treasurers are
allowing experts to examine their
books in Boston.

Missing Students Heard From
New Haven, April 16.—Lester C. Bar-
ton of Chicago and William M. Du-
can of Russellville, Ky., the two Yale fresh-
men who were supposed to have lost
their lives on the sound, are in New
York city. After getting outside the
New Haven breakwater they were un-
able to put about and return to shore
and they were driven before the wind
until they were washed up on the beach
at Riverhead, L. I. The heavy surf de-
stroyed the boat. The two students then
made their way to New York. Al-
though used up after their trying experi-
ence, they are none the worse for their
trip.

Employers' Terms Accepted
Fitchburg, Mass., April 16.—Through
the good offices of the state board of
arbitration weavers of the Parkhill Manu-
facturing company in mills A and B,
who have been on strike, the strike was
last night declared off. The weavers
asked for an increase from 70 cents to
80 cents per cut on one grade of ging-
hams and 2 1/2 cents increase on an-
other grade, and the company offered
an increase of 5 cents in the first in-
stance, at the same time refusing the
22 1/2 cents advance. The strikers de-
cided to accept the company's terms and
to return to work on Tuesday next.

Acquitted of Larceny Charge
Chelsea, Mass., April 16.—"Not
guilty" was the decision of Judge
Bosson in the case of Mrs. Jane New-
comb, 82 years old, who was accused
by her son-in-law, George Stewart, of
the larceny of property valued at about
\$400. Stewart's wife died about 10
days ago. She was ill a long time, and
just before her death a good deal of
household property was taken from the
Stewart house. Stewart claimed that it
was stolen by the aged mother of his
wife. The defense claimed that the
goods were given to Mrs. Newcomb by
Mrs. Stewart.

Sheriff Talks to Druggists
Portland, Me., April 16.—In response
to an invitation from Sheriff Penell
about 35 druggists met that official in
the Falmouth hotel, but what they
learned after they got there did not make
it entirely plain why they had been
called together. The sheriff intimated
that there was too much drunkenness
in town and that the druggists were par-
tially responsible. He hinted that if
there was not a change something would
be done; what he did not say.

MURPHY--WHITE

Brilliant Wedding at St.
Mary's Last Evening.

Miss Frances A. White
the Bride.

The Groom Mr. Edward F. Mur-
phy of Boston.

* Although the elements were unpropit-
ious, the wedding at St. Mary's church
at West Quincy, at 7 o'clock Wednes-
day evening was a brilliant affair and
largely attended. The bride was Miss
Frances A. White, the accom-
plished soloist, and the groom, Mr. Ed-
ward Francis Murphy of Boston, but
formerly of Scituate. Rev. A. F. Roche
the pastor of the church officiated, and
Miss Mary McKay was organist.

The bride was beautifully attired in
a rich white brocaded liberty satin
princess gown with trimmings of
pearls and chiffon. Her veil was
caught up with diamond ornaments,
and she carried a shower bouquet of
Bride roses.

Miss Annie Zita White, a sister of
the bride, was maid of honor, and was
gowned in a pretty white muslin, with
trimmings of chuney lace and satin.
She carried a bouquet of pink roses.

The best man was Mr. John Mortimer
Shea of Boston.

A reception largely attended by friends
was held, from 7:30 to 10 o'clock, at
the residence of the bride on Copeland
street. Among those present were
Rev. Fr. Foley, Rev. Fr. Powers and
Rev. Fr. Lynch.

The groom's present to the bride
was a piano and also a diamond neck-
lace. The groom presented the best
man a diamond scarf pin, and the maid
of honor a diamond locket.

Mr. and Mrs. Murphy left that
evening for a two weeks' trip to Wash-
ington, D. C., and their future residence
will be at No. 19 Fredericka street,
Ashmont, where they will be at home
after May 15.

Drift of Opinion.

We owe much to "the fools." Men who have blazed the way of human progress have always enjoyed the distinction of being called "fools." When Jefferson advocated and accomplished the purchase of the Louisiana tract, which was a region of peaks and plains, unexplored and almost unknown he was called a fool for his pains. His folly has been the glory of the Nation. When Seward purchased Alaska, he and those who indorsed the transaction, were put on the fool list. Alaska has already proved more than its most sanguine friends claimed, and we have only just begun to realize and appreciate its resources. On the whole, we are deeply indebted to the far-seeing wisdom of "the fools." — From "The World's Progress," in Four-Track News for April.

An Englishman who watched Miss Alice Roosevelt board the steamer for Porto Rico at New York last week, remarked, with a smile, that if Miss Alice had been a royal princess she could not have been attended with greater honors, adding that in England the king's daughters moved about with far less ceremony. The observation is not a new one, to be sure, for republicanism, so called, in America has always been regarded with more or less skepticism by a large proportion of the British. Their idea seems to be that citizens of a republic have their kings and their queens, their princes and their princesses, only they call them by different names. And if the Englishman's view on this point was somewhat distorted twenty years ago, it comes nearer the truth now. There has been a shifting of sentiment on both sides of the Atlantic, and the result has been to bring the real status of our president and his family more to the plane of the British king and his family. That is to say, the English king is becoming less of a monarch every year and more of a constitutional ruler simply, while about the presidency is constantly being thrown more and more of the elements that command obedience on the part of the people and special protection on the part of the people's police. — Worcester Gazette.

Base Ball Grounds.

The managers of the West Quincy base ball club are trying to secure private grounds upon which to play their games the coming season. Heretofore all home games have been played on the city playground on Hall place. As it is a public ground no admission can be charged, and the club is obliged to depend upon what the spectators have a mind to drop into the hat when it is passed. Some drop a nickel others a dime and a few a quarter, while some do not drop anything.

It is impossible to maintain a good team and give a good game without financial support. While many will follow the team out of town and readily part with an admission fee of twenty-five cents, they find fault if asked to contribute on their home grounds.

If the managers succeed in securing ground, they will fence it in and charge an admission fee to all who desire to see the game.

Funeral of Mr. Luard.

The funeral of Mr. Arthur Henry Luard who passed away in Boston, was held at the residence of his father-in-law, Mr. James J. Lord of Hancock street, Wollaston, Wednesday. Mr. S. Stanley Searing of Boston, conducted the service and Mrs. Harriet Morgan of Quincy sang. The casket was completely covered with beautiful flowers from friends and relatives. Mr. Luard leaves a widow, two sisters and three brothers, all of Wollaston. The interment was at Beyerly.

THE HERO OF 1812.

Commodore Macdonough for Whom
Destroyer was Named.

The book entitled "The Naval War of 1812," written by Theodore Roosevelt, was published in 1899. It has passed through eight editions, and has acquired fresh interest since its author's elevation to the presidency. It is written with discrimination, and attempts with a good degree of success to mediate between the partisan writers on either side, of an earlier day.

The writer gives to the hero of the battle of Lake Champlain a first place in the annals of naval conflict, placing him above Hull, Decatur, Perry, and the rest. "Macdonough in this battle," he says, "won a higher fame than any other commander of the war. He had a decidedly superior force to contend against, and it was solely owing to his foresight and resource that he won the victory."

"He forced the British to engage at a disadvantage by his excellent choice of position, and he prepared beforehand for every possible contingency. His personal prowess had already been shown at the cost of the rovers of Tripoli, and in this action he helped fight the guns as ably as the best sailor. His skill, seamanship, quick eye, readiness of resource, and indomitable pluck are beyond all praise.

"Down to the time of the civil war he is the greatest figure in our naval history. A thoroughly religious man, he was as generous and humane as he was skillful and brave; one of the greatest of our sea captains, he has left a stainless name behind. Young Macdonough's religious character was illustrated by the fact that as an English squadron was standing in towards his line of battle he 'fearing his foes not at all, but his God a great deal,' knelt for a moment with his officers on the quarter-deck devoutly committing his cause to the God of hosts. A few minutes of perfect quiet followed, then came a shot that struck the flagstaff, Saratoga, and smashed a henceforth. From the wreck of the coop a game-cock jumped, and lighting on a gunside flapped his wings and crowed lustily. At this auspicious omen the men laughed and cheered, and presently Macdonough himself sighted and fired the first shot from a long 24, which struck the Confidence near the bowsprit and ranged the length of her deck, striking down several men, and so began the famous battle of Lake Champlain. — Sea Breeze for April.

ROSS-PETERSON.

The Happy Couple Generously
Remembered by Friends.

One of the pretty events of the season was the marriage of Miss Bessie Peterson and Mr. William Ross, of this city on Wednesday evening, April 15.

The ceremony was performed by the Rev. E. N. Hardy, pastor of Bethany church, in the presence of a large gathering of relatives and friends. Miss Belle McEachern was bridesmaid and Mr. Charles Ross was best man.

The happy couple were recipients of many unique and valuable remembrances.

Mr. and Mrs. Ross will reside on Independence avenue, Quincy Adams. Among the guests were: Mr. Thomas H. Keenan, Mr. and Mrs. Eben N. Barstow, Mr. and Mrs. Leith S. Black, Mr. and Mrs. George S. Harvender, Mr. and Mrs. John Ross, Mrs. Lydia Smith, Mr. and Mrs. Alex. Howie, Mr. and Mrs. Richard Bishop, Mr. and Mrs. Chas. E. Hutt, Mr. and Mrs. James Malcolm, Mr. and Mrs. McQuay, Mr. and Mrs. Murdoch Martin, Mr. and Mrs. John W. Ross, Miss Elizabeth W. Ross, Mrs. Allen, Miss Belle Murphy, Miss Ada Malcolm, Miss Mabel Atwood, Mr. Archie Parsons, Mr. Burleigh Pratt, Mr. Walter McBirnie, Miss Margaret McLean, Miss Campbell, Mr. Joseph Paradise, Mr. Lewis Harvender, Mr. John Allen.

TODAY'S COURT.

Thomas Devine of Randolph was arraigned for drunkenness. Case continued until May 16.
Arthur G. McLeod and James Cummings were fined \$3 each for drunkenness at Quincy.
Martin Fitzgerald was arraigned for assault on his wife Julia at Quincy, and was put under bonds of \$200 to keep the peace for three months.
Andrew Fitzgerald was arraigned for assault on Ellen Fitzgerald at Quincy. Case continued until April 22.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." For sale by all druggists.

Plan of Filipinos Revealed in
Captured Document

ORDERS FROM AGUINALDO

To Put Head of American Forces Out
of the Way—Men Who Lived About
His Residence the Prime Movers—
Attack on Outposts Followed

Washington, April 16.—While examining an immense quantity of papers captured from the Filipino insurgents, Captain Taylor, acting under the direction of Colonel Edwards of the department of insular affairs, discovered a remarkable document endorsed on the back with a direction to kill General Otis. That endorsement Captain Taylor insists is in the handwriting of Aguinaldo, the insurgent chief. A translation of the document is as follows:

"Our honorable president: We, the signers, who subscribe the declaration appended by these presents protest against the American proclamation, we recognize no authority but that of God and the revolutionary government, and we offer our lives and property for the independence of our country.

"Manila—San Miguel—Jan. 12, 1899. 'Feliciano de Cruz.'"
"On the back is written in the handwriting of Aguinaldo: 'Liberino Koton: Feliciano de Cruz to kill General Otis. Commissioned.'"

Captain Taylor called the attention of the chief of the bureau of insular affairs to this document in the following letter:

"Sir: I have the honor to enclose herewith a copy and translation of an important document found among the records of the Filipino insurgent government yesterday. The note on the back is in the handwriting of Emilio Aguinaldo, a handwriting with which I am familiar and one of such peculiar mannerisms that it cannot be mistaken by one who has seen much of it. I have a quantity of holographic letters and notes in my official possession; the most cursory comparison between them and the handwriting of this note will show its identity.

"On Jan. 4, 1899, a proclamation was issued by General Otis in which he declared the sovereignty of the United States over the Philippines. Many protests were drawn up in the Philippines against this. Most of them were drawn up by order of the insurgent government, but this letter was probably an unsolicited evidence of the adhesion of some katipunan lodge, or of one of the popular clubs in Manila organized by Sandico while in the rear of the United States government; clubs whose name covered their real purposes, the formation of groups ready at a given signal to attack the Americans within the city.

"Probably this paper was handed to Aguinaldo by a delegation of the signers. If this was the case, the man who signs first, Feliciano de Cruz, was one of the delegates. Aguinaldo probably talked with him in private and as a result of the conversation he wrote this note on the back of the paper. The other name does not appear in the signatures. He was probably some follower or intimate of de Cruz.

"It is to be noted that General Otis' residence was in the barrier or ward of San Miguel. The signers of this paper were men who lived about it and knew the grounds well; some of them may have been servants in the house. This attack on the American outposts did not occur until Feb. 4, 1899."

"Thanks For Late Warning"

Rochester, N. Y., April 16.—General Otis, in an interview last night, made the following statement in regard to the document captured from the Filipinos, relating to a plot to kill him when in command of the American forces at Manila:

"At the time mentioned in the dispatch we were living in a summer palace, near San Miguel. Near us were a large number of Filipinos, over whom we kept careful watch day and night. We had long anticipated such an order from Aguinaldo. Captain Taylor at that time was upon my staff in Manila, detailed to translate papers captured from the insurgents. He had not at that time read across any such direction from Aguinaldo. I presume that this paper was among the lot that was turned over to him. I understand that he is still translating. I thank you very much for this late warning."

Disease Almost Stamped Out

Washington, April 16.—Dr. Salmon, chief of the bureau of animal industry, has returned from Boston, where he has been investigating the foot and mouth epidemic situation. He says a few new cases of the disease have occurred in New Hampshire, but there have been no fresh developments in Massachusetts.

The President's Movements

Cincinnati, Mont., April 16.—President Roosevelt is somewhere in Yellowstone park between Soda Butte, and Yancy's. He probably will arrive at the post this evening. He will then start for the geyser country.

\$50,000 For Trip to Show

Albany, April 16.—The bill appropriating \$50,000 for the expenses of Governor Odell and 1000 members of the National Guard on their trip to the St. Louis fair on April 27 was passed by the senate.

BOUGHT "KOUCH ON RATS"

Admission of Julia Higgins, a Servant, at the Kidston Hearing
Boston, April 16.—Julia Higgins, the servant employed by Mrs. Cytulna A. Perkins, the victim of the Roxbury poisoning, admitted at the hearing on the charge against Miss Christina Kidston, the nurse, that she had purchased rat poison prior to the poisoning. The base of the poison purchased is arsenic, and Professor E. S. Wood, the noted analyst, testified that he found quantities of this poison in the contents of the stomachs of Mrs. Perkins, Mrs. Higgins and Miss Kidston in sweepings taken from Mrs. Higgins's room and in a package taken from under the sink. Mrs. Higgins declared she drank of the poisoned coffee at Miss Kidston's behest and that Miss Kidston also drank some.

Experts to Make Inspection

Washington, April 16.—Unable to determine with any definiteness the real cause for the recent explosion on the Iowa the board of investigation has recommended a critical mechanical and chemical test under the direction of an expert board to establish the condition of the metal of the burst gun. Read Admiral Higginson reported that the mate of the injured gun was damaged by the explosion, receiving several deep scars and scratches along its chase.

Employees' Demand Refused

New York April 16.—A crisis in the negotiations between the employees of the Manhattan Elevated railway and the management was reached when a committee of employees presented to the directors a demand for a nine hour working day and the directors refused to grant it. Whether the employees will resort with a strike that will tie up every elevated train in Manhattan none of the representatives of the employees will attempt to predict.

Maine's Boilers Defective

Washington, April 16.—Rear Admiral Melville has under consideration a report received from the chief engineer of the Maine regarding the condition of her boilers, of which 90 tubes are said to be bent and several burst. Secretary Moody has decided that the battleship shall go to the Cramp shipyards for repairs. The question as to whether the government shall stand the expense of these repairs is yet to be determined.

Miss Taylor's Good Fortune

Washington, April 16.—Miss Rebecca J. Taylor, who recently sought unsuccessfully in the district courts to compel her reinstatement as a clerk in the war department, from which Secretary Root dismissed her on account of articles published by her sharply criticizing the administration's Philippine policy, has been left about \$200,000 by the death of an uncle in San Francisco Sunday night.

Disaster in Texas Oil Field

Beaumont, Tex., April 16.—A careless workman kicked over a lantern at one of the Caldwell oil wells on Hogg-Swayne tract and started a fire that resulted in the loss of property valued at \$1,000,000 and the bankruptcy of 20 or more of the smaller companies. There were 175 wells on the three blocks of the tract and only five of the derricks and pump houses are left standing.

Vervoot Denies Charges

Paris, April 16.—The legal authorities are already taking action in the matter of the Grande Chartreuse bribery charges brought by M. Besson, editor of the Petit Dauphinois, against Edgar Combes, the premier's son. Magistrate Valle has examined M. Vervoot, the alleged go-between. It is reported that Vervoot denied the charges.

Explosion Caused Six Deaths

Bluefield, W. Va., April 16.—A terrible explosion occurred at Vivian at the mines of the Peerless Coal and Coke company. A small shanty containing a large amount of powder near the mine caught fire in some unexplained manner and an explosion followed. Six men were killed and several others seriously injured.

Boston Police Want Him

New York, April 16.—Edward J. Wilson, a salesman, was arrested last night, charged with the larceny of \$250 from the trunk of a chance acquaintance he had entrusted him with the key. The detective bureau, on learning of the arrest, reported that Wilson was wanted for the theft of \$5000 worth of goods in Boston.

The Postoffice Rakeup

Washington, April 16.—Fresh charges are being received constantly at the postoffice department in connection with the investigation now in progress, but their nature is being withheld from the public. Assistant Attorney General Tynes' resignation takes effect May 15. No successor has yet been chosen.

Stepped Upon Live Wire

Elizabeth, N. J., April 16.—Edward Burbank, 12 years old, stepped into the street last night to catch some wood which was drifting down in the gutter, when he stepped upon a live wire, which had fallen during the storm. The wire coiled about him and he burned to death.

A Denial From Taylor

Indianapolis, April 16.—Ex-Governor Taylor of Kentucky characterizes the story that he had offered Frank Cecil \$2500 to shoot Governor Goebel as "infamously false." He does not know Cecil, he says.

The Weather Forecast

Almanac, Friday, April 17.
Sun rises—5:02; sets—6:27.
Moon rises—11:48 p. m.

High water—3 a. m., 3:30 p. m.

Rain continues quite generally from the upper Mississippi valley eastward. Temperatures have changed but little and continue from 5 to 20 degrees below the seasonal average. Rain will continue in New England.

CITY BREVITIES.

Observations in Daily Walks of
Ledger Reporters.

Probably fair Friday.
A holiday next Monday.

The City Council will not meet next week.

Quite a number planned to go to Nantasket today to see the waves.

It looked this noon as though it would clear up this afternoon.

Stephen Peniman and Mrs. Thomas Magee returned from Maine Wednesday night.

Miss Mary Richmond of Providence, R. I., is the guest of her cousin, Miss Annie H. Leonard.

The Ward One branch of the People's union meet this evening in Woodward hall to discuss problems of importance.

Frank W. White and Dr. C. M. Marstin secured the prizes at the Granite City club whist tournament Wednesday evening.

The U. O. G. C. will hold a whist party in Wilson hall this evening, at 8 o'clock. It will be the last party of the season.

The members of the North Quincy club have postponed the poverty party on account of the minstrel show taking place this evening.

The Board of Health did not open the bids for doing the city scavenger work Wednesday night, as all the members were not present. They will be opened tonight.

Waverley Weeks, aged 12 years, who has been missing from his home about a week, returned Wednesday night safe and sound. He refused to tell where he had been.

No waits now at Mueller's hair dressing rooms. He has his third chair in commission and employs only experienced men.

We understand that Capt. "Al" Dearman is building a 32-foot gasoline launch for the proprietor of the Monaquet greenhouse, the well known owner of the boat Mutineer.

The commissioner's sale of the property of Augustus E. Lucas on Cuddington street, to have been held Wednesday, was postponed on account of the storm, until Saturday at 2 o'clock.

Capt. D. W. McQueen launched the good boat Eudora, and took a party of twenty about the bay Sunday. They all enjoyed themselves greatly, and on the return, at Capt. "Dan's" dock, gave him a rousing cheer for the first sail of the season.

The only case from East Norfolk settled at the Superior court at Dedham on Wednesday was that of William Haverhan of Quincy for exposing and keeping intoxicating liquors at Quincy. He was found guilty.

The hearing before the superior court next Tuesday, on the petition of Charles L. Prescott for an injunction to restrain the Board of Health from interfering with his doing scavenger work, will be at 10 o'clock.

If you have become blue over the weather the past few days, be sure to attend the W. Y. C. minstrels this evening at Quincy Music hall. Everything will be on a grand scale, refined and amusing. Commodore Wiley will be interlocutor.

The last concert, in the series given by the Chromatic club, at Chipman hall, Boston, on Friday mornings, is to be given tomorrow. A fine program has been arranged. Mrs. Edith Noyes Porter's new sonata "Atla" is to be played by Mr. Fred Mahn, and several of Mrs. Porter's Quincy friends are to be her guests at the concert.

Quincy Wins.

The Academics of Boston visited Quincy, Wednesday night, and rolled a match game on the Granite St. alleys. Quincy won two games out of the three, and although the scores did not run very high there was some good individual work by White and Moorhead of the Quincy team, who rolled 271 and 267 respectively.

Railway Men's Demands Refused

Bridgeport, Conn., April 16.—General Manager Sewell of the Connecticut Railway and Lighting company, announces that the demands of the motorman and conductors for a recognition of the union and 22½ cents an hour have been refused. He says, however, that on June 16 a graded wage scale will go into effect with a minimum of 19 cents and a maximum of 21 cents an hour.

Killed by Kick of a Calf

Littleton, N. H., April 16.—Roy Sampson, 12 years old, with another lad, was leading a bulky calf. The companion told Roy to go behind and push the animal. He did this and when a moment later the companion looked around was on the ground, dead. A black spot over the heart indicated that the calf had kicked Roy there, and he died with a laugh on his lips.

Accidents to Freight Trains

Waterville, Me., April 16.—A freight train broke apart while crossing Neonic bridge last night. When the ends came together a flat car was jack-knifed. Another wreck took place at Richmond later, when a freight broke apart. Two box cars were demolished. The train hands in both accidents escaped unhurt. "Traffic was blocked in both cases."

Warship on the Ohio River

Evansville Ind., April 16.—The U. S. monitor Arkansas has arrived here. Her coming was followed by a great demonstration. She is enroute to St. Louis to take part in the world's fair dedication. The Arkansas is the first modern warship to come up the Ohio as far as Evansville and is the first of any kind of war vessel that has visited port since the Civil war.

FROM CLUB FLOAT STAGE TO MINSTREL STAGE.

**The Jolly Tars of Wollaston Yacht Club Score a Great Hit--Greeted by
a Crowded House at Quincy Music Hall.**

The minstrel show of the Wollaston
Yacht club at Quincy Music hall last
evening came up to all expectations.
The efforts of the members were to
eclipse any similar entertainment ever
given in Quincy or vicinity, and the
verdict was in their favor without any
doubt. Everything was on a grand
scale and the prominence of the gentle-
men who backed up for the occasion,
and the unusual life they exhibited on
the stage made it an exceedingly enjoy-
able performance.

Every available seat in the auditorium
and balcony was taken, the audience
being composed very largely of Wollas-
ton people. Among the special guests
were Commodore Bryant and Secretary
Tribou of the Squantum Yacht club, and
Commodore Sheppard and Secretary
Robbins of the Quincy Yacht club.
Occupying the three front rows of seats
were about 100 students from Tufts
college, who added life to the show
with cheers, etc.

Even the ushers were backed up for
the occasion, and wore appropriate
suits, including fancy shirts, black
satin full dress coats, big ties, etc.
Vice-Commodore Walter F. Nichols was
head usher and his assistants were:
Harold Winslow, Hamilton C. Chase,
Harvey S. Jewel, Robert E. Comins,
George B. Bailey, Louis S. Cleaves,
Ernest Woodman, Franklin S. Nichols.
The minstrels were under the direc-
tion of Henry J. Ballou of the Oliver
Ditson Co., who also furnished the
orchestra of eight pieces, which rendered
excellent music and contributed to
the success.

Commodore Wiley as the interlocutor
was wonderfully at ease for an amateur;
the bones and tambos exhibited life
from the start, and the chorus was well
trained.
All the minstrels were backed up
and all wore wigs, those of the chorus
having short hair, while those of the
bones and tambos were of the "Topsy"
kind. The interlocutor was in full
dress, with large shirt front, huge dia-
monds and white tie. He displayed a
white chrysanthemum and carried a
huge yellow fan.
The bones and tambos wore black
satin knickerbockers, blue and white
striped shirts, white satin vests, scarlet
satin coats and large black ties, and
were adorned with white "mums."
The circle were in full dress with
black ties and white gloves.
In the circle or chorus were these
well known gentlemen: Charles W.
Page, Fenton Fowler, Fred S. Card,
Joseph E. Whittier, Fred H. Mitchell,
Herbert S. Mackey, Edward Mitchell,
Jr., George H. Murray, Gordon H.
Gannett, Joseph A. Mitchell, Ralph A.

P. Ela, Harrison B. Clement, Herbert
J. Gurney, George H. Stebbins, Fred
L. White, Alvar W. Park, Arthur E.
Linnell, Elmer Noyes, Lester Smith,
Peter Corvieveau, Horace Bates.

There two young pages, Robinson
Murray and George Weston who were in
front of and to the right and left of the
interlocutor. They were in court cos-

tumes with wigs of long waving hair,
and wore picture hats.

Applause greeted the minstrels when
the curtain went up, and from that
time on the audience was appreciative
and applauded heartily and generously
on all occasions.

The program was as follows:

Part I.
Overture--Mississippi Bubble,
Orchestra.
Opening chorus--"Our Annual,"
Arranged by Henry J. Ballou
I'm going to live anyhow till I die, Edmonds

TRAVELED 2300 MILES

**Abandoned Maine Schooner Drifted
Along With the Gulf Stream**

London, April 17--Schooner Eben-
ezer Haggitt, abandoned and dismantled,
has been towed into Flores, Azores isl-
ands. Part of her cargo of lumber
is gone.

The four-masted Ebenezer Haggitt, of
Damariscotta, Me., sailed from Brus-
wick, Ga., on Oct. 19 last for New
York. She was caught in a storm of
early November and dismantled. Her
master and crew of eight men were re-
scued from their water-logged vessel on
Nov. 10 and landed later at New York.
The vessel was abandoned in lat. 35.25,
long. 73.13. The derelict was carried
by the gulf stream in a northeasterly
direction and was last reported, ac-
cording to the United States hydro-
graphic office, where she was known as
No. 3044, in December, a distance of 7000
miles from where she was abandoned.
The drift of the schooner has since
been with the gulf stream and it is
estimated that she has traveled over
2000 miles in the 157 days she had
been adrift.

half-price introductory offer on the
regular fifty cent size of their cele-
brated specific for the cure of constipa-
tion and dyspepsia.

This medicine is a recent discovery for
the cure of all diseases of the stomach
and bowels. It not only gives quick re-
lief, but it makes permanent cures.
Dr. Howard's specific has been so re-
markably successful in curing constipa-
tion, dyspepsia and all liver troubles,
that Chas. C. Hearn is willing to re-
turn the price paid in every case where
it does not give relief.

Headaches, coated tongue, dizziness,
gas on stomach, specks before the eyes,
constipation, and all forms of liver and
stomach trouble are soon cured by this
scientific medicine.

So great is the demand for this specific,
that Chas. C. Hearn has been able to
secure only a limited supply, and every
one who is troubled with dyspepsia,
constipation or liver trouble should
call upon him at once, or send 25 cents,
and get sixty doses of the best medicine
ever made, on this special half-price
offer with his personal guarantee to
refund the money if it does not cure.

Was No Pleasure Trip

Sydney, N. S. W., April 17--Four
members of the German Antarctic ex-
pedition have arrived here from Ker-
guelen island, where, during 18 months,
this detached party pursued its investi-
gations. The members suffered from
the severe cold and privations. One
doctor succumbed and another, Dr.
Werth, who was the leader of the party,
is not likely to recover.

Lolita Armour Able to Walk

Chicago, April 17--Dr. Lorenz has
removed the cast from the leg of
Lolita Armour, upon whom an operation
for congenital dislocation of the hip
was performed last October. The limb
was found to be in perfect condition
and the patient is able to walk around
the house without any difficulty.

Suspect of Killing Brother

Groversville, N. Y., April 17--Andrew
Mosher has been arrested at Middle
Sprite, charged with the murder of his
brother. It is alleged that Mosher shot
his brother during a quarrel over the
prisoner's wife. At the time of the
shooting it was stated that a child had
been killed.

Entrusted With Secret Mission

San Francisco, April 17--Major Bern-
stein, chief of artillery of the army of
Bolivia, has arrived here on his way to
Japan, to which country, he says, he
has been sent as a special envoy by the
Bolivian government. He refuses to
divulge the nature of the mission.

The Weather Forecast

Almanac, Saturday, April 18.
Sun rises--5: sets--6:29.
Moon rises--12:00 a. m.
High water--3:45 a. m.; 4:15 p. m.
The storm that has dominated
weather conditions during the last
eight days is passing off the south
New England coast and the rain has
practically ended except in New Eng-
land. The weather will be fair in New
England, except rain in Maine.

Sizing Up Our Army Metho-

Washington, April 17--Major Gen-
eral Powell, the hero of Mafeking, is
on a visit to the United States to study
American cavalry tactics and methods.
He arrived here unannounced and
registered at the Arlington hotel under
an assumed name. He visited the war
department and paid his respects to the
officials there. The cavalry troops at
Fort Myer gave a special exhibition
of their proficiency in cavalry drill and
tactics for the benefit of the general,
who left here last evening to visit the
battlefields of Virginia.

L Road Troubles Hang Fire

New York, April 17--The Elevated
Railway employees voted unanimously
last night to sustain their executive
committee in standing out for a nine-
hour workday. President Popper said
that this does not necessarily mean a
strike, as President Mahon of the In-
ternational association had succeeded
in reopening negotiations with General
Manager Bryan of the company. Popper
also said that he had received a
proposition from Bryan which he could
not make public. He added that there
will be no strike just yet.

Mint Kept Busy

Philadelphia, April 17--There are
ready for shipment to the Philippine
islands 2,500,000 pesos, which were
coined at the Philadelphia mint in the
last 25 working days. On March 2
the act of congress providing for the
coining of money for the Philippine
islands became operative and orders
were at once sent to the San Francisco
and Philadelphia mints to prepare to
hurry the work of coining the pesos.
The coinage in this case is equal to the
minting of the same number of Ameri-

PALE WOMEN

A Bloodless Face In- dicates Trouble.

Watery Blood a Menace
to Health.

WE KNOW HOW PALE
PEOPLE CAN GET RICH
RED BLOOD.

COME AND LET US TELL YOU
ABOUT VINOL.

When blood is watery and thin, or
as doctors would say, lacks red blood
corpuscles, it is a sign that much is rad-
ically wrong.
We would advise everyone who has
such symptoms to start at once to
take a proper remedy to overcome this
trouble.
That remedy is Vinol, the greatest
and most modern tonic and builder.
Vinol owes its virtue to the fact that
it contains in a highly concentrated
state the active curative principles ex-
tracted from cod-livers, the same ele-
ments that have made cod-liver oil
famous for wasting diseases.

These medicinal elements are dis-
solved in a delicious table wine so that
Vinol is most palatable.
None of the vile-smelling obnoxious
grease that characterizes cod-liver oil
and frequently makes it an impossible
remedy for those who should take it,
is found in Vinol.

We could relate many instances
where Vinol has done good and re-
stored the roses of health to the pale
cheeks of the sufferer.

The following is a fair sample of the
way people write in regard to Vinol:
"For several months I suffered lassit-
ude and tired all the time. Also a
sinking feeling in my stomach, which
nothing would relieve, and I was pale
and weak. As an experiment I tried
Vinol and in a few days I could not
tell all it has done for me."—Mrs. A.
K. La Prusich, Amesbury, Mass.

Because we know Vinol so well,
and because we know so surely
what it will do, and how it will
accomplish the good it does in a
scientific way, we unreservedly en-
dorse and recommend it, and in
every instance guarantee to refund
to any one what they pay us for
Vinol if they do not find it entirely
satisfactory.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and
Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin
Caskoden's Memoir
By **EDWIN CASKODEN [CHARLES MAJOR]**
Copyright, 1902 and 1901, by The Boston-Merrill Company

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a
duelist on the field of honor and is appointed
captain of the king's guard at the English court.
The king's sister, Mary Tudor, quickly sets her
fancy upon the gallant stranger. Brandon
makes a confidant of Edwin Caskoden, master
of the dance. III.—Caskoden is attentive to
Lady Jane Bolingbroke, companion to the
princess. In a fit of petulance Mary rebukes
Brandon, then craves forgiveness. IV.—Brandon
teaches Mary a new dance learned in
France. The young princess is shocked at
first, then delighted with the sensation of Bran-
don's arm around her waist. Brandon declares
that the girl is perfect, but the game of making
love to royalty is dangerous. V.—Brandon
crosses swords with the Duke of Buckingham,
an unwelcome admirer of the princess. VI.—
Mary, Lady Jane, Brandon and Caskoden
ride to Windsor with the king. Mary shows
decided partiality for Brandon's company, and
on the return he is sent a day ahead of the
royal party. VII.—Louis XII of France asks
for the hand of Mary. Brandon to sail for
America to avoid Mary. Brandon is shocked
at his indifference. Overcome by her
pleadings, he makes a violent demonstration of
his love. VIII.—Mary and Lady Jane go in
disguise to consult a fortune teller. Brandon
follows unknown to Mary. Buckingham plays
the spy, and in a fight with Brandon he is
wounded and one of his suit killed. IX.—
Brandon in prison charged with murder. Mary
to plead with the king.

CHAPTER IX—Continued.

"Pardon me, what are you talk-
ing of, my lord? He has done nothing
to be pardoned for. He should be im-
mediately executed." Mary spoke im-
pulsively, but caught herself and tried
to remedy her blunder. "That is, if I
have heard the straight of it. I have
been told that the killing was done in
the defense of two—women." Think
of this poor, unconscious girl, so full
of grief and trouble, talking thus to
Buckingham, who knew so much more
about the affair than even she who had
taken so active a part in it!
"Who told you of it?" asked the
duke.

Mary saw she had made a mistake
and, after hesitating for a moment,
answered: "Sir Edwin Caskoden. He
had it from Master Brandon, I sup-
pose." Rather adroit this was, but
equidistant from both truth and ef-
fectiveness.

"I will go at once to London and ar-
range for Brandon's escape," said
Buckingham, preparing to leave. "But
you must not divulge the fact that I
do it. It would cost me all the favor I
enjoy with the people of London,
though I would willingly lose that fa-
vor a thousand times over for a smile
from you."

She gave the smile, and as he left
followed his retiring figure with her
eyes and thought, "After all, he has a
kind heart."
She breathed a sigh of relief, too, for
she felt she had accomplished Bran-
don's release and still retained her dan-
gerous secret, the divulging of which
she feared would harden Henry's heart
against her blandishments and strand
her upon the throne of France.
But she was not entirely satisfied
with the arrangement. She knew that
her obligation to Brandon was such as
to demand of her that she should not
leave the matter of his release to any
other person, much less to an enemy
such as Buckingham. Yet the cost of
his freedom by a direct act of her own
would be so great that she was tempt-
ed to take whatever risk there might
be in the way that had opened itself to
her. Not that she would not have
made the sacrifice willingly or would
not have told Henry all if that were
the only chance to save Brandon's life,
but the other way, the one she had taken
by Buckingham's help, seemed safer,
and, though not entirely satisfying, she
could not see how it could miscarry.

Buckingham was notably jealous of
his knightly word, and she had un-
bounded faith in her influence over
him. In short, like many another per-
son, she was as wrong as possible just
at the time when she thought she was
entirely right, and when the cost of a
mistake was at its maximum.

She recoiled also from the thought
of Brandon's "escape," and it hurt her
that he should be a fugitive from the
justice that should reward him, yet
she quieted these disturbing sugges-
tions with the thought that it would
be only for a short time, and Brandon,
she knew, would be only too glad to
make the sacrifice if it purchased for
him freedom from the worse than dam-
nation that lurked in the French mar-
riage.

All this ran quickly through Mary's
mind and brought relief, but it did not
cure the uneasy sense, weighing like
lead upon her heart, that she should
take no chance with this man's life and
should put no further weight or sacri-
fice upon him, but should go to the
king and tell him a straightforward
story, let it hurt where it would. With
a little meditation, however, came a
thought which decided the question and
absolutely made everything bright
again for her, so great was her capabil-
ity for distilling light. She would
go at once to Windsor with Jane and
would dispatch a note to Brandon at
Newgate telling him upon his escape
to come to her. He might remain in
hiding in the neighborhood of Wind-
sor, and she could see him every day.
The time had come to Mary when to
"see him every day" would turn Plu-
tonian shades into noonday brightness
and weave sunbeams out of utter dark-
ness. With Mary, to resolve was to
act; so the note was soon dispatched
by a page, and she had left the girls

wee on their road to Windsor.

Buckingham went to Newgate, ex-
pecting to make a virtue, with Mary,
out of the necessity imposed by the
king's command in freeing Brandon.
He had hoped to induce Brandon to
leave London stealthily and immedi-
ately by representing to him the evil con-
sequences of a break between the citi-
zens and the king, liable to grow out
of his release, and relied on Brandon's
generosity to help him out, but when
he found the note which Mary's page
had delivered to the keeper of Newgate
he read it, and all his plans were
changed.

He caused the keeper to send the
note to the king, suppressing the fact
that he, Buckingham, had any knowl-
edge of it. The duke then at once
started to Greenwich, where he ar-
rived and sought the king a few min-
utes before the time he knew the mes-
senger with Mary's note would come.
The king was soon found, and Buck-
ingham, in apparent anger, told him
that the city authorities refused to de-
liver Brandon except upon an order un-
der the king's seal.

Henry and Buckingham were in-
tensely indignant at the conduct of
the scurvy burghers, and an immense
amount of self importance was dis-
played and shamefully wasted. This
manifestation was at its highest when
the messenger from Newgate arrived
with Mary's poor little note as intend-
ed by the duke.

The note was handed to Henry, who
read aloud as follows:

To Master Charles Brandon, greeting:
Soon you will be at liberty, perhaps ere
this is to your hand. Surely would I not
leave you long in prison. I go to Windsor
at once, there to live in the hope that I
may see you speedily.
MARY.

"What is this?" cried Henry. "My
sister writing to Brandon? God's
death! My Lord of Buckingham, the
suspicious you whispered in my ear
may have some truth. We will let this
fellow remain in Newgate and allow
our good people of London to take
their own course with him."

Buckingham went to Windsor next
day and told Mary that arrangements
had been made the night before for
Brandon's escape and that he had
heard that Brandon had left for New
Spain.

Mary thanked the duke, but had no
smiles for any one. Her supply was
exhausted.

She remained at Windsor nursing
her love for the sake of the very pain
it brought her and dreading the battle
for more than life itself which she
knew she should soon be called upon to
fight.

At times she would fall into one of
her old fits of anger because Brandon
had not come to see her before he left,
but soon the anger melted into tears,
and the tears brought a sort of joy
when she thought that he had run
away from her because he loved her.
After Brandon's defense of her in Bil-
linggate Mary had begun to see the
whole situation differently, and every-
thing was changed. She still saw the
same great distance between them as
before, but with this difference, she
was looking up now. Before that
event he had been plain Charles Bran-
don and she the Princess Mary. She
was the princess still, but he was a
demigod.

So Mary remained at Windsor and
grieved and wept and dreamed and
longed that she might see across the
miles of billowy ocean to her love, her
love, her love! Meanwhile Brandon
had his trial in secret down in London
and had been condemned to be hanged,
drawn and quartered for having saved
her more than life itself.

Put not your trust in princes!

ACRIMONIOUS SPEECHES

Enliven Session of the Empire
State Senate

"INSURGENT REPUBLICANS"

Are Defended by Brackett, Who
Pitches into President Pro Tem
Raines and Draws Forth a Bitter
Personal and Political Battle

Albany, April 17.—Not since the
memorable days of the Conkling-Platt
insurrection has the state senate been
the scene of more bitter personalities or
of a more sensational political battle
than that when Governor Odell's nomi-
nation of Railroad Commissioner Frank
M. Baker to succeed himself was re-
jected by a coalition of Senators
Brackett, E. B. Brown and Elshberg—
the three so-called "insurgent Republi-
cans"—with the Democrats. An in-
tensely personal conflict was pre-
cipitated between Brackett and Senator
Raines, the Republican president pro
tem.

Senator Brackett took occasion to re-
call an attack of several years ago upon
the character of Senator Raines, in con-
nection with certain New York fire de-
partment legislation. Senator Raines'
reply began with Senator Brackett's
comment upon a New York morning
paper's quotation from Senator Raines
to the effect that the three "insurgent"
senators had not a drop of Republican
blood in their veins, and would never
be returned to the senate. Said Mr.
Brackett:

"When a senator goes so far as not
only to commit a breach of courtesy,
but to violate the decencies that should
prevail in private life, it is time some
notice should be taken of his actions.
Who is this mighty gentleman that
wants to read out of the party sena-
tors who have always done their sworn
duty and have been as loyal to the party
as he? We would study the history
of this man who has arrogated to him-
self the power of political life or death
to those who do not obey him."

"When the senator from the 42nd
(Raines) was selected without con-
sultation with the Republicans of this
body for leadership I, with Senators
Elshberg and Brown, did go to a man
high in power and suggest that there
might be objections to his being chosen
leader. The proposition which we
three made to this man high in power
regarding the leadership of the senator
from the 42nd was brushed aside. I
have no desire to go into the personal
record of the senator from the 42nd
and—"

"Don't hesitate, if you want to," in-
terrupted Raines.

Brackett, spurred on by Raines' in-
terruption, continued: "Such things
were said of the senator from the 42nd
that he deemed it proper to challenge the
truth of the assertions in a court of
law. He invoked the judgment of his
peers and the jury refused to acquit
him and he then permitted the action to
rest without further trial, content to
rest under the hideous charge that had
been made against him. I am willing,
if the senator will place his hand on
his heart and say that the charge is
not true, to believe it."

"When we went to New York re-
garding the leadership we urged that
Senator Malby should be made the pres-
ident pro tem of this body. But it
was said that Senator Malby had
'wobbled' at times; that he was not
absolutely controlled by orders and
that at times he had had the temerity
to vote as his conscience had dictated."

"The subsequent history is open and
is known to all. Our prophecy that he
(Raines) would never be the leader of a
majority of this senate has come true.
He was elected leader by his own vote.
The failure and humiliation are his
own. This is the man between whom
and the office of governor of this state
there are but two lives. I join my
godless prayers to those of the
righteous for the preservation of the
health of Governor Odell and of the
honored president of this body."

Every eye in the crowded chamber
turned upon Senator Raines as he arose
to reply. Said he:

"There is a Latin maxim to the ef-
fect that when fortune caresses a man
too much she oftentimes makes a fool of
him. When the powers that be caress
him as they did when they made him
chairman of judiciary, the rest fol-
lows."

"He has seen fit to refer to things in
my political record. If there is any
one who should go behind the door and
hate himself to death because of his
political career, it is the senator from
the 28th (Brackett)."

"There was a day when the editor of
a certain newspaper saw fit to publish
charges against me. I did not wait
longer than the next session of the sen-
ate to demand an investigation. This
investigation, made by an impartial
committee, arrived at the unanimous
verdict that the charges were false—
as false as the heart of the man who
ventured them today."

Senator Brackett replied:
"When the times shall come that I
shall be called on to reply to any
charges of a personal nature, and if,
in any action that I may bring, six men
out of 12 shall say on their oaths they
will not render me a verdict, so help me
God I shall never rest until it is said
either one way or another that I am in-
nocent or guilty. And in such a case I
shall never ask of my constituents or
my superiors that they give me recog-
nition until the question has been de-
cided one way or the other."

The doctor orders the medicine, the medicine
aids nature, and nature makes the cure. Ask

The Social Realm.

I like the man who faces what he must,
With a step triumphant, and a heart of cheer,
Who fights the daily battle without fear,
Sees his hopes fail, yet keeps the unflinching trust—
That God is God; that somehow true and just
His plans work out for mortals; not a tear
Is shed when fortune, which the world holds dear,
Falls from his grasp; better, with love, a crust,
Than living in dishonor; envies not
Nor loses faith in man; but does his best,
Nor ever murmurs at his humble lot,
But with a smile and words of hope gives zest
To every toiler; he alone is great
Who by a life heroic conquers fate.

Henry Hudson Kitson and his wife,
Theo Ruggles Kitson, who have re-
cently purchased the John W. Sanborn
estate, near Merrymount park, are two
of the most eminent sculptors in this
part of the country; members of the
group of five or six celebrated Ameri-
can sculptors. Quincy is much hon-
ored in being selected as the residence
for two such noted artists. They come
here from Savin Hill, their home being
on Evandale Terrace.

The Daughters of the Revolution are
to observe Patriots' day at Hotel Ven-
dome, Boston, at half-past two, when
Miss Clara B. Adams is to give an origi-
nal paper on Mother Goose, illustrated
with songs and tableaux. Dancing for
the children of the junior chapters will
follow and there will be refreshments.

Mrs. Frederick H. Bishop of Wollas-
ton, has been entertaining friends this
week from Fall River.

The meeting of the Friday club next
week will be at the home of Mrs.
Harry L. Rice, Adams street, with Mrs.
W. E. Alden in charge of the after-
noon's program. "Women in litera-
ture; Jane Austen Mary Russell Mit-
ford and Joanna Baillie," will be the
subjects for discussion.

After a short vacation at his home in
Wollaston, Mr. E. J. Sheldon returned
Sunday evening to Quebec.

As the week was closing and just be-
fore the glad Easter time, word was re-
ceived in Quincy of the death in Boston
of Mrs. Bessie Pratt, wife of Mr. James
F. Harlow. Although her health had
not been good for some time, the end
was sudden. Two babes, too young to
realize their loss, and a devoted hus-
band are left to comfort each other.
Funeral services were held in the
chapel at Mt. Auburn on Tuesday after-
noon, which were attended by Quincy
relatives and friends, as well as by
friends from Boston and vicinity.

Mr. Alan Avery Claffin, who has re-
cently come to Wollaston with his
family, has left for a southern tour in
search of recreation and health.

During the down-pour of Wednesday
about forty members of the Woman's
Press club assembled for breakfast at
Hotel Vendome, Boston, and a happy
time it proved to be, with members
present from Maine, New Hampshire,
Rhode Island, Boston and vicinity, all
with some bright story to tell. Among
those attending were Mrs. F. H. Bish-
op of Wollaston and Miss Annie L.
Prescott of Quincy. A happy bit in the
program was the singing by Miss Alice
Gertrude Coe of Atlantic, with Miss
Emma Curtin, also of Atlantic, at the
piano. The club was delighted with
Miss Coe's rich contralto voice and she
was heartily encored.

The Monday club of Weymouth hold
its next meeting on Monday next, when
a reception will be given to children.

Hon. Samuel L. Powers, member of
congress, will address the Current
Events club of Hyde Park, next Wed-
nesday morning, on "Some Impress-
ions of Life in Washington." Mr.
Powers is an interesting and fascinating
speaker and his subject will be treated
from the standpoint of experience.

Class 1903 of the Braintree High
school held a dancing party in the
Town Hall last night from eight to
twelve. The matrons were Mrs. B. H.
Woodsum, Mrs. C. H. Clapp and Mrs.
W. J. Robbins. During the reception
they were assisted in receiving by
Miss Alice Katherine Cummings, class
president. Several of the former High
school teachers were present. Cuff's
orchestra furnished their popular
music. The attendance was about fifty
couples. It is hoped the class realized
a sum of money to defray in part their
graduation expenses.

The next meeting of the Wollaston
Unity club on the evening of April 24
will be the last program meeting of the
year. The subject will be "Popular
Superstitions" with Mrs. Charles K.
Crane as director and Mrs. H. J. Gur-
ney, Miss Edith Randall and Rev. F.
W. Pratt will have the papers. There
will be music and "Flashlight" No. 9
will be read. At this meeting
also, the reports of the secretary and
treasurer will be presented and officers
elected for the ensuing year.

Miss Alice Cleaves of Somerville is

Mr. and Mrs. Harry L. Rice gave up
their apartments at Hotel Vendome,
Boston, last week and returned to their
beautiful home Grenwood, Adams
street.

Charles H. Davis is having an ex-
hibit of oil paintings at the art gallery
of Doll & Richards, Park street, Bos-
ton, which will continue through
Wednesday, April 29.

Mrs. Lyman Gates and daughter
Bessie, who have been spending the
winter in West Nashville, Tennessee,
returned to their home on Holbrook
avenue, Braintree Tuesday after spend-
ing a week in Washington and New
York.

Mrs. E. C. Butler and Mrs. Wilson
Marsh attended the Alliance meetings
at Rev. E. E. Hale's church, Boston,
and also at Dedham, as delegates from
the Quincy Alliance.

Mrs. Frederick Potter, who has been
stopping with her father, Mr. John Q.
A. Field, since the death of her
mother, returned to her home in Buf-
falo, N. Y., on Saturday.

Miss C. S. Hubbard and her sister re-
turned last week from a three months'
stay at Palatka, Florida. After the warm
weather and clear sky of Florida
Quincy seems rather cool and dull.

Cards are out announcing the wed-
ding of Miss Susan Wiswell Elliot,
daughter of Mrs. Nannie Elliot, to
Lewis Otto Robertson, at the home of
the bride's mother, 23 Williams ave-
nue, Hyde Park, on Wednesday eve-
ning, April 29.

Mr. Frederick H. Smith and son Mr.
Morton Smith, of the Point, are in
Washington.

The Junior Friday Club was enter-
tained on Monday afternoon, by Miss
Clara Merrill at the home of her sister,
Mrs. Arthur W. Hall. The papers were
on George Elliot and Charlotte Bronte,
the program for the afternoon being in
charge of Miss Alice Keith Prescott.

Mr. A. E. Sproul and son Avar
Sproul of Hancock street are spending
a few days in New Hampshire.

daughter of Ralph Waldo Emerson, has
been the guest this week of Mrs. E. C.
Butler.

Mr. and Mrs. Walter E. Burke of
Adams street, have rented the Dargin
estate on Woodward avenue, which
they will occupy this summer.

Mrs. E. C. Bumpus is to open her
beautiful home on Goffe street next
Tuesday afternoon, for a subscription
reading for the benefit of Christ church
rectory fund. Mr. Arthur Howard
Pickering of Boston will give Shakes-
perian readings, in which he excels.

Mrs. Chas. Field of Pleasant street is
visiting her sister at Pawtucket, R. I.

Mrs. Aiken of Yarmouth, N. S.,
was the guest the first of the week of
Mr. and Mrs. T. H. McDonnell of
School street.

MR. DAY'S BEQUESTS

**\$50,000 to Public Institutions and
Generous Sums to Friends.**

Several institutions were remembered
by the will of John J. Day of Quincy
in addition to the \$5,000 to the Quincy
Hospital mentioned yesterday, viz:
\$5000 to Boston college, for the estab-
lishment of a scholarship to be known
as the "John J. Day scholarship."
\$5000 to Carney hospital, for the
establishment of a bed to be known
the "John J. Day" bed.
\$5000 to the Working Boy's home,
Bennett street.
\$5000 to the home for Destitute Cath-
olic Children, Harrison avenue.
\$5000 to St. Joseph's home for Fe-
males, Boston.
\$5000 to St. Vincent's orphan asylum,
Camden street.
\$5000 to the house of the Good
Shepherd, Tremont street, Boston.
\$5000 to St. Mary's infant asylum,
Dorchester.
\$5000 to the Catholic convent in East
Boston.

In addition to the above mentioned
public bequests Mr. Day made the fol-
lowing distribution of his property:
To Bernard M. Murray, his heirs and
assigns, \$10,000. Mr. Murray being a
half-brother of Mr. Day.
To the pastor of St. Mary's church,
Endicott street, Boston, \$500. \$500 to
the pastor of St. John's Catholic church
at Quincy.

\$5000 to a niece of his wife, Miss
Jennie Tansey, to the son of a friend,
John McLaughlin \$5,000.
Various other sums to individuals.
To his friends, Mr. and Mrs. Tracy,
all the real estate owned by him in
Quincy, together with the sum of \$5000
each, and they are made residuary
legatees in the will.

Mr. Day appointed James F. Sweeney
of Maynard, executor and trustee un-
der the will, exempting him from giv-
ing any sureties on his bond. Mr.
Day left no personal property whatever,
and therefore the real estate was left
in trust to be sold by his executor and
trustee for the purpose of paying the
various legacies. The real estate of
the deceased in Quincy and Boston is
assessed for about \$250,000.

Mr. Day several years ago married
Miss Jennie B. Tansey, who died a
year and a half following the marriage.
The only child born to them died with-
in a short time thereafter, and since
the death of his wife Mr. Day had
lived with a friend and another, such
P. Tracy. About four years ago he
sold out his business in Boston and
came to Quincy. He was 51 years old.

Accident Association.

An accident association has been
formed at the Fore River Works. The
object is to provide a weekly benefit
for those members disabled, while do-
ing work for the company, and a death
benefit of \$200 to the heirs of the
member if killed. The men become
members by allowing a small sum to be
held back from their pay, weekly. The
association is controlled by twelve di-
rectors, three of whom are elected by
the company and the rest by the
members.

The many friends of Mr. G. E.
Crafts, supervisor of music in the
public schools of Braintree, are looking
forward to the concert to be given
under his management in Cochato hall
next Friday evening. His daughter,
Miss Blanche, as a violinist, is not only
an artist of great promise but every-
where she is applauded by musical
critics for her achieved skill.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English From Sir Edwin Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed. IX.—Brandon in prison charged with murder. Mary to plead with the King. Buckingham against the prisoner. The king discovers a note sent by Mary to Brandon. Brandon condemned to death.

CHAPTER X.

JUSTICE, O KING!

SUCH was the state of affairs when I returned from France. How I hated myself because I had not faced the king's displeasure and had not refused to go until Brandon was safely out of his trouble. It was hard for me to believe that I had left such a matter to two foolish girls, one of them as changeable as the wind and the other completely under her control. I could but think of the difference between myself and Brandon, and well knew, had I been in his place, he would have liberated me or stormed the very walls of London single handed and alone.

Next to myself I condemned those wretched girls for leaving Brandon to perish—Brandon, to whom they both owed so much. Their selfishness turned me against all womankind.

I did not daily this time. I trusted to no Lady Jane or Lady Mary. I determined to go to the king at once and tell him all. I did not care if the wretched Mary and Jane both had to marry the French king or the devil himself. I did not care if they and all the host of their petulant sisterhood went to the nether side of the universe, there to remain forever. I would retrieve my fault in so far as it was retrievable and save Brandon, who was worth them all put together. I would tell Mary and Jane what I thought of them, and that should end matters between us. I felt as I did toward them not only because of their treatment of Brandon, but because they had made me guilty of a grievous fault, for which I should never so long as I lived forgive myself. I determined to go to the king, and go I did within five minutes of the time I heard that Brandon was yet in prison.

I found the king sitting alone at public dinner and, of course, was denied speech with him. I was in no humor to be balked, so I thrust aside the guards and, much to everybody's fright, for I was wild with grief, rage and despair and showed it in every feature, rushed to the king and fell upon my knees at his feet.

"Justice, O king!" I cried, and all the courtiers heard. "Justice, O king, for the worst used man and the bravest, truest soul that ever lived and suffered!" Here the tears began to stream down my face and my voice choked in my throat. "Charles Brandon, your majesty's one time friend, lies in a loathsome, rayless dungeon, condemned to death, as your majesty may know, for the killing of two men in Billingsgate ward. I will tell you all. I should be thrust out from the society of decent men for not having told you before I left for France, but I trusted it to another who has proved false. I will tell you all. Your sister, the Lady Mary, and Lady Jane Bolingbroke were returning alone after dark from a visit to the soothsayer Grouche, of whom your majesty has heard. I had been notified of the Lady Mary's intended visit to him, although she had enjoined absolute secrecy upon my informant. I could not do so, being detained upon your majesty's service—it was the night of the ball to the ambassadors—and I asked Brandon to follow them, which he did without the knowledge of the princess.

"Upon returning the ladies were attacked by four ruffians and would have met with worse than death had not the bravest heart and the best sword in England defended them victoriously against such fearful odds. He left them at Bridewell without hurt or in-

jury, though covered with wounds himself. This man is condemned to be hanged, drawn and quartered, but I know not your majesty's heart if he be not at once reprieved and richly rewarded. Think, my king! He saved the royal honor of your sister, who is so dear to you and has suffered so terribly for his loyalty and bravery. The day I left so hurriedly for France the Lady Mary promised she would tell you all and liberate this man who had so nobly saved her, but she is a woman and was born to betray."

The king laughed a little at my vehemence.

"What is this you are telling me, Sir Edwin? I know of Brandon's death sentence, but much as I regret it I cannot interfere with the justice of our good people of London for the murder of two knights in their streets. If Brandon committed such a crime, and I understand he does not deny it, I cannot help him, however much I should like to do so. But this nonsense about my sister! It cannot be true. It must be trumped up out of your love in order to save your friend. Have a care, good master, how you say such a thing. If it were true, would not Brandon have told it at his trial?"

"It is as true as that God lives, my king! If the Lady Mary and Lady Jane do not bear me out in every word I have said, let my life pay the forfeit. He would not tell of the great reason for killing the men, fearing to compromise the honor of those whom he had saved, for, as your majesty is aware, persons sometimes go to Grouche's for purposes other than to listen to his soothsaying. Not in this case, God knows, but there are slanderous tongues, and Brandon was willing to die with closed lips rather than set them wagging against one so dear to you. It seems that these ladies, who owe so much to him, are also willing that he should die rather than themselves bear the consequences of their own folly. Do not delay, I beseech your majesty. Eat not another morsel, I pray you, until this brave man, who has so truly served you, be taken from his prison and freed from his sentence of death. Come, come, my king, this moment, and all that I have, my wealth, my life, my honor, are yours for all time."

The king remained a moment in thought, with knife in hand.

"Caskoden, I have never detected you in a lie in all the years I have known you. You are not very large in body, but your honor is great enough to stock a Goliath. I believe you are telling the truth. I will go at once to liberate Brandon, and that little hussy, my sister, shall go to France and enjoy life as best she can with her old beauty, King Louis. I know of no greater punishment to inflict upon her. This determines me. She shall coax me out of it no longer. Sir Thomas Brandon, have my horses ready, and I will go to the lord mayor, then to my lord bishop of Lincoln and arrange to close this French treaty at once. Let everybody know that the Princess Mary will within the month be queen of France." This was said to the courtiers and was all over London before night.

I followed closely in the wake of the king, though uninvited, for I had determined to trust to no one, not even his majesty, until Brandon should be free. Henry had said he would go first to the lord mayor and then to Wolsey, but after we crossed the bridge he passed down Lower Thames street and turned up Fish street hill into Grace Church street toward Bishopsgate. He said he would stop at Mistress Cornwallis' and have a pudding and then on to Wolsey, who at that time lodged in a house near the wall beyond Bishopsgate.

I well knew if the king once reached Wolsey's it would be wine and quots and other games, interspersed now and then with a little blustering talk on statecraft, for the rest of the day. Then the good bishop would have in a few pretty London women, and a dance would follow, with wine and cards and dice, and Henry would spend the night at Wolsey's and Brandon lie another night in the mire of his Newgate dungeon.

I resolved to raise heaven and earth, and the other place, too, if necessary, before this should happen. So I rode boldly up to the king and with uncovered head addressed him: "Your majesty gave me your royal word that you would go to the lord mayor first, and this is the road to my lord bishop of Lincoln. In all the years I have known your majesty, both as gallant prince and puissant king, this is the first request I ever proffered, and now I only ask of you to save your own noble honor and do your duty as man and king."

These were bold words, but I did not care one little farthing whether they pleased him or not. The king stared at me and said:

"Caskoden, you are a perfect hound at my heels. But you are right. I had forgotten my errand. You disturbed my dinner, and my stomach called loudly for one of Mistress Cornwallis' puddings, but you are right to stick to me. What a friend you are in case of need! Would I had one like you."

"Your majesty has two of whom I know—one riding humbly by your side,

al side and the other lying in the worst dungeon in Christendom."

With this the king wheeled about and started west toward Guildhall.

To the lord mayor we accordingly went without further delay. He was only too glad to liberate Brandon when he heard my story, which the king had ordered me to repeat. The only hesitancy was from a doubt of its truth.

The lord mayor was kind enough to say that he felt little doubt of my word, but that friendship would often drive a man to any extremity, even falsehood, to save a friend.

Then I offered to go into custody myself and pay the penalty, death, for helping a convicted felon to escape if I told not the truth, to be confirmed or denied by the princess and her first lady in waiting. I knew Jane and was willing to risk her truthfulness without a doubt—it was so pronounced as to be troublesome at times—and as to Mary—well, I had not doubt of her either. If she would but stop to think out the right, she was sure to do it.

LELAND'S NOTED BALLAD.

Author's Story of How "Hans Breitmann's Party" Was Written.

To the late Charles Godfrey Leland, journalist, philologist, art commissioner and all round man of letters, "Hans Breitmann" brought the fate of the author of some hastily dashed off jingle which so tickles the public fancy as to partly eclipse his more serious sayings and doings, says the Philadelphia Press. He regarded his researches, in gypsy lore and his efforts for the promotion of art education in the schools as the important work of his life, but people persisted in knowing him best as the author of "Breitmann."

"I had one day in Graham's Magazine a space to fill," wrote Mr. Leland in his "Memoirs," published in 1893. "In a hurry I knocked off 'Hans Breitmann's Party.' I gave it no thought at all. I little dreamed that in days to come I should be asked in Egypt and on the blue Mediterranean and in every country in Europe if it was its author."

The success of the following half dozen stanzas in burlesque Pennsylvania Dutch, written hurriedly, as he says, in 1856, was phenomenal. More than 50,000 copies of the pamphlet collection of it and other ballads were sold the first year it appeared. At one time Hans figured in four London theaters at one time, and a weekly paper bearing the title Hans Breitmann was started, without, however, the author's sanction or complicity.

Nothing Like Experience.

"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy and learn from his own experience how quickly it gives relief, and he will remember by all that his life. CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 19.—Comment by Rev. S. H. Doyle.

Topic.—The sacred Sabbath.—Matt. xii, 1 and 13.

The Lord's day is one of the great facts of Christendom. Account for it; explain it. It is an effect; give us the cause. To do this brings us face to face with Jesus Christ and the resurrection. On that day all Christendom is at rest. Mills, factories and stores are closed. Why so different from other days? This is a twentieth century fact worthy of meditation.

The Sabbath is one of the oldest institutions. When the Decalogue was written, it simply referred to and confirmed an established institution. "Remember the Sabbath day to keep it holy."

Why was the day of rest and worship changed from the seventh day of the week to the first?

The seventh day Sabbath shared the sepulcher of Christ, but not His resurrection. One was the Sabbath of nature, the other the Sabbath of grace; one was the Sabbath of a rejected, crucified and buried Christ, the other the Sabbath of a risen and exalted Lord; one was the Creator's Sabbath, the other the Redeemer's Sabbath. The first day of the week Sabbath is one of the strongest proofs of Christ's resurrection. The disciples of Jesus had been bigoted Sabbatarians. They would have died to defend the seventh day Sabbath. Suddenly they change and by a silent revolution accept the Christian or first day of the week Sabbath. Some mighty influence must have been exerted. Why did they change? They tell us that it was because Christ rose from the dead on the first day of the week. He appeared to them again and again on the first day of the week and breathed on them the Spirit. The ascension and Pentecost occurred on the first day of the week. They must have understood Christ to teach by all this that the first day of the week was to be henceforth their holy day. Intuitively they abrogated the seventh day of the week and accepted the first day as the Christian Sabbath. The Sabbath we use is a witness of Christ's resurrection and will remain the day of worship until the end of the world.

The day is to be kept holy and free from secular employment.

1. Because God commands it. This day "was not smuggled into our calendar by a crafty church," as some other holy days have been, "nor is it sustained by designing priests." God made the Sabbath for man.

2. Because Christianity demands it. If you remove the Sabbath or secularize it, then the Bible becomes a sealed book, the gospel ceases to be proclaimed, churches are closed, mission doors shut, the people cease to worship, and the world returns to heathenism.

3. Because man's constitution demands one day in seven for rest. Aside from the gift of God's beloved Son, heaven never bestowed a greater blessing on a race of toilers than a Sabbath of rest. People who can rest when they please may not appreciate it, but the great mass of humanity are in the ceaseless grind of toil. Remove this day of rest, and life becomes a desert without an oasis. The Sabbath of rest is the workingman's inalienable, heaven born right, and no human institution has a right to take it from him.

In America secularism is threatening the holy day. If saloons and candy and cigar shops are permitted to remain open on the Sabbath, why have not all stores the same right? If newspapers, steamships, electric and steam cars are allowed to operate on the Sabbath, why not the mills and factories, the mines and farms? If secularism continues, as it likely will, man will be forced to labor seven days in the week, with no day of rest, and the nation will surely deteriorate. Continental Europe has no Sabbath, and look at her mental and moral degradation. All Christians should sustain the sacredness of the Sabbath by word and by life.

Endeavor.

Though the difficulties throng,
And the struggle may be long,
And the power of evil strong,
Hope on.
For to patient, brave endeavor
Cometh utter failure never,
And the crown at last forever
Shall be won.

The Pastors' Verdict.

The verdict of an army of pastors at a recent international convention was that where there are Christian Endeavor societies there is intense loyalty to the Sunday and midweek church meetings.

A Big Convention.

The last New York state convention at Troy had a registration of more than 3,000 delegates.

westerly, again southeasterly, again southwesterly
and again southeasterly twenty-six hundred
and five and 5-10 (2605.5) feet more or less by
land now or late of Perry, excepting therefrom
a strip of land conveyed to the Fore River Ship
and Engine Company in the easterly portion of said
land; containing twenty-three
and (41-100) 23.41 acres.

Second Parcel. Southwestly by Commercial
Street seventeen hundred and nineteen (1719)
feet more or less; westerly, northwesterly
northerly, easterly, northerly, northeasterly and
northwesterly by land now or late of Stetson,
Patch, Gustafson and another fifteen hundred
and fifteen (1515) feet more or less, excepting
therefrom land heretofore conveyed to the Fore
River Ship and Engine Company, being a strip
of land in the southeasterly part of said lot;
containing thirty and 10-100 (30.10) acres.

Third Parcel. Easterly by Washington Street
sixty-eight (68) feet; northerly by land of
Freeman Arnold one hundred fifty-six (156)
feet; easterly by said Arnold land sixteen (16)
feet; northerly again by land now or late of
Bates twenty-nine and 2-10 (29.2) feet; westerly
by land of Frank Dearing and land of Dr.
Haven Dearing seventy-eight and 3-10 (78.3)
feet; southwesterly by land of said Dr. Haven
Dearing four and 10-100 (4.10) acres; westerly
by land of the Town of Braintree one hundred
seventy-five and 15-100 (175.15) feet; containing
twelve thousand five hundred thirty-five (12,535)
square feet.

Fourth Parcel. A certain parcel of marsh
land situated in said Quincy, bounded as fol-
lows: Northerly, northeasterly and south-
easterly by the center of Rye Island Creek, ten
hundred seventy (1070) feet, more or less;
northeasterly by land of the Commonwealth of
Massachusetts, one hundred forty-nine (149)
feet; northwesterly by land of said Common-
wealth, one hundred fifty (150) feet; westerly
and southwesterly by land of said Common-

SAILING OF CUP RACES

Will Not Be Delayed by Ac-
cident to Shamrock III

LIPTON PAINFULLY INJURED

When His Challenger Was Dismasted
In a Squall and Left a Helpless
Wreck—Details of Disaster in Which
a Man Was Drowned

Weymouth, Eng., April 18.—Mis-
fortune which seems to have pursued
Shamrock III culminated in a gust of
wind which dismasted her and leaves
the beautiful challenger lying a help-
less wreck in Portland harbor. The
accident will necessitate a delay cer-
tainly of a month and probably of six
weeks in the challenger's sailing for
America, but Sir Thomas Lipton said
to The Associated Press correspondent
that the accident would not be allowed
to interfere with her presence at New
York in time for the cup races.

"My injuries," added Sir Thomas,
"are painful. I was badly shaken by
the fall and have a severely smashed
hand, but everything is insignificant
compared with the loss of poor Collier
(a brother-in-law of Captain Wringe,
who was killed in the accident), who
has been continuously in my service
since the time of the first Shamrock.
You can rebuild a yacht, but you can't
replace a man."

The yachts were maneuvering in the
roadstead, under mainsails, jibs, fore-
sails and gaff topsails prior to the
start. A strong northeast breeze was
blowing but there was nothing in the
nature of a gale. The boats seemed to
carry their racing sails well as they
fetched out from the shelter of the
breakwater, Shamrock III leading on
a tack out seaward, apparently with
the intention of testing the strength of
the wind outside. The breeze had just
weight enough to keep her leeward dip-
ping. Before starting Sir Thomas
Lipton, the sailmaker, and Colonel
Sharmann Crawford, vice commodore of
the Royal Ulster Yacht club, boarded
the challenger, which made a magnifi-
cent picture, as under her cloud of can-
vas she drove past Notte Head.

The Erin had taken up a position to
send the boats away, round a triangular
course, and everything seemed to prom-
ise a fine race. Shamrock III then
made a short board on the port tack,
dragging through a heavy squall with
her lee decks awash. When nearly a
mile off shore, she stood about on the
starboard tack, to stand up to crossing
the line, when a sudden gust of wind,
sweeping out of Weymouth bay,
struck the yacht and completely dis-
masted her.

The weather rigging screws of her
main shrouds gave way and her mast
carried away close to the deck, and with
it went sails and gear in a confused
mass of wreckage. As the shrouds
gave way the immense steel tubular
mast swayed for a fraction of a second,
bent like a tube of paper and went
overboard, creating general havoc as
it went.

So sudden was the calamity that the
yacht lay wrecked and helpless before
those on board of her well realized what
had happened. Fortunately most of the
tremendous weight of the gear fell clear
of the deck, as otherwise the disaster
must have been multiplied tenfold. Col-
lier was struck by some of the tum-
bling gear and knocked overboard. The
rattle of blocks and wire ropes on the
metal deck of the boat drowned all
other sounds for the time. The hull
which followed was broken by a sharp
order from Captain Wringe to get away
a boat. The captain's self-possession
spurred the crew to instant action, and
a boat was put overboard, manned and
started to search for Collier. Boats
were also dropped from Shamrock I and
Erin, and in a couple of minutes these
were all heading for the scene of the
accident. Collier, however, never re-
appeared. A number of others were in-
jured by falling gear, but none was
seriously hurt.

Clearing away the wreckage was
quite a difficult task, owing to the
nature of the spars and gear. The Erin
passed a line to the wrecked yacht,
and stood by her to give all the aid ne-
cessary. Sir Thomas, who was extreme-
ly distressed by the fatality and the in-
jury to the yacht, said in an interview
that the accident occurred absolutely
without warning, and much quicker
than when Shamrock II was similarly
dismasted in the Solent.

The hull of Shamrock III was not
damaged. The mast went overboard in
one solid piece. There was at that
time only one break, which was about
seven feet above the deck. As the big
spar, with its weight of canvas, became
heavier, owing to the water in it, the
mast again buckled, its head going
down till it rested on the bottom. It
is believed it will be comparatively easy
to repair the mast, but a whole suit
of canvas is ruined.

Sir Thomas Lipton had a narrow
escape. He was thrown down the
hatchway with a sailor and fell with
such force as to break the board floor-
ing covering the tank.

"The whole thing," said Sir Thomas,
"in an interview, 'was so sudden that
I have not yet had time to realize
the full extent of the damage. I heard
only a ripping sound forward and then
the whole structure wavered. While
it was swaying I was knocked down
the hatchway and through the flooring.
When I scrambled on deck again the
whole catastrophe was over. The ac-
cident will possibly delay us a month."

DAMAGING EVIDENCE

Said to Have Been Found Against
Mafia Band in New York

New York, April 18.—Letters and
other papers discovered among the ef-
fects of members of the Mafia band
arrested Wednesday night convince the
authorities that the victim of the barrel
murder was lured to the city and mur-
dered, because his associates had
learned that he had turned traitor and
disclosed information which brought
about the arrest of several members
of an Italian secret society which has
ramifications in practically every city
in this country.

A reign of terror has been inspired
throughout the local Italian colonies.
Men speak of the Mafia with bated
breath or deny that it has an existence.
Several admit that if they have any in-
formation connected with the death of
the man at the morgue they would not
dare divulge it.

The 13 prisoners held on suspicion
of connection with the murder were
arraigned in court again yesterday.
Counsel for Inzarillo, proprietor of the
grocery store at 226 Elizabeth street,
in which it is believed the murder was
committed, demanded to know upon
what authority the man were held. De-
fective Carey said he believed all of
the men were concerned in the murder.
The prisoners were held until Sunday
day.

Agent Flynn of the local secret service
bureau says that this gang belonged to
the Mafia of Palermo and that Morello
was the head of that branch in Amer-
ica and Lupo its treasurer. Both are
under arrest. Flynn believes that the
victim of the murder was connected
with the Mafia in some other city, came
to New York from New Orleans, and
that his death had been planned be-
fore he arrived here.

Bunch of Officials in Jail

Mayaguez, P. R., April 18.—Chief
Hamill of the insular police has arrested
Mateo Fajardo, the mayor of May-
aguez, charged with municipal frauds of
large amounts. The police have been
shadowing the mayor, as it was rum-
ored that he was preparing for flight.
The amount of the bond was fixed at
\$30,000. Fajardo refused to allow his
friends to furnish the bond. He was
taken to jail, followed by 200 carriages
and tremendous crowds, including
women and children, crying, wailing
and decrying the police. The super-
intendent of public works, former
chief of police, market superintendent
and four other employees of the public
works department were taken to jail.

Besson Wants Jury Hearing

Paris, April 18.—M. Besson, editor
of The Petit Dauphinois of Grenoble,
who charged Edgar Combes with hav-
ing offered through an intermediary to
secure for the monks of the Grande
Chartreuse authorization to remain in
France on the payment of \$200,000, of
which \$20,000 would be given to Besson
as his commission on the transaction,
was questioned on the subject by
Magistrate Valley. He declined to
testify, claiming that the charge
should go to a jury, where he would
testify. Besson also declined to con-
front the parties concerned in the charge
until a jury had heard the case.

Champion Gunners of the Navy

Pensacola, Fla., April 18.—The gun-
ners of the battleship Alabama are now
the championship marksmen of the
American navy, having scored a gen-
eral average of 59.7 out of a possible
100 at target practice. This covers the
work of one week, with guns of all
calibres. At no time did the vessel
steam at a rate of less than 10 knots
or at a range less than 1400 yards.
The record takes the championship
honors from the Massachusetts, which
made a general average of 56 percent.

Municipal Ownership of Railways

Springfield, Ills., April 18.—The house
committee on municipal corporations
has agreed upon a bill authorizing
every city in the state to own, con-
struct, purchase, mortgage and lease
street railways. Fundamentally, the
bill is intended to permit the city of
Chicago to own the present system
of street railways.

President Viewing Geyers

Cinnabar, Mont., April 18.—No news
has been received from the president
since he left for Norris, in the Yellow-
stone, to view the geysers. As the
trail had been made passable in the
worst places, it is supposed that he
reached his destination safely.

Good Afternoon.

It would seem as though some differ-

ent rule should be in force in regard

to the opening of the draw in the

Quincy Point bridge, so as not to seri-

ously delay street travel. If a car is

due and in sight it should be allowed

to cross the bridge before the draw is

opened. Friday morning the ten-min-

utes-of-eight car from Quincy reached

the bridge just in time to be held up

by the draw, to open the draw. Three

men handled the machinery, but it

was slow work, as the wind was

blowing a gale. The tug and flat scow

which wished to pass was fastened to

the wharf, so that if it had waited a

minute longer for the car to pass over

it would not have bothered them much.

When the draw was opened the tug

passed through to the coal wharf, where

it left the scow, and then went

back up the river, the draw being open

all the time. In the meantime the

car on the bridge rocked in the breeze,

and the passengers consulted their

watches and commented on the speed

of the working of the draw. After a

delay of fifteen minutes or more the car

proceeded on its way, picking up en

route several school children who had

stood on the street in all the down-

pour of rain and fierce wind waiting

for the car to come along, while some

of the passengers missed connections at

the end of the line.

All this seems vexatious, but when

the performance was repeated for the

same tug an hour or two later on a re-

turn trip of the same car it ceased to

be funny. As the cars ran on regular

schedule time, often with just enough

time to make train connections, why

cannot the opening of the draw be ar-

ranged to accommodate all parties.

Some organizations which give en-

tertainments and social events expect

reporters will attend uninvited, but the

newspaper men do not wish to intrude.

Successful.

A large and enthusiastic audience

gathered in Atlantic Music hall last

evening to enjoy the minstrel enter-

tainment given by local representatives

under the auspices of the Ladies' Be-

nevolent society of Memorial church.

The programme was as follows:

Overture and opening chorus, By the Company

"A Little Boy in Blue," Mr. Gassett

"Just Kiss Yourself Good-Bye," Mr. Moffatt

"Dreams of Home," Mr. Thomas

Remarks on Matrimony, Topsy Snowflake

"Song of the Chimes," Miss Susie May Hall

"Lazy Bill," Mr. Ware

"My Dream of You," Mr. Hill

"I'm A-Looking at You, Lize," Mr. Curtin

"Eva," Mr. Huckins

"Susie Anna," Mr. Coles

"Under the Bamboo Tree," Mr. Sullivan

"I'm A Lady," Sweet Maie Blondine

Grand March, By the Company

Character Sketch, "The Hoo-Doo-Do-Do," [Man]

Miss Chioe Nightingale, Miss Francis Bellows

Master Dwight Gearwar.

"The Sword of Ferrara," Bullard

Mr. Sullivan.

"Nob'dy Lookin' But the Owl and the Moon,"

Phoebe Snowball

Cake Walk, Evealena Persimmon and

Erastus Overshoe

The whole show passed off smooth-

ly and brightly. The music was under

the direction of Mr. Elmer H. Mann-

ing, the local jokes under the direction

of Mr. Charles R. Safford interlocutor.

The soloists were roundly applauded,

and responded to the encores, and the

cake walk by Miss Francis A. Hayes

and Mr. Frank Curtin was graceful

and effective. Mr. Curtin's buck and

wing dance, which he did alone owing

to the illness of Pete Goosejoint,

brought down the house.

The pianists were Miss Francis A.

Hayes and Mr. F. Cazeau Litchfield.

Mr. J. Sauborn was head usher, assisted

by Mr. Charles Hall and Mr. Ernest

Hendrie. Each 504 seat holder was

presented with a box of chocolates, and

a five pound box was given to the

owner of the seat check which should

be drawn out of a hat by Miss Francis

Bellows. The entertainment was

given for the benefit of the new church

fund.

AT MUSIC HALL.

A large and enthusiastic audience

greeted the South Quincy Social club

at Quincy Music hall, last evening on

the occasion of the club's seventh annu-

al minstrel show and dance.

J. J. Phelan was the musical direc-

tor of the show, James Hayes the stage

manager, and James Norrie the ac-

companied.

The interlocutor was M. J. Lennon.

Phil Savard, Alfred Knight and Bill

Malcolm rattled the bones, and Mat

Fay, Joe Daly and Andy Dinegan played

the tambos.

The end men were filled to overflow-

ing with jokes and stories, and several

well known people were made the butt

of their wit. Some of the jokes were

rather pointed but they pleased the

audience.

The program opened and closed with

a chorus by the company and between

were solos by Mat Fay, Bill Mal-

colm, Lewis Griffiths, Joe Daly, R.

Wood, Alf Knight, Andy Dinegan,

Phil Savard; selections by the Quincy

quartette composed W. C. Warrington,

J. E. Glover, J. C. Pierce and Guston,

well and many others. It was the fixed

day for the wedding of Mr. Walter G.

Young of 106 Granite street of this city

to Miss Florence Rushton of Lowell.

The ceremonies took place at the

bride's home at 5 o'clock in the even-

ing. Before the assembled guests and

her waiting groom appeared the young

handsome bride richly attired in a

beautiful bridal gown of white crepe de

chaine over white silk artfully em-

broided and trimmed with Irish

point medallions. She carried grace-

fully a pretty bouquet of Easter lilies.

The bridesmaids were dressed in

white silk muslin over white silk.

Miss Nellie Maxwell of Norfolk Downs

acted as flower girl.

After receiving hearty congratulations

and Godspeed wishes from one and all,

the young married couple took their

departure for a short wedding tour.

Mr. Walter G. Young is the youngest

member of the highly respected and

well known family of Mr. Andrew Young

of 106 Granite street and it is here in

**But Irish Tenants Want Land
Bill Amendments**

IRISH WIT AND ELOQUENCE

In Full Sway at Dublin Convention,
Where Pass onate Discontent With
Some Features of the Measure Was
Triumphed Over by Its Adherents

Dublin, April 17.—By a unanimous
vote the Irish National convention
which met here accepted in principle
the Irish land bill introduced in the
house of commons by Mr. Wyndham,
chief secretary for Ireland, and en-
trusted to John Redmond and his party
the task of securing in the house of
commons "serious amendment in vari-
ous points of vital importance," which
the national convention may consider
essential. The convention will outline
today the shape that the amendments
should take and on Saturday Lord Dun-
raven, Lord Mayo, Captain Shaw-
Taylor, John Redmond, William
O'Brien and T. W. Russell are likely to
meet at a round conference table to
discuss the landlords' and tenants'
opinions on the land bill and try to ar-
rive at a common basis of parliamentary
action.

The proceedings at the convention
revealed passionate discontent with
various features of the bill, but nothing
so serious as to indicate a danger of
its ultimate rejection. Even Michael
Davitt, who had an opportunity of
dividing the delegates into two bitterly
opposing camps and who, amidst dra-
matic excitement, subordinated his
own views, pledged himself to abide
by the verdict. John Redmond and
William O'Brien triumphed over all
objections; indeed, the objectors, save
Michael Davitt, were scarcely given a
hearing by the perfunctory delegates.

For six hours without a break the dele-
gates listened to the speeches of their
leaders, spiritual and political.

Not for many a day has such a repre-
sentative gathering been seen in Dub-
lin. Irish wit and eloquence lived up
to its reputation. Speaker after
speaker brought the audience to that
pitch of enthusiasm where hats were
thrown up and men stood yelling with
delight upon the chairs. When a plat-
form speaker failed to please, comments
from the audience supplied an impetus
to the motions. The crowd was irre-
pressible. Old men, white relics of the
land league, young farmers, rising fac-
tors in the United Irish league, fresh
from the fields of Connaught and Dun-
ster, county councilors, priests, young
and old, rose constantly from their
seats to hurl some interjection of ap-
proval or otherwise at the speaker.

The force of habit was far too strong
to prevent the sons of the soil from
cheering madly when some speaker re-
ferred to the landlords as "blood-
suckers," which not infrequently
brought the response from the body of
the hall "To hell with them." "Good
man," the audience would shout when
William O'Brien, Michael Davitt or
some other popular orator voiced the
prevailing sentiment.

Throughout the day this gathering of
Irish tenants so picturesque, so ter-
ribly earnest, so swayed by the elo-
quence of the Irish leaders, never
ceased to make a fit setting for the
heroic epithets in which the speakers
described the convention and the is-
sues depending on its decision. Through-
out the various waves of emotion John
Redmond sat in the chair, impassive
and keeping order, "like Parnell," as
an old Nationalist said. His head was
constantly endangered by the swinging
hands and arms of the speakers.

William O'Brien and Michael Davitt
were the heroes of the hour. T. W.
Russell, the Ulster member, who unex-
pectedly appeared in the hall, received
a great welcome from his former op-
ponents. Much significance is attached
to his presence, as he is not a mem-
ber of the Nationalist party. After the
convention all the leaders expressed to
The Associated Press correspondent
their complete satisfaction at the pro-
ceedings and the practical unanimity
of so many representative bodies
throughout Ireland.

"Eager for peace, but ready for war,
in case the English wish to continue,"
was, to quote one speaker, the keynote
of the convention.

Big Blast Furnace Working
Marquette, Mich., April 17.—The new
blast furnace of the Cleveland Cliffs
Iron company, said to be the largest in
the world, has gone into commission.
It has taken more than two years to
build the furnace, which has cost \$1-
000,000. Its daily product will be 150
tons of pig iron, besides important by-
products. It will give employment to
200 men.

Vigilant Customs Officers
New York, April 17.—Antonio and
Luigi Porgio, brothers, first-class pas-
sengers on the steamer *Palatia*, from
Naples, were arrested by customs of-
ficers as they were leaving the steamer,
and jewelry valued at \$4000 which they
had in their possession was seized. The
brothers were held in \$1000 bail each.

Sierra Under Salvador's Wing
San Salvador, April 17.—General
Sierra, the retiring president of Hon-
duras, who has been decisively beaten
by the forces of General Bonilla, the
president-elect, has arrived here, a
fugitive. He was received by the
Salvadorean government, which offered
him guarantees for his safety.

County to Maintain.

The "Building and Maintenance" bill
for the new Quincy Point bridge
has passed the Legislature and is now
a law says the Weymouth Gazette,
which adds: The cost and maintenance
is on Norfolk county. Had it been
placed upon those who use it most,
a good part of the expense
would have been on Suffolk and Ply-
mouth counties but Weymouth need
not complain as we are great gainers
over the old system of caring for the
bridge. Thanks to Representative
Willis who has been untiring in look-
ing after the interest of his con-
stituents; while we will be called upon

Tennis Tournament.

The Quincy Tennis club will hold a
tournament in doubles for club
members on Monday, Patriots' day.
The usual entrance fee of twenty-five
cents will be charged. Play will begin
about ten o'clock, and entries may be
made previous to that time. If the
weather is unfavorable the tournament
may be held at some future date. The
prize is to be a dozen tennis balls and
there is bound to be some lively com-
petition. Friends are invited to sit on
the house piazza and enjoy the prevail-
ing east wind.

WANTED: 50 MEN AND WOMEN.

To take advantage of Special Offer
made by Chas. C. Hearn.

Chas. C. Hearn, the enterprising
druggist, is advertising today for
fifty men and women to take advantage
of the special half price offer he is
making on Dr. Howard's celebrated
specific for the cure of constipation and
dyspepsia, and get a fifty cent package
at half-price, 25 cents.

So positive is he of the remarkable
power of this specific to cure these
diseases, as well as sick headaches and
liver troubles, that he agrees to refund
the money to any customer whom this
medicine does not quickly relieve and
cure.

With Dr. Howard's specific at hand,
you can eat what you want and have no
fear of ill consequences. It strengthens
the stomach, gives perfect digestion,
regulates the bowels, creates an appet-
ite, and makes life worth the living.

This is an unusual opportunity to ob-
tain 60 doses of the best medicine ever
made for half its regular price, with
the personal guarantee of a well known
business man to refund the money if it
does not give satisfaction.

If you cannot call at Chas. C. Hearn's
store today, send him 25 cents by mail,
and he will send you a package,
promptly, charges paid.

COMBES INNOCENT

**Of Connection with Boodle Deal,
According to His Own Story**

Paris, April 17.—Magistrate Valle,
who has been charged to investigate the
Grande Chartreuse bribery affair, has
questioned Edgar Combes, the premier's
son, regarding the charges brought
against him by M. Besson, editor of *Le
Petit Dauphinois*, that he offered
through an intermediary to secure for
the monks of the Grande Chartreuse
authorization to remain in France for a
payment of \$200,000, of which \$20,
000 would be given to Besson as his
commission on the transaction.

Combes declared to the magistrate
that he never authorized any one to
use his name to make any demand on
the monks of the Grande Chartreuse,
and he asserted that he did not know
Besson. He was, he said, an entire
stranger to any negotiations that Bes-
son may have had with the alleged in-
termediaries, Vervoort and Mazet.

The magistrate also questioned a
woman named Guette, who, at Bes-
son's request, brought the latter and
Mazet together. The magistrate will
next confront Vervoort and Mazet with
Besson, who has left Grenoble on his
way to Paris.

Grenoble, April 17.—The police have
closed and sealed the doors of the dis-
tillery of the Grande Chartreuse at
Fourvire, a few miles from here.
Farther west protested against the action
of the police and some hostile cries
were raised. There was no further
incident.

President Had Good Time

Cinnabar, Mont., April 17.—Provide it
Roosevelt and his party have returned
to Fort Yellowstone from their eight
days' horseback trip in the north of
the park and along the Yellowstone.
All of the party are in excellent health
and not an accident of any kind oc-
curred. The president took neither
ride nor shotgun with him. The party
had some good fishing and the president
and Mr. Burroughs spent a large part
of their time in following and watching
at close quarters the great herds of
game.

Senators to Visit Alaska

Washington, April 17.—Senator Bever-
idge, chairman of the committee on
territories, has named Senators Dilling-
ham, Burnham, Nelson and Patterson
a sub-committee to visit Alaska this
summer for the purpose of making a
thorough investigation of conditions in
the territory with a view to recom-
mending legislation or amendments to
existing law, to the senate when it re-
assembles.

Served His Country Well

Pooria, Ills., April 17.—Colonel James
Powell, retired, a veteran of the Mex-
ican and Civil wars, four times reves-
ted by the government for bravery in
the Civil war and during Indian cam-
paigns in Colorado and Wyoming, died
at his home in this city. He was re-
tired in 1868 as the result of wounds.
He was born in Maryland 71 years ago.

Tulane Gets Hutchinson Fortune

New Orleans, April 17.—The will of
A. C. Hutchinson, president of the
Morgan railroad, was sustained last
night by a jury. He left a fortune to
Tulane university medical department
for a model educational hospital and the
will was contested by his wife's rela-
tives on the ground that the will in
their favor had been suppressed.

Nurse Must Serve Sentence

Newark, N. J., April 17.—Annie
Hildrant, the trained nurse who was
sentenced to six months' imprisonment
for shooting B. J. McCallum, was last
night surrendered by her bondsman.
Her counsel gave notice of appeal, but
she was unable to raise the money
needed and will have to serve her sen-
tence.

No Place For Europeans

Tangier, April 17.—The Sultan of
Morocco has decided to personally lead
an expedition against the forces of the
pretender, Bu Hamara, in the Taza
district. All Europeans must leave Fez
for the coast and there await the termi-
nation of the operations.

Evacuation Assured by Russia

Yokohama, April 17.—After receiving
communications from St. Petersburg,
Japan is satisfied that the evacuation
of Manchuria by the Russian troops
will be effected in accordance with
Russia's agreement on the subject.

Disbelievers in Arbitration

Detroit, April 17.—By a majority
of one the local union of marine firemen,
oilers and water tenders voted last
night against the proposition to sub-
mit their grievances to a board of arbi-
trators.

Strong Gate and Bad Seas

Chatham, Mass., April 17.—The re-
sult of the northeast gale which at sunset
last night had blown continuously for
80 hours at a velocity averaging
nearly 40 miles an hour has been one
of the roughest seas seen off Cape Cod
for several years. No wrecks have
been reported.

A WONDERFUL CRAFT

**Launch of the Minnesota, the Largest
American-Built Vessel**

Groton, Conn., April 17.—The mag-
nificent steamship *Minnesota*, the
largest ever built in an American yard
and the superior to any vessel afloat in
carrying capacity, was successfully
launched here. The *Minnesota*, which
is a sister ship to one now on the
stocks, will cost about \$2,500,000. The
vessel is built primarily for a cargo
carrier. It is not as long as many of
the fast Atlantic liners, but is much
wider and deeper.

The new steamer has five continuous
decks extending the whole length of
the ship, with three additional partial
decks amidships. It is built to Lloyd's
highest classifications. The vessel's
carrying capacity is tremendous, and
the holds have a cubical capacity suf-
ficient to stow 28,000 tons of coal; the
deadweight carrying capacity at normal
draught is 21,000 tons.

All the passenger accommodations
are located amidships. On the upper,
promenade and boat decks are large,
airy, comfortable staterooms for the
accommodation of 150 first-class pas-
sengers. Several private suites of
rooms are arranged, and the accom-
modation includes luxuriously ap-
pointed dining room, smoking room,
drawing room and library, also chil-
dren's nursery and playroom. The
second-class accommodations have
large, comfortable staterooms arranged
for about 100 people; they also have a
large dining saloon, and in a large deck-
house are a well-appointed ladies'
room, a smoking room for men, with
conveniently arranged bar, bathrooms,
etc. The third-class accommodation
has well-appointed staterooms for about
150 people, with large dining room in
the centre of the ship and all modern
conveniences. Portable quarters, with
removable berths, will be arranged for
about 1000 steerage passengers.

Murderer Gagne Dead

Holyoke, Mass., April 17.—Nargasse
Gagne, who murdered his wife last
Sunday and attempted to commit sui-
cide immediately afterwards by cut-
ting his throat with a bread knife, died
in a hospital late last night. Gagne
had been quiet all day, but about 6
o'clock became restless. When the
doctor visited him later in the evening
he became irritable and the guard put
the handcuffs on him. This excited him
and he attempted to rise from his bed.
Then followed a desperate struggle,
which made it necessary to call in the
aid of other policemen. After he was

Old Browne's
Courtship

The girl I am going to tell you
about is rather pretty, and her name
is Edith. She has dark hair, and
her eyes are blue, and she dresses
well. She has been graduated from
a seminary of good repute, and her
disposition is amiable to a degree
which more than a year ago brought
all the young men of the neighbor-
hood at her feet. I think she won
a tennis championship in singles
somewhere last year, but I am not
certain about that. What I can re-
call among her most pronounced ac-
complishments I will put down here
later on. I met her so long a time
ago that I have forgotten the cir-
cumstances of our meeting, but I
guess they were of the ordinary
sort. I live two doors from her
house, and I drop in to see her and
Mrs. Burke at least once a week.
Even her marriage, which hurt me
so much at the time, did not sepa-
rate us for very long, and I think I
have lived to forget my first rash
determination never to look upon
her face again. I called the night
of the wedding, and I have been
calling regularly ever since. I am
beginning to believe that it was a
good thing, after all, that she didn't
marry me.

What I want to tell—and it won't
take long to tell it in my dry fash-
ion—is the story of old Browne's
courtship. I make my living by
keeping the cash accounts of a big
Market street wholesale house, and
Browne is the man whose desk is
next to mine in the counting room.
Our salary is about the same, and,
although he is two years younger
than I am, I being fifty-one now,
we both have held the same posi-
tions for twenty years. Browne
weighs more than 200 pounds, and I
weigh a trifle less.

Mrs. Burke, who is Edith's moth-
er, came to me this summer and had
quite a long talk with me about her
personal affairs. She said that her
late husband's estate was pretty
much entangled and that to keep
her present establishment on Arch
street going she would have to rent
some of the handsome rooms in the
house to boarders. Of course she
didn't want to do that, and of course
I deprecated the plan, but in the end
it turned out that we both had to
give in.

Old Browne rented the second
story front room the day after I
told him about it. He had been liv-
ing away uptown, and he was glad
to get a little nearer to the office,
besides enjoying all the social pre-
stige which geographical conditions
could give him. He moved into the
rooms with a dozen trunks and a
wealth of bric-a-brac, which, to my
mind, did not become his age. Mrs.
Burke was glad to accept the refer-
ence to me which he gave her, and
Edith smiled upon him when she
gave him his night key.

I thought a good deal of Edith,
and every night or two we played
cards in her mother's rooms. She
and I played partners against young
Bob Smith and Mrs. Burke. We
were pretty evenly matched, too, for
Bob played a stiff game of whist,
and I—well, you may remember that
I was one of the Pentecost club's
prize team last fall. Edith and I
won most of the games, though, for
Bob was too infernally lazy ever to
do anything well. And then he
never seemed to mind it if he lost.

The presence of old Browne an-
noyed me a great deal, and I don't
mind saying so. About a week after
he took his rooms there I found him
occupying my seat at the whist table
when I called. He was fumbling
the cards in his awkward fashion,
and Edith was laughing at him. Bob
was engaged in giving an imita-
tion of my telling a war story, and
even Mrs. Burke was approving the
ridiculous proceedings. I coughed,
and that stopped the game, but I
was uncomfortable all the evening.
Bob had the good sense to apolo-
gize, but old Browne simply tittered
for an hour over what he
seemed to consider a good joke on
me.

After that all my affairs seemed
to go wrong, and I began to seri-
ously consider whether I shouldn't
rent every room in Mrs. Burke's
house myself. I was actually con-
templating this proposition one
night in my own apartments, smok-
ing my last bowl of tobacco the
while, when the colored girl who
waits on the door said that a man
had called to see me. I have few
callers, and I thought it might be
Mr. Phipps, the managing partner
of my house, whom I had invited to
come to see me more than a month
ago.

With this idea in mind I told the
girl to delay the man below stairs
for a moment while I slipped into
other clothes. Then the door opened,
and old Browne came ambling in.
I was disgusted on the instant, but
I managed to conceal my real
feelings and invited him to be seated.
He looked all around him to

see if I was alone, set his hat on the
floor and then accepted my invita-
tion with a kind of sigh.

"Thank you," he said, "I only
want to see you for a moment."

I offered him a pipe, and he de-
clined it. I told him my cigars were
out.

"It doesn't make any difference,"
he said. "I'd rather not smoke. I
came here to ask you some things
about the Burkes."

The Lord only knows how I looked
at him as he hesitated for a mo-
ment.

"I have seen enough of them," he
went on, "to believe that they are
perfectly respectable people—other-
wise I would not have taken lodging
there. You and I are old friends,
and you will take away even the
slight doubt there is in my mind.
Are they perfectly respectable?"

Somehow or other I managed to
nod my head, but his presumption
was paralyzing me.

"Thank you again," he proceeded.
"The reason that I asked you is that
I am going to marry Edith."

It took me a couple of minutes
to master my emotions, but I am
proud to say I did it. My reply was
cool—almost chilly.

"Indeed!" I said. "Has she ac-
cepted you?"

"No, because I haven't proposed
yet. I have given the matter a good
deal of thought, but before I took
so serious a step in my life I want-
ed some such wise old head as yours
to advise me. Now I am happy,
and we'll get married at once."

He shook hands with me, and the
old idiot didn't notice that I failed
to respond. At the door I man-
aged to ask him this question:

"What makes you believe she'll
have you?"

He seemed astonished.
"Have me!" he repeated. "Why,
she's been after me ever since she
knew me. I'll settle it tomorrow
evening."

As he turned the stairs I noticed
that he had on a suit of new clothes,
a white vest and a red necktie. He
said something about feeling like a
schoolboy, and I rushed back to my
room more affronted than I had
ever been before in my life. I can
always think best when I am in
bed, and so I undressed and got un-
der covers very quickly. When I had
thought diligently for an hour, I
turned over and said this to my-
self:

"The old fat beast! The idea of
her marrying him! I'll propose my-
self to her tomorrow morning. She
has been expecting it, I know, for a
long time."

I didn't sleep very well and arose
a little after 7 o'clock. It took me
an hour to dress myself, and, having
no appetite for breakfast, I only
drank a cup of strong coffee. I then
walked nearly a mile before I had
decided what to say, and was barely
satisfied with the result. Edith was
the sort of girl to be particular
about such things, and I wanted to
please her fancy.

Mrs. Burke came to the door and
was just as much surprised to see
me as I thought she would be.

"It was very good of you to come
so soon," she said, "and I didn't
think you knew it yet."

"Knew what?" said I.

She pulled me inside the hall and
looked at me, half smiling and half
fearful.

"Didn't you come to—er—congratulate
anybody?"

Then I sat down on the hatrack
and shook my head. I felt that it
was all over and that old Browne
had won, and never in my life did I
suffer so much misery in so small a
space of time.

"Then," said Mrs. Burke, "I am
glad to be able to inform you my-
self. Edith and Bob are engaged to
be married."

I arose and sat down again. I
thought of many things, but only
one sentence struggled through my
lips:

"Does—does old Browne know
about it?" I asked.

"Oh, yes, but it won't interest
him. Before he went downtown this
morning he told me that he would
have to give up his room on ac-
count of the sun shining in it too
brightly in the morning. I'm going
to turn the whole house now
over to Edith."

His "Character."

There was an opening for a but-
ler in the family where Bridget was
cook, and she promptly applied for
the position in behalf of her broth-
er.

"I take it that his reputation
morally is all that could be expect-
ed," suggested madam.

"Xuse me, but would you min'
saying that question over ag'in?"
asked Bridget.

"I say," repeated madam, "doubt-
less he is a man of moral character."

"Sure, mum, sure—but I don't
know if I'm afther un'erstanding
you."

Madam waxed slightly impatient.

"Oh, he is a good man, Bridget?"

"Good, is he? Sure, he could lick
th' eyes out of any shalpeen from
Cork to Kilkenny!" was the enthu-
siastic reply.—New York Times.

WEEKLY TRADE REVIEW

Jobbers and Agricultural Operatives
Suffered From Bad Weather

New York, April 18.—R. G. Dun &
Co.'s Weekly Review of Trade says:
Cold and wet weather during the past
week in many sections of the country re-
tarded retail trade in spring and sum-
mer wearing apparel. Jobbers also felt
the effects in a lessened activity, and
agricultural operations made irregular
progress. Traffic conditions are steady-
ly improving, yet some complaints are
still heard. Railway earnings thus far
in April exceed last year's by 12.5
percent. No definite improvement is
seen in the labor situation, but neither
is the outlook any more disturbing.

Textile mills have not received any
material increase in amount of new
business and there is evidence that the
exceptionally heavy transactions of
January and February provided suffi-
cient supplies for present needs. With
jobbing trade somewhat slow, it is
natural that cotton mills should find it
extremely difficult to secure advances
in prices of goods commensurate with
the position of the raw material.

As a rule the footwear market is
quiet except for good purchases of heavy
shoes by western jobbers. A few fac-
tories have assurance of activity until
October, but this condition is not gen-
eral.

Cotton made further sharp advances
on Monday, when the current crop op-
inions eclipsed all high records for over
two years and transactions were ex-
ceptionally heavy.

Tribute to American Workmen

London, April 18.—The report of the
commission of British workmen who
were taken to the United States by
Alfred Moseley to study conditions
of labor there is issued. It presents
the views of 23 delegates, who show a
lack of unanimity, except that all agree
that the British employers are not as
far advanced as the Americans in their
treatment of their employees. Mr.
Moseley says that the American work-
man has a far better education, "is in-
finitely better paid, housed, fed and
clothed, and moreover much more
sober."

Indictments in Smuggling Cases

San Juan, P. R., April 18.—The
grand jury which insisted on investigat-
ing the so-called smuggling cases has
returned true bills against about 15
persons, whose names have not yet
been published here.

Washington, April 18.—The depart-
ment of justice received the following
cablegram from the United States at-
torney at San Juan respecting the
pending smuggling cases: "True
bills returned against Merritt of navy,
Lowndes, marines; Crabbs, army;
Giles and Butler, civilians."

Kussner Changes His Story

Berlin, April 18.—Emperor William
has ordered that a thorough investiga-
tion be made into the case of Naval
Ensign Hussner, who killed an artillery-
man with his sword at Eissen for not
saluting him properly. Hussner now
claims that Hartmann struck him be-
fore the fatal attack, but all the eye
witnesses of the killing contradict his
statement.

German Consul's Warning

Berlin, April 18.—Walter Wensky,
the German consul at Dawson, has
written a long letter to The Lokal
Angler warning people against em-
igrating to the Yukon district. He de-
scribes the great distances in Alaska,
the severe cold, scarcity of work, fall
in wages from \$1 an hour to 40 cents
and the high prices of food.

Herlihy Pleads Poverty

New York, April 18.—Police Captain
Herlihy, when arraigned in court for a
third trial on a charge of neglect of
duty, appealed to the court to adjourn
the trial for six months to give him
time to earn money to pay his counsel.
The captain said he did not want the
court to assign counsel for him. The
trial was set for May 4.

Need Not Admit Garvey

New York, April 18.—The supreme
court has rendered a decision reversing
an order by Justice Leventritt which
required the Tammany general commit-
tee to admit Peter J. Garvey as a mem-
ber of the Tammany executive commit-
tee from the Ninth assembly district.
Garvey was the representative of the
Devery faction.

Will Be No L Road Strike

New York, April 18.—The threatened
strike movement of the "L" road em-
ployes was practically settled last night
after a four hours' conference between
the executive committee of the "L"
employes and the other parties inter-
ested. A further conference will be
held next Monday.

Marconigram Service Interrupted

London, April 18.—The Times an-

LAND BILL IS ASSURED

Irish Convention Concludes Its
Deliberations

PROTECTION OF PEASANTS

By Adoption of Amendment on Prin-
ciple of American Homestead Law—
Summing Up of Situation as It Ap-
pears to O'Connor and Redmond

Dublin, April 18.—The Irish national
convention concluded last evening. In
two days it got through a large amount
of controversial work and emerged, to
quote T. P. O'Connor, "scathless and
honored from a test which the whole
world was watching. It was not only
shaping the destinies of Ireland, but
it held in its hand the fate of the pow-
erful British ministry."

John Redmond, replying to an enthu-
siastic vote of thanks for his chair-
manship, declared that the conven-
tion was a credit in every particular
to Ireland.

In a statement Mr. Redmond makes
the important announcement that the
amendments adopted by the convention
will be accepted at the joint conference
at which Lord Dunraven, Lord Mayo,
Captain Shawe-Taylor, John Redmond,
William O'Brien and T. W. Russell will
meet. This practically ensures the pas-
sage of the Irish land bill. The dele-
gates returned to their homes last night
in a happy frame of mind, echoing
John Redmond's parting words, "May
the God of our fathers once again visit
this land with the peace and plenty
that are her due."

T. P. O'Connor, summing up yester-
day's proceedings, wrote the follow-
ing for The Associated Press: "This
was the day for agreeing on the amend-
ments to the land bill which are con-
sidered essential. Most of these were
proposed by William O'Brien. They
covered several important questions,
including demands for more liberal
treatment of the congested districts, and
of the laborers. There was a discussion
on the retention of an eighth as a rent
charge. Ultimately the resolution
was adopted condemning the eighth, but
retaining a technical rent charge."

A Reorganization Sale

is now going on which should interest EVERY housekeeper who reads this paper. In recently reorganizing this corporation a great deal of stock was taken over at prices so advantageous that we can, FOR THIS SALE, give our customers goods of the BEST QUALITY at the PRICE OF THE CHEAPEST. For example:

CARPETS
A large lot of odd rolls and part pieces of Royal Wiltons, Scotch Axminsters, Bigelow Axminsters, French Axminsters, &c. sold or shown, will be sold exactly as they are without allowance. The price that they were formerly marked at was from \$6.50 to \$27.50 and \$4.00 to as high as \$8.00 per yard. We shall sell them "as are" at, per yard, 1.50

RUGS
We have the largest and best lighted Rug show room in New England. In connection with our great Reorganization Sale of Carpets we have marked our surplus Rug stock, both foreign and domestic, at prices hitherto unapproached. A good single example—point of view—is the following:
Ghiorde Rugs, about 3 ft. in. modern colors, Heavy Daghestans and Cablans and quite a number of Antiques that are worn and torn. These rugs were formerly marked at from \$10 to \$20 each. We have marked them at, each, 7.50

BODY BRUSSELS. These most desirable goods have always been our specialty, and the exclusive patterns we have originated for our wholesale and retail are considered the best in this country and are famous for their designs and coloring. But there are some patterns that must be discontinued and closed out altogether. There are fully fifty patterns, containing thousands of yards of Bigelow-Lowell, Whitall and English goods that have formerly been sold in our retail stock at from \$1.40 to \$2.00 per yard. We shall close them out at, per yard, 95c

FIRE FOLLOWED WRECK

In Which Eight Persons on Train Were Killed

MANY CARS CONSUMED

While Seven of the Passengers Were Burned Beyond Recognition—Disaster Said to Be Due to Mistake of Boy Operator in Signal Tower

Jamestown, N. Y., April 21.—Eight persons are dead and 10 injured, three of them seriously, as the result of a collision between a passenger train and a freight train on the Erie railroad near Red House.

Of the dead only one, Robert H. Hotchkiss, a brakeman, has been identified. Seven bodies, apparently those of three men, three women and a child, were burned beyond recognition in the fierce fire which followed the wreck.

The wrecked passenger train was running from Chicago to New York and was made up of an engine in charge of Engineer Cook and Fireman Bell, one combination car, two day coaches, three sleepers and two private cars. It was derailed by striking a freight train which was entering a siding at Red House. The wreck at once took fire and the combination car, two day coaches and two sleepers, together with several freight cars, were consumed.

There is some dispute as to the cause of the wreck. The passenger train was running east and the freight, which was west-bound, had orders to go into the siding at Red House and wait for the passenger train to go by. The siding is about a mile and a half long and there is a tower of the block system near the west end.

The freight was drawn by two engines. Some trouble was experienced in entering the siding and the foremost engine of the freight was sent in along the siding with a flagman to hold the express. It is alleged that the operator in the tower, Lawrence Vale, aged 17, saw the light engine of the freight, which was bringing up the flag, and supposed the freight was on the siding behind it. With this mistaken idea, it is alleged, Vale displayed a white signal toward the passenger train, indicating to the engineer that he had a clear track.

The engineer on the passenger train failed to see the flagman sent out from the forward engine of the freight train and saw only the clearance signal from the tower. The train ran toward the end of the siding at high speed, collided with the second engine of the freight train just as it was about to clear the main line, striking at a slight angle, tearing off the cylinder and part of the cab and jumping the track. The passenger engine and some of the coaches ploughed up the earth for a distance of three rods and crashed into a small wooden structure used as a feed store and schoolhouse.

The first half dozen cars of the freight were wrecked. They were box cars loaded with coal. The coal filtered in amongst the wreckage, creating an intense heat. All but three of the cars of the express followed the engine and the whole mass of wreckage was soon in flames. The tracks were strewn for rods with burning wood and coal and heaps of twisted ironwork.

The train is one of the fast trains on the Erie. The two private cars attached to it were occupied by W. J. Murphy, his wife and two officials of the Queen and Crescent railroad and J. L. Frazier, general superintendent of the Clover Leaf. All escaped uninjured.

The work of clearing the tracks was begun promptly, trains in the meantime being diverted from the main line and sent around via Dayton.

Jackies Will Promote Friendship Washington, April 21.—The news that American sailors, on the occasion of their visit to Kiel, will be invited to participate in the boat races, is received with satisfaction in official circles here. It is stated on authority that it will be the effort of the administration to promote the best of relations between the United States and Germany and it is realized that the navy is a potent factor in forming and maintaining international friendship.

Almost Ready For Sails Bristol, R. I., April 21.—All that is necessary to complete the rigging of the Reliance is the bending of her sails. The work for the next day or two will be confined to the interior of the boat and the running of the halyards through the deck.

District Attorney Will Investigate New Bedford, Mass., April 21.—Ambrose E. Felis died at 86 First street of an overdose of morphine. There are suspicious circumstances attending the man's death and the situation has been reported to the district attorney.

HOLIDAY ALARMS.

All Were for Slight Fires and Loss Will Be Under \$500.

The alarm from Box 72 at 8:57 Sunday night was for a fire in the Fore River House on South street. The building is what was formerly the Baptist church. It is owned by F. A. Hopkins and is occupied by Walter Peters as a boarding house. The fire was caused by one of the boarders trying to take a flashlight photograph. The fire caught the lace curtains and started quite a lively blaze. Some of the boarders had already retired, but they were aroused and rushed pell mell into the street. The smoke penetrated the whole building, giving the appearance of being a larger blaze than it really was. The loss will not exceed \$150.

The alarm from Box 60 at 6:25 Monday morning was for a fire at Montclair in a house owned and occupied by E. A. Goodwin. The fire was a slight one and is supposed to have started from a defective chimney. The house was filled with smoke but the fire was quickly extinguished. Loss \$150.

A gentleman coming up Hancock street about 2:30 Sunday morning discovered a shed adjoining the residence of Warren W. Adams on Greenleaf street to be on fire. When he reached City Square he notified Officer Goodhue who ran to the scene and awoke Mr. Adams, who with the officer succeeded in putting out the fire. The fire was in a small building adjoining the house and was caused by an incubator taking fire. A brood of chickens was roasted.

The alarms from Box 143 at 3:10 and 7:30 Monday afternoon were rung in for fires in the woods off Station street. In both cases the alarm was hardly necessary, and the recalls were sounded immediately upon the arrival of the Chief.

INJUNCTION CASE.

Counsel Argue on Petition of City Scavenger Against Mayor.

No witnesses were heard on either side at the Supreme court in Boston this morning on the petition of Charles L. Prescott to restrain the Mayor, Board of Health and Councilman Arthur W. Loud from interfering with his conducting the business of City Scavenger. Charles L. Bartlett was present to represent Mr. Prescott and City Solicitor Paul R. Blackmur represented the respondents. All that was done today was to hear the arguments of the two counsels, and the court will decide whether it desires any witnesses to be summoned. If witnesses are desired they will probably be summoned to appear tomorrow.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." For sale by all druggists.

Two Fine Bicycle Races

Boston, April 21.—Bicycling as a track sport opened with great promise at the Charles River park and Revere tracks. The feature in each was a 20-mile motor-paced race. At the Revere track James F. Moran defeated Hugh McLean and Will Stinson, the last named dropping out in the eighth mile, and Moran beating McLean by about half a mile in 30:06 2-5. At Charles River park, Harry Elkes defeated Basil De Guichard, Bonnie Munroe and Otto Maya, the winner's time being just one-fifth of a second faster than Moran's time at the other track.

Holiday Land Sale.

The largest number of people that
ever attended a land sale in Quincy or
vicinity was at Bigelow park yesterday
afternoon. They began to gather at
about 9.30 and kept steadily increasing
until 3 o'clock, at which time the
scene reminded one strongly of the
throngs which attend our New England
county fairs. The day was ideal, being
warm and bright, and the good-natured
crowd remained until 6 o'clock, at
which time the last present of the day,
a beautiful gold watch was presented
to a fortunate lady. Refreshments
were served on the grounds throughout
the day, so many of those who came in
the morning remained until the crowd
dispersed late in the afternoon. The
presents were very beautiful and costly,
consisting of gold watches, silver fruit
dishes, vases, silver sugar-bowls, chocolate
pots, water-pitchers, jewelry, etc.
The unusually large number of lots
which were sold indicate that the people
realize the advantages offered on
this beautiful site for homes and for
investments.

A DAY OF SPORTS

Adams Academy Defeated
by a Close Score.Merrymounts Win from
Quincy High.Copelands Win Two—Tennis Tour-
nament and Other Events.

The Adams Academy nine were de-
feated, 11 to 10, in a loosely played
game at Merrymount Park on the
forenoon of Patriots' day. Their op-
ponents were the Bridgewater High
School boys.

The game was close up to the fifth
innings, where an unfortunate de-
cision of the umpire caused the Acad-
emy boys to loose heart. The visiting
nine scored six runs in that inning and
the home team scored four, making
the score eleven to nine.

The last four innings were much
better as far as fielding went, but in
spite of a hard fight the Academy boys
could not make the two runs needed to
tie the score. One more was gained in
the ninth, leaving the victory to the
Bridgewater nine. Below is the score:

Innings 1 2 3 4 5 6 7 8 9
Bridgewater, 2 0 0 3 6 0 0 0 11
Adams, 1 2 0 2 4 0 0 0 1-10

Defeat for High.

The Merrymount Club opened its
base ball season Monday by defeating
the High school team 25 to 6. Not-
withstanding the unfavorable weather
for practice which we have had the
past few weeks the men showed up in
first class shape. The individual play-
ing was exceptionally good and the
team work was far better than could
be expected in the first game.

Chadburne, the old Providence
catcher, showed from the start that he
had forgotten none of his old habits as
a back stop, but has yet to get his arm
in the throwing form. Brokaw and Munroe pitched good ball
and both used their heads to advantage.
The field was up to the mark, accept-
ing all chances with few errors. Every-
body hit the ball hard and sure and ran
the bases well.

The High school boys were not at
their best. They went to pieces in the
second innings, allowing Merrymoun-
ts to score eight runs. In the
third they settled down and played
well but the good batting of the Mer-
rymounts proved too strong.

West Quincy Games.

The Copeland club of West Quincy
opened another base ball season success-
fully with two victories, defeating on
Saturday the New England Mutual Life
Insurance Co. of Boston by a score of
10 to 5 and on Monday the St. Mary's
C. T. A. S. of West Quincy by a score
of 14 to 7. Both games were played on
the Ward Four playground.

In the first game, Elcock distin-
guished himself by a long drive, with
three men on bases, for a triple; and
Monahan made a phenomenal catch of a
long fly in left field. In Monday's
game the pitching of Doble for the
Copeland club was the special feature.

Farrell, of St. Mary's, was presented
with a bouquet of cut flowers, upon
coming to the bat in the second inning,
by his friends in the bleachers.

Tennis Tournament.

The Quincy Tennis club held a tourna-
ment in club doubles at the grounds
on Whitney road, Patriots day. There
were only a few entries, and the play-
ing was not brilliant, but so early in
the season little else is to be expected.
In the morning the play resulted as
follows: Barker and Packard beat
Babcock and Butler 9-1, 6-4; J. O.
Hall, Jr., and W. Sampson beat Wil-
lits and Davenport 5-7, 7-5, 6-4.

The finals in the afternoon resulted
in a victory for Barker and Packard
over Hall and Sampson 8-6, 6-4,
6-2. There was a good attendance of
spectators, especially in the afternoon.

At a meeting of the executive com-
mittee, held at the conclusion of the
tournament, the following were elected
to membership in the club: H. H.
Hill, W. A. Bradford, V. E. Miller,
Thorpe Babcock, Mrs. V. E. Miller and
Miss Beatrice Tisdale. Two courts are
now in excellent condition for playing
and the rest will be made ready at once.

IMPROVEMENTS.

The Aim of the Ward One People's
Union.

At the meeting held at Woodward
Institute for organizing the People's
Union of Ward One, though few were
present as the evening was very stormy,
the discussion of work to be attempted
was most interesting.

Ex-Representative John McKnight
presided, and committees were ap-
pointed to consider and confer with
the proper authorities in regard to the
location of the public scales, protesting
against the placing of them near the
fountain or in City Square; also to see
if arrangements might be made to
improve the appearance of the Old
Hancock cemetery.

Attention was called to the fact that
large numbers of teachers are expected
to visit Quincy in connection with the
National Teachers' convention, and it
is for our citizens to show their pride
and interest in the city by having the
surroundings of the historic places, at
least, decently in order.

Other suggestions were made with
reference to restoring the green and
shrubbery opposite the station when
the present freight tracks should be
removed; the providing of a rainwater
conductor for the shelter at the railway
station, the providing of a suitable
waiting room with sanitary con-
veniences by street railway.

There are many needed improvements
and conveniences to make the entrance
to Quincy Centre attractive to travel-
ers.

Mention was made of interesting the
children by means of school gardens in
the cultivation of flowers and vegetables.
In this way a wholesome respect of the
rights of owners of fruits and flowers
might be taught and depredations on
lawns and gardens be less frequent.

A meeting will be held in May to further
consider these and other matters relating
to public interest in Ward One.

The secretary was instructed to write
a letter of appreciation to the class at
the High school for the setting out of
the row of maple trees on the lawn in
front of the school building.

Tour of Quarries.

The Pilgrim Union of Epworth
Leagues met at the West Quincy
Methodist church Monday morning for
a pilgrimage trip through the quarries.
They were welcomed by Rev. W. A.
Mayo. This was followed by a musical
entertainment and an address on granite
by Jonathan Keast. The party then
under the leadership of F. Wesley
Fuller visited the quarries about West
Quincy. Upon their return refresh-
ments were served at the church.

Holiday Masquerade.

A largely attended and enjoyable
masquerade party was held in Colonial
hall on the afternoon of Patriots' day
by children. The march was led by
Harry Glover and Harriet Spooner.
During the afternoon there was some
pretty fancy dancing by Clara DeCoste
and Eva Frazier.

Those in costume were:

Sunday School Social.

The second Sunday School social of
Christ church was held Saturday
evening at the home of Miss Helen Rhines.
The entertainment began with a Tom
Thumb wedding in which the groom
was Lester Fuller and the bride was
Almira Fuller. These little children of
eight and six years respectively looked
very sweet in their pretty costumes.
Harold Curtis performed the minister's
duties in a very creditable way, and
Winslow Sears and Margaret Hunt took
the parts of best man and maid of
honor. The bridesmaids and ushers
were Miriam Miller, Hazel French,
Paul Blackmur and Sherman Hayden.
Blanche Hayden was the little flower
girl. All were attired in pretty and
appropriate costumes and every part
was well done. The extreme youth of
the participants made the feature very
attractive. Following the ceremony
was a cake and candy sale in which the
young ladies cleared eleven dollars for
the Sunday school. The cake and
candy were donated by friends and
members of the church and the fruit
punch and candy boxes were also given.
The next social will be at the home of
Miss Ethel Thomas, Granite street.

The Late Mr. Willett.

Mr. Edward Willett of Atlantic, who
died April 16, at the age of 88 years,
had been a surveyor of lumber almost
all of his life. He was a Boston boy
and in his early days he made a
memorable trip across the plains on
back of a pony. He remained in the
west but a short time returning home
by way of the isthmus. He retired
from active business fifteen years ago,
although he was such an expert in his
particular line that his services were in
constant demand. He came to Atlantic
from Boston ten years ago.

In his early days he was a volunteer
fireman. Then the now antiquated
hand tubs were in use. He was twice
married and is survived by a widow.
He was a man of sterling integrity and
honesty and popular in the trade.

Friends Unknown.

The body of Thomas Joseph Francis
McCorry who died at the City Hospital,
Sunday, is at the undertaking rooms of
W. E. Brown awaiting a claimant. He
is a man about 48 years of age. All
that is known of him is that he came
to Quincy about a month ago to work
on the water works, and that previous
to that he worked in East Barre, Vt.
It is believed he has a brother in
Chelsea.

Boiler Makers Ball.

The first annual ball of the Boiler
Makers and Ship Builders Union was
held Monday night at Music hall. Mc-
Conis orchestra furnished music and
dancing was enjoyed until 4 o'clock.
James M. Gole was floor director and
William McKenzie and James Downs
assistants.

vacation.

Mrs. L. Elizabeth Lewis, nee Perry,
of Medford visited relatives and friends
in this city last week.

Fully one hundred flags were flying
in Quincy on the holiday, from public
buildings and private residences.

George L. Cole was the winner of the
members' sweepstakes handicap of the
Merrymount golf club on Patriots' day.

South Quincy young people held a
sunlight party Monday afternoon at
Malnati hall, on Liberty street. A good
time was enjoyed.

Four cars were run on some of the
trips to and from Houghs Neck, on
Patriots' day and then some passengers
had to stand.

H. G. Miller, Jr., of the Quincy High
school finished second in the cross-
country run of the St. Alphonsus Asso-
ciation at Roxbury. About twenty fin-
ished.

The West Quincy Base Ball club held
a twilight party at St. Mary's hall
Monday afternoon. There was a large
attendance and a grand good time was
enjoyed.

Rev. E. A. Chase of the Wollaston
Congregational church preached a
bright, helpful sermon Sunday morning,
taking as his text, St. Paul's words
"Be of good cheer;" subject, "Cheer-
fulness." The singing by the quartet
was very effective.

Another entertaining service illus-
trated by the stereopticon was given in
Bethany church Sunday evening. Rev.
E. N. Hardy the pastor took "Thoughts
from Easter" for his subject, and
colored views were shown. Over 500
were in attendance.

Few Bidders.

The Lucas property on Coddington
street, consisting of two houses and
6,418 feet of land was sold at commis-
sioners' sale Saturday afternoon by
Auctioneer Dinegan to Mrs. Maria A.
Elcock for \$1,200, less than half the
assessed value. The Assessors' valua-
tion was \$1,300 on the front house,
\$500 on the small house in the rear,
and \$750 on the land, a total of \$2,550.

Death of High School Boy.

Stedman, the 16-year-old son of
Councilman and Mrs. Alexander
Thompson of Elm street, passed away
Saturday afternoon after an illness of
six months. He was graduated from
the Coddington school last June and
entered the High school in September,
but was able to continue his attendance
but a few weeks. His schoolmates and
young neighbors join the family and
relatives in their bereavement. The
funeral will be held this afternoon.

—The Old Colony Association of
Universalists will hold its regular
meeting in the First Universalist
church of Weymouth on Wednesday,
April 22, morning and afternoon. The

and will be conducted by the Rev. Mr.
Burroughs of Norwell. A number of
noted speakers will be present, among
them Rev. James F. Albion of Malden,
Rev. Albert Hammett, Rev. Frederick
Hamilton, D. D., of Roxbury and Rev.
Charles F. Conkling, superintendent of
churches of Massachusetts. Dinner will
be served for all who care to remain
during the noon intermission and those
coming from a distance.

PUNY CHILDREN

TOO MANY OF THEM DIE.

Their Little Bodies Unable to Stand the Ordeal of Development.

WE THINK EVERY MOTHER IN THIS TOWN SHOULD KNOW ABOUT VINOL.

It is the Delicious Tonic We Advise for Growing Children.

Is your boy or girl pale and listless? Do they act differently from other children? Do they sleep poorly and eat poorly? Does your boy avoid the sports and games of other boys? Does your girl complain of headache and find her studies a hardship?

If so, you may make up your mind they are growing too fast. They need something to help nature in her great work of furnishing the necessary elements for creating flesh and muscle tissue, bone structure and rich, pure, red blood.

They need a tonic in the full sense of the word and we can tell you what to get.

It is Vinol Wine of Cod-Liver Oil, the great modern reconstructer. Children like it, it is so delicious to the taste, in spite of the fact that it contains a highly concentrated extract of the medicinal principles that are found in cod-liver oil.

But because the vile-smelling and tasting grease has been discarded and all of the other disagreeable features eliminated, the benefits of Vinol are easily understood.

Vinol acts favorably on the stomach, creates an appetite and enables the food that is eaten to do the greatest possible amount of good.

Following is a letter that bears directly on this subject:

"I was all run down and took Vinol. It did me so much good and it was so pleasant to take that I gave it to my children. They were growing fast and needed something in the way of a tonic and I found it to be just the thing for them." SARAH PICKERING, 1932 Fall River, Mass.

We cordially invite mothers interested in the welfare of their children, as well as any one else needing a sure, safe and delicious tonic, restorer and rejuvenator, to call on us. We will gladly tell any one all we know about Vinol and why we so highly endorse it.

Inasmuch as we are always ready and pleased to refund the cost of Vinol to those who don't find it exactly what we claim it to be, it will be seen that we are prepared to substantially endorse our claims for the excellence of this marvelous preparation.

SCEPTRE SAFE IN PORT

After Long Imprisonment In Ice Off Newfoundland

ALL ON BOARD ARE WELL

Although They Suffered Privations From Lack of Fuel-Snow Was So Deep on Shore That Deer and Caribou Were Feeding on Tree Tops

Gloucester, Mass., April 21.—All Gloucester was happily surprised when schooner Sceptre, one of the Gloucester vessels which had been imprisoned in the ice at Bay of Islands, N. E., rounded Eastern point and dropped anchor in the harbor. The last word from the vessels which Gloucester had received seemed to indicate that the fleet had been obliged, by reason of Arctic ice drifting to the southward, to return to anchorage in Bay of Islands. Captain Calhoun came ashore as soon as his craft was made fast and reported that his was the first vessel to escape the ice and sail for home. The schooner Dauntless also escaped the ice, but has probably gone to St. Pierre, Miq., to dispose of cargo.

Captain Calhoun says that he sailed Dec. 18 for a cargo of frozen herring. He had a good passage to Newfoundland and quickly got a cargo. He waited for a chance to start for home and one night the thermometer dropped to 20 below with a high wind. The next morning the bay was frozen over and in addition great masses of ice had been forced down from the north. Snowstorms followed one another, with extremely low temperature. The railroad to Port a Basque was blocked and has not yet been opened. In the Bay of Islands the fleet which was nipped consisted of both Gloucester and provincial vessels.

Captain Calhoun says that his coal gave out and the crew were obliged to go a mile inland for wood, bringing it out on their backs through snow waist deep. He says that the snow was 20 and 30 feet deep on a level along the coast, and in some ravines it must have been 100 feet deep. He does not believe the summer season will be long enough or warm enough to make the snow disappear. He said he saw great herds of deer and caribou on the mountains feeding on treetops.

On March 29 the thermometer was 40 degrees below and he opened his hatches in order that the cargo might freeze up again. For this reason he lands his herring in very good shape, considering the circumstances.

From April 3 to 10 a heavy south-east breeze drove the ice off shore. On April 12 the fleet made ready to start, but the next day there appeared to be an impassable barrier of ice. The Sceptre and Dauntless sailed along this barrier, in which they finally found a small opening. For 36 hours the crews were on deck, and under shortened sail the vessels gradually worked their way to the open sea. The other vessels had turned back to their anchorage. On the third day into Captain Calhoun said he exchanged signals with the Dauntless and understood that the latter would go to St. Pierre. All the vessels are reported to be in good shape and the crews are all well. The Sceptre's crew is a happy lot of men.

Other Vessels Have Escaped

St. Johns, April 21.—The American herring vessels that have been imprisoned in the ice floes in the Bay of Islands have escaped. Dispatches from Port au Port, St. George and other points declare that the ice has been driven away from the land by a heavy easterly gale. This enabled the herring fishers to obtain egress from the Gulf of St. Lawrence into the Atlantic. The vessels will sail for home. Attempts were made to free the imprisoned herring vessels, but without success. Their crews were reduced to short rations during the latter period of their imprisonment in the ice.

Bank Messenger Held Up

New York, April 21.—Joseph Kaylor, a messenger for the Bronx Borough bank, was held up by four men on the Harlem bridge and robbed of \$150 in cash and \$2000 in checks and bonds. Kaylor pursued them, but they escaped. The police afterward arrested Michael McCarthy and Larry Murphy, both of whom were identified by Kaylor. In Murphy's pockets were found \$150 of denominations taken from the messenger.

King Lays a Foundation Stone

Valetta, Island of Malta, April 21.—King Edward reviewed 8000 bluejackets and marines here and later laid the foundation stone of the breakwater which is to protect the entrance of the Grand harbor. Last evening there was a water carnival in the harbor. The royal yacht Victoria and Albert left here this morning.

Vanderbilt Divorce Modified

New York, April 21.—Justice Gieglach, in the supreme court, has signed an order permitting W. K. Vanderbilt to marry again. The order modifies the decree obtained by Mrs. Alva E. Vanderbilt in 1895, by which Mr. Vanderbilt was forbidden to marry within the life of his divorced wife.

Slavery Preferable to Starvation

Hong Kong, April 21.—The famine in Kwang Si province is killing tens of thousands of persons, and women there are selling themselves into slavery to escape starvation. The American consul at Canton has inaugurated a relief fund.

TICKET-OF-LEAVE MAN

Jacko Kelley May Remain Free as Long as He Behaves Himself
Boston, April 21.—William E. Kelley, who has been known in the criminal annals of the state for more than 20 years as "Jacko," and who during his imprisonment at Charlestown made several daring attempts to escape, has been released as a ticket-of-leave man after serving half of a 25-year sentence.

Kelley's criminal record began when he was 18 years old and the crime for which he was last sent to prison was the unique robbery of a jewelry store in this city. During the absence of the proprietor of the store at noon, Kelley and another man whitewashed the front windows and robbed the store at their leisure. While in the state prison he succeeded in dropping over a wall and made his escape to Europe, but was arrested two months later, when he attempted to return on a cattle boat. Another time he attempted to escape by crawling through a long sewer. Nine other prisoners preceded him, but when Kelley was half way through he found the conduit growing smaller and was obliged to come to the surface through a man-hole. The other prisoners were also captured.

Assaulted Father With Axe

Clinton, Mass., April 21.—Walter Smith, 17 years old, was locked up last night after he had confessed that he had assaulted his father with an axe. The elder Smith is in the hospital with three deep wounds in his head and very little hope is entertained of his recovery. According to the statement of young Smith there had been trouble in the family for some time and he claimed that his father abused his mother. Last evening he followed his father down the street and hit him three times in the head with an axe. He then gave himself up to the police.

Held Up and Robbed of \$828

Lexington, Mass., April 21.—Augustus Young, a marketman, was driving in his buggy along what is known as the Lowell road near the Woburn line last night when he met a democrat wagon containing three men. Just before they reached him they jumped out of their wagon, one of them held the horse's head while the others ordered him to the ground at the point of a revolver. Young says that two of the men then held him while the other robbed him of his pocketbook, containing \$858 in cash. The men then drove rapidly away in the direction of Woburn.

Traveling Salesman Kills Himself

Boston, April 21.—John A. Grady, 45 years old, of Vineland, N. J., drank an ounce bottle of carbolic acid while in the Hotel Savoy office, started up the main stairway and fell into the arms of a porter unconscious. He was rushed to a hospital and died there. He was well known as a traveling man for a shoe firm. His state of mind appeared to be that of a man who was despondent.

Burglars Got Poor Reward

Middleboro, Mass., April 21.—Burglars drilled a safe in the office of James L. Jemmy, wood and coal dealer. Indications are that the burglars took considerable trouble to crack the safe, in which just 25 cents had been left. The money was taken. The explosion did not damage the office to any extent.

Nothing Like Experience.

"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy and learn from his own experience how quickly it gives relief, and he will remember by all its trials his life. For sale druggists.

Woman Fearfully Burned

Nashua, N. H., April 21.—Annie Jones, 56 years old, was burned last night by the overturning of a lighted lamp. The front of her dress was completely consumed and her body from her face to her feet was burned almost to a crisp. She was removed to a hospital in fearful agony and is not expected to live.

FOOD NOT ALL

Food is not all the thin man needs. Maybe he's sick. You can't make him eat by bringing him food. But Scott's Emulsion can make him eat. That Emulsion gives a man appetite and feeds him both. It brings back lost flesh.

No trouble about digestion. The weakest stomach can digest Scott's Emulsion. It tastes good, too. Scott's Emulsion paves the way for other food. When wasted and weakened by long illness it gives strength and appetite that ordinary food cannot give. Not only food—medicine, too—Scott's Emulsion of pure cod-liver oil.

We'll send you a little to try if you like.

BARREL MURDER VICTIM

Completely Identified by His Wife and Acquaintances

HIS HOME WAS IN BUFFALO

Was a Member of a Secret Society Which Was Probably Engaged in Counterfeiting—Killed to Prevent Exposure of Workings of the Band

Buffalo, April 21.—Detective Petrosini of New York arrived in Buffalo last evening and went at once to Mrs. Lucia Madonia, who identified a picture of the man found in the barrel at New York as that of her husband, Benedetto Madonia.

Mrs. Madonia said: "My husband went to New York about the first of the month. I heard from him twice since he went there and wrote to him in care of Salvatore Macollos. The children must have torn up his letters. I can't find one of them. The reason my husband went to New York was because my brother was in trouble there and was sent to Sing Sing prison for four years. My husband said that he thought if he went to New York he could have my brother sent to a prison near Buffalo. He said something about some men down there who would be able to help him. He belonged to some secret society there; I don't know the name of the society.

"Some time ago my brother, Joseph de Primo, got into trouble in New York. I don't know what the trouble was, but my husband said that he would help him out. Then my brother sent to us for money to pay his lawyer and we sent over \$100. Afterwards, when my brother was sentenced to prison, my husband said he would go to New York and have him sent to prison in Buffalo or near here. He said that he would see Morrelli. When my husband got to New York he wrote to me that he had seen Morrelli and that Morrelli would not do anything. He said Morrelli was against him.

"I don't know anything about Morrelli. My husband never told me much about him, but I guessed that he belonged to the secret society to which my husband belonged. Before we came to this country our home was in Laraca, Fredo, near Palermo, Italy."

Detective Theory of Motive

New York, April 21.—Additional identifications of the body as being that of Benedetto Madonia have been made. Vincenzo Pecoraro says he knew Madonia two years ago, when they both lived in Elizabeth street. Salvatore Maglissi, a barber, says that Easter Sunday Madonia visited his barber shop, there shaved himself and then told Maglissi that he was going to Pittsburgh and Chicago to see about the arrest of his brother-in-law. This brother-in-law, according to Inspector McCusky, is De Primo, now in Sing Sing prison.

On Saturday last Inspector McCusky learned that a relative of the dead man, though at that time unidentified, was in Sing Sing prison for counterfeiting. He went to Chief Flynn with this information and the chief told De Primo. Sunday a detective was sent to Sing Sing with a photograph of the dead man and the identification was made.

Chief Flynn says that he believes the motive for the crime is now clearly established. He thinks Madonia came down here from his Buffalo home mainly to buy counterfeit money, and secondly to get possession of De Primo's effects—jewelry and also some money as was De Primo from the workings of the band. It is believed that Madonia was held off for two or three days in this matter; that it then was learned that he was about to put himself into communication with the police or the government secret service men, and that in order to provide against this, and at the same time not seem to be afraid of one single man, the decision was reached to have him disappear. The murder accordingly took place.

Stone Denounces the Press

Kansas City, April 21.—United States Senator Stone, addressing the annual convention of the Missouri Democratic Press association, made an elaborate explanation of his intention with backing powder legislation and enforcement of the state pure food laws. He protested against the persecution to which he had been subjected by the "scoundrels of the press," who had used "assassins' methods." He shouted: "Before my God I fear them not; I laugh in their faces and spit upon them."

Life Valued at \$75,000

New York, April 21.—A verdict for \$75,000 damages was awarded by a jury in the supreme court in the suit brought against the New York Central railroad by the heirs of Alfred M. Perrin of New Rochelle, former president of the United States Paper Bag company, who was killed in the Park avenue tunnel accident.

White Beats Spike Sullivan

London, April 21.—Jabez White of Birmingham beat "Spike" Sullivan of New York here last night on points after 15 rounds of hard fighting for a purse of \$2750. The men weighed in at 137 pounds.

Foreign Minister Steps Out

Rome, April 21.—The Tribune says that Foreign Minister Prinetti has sent his resignation to Premier Zanardelli and that the name of the successor to the minister of foreign affairs soon will be announced.

Jim Dumps' good wife was always there—At church bazaar or village fair. And weary women oft inquired, "Why are you never fagged or tired?" "Tis 'Force' that gives me strength and vim," She said, and smiled at "Sunny Jim."

NOVEL ENTERTAINMENT

Given by Arabs In Honor of
President Loubet

EIGHT THOUSAND TOOK PART

Exhibition of Sports Followed by
Charge of Native Cavalry and Mimic
Combat—Desert Delicacies at Ban-
quet and Dancing by Dusky Girls

El Kreider, Algeria, April 22.—Presi-
dent Loubet has participated in a
veritable durbar of the nomadic tribes-
men of the desert. The tribesmen gath-
ered in thousands from all parts of
southern Algeria for a ceremony of
Oriental splendor.

Up to the present time Loubet has
visited only those sections of Algeria
which show the advance of French col-
onization. Yesterday, however, he en-
tered the desert country, with its
sparse and burned vegetation, where
the stretches of sand and hot sun pro-
duced the curious effects of mirage.

The ceremony was held on a vast
plateau. Here the tribesmen assem-
bled from all quarters, some of
them having journeyed 300 or 400 miles
across the desert. Their tents were ar-
ranged in circles after the Arab custom,
each tribe occupying a large circle in
the centre of which were droves of
richly harnessed camels. The chiefs
were mounted on horses, but the tribes-
men were on camels and formed great
caravans. Over 8000 men participated
in the gathering.

A superb tent of camel hair fabrics
and Arab tapestries had been erected
for President Loubet. As each tribe
passed in review its chief dismounted
and paid homage to the President of
France, who distributed decorations to
the principal leaders. After the review
came a native fantasia, or exhibition
of sports. There were feats of horse-
manship and bare-knuckled boxing,
the exhibition ending by a
charge of all the active cavalry, which
wheeled across the plain and charged
toward the station occupied by the
president, the horses being pulled up
within 300 yards of his position. A
mimic combat followed, representing
the attack upon and capture of a car-
avan by a desert tribe.

The ceremonies were brought to a
conclusion by a grand "durbar" or Arab
banquet given by the chiefs in honor of
the president. The menu, which was
printed in Arabic and French, included
such desert delicacies as roast gazelle
and camel's milk. Dances executed by
celebrated native beauties followed the
banquet, and after an exhibition of na-
tive methods of hunting, which included
a bare chase by trained falcons, the
day's entertainment ended.

The president then started on his re-
turn journey to Saïda. The tribesmen,
mounting their horses, rode at full
gallop alongside the train as long as
they could keep up the pace, their
many colored bannous, fluttering in
the wind, making a brilliant picture.

The day's entertainment presented a
spectacle of barbaric splendor such as
has seldom been seen by European eyes.

Coal Field Troubles

Wilkesbarre, Pa., April 22.—The ex-
ecutive board of the United Mine
Workers, in session here, issued an or-
der to all mine workers now on strike
or locked out instructing them to return
to work under present conditions, pend-
ing the result of the meeting of the con-
ciliation board and the coal operators.
District Presidents Nicholas, Fahey
and Betty were appointed members of
the miners' conciliation board. The
operators have been requested to name
their members.

Assaulted and Robbed of \$3000
Mount Vernon, N. Y., April 22.—Two
young men entered the home of Guiseppi
Galantunno, a workman, as-
saulted his wife and robbed her of \$3000
in cash which she was carrying in the
bosom of her dress. The robbers es-
caped. When the husband was sum-
moned from his work and found that
the money was missing he attempted to
cut his throat and was prevented by
neighbors only after a struggle.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and
I went into gardening, I was sure to have an
attack of rheumatism, and every attack was
more severe than the preceding one," says
Josie McDonald, of Man, Logan county,
West Va. "I tried everything with no relief
whatever, until I procured a bottle of Cham-
berlain's Pain Balm, and the first application
gave me ease, and before the first bottle was
used I felt like a new person. Now I feel
that I am cured, but I always keep a bottle
of Chamberlain's Pain Balm in the house,
and when I feel any symptoms of a return I
soon drive it away with one or two applica-
tions of this liniment." For sale by all
druggists.

THE DES MOINES.

Dock Trial Expected in May, Fol-
lowed by Builders' Trial.

One of the busiest places in the Fore
River Shipyard is the hull of the
United States cruiser Des Moines,
which lies moored under the great
gantry crane in the fitting-out basin.
It is expected that a "dock-trial" in
which the engines are simply "turned
over" while the vessel is still fast to
the pier—can be made in about a month
or along the middle or latter part of
May. This trial would be soon follow-
ed by the builders' trial at sea.

The engines have been in place some
time and are now estimated as 91 per
cent. complete; only a few pipes and
connections are lacking, and these are
being put in as fast as possible.

Below decks workmen are employed
in many different ways. The corruga-
ted iron walls of the cabin and rooms
are up, and are being painted; the
mould work for the electric light wires
is all in place, ready for wiring; the
coal hatcher have been inserted in all
the decks.

The mounts for the main battery are
in place on the gun deck; sockets for
stanchions are being fastened along the
sides of the vessel; the pilot house is
almost completed; only a few sections
are lacking to complete the brass railing
of the bridge above it; and the steel
strong-backs on which the ships boats
will be placed are being set up.

LOVE TRIUMPHS

Obstacles Overcome by Blind Couple,
Who Elope and Are Wedded

Cambridge, Mass., April 22.—Blind-
ness and parental objection proved no
bar to the matrimonial desire of Everett
J. Clark and Harriet Nichols of this
city, who with the assistance of a few
friends, managed to elope, and a few
hours later were happily married. The
courtship began at the Perkins In-
stitute for the Blind, and was con-
tinued despite the objections of the
bride's parents. Clark, who is a piano
tuner, called on Miss Nichols, and ob-
tained her mother's consent to accom-
pany her to the house of a friend. Sev-
eral other friends guided them to Rev.
C. H. Williams, who, although some-
what loath, performed the ceremony.

"I don't think such marriages ought
to take place," Mr. Williams told a re-
porter. "There should be some clause
in the statutes of Massachusetts to pre-
vent them. I felt compelled to do it,
and because I sympathize with them, and
then somebody would have to perform
the ceremony anyway. Mr. Clark had
obtained a license, and though I didn't
like the idea I did my duty."

Hub's New Police Commissioner

Boston, April 22.—Governor Bates
today presented to the executive council
the nomination of William H. H. Em-
mons, judge of the East Boston police
court, as a member of the Boston police
commission to succeed E. F. Clark,
whose term of office expires on May 1.
The question of the appointment of
Clark's successor has caused wide
speculation, but on none of the states
has Emmons' name had a place and
the governor's action came as a sur-
prise. Emmons is named as chairman
of the board.

Providence, April 22.—Three boys
who claim to belong in Portland, Me.,
and who gave their names as John J.
Reardon, Martin Cephalino and Frank
Gerard, were arrested at the Union
station. Each had in his possession a
long hunting knife. They also had \$30
in money. They admitted that they
had taken the money from relatives.

ACCIDENT TO CHIEF

Thrown From Wagon in
Responding to Alarm.

Was Unconscious for
Awhile.

The Fire was Only a Small Out-
Building.

Chief Engineer Peter J. Williams
was thrown from his carriage on
Franklin street Tuesday night while
responding to an alarm from Box 41 at
7.35.

The Chief was at home when the
alarm sounded and as he came up
Franklin street his horse was going on
the jump. When nearly opposite the
residence of Charles H. Spear he ran
into a buggy. The street is rather
narrow at this point as well as dark.
On the east side of the street was a
horse and buggy owned by Mr. Mattie
of Penns hill. The horse was hitched
to a post with the back of the buggy
toward the south. This made it im-
possible for the Chief to see it until
too late to turn out and avoid it.

The wheel of the Chief's carriage locked
into the wheel of the buggy. The
sudden stop sent Mr. Williams flying
through the air, and he landed heavily
upon the street railway tracks. His
son who was riding with him at the
time was also thrown out, but escaped
injury.

Chief Williams is a very heavy man,
and when he struck the ground he was
stunned for a moment, and the by-
standers who saw the accident thought
he was killed. He recovered conscious-
ness in a few minutes and was taken in
a carriage to his home and a physician
summoned.

It was found that no bones had been
broken, but that his face and hands had
been scratched, and that he had been
severely shaken up. This morning it
was said at his home that he was feel-
ing as well as could be expected, al-
though his head bothered him some-
what.

Chief Williams' carriage was not
injured. The buggy, however, was
badly smashed.

The fire proved to be in an outbuild-
ing in the rear of Swithin Bros',
granite sheds on Granite street and was
extinguished with slight loss.

—One of the features of the great
military parade at the World's Fair, St.
Louis, on Dedication Day, April 30,
will be the battery of mountain
artillery whose guns are carried in four
sections on the backs of as many
Missouri mules.

Good Afternoon.

It is difficult, yea, impossible, to find room many of these days to accommodate all the news in the Daily Ledger that is prepared for the day's edition. Yesterday in particular, it was necessary to lay over several columns, including local news, telegraphic news, advertisements and instalment of story. Friends will kindly remember that there are limitations.

We notice that at the recent launchings at Bristol and Newport News, the cities have made extensive plans. The Daily Ledger was in receipt of an invitation from the Board of Trade to attend the former, and at Newport News on Saturday there was a street pageant. The launching of the first-class battleships in Quincy next year should be gala days for the city, and the city or the Master Builders should unite with the Fore River Co.

Latest from Chief Williams.

It was learned upon inquiry at the home of Chief Williams this afternoon that he passed a rather bad night. His condition was changed but little from this morning. He still complains of pains about the head.

Serious Fall.

S. Philbrook of Webster street, while endeavoring to saw down a huge tree in front of his house, Monday morning fell from one of the top branches, a distance of about twenty-five feet, and fractured three ribs beside sustaining other injuries. Mr. Philbrook was carried to the hospital. Several kind neighbors on Webster street, took hold of the tree and finished the work Mr. Philbrook had so heroically begun.

Prescott Vs. City.

The suit in equity of Charles L. Prescott to restrain the City of Quincy, Mayor Bryant, the Board of Health and Arthur W. Loud, from interfering with his business as City Scavenger, did not come to argument yesterday as was expected. All that was done was to make the return of papers and enter the case. Just when the case will be heard has not been determined as yet, but it is expected that arguments will be made tomorrow.

Classmates in Attendance.

The funeral of Stedman Thompson, the oldest child of Councilman and Mrs. Alexander Thompson, on Tuesday afternoon was notable for the large attendance of young people, classmates and neighbors of the young man. These included 27 of the 31 young men and young ladies who were graduated with him from the Coddington school last June, who contributed a large and beautiful pillow of pinks and roses. The J. O. C. sent a pretty bouquet of white tulips, white roses, white pinks and white pansies. There was also a crescent and many flat bouquets of roses, pinks, etc. Rev. E. C. Butler of the Unitarian church officiated. The interment was at Mt. Wollaston in the family lot.

Now the courts must pass on the value of a pucker. A man who excelled as a whistler has sued a Chicago street railway for \$20,000. His cheek was cut in a car accident, and he lost his power to pucker his mouth. The amount of damages he asks for, however, indicates that he still has some cheek remaining. —Lynn Item.

GOLDEN WEDDING

A Worthy Wollaston Couple Reach Golden Anniversary.

Mr. and Mrs. Ichabod Washburn Faunce, a well known couple of Wollaston, celebrated their golden wedding anniversary at their residence No. 277 Newport avenue, Tuesday afternoon from one to six o'clock.

The occasion was made the reunion of their children, grandchildren, and other relations as Mrs. Faunce's recent illness prevented her from receiving her friends generally.

Mr. Faunce was born in Kingston, Jan. 15, 1828, and was the middle one of eleven children, seven of whom are now living. Mrs. Faunce's maiden name was Annie Lincoln Bennett, born Oct. 22, 1835, in Abington, and is one of two children. They were married in Abington in 1853 by Rev. Horace D. Walker of East Abington and they lived in one house till 1882 when they came to Wollaston.

Mr. Faunce is a mason by trade. Two children have been born them, Mrs. George Weston and Mrs. Chandler Smith, both of Wollaston.

There were present at the wedding four brothers and one sister of Mr. Faunce. The other sister lives in Kansas. Also present was Mr. Seth W. Bennett of Abington, brother of Mrs. Faunce.

An account of the silver wedding of Mr. and Mrs. Faunce, twenty-five years ago, was read, together with two poems which were read upon that occasion.

The happy couple were remembered with gifts of gold and silver and a large quantity of flowers.

Mr. Faunce has been prominent in musical circles as a member of string bands, brass bands and a number of choral societies. He attended both Peace Jubilees.

Never Such Fire-Works Before.

Work has begun on the vast system of frameworks for the great fire-works displays on the occasion of the World's Fair dedication ceremonies at St. Louis, April 30 next. Magnificent as have been former displays of fire-works at famous jubilees and celebrations in Europe and America, these programs will far surpass all former efforts. Some of the set pieces are nearly half a mile long and 100 feet high.

Many tons of explosives and chemical ingredients for producing the different colors of fire are necessary in the manufacture of these novel features. The balloons to be used in one feature of the display are so large as to require three days for their inflation. Expert aeronauts are in charge of this number on the long program. One central balloon, much larger than the rest, will discharge the initial volley from a position 1,000 feet from the ground and will be followed by salutes from fourteen other balloons ranged on each side over a stretch of more than a quarter of a mile.

Bombs and rockets will be set off by thousands and the sky will be brilliant with new things in fire-works. The program provides for two evenings of fire-works, a grand stand seating 30,000 people now being under construction from which to view the spectacle.

Acceptances have been received from President Roosevelt, former President Cleveland, the president's cabinet, the diplomatic representatives of foreign countries, governors of states and other distinguished men. The first day, April 30, is dedication day; May 1 is diplomatic day, and May 2 governors' day. The military parade on April 30 will be composed of 15,000 to 20,000 troops and the civic parade on May 2 will be equally large if not larger.

The Co-operative dining rooms were taxed to their limit Patriots' day to supply the wants of its many patrons. The ladies' room has been nicely fitted up, the ceiling being tinted a robin's egg blue, and with new paper and paint, it shines resplendent. It is lighted by electricity. But that is not all—the cooking is unsurpassed and served with neatness and despatch. Their terms are moderate. Watch them grow. At No. 3 Granite street, (just around the corner.)

TODAY'S COURT.

George E. Ellis was fined \$5 for riding a bicycle on the sidewalk at Randolph.

George O. Dell was fined \$10 for drunkenness at Cohasset. A complaint against Dell for disturbing the peace was placed on file.

The case of George E. Whiting of Braintree was called and he was defaulted.

The continued case of Herbert H. Holmes, for non-support at Quincy was called and he was defaulted.

VAN OVERTURNED.

Accident Happened Near High School—Driver Hurt.

There was quite a serious accident on Hancock street, opposite the High school, shortly after 8 o'clock this morning. At that hour a four-horse furniture van, owned by Frank W. Hatch of Marshfield, and driven by A. E. Williamson, was going toward Boston on the west side of the street. As the team approached the corner of Alleyne street the driver met two teams coming from Boston on the same side of the street. The driver of the van turned his horses sharp across the railroad tracks directly in front of two open street cars that were being taken to the car barn.

The motorman applied the brake to his car and shouted to the driver of the van. It is an open question whether the forward wheels of the van struck the curbing or the car struck the rear of the van, but the van was overturned and the horses ran across the lawn of the High school yard with the forward wheels and then up through City Square and down Chestnut street and were captured on Washington street near Hall's store.

William the driver was thrown heavily to the ground and received a severe scalp wound and a fracture of the right leg. He was removed to the City Hospital in the police ambulance.

An eye-witness to the affair states that the car did not strike the team, but the wheels striking the curbing at a sharp angle caused the team to be overturned. An examination of the car, which has recently been varnished, showed no mark or scratch, which would have appeared had the car struck the van.

Acceptance of Broadway.

Editor Quincy Daily Ledger:

Your recent editorial upon the acceptance of Broadway by the city and your correspondent's answer thereto are both opportune. As a resident and property owner upon the street in question, may I be permitted to protest against allowing it to remain in its present unsightly condition, and to enter a strong plea for its proper maintenance by the city.

Of course there can be no question that, in its present state, Broadway is inadequate for use as a thoroughfare. The Washington drain overflows in wet weather and renders passage almost impossible. The only matters to be settled, then, are whether there is enough traffic over the street to warrant its adoption by the city and what part of the expense of improvement should be borne by the owners of property abutting upon it.

The growing importance of Quincy Point as a place of residence cannot be gainsaid. Its valuations are increasing every year and the proportion of the city's taxes which it pays is growing larger in like ratio.

Especially is this true of Ward Two, where many new householders are buying and leasing homes, and where this number, already large, might well be increased if the improvement prayed for be granted. Broadway is the main thoroughfare to much available property lying west of Washington street in this ward. The traffic upon it is at all times considerable; its betterment is absolutely imperative.

As for the cost of this improvement, it would seem reasonable to suppose that some of the city's money which is at present being spent upon streets in other districts might well be diverted to this part of Ward Two. The valuation of \$30,000 which has been placed upon property in its immediate vicinity carries with it no inconsiderable burden of taxation; the importance of keeping this thoroughfare in repair cannot be doubted; it would seem to be infinitely wiser to spend the city's money upon such a work where the return upon the investment is assured than upon many of the so-called streets which are at present being improved at the expense of the municipality.

Reception to New Pastor.

The reception tendered to the Rev. W. A. Mayo by the Ladies' Social Union of the West Quincy M. E. church Tuesday evening was largely attended by the parishioners of the church and proved to be an enjoyable occasion. The program consisted of recitations by Master Leslie McCormick, banjo and harmonica solos by Mr. Charles Barron, reading by Mrs. J. C. Carley, and a vocal solo by Mr. Fred Badger. Miss Olive Grant in a few well chosen words welcomed the pastor to his new parish in West Quincy. Rev. Mr. Mayo feelingly responded. Miss Mabel H. Ripley, in behalf of the Willing Helpers' society, presented Mrs. Mayo with a beautiful bouquet of carnation pinks. After a social hour the ladies served hot chocolate and cake.

JOB PRINTING AT PATRIOT OFFICE.

BAD FEELING CONTINUES

Assaults Upon Members of Boot and Shoe Workers' Union at Lynn, Mass., April 22.—The contest against the Boot and Shoe Workers' union, which precipitated a strike in a number of factories over three months ago, and which has apparently been smoldering for the past few weeks, broke out afresh last night. Several B. and S. W. U. men were assaulted and a restaurant which they patronized was stoned and considerable plate glass broken.

The restaurant was open on the street floor of the building where the Boot and Shoe Workers' union have been boarding the strike breakers. Last night, while the men were at supper, a man climbed on board a passing team and hurled a large stone through the plate glass window. He attempted to escape, but was immediately arrested and gave his name as Henry Sanborn.

Several of the strike breakers were assaulted in different parts of the city and one man named James Rogers, a cutter from St. Louis, was thrown down and kicked by four men. Some one in the crowd shouted: "He's no shoemaker; he's a red-carrier." His assailants lifted him from the ground, apologized to him and filled his pockets with cigars. They were much chagrined to learn later that Rogers was a strike breaker.

An attempt was made by the Boot and Shoe Workers to collect arrears in dues from the workmen in several of the factories, but without success. Nearly all the men who struck in opposition to the assessment levied by the B. and S. W. U. have found situations elsewhere and only a few are being supported by strike benefit.

Battleship Iowa Disabled

Pensacola, Fla., April 22.—The battleship Iowa, which left Monday to complete her target practice in the Gulf, was towed in last night, totally disabled by her steampipe bursting and tearing away the steering gear. The accident happened last night at 5:30, and three government tugs were sent to the ship's relief. The extent of the damage is considerable. The squadron was to have departed for the north today, but the accident to the Iowa will prevent its sailing as scheduled.

Austrians Seeking Homes Abroad

Vienna, April 22.—The social economic committee of the reichsrath points out that the emigration question is one of great urgency, saying that in the 10 years between 1890 and 1899 Austria lost through emigration 2000 persons annually, and this number was increased to 48,000 persons in the year 1902.

Moros Draw Line at Slavery

Manila, April 22.—General Davis reports that nine-tenths of the Lanoos (Mandanaos), Moros, have accepted American sovereignty and pledged peace and friendship. Peace is assured until an attempt is made to abolish slavery. It is believed that would entail the Moros in opposition to the Americans.

THE PRESBYTERY.

Most of the Churches Represented
at Quincy This Week.

The stated spring meeting of the Boston Presbytery, which, with two exceptions, all New England Presbyterian churches, opened Tuesday at the Water Street Presbyterian church. There was a large attendance including forty ministers and twenty elders.

Rev. George Whitefield Mead of Newport, R. I., was elected moderator for two years and Rev. James Mitchell, Ph. D., of Revere, was elected permanent clerk. Rev. W. E. Archibald, Ph. D., D. D., of Brookline was appointed stated clerk and treasurer.

A committee from the Brookline Presbyterian church asked that the presbytery refrain from dissolving the pastorate now existing between the church and Rev. Dr. Archibald.

A committee consisting of Rev. James Todd D. D. of the First Presbyterian church Quincy and Elder William McDonald of the First Presbyterian church of Boston, were appointed to confer with the Brookline committee, whose action gave evidence of the high esteem in which Rev. Dr. Archibald is held by them.

Overtures were received from the Presbytery of Matamoras, Ill., in relation to reorganizing the board of Home Missions in New York. Action on this matter will be taken today.

At Tuesday evening's session the question of dissolving the pastoral relations between Rev. Dr. Archibald and his church was considered and the Presbytery refused to grant Dr. Archibald's request to dissolve the relations, and he will remain in Brookline.

UNKNOWN HURT.

Struck by an Electric Near the
Neponset Bridge.

An unknown man was struck by an electric car on Hancock street near the Neponset bridge shortly before midnight last night. He was removed to the City Hospital where an examination showed him to have sustained a scalp wound, and cuts on the face and head. He is apparently a machinist, and is 30 to 35 years of age, 5 feet, 9 inches tall, 190 pounds. He is of dark complexion, dark brown hair and red mustache. He was dressed in dark clothing.

The fellow when struck is alleged to have been under the influence of liquor and was staggering along the sidewalk. As the car was passing him he gave a lurch and fell over onto the car.

The unfortunate man died at the City Hospital about 10:30 this morning, without having regained consciousness. There was nothing about the clothing of the man to tell who he was. He is now at Brown's undertaking rooms.

THE DEDHAM COURT.

Manslaughter Case from Brookline
Ahead of Quincy Case.

A Brookline manslaughter case has taken precedence of the Crocab case from Quincy at the Superior court at Dedham. The trial of James C. Duane, charged with causing the death by shooting of his father-in-law, John Lehmann, at Brookline, Sept. 7, 1902, opened on Tuesday before Judge Holmes.

Charles W. Bartlett and French & Curtiss appeared for the defendant, District Attorney Asa P. French and his assistant, Richard W. Nutter, for the commonwealth.

The jury in charge of court officers and accompanied by counsel, went to view the premises on Tuesday.

His Defeat—Admiral Killick Blew
Up Gunboat Crete and Himself

Washington, April 22.—An interesting history of the scenes attending the enforced retirement of General Sam as president of Haiti and of the revolutionary period following is told in the Haitian series of diplomatic exchanges appearing in the forthcoming volume of foreign relations of the United States. In Minister Powell's reports to the department on the progress of events are presented some facts not heretofore published. Speaking of the contemplated resignation of General Sam, Minister Powell said:

"The first dissatisfaction on the part of the people toward the government was caused by the course pursued by the president in the late election for members of the house of deputies by what they termed unwarranted interference on the part of the government in the elections. It was charged that the only persons permitted to vote were those who would promise to vote for the government's candidates."

Speaking of the candidates for President Sam's place, Minister Powell said of Leconte: "one of the aspirants for the presidency: 'It was supposed that General Leconte, in case President Sam should resign, would be the government's candidate. It was also stated that he was supported by the leading German commercial and banking interests of this capital; in return he was to grant them certain commercial favors, was not to grant a renewal of the present commercial treaty with France, and was to grant to the German government some place near the Mole St. Nicholas for a coaling station. The latter statement, though, was not true, but it is supposed that certain arrangements were made with the agents of the Hamburg-American Steamship company by which, in case Leconte should be elected, he would favor granting them a place in the vicinity of the Mole to store coal. He was also to grant them an interest in certain mineral lands, which are thought to be very rich, and which would give them almost exclusive control of such lands. The agents of this company are Germans and, it is said, supplied him (Leconte) with money to a large amount."

"By some means his opponents secured a copy of the proposed agreement and published the same in one of the daily papers. The next day after it appeared Leconte and the agents in question published a denial that such an agreement was made, but the people in general believed the denial to be untrue. This embittered all classes against Leconte."

The election of Leconte was prevented by the forcible adjournment of the chambers by citizens opposing his candidacy.

Following is an extract from the report of Minister Powell on the destruction of the Firminist gunboat Crete, and the death of her commander, Admiral Killick, whose surrender was demanded by the German warship Panther:

"It is reported that the Panther reached there (Goralev) about 12 m. on Sept. 3. On her arrival she signalled the Crete to surrender and fired one shot; that she had five minutes to do so. Most of the officers and men had shore leave, and were not on the vessel. Killick, the day previous, had had an operation performed, and was in bed at his home. On hearing the report of the cannon he hastily dressed and with the officers of the crew rowed to the Crete. In the meantime a delay had been granted by the German captain in order to afford time to consider his demand. Killick, on reaching the deck of the Crete, saw that it was useless to fight, so he ordered the officers and crew ashore and at the same time directed three kegs of powder, some large cartridges and a can of kerosene oil to be placed in his room. After most of the men had left the ship Killick retired to his cabin with two men. The last thing he was seen to do was to light a cigar, fix this train and take a seat in a chair, dressed in his uniform. Before the boats could reach the shore an explosion was heard and the rear portion of officers' quarters of the ship was destroyed. A few minutes thereafter the Panther, which was within range of the Crete, opened fire and continued until the last shot entered her magazine."

Eight Years For "Abduction"
New York, April 22.—Eugene Master-son, a former policeman, convicted of abduction, was sentenced to eight years in prison at hard labor. Master-son was accused of procuring girls for immoral purposes. In the case upon which conviction was secured the girl victim was under 16 years of age, so that the charge was made abduction.

Great Lakes Strike Settled
Chicago, April 22.—Settlement of the strike of dredge and crane men, which has tied up work in the harbors of the Great Lakes, has been effected. The employers grant the demands of the men for the payment of the Chicago scale for all work done out of this city on current contracts.

DUNLAP HELDS THE FORT

Naval Captain Not Anxious to Have
Warrant Served Upon Him

San Juan, P. R., April 22.—The police have not been able to arrest Captain Andrew Dunlap, U. S. N., commandant of the Naval station here, against whom a warrant has been issued for bringing in liquors without paying duty, because the naval station is a government reservation and Captain Dunlap remains on it. The police have been standing at the gate of the station since Monday afternoon. Captain Dunlap refuses to come out or to permit the police to enter. The first time the naval officer leaves the station he will be arrested. It was thought that Captain Dunlap would leave the station voluntarily, but it is now probable that he will not do so as long as the police remain outside.

Commander Mentz, U. S. N., and Robert Giles, against whom warrants were also issued on the same charge, have been arraigned and pleaded not guilty. A preliminary hearing will be held before Justice Bazan, a native, but because of the inability to apprehend Captain Dunlap the date for the hearing has not been set.

P. V. Mohun, paymaster, U. S. N., for whom there is also a warrant out on the charge of illegally bringing in liquor, is in the United States and will be summoned later through the government.

Testimony in Howard's Favor
Frankfort, Ky., April 22.—Dr. T. E. James of Butler county testified in the Goebel murder trial that he was the man who came out of the state house shortly after the shooting of Goebel, and whom Daily and others supposed to have been Howard. Photographer Ogg identified a photograph that he made of Howard and which showed Howard without a moustache. Several other witnesses testified the same way. It is the claim of the prosecution that Howard wore a moustache at the time of the shooting.

Boy Charged With Murder
Clinton, Mass., April 22.—Thomas Smith, who was assaulted by his son, Walter, aged 16, by being hit with an axe, died of his injuries and the boy appeared in court charged with murder. The boy did not show any concern over the affair. The court stated that, as usual in juvenile cases, there must be a continuance until a representative of the state board of charity can be present. He therefore fixed next Monday as the day for a hearing.

King's Plans In Doubt
Rome, April 22.—Nothing is known at the British embassy here or in official circles concerning the report that the health of King Edward is unsatisfactory. He is expected to arrive at Naples at a late hour today. The archbishop of Malta has informed the Vatican that he did his best to represent the advisability of a meeting between the king and the pope, adding that he received no assurances that this meeting would or would not occur.

Held on Arson Charge
Marlboro, Mass., April 22.—William H. Brigham was before Judge McDonald upon the charge of setting fire to the barn of Robert LeFavor. Judge McDonald ordered Brigham to furnish \$500 bonds for his appearance before the grand jury. It is thought Brigham's arrest may solve the mystery surrounding several incendiary fires which have occurred here recently.

Tardy Offer of Reward
Fall River, Mass., April 22.—The board of aldermen last night authorized the mayor to offer a reward of \$500 for the detection and conviction of the murderer or murderers of Gaspard O. Vandal, who was found in an alley near his store in December last with his skull so badly fractured that he died the next day. No result came of a lengthy investigation.

C. C. HEARN'S UNUSUAL OFFER.
Sell Dr. Howard's Specific at Half-Price and Guarantee a Cure.

"It isn't often that we have faith enough in the medicine put up by other people to be willing to offer to refund the money if it does not cure," said Chas. C. Hearn to a Ledger man who dropped into his store, "but I am glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that basis."

"The Dr. Howard Company, in order to get a quick introductory sale, authorizes me to sell their regular fifty cent bottles at half-price, 25 cents, and, although I have sold a lot of it, and have guaranteed every package, not one has been brought back as unsatisfactory. I am still selling the specific at half-price, although I cannot tell how long I shall be able to do so, and anyone who is subject to constipation, sick headache, dizziness, liver trouble, indigestion or a general played-out condition ought to take advantage of this chance. You can tell your readers that if they are not satisfied with the specific they can come right back to my store and I will cheerfully refund their money."

Chas. C. Hearn has the sole agency for this remedy in Quincy, and has sold a great many bottles since he advertised to let customers have a 50c. package for 25c. Many people are buying several bottles at a time so as to always have the specific in the house and at the same time profit by the special price.

Drift of Opinion.

Will the outcome of this discussion of the relations of the government to great consolidations of capital be the institution of a policy of chartering federal corporations for purposes of interstate commerce, by which the rights of the corporation shall be established and shall be defined by such limitations as will leave the desired supervision and control in the hands of the government. Consolidation of capital and effort for the purposes of economical production and transportation are certainly to be desired in the progressive development of the country, but the question is, how to limit it to such purposes. The federal corporation has its disadvantages, but there are many who look at it as the ultimate solution of the problem.—Haverhill Gazette.

Salad Supper.

On Wednesday evening from half-past five to nine, was held the last of the monthly suppers and socials given during the winter by the parish of the First Unitarian church. Being the last, there was a large attendance, an extra table being necessary to accommodate all.
The tables were spread with tempting-looking salads, about every known kind being in evidence. Besides the salads there were cold meats, hot rolls, coffee and home-made cake. It was a merry gathering, the social chatter being quite lively at times.
Following the supper there was a sale of home-made candy and also articles left over from the fair last fall, and over forty dollars was realized.
Miss Florence Raymond Emery, with Miss Sara Whitcher at the piano, sang informally several solos, receiving the hearty applause which always greets her whenever she sings.

Supervision of Mines.

Representative Freeman voted in the House on Wednesday to strike out "national ownership" from the resolution in favor of government supervision of the anthracite coal mines. The majority were with him, 100 to 55. Representative Fallon was not recorded. The resolution favoring "supervision" was adopted.

—Randolph had a notable triple anniversary on Saturday, at the home of Mr. and Mrs. Ezra R. Payne, North Main street, at which the family and a few friends were present. The interesting feature is that the birthday of Ezra R. Payne, who is 77 years of age, his son, E. Lawrence Payne, 53, and his grandson, Clifton Payne, 28 years, all come on the same day.

—The term "infantry" was first used by the Spaniards in the wars with the Moors to designate the body-guard of a royal prince or infant. It was extended to the entire body of foot soldiers, and finally adopted throughout Europe.

SERBERG---SVENSON.

A Grand Wedding Among the
Swedish Residents.

Miss Edith E. Svenson of 13 Winslow avenue, West Somerville, a daughter of Rev. Svante S. Svenson and Mr. Victor E. Serberg of 5 Nelson street Quincy were united in marriage, Wednesday evening at St. Paul's church on Fort street. The ceremony was performed by the bride's father Rev. Svant Svenson.

The bride was attended by Miss Isa M. Richardson of Waltham, Miss Ingeborg and Miss Teresa Svenson of West Somerville, while Mr. Klas Olson of Worcester was the best man.

The flower girls were Miss Ruth Svenson and Miss Elsa Mortenson, and the ushers Mr. Oscar S. Sandberg, Mr. Theo. Hermanson of Quincy, Mr. Gideon E. Spencer of West Somerville, and Mr. William Johnson of Newport, R. I.

These preceded the bridal party who entered the church to the music of a wedding march played by Miss E. Lawson of Lowell. Mr. Harris Spencer was master of ceremonies.

The bride was gown in a white cream de chene with graceful train. Her gown was trimmed with clonic lace and she wore a veil. The bridesmaids were gown in white muslin.

The church was prettily decorated with potted plants and ferns, roses and bunting.

About six hundred guests were present among whom was Mr. Willie Reslow the well known Swedish poet.

Aside from the wedding, the event was also the twenty-fifth anniversary of the marriage of the groom's parents. Mr. and Mrs. August Serberg, who also received congratulations.

A wedding supper followed the ceremony and a brief entertainment consisting of a violin solo by Mr. Ralph Holmes; vocal solo, Miss Clara Svenson; piano solo, by Miss Hedwig Hedberg.
The presents included a tea set and candelabra from Viking Cycle club, \$70 in silver half dollars from members of the church and others.

STILL UNKNOWN.

Injured Man Who Died at Hospital
Not Identified.

All efforts on the part of the police to identify the man who died at the City Hospital Wednesday as the result of injuries received by being struck by a car the night before have been without result, and his identity still remains a mystery.

The only thing about his clothing that could serve as a means of identification was a pen knife on the plate of which was the name, "Joe Ganier." It was thought by the man's appearance that he was a machinist but the Fore River Ship and Engine Co. have no such name upon their payroll, and the foreman or the machine shop who viewed the remains could not identify him as anyone he had seen before or knew.

Madden—Hussey.

Miss Elizabeth A. Hussey of Willard street and Mr. William Madden of Ashmont were united in marriage Wednesday evening at St. Mary's church. The ceremony which was witnessed by a few intimate family friends was solemnized by Rev. Ambrose F. Roche. The bride was attended by Miss Sarah Burns of Milford, a cousin and the groom by his brother. A reception followed the ceremony at the home of the bride. After a brief trip Mr. and Mrs. Madden will reside in Ashmont.

Minstrels and Dance.

A minstrel show, dance and guest contest was given at Clan McGregor hall Wednesday evening under the auspices of Granite lodge, Order Sons of St. George. Part one was in charge of Dan Haley. The interlocutor was John Cain while Dan Haley and William Grant rattled the tambos and John Coullahan and L. G. Esterbrook the bones. In the circle were William Warrington, William Dunstan, H. Rendle, John Tate and W. Coullahan.
Part two consisted of buck and wing dancing by William Grant; solos by John Cole and John Tate, and sketches by Dan Haley, Estabrook and Coullahan. Dancing followed the entertainment.

Quincy Apportionment.

A bill for \$3,000,000 has been reported by the committee of the Legislature for Metropolitan parks and boulevards, and it is said to have the approval of Governor Bates. Of this amount \$375,000 has been apportioned to Quincy to be expended during the next five years.

TODAY'S COURT.

Jeremiah Doran was sent to the State farm for drunkenness at Weymouth.
William E. Tracy was arraigned for malicious mischief at Milton. Case continued until April 24.
Oliver H. Flanders of Quincy was arraigned for larceny from the Milroy Mutual Fire Insurance. Case continued until May 21.

DR. TODD ELECTED.

Boston Presbytery Want Him for
Missionary.

Valuable work of Rev. James Todd, D. D., of Quincy continues to be recognized, and on Wednesday the Boston Presbytery at its session in this city elected him as Presbyterian missionary. A committee was elected to confer with Dr. Todd and his church in relation to terminating his ministry at Quincy.

Good following was shown by electing Rev. W. B. Barr of the United Presbyterian church of Quincy, and Rev. Hector MacKinnon of New Brunswick as corresponding members.

Several pastoral relations in other cities were considered and moderators were appointed.

The Rev. Joseph T. Langton of Waltham read a paper on the condition of religion in the Boston presbytery, and the Rev. W. H. Tower of South Framingham on "The child within the church."

The presbytery refused to take any action seeking reorganization of the home mission board as suggested by the presbytery of Mattoon, Ill.

The Rev. James Mitchell of Revere was appointed state clerk and treasurer of the presbytery, in place of the Rev. W. E. Archibald of Brookline, resigned, and the Rev. J. F. Langton was appointed permanent clerk.

Commissioners were appointed to the Los Angeles general assembly, Elder James Joss of Quincy being one of the alternates.

The vote of yesterday refusing to dissolve the pastoral relations existing between the Rev. W. E. Archibald, D. D., and the Presbyterian church of Brookline was reconsidered, and the pastor was granted letters to the presbytery of Alton, Ill. Dr. Archibald is to become pastor of a church in St. Louis.

Malcolm McPhail of Auburn, N. Y., was granted a license to preach the gospel.
It was voted to hold the fall session of the presbytery in Newport, R. I.

THE ATLANTIC CLUB.

Papers on "Law" and the De-
velopment of Heating."

The Atlantic Monday evening club listened to an address on "Law" at its meeting Monday evening given by Mr. James Keene, instructor in the Boston University School of Law. He defined law, illustrated a case of resort to law, described the way the statutes were compiled and the point where a lawyer's assistance was valuable. It was interesting to learn from him the respect in which the old English law is still held in our courts, decisions even as far back as Elizabeth's and Edward II's times prevailing sometimes over those of our own State.

Mr. James H. Churchill's paper on "The development of heating" was thoroughly enjoyed by the club as he explained the processes in the manufacture of water gas and coal gas, their products and by-products and the usefulness of illuminating oil.

The musical artists who took part in the evening's program were Miss Adelaide Thomas, the violinist, who always delights the Atlantic audiences, Mr. R. G. Randall of Medford and Mr. Edward Phillips of Boston, two baritones with fine cultivated voices whose singing was exceedingly pleasurable to the club, and Mr. T. Cazenave Litchfield of Boston who accompanied the singers most satisfactorily.

All of the artists were encored heartily and responded.

Mrs. Charles A. Hall was the music committee and Mrs. S. M. Bennett the committee of the social entertainment.
At the next meeting Hon. Eugene H. Sprague of Wollaston is expected to address the club on "What the State of Massachusetts is doing for her unfortunate," and Dr. Maria E. Drew to give an address on "The work of a woman physician."

All the children should attend the grand May festival at Quincy Music hall on Saturday afternoon. It is for their entertainment, and in aid of the summer kindergartens.

W. T. Shea of this city was appointed a member of the committee on secret work at the State convention of the Massachusetts Catholic Order of Foresters which open in Boston Wednesday.

A party of sixty who were in town Wednesday in attendance at the meeting of the Presbytery visited the shrine of the Presidents, under the First church, as the guest of Henry H. Faxon.

The committee on election laws of the Legislature reported leave to withdraw Wednesday on the bill that candidates in the ninth, tenth and eleventh Congressional districts may be nominated by direct popular vote.

WOMEN'S MISSION.

The Ladies of Boston Presbytery
Meet in Quincy.

The nineteenth annual meeting of the Women's Missionary society of the Presbytery of Boston was held at Malnati hall on Wednesday.

The morning session opened at 10 o'clock with a devotional exercise led by Mrs. Alex Shirley. This was followed by a roll call of delegates, reports of secretaries and treasurer, and the field secretaries.

In the afternoon the order of exercises consisted of the election of officers; paper by Miss Irving; reports from the field by Dr. Burnham; Mission study hour; needs and methods of Mission study, and question box conducted by Mrs. L. M. Lawson; solo, Miss Evelyn McLeod; address Rev. Dr. Thomas Marshall; report of committee on resolutions.

The evening session was presided over by Rev. Dr. Todd, and consisted of scripture reading; report of foreign missions committee, by Rev. H. C. Hovey, D. D.; Presbyterial report by Mrs. S. F. Hershey; address by Rev. Dr. Marshall, and benediction.

NEWS IN BRIEF

William P. Lord, former governor of Oregon, now United States minister to Argentina, has returned from that country. He came back under his physician's advice to recruit his strength.

The Anti-Saloon league of New Hampshire elected D. H. Goodell of Antrim president.

Sandy Harrison, for 15 years member of the Fall River board of assessors and for many years its chairman, dropped dead in a drug store from heart trouble. He was 60 years old.

A grist mill owned by J. B. Eaton at Westbury, R. I., was burned, entailing a loss of \$27,000.

Fire in the mines of the Otu colliery at Kinshu, Japan, resulted in the loss of 62 lives.

Governor Chamberlain of Connecticut and his staff reviewed three companies of Yale students at drill for the silk flag trophy. The academic company, B, won the company drill.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." METAL BEDS.

The sooner you dispose of all your wooden beds, the sooner the sanitary condition of your sleeping rooms will be improved. Public opinion has endorsed Metal Beds as being the proper thing, and when public opinion sets the seal of approval on anything,

that settles it for good. The most interesting thing about these popular beds is the price. They are cheaper even than the wooden beds.

THE CROBAC TRIAL.
Taken to Supreme Court on Ques-
tion of Lawyer McAnarney.

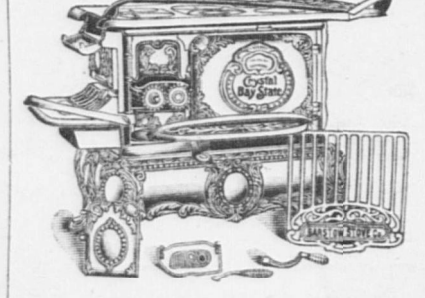

It is probable that the trial of
Constand Crobac, for the murder of
Fred Peterson will not be heard until the
September term.
The reason for this is that the case
has been taken to the Supreme court
for a decision on a question raised by
Lawyer McAnarney, counsel for Crobac.
This question is the one the Ledger
stated on Tuesday would probably be
raised.

The grand jury when it indicted Crobac,
indicted him for murder in the
second degree, and the Supreme court
has been asked to decide if it is a legal
indictment.
The usual custom has been for the
grand jury to indict a man for murder
and for a jury to find the degree.

Gallagher Pleads Not Guilty

Fall River, Mass., April 23.—James
E. Gallagher of Taunton was arraigned
here before Judge Fox on the charge
of murder. The prisoner entered a
plea of not guilty. Gallagher was very
nervous and answered in a weak voice
the few questions necessary. Gallagher
is charged with the murder of his
brother-in-law, Joseph F. McMahon, in
Taunton Nov. 21, 1899, by shooting. He
was captured a few weeks ago in
Seattle. He was sent back to Taunton
but, no date for his trial has been
set.

Cadets Broke Up Concert

Northfield, Vt., April 23.—Cadets of
the Northfield university last night
broke up a concert which was being
given to advertise a patent medicine.
An officer arrested two cadets, who
were taken from him by other cadets,
and in the mix-up the officer twice dis-
charged his revolver, but without hit-
ting any body. The officers at the
academy will hold a military inquiry
into the incident. The cadets first made
trouble at the concert by throwing a
strong smelling chemical on the floor.

At Least Four Years in Prison

Boston, April 23.—Edward C. Everett,
the Lynn man who is said to have given
the check with which he paid the
clerkman who married him to a widow
whom he first met in the Essex county
jail, was sentenced to state prison for
four to five years at hard labor. Everett
procured a large supply of man-
ufactured, tools and belting upon the
strength of forged paper and false rep-
resentations.

Want Linemen Reinstated

New Haven, April 23.—A meeting
was held by representatives of the line-
men employed by the Western Union
Telegraph company last night to take
action upon the discharge of two line-
men who declined to act as messengers
during a strike of the regular messenger
boys. The meeting demanded the re-
instatement of the men and if it is
refused the men will strike.

Must Keep Money For Mother

Bangor, Me., April 23.—Mrs. Mary H.
Deering, who has made a statement in
which she practically confessed killing
her husband, has applied to the over-
seers of the poor of Bangor for aid,
which has been granted. Mrs. Deering
has \$3700 now in the hands of her
son, Frank A. Woodbury, who has been
expending it, except for her
assistance, by the court.

Killed by Kicking Horse

Hampton, N. H., April 23.—John I.
Dove, 45, was found by his mother ly-
ing unconscious beneath the feet of one
of his horses with his head and face
battered and internally injured. Be-
fore his death he explained that in com-
ing out of the stall he struck one of
the horses with a grain bag, causing
him to kick and knocking Dove beneath
his feet.

A Child's Fatal Mistake

Marlboro, Mass., April 23.—Beatrice
Beckwith, aged 4, died from the effects
of bug poison. The little girl was play-
ing near her home and found a bottle
containing what she thought was candy.
She washed the contents and then ate
it. She became ill a few hours after-
wards and grew gradually worse until
she died.

Murder Suspect Arrested

Brookton, Mass., April 23.—Inspec-
tors last night arrested Pasquale
Teriace, aged 30, on suspicion of being
the man wanted by Montreal officials
on the charge of committing murder
there last fall. The prisoner has been
employed in the water works depart-
ment of the city.

The weather has been fair in the
east. Temperatures are still below the
seasonal average from the Mississippi
valley eastward. The weather will be
generally fair in New England.

GRAND BANQUET.

(Continued from page 1.)

It was a "New Century" banquet,
so-called, and was served under the
auspices of the Ladies' Aid Society of
the church. The products of the
"Old Grist Mill" were prominent in
the menu, in fact the whole menu was
made up of health foods, even to the
wheat coffee.

Post prandial exercises followed,
Mr. T. B. Pollard acting as toast-
master. He spoke of the great changes
occurring at Quincy Point, and said
much depended on the church to make
Quincy Point a good place.

Rev. George Benedict of North
Abington, a former pastor, was humor-
ously introduced and asked to respond
to the toast "The Higher Education."

Mr. Benedict is a man of limited
means and has a family of eight children.
He, however, has three children in col-
lege at the present time, and he told
how they were getting their education.
One is paying all his expenses, and the
other two are largely.

Mr. Benedict said he believed in the
higher education, and felt sure all young
people if determined could obtain it re-
gardless of finances of parents. There
were a great variety of courses. Every
person has some special gift, and should
find it out and cultivate it.

A young man who has an allowance
of \$200 to \$300 might go to a small col-
lege and obtain a good education, but
for the boy who is to work his way
through, the large universities were bet-
ter, as they offer more opportunities.
The colleges now have bureaus for self-
help. A young man with executive
ability can always get along.

W. L. Smith told of the preparation
of the banquet and of the food value of
the articles used. Entire wheat prod-
ucts he said were the only perfect food.
That the best of the wheat was thrown
away in the making of white flour.
He wanted all to keep close to nature.
He classed tea and coffee in the same
class as intoxicating liquors, and no
man was perfectly healthy who felt that
he must have either.

Mrs. Susan Barrows responded to the
toast "Influence and work of young
ladies." She said the hope of the
church was in the young people, and
their opportunities to assist were much
greater than years ago. Her paper was
a gem and we wish we might give it at
greater length.

Rev. W. Sherman ompon of
Somerville was down for "Church
Finances," but he did not confine him-
self closely to it but told many stories.
The way to get the men to church he
said was to fill the edifice with good
looking women. But seriously the
churches should have strong financial
support as well as prayers.

Mr. J. Edward Greene of Quincy con-
tributed a vocal solo which was greatly
enjoyed by those assembled, and the
Young Men's Glee Club sang two pleas-
ing selections previous to the banquet.

Rev. T. H. Vincent of North Wey-
mouth responded for the Christian En-
deavor. It was not a rival of the church
he said but a valuable preparatory
school.

Rev. A. A. Ellsworth was requested to
tell of "Donation parties" and read an
apt poem.

Rev. E. N. Hardy of Bethany church
told several good stories. Relative to
"Decision day," the toast, he said the
churches should make it easier to be-
come members.

Mr. E. P. Barrows responded for the
Young Men's club, which he said it
was proposed to make a moral orga-
nization to benefit young men.

Rev. L. H. Austin, the pastor, spoke
of "Sunday Observance."

Henry H. Faxon wanted the church
to be alive; to mix politics with reli-
gion and work for the good of Quincy
Point, especially for temperance.

It was 10:30 before an adjournment
was made.

Drama at West Quincy.

Q. H. S. CONCERT.

**Choruses and Vocal and Instru-
mental Numbers.**

That the pupils of the High school
have a musical talent of high order was
manifest to all who listened to a most
excellent concert given by them Wed-
nesday evening at High School hall.

The concert was to provide funds to
aid in the decoration of the school
building, and while other gatherings in
different parts of the city prevented
many from attending, there was a
goodly number present who showed
their appreciation by the applause that
greeted each number.

The soprano solo of Master John
Bradford Findlay of course called for
an encore as did also the violin duet by
Wallace Cherrington Bennett and Ralph
Lawrence Odierne. This was very
finely rendered.

A quartette composed of Carl Gor-
ham Fowler, Lucien Hamilton Thayer,
Elvira Francesca Packard and Minnie
Packard sang "Forget-me-not" and
"Annie Laurie." The latter was sung
without an accompaniment and was de-
serving of an encore.

The piano solo by Ethel Pauline Par-
ker also called for an encore. All of
the numbers were applauded but these
were all who responded.

There was a piano solo by Miss Con-
stance Barker, a piano duet by Misses
Minnie Packard and Hannah Litchfield,
and another by Misses Henrietta M. B.
Gram and Rena B. Grant.

The five choruses by the school were
excellent, and more than anything else
showed the result of the musical train-
ing furnished the schools by the city.
The concert was under the direction of
E. Landis Snyder, and the accompanist
was Miss Hannah Olliffe Litchfield, a
pupil of the school.

MILLS ARE SUSTAINED

In Their Stand Against an In-
crease in Wages

REPORT OF ARBITRATORS

**Says That Lowell Mills Are Not Con-
trolled by a Combination—Opera-
tives and Agents Declare That Find-
ing Will Not Change Situation**

Boston, April 23.—The textile cor-
porations in Lowell involved in the
present strike of 17,000 operatives,
with a single exception, cannot afford
to pay to their help the 10 percent in-
crease in wages demanded by organized
labor, in the opinion of the state board
of arbitration and conciliation. This
opinion is contained in a report of the
board to Governor Bates summing up
its recent inquiry into the textile sit-
uation in Lowell, and is corroborated by
a statement from a state statistician
based on the figures of an accountant
employed by the board to make an ex-
amination of the financial condition of
the seven mills in question.

The board's report was submitted to
the governor and by him sent into the
legislature with a brief explanatory
message. In this connection there was
an interesting incident. The governor
called the attention of the house of rep-
resentatives to the fact that while the
order for the inquiry by the state board
"required" a report to the legislature,
he assumed that the house meant to
vote "request the information," as the
board is a part of the executive de-
partment.

The board's report is upwards of 10-
000 words in length, with a supple-
mentary financial report of the Booth,
Massachusetts, Merrimack, Appleton,
Tremont & Suffolk, Hamilton and
Lawrence mills in Lowell. The board
refers to the trouble as a "strike or lock-
out" and its deduction after review of
conditions existing is in these words:
"The claim of the mills that they
cannot afford to increase wages is sus-
tained, except in the case of the Law-
rence Manufacturing company, whose
books show that this company is able to
grant the advance demanded."

The finding of Frank H. Brown,
chief clerk of the bureau of statistics
and labor, who tabulated the figures
taken from the books of the corpora-
tions by the board's sworn accountant,
is as follows:
"The question, therefore, as to the
possibility of the Lowell mills paying
its operatives an increase of 10 percent,
can only be answered after a considera-
tion of the question: 'Does the condi-
tion of the mill as a productive power
enable it to earn sufficient to pay a
share which reasonably belongs to
capital as well as the share properly
belonging to labor?' The results of the
investigation of the books seem to war-
rant the inference that material im-
provement in the workingman's condi-
tion is not to be expected from the
mills in their

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and
Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin
Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed. IX.—Brandon in prison charged with murder. Mary to plead with the king. Buckingham against the prisoner. The king discovers a note sent by Mary to Brandon. Brandon condemned to death. The king learns that Brandon saved Mary from disgrace and orders his release. Brandon now madly in love with Mary.

CHAPTER XI.

LOUIS XII A SUITOR.
AS soon as I could leave Brandon I had intended to go down to Windsor and give vent to my indignation toward the girl, but the more I thought about it the surer I felt there had somehow been a mistake. I could not bring myself to believe that Mary had deliberately permitted matters to go to such an extreme when it was in her power to prevent it. She might have neglected her duty for a day or two, but sooner or later her good impulses always came to her rescue, and with Jane by her side to urge her on I was almost sure she would have liberated Brandon long ago, barring a blunder of some sort.

So I did not go to Windsor until a week after Brandon's release when the king asked me to go down with him, Wolsey and De Longueville, the French ambassador special, for the purpose of officially offering to Mary the hand of Louis XII, and the honor of becoming queen of France. The princess had known of the projected arrangement for many weeks, but had no thought of the present forward condition of affairs or she would have brought her energies to bear upon Henry long before. She could not bring herself to believe that her brother would really force her into such wretchedness, and possibly he would never have done so, much as he desired it from the standpoint of personal ambition, had it not been for the petty excuse of that fatal trip to Grouche's.

All the circumstances of the case were such as to make Mary's marriage a veritable virgin sacrifice. Louis was an old man, and an old Frenchman at that, full of French notions of morality and immorality, and, besides, there were objections that cannot be written, but of which Henry and Mary had been fully informed. She might as well marry a leper. Do you wonder she was full of dread and fear and resisted with the desperation of death?

So Mary, the person most interested, was about the last to learn that the treaty had been signed.

Windsor was nearly eight leagues from London and at that time was occupied only by the girls and a few old ladies and servants, so that news did not travel fast in that direction from the city. It is also probable that, even if the report of the treaty and Brandon's release had reached Windsor, the persons bearing it would have hesitated to repeat it to Mary. However that may be, she had no knowledge of either until she was informed of the fact that the king and the French ambassador would be at Windsor on a certain day to make the formal request for her hand and to offer the gifts of King Louis.

I had no doubt Mary was in trouble and felt sure she had been making affairs lively about her. I knew her suffering was keen, but was glad of it in view of her treatment of Brandon. A day or two after Brandon's liberation I had begun to speak to him of the girls, but he interrupted me with a frightful oath: "Caskoden, you are my friend, but if you ever mention their names again in my hearing you are my friend no longer. I will curse you!" I was frightened, so much stronger did his nature show than mine, and I took good care to remain silent on that subject until—but I am going too fast again. I will tell you of that hereafter.

Upon the morning annotated the

king, Wolsey, De Longueville and myself, with a small retinue, rode over to Windsor, where we found that Mary, anticipating us, had barricaded herself in her bedroom and refused to receive the announcement. The king went upstairs to coax the fair young besieged through two inches of oak door and to induce her if possible to come down. We below could plainly hear the king pleading in the voice of a Bashan bull, and it afforded us some amusement behind our hands. Then his majesty grew angry and threatened to break down the door, but the fair besieged maintained a most persistent and provoking silence throughout it all and allowed him to carry out his threat without so much as a whimper. He was thoroughly angry and called to us to come up to see him "compel obedience from the self-willed hussy," a task the magnitude of which he underestimated.

The door was soon broken down, and the king walked in first, with De Longueville and Wolsey next, and the rest of us following in close procession. But we marched over broken walls to the most laughable defeat ever suffered by besieging army. Our foe, though small, was altogether too fertile in expedients for us. There seemed no way to conquer this girl. Her resources were so inexhaustible that in the moment of your expected victory success was turned into defeat; nay, more, ridiculous disaster.

We found Jane crouching on the floor in a corner half dead with fright from the noise and tumult, and where do you think we found her mistress? Frightened? Not at all. She was lying in bed with her face to the wall as cool as a January morning, her clothing in a little heap in the middle of the room.

Without turning her head, she exclaimed: "Come in, brother. You are quite welcome. Bring in your friends. I am ready to receive them, though not in court attire, as you see." And she thrust her bare arm straight up from the bed to prove her words. You should have seen the Frenchman's little black eyes gloat on its beauty.

Mary went on, still looking toward the wall, "I will arise and receive you all informally if you will but wait."

PARRY ATTACKS HANNA

Because of His Attitude on the Labor Question

RUNNING MATE FOR BRYAN

Head of Manufacturers' Association Declares That Unionism is Founded on Principle of Force and Says Harsh Things of Ohio Senator

Indianapolis, April 23.—"Mr. Hanna's rushing to the rescue of organized labor is, when you come to think of it, a somewhat astonishing spectacle," said D. M. Parry, president of the National Association of Manufacturers, when asked for his opinion as to the attack made upon his labor position by Senator Hanna at a banquet of the Amalgamated Steel Workers at Columbus. "Can it be that Mr. Hanna is beginning at this late date to copy after the methods of the mayor of Cleveland? In the campaign of 1896 the very men that Mr. Hanna now extols as the able leaders of organized labor issued a circular demanding in the name of 'all the wealth producers of the country' the reorganization of the national Republican committee, did all he could in support of the gold standard, he was lampooned and abused worse, perhaps, than any man before or since by those very men whose friendship he now so assiduously seeks."

The Genesis of Mr. Hanna from an energetic business man with a labor record not particularly distinguished for leniency into a political leader and finally a United States senator, who is the leading spirit if not the founder of the civic federation, is a remarkable instance of what the political bee will make a man do when it gets to buzzing in his bonnet. It appears that he actually joined the Amalgamated union. As a good union man he may yet think it incumbent upon him to look with an indulgent eye upon Bryanism and I am almost inclined to believe it an opportune time to make the suggestion that he make the next running mate for Bryan. Bryan and Hanna—how is that for a ticket?

"What has Mr. Hanna to say about fixing wages by artificial methods? There is the root of the whole matter. If it is right that one class of workmen should have their wages fixed arbitrarily, then it is only just that the wages of all classes should be fixed in the same manner."

"I am surprised to see that Mr. Hanna so flatly denies the proposition that organized labor is founded on the principle of force, when every day furnishes demonstrations in proof of my charge. The only reason why the anthracite miners received a wage scale confessedly out of proportion to what similar labor gets elsewhere, is because they were able to compel its granting by force. The country was at their mercy and finally, as a measure of expediency, it became necessary for the government to negotiate with them that peace might be purchased."

"I note that Mr. Hanna says he is opposed to making the unions legally responsible for their acts because they are composed of honest men who will abide by their agreement. I may be

very ignorant on the labor question, but it has always been my understanding that legal responsibility of unionism is considered desirable."

"Mr. Hanna went out of his road in apologizing for the National Association of Manufacturers in its bad judgment in electing me unanimously as president for a second term. The manufacturers of this country are supposed to have full possession of their faculties, and if they had needed the advice of Mr. Hanna as to the election of a president they probably would have called on him. As they did not it would seem that they felt that they could struggle along without his assistance. Mr. Hanna corralled the manufacturers of the country in the first McKinley campaign because of the fear of Bryanism. He led them into the McKinley camp because of this fear, but if he thinks he can rig-nose the manufacturers of the country on the labor issue and lead them into the camp of Gompers and his aggregation I think he over-estimates his strength and influence very much. The National Association of Manufacturers is not a political organization and will not be led by any politician. As long as I am president of the association it shall not be used as a kite to advance the fortunes of any politician or political party."

"The labor question is entirely apart from partisan politics and it is hoped that it will not made the football of politics."

A VEILED THREAT

In Connection With "Persecution" of Naval Officers in Porto Rico
Washington, April 23.—Secretary Moody is inclined to believe that the prosecution of the naval officers at San Juan, P. R., who are charged with smuggling, is rapidly becoming persecution, and it is intimated at the department that unless the attitude of the local officials there changes the desirability of San Juan as an important naval station may be impaired. It is even intimated that the navy officers there may be withdrawn. The charges against these officers were investigated and in accordance with the practice at the treasury department the offenders paid double the duties to which the goods brought in were subject. The president and members of the cabinet decided that the officers had amply paid for their indiscretion. Governor Hunt fully appreciates the attitude of the government and is doing what he can to straighten out matters and relieve the officers of further embarrassment.

The Latest Mining Trouble
Pottsville, Pa., April 23.—The 30,000 mine workers who were locked out by the Reading company because of their refusal to work nine hours on Saturday will be permitted to return to the mines providing they pledge themselves to work full time Saturdays. Superintendent Luther says the company insists on compliance with the regulation. It is expected that they will accept the company's terms and return to work to await the result of the conciliation board's action.

For the Courts to Decide
Richmond, April 23.—It appears that representatives of the Trigg Shipbuilding company which was made the subject of a petition for involuntary bankruptcy, claim that the cruiser Galveston and the gunboat Mohawk, now partially completed on the ways of the company, are assets of the company, while representatives of the government contend that they belong to the United States. It is expected that the issue will be fought out in the courts.

Railways in Receivers' Hands
Chicago, April 23.—R. R. Corbin, J. M. Eckels and M. E. Sampson have been appointed receivers of the Union Traction company, the North Chicago street railway company and the West Chicago street railway company. The receivership was ordered by Judge Grosscup in the United States circuit court upon the return, unsatisfied, of judgments aggregating over \$1,000,000 in favor of the Guaranty Trust company of New York.

A Murderer's Awful Punishment
Victoria, B. C., April 23.—Advice from China tell of the crucifixion of a Chinese desperado in Kwang Tung, who confessed to 60 murders. When he confessed it was decided that his punishment was too lenient a punishment and he was crucified. He was nailed by his hands to a wooden cross and placed in a public place as a warning to malefactors. He lingered for three days before he succumbed to his terrible suffering.

Extension of Insular Possessions
Washington, April 23.—Official advice received at the navy department from the Philippines record the discovery of a number of valuable islands in the southern part of the archipelago which are not on any of the charts in the possession of the government. Secretary Moody has taken steps to have the islands properly charted as the property of the United States.

DOCUMENTS MISSING
From Safe of Postoffice Attorney General Tyner

ABSTRACTED BY HIS WIFE
With the Assistance of a Safe Expert
—Tyner Summarily Dismissed by
Postmaster General—Other Sensational Developments Expected

Washington, April 24.—A most sensational development of the investigation of the postoffice department affairs occurred just before the department closed yesterday when Postmaster General Payne announced the summary dismissal of James N. Tyner, assistant attorney general for the postoffice department, coupling with the announcement the startling charge that all the papers and records in the safe of the latter's office had been abstracted by Mrs. Tyner, wife of the discharged officer, with the assistance of others. The postmaster general states that Mrs. Tyner has refused the demand of the government for the return of the papers taken, and says the circumstances in the case will be submitted by him to the department of justice. Other sensational developments are expected to follow. The question of arrests is now under consideration and will be passed on immediately by Attorney General Knox. Mrs. Tyner came to the office of the assistant attorney general on the fifth floor of the postoffice building at 3:45 o'clock Tuesday afternoon and remained there an hour. When she arrived acting Assistant Attorney General Christy and the clerks were at their desks. Mrs. Tyner passed from the public room into the private office and admitted Mrs. Barrett and Mr. Hamner, a safe expert. Mr. Christy reported the presence in the office of Mrs. Tyner to two inspectors who were investigating affairs connected with the office and also personally communicated the fact of Mrs. Tyner's appearance in the office to Postmaster General Payne. The inspectors reported the matter to their superior officer, fourth Assistant Postmaster General. Bristow. Mr. Bristow asked authority to have Mrs. Tyner ejected from the office. The authority came too late. When the inspector returned Mrs. Tyner had left. The safe was found to be empty. Two inspectors were dispatched to the Tyner residence to recover the papers. Mrs. Tyner refused to give them up, saying that she was acting under the direction of her husband. She told the inspectors, so they reported, that they had a right to the papers, as Mr. Tyner was still assistant attorney general and, moreover, insisted that the papers were all of a private character. The inspectors reported that Mrs. Tyner declared the papers belonged solely to them and she announced emphatically that she did not propose to have her papers submitted to the scrutiny of the inspectors.

It is suspected at the department that the papers have some connection with the recent conduct of the office. Some weeks ago a turf investment concern whose affairs were aired in court alleged that its operations and working methods had been sanctioned by the assistant attorney general for the postoffice department. The charge involving the office of the assistant attorney and a lawyer formerly connected with that office were ventilated very generally at that time, and an investigation was ordered by the postmaster general. This was really the inception of the investigation that has spread over every part of the department. The complaints crystallized into a formal request for Tyner's resignation, signed by Postmaster General Payne, on March 9 last. Tyner had been in bad health for a long time and had visited the office at only rare intervals, leaving the office entirely in charge of his assistant for months at a time. He is suffering from an unusually severe case of paralysis and in consideration of this fact the request for his resignation was based on his ill-health. Mr. Tyner has been in the government service in various important capacities for many years. He served as assistant attorney general for the postoffice department, later was first assistant postmaster general. Subsequently he became postmaster general and later he again assumed office in the department. He is one of the best known men in official life in Washington.

Mr. and Mrs. Tyner refuse to make any statement, but the suggestion is thrown out that there may be something to give out by Tyner's side in the future. Mrs. Tyner apparently takes the matter very coolly. Tyner is in a very weak and almost helpless condition from his long sickness. He remains in his room most of the time and sees very few callers.

SUDDEN DEATH.
Stonecutter Has Stroke of Apoplexy While Chopping Wood.

John A. Wight dropped dead Thursday afternoon at the home of George Bowman at 115 Intervale street. Mr. Wight was not at work that afternoon as he was to attend a funeral. Shortly before the time to start for the funeral he went down cellar to chop some wood. While engaged at that he had a shock of apoplexy. Passers by heard groans coming from the house and upon investigating found him lying dead. A physician was summoned but the man was past medical aid. Mr. Wight was a stone cutter and was 63 years of age. He leaves a widow and family in Scotland. He was a member of Clan McGregor, O. S. C.

WHOLE FORCE Wiped OUT
British Flying Column in Somaliland Completely Annihilated
London, April 24.—The war office has received from Brigadier General Manning, in command of the British forces in Somaliland, a dispatch from Somaliland, April 18, as follows: "I regret to report that a flying column under the command of Colonel Cobbe, which left Galadi April 10 to reconnoitre the road to Walwal, had a most serious check. On the morning of April 17 Colonel Cobbe was at Gumburu, 40 miles westward of Galadi, and had decided to return to Galadi, owing to the serious difficulty in finding the road to Walwal and to the shortness of water. He was about to leave his zareba (protected camp) when firing was heard in the direction of a small party, under the command of Captain Olivey, which had been sent in a westerly direction to reconnoitre. "At 9:15 in the morning Colonel Cobbe dispatched Colonel Plunkett with 120 men of the second battalion of the King's African rifles, 48 men of the Second Sikhs and two Maxim guns for the extrication of Captain Olivey, if necessary. As a matter of fact, Captain Olivey had not been engaged. Colonel Plunkett, on joining the detachment, continued to push on. At 11:45 Colonel Cobbe heard a heavy fire in the direction taken by Colonel Plunkett and at about 1 in the afternoon a few fugitives coming in reported that Colonel Plunkett had been defeated with loss. The news had been fully corroborated since and he was to report the total loss of Colonel Plunkett's party, with the exception of 37 Yaos, who have arrived here."

The dispatch closes with the "list of officers and men missing and no doubt killed in action," namely, Colonel Plunkett, Captains Johnston, Stewart, Olivey, Morris and McKinnon and Lieutenants Gaynor and Bell of the King's African rifles, Captain Vizey of the Second Sikhs, Captain Sime of the Indian medical staff, two white privates, 48 men of the Second Sikhs and 124 men of the African rifles. Two Maxim guns were also lost.

EXCITED ILLINOIS SOLONS
Engage in Fist Fight Over Chicago Street Railway Franchises
Springfield, Ill., April 24.—Slugging and rolling over each other across the speaker's platform in a frenzied general fist fight at the feet of a score of female guests, the members of the Illinois legislature surpassed the wildest scenes of the Austrian reichsrath. Charges by the speaker of the house, John Miller, that attempts had been made to bribe him, were formally made last night as an explanation of the extraordinary actions on his part which precipitated the riot. The interior of the legislative chamber resembled, in a measure, the track of a tornado, as general was the wreckage of chairs and desks. Chicago street railway franchises, more valuable than gold mines, were directly at stake, federal court receivership proceedings against the Union Traction company of Chicago having brought the matter to sudden issue. The federal receivership was held by many to indicate an intention by the street railway company to fight out a claim to 99-year franchises instead of negotiating with the Chicago city council for a renewal of franchises on a 20-year basis, with a municipal ownership option on the part of the city.

The storm began almost without warning in a whirlwind of wild disorder, which arose over rival traction measures, or so-called municipal ownership bills.

Nothing Like Experience.
"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy and learn from his own experience how quickly it gives relief, and he will remember it all his life. Good Afternoon.

Today is the anniversary of the establish-
ment of the first permanent news-
paper in the New World, and that was
less than 200 years ago.—April 24, 1704.
All the newspapers should celebrate
next year.

"Neatly kept yards, well trimmed side-
walks and clean streets are now regard-
ed as high evidence of the city's prosper-
ity as much as large manufacturing
plants and are one of the best means of
attracting desirable citizens. The city
must advertise as well as the business
man today, if it would attract capital—
good men and women and law abiding
citizens."

This business-like statement of the
situation here quoted is true beyond
question; and each individual may do
his part. He may decide whether
weeds or flowers shall grow over the
premises and sidewalks, and whether
the principal ornament of the rear yard
shall be tin cans.

Now is the time for spring cleaning,
both indoor and out. More than this,
it is the time for setting trees, shrubs,
planting gardens and flowerbeds.

Arbor day is upon us and it is a very
good day to celebrate appropriately.

The right tree in the right place is a
very beautiful thing. With care and
forethought this may be so placed as
not to be cruelly despoiled by the line-
men or removed for the sake of public
convenience.

Much artistic and decorative effect
can be done with a little; even bur-
dock may be so placed as to be an or-
nament to one's yard, and this will
grow beautifully in most unpromising
soil.

Flower-beds in the school-yards are
an object lesson both to the children
and the neighborhood. The care in
picking up waste paper required in the
school-yard ought to better the condi-
tion of our streets. Cans should be
provided for rubbish and taken care of
by the city with garbage, ashes, tin
cans and all things that are a menace to
civic beauty, as well as to public
health.

One city reports object-lessons fur-
nished by photographs taken of untidy
yards and streets shown by stereopticon
in contrast with well-kept streets and
premises.

One may help his neighbors by the
gift or exchange of slips, cuttings,
bulbs or seeds, the spirit of friendly
emulation will be roused, and there
will be great gain in the promotion of
beauty and cleanly living throughout
the city.

Make back yards wholesome places
for the children to play in and there
will be less temptation for them on the
street. If the back yard is a death-
trap, adorned with a fragrant will-
barrel, heaps of ashes and garbage,
piles of old boards, an untidy fence,
while the bare ground is soaked with
greasy dish-water, no wonder the child
prefers the street.

Some one has said no educated per-
son should keep a "Queen Anne front
and a Mary Ann back." Let Arbor
Day remind one to plant trees if need-
ed, wisely adapting either shade or
fruit tree to soil and location, or shrub-
bery for either fruit or flower, and so
far as possible have our home surround-
ings wholesome and beautiful. It will
be the best sort of advertisement for
the city improving and beautifying it
as a desirable place of residence.

COUNTY SECRETARY.

Norfolk County Y. M. C. A. Fortu-
nate in Securing W. J. Sholar.

H. M. Plimpton of Norwood, chair-
man of the County Committee of the
Norfolk County Young Men's Christian
Associations announces that William
Jessup Sholar of Westbury, R. I., has
accepted the call of the committee to
become the field secretary for Norfolk
County. Mr. Sholar was graduated
from Colgate University in 1880, spent
three years in post-graduate study and
since 1892 has been actively engaged in
Christian work.

At the Noble Street church in Brook-
lyn, N. Y., he gathered 150 boys into
a Boys' Brigade, sustaining the work a
number of years with marked success.
As assistant in one of the leading
churches in Brooklyn, Mr. Sholar had
entire charge of its mission work in a
splendidly appointed building with a
large body of volunteer workers. Con-
tinued success followed his work at
Bayonne, N. J., where he conducted a
large young men's club, interesting in
its work some of the leading men in
New York and Brooklyn.

Mr. Sholar was identified with
association work in college and has
addressed many men's meetings under
association auspices. He is a brilliant
lecturer but is most effective in his
straight gospel talks to men, where his
wide experience and warmth of sym-
pathy enables him to appeal to men
with especial power. He has particu-
lar strength as an organizer and in se-
curing financial support for Christian
work.

His acceptance of the call is received
with much pleasure by the gentlemen
of the County committee who feel sure
that Mr. Sholar will win the support
of the pastors, business men and young
men in Norfolk county, and will rapidly
place the work on a strong, aggressive,
commanding basis.

The headquarters of the new work
will be in Norwood and Mr. Sholar
will take up the work May 1. Local
organizations are already in existence
at Sharon, Avon, Bellingham and
Milton and requests for organization
have been received from a number of
other places which will be opened at
once on Mr. Sholar's arrival.

The Late William Fenton.

The recent death of William Fenton,
who for sixteen years has been a highly
respected resident of Wollaston, is re-
gretted by many. Mr. Fenton died
suddenly from an attack of heart fail-
ure, Tuesday morning, April 21. For
the past six weeks he has been confined
to his bed with paralysis. Mr. Fenton
was born in Scotland in 1846. Business
transactions brought him to this coun-
try in 1881. At the time of his death he
was an important factor in the
jewelry trade of New England, as Bos-
ton representative of the Gilbert Clock
Co.

Mr. Fenton's loss is mourned by a
widow and large family, also a wide
circle of friends. The funeral service
will take place at the home, 354 Beale
street, Sunday, April 26, at 2 P. M.
Rev. E. D. Webster, pastor of the First
Baptist church, of which Mr. Fenton
was a member, will preside, assisted
by Rev. Preston Gurney, late pastor.

Funeral of William Laing.

The funeral of William Laing was
held Thursday afternoon from Bethany
church. The services were very largely
attended including Clan McGregor, O.
S. C., in a body, and delegations from
Granite Commandry of Golden Cross,
John Erickson court of Foresters of
America, and the Granite Cutters'
National Union, who escorted the re-
mains from the house to the church
and to the grave.

The services at the church were con-
ducted by Rev. Edwin N. Hardy assisted
by Rev. James Todd, D. D. The
burial was at Mt. Wollaston cemetery.
The burial service of the Scottish clans
was performed at the grave by Clan
McGregor.

Proposals for Coal and Wood.

CITY OF QUINCY.

THE School Committee of the City of Quincy
will, until five o'clock P. M., TUESDAY,
April 28, 1903, receive proposals for furnishing
and delivering the whole or a part of the follow-
ing: 50 tons White Ash Broken Coal, 37 tons
White Ash Egg, 275 tons Lehigh Broken, and
200 tons High Grade Bituminous Coal.

The best quality of screened coal must be
furnished in proper quantities and sizes to
supply the several school buildings.

The Committee will also receive proposals for
furnishing and delivering within the school
buildings, the whole or a part of the following:
10 cords of pine wood and 10 cords of hard wood.

The wood must be of the best quality and must
be cut into lengths required by the different
schools. The bids for the pine and the hard
wood must be separate.

Both coal and wood are to be delivered on or
before September 1, 1903.

The right to reject any and all bids is re-
served. Address sealed proposals, distinctly
marked on the outside of the envelope, "Pro-
posals for Fuel" to

HOUGHS NECK FIRE.

The Dot Cottage Destroyed at
Midnight.

The alarm from fire box 14, at 12.45
this morning, sent the department on a
long run to Houghs Neck for a fire in
the Dot cottage, owned by Mrs. Louise
Eastman of Roxbury. The fire had
made good headway before discovered
and the cottage was destroyed. Just
how the fire started is not known, but
it is believed to be of incendiary orig-
in. The loss is placed at \$1,800.
Building insured for \$850.

This morning it was learned that
Mrs. Eastman was at her cottage all
day Thursday cleaning up preparatory
to moving down for the summer, and
it is now thought that she may have
left a fire burning in the open grate
and sparks from this were the cause of
the blaze.

Odd Fellows Anniversary.

The 84th anniversary of Odd Fellow-
ship and the 5th anniversary of George
L. Gill Rebekah lodge was observed
Thursday evening, at I. O. O. F. hall in
the Adams building. There was an at-
tendance of about 200 members and
friends.

The entertainment included selections
by the Amphion quartet, by Mr. Gor-
man, Mr. Shufelt and Miss Abbott;
readings by Dr. Stiles, addresses by
Frank Carlton, Noble Grand of Mt.
Wollaston lodge, and Miss Grace W.
Mitchell, district deputy of the Rebekah
lodge. A beautiful collation of ice
cream, cake and fruit was served, and
dancing closed the festivities.

Contract Held Up.

No time has been set as yet for the
hearing on the petition of Charles L.
Prescott to restrain Mayor Bryant, the
Board of Health and Arthur W. Loud
from interfering with his contract as
City Scavenger, but it is thought that
a hearing may be held next week.

The Board of Health will not award
the contract for doing this work until
after the case is settled. In the mean-
time it has arranged with Peter Mc-
Conary to do the work. Orders how-
ever must be set to the Board of
Health.

The Boy Problem.

The officers and directors of the
Women's auxiliary have arranged a
general meeting for the ladies repre-
senting all sections of Quincy. This
gathering will be held in Colonial hall,
Tuesday, April 28, at 3 P. M. Mrs. O.
L. Bartlett of Brockton, will speak on
the work of the Women's Auxiliary,
and Mr. Ambrose Page, secretary of
the Boys' Department of the Cambridge
Young Men's Christian association,
will discuss the "Boy problem" and
tell what the association is doing to
solve it.

Big Loan of Cramps.

A Philadelphia dispatch of Thurs-
day says the board of directors of the Wil-
liam Cramp Ship & Engine Company met
today and approved the plan to
secure a loan of \$5,000,000 to meet the
present needs. The question of elect-
ing voting trustees was not decided
and none of the directors resigned.
No arrangements were made to issue
stock to meet the bonus on the loan.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and
I went into gardening, I was sure to have an
attack of rheumatism, and every attack was
more severe than the preceding one," says
Josie McDonald, of Man, Logan county,
West Va. "I tried everything with no relief
whatever, until I procured a bottle of Cham-
berlain's Pain Balm, and the first application
gave me ease, and before the first bottle was
used I felt like a new person. Now I feel
that I am cured, but I always keep a bottle
of Chamberlain's Pain Balm in the house,
and when I feel any symptoms of a return I
soon drive it away with one or two applica-
tions of this liniment." For sale by all
druggists.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Caskoden's Memoir
By **EDWIN CASKODEN [CHARLES MAJOR]**

Copyright, 1898 and 1901, by the Brown-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.
Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed. IX.—Brandon in prison charged with murder. Mary to plead with the King. Buckingham against the prisoner. The king discovers a note sent by Mary to Brandon. Brandon condemned to death. The king learns that Brandon saved Mary from disgrace and orders his release. Brandon now madly in love with Mary. X.—Ambassadors of the French king come to England to court Mary for their aged sovereign.

CHAPTER XI.—(Continued.)

Thus discovered the imperturbable Henry, who was about at his wife's end. "Cover that arm, you hussy!" he cried in a flaming rage. "Be not impatient, brother mine! I will jump out in just a moment." A little scream from Jane startled everybody, and she quickly ran up to the king, saying: "I beg your majesty to go. She will do as she says so sure as you remain. You don't know her. She is very angry. Please go. I will bring her downstairs somehow." "Ah, indeed! Jane Bolingbroke," came from the bed. "I will receive my guests myself when they are kind enough to come to my room." The coverlid began to move, and whether or not she was really going to carry out her threat I cannot say, but Henry, knowing her too well to risk it, hurried us all out of the room and marched downstairs at the head of his defeated cohorts. He was swearing in a way to make a priest's flesh creep and protesting by everything holy that Mary should be the wife of Louis or die. He went back to Mary's room at intervals, but there was enough persistence in that one girl to stop the wheels of time, if she but set herself to do it, and the king came away from each visit the victim of another ruse.

Finally his anger cooled, and he became amused. From the last visit he came down laughing. "I shall have to give up the fight or else put my armor on with visor down," said he. "It is not safe to go near her without it. She is a very wizen, and but now tried to scratch my eyes out!" Wolsey, who had a wonderful knack for finding the easiest means to a difficult end, took Henry off to a window, where they held a whispered conversation.

It was pathetic to see a mighty king and his great minister of state consulting and planning against one poor girl, and, as angry as I felt toward Mary, I could not help pitying her and admiring beyond the power of pen to write the valiant and so far impregnable defense she had put up against an array of strength that would have made a king tremble on his throne.

Presently Henry gave one of his loud laughs and slapped his thigh as if highly satisfied with some proposition of Wolsey's. "Make ready at once," he said. "We will go back to London."

In a short time we were all at the main staircase ready to mount for the return trip.

The Lady Mary's window was just above, and I saw Jane watching us as we rode away.

After we were well out of Mary's sight the king called me to him, and he, together with De Longueville, Wolsey and myself, turned our horses' heads, rode rapidly by a circuitous path back to another door of the castle and re-entered without the knowledge of any of the inmates.

We four remained in silence, enfolded by the king, and in the course of an hour the princess, supposing every one had gone, came downstairs and walked into the room where we were waiting.

It was a sorry trick, and I felt a contempt for the men who had planned it. I could see that Mary's first impulse was to beat a hasty retreat back into her citadel, the bed, but in truth she had in her makeup very little disposition to retreat. She was clear grit. What a man she would have made! But what a crime it would have been

in nature to have spoiled so perfect a woman. How beautiful she was! She threw one quick, surprised glance at her brother and his companions and, lifting up her exquisite head, carelessly hummed a little tune under her breath as she marched to the other end of the room with a gait that Juno herself could not have improved upon.

I saw the king smile, half in pride of her and half in amusement, and the Frenchman's little eyes feasted upon her beauty with a relish that could not be mistaken.

Henry and the ambassador spoke a word in whispers when the latter took a box from a huge side pocket and started across the room toward Mary with the king at his heels.

Her side was toward them when they came up, but she kept her attitude as if she had been of bronze. She had taken up a book that was lying on the table and was examining it as they approached.

De Longueville held the box in his hand, and, bowing and scraping, said in broken English, "Permit me to me, most gracious princess, that I may have the honor to offer on behalf of my august master this little testament of his high admiration and love." With this he bowed again, smiled like a crack in a piece of old parchment and held his box toward Mary. It was open, probably in the hope of enticing her with a sight of its contents—a beautiful diamond necklace.

She turned her face ever so little and took it all in with one contemptuous, sneering glance out of the corners of her eyes. Then, quietly reaching out her hand, she grasped the necklace and deliberately dashed it in poor old De Longueville's face.

"There is my answer, sir! Go home and tell your imbecile old master I scorn his suit and hate him—hate him—hate him!" Then, with the tears falling unheeded down her cheeks: "Master Wolsey, you butcher's cur, this trick was of your conception. The others had not brains enough to think of it. Are you not proud to have outwitted one poor heartbroken girl? But beware, sir! I tell you now I will be quits with you yet or my name is not Mary!"

There is a limit to the best of feminine nerve, and at that limit should always be found a flood of heartfelt tears. Mary had reached it when she threw the necklace and shot her bolt at Wolsey, so she broke down and hastily left the room.

The king of course was beside himself with rage.

"By God's soul," he swore, "she shall marry Louis of France or I will have her whipped to death on the Smithfield pillory!" And in his wicked heart—so impetuous to a single lasting good impulse—he really meant it.

Immediately after this, the king, De Longueville and Wolsey set out for London.

I remained behind hoping to see the girls, and after a short time a page plucked me by the sleeve, saying the princess wished to see me.

[To be Continued.]

—The good people of Vermont are reaping the whirlwind they sowed when they adopted a license law for the state. The first place to open up a licensed saloon was Middlebury. The opening night was Saturday night, April 4. It was a "howling" success. Women were insulted by drunkards, fights were frequent in the bar-rooms and 11 warrants were issued for offenses against the law. The police force of the town was totally unable to cope with the reign of lawlessness.—Dedham Transcript.

MOTHER AND CHILD

Scott's Emulsion is cod liver oil made almost as palatable as milk. It is easy and soothing to the weak stomach; it checks the tendencies of children toward thinness.

Scott's Emulsion gives strength to weak mothers because it creates healthy flesh and new blood.

Nursing mothers will find a special value in Scott's Emulsion because it insures a flow of rich, nourishing milk for the baby. More and better than a medicine; Scott's Emulsion is a food.

Scott's Emulsion is not a mere extract, containing imaginary "active principles" which do not exist, but is full of actual nourishment which sustains vital force and builds up the body tissues more rapidly than any other known remedy.

QUEEN ISABELLA

Will Reign Over Colony Which Mourns Death of "King of Gypsies"

Boston, April 24.—James Stanley, known as "King of the Gypsies," who died in a travelling wigwam near Haverhill, was buried from a tent in West Roxbury last evening. His will leaves \$25,000 in cash and a house in West Roxbury, assessed at \$15,000, to his widow, Isabella, and his eight children. His will says:

"To my dear Isabella I give everything that is mine. May the property be expended in founding a home for me and women who are disinclined to live in houses at permanent locations. I designate my wife to administer to the wants and welfare of our nomadic colony and solemnly appoint her queen. She has been instrumental in bringing about and to her, above all others, should the duties and pleasures of the crown fall."

His estate is said to have been accumulated by Mrs. Stanley "visiting one house and asking what was the history of the family next door."

While Stanley was well known as a wanderer his birthplace and antecedents are unknown. Stanley had an iron casket weighing 800 pounds made for himself, which was used.

Four Institutions Receive Legacies

Salem, Mass., April 24.—The executors of the estate of the late Walter S. Dickson of Lynn and Salem have paid over the following from the residue of the estate, as provided for in the will: Essex Institute of Salem, \$25,588; the same amount to both the Salem public library and to Tufts college, and \$12,794 to Lynn hospital, this amount being in addition to a direct legacy of \$5000 already paid.

Two Steering Wheels For Reliance

Bristol, R. I., April 24.—It has developed, in making the finishing touches on the boat, that the Reliance will have two steering wheels. One of the wheels is attached to the steering cylinder and another is placed on the cylinder a few feet aft. It will be possible on the Reliance to have four men at the helm.

Was Deaf and Partially Blind

Newmarket, N. H., April 24.—The man who was instantly killed and terribly mangled by a train near here has been identified as Chester J. Willey of Lee, N. H. He was deaf and partially blind and was walking on the track when he met the train which killed him. Willey was a farmer, 46 years old, and unmarried.

Public Bequests of \$180,000

Boston, April 24.—The will of Phoebe R. Sturtevant, widow of B. F. Sturtevant, makes four public bequests, as follows: \$150,000 to Hebron academy of Hebron, Me., and \$10,000 each to the Home for Aged Couples in Roxbury, the Baptist home, Cambridge, and the New England Baptist hospital.

Broken Hydrant After Long Run

Quincy, Mass., April 24.—The summer cottage of Miss Louise E. Eastman at Hough's Neck was burned, causing \$2000 loss. Although the fire was three miles from the fire station, the department made good time to the fire, only to be handicapped there by the breaking of a hydrant.

Not Wanted in This Country

Boston, April 24.—Steamer Vancouver, for Mediterranean ports, had on board 48 Greeks and Italians who had been deported by the immigration officials, and seven stowaways who came over on the New England. This is the record number for deported aliens for any ship.

Melvine Will Plead Insanity

Blaine, Me., April 24.—The grand jury in session at Houlton has under consideration the case of Charles F. Melvine, who killed his wife at Marshall on April 2. It is understood that in case a true bill is returned insanity will be the defence.

Fatal Mishaps to Little Ones

Boston, April 24.—In playing about the floor of her home in Charlestown Zoe Goolde, 3 years old, upset a pail of hot water and was so badly scalded that she died. Anglo Absence, aged 5, was run over by an automobile and died from his injuries.

Non-Union Men Remain at Work

Providence, April 24.—The difficulty between the Team Drivers' union and the Eastern Coal company has been settled and the teamsters returned to work today with the non-union men, the Eastern company refusing to discharge the latter.

Killed by Fall From Wagon

Stowe, Vt., April 24.—Mark Cobb fell from his express wagon, upon which he had a load of wood, while going down a steep hill, and the wheels passed over his head, killing him instantly. Cobb had just gone into business for himself.

Used Revolver and Shovel

Exeter, N. H., April 24.—Michael and Gaetano Pantaleo, who nearly killed their foreman with a revolver and shovel at Canobie lake, were before the superior court and were held in \$1000 each for a hearing at a later date.

Disappearance Explained

Worcester, Mass., April 24.—Sven H. Carlberg, who disappeared from his home, killed himself by shooting, for his body was found under a tree on Hope avenue. Friends of Carlberg say he had been acting strangely for a year.

Fatal Result of Collision

Milford, Mass., April 24.—William Donahue, the motorman who was injured in a collision on the Milford and Uxbridge street railway last Saturday night, is dead from his wounds. A widow and four children survive.

Forenoon and afternoon and night,--forenoon
And afternoon and night,--forenoon,--what!
The empty song repeats itself. No more?
Yea, that is life. Make this forenoon sublime.
This afternoon a psalm, this night a prayer,
And time is conquered, and thy crown is won.

The engagement is announced of
Miss Florence L. Hayes, daughter of
Mr. and Mrs. Francis L. Hayes of Wol-
laston, to Mr. Justin T. Emery of Wol-
laston.

The closing night of the Compass
Whist club was very much enjoyed by
its members last Tuesday evening at the
residence of Mr. and Mrs. James E.
Curtin, Atlantic. There was quite a
contest for the grand prize to be
awarded the member with the highest
total score for the season. Mrs. Charles
R. Safford was the fortunate one and
was presented with a very dainty clock.
The regular prizes for the evening were
taken by Mr. Charles L. Coe and Mrs.
J. E. Curtin, while Mr. Alonzo Priest
and Mrs. E. G. Hall took the second
prizes. Light refreshments were
served and all went home in a happy
frame of mind.

The engagement is announced of Le
Baron Hathaway of Randolph and Miss
Katherine W. Southgate, daughter of
Mrs. Leavitt T. Robbins of Plymouth.

Mr. and Mrs. Henry F. Geer have
sent out invitations to the wedding of
their daughter, Mary Elizabeth, and
Mr. Sherman L. Gould, of Portland,
Maine, formerly of West Quincy. The
ceremony will be solemnized on Wednes-
day evening, April twenty-ninth at
their home 16 Wesson avenue, West
Quincy.

Mrs. Clara Pierce Bell of this city
is a guest of Mr. and Mrs. Walter W.
Jones of Alphaus, N. Y.

There will be a conference of day
nurseries at Trinity chapel, Boston, on
Wednesday, the 29th, at 10.30. The
Quincy association is invited to attend,
and the president hopes a good number
will take advantage of the opportunity
to learn more of the day nursery work.
Dr. Newman of South End House, and
Miss Higgins of the Associated Char-
ities, will speak.

Miss William Blake of East Elm ave.,
with her little son is visiting relatives
in Providence, R. I.

Mr. George Walter Jennings of Brain-
tree and Miss Mary Ethel White of
South Weymouth were united in
marriage last Wednesday afternoon at
the home of the bride's parents, the
services being performed by Rev. L.
Weston Attwood of the Universalist
church. The high school class of '97
of which the bride was a member was
present besides relatives and friends.
Mr. and Mrs. Jennings will reside on
Washington street, Braintree.

The Woman's Alliance connected with
the First church will hold its Neigh-
borhood meeting in the chapel on Mon-
day, April 27, at 8 o'clock. The Rev.
Roderick Stebbins of Milton will speak
on "Religious aspects of modern
poetry."

Carl W. Cochran of Wollaston has
been spending a few days at Brookline
N. H.

Dr. and Mrs. A. H. Gilson of Linden
place entertained friends at whist
Thursday evening. The selection of
partners at the commencement of the
play was made by unique free-hand
color sketches, the work of Miss Gilson.
These, the guests were pleased to re-
tain as souvenirs of a delightful even-
ing's diversion. Refreshments were
served.

Mrs. Ann Canterbury of Weymouth
has returned from Washington, D. C.

The last meeting of the Smart Set
whist club was held Wednesday even-
ing at the home of Miss Corinna Wilde
of Billings street. Partners were
chosen by burnt wood favors. At the
close of the game the scores were the
highest recorded during the winter
season. Prizes were won by Miss Alice
Coe and Miss Evelyn Bassett; Miss May
Melzard and Miss Corinna Wilde. Re-
freshments were served after the dis-
tribution of prizes.

Mrs. O. B. Oakman of Braintree en-
tertained the Afternoon whist club,
Wednesday. Prizes were awarded Miss
Nellie Potter and Mrs. Marion C. Gil-
lette.

Much interest is being manifested
in the reception and banquet of the
Pine Tree club to be held in the Town
house, Wednesday evening April 29,
1903. We have only to mention the
fact that the club is to entertain as

guests the Governor and his wife;
speaker of the house, Hon. James J.
Myers; Hon. Edward B. Callender and
others as an earnest that no effort will
be spared to make this the social event
of the season. The reception will be
at half past six and the banquet at
seven o'clock.

The last meeting of the Alliance of
First church for this season, will take
the form of a neighborhood meeting,
members from other Alliances being
invited to attend. It will be held in
the Chapel on Monday afternoon at
three o'clock.

Friday, April 24, was the anniversary
of the birth of two Braintree-born
women--according to Mrs. Mary A.
Livermore--each of whom has always
resided in their native town: Miss Eliza
A. Bates, formerly of Middle street,
now of South Braintree, and Mrs. Mary
P. (Allen), wife of Mr. George Henry
Arnold, formerly of East Braintree,
now of Middle street. The latter called
upon the former, and the time was
pleasantly spent in recalling not only
birthdays, but the friends of the past,
some of whom have passed on, and oth-
ers, though still living, being many
miles away. These annual mile-
stones bring many a pleasant thought
to offset the sad ones.

The engagement is announced of Miss
Emma Preswell to Mr. Thomas Atkins,
both of Wollaston.

Miss Mary Flint and her sister, Miss
Emma Flint, who now make their
home at the Granite house, East Mil-
ton, are to spend the summer travelling
in Europe. They sail in a few weeks.

Miss Gladys Williams of Washington
street, was the guest over Sunday of
her cousin, Miss Sparrow, at the Alice
cottage, Nantasket.

The extensive plans for the dedica-
tion of the World's fair at St. Louis
next week ensures Editor Prescott of
the Daily Ledger a good time. He
leaves this afternoon, accompanied by
his brother of the Braintree Observer.
There will be three gala days.

Mrs. Mary E. Blair of South Quincy
announces the marriage, early in June,
of her daughter, Miss Ida Margaret
Blair, a teacher in the public schools in
Springfield, to Mr. Alfred W. Goodhue
of this city.

Miss Ethel M. Thomas is spending a
few days with her sister at Wellesley
college.

Members of Adams Chapter, Daugh-
ters of the Revolution, met at the John
Adams birthplace at ten o'clock this
morning to observe Arbor day by as-
sisting in the setting out of trees and
shrubs on the lawn about the house.

Susan Tufts chapter, D. A. R. of
Weymouth, will meet with Mrs. A. G.
Bowditch on Monday afternoon.

Miss Inez Dunbar of Hingham,
formerly of Goffe street, was in town
this week, and attended the social and
supper of the First church on Wednes-
day evening. Miss Dunbar assisted her
aunt Mrs. A. B. Packard in her green-
house for several years and made many
friends.

A SALAD SUPPER.

Enjoyed by John Hancock Lodge
of Odd Fellows on Anniversary.

The members of John Hancock lodge,
No. 224, of Wollaston celebrated the
54th anniversary of American Odd
Fellowship last evening by a salad
supper and entertainment.

Derringer the Norfolk Downs florist
had charge of the floral decorations of
the lodge room and he did his work
well. Across the head of the hall was
a huge bank of potted plants and ferns,
white on the tables were numerous
potted plants in bloom. About the
sides and ends of the hall were several
large American flags draped in an
artistic manner which served to add
brilliance to the same.

The tables were placed in the centre
of the hall in the shape of the letter
"U." Plates were laid for 115 and
there was a man at every plate. The
menu consisted of lobster, salmon and
potato salad, fruit, rolls and coffee.

The salads, which all pronounced ex-
cellent were prepared by Mrs. George
A. Wardwell, Mrs. Frank L. Merrill
and Mrs. George C. Ela.

It was a little after 8 o'clock when
Niles' orchestra played a march and the
hungry brothers headed by Noble
Grand, Andrew Johnson, marched in,
and took seats about the festive board.
The Noble Grand made a few remarks
of welcome, Chaplin George Prentice
offered prayer and the supper was on.

The entertainment took place while
the supper was in progress and opened
with a vocal solo by Edward K. Bul-
lock.

James Fossar, gave a number of
character monologues that brought
smiles to the face, while Gordon
Livingstone, the crayon artist with his
lightning-like illustrations of the
character sketches by Walter Winn,
brought forth roars of laughter.
Barnard Powers gave a piano solo and
acted as accompanist.

Charles Mills, a brother of John Han-
cock lodge, contributed readings, and
Rev. Edward A. Chase made a brief
address in which he spoke of the good
work the order was doing.

The entertainment was a good one
and was thoroughly enjoyed.

The committee in charge are to be
congratulated upon the successful
manner in which they fulfilled their
part. The personnel of this committee
was Frank L. Merrill, chairman; George
A. Wardwell secretary; Joseph E. Bean,
R. T. Fisher and George E. Ela.

Village Improvement.

On Tuesday evening, April 28, the
Ward Two People's Union will hold
a public meeting in the vestry of
the Quincy Point church. At this
meeting Mr. E. H. Chandler will
speak particularly on "Village Im-
provement," and will illustrate his
remarks with stereopticon views.
Mr. Chandler is the secretary of the
Twentieth Century club of Boston. He
is an able and interesting speaker and
understands his subject thoroughly.
Mr. Pollard was fortunate to be able to
obtain Mr. Chandler. It is hoped that
a good sized audience will greet him.

The several committees who have
been zealously at work since the last
meeting will give reports of their work.
Membership, Education, Village Im-
provement, and Law and Order com-
mittees have been appointed thus far.
The treasurer, Mr. Dasha, will give
receipts to all the members who have
been enrolled.

The union is dependent upon the
active thought, effort, sympathy and
benevolence of its members. While it
is true that the citizens of Ward Two
are manifesting much interest in their
union, it is hoped they will all show
their interest in a practical way. One
of the most obvious and effective ways
in which they can do this is by becom-
ing associate members. A good begin-
ning has been made, but further addi-
tions to the force of intelligent and de-
voted workers, ready to aid in bettering
and enlarging what has already been
begun, is earnestly desired. The citi-
zens of Ward Two are invited to be
present on next Tuesday evening.

The Friday Fire.

The seventh bell alarm of fire since
since last Saturday the was sounded
at 3.23 yesterday afternoon, from box
25 for a fire in a double house on Canal
street, owned by John H. Dinegan, and
occupied by Daniel F. French and
James McDermott.

The fire was in the kitchen of the
part occupied by French and was prob-
ably caused by careless smoking. Mr.
French was on a lounge and it is
thought that he dropped a cigarette
among some papers on the floor. The
loss was slight.

Turkey dinners are getting to be
a regular feature at the Co-operative
Dining Rooms, 3 Granite street. An-
other will be given tomorrow.

PROBATE COURT.
In the heirs-at-law, next-of-kin, and all
other persons interested in the estate of
JOHN J. DAY,
of Quincy, in said County, deceased.

Whereas, a certain instrument purporting to be
the last will and testament of said deceased
has been presented to said Court for Probate,
James F. Sweeney of Boston, who prays that
his testamentary matter be issued to him as
executor therein named, without giving a
bond on his official bond.

It is hereby cited to appear at a Probate
Court to be held at Dedham, in said County
of Norfolk, on the sixth day of May,
A. D. 1903, at ten o'clock in the forenoon, to
show cause, if any you have, why the same
should not be granted.

And said petitioner is hereby directed to
publish notice thereof by publishing this
notice once in each week, for three successive
times, in the Quincy Daily Ledger, a newspaper
published in Quincy, the last publication to be
on one day at least before said Court, and by
mail, postage paid, delivering a copy of this

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April
26—Comment by Rev. S. H. Doyle.
Topic.—An evening with arctic missions.
—Job xxxviii, 22, 23, 24, 25.

The arctic circle is a circle drawn
around the earth at a distance of 23½
degrees from the north pole. Within
this circle there is a period of the year
(summer) when the sun never sets and
another period (winter) when the sun
does not appear above the horizon.
This is called the Land of the Midnight
Sun. Christ, the Son of Righteousness,
appeared in Bethlehem at midnight.
This country lying within the frigid
zone is for a season each year the
brightest spot of earth, not by reason
of what it is, but by its relations to the
sun. This suggests one of the most im-
portant truths of the Bible—that it is
not so much what a man is in himself,
but the relation he bears to Christ, the
Sun of Righteousness. The gospel can
flourish at the sweltering equator or the
icy pole as well as in the temperate
zones.

The following countries are within
the arctic circle: Alaska and Green-
land, while Iceland, Scandinavia, Si-
beria and British America border upon it.
Alaska was purchased by the United
States from Russia in 1867. It is the
most agreeably disappointing territory
the United States has ever acquired.
The native population in 1900 was 29,
536. Its principal industries are the
fur trade, mining, curing and canning
fish and seal catching. The United
States government receives in revenue
from sealing annually \$317,000 and has
already received from that source more
than it paid for the country. Along the
southern coast the climate is mild.
The natives were ignorant and heathen.
The Greek church was early in-
troduced by Russia. That government
pays \$40,000 annually to support a
church with 12,000 members and sev-
enteen parochial schools. The Roman
Catholics and the Church of England
are doing a small work there.

The Presbyterian church began its
work in 1877, with Rev. Sheldon Jack-
son, D. D., in charge. It now has
twelve stations, or centers of activity;
twelve missionaries, thirteen teachers,
eight native interpreters and a hospital
at Sitka. Its mission at Point Bar-
row is farthest north. Industrial schools
at Wrangell and Sitka are maintained by
the Presbyterian board, and another
one at Douglas Island is under the care
of the Friends.

The public schools have been in op-
eration since 1886, and the government
demands compulsory education between
the years of six and fourteen.

Greenland.—This country belongs to
Denmark. While of great extent, it is
so cold that it has but 10,000 inhabi-
tants, all Eskimos, except 200 Danes liv-
ing on the coasts. The Danish Luther-
an church embraces all the people and
is supported by the Danish govern-
ment, the Moravian church recently
turning its missions over to the Danes.

Iceland is also a Danish province,
with a population of 69,224, of Scandi-
navian origin, usually small in stature,
distinguished for honesty, purity of
morals and a love for education. Their
principal wealth is in cattle, horses
and sheep. Their language is the old
Norwegian. The Danish Lutheran
church operates in this field.

British America is without popula-
tion within the arctic circle unless it
should be a few wandering Eskimos.

Siberia, a part of the Russian empire,
is taken care of by the Greek church.
Scandinavia is not a mission field.
The Lutheran church is the state church
in both Norway and Sweden. The Ba-
ptists and Methodists embrace most of
the dissenters.

A Message to Christian Endeavorers.
The following message to Christian
Endeavorers from the president of the
United States was read in connection
with the Christian Endeavor day cele-
bration, in a multitude of unions and
societies, Feb. 1:

Young People's Societies of Christian En-
deavor.
I greet you and wish you well. Your
body stands prominent among the or-
ganizations which strive toward a realiza-
tion of interdenominational and interna-
tional Christian fellowship as well as
among those which stand for ideals of
true citizenship—that is, for the cultiva-
tion not alone of a high standard of civic
and social righteousness, but of the
strength, courage and common sense ne-
cessary for living up to such a standard.
With all good wishes.

Linked Together.
In Buffalo the Young Men's Chris-
tian association triangle and the Chris-
tian Endeavor monogram are linked
together in a unique work. The Y. M.
C. A. longed for a furnished room in its
building for worthy transients. It came
through the generous efforts of the
Christian Endeavor societies, and during
its first year it proved an un-
told blessing to more than a score of
men.

Quis Box.
[Any question may be asked that pertain-
ing to any phase of Christian Endeavor
work. Address Lock Box 674, Bingham-
ton, N. Y.]

55. E. V. B. Kalamazoo, Mich.—
There is no good reason why the aver-
age Sunday school scholar should not
be a member of the Christian Endeavor
society. The one does not in any wise
supplant the other. In Sunday school
you are learning. In the Endeavor so-
ciety you are practicing.

56. X. Y. Z., Topeka, Kan.—It is best
to follow the uniform topics for the
prayer meetings. The advantages are
manifest—notably the abundance of
helps and the inspiration that comes
from the feeling that 4,000,000 Endeav-
orers are studying the same Scripture
with you.

The
TRIBULATIONS
OF A PRODIGY

By W. Livingston Larned

Copyright, 1902, by W. Livingston Larned

THERE was nothing unusual in
Catherine's appearance except
perhaps a "grownup" look of
the eyes, which in a child so
young was quite out of the ordinary.
She had her dolls, was promenade on
the avenue and in the park and cried
like other youngsters.

Catherine's advent on the scene had
been brilliant. Her mother and her-
self, together with much pretentious
looking luggage, all bedangled with curi-
ous tags and labels covered with Ger-
man names, had suddenly flashed on
the horizon. It was at the hour when a
crowd of children were out in the well
shaded street, and the big house that
had been closed all winter at once be-
came the center of attraction.

Interest was kept at fever heat until
a dray came to a stop in front of the
big house and several brawny men
commenced to unload a big box.
"That's her piano," explained Miss
Wetherbee, with pardonable pride at
her superiority of knowledge. "My
mamma told me that she had a 'special
one'—one that nobody else touched. It's
been all fixed up for her with special
pedals and things." Miss Wetherbee,
who besides being the daughter of a
music teacher was dressed in a new
pink creation of her mother's make,
was speedily surrounded by an admir-
ing group.

"Tell us about her," exclaimed more
than one eager voice.

Miss Wetherbee throned herself on a
near fire plug.
"Yes," she continued, "her name's
Catherine McDonald, and she plays so
fine that a rich man sent her and her
mother over to Germany so she could
study music. My mamma has heard
her, and she says that heaven put it in
her finger tips to play. She does just
as good as Paddywhisky or—or Carmen
or any of the famous folks."

The very first person to really talk
with Catherine was a smutty faced lit-
tle boy whose explorations into ash
barrels had sadly dilapidated his per-
sonal appearance. On the third day the
polished door of the big house was
cautiously opened, and a girl's face ap-
peared. It was framed in dark brown
curls, and the eyes that peered out
were almost pathetically suggestive of
an understanding quite beyond her
years. A little thin hand was outlined
sharply against the dark panel of the
door, and then Catherine stepped out
upon the narrow ledge of stone.

"I suppose she's too stuck up to speak to
us," commented Miss Wetherbee.
"Those folks always are."

Catherine did not exactly snub the
party on the doorstep, but she made a
blunder which was almost as bad. She
walked slowly down the opposite side
of the street until she met Jim.

Jim had his trousers hoisted under
his chin by one forlorn suspender, and

his stockings were only grotesque cari-
catures of the real thing, but he pos-
sessed one treasure which, if not as
necessary as the clothing, had at least
the redeeming feature of being mys-
teriously attractive. Some one had given
him a big poster. It was done in colors
and represented a sprightly pickaninny
with impossible kinks trying to create
havooc on the business end of a big
banjo.

"Whatchu got?" asked the prodigy in
very commonplace English. Jim hitched
at his one suspender in momentary
embarrassment, but her cordial man-
ner won him over.

"A pictur'," he replied. Then, unable
to pin himself down to impersonal
things, "Say, ye plays de planner, don't
yer?"

Catherine had scarcely expected this.
She simply nodded her head and
reaching for the poster, held it up, tak-
ing in every detail of the comical little
figure. Jim shuffled from one foot to

the other mechanically. His mind was
busy.

"Would yer mother let ye perform in
Mike Slarity's saloon?" he ventured
finally. "I tole Mike—dat's de man
woot's de whole ting dere—dat ye was a
wonder, and he tole me ter tell ye dat
he'd be willin' ter cough up as much as
ten fer five evenin's out of every week.
It's a steady thing, and, say, Mike, he's
the best!"

The matter might have been ar-
ranged had it not been for an interrup-
tion. Jim's mother appeared on the
scene most unexpectedly, and poor Jim
was whisked around the corner by one
ear, his precious minstrel poster trail-
ing after him.

Haney street experienced a thrill
when the announcement was made
that Catherine was to give a birthday
party. There she should meet all the
little representatives of that neighbor-
hood, and furthermore—how hearts
were pitapat at the thought—her moth-
er was to let her entertain the guests.

Miss Wetherbee felt that the crisis
was at hand. For two days her mother

had been making for her a new dress
that boasted big black bows and was
to be christened on the afternoon of the
memorable party.

All the joys of the realm of child-
hood—and its sorrows! Every one else
began to speak of invitations. But
Miss Wetherbee had received none.
The days passed rapidly until the
morning of the day, and Miss Wether-
bee from a position in the window of
her home behind sheltering curtains
looked out upon a world that lacked
sunshine. The horrible truth dawned
upon her when noontime came. She
was not invited to the party! She had
been snubbed, forgotten!

Her mother had been called suddenly
away, and the big house was deserted
except for herself. She went sobbing
into her mother's room and tore off the
new dress regardless of lace and snap-
pling black ribbons.

She did not dare leave the house.
Little girls in starched dresses were
flitting past with their maids, and she
would be laughed at. Every one would
ask her why she was not going to the
party, and then the humiliating truth
must come out. She crept slowly to
the window in the front room and
peeped through the curtain. There
they were—it was after four—small
procession of her friends, laughing and
chattering and discussing the treat which
was in store for them.

Two tear stained hands doubled up
in the snowy curtains. Miss Wether-
bee was righteously angry.

It was not until the procession of
new dresses had gone into the shad-
ows beyond the big polished door of
the house opposite that Miss Wether-
bee saw Jim. He was seated on the
steps of her own door.

Ordinarily she would not have given
him a thought, but now anger at oth-
ers brought her into closer touch with
this vagrant. Jim was whistling to
himself and watching the big house.
She tapped on the window pane, and
he looked up.

There was a hurried brushing aside
of tears, and a moment later she had
opened the door.

"They think they're big, don't they?"
she began, looking meaningly in the
direction of the other house.

"They're havin' a blowout, ain't
they?" was Jim's comment. "Do ye
know her?"

"I don't want to," was the diplomatic
response.

"Don't want ter?" And Jim's eye-
brows were raised in wonderment.
"Why, she ain't nuthin' but a kid, and
she's been on de big liners and plays as
good as de men at de eater."

Miss Wetherbee would have said
something, but the big poster in Jim's
capacious pocket attracted her atten-
tion. "What's that?" she inquired.

Jim's face lighted radiantly. He
pulled out the crumpled sheet and
spread it for her inspection. "Dat," he
began again—"dat's de official docer-
ment wot lies between me and all kinds
of coin. I'm tryin' ter fix things so
as de doll over dere kin make a rep.
Mike Slarity—everybody knows Mike
—he tole me dat he'd give this here pic-
anner goll ten plunks fer five evenin's
in his place, and, wot's more, if I fix it
fer him I'm ter have a side deal." Jim
had now grown thoroughly enthusias-

tic. "I haven't seen her but onct, but I
think she'd go."

Miss Wetherbee gasped for breath.
She looked at Jim, at the comical pos-
ter and at the big house across the
street. An idea had flashed upon her—
a glorious, wonderful, startling idea.

"That's a lot of money. I heard
one of the girls say Catherine was en-
gaged for next week—engaged to play
somewhere. P'raps she's told her moth-
er and it's all settled."

It was Jim's turn to become excited.
He knew that he had spoken with the
prodigy.

"By jiminy!" exclaimed the little tat-
tered walt, weaving a fresh design on
the already grotesque face. "Dat
might be so. Say, I'm in luck. Mike's
place will be full ter de ash cans next
Monday. He'll advertise it; on de level,
he will."

Advertise it! Miss Wetherbee's black
eyes sparkled. A little later two chil-
dren of oddly different appearances
were busily engaged in pasting a white
strip on to the minstrel poster. The old
letters were obliterated and new ones
put in their place.

Jim walked proudly down the front
steps shortly afterward with a curious
bundle under his arm.

Officer Leghorn was the first to see it.
He stopped short in front of the big
house and put his gloved hand up to his
eyes as if unwilling to believe that his
vision had not been tampered with.
Tacked to the door and prominent
enough to be seen a block away was a
big colored poster. It represented a
small negro urchin playing on a banjo,
and the white space around the figure
was covered with carelessly shaped let-
ters. After much study Officer Leghorn
deciphered the following:

"Miss Catherine McDonald, de world's
greatest kid planner player, will posi-
tively appear at Mike Slarity's saloon,
next Monday night. She is a wonder.
Come wun, come all!"

At the very bottom of the poster this
edifying statement had been placed:
"Mike Slarity gives de biggest glass
of beer for 5 cents in de city."

Officer Leghorn read it over and over
again. Then his gaze wandered to the
pretentious house front, with its elabo-
rate fixtures.

"It's funny that they'd let 'em put up
the posters on their front door," he so-
liloquized, scratching his head. "The
family must hev met reverses."

He was joined by two business men
coming home. There was an exchange
of glances.

"Mike keeps the toughest dance hall in
town," was Officer Leghorn's

Good Afternoon.

It would seem that it would not be a
bad idea that some arrangement
should be made whereby some of the
call men attached to the central
fire station apparatus should sleep at
the station, so as to be able to accom-
pany the apparatus to fires. Up to re-
cently it was the custom for a number
of the call men to sleep there, but for
some reason this policy has been aban-
doned. The need of such arrangement
was never more apparent than Thursday
night when the alarm came in from
Houghs Neck. When the apparatus
went through the square the only men
aboard were the permanent men. Ten
minutes later a number of the call men
were seen wending their way toward
Houghs Neck. Some were on bicycles
and others were on foot, but none ar-
rived in time to be of any service, as
the fire had burned itself out. The
call men when they did arrive were
unfit for duty. The same thing oc-
curred at the recent still alarm for fire

children when they get together as they
did this afternoon at Music hall.

Drift of Opinion.

President Roosevelt is said—and
we hope falsely—to carry a revolver
with him. It would be a very bad ex-
ample for the chief magistrate of this
country to go about armed, when thou-
sands of honorable and law-abiding
citizens totally deprecate the practice,
and get along comfortably without it,
too.—New Bedford Standard.

Although Arbor day was institu-
ted primarily for the purpose of en-
couraging the planting and protection
of shrubs and trees, it has grown to
mean much more. School children are
encouraged to beautify the grounds
with flowers and plants and to take
pride in their appearance. In Framing-
ham for a number of years the day has
been faithfully observed at the normal
school by a general clearing up of the
grounds and by planting of trees. In
some states prizes are offered by the
state departments of education for the
best kept school grounds in the state,
and advocates of a general observance
of Arbor day think that if Massachu-
setts would offer a prize for the best
kept school yard, it might spur the
school children on to better efforts
along this line.—Milford Journal.

It will cost \$8,000,000 to abolish
the grade crossings in Brooklyn, but
the work is going to be done just the
same, and it should be done. The
scheme of having locomotives and
trains of cars sent whizzing across the
streets of towns and cities, with only
the whistle and the warning sound of
the bell to notify the pedestrians of im-
pending danger, is a scheme that is out
of date and imposes unnecessary dan-
ger on the people. Killings were the
regular thing under the old grade cross-
ing system, and it was inevitable that
there should be killed or maimed a per-
centage of those who went across in
front of approaching trains. In cities
where the grade crossings have disap-
peared there has been an almost entire
absence of such tragedies since the
abolition. Any city or road can well
afford to abolish the crossings at
grade.—Brockton Enterprise.

THEIR FIRST BALL.

Street Railway Men at Home on
the Waxen Floor.

The local branch of the Street Rail-
way Employees Union held its first an-
nual concert and ball last evening at
Quincy Music hall. There was a very
large attendance and the affair was an
enjoyable and financial success. Many
street railway employees from the dif-
ferent divisions of the Old Colony and
Boston & Northern systems were pres-
ent.

Cuff's orchestra furnished music, and
the grand march was led by Mr. and
Mrs. John J. McClusky and was re-
viewed by President Kelly.

The list of invited guests included
Mayor Bryant, Supt. Reynolds, Assis-
tant Supt. Conway, Representatives
Fallon, Freeman and Drinkwater, and
several members of the City Council.

Administration was granted at prob-
ate court this week on the estate of
Joseph Lovett, to Joshua Lovett, the
bond being \$75,000.

clude a "post of sorrow" for deceased

organizations of Hingham, Quincy,

stereopticon views. The wonderful
genius of Shakespeare, and the beauty
of the country in which he lived, are
as much a revelation of God as are the
lives of Bible characters and the city of
Jerusalem.

A correspondent of Atlantic writes
that the beautiful trees on Sagamore
street have been most needlessly mu-
tilated during the past year and feels
that the city should look into it. The
past week two have been hacked down
and homely looking stumps left stand-
ing. As this is the main avenue to
and from the station it seems a shame
to spoil the looks of the whole street
to gratify some one resident who wants
no trees in front of his house. It is
hoped the further mutilation of these
trees will be stopped by those in au-
thority.

to recognize the unions and extend the

This report President Sullivan charac-
terizes as entirely wrong. He states
that the position of the company is the

their employees, only insisting that
they shall be actual employees of the
company, and that they refuse to sur-
render their right to employ whom
they desire, and not confine themselves
to employ none but union men.

Quincy High had the game of yester-
day with the Copeland club well in
hand, then almost lost it, scoring the
winning run in the ninth innings.

The batteries were Miller and Fenno for

BRAINTREE.

It was a pleasure to over hear in the Montiquot school building a teacher, during the spelling period, making the scholars familiar with the word Rose-dale. Five Corners is a name of the past.

Several of the streets leading out of South Braintree square have been greatly improved by the use of the road scraper under the supervision of Thomas F. Finnegan, who has been placed in charge of the highways in precinct one by Chairman B. H. Woodsum. The scraper should be used often and in all parts of the town.

The spring meeting of the Old Colony association of Universalists met last Wednesday with the Weymouth parish. Stirling addresses were made by F. W. Hamilton, D. D., of Roxbury, who spoke upon the present condition of the Sunday School. Rev. Albert Hammatt who spoke upon conversion and regeneration, and Rev. Charles Conklin, state superintendent, who had something to say on all departments of church work. There were about 250 delegates present.

The Jonas Perkins School association held a delightful social in the school hall Tuesday evening, the occasion being the sixth anniversary of the organization. Invited guests were present from this and surrounding towns, who assisted in making the affair a decided success. Excellent music was furnished by Mr. William Baldwin and Masters Abell and Baldwin.

Mrs. Albert E. Avery, accompanied by Miss Crocker, also favored the audience with two selections, in her usual charming manner. An amusing farce entitled "A Love of a Bonnet" was given by Mrs. Loring, Mrs. Baldwin, Mrs. Baker and Mrs. Miller and Misses Hahn and Baldwin. Ten beautiful tableaux closed the entertainment of the evening, after which refreshments were served and dancing was enjoyed the remainder of the evening.

A very enjoyable meeting was held by Puritan lodge, 179 on Tuesday last. In answer to an invitation by Puritan lodge, Massachusetts, 69, of Brockton visited the new quarters with seventy-five members. The evening was spent in witnessing the work of the second degree by Past Grand R. H. Woodsum and staff which was rendered in a very creditable manner.

Rev. A. E. Legg and Mrs. Legg were guests of relatives in Rosindale, the early part of the week.

Mr. and Mrs. McPhee of Tremont street welcomed to their home an additional link to their family circle on Thursday.

Mr. Charles Kirby of Pond street, having engaged in express business at Brooklyn, removed his family to that place on Monday.

Miss Clara Edwina Shay, a post graduate of Braintree High school, a valued assistant at the Union school, has been elected teacher of the South-west school in place of Miss Marion Rogers, who removes to Lexington.

The death of Mrs. Helen Belmont of Plain street, on Monday, was particularly sad, since it removed from six little children a loving, tender mother's care, and from the fact that the father's health is badly shattered.

Mr. Wilson of South Weymouth, who some time since, purchased the Ibrahim Morrison place on Middle street, and on which he has been making extensive improvements, took possession this week.

Work was begun this week in the First Parish burial-ground by Mr. May and his assistants in removing the debris of the winter's accumulation, thus reminding those interested in its general appearance of the annual cemetery sale in May, when, it is hoped, all will lend a hand.

Mr. Stevens of Cedar street, who for the past year or more has been living in Woonsocket, is again in town, and with his family occupying the Stetson house, opposite his old home.

Twelve entries were made for the Cochato tennis tournament last Monday. There were three defaults. Penneck, Dam and Patten will play in the finals.

Albert W. Dubois, 72 years of age, died at his home on Bowditch street Wednesday morning. He has been an invalid for several years being confined to his room for months. He leaves

SHIPYARD NOTES.

Foreign Steel Arrives for the Douglas-Gun Contract.

Two shipments of steel shapes, including I beams, angles, channels, angle-bulbs, T-bulbs, have been received from the Steel Company of Scotland, at the Fore River shipyard, and now the work on the six-masted schooner William L. Douglas will be rushed to completion. About 300 tons of steel have been put into the frame, the bottom of which is nearly completed. The two ballast tanks have also been built.

In October of last year the United States government awarded the Fore River shipyard a contract for 60 sets of forgings for three-inch 50-calibre rapid-fire guns, to be delivered at the rate of four a month. The work is now ahead of the contract, and the monthly delivery is usually about double the required number.

Work on the United States battleship New Jersey is being pushed day and night. The structural work of the hull is 32 per cent completed and gaining at the rate of one per cent a week. From 50,000 to 100,000 pounds of steel are added daily, and now the gun deck is nearly completed and the main deck beams are being placed. Another section has been added on both the stem and the stern post. All the bulkheads in the lower part of the hull are in place and the side plates are going on daily.

Birthday Surprise.

A very pleasant surprise party was tendered Mrs. A. H. Humphrey, a teacher in the Washington school, at her home, 21 Baxter street, last Friday evening by the J. O. C. social club and their friends. There were several birthday tokens, one a bunch of violets, presented by Miss Grace Larkin with an appropriate verse. Mrs. Humphrey responded, thanking one and all. Then there was music, vocal and instrumental, piano duets by Ethel Humphrey and Sadie Pawsey; violin selections by Margaret Brown, and a poem composed by Ella Packard, given in Paris by the club.

The time passed on merrily until good night was said, then wishing their hosts many happy returns the party departed declaring it a genuine surprise.

Souvenir squares of birthday cake, made by Mrs. John Paine, aged 75 years were presented. Cakes and ices were served. Among the invited guests were Miss Dolly Guinne of Cambridgeport, and Miss Vesta L. Pawsey of Cambridge, formerly of this city.

Strap Iron Rail.

Railroads similar to the first railroad in the United States, that constructed from the Quincy granite quarries, were constructed elsewhere. The Schenectady Gazette says: "A section of one of the old strap iron rails that were used in the track on the Saratoga and Schenectady railroad (the first railroad operated in Saratoga county) has been presented by James E. Conner to Principal A. A. Lavery of the Ballston high school to be placed in the high school museum. It is three inches in width and not much thicker than the band iron that is now used for hoops in the construction of mill water conduits or trunks.

Possible Clue.

It is thought that possibly the unknown dead man killed Wednesday night may be Malachi Gunning of Brookline. Gunning was to have been married Thursday evening but he disappeared Monday noon and no trace of him has since been found. The description given of the missing man tallies with that of the dead man, and friends of Gunning will be asked to visit Quincy to see if they can identify the body.

FIFTY YEARS AT ONE SITE.

Record of George W. Prescott in Connection with the Quincy Patriot and Daily Ledger.

Just fifty years next Saturday, May second, George W. Prescott, as a boy started to learn the printing business, a business which he has followed ever since, rising from office devil to business manager, from that to a partnership, and is now sole proprietor of the largest newspaper office in the city and county, printing two weeklies and a daily paper besides running a large job printing plant.

In these days when it is hard work to get a competent boy and then only for a short time, as few nowadays learn a trade or stick long in one place, it is good to look back fifty years and note that one boy started as an apprentice and continues in the business at the present time. What is more remarkable is that the business has continued all these years in the same building. Others have come and gone in City Square and it would be hard to find any of the old firms doing business at the old stands.

From a small room on the second floor the business expanded to the whole of the second floor, until it now requires the whole building, which was remodeled last year into an up-to-date building which better accommodates the ever increasing business. There are three commodious business offices and press room on the street floor, roomy editorial rooms, stock and typesetting rooms on the second floor, while the large basement and attic are used for files of papers, storage, etc.

Good Bowling.

The Quincy bowling team were guests of the Merrymount club last evening and rolled a game on the Merrymount alleys. The home team won the first game easily, rolling a record-breaking string of 492. Quincy pulled together and won the next two games and the match. The scores were good and fine individual work was done by Monroe and Starrett for Merrymount and Leach and White did good work for Quincy.

Mr. George A. Campbell of Newtonville is visiting his brother at Hotel Greenleaf.

—It is forty-two years this week since the sons of the north rallied to the call for defenders of the flag and nation. On the 19th of April the troops were passing through Baltimore, and there Massachusetts poured out the first blood in the great struggle that followed. We now have one flag and one great and glorious country.—Weymouth Gazette.

BRUTAL COLT TRAINING.

How Farmer Perkins Used Strategy and a Bull Whip.

There is a right way and a wrong way of breaking a colt to halter. The latter method is described by Sewell Ford in "Horses Nine." Blue Blazes, the colt in the story, was owned by a Michigan farmer. He had been frightened by the first attempt to bridle him and had broken away. He was promptly declared to be a vicious colt. "We'll tame him," said Farmer Perkins. Under his coat he hid a stout halter and a heavy bull whip. Then, holding a grain measure temptingly before him, he climbed the pasture fence. In the measure were oats, which he rattled seductively. Also he called mildly and persuasively. Blue Blazes was suspicious. Four times he allowed the farmer to come almost within reaching distance, only to turn and bolt with a snort of alarm just at the crucial moment. At last he concluded that he must have just one taste of those oats.

"Come, coltie! Nice coltie!" cooed the man in a strained but conciliating voice. Blue Blazes planted himself for a sudden whirl, stretched his neck as far as possible and worked his upper lip inquiringly. The smell of the oats lured him on. Hardly had he touched his nose to the grain before the measure was dropped, and he found himself roughly grabbed by the forelock. In a moment he saw the hated straps and ropes. Before he could break away the halter was around his neck and buckled firmly.

Farmer Perkins changed his tone. "Now, you ugly little brute, I've got you! [Jerk.] Blast your wicked hide! [Slash.] You will, will you? [Yank.] I'll larn you!" [Slash.]

Man and colt were almost exhausted when the "lesson" was finished. It left Blue Blazes ridged with welts, trembling, fright sickened. Never again would he trust himself within reach of those men; not if they offered him a whole bushel of oats.

How to Sell Goods.

"You must know how to talk with a customer so that she will buy," is one of the things the buyer says over and over again in his lectures down in the basement. Even when the girl is behind the counter at work the buyer will often step up and give her a hint. For instance, he will give a new name to an old piece of goods. There is everything in a name. He came up to me one day and said, "Call that line of goods the Marlborough," and it was not long before I had sold the entire stock. The sweller a name is the better, of course. Cumberland pins will sell much better than plain pins even if they are the same thing. French names are much in vogue, too, and they are sometimes coined. Names taken from swell sports are also very good sellers. Another thing, of course, which helps a girl sell the goods is genuine knowledge of them."—Leslie's Monthly.

THE NEW PORTO RICO.

Antillian Island Rapidly Becoming Americanized.

NATIVES PLEASED WITH CHANGE.

Electric Trolley Lines Well Patronized by the Pleasure Loving People—Popularity of Baseball—Football Also Played—Sixty Thousand Porto Rican Children in Schools.

There can be no doubt in the mind of any one visiting Porto Rico during the winter that the island is becoming Americanized, says the New York Commercial Advertiser. Evidences abound on every hand. In Ponce and San Juan thoroughly equipped electric trolley roads provide comfortable transportation and completely transform the appearance of the old Spanish streets and highways. Porto Ricans are enthusiastic over the new system. The travel is necessarily heavy on both lines since the San Juan line provides the quickest transit to the suburbs of Santurce and Rio Piedras, and the Ponce road connects the city with the Playa, or seaport, two miles distant.

Crowds of Porto Ricans take the round trip by day and night for the mere pleasure of the journey. A brilliantly lighted, long American car speeding through the cane fields of Ponce or out through the palm groves along the ocean near San Juan provides a pretty and significant picture. Inside, under the glow of the lights, the pleasure loving people are gay as children. The bright white and colored gowns and scarfs of the pretty black haired, bareheaded women flutter in the breeze, and on almost every car may be seen the white and gold of the army and navy fatigue uniforms. Americans in duck and khaki coming from the country club laugh and talk with others in full dress bound to or from dinners or dances in the city.

In the heart of the island along the famous military road one meets American automobiles, some of them with native chauffeurs, and the barefooted wayfarers betray hardly as much concern over their passage and no more curiosity than the average pedestrian in New York.

In the cities, particularly those of the coast, one reads the signs of the changing times in the substitution of American names in brass or black letters on many of the office buildings and shops for those of previous Spanish occupants or in familiar advertisements of American goods displayed by Porto Rican dealers. Every important city has an ice plant, and ice wagons drawn by yoked bulls make deliveries every day. From the latticed doors and windows of the well to do one often hears the sound of Sousa marches or airs from recent light opera sung or pounded upon what must be pianos of the old regime, and in the plazas at the Thursday and Saturday night concerts spirited American or English selections have almost entirely taken the place of the melancholy Bolero and Spanish tunes.

Perhaps no American institution has, unaided, taken a firmer hold on the people than the game of baseball. A regular league of four teams has been organized in San Juan, a field has been laid out, grand stand and "bleachers" built, and large crowds attend the Wednesday and Saturday games. In addition, hundreds of boys and men play in scratch games every afternoon in the fields outside the towns and in the schoolyards. Even football has been tried. An annual game is played at Christmas in San Juan.

Sixty thousand native children attend American schools today in Porto Rico. In the morning and afternoon, as they go and come from their tasks, neat and clean, carrying books and slates, often chattering their growing stock of English phrases, one sees the greatest change of all in progress, the winning of the coming generation. About 500 waifs and orphans—three years ago naked, dirty and utterly destitute—today owe their salvation to the American charity school, in Santurce, where, scrupulously clean, well fed and cared for and occupied with healthful games and drills, they are learning to associate vigor, order, health and discipline with English speech and the American flag.

In the organization of the Porto Rican regiment quartered in the barracks at San Juan, Cayez, Madaquey, and Ponce the government has accomplished excellent results, not only in turning out an extremely efficient military body, but in establishing and keeping before the people a high standard of physical training, discipline and regularity. The Porto Ricans make excellent soldiers. Their appearance on drill and parade is almost faultless. They have shown marked endurance and willingness in practice marches and encampments.

In many other ways—in new styles of dress, imported from the states, in changing manners, in the increasing use of the English language and the desire met with in many places on the island to copy or make use of American implements or methods—Porto Rico is becoming Americanized.

Utilitarian Spring Poem.

I care not for the violets nor the roses
blooming fair;
I care not for the song birds that will
carol everywhere;
I care not for the fleecy clouds that high
above us roll;
But I'm waiting for the summer, when
we don't use coal!

I have no great affection for the butter-
flies and bees
And no special predilection for the sighing
of the breeze,
But I'm waiting for the June time with
an all impatient soul,
For the radiant, restful summer, when
we don't use coal!

STORMY SCENES

Enacted in Bay State Legislature Over Police Registration Bill

Boston, April 25.—Democratic leaders in both the house and senate yesterday played the part of filibusters under parliamentary procedure and caused the Republican majorities in both bodies considerable worry and checked legislation to some extent. Their point of attack was the Boston police registration bill and they produced stormier scenes in both chambers than had been seen for years, keeping within the rules in raising objections to proceedings contrary to the ordinary methods, raising points of order, doubting votes, demanding recalls and making speeches wherever possible.

The bill got by the senate, but not before Senators Harrington and Sullivan, both of Boston, had been declared in contempt in not reporting the bill from the committee on third reading, of which they constituted a majority. They have been "named" and will be obliged to explain their action to the senate.

In the house Representative Kiley of Boston led the fight to keep that body from consideration of the amended police bill sent down from the senate. He succeeded and actually forced the house to sit in three legislative days within a period of six hours, and the only measure taken up was the passage in amended form of an assessor's bill. The house session was very lively. Speaker Myers having to use all his mental energy to keep control of the situation.

Religion in the Philippines

Washington, April 25.—Secretary Root and Rev. Edward J. Vattman, chaplain of the Twenty-Ninth Infantry, had an important conference relating to the friar question and to the attitude of the Catholic church toward the "Americanizing" of the islands. More than a year ago, with the knowledge and consent of this government, Chaplain Vattman was directed by the authorities of the Catholic church in the United States to make a thorough investigation of church questions in the Philippines and to report the result of his findings and his conclusions to the Catholic hierarchy.

Strychnine in Prepared Food

Pensacola, Fla., April 25.—Chemical analysis of the prepared food sent by mail to W. A. Morgan, formerly of Elgin, Ill., who died here shortly after eating a portion of it, shows that a large quantity of strychnine was mixed with the food. The package which contained the poison has been turned over to the postoffice authorities to trace to the office from which sent.

Mad Dog Scare in Gotham

New York, April 25.—Ten persons were bitten by a supposedly mad dog which raced for a mile along lower West Side streets last night, followed by six policemen with smoking revolvers and by a crowd of a thousand people. The pursuit continued for more than half a mile, and the dog was finally killed at the Battery.

Too Sacred to Be Lost

Washington, April 25.—The Declaration of Independence is to be seen no more by the public. An order has been issued that henceforth the historic manuscript shall be kept under lock and key in a great fire and light-proof safe. Most of the text of the declaration is still legible, but only one or two of the signatures can be made out.

Mail Steamer Disabled

New York, April 25.—Having broken three blades of her propeller the Italian Royal Mail line steamer Sicilia, which left New Orleans April 16 for Genoa, has put in this port for repairs. It is thought that the steamer struck a submerged wreck. Under reduced speed the vessel was six days coming from the straits of Florida to this port.

Disaster in Nova Scotia Mine

Sydney, N. S., April 25.—As a result of an explosion in the Reserve colliery at Glace bay four men are dead and another fatally injured, while a score or more were overcome by gases, and are in a hospital. The men were engaged in working when gas ignited from a naked lamp and the explosion followed.

Let Up on Smuggling Cases

San Juan, P. R., April 25.—A settlement of the smuggling cases has been effected by Treasurer Willoughby. He has recommended to Attorney General Harlan that the cases be dismissed from the district court. This has been done. The amount of the fines imposed is not known.

Uncle Tom's Day Has Passed

New York, April 25.—In the work of revising the catalogue for class libraries in the New York public schools, "Uncle Tom's Cabin" has been left out. The reason given was that the story had served its purpose, and was of little value today.

WORLD'S WONDERLAND

President Impressed With Yellowstone Park

OF MARVELOUS CHARACTER

Not Appreciated by the People at Large—Suggests Cross-Breeding of Buffalo and Common Cattle, Which Would Bring Commercial Gain

Gardiner, Mont., April 25.—President Roosevelt has resumed his tour. Before going, however, he participated in the laying of the cornerstone of the new gate at the northern entrance to Yellowstone park. The ceremony was performed according to the Masonic ritual and was in charge of the grand officers of the state of Montana.

The president began his address by thanking the people and the soldiers for his enjoyable two weeks' holiday and then spoke of the natural wonders of the park.

"The Yellowstone park," he said, "is something unique in this world. As far as I know, nowhere else in any civilized country is there to be found such a tract of veritable wonderland, made accessible to all visitors, where at the same time not only the scenery of the wilderness but the wild creatures of the park are scrupulously preserved as they are here, the only change being that these same wild creatures have been so carefully protected as to show astounding tameness. The creator and preserver of such a natural playground in the midst of our people, as a whole, is a credit to the nation, but above all, a credit to Montana, Wyoming and Idaho."

"It has been preserved with wise foresight. The scheme of its preservation is noteworthy in its essential democracy. This park was created and is now administered for the benefit and enjoyment of the people. The government must continue to appropriate for it, and especially in the direction of completing and perfecting an excellent system of driveways. The only way that the people, as a whole, can secure to themselves and their children the enjoyment in perpetuity of which the Yellowstone park has to give, is by assuming ownership in the name of the nation and by jealously safeguarding and preserving the scenery, the forests and the creatures."

"At present, it is rather singular that a greater number of people come from Europe than some from our own eastern states to see it. The people nearly seem awake to its beauties, and I hope that more and more of our people who dwell far off will appreciate its really marvelous character. Incidentally, I should like to point out that some time people will awake to the fact that the park has special beauties to be seen in winter, and any person who can go through it in that season on skis will enjoy himself as he scarcely could elsewhere."

"I wish especially to congratulate the people of Montana, Wyoming and Idaho, and notably you of Gardiner and Cinnabar and the immediate outskirts of the park, for the way in which you heartily co-operated with the superintendent to prevent acts of vandalism and destruction. The preservation of the forest is, of course, the matter of prime importance in every preserve of this character. In this region of the Rocky mountains and the great plains, the problem of the water supply is the most important part of the home-makers' office. Congress has not in recent years done anything more important than passing the irrigation bill and nothing more essential to the preservation of the water supply than they make in the preservation of the forests. Montana has in its water power a source of development which has hardly been touched. This water power will be seriously impaired if ample protection is not given the forests. Therefore, this park, like the forest reserves generally, is of the utmost advantage to the country around from the merely utilitarian."

"This park also, because of its peculiar features, is to be reserved as a beautiful playground. Here all the wild creatures of the old days are being preserved and their overflow into the surrounding country means that the people of the surrounding country, so long as they see that the laws are observed by all, will be able to insure to themselves and to their children and to their children's children, much of the old-time pleasure of the hardy life of the wilderness and of the hunter in the wilderness. I have been literally astounded at the enormous quantities of elk and at the number of deer, antelope and mountain sheep, which I have seen on their wintering ground, and the deer and the sheep in particular are quite as tame as range stock. Buffalo are being preserved."

"I wish very much that the government could provide somewhere for an experimental breeding station of cross-breeds between Buffalo and the common cattle. If these cross-breeds could be successfully perpetuated we could have animals which would produce a robe quite as good as the old Buffalo robe with which 20 years ago every one was familiar, and animals moreover which would have a distinct commercial importance. They would, for instance, be admirably suited for Alaska territory, which I look to see developed astoundingly within the next decade or two, not only because of its furs and fisheries, but because of its agricultural and pastoral possibilities."

WEEKLY REVIEW

Conservatism Fervent, but Business Is Unusually Active

New York, April 25.—R. G. Dun & Co.'s Weekly Review of Trade says: Trade responded promptly to better weather in many sections of the country, notable activity appearing in seasonal lines of wearing apparel, yet wholesalers report conservatism as compared with earlier months this year, although business is more active than it was a year ago. Outdoor work is vigorously prosecuted, agricultural communities endeavoring to make up lost time, and structural undertakings call for large quantities of lumber and building materials, sustaining quotations. Labor problems are being solved with encouraging celerity, threatened coal troubles reaching a prompt settlement, bridge workers resuming in large numbers, textile controversies failing to spread as was feared, while many transportation companies have made concessions and prevented any interruption to traffic.

While dry goods markets have enjoyed a better spot demand because of fine weather, conditions at the leading textile mills have not materially improved.

New England manufacturers of boots and shoes report a seasonable lack of new business, and further contracts from jobbers are not expected during the next fortnight. Heavy shoes have constituted the bulk of fall orders received thus far, and some producers have begun cutting.

Speaker Miller Turned Down

Springfield, Ill., April 25.—The Illinois house of representatives, by a vote of 72 to 60, declared "no confidence" in its presiding officer, Speaker John H. Miller, whose alleged unwarranted use of the gavel in furthering a proposed enactment, affecting rich street railway franchises in Chicago, led to a riot. A committee of five of the anti-Miller men were determined to force the speaker to prove his charges or withdraw them. If he could not readily be induced to act, they had decided that no business should be transacted in the house until he had complied with their demand. They had their own way in everything from first to last, and the speaker's forces were defeated at every point.

Many Charges Against Mayor

San Juan, P. R., April 25.—Governor Hunt has sent a letter to Senor Fajardo asking for his immediate resignation. Fajardo is the mayor of Mayaguez who has been charged with municipal frauds. The governor took this step upon receipt of a report from Treasurer Willoughby to the effect that there had been gross fraud and wrong on the part of the employees and officials of Mayaguez. A further reason was that Fajardo has been charged with carrying the names of non-existing men on the police force, as well as with other fraud against the revenue of the city.

Vatican Creates a Precedent

Rome, April 25.—Great satisfaction is felt at the Vatican at the official announcement that King Edward will visit the pope. It is remarked that the Vatican, in allowing King Edward to start from an embassy accredited to the King of Italy, a concession hitherto constantly refused, has created a precedent that may in the future prove most embarrassing to the Holy See.

Thieves Were Fooled

New York, April 25.—Otto Jahn, 15 years old, was decoyed to a room and there robbed of \$250 he had received at a bank for the firm by whom he was employed. The thieves were captured. Curiously it was the smallest sum the firm had sent the boy to the bank for in many months, he usually drawing about \$1500 for the office salaries.

Difficulties in Enforcing Law

Paris, April 25.—Manifestations growing out of the dispersion of the Congregations continue to be reported from the provinces. A serious disorder occurred last evening at Nantes, where mounted gendarmes were forced to charge several times to scatter a crowd of some 3000 persons. Twenty-three arrests were made.

No Need of Investigation

Washington, April 25.—By direction of the secretary of war, Judge Advocate General Davis has addressed a letter to Brigadier General Funston refusing his request for a court of inquiry to investigate his conduct in the Philippines. The letter states that the department believes the charges to be without foundation.

Albanians Attack Russian Consul

London, April 25.—A dispatch from Belgrade says that M. Machkof, Russian consul at Nskub, who is also fulfilling the duties of the late M. Stechbina at Mitrovitz, has been attacked and wounded by Albanians. M. Stechbina was assassinated at Mitrovitz while acting as Russian consul there.

Hurrying to Caribbean Sea

St. Johns, April 25.—The British cruiser Retribution left this port hurriedly for the Caribbean sea because of local conditions. The cruiser will refit hurriedly at Halifax and proceed south at the earliest possible date.

Turkey Looking For Fight

London, April 25.—Turkey has decided to concentrate an army of 240,000 men in Macedonia. The troops are pouring in daily, says the Salonica correspondent of The Daily Mail.

The Weather Forecast

Almanac, Sunday, April 26.
Sun rises—4:48; sets—6:37.
Moon rises—4:19 a. m.
High water—11:15 a. m.; 11:30 p. m.
In the middle Atlantic states temperatures have risen considerably, although the air is still below the seasonal average. There will be showers in New England.

Pain's Fireworks.

The never-excelled pyrotechnic display to be a feature of the dedication of the Worlds Fair at St. Louis next Thursday and Friday evenings will be by Pain. Each night there will be about fifty numbers. Here is a description of an aerial device:
The flags of all Nations saluting the Stars and Stripes. Seven gas balloons, six of 20,000 cubic feet capacity, one of 40,000, leave the earth bearing powerful magnesium lights lighting up the locality for miles as bright as day. On reaching an altitude of 2,000 feet, the central balloon will unfurl a pyrotechnic flag, 400 feet long by 200 feet wide. An aerial salute of 21 guns is then fired from the balloons, this being the signal for the foreign flags attached to the other balloons to be unfurled. Each pyro-national flag will be 150 feet long by 100 feet wide. The seven balloons will be anchored three each side of the central balloon; each balloon 1,000 feet apart. When the flags are ignited and unfurled the effect will be dazzling and magnificent. Salutes will be fired from 100 smaller balloons released as the flags are unfurled.

—Thousands of us have visited the tomb of Washington at Mount Vernon. It is a spot dear to the heart of every true American, but nothing about it is more touching than to hear the bell of some passing steamer tolling as it passes, and to be told that every steamer which ploughs the waters of the Potomac, when passing the tomb of Washington, tolls a requiem to his memory.—George T. Angell.

Nothing Like Experience.
"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy and learn from his own experience how quickly it gives relief, and he will remember it all his life. For sale by all druggists.

TODAY'S COURT.

BOSTON AMUSEMENTS.

CASTLE SQUARE THEATRE.

Although the Castle Square Theatre company continues its performances the year round, there is a division made at this time each year and the fall and winter season ends the coming week, while the summer season follows immediately beginning Monday, April 27th, with a production of "The Cotton King." The most notable change in the personnel of the company is in the engagement of Mr. Howell Hansel as leading man for the summer season. Mr. Hansel comes to Boston not as a stranger, because he began his professional career with the old Boston Museum stock company. He has in recent years been leading man of the famous Dearborn Stock Company, of Chicago, and has been seen in Boston lately in "A Gentleman of France" and the sketch "The Man Up Stairs." "The Cotton King" is one of Sutton Vane's melodramas which has been very popular throughout the country for several years. It makes unusual demands in the way of scenic and mechanical effects and offers good opportunities for the Castle Square company. The leading characters have been cast as follows: John Osborne, Howell Hansel; Richard Stockley, Edward

Wade, James Shillinglaw, John Sainpolis, Rev. Mr. Pondor, William J. Hasson; Hetty Drayson, Lillian Lawrence; Mrs. Drayson, Leonora Bradley; Kitty Marshall, Susette Willey; Elsie Kent, Mary Sanders; Mary Shillington, Little Juliette Day.

KEITH'S THEATRE.

Commencing Monday April 27, the doors at Keith's will be opened at 1 o'clock, P. M., which is half an hour later than hitherto and the performance will begin at half the hour, Director Baer starting the entertainment with his excellent orchestra. The program is one of much promise and particularly strong in comedy acts, with such famous variety people as the Four Mortons, in their clever r-petities; Tom Ryan and Mary Ritchfield, in the screaming farce, "Mag Hagerty's Father;" George Thatcher, blackface humorist; Charles W. Littlefield, mimetic comedian; Flood brothers, acrobatic grotesques, and Frederic Brothers and Jessie Burns, a new team of novelty and comedy instrumentalists. The "Flordora" folks will be continued another week which will positively be their last, and a dozen other acts, with a new outfit of vitagraph motion pictures, will make up the continuous show.

COLONIAL THEATRE.

Following the enormous success of The Sleeping Beauty and the Beast at the Colonial Theatre, Boston, comes A Chinese Honeymoon, which starts an unlimited engagement Monday, May 4, with the usual Wednesday and Saturday matinees.
"A Chinese Honeymoon" is the most recent of musical comedies and appears to be the most successful as well. It is an undoubted fact that the atmosphere afforded by a Chinese or Japanese locale for a musical comedy is irresistible. From no other source is there to be gathered such a wealth of coloring, picturesqueness of costume and of plot, and among other opportunities is the fact that the costumes do not confine themselves to tight or short dresses, but follow the Chinese mode of dressing, and only long dresses prevail.

The story is of a certain Mr. Pineapple, who, with his bride and eight bridesmaids, spent their honeymoon in Yang Yang. The groom's nephew has been visiting Yang Yang for some time and becomes smitten with the Emperor's niece, Princess Soo-Soo. (Mr. Pineapple also becomes enamored of the almond-eyed beauties, which causes Mrs. Pineapple to become very jealous, and in one of her jealous moods she allows the Emperor to kiss her, which, according to the civil laws of Yang Yang, means a betrothal and a marriage within six hours. Mr. Pineapple, in meeting his nephew's fiancée, bestows upon her a fairly kiss, which signifies another betrothal, and from this situation plenty of innocent fun is extracted.
The sale of seats is now progressing, and orders by mail, phone (411 Oxford) or wire will be promptly attended to, as a complete mail order plan has been established.

Moon Superstitions.

Almost any old time farmer will tell you a worm fence built in the light of the moon and ascending node will warm around and finally fall down. If you want potatoes during similar phases, they will all go to tops and the tubers will be small and watery. This is the time, however, to plant cucumbers, especially when the sign is in the arms.
The carpenter of former times would not think of putting a shingle roof on a building in the dark of the moon, because the shingles would curl up, pull out the nails and soon leak like a sieve. Neither would he cut timbers for a house nor would he paint it until the sign was right.

Judge Fined Himself.

An English Judge, Gwilym Williams, was a great stickler for form in his court, and especially that robes should be worn by solicitors. He was so insistent upon this that one day recently, when he ascended the bench without being duly robed, all in the courtroom knew that he must have been unusually engaged to cause him to neglect the matter. When the judge noticed the lack of his robes, he stopped the court proceedings, made a speech to the solicitors on the absence of his gown and wig and fined himself 10 shillings which sum he immediately paid into the poor box.—Glasgow Times.

"BARRY AND SOPHIE" IN A COUNTRY GIRL.
WILLIAM MORRIS AND MINNIE ASHLEY.

BOSTON MUSEUM.

"A Country Girl" is the most admired musical comedy in all New England and from every place within reach people are flocking to Boston to see the notable production which proved such a triumph at Day's Theatre in New York and has repeated that success in two visits to Boston in one season. For weeks the Boston Museum was packed to the doors at every performance on the occasion of the first engagement and upon the return for a brief period there is just as great prosperity and it is very evident that all records will be broken in the short time that remains for this delightful production here.

It should be remembered that it will be absolutely impossible for "A Country Girl" to be taken to any of the other cities in the vicinity of Boston, and that New England play goers have their only opportunities of witnessing this production while it is at the Boston Museum. The company which gives the play in Boston is wonderfully strong. A fortune has been spent on staging this production and the costumes alone cost more than a dozen ordinary musical comedies. The last presentation of this charming work here will be on Saturday, May 2, and seats are now on sale for all the remainder of the engagement.

Good Afternoon.

President Roosevelt's popularity in the west is assured. His long "swing round the circle" will, however, materially benefit his party and will, it is hoped, be the means of healing some local sores.

Drift of Opinion.

Brookline does well to establish school gardens early in the game, for the movement is one that is spreading rapidly throughout the country. One of its ultimate effects should be to make city backyards everywhere as lovely as they are in Dayton, O.—Boston Transcript.

"Let us learn to be content with what we have. Let us get rid of our false estimates; set up all the higher ideals—a quiet home; vines of our own planting; a few books full of the inspiration of genius; a few friends worthy of being loved, and able to love us in turn; a hundred innocent pleasures that bring no pain or remorse; a devotion to the right that will never sever; a simple religion, empty of all bigotry, full of trust and hope and love; and to such a philosophy this world will give up all the empty joy it has.—David Swing.

Theoretically there is no way in which arbitration in labor disputes can be made effective unless it is compulsory upon both parties, just as a resort to the civil courts is made compulsory upon men who have other disputes to settle regarding matters of contract.

But practically the consensus of opinion among men of the widest experience—at least in this country—is that compulsory arbitration is impossible. Curious enough just at this time we have an example from New Zealand, where the system of compulsory arbitration has been operative for a number of years. The boast has been that since the system was established there has not been a strike in all that country. But at last it seems to have broken down. A few weeks ago the employees in the furniture trade concluded that a raise in wages would be desirable. The demand for increase was made, and the employers refusing to accede to it, the matter was promptly taken before the court of arbitration.

This body at once advanced the wages of the men from 27 cents an hour to 31 cents. But just at this point the unexpected happened. The employers shut down their establishments, saying that they were unable to pay the rate assessed, and that they could import furniture, pay 25 per cent customs duty and still sell it cheaper than they could make and market it at the new rate of wages to their men. The experiment seems to lack some of the features of success. It does not take into consideration the law of supply and demand.—Boston Courier.

Funeral of W. F. Fenton.

The funeral of William F. Fenton was held Sunday from his late residence 354 Beale street and was attended by many of his business associates. The services were conducted by Rev. Edmund D. Webber assisted by Rev. Preston Gurney. A quartette furnished music. The burial was at Mt. Wollaston.

FAIR DEDICATION.

The Boys Have Gone.

Frank F. Prescott, editor of the Daily Ledger, and Eben Prescott of the Braintree Observer, left on Saturday evening for St. Louis, having received invitations to be present at the grand dedication exercises of the World's Fair.

A salute of 100 guns will announce to the world, at noon, April 30, the close of the first century of an inland empire that Napoleon sold for a song.

Seldom in the official life of a great democratic nation will the pomp and pageantry of monarchy have been so overshadowed as at the dedication of the international exposition to commemorate that event.

One of the most impressive military spectacles of peaceful times will sweep through the metropolis of the Louisiana domain—a glittering display of American arms and the man, at the zenith of the Republic's power.

Kings, emperors and potentates send their ambassadors to swell the homage of this people to the genius that, by bloodless conquest, gave to the country a territory one-third the size of all Europe.

For the first time in the history of the government, the entire diplomatic corps leave the Capital on a special train to travel into the heart of the nation.

The presence of the President of the United States, his Cabinet, Congress and the Supreme Court, at the head of the armed column, is intended to symbolize a government by the people and its achievements.

Orders have been issued by the War Department to mobilize in the vast buildings of the Exposition, 4000 battle-scarred regulars.

The powerful monitor, Arkansas, is ascending the historic river, once claimed by De Soto in the name of the Spanish sovereign.

Governors of states are picking their crack militia regiments for a brave show. Ten thousand stalwart types of the Mr. Volunteer of the future are burning their weapons for this day of dignitaries.

Through all these preparations runs the quickened spirit of newer "argosies of commerce," the dawn of yet undreamed wonders of science and coming triumphs of civilization.

The Universal Exposition is the mouthpiece of this vague unrest; its christening, with glory of military panoply, stately ceremony and reign of fire by night, is the opening page of the fairy book.

That the National government might be interpreted as stamping its approval on an enterprise that has cost it more than six millions of dollars, Major-General Henry C. Corbin will marshal the parade from its starting point in St. Louis to the palaces of the Ivory City.

Estimates by the passenger department of 29 railroads converging at St. Louis, indicate the attendance at the dedication of 250,000 to 300,000 visitors, mainly from points in Missouri, Illinois, Iowa, Arkansas and Oklahoma.

Arrangements for transporting the 500,000 persons who are expected to view the parade and the dedicatory review on the Exposition grounds, present a schedule of fifteen seconds between the delivery of visitors at the gates of the Exposition.

This work has been undertaken by the street railway systems. Loops constructed especially for the dedication have been laid at the entrances, of which there are eight, disposed at various points on every side of the World's Fair site, in order to avoid congestion.

Three days will be crowded with incident. National Day falls on April 30. The President dedicates the World's Fair. International Day follows on May 1. Addresses by the French and Spanish ambassadors and a reception to the diplomatic corps are the features.

State Day May 2, concludes the Dedication. Governor Benjamin B. Odell of New York and Governor A. M. Dockery of Missouri make addresses, a great civic procession moves over the route of the military parade and the corner stones of State buildings are laid.

Dedication night and the evening of May 1, the Pains will monopolize the heavens. Their display of pyrotechnics, under their contract with the Exposition, calls for the explosion of \$55,000 in burning powder. Leo Stevens, the Stanleys of London, the Baldwins Brothers will manipulate seven mammoth gas balloons as a great attraction, while the most startling fireworks exhibition is to be given.

Work for Boys.

All ladies interested in work for boys are invited to Colonial hall tomorrow afternoon, at 3 o'clock. The special speakers are Secretary Ambrose Page of the Cambridge Y. M. C. A., and Mrs. O. L. Bartlett of Brockton. It is also expected that Rev. E. N. Hardy and Rev. W. E. Gardner will be present and say a few words of encouragement if there is sufficient time. Secretary Chas. A. Coburn of the state office will announce the plans of the local association for a new building.

Open cars were run on most of the street railway lines Sunday.

Police Changes.

There were some changes in the police department at roll call Sunday night. Officer Golden, who since his appointment to the permanent force has been driver of the patrol wagon was transferred to street duty and assigned to the Wollaston beat. Officer Burton was transferred from the Wollaston beat to the South Quincy beat and Officer Cahill from the South Quincy beat to driver of the patrol wagon.

Owing to the frequent disturbances that occur on the arrival of the late trains from Boston, Officer Milford will hereafter meet Officer Goodhue at the Quincy station. Officer Bradley will also be on duty on the arrival of the late train.

Success of Quincy Young Man.

George W. Hayden of this city has accepted a position in the United States Government Engineering department and has been sent with a gang of men to make a survey of the Connecticut river from Hartford to Holyoke.

Mr. Hayden is the son of Mr. and Mrs. Albert A. Hayden, life-long residents of Quincy Neck, and was educated in Quincy and studied Civil Engineering with his brother, Warren, who is at the present time engaged in civil engineering, road building and real estate in Worcester, Mass.

As Mr. Hayden is merely a youth (20 years of age) and placed in charge of men years his senior, it reflects great credit upon his ability.

LIKE FINDING MONEY.

Chas. C. Hearn Offers Popular Medicine at Half Price.

Chas. C. Hearn, the popular druggist, is making an offer that is just like finding money, for he is selling a regular 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half price. In addition to this large discount he agrees to return the money to any purchaser whom the specific does not cure.

It is quite unusual to be able to buy fifty-cent pieces for a quarter, but that is what this offer really means, for it is only recently through the solicitation of Druggist Chas. C. Hearn that this medicine could be bought for less than fifty cents. He urged the proprietors to allow him to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified his good judgment for the sale has been something remarkable.

Anyone who suffers with headache, dyspepsia, dizziness, sour stomach, specks before the eyes, or any liver trouble, should take advantage of this opportunity, for Dr. Howard's specific will cure. But if by any chance it should not, Chas. C. Hearn will return your money.

The specific is very pleasant to take, coming in the form of small granules, and there are sixty doses in every package. It is especially convenient when traveling, and no one should start on a journey without a bottle of this reliable medicine.

CITY BREVITIES.

Observations in Daily Walks of Ledger Reporters.

Regular meeting of the City Council tonight.

Mrs. Frank Packard and Miss Bertha Packard have returned from Washington.

Shirley Nutting and family are to move from Revere road to Bates block on Chestnut street.

Mr. and Mrs. W. G. A. Pattee left last Friday for a two weeks' trip to Washington, D. C.

Mrs. Ellen S. Newton of Broomfield street, Wollaston Park, is visiting friends in Holden, Mass.

Mrs. E. S. Beckford of Washington street is entertaining Miss Pri-cilla Raymond of Plymouth, Mass.

Lawyer John McKnight has been taking a much needed rest the past ten days down in the Provincies.

Mrs. George W. Clapp has recovered from her recent illness and is able to go out of doors a little each pleasant day.

Miss Tina Gordon and Mrs. Knowles of New Bedford were the guest of Mrs. W. W. Ewell of Foster street last week.

Mrs. Swan, who has been the guest of Mrs. W. W. Ewell the past six weeks, returns to her home at Abington tomorrow.

Mrs. William Young and little son of Attleboro, Mass., are the guests of Mrs. E. D. Atkins of Bromfield street, Wollaston Park.

Beginning with May the board of directors of the Y. M. C. A. will hold regular monthly meetings, on the first Monday, at 8 P. M.

Mr. and Mrs. Thomas T. Davidson of Hancock street left Saturday for Germany where they expect to remain four or five years.

Mrs. W. M. Marden of Coddington street has been entertaining her sister, Mrs. Cunningham, and daughter of Boston the past week.

Mrs. C. Alice Litchfield of Bigelow street has been called to Beechwood, Scituate, owing to the sudden sickness of her mother, Mrs. Harris.

Mrs. S. M. Hall, who has been the guest of Mrs. George L. York of Davis street, Wollaston Park, has returned to her home in Damariscotta Mills, Maine.

Friends of Mr. Dwight Fenno of Winthrop avenue, Wollaston, are glad to learn that he is so far recovered from his operation as to be able to be out again.

The turkey dinner given at the Co-operative Dining Rooms No. 3 Granite street, yesterday, was a great success, and many words of praise were heard on all sides. "Watch us grow."

A whist party will be given in I. O. O. F. hall, Wollaston, on Thursday evening by the committee of the Red Men for the benefit of Mrs. H. A. Corbett, whose husband passed away last week after a long illness.

Mr. Bobbie Hardwick of Quincy Centre very luckily escaped from what might have been a very serious accident when coming from Merrymount Park on horseback. As he turned into Hancock street the horse slipped and fell, throwing his rider to the pavement.

At this time there were two furniture barges and electric cars nearly on the spot, and had it been a little later the results would have been serious. Apparently no injuries were sustained by either.

Wrongly Reported.

Mrs. Mattie of Penn street, says the report that her horse was hit by a post of Franklin street was entirely wrong. She says she was driving along near the curbstone on her right on Franklin street with her two sons, Walter age 13, and Arthur age 6, when Chief Williams came driving behind them at full speed, without lights or gong, and ran into their buggy and badly smashed it. Mrs. Mattie was severely shaken up and her back injured, besides a bad fright.

Death of Frank Pike.

Mr. Frank E. Pike, for a number of years a clerk in the Boston postoffice, died Sunday at his home on Beacon street, Quincy Point. He was 42 years of age, and leaves a widow and two children.

There will be a costumer at Music Hall all day tomorrow, Tuesday for the Masquerade Ball given by Elmer W. Baker's class in dancing on that evening. Apply at the stage entrance, rear door.

—In Japan it is customary for the bride to give all her wedding presents to her parents.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English From Sir Edwin Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary reverts to Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance shocked at in France. The young princess is charmed at Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed. IX.—Brandon in prison charged with murder. Mary to plead with the King. Buckingham against the prisoner. The king discovers a note sent by Mary to Brandon. Brandon condemned to death. The king learns that Brandon saved Mary from disgrace and orders his release. Brandon now madly in love with Mary. XI.—Ambassadors of the French king come to England to court Mary for their aged sovereign. The girl spurns them in a highly dramatic scene. The betrothal made by King Henry.

CHAPTER XI.—[Continued.]

A cannot go that either, Lady Mary. When I mentioned your name the other day, he said he would curse me if I ever spoke it again in his hearing. "Is it so bad as that?" Then, meditatively, "And at his trial he did not tell the reason for the killing? Would not compromise me, who had served him so ill, even to save his own life? Noble, noble!" And her lips went together as she rose to her feet. No tears now; nothing but glowing, determined womanhood. "Then I will go to him wherever he may be. He shall forgive me, no matter what my fault." Soon after this we were on our way to London at a brisk gallop. We were all very silent, but at one time Mary spoke up from the midst of a reverie: "During the moment when I thought Master Brandon had been executed—when you said it was too late—it seemed that I was born again and all made over; that I was changed in the very texture of my nature by the shock, as they say the grain of the iron cannon is sometimes changed by too violent an explosion." And this proved to be true in some respects. We rode on rapidly and did not stop in London except to give the horses drink. After crossing the bridge Mary said, half to Jane and half to herself, "I will never marry the French king—never." Mary was but a girl pitted against a body of brutal men, two of them rulers of the two greatest nations on earth—rather heavy odds for one woman. We rode down to Greenwich and entered the palace without exciting comment, as the princess was in the habit of coming and going at will. The king and queen and most of the courtiers were in London at Bridewell House and Baynard's castle, where Henry was vigorously pushing the loan of 500,000 crowns for Mary's dowry, the only business of state in which at that time he took any active interest. Subsequently, as you know, he became interested in the divorce laws and the various methods whereby a man, especially a king, might rid himself of a distasteful wife, and after he saw the truth in Anne Boleyn's eyes he adopted a combined policy of church and state craft that has brought us a deal of senseless trouble ever since and is like to keep it up. As to Mary's dowry, Henry was to pay Louis only 400,000 crowns, but he made the marriage an excuse for an extra 100,000 to be devoted to his own private use. When we arrived at the palace the girls went to their apartments and I to mine, where I found Brandon reading. There was only one window to our common room—a dormer window set into the roof and reached by a little passage as broad as the window itself and perhaps a yard and a half long. In the alcove thus formed was a bench along the wall, cushioned by Brandon's great campaign cloak. In this window we often sat and read, and here was Brandon with his book. I had intended to tell him the girls were coming, for when Mary asked me if I thought he would come to her at the palace, and when I had again said no, she reiterated her intention of going to him at once; but my courage failed me and I did not speak of it. I knew that Mary ought not to come to our room, and that if news of it should reach the king's ears there

would be more and worse trouble than ever, and as usual Brandon would pay the penalty for all. Then again, if it were discovered it might seriously compromise both Mary and Jane, as the world is full of people who would rather say and believe an evil thing of another than to say their prayers or to believe the holy creed.

I had said as much to the Lady Mary when she expressed her determination to go to Brandon. She had been in the wrong so much of late that she was humbled, and I was brave enough to say whatever I felt, but she said she had thought it all over, and as every one was away from Greenwich it would not be found out if done secretly.

She told Jane she need not go; that she, Mary, did not want to take any risk of compromising her. Jane would have gone, though, had she known that all her fair name would go with her. She was right, you see, when she told me while riding over to Windsor that should Mary's love blossom into a full blown passion she would wreck everything and everybody, including herself perhaps, to attain the object of so great a desire.

It looked now as if she were on the highroad to that end. Nothing short of chains and fetters could have kept her from going to Brandon that evening. There was an inherent force about her that was irresistible and swept everything before it. In our garret she was to meet another will, stronger and infinitely better controlled than her own, and I did not know how it would all turn out.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." For sale by all druggists.

Mail Pouch Sprinkled Away

Knoxville, April 27.—A mail pouch containing 24 registered packages has mysteriously disappeared from the Knoxville postoffice. The pouch had been turned over to Route Agent Deger, who runs from this city to Salisbury, N. C. Being called to the telephone, he dropped the pouch on the floor near a wire railing inside the postoffice. When he returned the pouch was gone.

Seventeen in Quarantine

New York, April 27.—Steamer Maracas, from Trinidad and Grenada, was detained at quarantine with one of the second cabin passengers sick with smallpox. The patient was removed to a hospital and 17 of his fellow-passengers were sent to Hoffman Island for observation. The steamer was disinfected and released later.

Three Young Highwaymen

Fall River, Mass., April 27.—Anton Wainier reported to the police that three boys, apparently 12 years of age, held up and robbed his young daughter while she was on her way home. The girl sells papers and had her earnings in a pocketbook. One boy held her, another stifled her screams and the third rifled her pockets.

EMERGENCY RATION

A man has lived forty days without other food than his own fat.

Fat is man's emergency ration. The fat is stored in convenient hollows all over the body against the day of necessity.

Consumption makes heavy demand on the storage of fat. Nature uses fat to fight the disease. The crying need of the consumptive is fat.

Scott's Emulsion contains the best fat to be had, next to human fat, itself. Scott's Emulsion is a natural substitute for human fat. It prevents waste. It furnishes the consumptive with nature's own weapon for fighting the disease.

RUSSIA'S LATEST MOVE

Being Investigated by State Department

NOTES FORWARDED BY HAY

Protesting Against Russia's Demand and Urging China's Non-Complicity—Claim That "Open Door" Is Not a Commercial Question

Washington, April 27.—Russia's demands in Manchuria and their effect on American interests were the subject of a conference yesterday afternoon between Secretary Hay and Count Cassini, the Russian ambassador, which occurred at Secretary Hay's house and lasted for nearly an hour. It is deemed that the ambassador brought official advice from his government, but the fact that he is still suffering from an attack of lumbago, which had confined him to the embassy for several weeks, is evidence of the urgency of the call.

Steps already have been taken by the state department to ascertain the true inwardness of Russia's latest move. Ambassador McCormick at St. Petersburg has been instructed by cable to present to the Russian foreign office a note, which, while diplomatically known as one of inquiry, is in substance a strong protest against Russia's demands. Cabled instructions also have been sent to Minister Conger at Peking to express to the Chinese authorities the dissatisfaction of the United States with Russia's demands and our hope that China will not accede to them. No answers have yet been received to either note, though unofficial assurances are still reaching the department that American interests in Manchuria will be protected.

In the department's note, which Ambassador McCormick probably has presented already, Russia's attention is called to the assurances which repeatedly have been given the United States relative to the preservation of the integrity of China and the continuance of the open door policy. Russia also is reminded of the severe blow to American trade which must follow the granting of the first two demands, that no more ports or towns in Manchuria be opened and that no additional foreign consuls be admitted.

Russia's reason for contending for the closed door in Manchuria is the claim that the open door there is not a commercial, but a political question. She continues to assure the United States that in some way this country's interests will be protected in Manchuria. The point is made that as the Manchurian demands are still in negotiation between St. Petersburg and Peking, the United States cannot expect that Russia will make concessions until the fate of her demands has been determined. When China has acceded to all of those demands it is suggested that a trade agreement of some sort can be reached between this country and Russia which will protect our trade interests. Appreciating the fact that the interests of this country in Manchuria are those of trade and not territory, Russia, it is stated, is disposed to make certain trade concessions to the United States in Manchuria at the proper time.

To Make New Russian Province

London, April 27.—In a dispatch from St. Petersburg the correspondent of The Daily Mail says he hears from an authoritative source that China has accepted the Russian proposal to modify the existing Russo-Chinese commercial treaty insofar as it regards the duties at the lake boundaries. After the negotiations with the Tsung-Li-Yamen, the correspondent continues, the Russian minister formulated the following conditions: First, the importation of Chinese arms into Manchuria shall be taxed according to the discretion of the Russian customs authorities and China shall agree to construct at Kalgan a manufacturing to supply material for the projected Russo-Chinese railroad to Peking, which will pass in the vicinity of Kalgan.

Second, China shall establish in Peking an administrative body for the purpose of insuring the rights vested in the gold mines which are now being worked by Russian engineers.

Third, all Russian goods sent to Central China shall be entirely free of any Chinese customs charges. Fourth, Russia and China shall jointly agree henceforth to close the door in Manchuria to the goods of all powers. This agreement, concludes the correspondent, will come into force after the opening of the Manchurian railroad; it shows plainly, says the report of The Daily Mail, the intention to make Manchuria a Russian province.

School Accommodations Needed New York, April 27.—Bishop Van Buren, Protestant-Episcopal bishop of Porto Rico, spoke last night in St. Mark's church upon the present condition of affairs in his diocese. He said that there are 350,000 children of school age in Porto Rico, and yet at present there are accommodations in schools of all classes for but 60,000.

Passing of Former Pugilist St. Paul, April 27.—Harris Martin, colored, who, as the "Black Pearl," achieved some fame in the prize ring a number of years ago, died in this city yesterday. In his palmy days he met and defeated many middleweight pugilists, and is said to have once fought Fitzsimmons.

REJECTED SUITOR IS SHOT

By Man Who Won Affection of His
Former Sweetheart—Threat to Fore-
close Mortgage on Her Home Led
to a Tragic Climax

Boston, April 28.—Three deafening revolver shots rang out unexpectedly in the office of the Edison Illuminating company on Head Place, and, through the smoke, the startled clerks saw one of their number, Stillman M. Bishop, fall to the floor. The shots had been fired by a stranger. The next moment the unknown man was seized by a number of clerks and disarmed. A police call was given and the visitor was arrested. He proved to be Hartwell Stafford of Brookline, and later it appeared that he had shot Bishop to avenge an alleged wrong which he felt Bishop had done to the family of Stafford's intended bride.

While some of the clerks were engaged in the capture of Stafford others cared for Bishop, who was wounded in the arm and side. A doctor ordered the wounded man taken to a hospital, where it was found that the wound in the arm was slight, but that the one in the side was more serious. It was announced, however, that the man had good chances of recovery.

For a time the cause of the shooting could not be learned. Bishop, who did not lose consciousness, remarked: "It is a personal matter, about which I have nothing to say."

Later, however, the police learned some of the facts, and it appeared that Stafford wished to teach Bishop not to persist in annoying a young woman to whom Stafford is engaged.

The story is that up to three weeks ago Bishop was the accepted suitor of Miss Etta McLean of Roxbury, in whose family he boarded. At the time mentioned, an engagement of marriage which is said to have been entered into by the man and the woman was broken. Soon it began to appear that Hartwell Stafford, proprietor of a mail agency business, was favored by Miss McLean, and later an engagement was announced.

Bishop, who had moved from the McLean house, persisted in his attentions to Miss McLean after she selected Stafford as her fiance. He tried to see the young woman and, failing, wrote letters to her, according to statements of Miss McLean's father. The father and the successful suitor could not dissuade Bishop from his attentions.

Finding, however, that matters were going against him, Bishop is said to have adopted another plan. Bishop, it is said, had purchased as an investment some time ago a mortgage on the residence of the McLean family. For some reason the owners of the property were unable to meet the payments, and Bishop threatened to start foreclosure proceedings.

Stafford, incensed at this treatment, decided to forcibly interfere. He went to the Edison office. Bishop, who occupied a desk on the second floor, was busy when Stafford called. He at once arose to receive him and placed a chair that he might be seated alongside of his desk. Without waiting to take a chair, and without uttering a single word, Stafford pulled a .38-caliber revolver from his pocket and fired three shots in rapid succession. Two of the shots hit Bishop. The other went wide. In an instant the office was in a turmoil. Stafford was taken away and Bishop was removed in an ambulance. After reaching the police station Stafford said he was sorry to have caused trouble to so many persons, but felt that he had to do what he had done.

Bishop is 28 years old. He has been employed by the Edison company for 10 years. Stafford is 37 years old. He is a southerner, but has been living in Boston for some time, pursuing varied occupations.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism, and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." NEW CITY CLERK.

Ex-Mayor Harrison A. Keith Succeeds Mr. Harlow.

Mayor Bryant sprung another surprise Monday night when he announced the appointment of ex-Mayor Harrison A. Keith as City Clerk to fill the vacancy caused by the resignation of Mr. James F. Harlow.

Mr. Harlow has not enjoyed the best of health for some time and this coupled with the recent death of Mrs. Harlow, and sickness in the family, caused him to relinquish the duties which he filled so well. In the selection of Mr. Keith as City Clerk, Mayor Bryant has made no mistake, for there are few men more familiar with the duties of the office and better qualified for the position than Mr. Keith.

HARRISON A. KEITH.

When Mayor Bryant was elected in 1900 it was currently reported that Mr. Keith would receive the appointment as City Clerk, but the mantle fell upon Mr. Harlow and he has filled that office ever since.

Mr. Keith brings to the office an experience of four years, served under ex-Mayors Hodges and Adams. He also has had one year's experience as Mayor, and in fact, he has been prominently identified with town and city affairs for many years and it will therefore be generally admitted that Mayor Bryant has made no mistake in his selection of a successor to Mr. Harlow. Mr. Keith assumed office this morning.

BOTH SIDES ARMED

Score of Revolver Shots Exchanged in Labor Disturbance at Lynn

Lynn, Mass., April 28.—About 17 members of the Boot and Shoe Workers' union who are filling the places of strikers at the factory of Harney Bros. left their work last night at the usual time and were on their way home, when they were suddenly confronted by a crowd of over 100 men who had gathered from all directions.

The strike breakers drew revolvers with the idea, apparently, of forcing their way through the crowd, and they were somewhat taken back when many of the crowd also displayed arms. About 20 shots were immediately exchanged between the two parties, but none of the bullets took effect. As soon as the strike breakers had exhausted their ammunition, they broke and ran back to the factory, closely pursued by the crowd, who sent after them a shower of bricks. Several of the workmen were hit, but none was injured seriously and they all gained the factory in safety. As soon as the crowd reached the factory they immediately dispersed, and by the time the police arrived, in response to a telephone call, there was not a person in sight.

Lost Fortune in Lawsuits

Franklin, N. H., April 28.—John Blanchard, a "forty-niner" who made a fortune as contractor and builder in the early days of San Francisco, died here last evening. He was 77 years old and a native of Northfield. Seven years ago he came east and went to live on the Blanchard farm in Northfield, where both he and his father were born. According to his own statement he was poor, having lost his fortune in legal troubles, at one time having 30 lawsuits against him.

Grand Reception to King

Rome, April 28.—The most imposing moment of the reception to King Edward here was "shortly after he entered the quinal. The plaza below was packed with 50,000 people who acclaimed his majesty frantically until he was obliged to appear twice on a balcony. The spectacle which met the eyes of King Edward was really grand. King Edward, by his gestures, clearly expressed the deepest appreciation of the significance of the scene.

Young Smith Changes Plea

Clinton, Mass., April 28.—A previous plea of guilty to a charge of murder made by Walter Smith, 16 years old, was retracted in the district court and a plea of not guilty was entered. Smith is accused of killing his father here on April 20, because of the alleged ill treatment of the boy's mother by his father. After the plea of not guilty had been entered Smith was held without bail for the grand jury.

Post Office Affairs.

A new mail has been established,
closing at the Quincy office at 8.40 P.
M., and dispatched on the 9.12 train;
also an evening collection from the
following boxes:

- Granite street, opposite Swinburn Bros.' shed.
- Quarry and Granite streets.
- Brewers Corner.
- Water street, opposite Prout Bros.' shed.
- Water street, opposite James Craig's shed.
- Quincy Adams Station.
- Water and Franklin streets.
- School and Franklin Streets.
- Gay street.
- School street and Quincy avenue.
- Hancock street at William Westland's store.
- Hancock street, opposite Henry L. Kincaide & Co.'s store.

This mail will connect with the train
for New York, Southern and Western
states. It is recommended that letters
should be in the boxes not later than
7.10 P. M. for the boxes on Granite
Street, 7.20 P. M. for boxes on Water
and School streets, and 7.30 P. M. for
the boxes on Hancock street. The
central office will remain open until 9
o'clock every evening.

Surprised Everybody.

The Boston Advertiser says:
Chief Williams of the Quincy fire de-
partment surprised everybody in that
city by responding to an alarm Satur-
day night, when it was thought that
he was confined to his bed from the ef-
fects of injuries sustained in an acci-
dent a few days previous. Chief Wil-
liams is made of the material which
brings credit to the fire department of
any city, and the sound of the fire bell
is the best medicine in the world for
men like him.

A Paris professor declares that
the use of alcohol predisposes the system
to tuberculosis, and also prevents the
cure of it. Quincy's no license vote
ought to be even larger next year.

The subway in Europe is smashing
the profits of the omnibus companies to
bits. In Paris the annual report of the
Paris General Omnibus Co. shows
\$200,000 less than the previous year,
and \$1,400,000 less than in 1899. The
number of passengers decreased 18-
000,000.

CITY COUNCIL.

Mayor Vetoes a Street Ap-
propriation Order.Sewer Extension Order
for \$70,000 Passed.Action Taken to Have the Bridge
near Atlantic Station Widened.

Councilman Loud was the only ab-
sent member at Monday night's meet-
ing of the City Council.

JURORS.
Assisted by City Clerk Harlow and
Councilman Bass, the Mayor drew the
following jurors: George W. Leonard,
John H. Ryan, Sidney W. Odom,
James H. Campbell and Warren W.
Munroe.

COMMUNICATIONS.

Commissioner Knowlton forwarded a
petition of Mary T. Milne for edge-
stone in front of her property on God-
dard street. To Committee on Streets.

BOULEVARD TAKING.

The Metropolitan Park Commission
sent notice of a taking of a small piece
of land near the J. W. Sanborn estate
off Butler road. A vote of concurrence
was passed.

RESIGNATION.

Mayor Bryant in a communication
gave notice of the resignation of James
F. Harlow as City Clerk and the ap-
pointment of Harrison A. Keith.

A VETO.

Mayor Bryant returned to the Council
without his approval, the order for
\$2500 for a gravel sidewalk with edge-
stones on Whitwell street.

He stated as his reasons that until
the needed school additions were taken
up it was not possible to decide what
can be done in the way of street im-
provements. It was of the utmost im-
portance that the school needs should
receive attention first.

Councilman Bass—If all sidewalk
orders are to receive the same treatment
this year he would abide by the decision
of the Mayor. He felt however if any
place needed a permanent sidewalk this
was the place.

Councilman Nickerson felt all such
orders should be laid aside until the
High school addition and the Atlantic
school lot were settled.

Councilman Nichols, thought it well
to consider first. The committee on
Streets had no opportunity to consider
this order as it came from last year's
council. There are a large number of
orders before the committee for street
improvements and it was but justice
that this order be laid on the table and
he so moved.

PETITIONS.

The New England Telephone Com-
pany petitioned for permission to at-
tach wires to poles of other companies
on Brook avenue. Referred to Commit-
tee on Streets.

A large number of petitions for
minor licenses were received and re-
ferred.

Stewart J. Nichol petitioned to have
his sidewalk assessment apportioned.
Laid on the table till later, when an
order was offered.

The Committee on Streets reported
an order granting the Telephone Com-
pany permission to attach wires to
poles of other companies on Brook
road, Willow street, Elm avenue, Union,
Taylor and Whitwell streets. Report
accepted.

The Committee on Streets reported
leave to withdraw on the petition of the
Electric Light Co. for a location for
poles on Kemper street. Report accept-
ed.

The Committee on Streets reported
no legislation necessary on the com-
munication relative to hearing before
the Harbor and Land Commissioners.

The Committee on Streets reported
reference to the Executive department
on the orders for repairing Station and
Nelson streets, Crosswalks on Hancock
street near the Bethany church and at
the junction of Washington and Wharf
streets. Adopted.

The Committee on Streets reported
ought not to pass on order for cross-
walk at the intersection of Hancock
street and Billings road. Adopted.

The Committee on Streets reported
an order granting the New England
Telephone Co. a relocation of poles on
West street and Quincy avenue. Report
accepted.

The Committee on Finance reported
on order for \$50 for John A. Boyd
Camp of Spanish War Veterans. Boys
suspended and order passed.

PUBLIC SCALES.

The engrossed order for 600 came up

THE OLD RELIABLE

and upon motion of Councilman Whiton
was laid on the table.

SEWER APPROPRIATION.

The engrossed order for \$70,000 for
extending the main sewer to Quincy
Point and building laterals was passed.
Councilmen Bass and Hardwick voting
no.

MOTIONS, ORDERS, ETC.

Councilman Meyer offered an order
for \$6,000 for furnishing and equipping
and providing men for the new Houghs
Neck fire station. To joint Committee
on Fire Department and Public Build-
ings.

COURT PETITIONED.

Councilman Nickerson offered a resolu-
tion relative to the decree of the
County Commissioners widening the
bridge near the Atlantic depot, and
that application be made to the Superi-
or Court for the appointment of a
commission to carry out the decree of
the County Commissioners. Adopted.

Councilman Walsh offered an order
for an incandescent light on Adams
street near Beale street. Referred to
Committee on Streets.

Councilman Reardon offered an order
that the Telephone Company be request-
ed to move the telephone pole in front
of Hose 3 house. To Committee on
Streets.

Councilman Hughes offered an order
that the Telephone Co. be requested to
move the pole in front of Dr. Ash
drive-way. Referred to Committee on
Streets.

LATE CARS WANTED.

Councilman Cleverly offered a resolu-
tion that the Mayor be requested to
confer with the street railway officials
and request that a car be run to Quin-
cy Point at 11.50 every night. Adopted.

DYNAMITE ORDER.

Councilman Hughes offered an amend-
ment to Ordinance number 12, adding
a new section, which shall provide
that no person shall keep or deposit
dynamite in the city to an amount ex-
ceeding one ton without a license from
the City Council and that it shall be
kept in a fire proof house not within
1000 feet of a dwelling. Referred to
Ordinance Committee.

CALENDAR.

The order for \$6000 for house con-
nections with the sewer was passed
under suspension of rules.
Adjourned at 8.30.

MILES' OBSERVATIONS

Of Conditions as He Found
Them In Philippines

CLIMATE IS DETRIMENTAL

Service Depressing and Has Demor-
alizing Effect—Army Benefited by
Discontinuance of Liquor Feature
of Canteen—Great Need For Cavalry

Washington, April 28.—The extended
report of Lieutenant General Miles con-
cerning his observations in the Philip-
pines is made public by the war de-
partment. It is dated Feb. 19, 1903,
and covers all features of his trip
through the islands, together with his
recommendations.

Of the Moros General Miles says:
"The problem of reducing or con-
trolling these people in case of con-
tinued hostilities does not appear to be
a difficult one. They are very poorly
armed, and have no means of with-
standing our mountain artillery and
field mortars. Their forts possess but
slight resisting power, and easily can
be destroyed by modern artillery."

General Miles says he heard stories
of outrages in the Philippines and "has
no reason to disbelieve these state-
ments." He says "Glenn's brigade" was
an agency of torture.

The more important observations and
recommendations of General Miles are
as follows:

"The general condition of the troops
in the archipelago was creditable to
themselves and to the country. The
officers and soldiers made a good ap-
pearance."

"The effect of the climate is a most
serious detriment to the service. The
men go there in perfect health and in
the prime of manhood, but as a body,
are seriously affected in the course of
two or three years' service. Very few
escape. The majority are debilitated."

"As the military stations, with but
few exceptions, are very remote, and
the troops are required to be in com-
munities that are neither beneficial
nor congenial to them, the service is
depressing, and, to some extent, has
a demoralizing effect. There are scarcely
any amusements or recreations for the
soldiers, and life under such circum-
stances becomes very monotonous. During
my visits to the garrisons it so
happened that I did not see a single
soldier under the influence of liquor."

The following statements show the
exact conditions of the troops at 122
stations in the islands, being all but 19
remote stations, on Nov. 27, 1902:
Troops on duty, 17,574; sick, 1415.

"As the result of my observations it
is my judgment that the discontinuance
of the liquor feature of the canteen
has been beneficial to the army. Now
that the temptation has been removed
from the immediate presence of the
young men of the army, they are less
likely to indulge in the use of liquor."

"The number of troops that will be
required to occupy the Philippine islands
is still problematical. While it is
claimed that the people are pacified,
evidences of hostility toward Ameri-
can sovereignty are apparent. The
newspapers, published in both Spanish
and English, contain almost daily ac-
counts of hostilities, depredation or dis-
turbances of the peace. Against these
armed bands the civil government is
employing the constabulary, a force of
about 6000 men."

"In my judgment the heavy artillery
troops now in the Philippine islands
should be withdrawn without delay as
there is no legitimate use for them in
the archipelago."

"There is quite as much if not more
need for cavalry in the Philippine is-
lands than in the United States, and as
some of the cavalry regiments never
have served in the Philippines, I think
it advisable that they should share their
proportion of the duties in that coun-
try."

"I found a large proportion of the
troops occupying church property,
monasteries, colleges and convents.
This I believe to be entirely wrong,
and it should be discontinued without
delay."

"Of the supplies furnished troops he
says: "While the supplies, as a rule,
have been abundant and of good qual-
ity, there is, in my opinion, too much
cold storage meat used for the good of
the troops. Its constant use becomes
very distasteful, and in the opinion of
many eminent physicians it is not the
most healthful. In my opinion it would
be advisable to send government
steamers to Australia and have them
loaded with live stock, which can be
distributed in small quantities near the
different garrisons so that they could at
any time have fresh beef and mutton as
a part of the ration."

General Miles renews a recommenda-
tion made prior to his visit to the
Philippines that at least one strategic
position be fortified beyond the pos-
sibility of capture by any foreign fleets.

"In my journeys through the archi-
pelago I was frequently appealed to
aid in assisting the people to obtain a
food supply, of which they will be in
great need in the near future. I do
not think there is today a people so
seriously afflicted as the eight millions of
inhabitants of this archipelago. Their
country has been devastated by war,
and several provinces are suffering
now severely as the result of recon-
struction in the past. In some places
locusts have destroyed the crops. Pestilence
has prevailed, resulting in the re-
ported death of nearly 75,000 people,
while it is estimated that the number
not reported is fully as large."

Distress
After Eating

Nausea between meals, belching, vomit-
ing, flatulence, fits of nervous head-
ache, pain in the stomach, are all
symptoms of dyspepsia, and the longer
it is neglected the harder it is to cure it.

Hood's Sarsaparilla
and Pills

Radically and permanently cure it—
strengthen and tone the stomach and
other digestive organs for the natural
performance of their functions.

Accept no substitute for Hood's.

"I had dyspepsia twenty-five years and
took different medicines but got no help
until I began taking Hood's Sarsaparilla.
Have taken four bottles of this medicine
and can now eat almost anything, sleep
well, have no cramps in my stomach, no
burning and no distress." Mrs. WILLIAM
G. BARRER, 14 Olney St., Providence, R. I.

Hood's Sarsaparilla promises to
cure and keeps the promise.

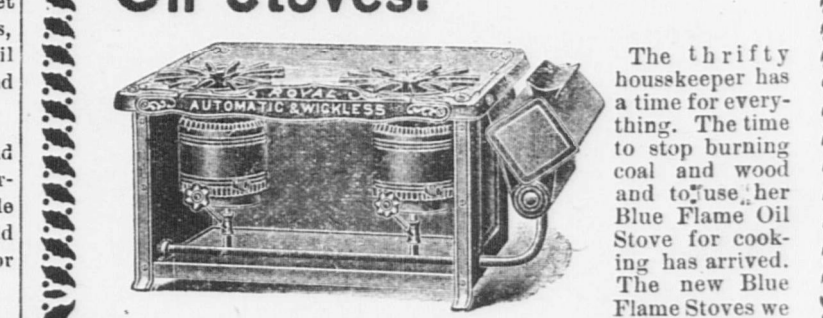

To Make Red Cheeks

A little red, a little white, delicately blended. That's
one way. Here's a better:

Take Ayer's Sarsaparilla. It makes the blood pure
and rich. You know the rest: red cheeks, steady
nerves, good digestion, restful sleep, power to endure.

Keep the bowels regular with Ayer's Pills; this
will greatly aid the Sarsaparilla. Two grand family
medicines. Keep them on hand. J. C. AYER CO., Lowell, Mass.

RUSSIA MAKES ANSWER

Which Meets Desires of Our Government

OPEN DOOR IS MAINTAINED

Admission of Foreign Consuls Into Manchuria Depends Upon China—Nothing Directed Against Interests of Other Powers or Their Trade

Washington, April 28.—Considerable interest is shown here in The Associated Press dispatch from St. Petersburg giving a categorical answer by the Russian foreign office to inquiries regarding the eight demands which are said to have been made on China in connection with Manchuria. It was regarded as of great importance, and if borne out by subsequent information through diplomatic channels will give general satisfaction and meet in a large degree the desires of our government. It was in relation to the first two demands that the United States was interested particularly, and it was these demands which prompted it to address notes of inquiry and protest to St. Petersburg and Peking. They involved severe restrictions to American trade and the United States therefore was prompt to protest.

The assurance of the Russian foreign office would seem to set at rest any serious menace in that respect. The replies of the Russians regarding the other demands also caused a feeling of relief here and the hope of the officials is that Russia's position is fully and correctly set forth.

As cabled from Peking April 23 the Russian demands were as follows:

First—No more Manchurian ports or towns are to be opened.

Second—No more foreign consuls are to be admitted into Manchuria.

Third—No foreigners, except Russians, are to be employed in the public service of Manchuria.

Fourth—The present status of the administration of Manchuria is to remain unchanged.

Fifth—The customs receipts at the port of Newchwang are to be given to the Russo-Chinese bank.

Sixth—A sanitary commission is to be organized under Russian control.

Seventh—Russia is entitled to attach the telegraph wires and poles of all Chinese lines in Manchuria.

Eighth—No territory in Manchuria is to be alienated to any other power.

Commenting on each point separately the Russian foreign office says:

First—Absolutely false. Not our affair.

Second—Depends upon China. Not mentioned in our pour parlers.

Third—False.

Fourth—Unimportant.

Fifth—Such is the present arrangement.

Sixth—Extremely important, since an English vessel in 1902 introduced the plague.

Seventh—False.

Eighth—The integrity of China is already adopted into the Russian program. No need to discuss that now.

Regarding the whole negotiations, which have been dragging on since January, the foreign office says:

"There is nothing directed in any manner against the interests of the other powers or their commerce; others enjoy the same rights of commerce in the interior as we. Of the towns not opened to trade the railway will carry Russian and foreign goods alike through the country, but we or they cannot sell them in the unopened towns. If the towns are opened all will benefit alike. It is in the railway's interest to demand the widest possible developments of trade. The pour parlers concern multitudinous detailed questions which were not foreseen when the evacuation was decided upon.

Talked on Good Citizenship

Omaha, April 28.—The president's visit here was somewhat marred by inclement weather. In his address he devoted most of his speech to the question of good citizenship and went over very fully and thoroughly the ground he has heretofore covered on this subject. He also delivered a brief eulogy on the life of General Grant, it being the anniversary of his birth.

Cruiser Under Rush Orders

Hallfax, April 28.—The British admiralty has ordered the cruiser Retribution to proceed at once to Trinidad to protect the lives of the British officials there. A cable says that rioting has again broken out there and that the government house has been burned. The cruiser sailed at midnight last night.

Ambassador Has Lumbago

Washington, April 28.—Count Cassini, the Russian ambassador, has decided, on the advice of his physician, not to go to St. Louis to attend the dedication ceremonies of the fair. The ambassador has been suffering from an attack of lumbago for several weeks.

DOWN RIVER'S BANK

Car Plunged to What Seemed Almost Certain Destruction

Pittsfield, Mass., April 28.—Four passengers and a conductor of a trolley car of the Pittsfield street railway had a miraculous escape from death when the car, after jumping the track and plunging down the bank of the Housatonic river, stopped on the brink of the stream with the forward end in the water. The motorman jumped just before the car went down and landed on the bank. Mrs. Charles Clark, one of the passengers, had her 4-year-old child, which she held above her head as the car plunged down the bank. The child escaped without a scratch.

The car had just rounded a curve at a point where the tracks run parallel with the Housatonic river. Suddenly the car left the tracks and swept down the bank at an angle of 45 degrees. The conductor clung to the rear platform. The passengers were badly shaken up and Mrs. Clark was cut severely in the face with flying glass. In going down the bank the car tore up the tracks so that traffic was blocked for some hours. A large crowd gathered and those in the car were rescued from their perilous position with some difficulty.

Ministers as Ball Players

Worcester, Mass., April 28.—During a meeting of the Ministerial league yesterday Rev. John A. Seibert made a suggestion that the ministers of the city form a baseball team and arrange a game in order to raise funds for the Y. M. C. A. tent work this summer. He said that there was some promising talent among the ministers of the city and he hoped that those who had during their college life been players would make the fact known. No action was taken on Mr. Seibert's suggestion.

Killed Wife and Committed Suicide

Lincoln, Mass., April 28.—This quiet community was startled by a murder and suicide which occurred in a farmhouse on the main road from Waltham to Concord, about half a mile from Lincoln station. Israel Bent, a farmer, shot and killed his wife and then ended his own life. Bent was 52 years of age and his wife was two years his senior. The couple are survived by a family of children. It is understood that Bent had acted in a peculiar manner on various occasions.

Not Pleading to Democrats

Boston, April 28.—The bill providing for the making up of a list of assessed polls by the police, which has been bitterly opposed by the Democrats in both branches of the legislature, was enacted in both house and senate yesterday and is now in the hands of the governor. A number of Democratic politicians and Mayor Collins have requested the governor to withhold his signature until he can hear their reasons for opposing it.

Nothing Like Experience.

"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy and learn from his own experience how quickly it gives relief, and he will remember it all his life. For sale by all druggists.

GAIN FLESH

An Absolute Necessity in Many Cases.

A DECREASE IN WEIGHT FREQUENTLY INDICATES A DECLINE.

Our Modern Rebuilder, Vinol, Will Help You Do It.

THE WAY IT ACTS ON A DEPLETED CONSTITUTION IS SIMPLY MARVELOUS.

Are you getting thin? If you are you had better watch yourself. Take Vinol. It will build you up quickly and surely. A healthy man does not vary much from year to year in his weight. This is as it should be. Vinol enables the organs of the body to renew flesh, muscle tissue, bone structure, and at tends to purifying the great vital current of the human system, the blood. Vinol contains the active curative properties of Cod-Liver Oil in a highly concentrated state, and is the most wonderful tonic that we have ever had anything to do with.

Vinol acts upon the stomach in a beneficial way, enabling it to obtain for itself the necessary ingredients from the food that is taken into it to build up the pure healthy body and increase the weight.

Mr. H. M. Stufell, who is a well-known passenger trainman on the Boston and Maine Railroad, suffered as many railroad men do, with kidney and other troubles. He writes as follows:

"My kidneys troubled me a great deal, my bowels were very irregular, I had great distress in my stomach, suffered with bilious headaches, had no appetite, could not sleep nights, and was losing flesh rapidly. I began to take Vinol, I am now on my third bottle, and it is doing wonders for me. My kidneys are better, my bowels are again regular, my stomach no longer troubles me, and no more headaches, and as for appetite, don't speak of it; I sleep like a top and have gained thirteen pounds. You can count on me always to recommend Vinol as the king of medicines."

With many such testimonials as the above coming before us, it is not strange that we endorse Vinol as strongly as we do. We unhesitatingly agree to return to any one who has taken Vinol and is not satisfied that it has accomplished all that we claim for it every cent that they have paid us for this remedy.

RELIANCE IS ACCEPTED
Formally Delivered to Syndicate by the Herreshoffs
WILL CARRY FIFTY SEAMEN

Besides Officers and Others When She Is Racing—New Plan For Hauling In Main Sheet—A Unique Arrangement For the Giving of Orders

Bristol, R. I., April 29.—It was expected that the cup defender, Reliance, would formally go into commission yesterday after being turned over by the Herreshoffs to the syndicate, but the workmen did not finish putting on the final touches on the boat and the yacht was towed to Newport about sunset. The Reliance, however, was delivered to the syndicate during the day and it is expected that Mr. Iselin will hoist his private signal on her off Newport today. The principal work on the boat yesterday was the fixing of her mainsail and by hauling out the head of the sail considerable fullness was gained at the luff. Several of the battens were taken out and shortened and then the sail was hoisted. It set considerably better than on Sunday, much of the looseness along the leech having been taken up. The club topsail which was used on Saturday and which is one of the small ones was also set for a few minutes. Messrs. Herreshoff and Iselin went on board and made a careful inspection of both sails, after which they were lowered and the mainsail furled and covered. By this time it was well along toward night and the wind being ahead and somewhat light, it was decided to have the Reliance towed to Newport by the Sunbeam. It is expected that the Reliance will go out today for a sail spin and that these will be daily exercises until she leaves for Long Island sound for her first race against the Constitution and Columbia at Glen Cove on May 21. The syndicate which built the Reliance consists of Clement A. Griscom, Elbert H. Gary, J. J. Hill, William B. Leeds, Norman E. Keam, William Rockefeller, Cornelius Vanderbilt, Henry Walters and P. A. P. Widener. The yacht will carry a large number of men on board while she is racing this season, including Manager C. O. Iselin, Captain Woodbury Kane, H. C. Leeds, N. D. Thorne, Dr. Monahan, Captain Barr, First Mate Peterson, Second Mate Christianson, a boatswain, carpenter, rigger, two sailmakers, three quartermasters and 50 seamen. The tender Sunbeam has a complement of 30 men, including the officers. The winch which hangs in the main-sheet has proved its worth in the trials thus far held. The men may now work in safety, while in the old way they were obliged to stand up to their knees in water on the lee-deck whenever there was a blow. Unique arrangements have been made for the giving of orders. When the time for hauling in the main sheet has arrived, the main sheet man standing on the aft deck, directly over the men at the winch down below, stamps once with his feet, and all hands instantly lay to. Two stamps on the deck mean avast heaving, and the man in charge of the winch places the clutch. The main sheet is let off from the deck by simply loosening the parts of the standing rigging.

Colombian Canal Sentiment
Colon, April 29.—The deputies of the department assembly of Cartagena, by a vote of 9 to 8, have rejected a petition to address a memorial to the coming congress praying that body to reject the canal treaty. The assembly declared it possessed full power in whatever action congress may take. The date for the meeting of congress has not yet been fixed.

Overthrow of Eight-Hour Law
Albany, April 29.—The court of appeals has overthrown the New York state eight-hour law, reversing the decision of the appellate division and sustaining that of the Orange county court in discharging the defendant in the case of the People vs. Orange County Road Construction company. The law applies to work on public contracts.

Strikers Forestalled
Chester, Pa., April 29.—Forty-eight maulers in the employ of the Penn Steel Casting company here have been locked out. The workmen had intended to strike for recognition of their union and a minimum wage of \$3 a day. If the present difficulty is not soon adjusted the entire works will be compelled to shut down.

SCHOOL COMMITTEE
Consider Plans for Enlarging High School.
Date Fixed for Grammar Graduation.
New Diploma Adopted for High School Graduates.

The regular meeting of the School Committee was held Tuesday evening. Mr. Smith, Dr. Peirce and Dr. Record were absent.

The resignation of Miss Florence L. Hayes of the High school who was granted a leave of absence some time ago, was accepted.

The matter of supplying the several school buildings with books from the public library was left to the superintendent with full power.

NEW DIPLOMA.
A new diploma was adopted for the High school. The new diploma is of imitation parchment and will be a decided improvement over the cheap looking printed diploma used in years past.

ROCK ISLAND FUND.
It was voted to expend the interest of the Rock Island fund in the purchase of reference books for the High school.

GRAMMAR GRADUATION.
It was voted that the graduation exercises of the grammar schools shall be held on Saturday, June 20, at High School hall.

The plans for the proposed enlargement of the High School were taken up and considered at length.

FINANCIAL STATEMENT.
The expenditures of the department to date were as follows:
Salaries, \$33,139.39
Janitors, 2,332.96
Books, Supplies and Sundries, 1,199.76
Fuel, 3,306.82
Transportation, 288.00

Disagrees With Fellow Socialists
Boston, April 29.—Martha Moore Avery, widely known as a speaker and author among the Socialists, announces her withdrawal from the Boston Socialist club in a letter reviewing recent controversies between herself and certain members of the central committee. She promises to continue her work in behalf of wage-earners, although independent of any organized body.

Hundreds of Acres Burned Over
Attleboro, Mass., April 29.—A forest fire covering several hundred acres occurred near the village of New Boston and the fire departments of this town and North Attleboro were called out to assist the farmers of that locality in saving their property. The damage will reach several thousand dollars. No buildings were destroyed.

Strike Breaker Knocked Out
Lynn, Mass., April 29.—Isaac Strauss, who has been quite prominent during the shoe strike by reason of his importing Hebrew stitchers to take the places of strikers, was assaulted on Union street last night and knocked unconscious. He was taken to a hospital, but proved to be not seriously injured.

Detectives Out of Work
North Attleboro, Mass., April 29.—The secret service department of the New York, New Haven and Hartford railroad has been abolished. By the abolition a score or more expert detectives are thrown out of employment. It is understood that railroad employees demanded the abolition of the secret service.

Justified In Killing
Boston, April 29.—Mrs. Isabella Viola was discharged in court by Judge Ely. She was charged with manslaughter in causing the death by shooting of Lieutenant Joseph E. Kelley of the Boston fire department. Judge Ely said that he felt that Mrs. Viola was perfectly justified in taking the action she did when Kelley broke into her home and assaulted her husband.

POSTAL DELIVERY.
Weymouth to Have it Commencing May 1.
The free postal delivery for Weymouth goes into effect Friday. The central office will be at South Weymouth and the offices at Weymouth Landing, North and East Weymouth will be retained as sub-stations. The offices at Weymouth Centre, Weymouth Heights and Nash will be abolished.
Nine carriers will be employed, four at East Weymouth, one at North Weymouth, and an extra man during summer, two at Weymouth Landing and two at South Weymouth.
The carriers appointed are Joseph A. Nolan, Chester A. Stoddard, Ralph T. Bussell, E. B. Nash, George R. Sellers, Francis A. Lowell, William D. Taylor and Arthur Gerstley. The substitutes are Henry C. Pratt, Charles Riley and Willard Holbrook. There will be two deliveries a day. The numbering of the streets will be completed by June 30.

SMALLPOX GERM FOUND
Cause of the Hideous Disease the Lowest Form of Animal Life
Boston, April 29.—The announcement of the discovery of the cause of smallpox was made last night by Dr. William T. Councilman, professor of pathology in the Harvard medical school, at a meeting of the Boston Society of Medical Science. The announcement is the outcome of the investigations conducted by Dr. Councilman, Dr. G. B. McGrath and Dr. W. R. Brinckerhoff, with the co-operation of the Boston board of health, during the recent epidemic of the disease in this city. It has been determined that smallpox is caused by a protozoa, the lowest form of animal life, and this is responsible for the highly contagious character of the disease.

A protozoa is distinguished from the bacillus, as the latter is a vegetable organism, while the former belongs to the animal kingdom. The investigation of smallpox, therefore, properly belonged to the department of pathology rather than to the department of bacteriology.

Students' Feelings Injured
Cambridge, Mass., April 29.—Harvard undergraduates are to hold an indignation meeting over the recent action of the faculty in confiscating signs found in students' rooms. The faculty obtained search warrants for all the dormitories owned and run by the college and had the janitors collect signs from the students' rooms and turn them over to the police, who, as far as possible, have returned signs to the original owners. The students claim that many of these signs had been purchased and not stolen.

Milkman a Common Carrier
Providence, April 29.—Samuel Woodard, a pedlar, was acquitted of the charge of selling impure milk on his plea that he was acting only as agent in the sale of the product. The evidence showed that the milk was dispensed by Woodard for farmers in South Scituate. Judge Sweetland said that Woodard's mission was that of a carrier, and so far as his liability was concerned on a charge of selling adulterated milk it was no greater than that of a railroad which carried cans of milk for other persons.

Big Cargo Quickly Handled
Boston, April 29.—The shipment of a cargo of 115,500 bushels of corn to Antwerp by the steamer Kingstonian has shown the possibilities of Boston as a favorable port of export in a manner hitherto unknown in the records of Boston commerce. The corn was all on board the steamer nine days from the time it left Chicago, having been handled five times in transit. The Kingstonian is due at Antwerp May 7, or 21 days from Chicago.

Won't Meet Girls For Many Years
Boston, April 29.—Having pleaded guilty to an indictment charging him with assaulting children, John Bolaffi, an Italian, 38 years old, was sentenced to state prison for from 20 to 25 years at hard labor. While the prosecution only pressed four counts, it is understood that there were as many as 18 victims, the ages of the girls averaging, 15 years. Bolaffi is well educated and familiar with many parts of the world, where he has travelled.

All Creeds Represented
Boston, April 29.—The Massachusetts Anti-Saloon league, which for the year past has been under the management and direction of the American Anti-Saloon league, has been organized here as a state league. A board of 100 trustees, of whom 67 are clergymen and 33 laymen, representing 16 different religious denominations, both Protestant and Catholic, formed the organizing body of the league.

Good Afternoon.

The round trip excursion tickets to Plymouth on Friday (May day), is \$1.35, instead of .35, as announced by misprint yesterday. It includes a nice dinner as well as a delightful ride at this season of the year to this ancient town.

We have learned since the first page of the Ledger was printed this morning that the time of holding the graduation exercises of the grammar schools has not been decided, officially, but will take place probably on Saturday, June 20.

Drift of Opinion.

Thoughtful observers have long considered that the safest place to conceal a door-key was not under the doormat. Now that the fallacy has been well advertised at the expense of the Maiden family who trusted too blithely in such concealment, the number of those who conceal the key by reaching up and placing it over the door will probably be greatly augmented.—Boston Budget.

General Chamberlain was right in his recent address at Cambridge when he said: "No man will agree with me, but I think that next to divine Providence and our boys who carried the muskets, the one man who did more than anybody else to bring the south back into the Union was R. E. Lee. Had the southern army kept on the defensive from the time of the Peninsula campaign, saved their strength and built up their defences, instead of being carried forward into offensive warfare by the daring pride and ambition of Lee, the south would have won its independence." This is a little suggestive of the pins that saved the boy's life because he did not swallow them. However, we are glad that offensive warfare carried Lee into Pennsylvania, for it did wake up the north even if it were the result of pride and ambition.—Milford Gazette.

The committee on cities in the legislature is to report a bill increasing the legal height of buildings in Copley square to 100 feet, which, while drafted in general terms, is nothing more or less than a bill to legalize the illegal construction of Westminster Chambers in defiance of the law of the state. The claim is made that new influences will be brought to bear this year and that the bill has a good chance of passage. Whoever or whatever the new influences are, the passage of that bill would be a lasting disgrace for this legislature and should blacken the name of every man whose vote is cast in its favor. It may be true, as is claimed, that the additional ten feet does no one any injury, and does not seriously affect the architectural beauty of the square, while insistence upon the present law means a substantial loss to real estate owners. It is perfectly true that the opposition to the amendment of the law is largely sentimental, but there are times when sentiment is to be considered, and this is one. The honor and dignity of the law and the lawmakers of Massachusetts are at stake and should not be sacrificed.—Haverhill Gazette.

HOTEL LANDLORD SHOT

By Man Once Prominent in Maine Politics

WIFE LEFT WITH PRISONER

When He Was Sheriff of Aroostook County and He Soon Afterward Disappeared—Went to Worcester and Enticed Woman From Her Home

New London, Conn., April 29.—William A. Kay of Houlton, Me., a guest at the Hotel Royal, shot the proprietor of the hotel, Fred Gavitt, last night, and then committed suicide.

Kay was at one time sheriff of Aroostook county, Me., and a man of considerable property. He came to New London Monday evening, accompanied by a woman, and registered at Hotel Royal as "S. B. Millinowman and wife, Portland, Me."

The couple remained at the hotel yesterday. Last evening the man approached the landlord with a request regarding the room he occupied, and in the conversation which followed, an altercation is said to have arisen, during which the guest suddenly pulled a revolver and fired at Gavitt. As the latter fell, the guest turned the revolver upon himself, placing the muzzle behind his right ear, and pulled the trigger. The bullet penetrated the brain and he died instantly.

Gavitt was attended by a physician at the hotel. The doctor found that he was suffering from a bad scalp wound, but the skull was not penetrated and it is believed that he will recover.

Kay's companion was Mrs. Carrie Green, who made the following statement: "I am a married woman and Kay is not my husband. I have known him since I was a young girl. He is 48 years old and I am 38. I first knew him in Portland, Me. He was well-to-do then and my folks lived in a house owned by him. He was prominent there in politics and for four years was the high sheriff of Aroostook county. My husband, D. W. Green, worked in an insurance office in Worcester, and I worked in a factory. We moved to Worcester last November. A few weeks after our arrival Kay went to Southbridge and secured work at his trade, that of a machinist. Four weeks ago I stopped working at the factory and remained at home keeping house for my husband."

"Last Sunday night Kay came to the house drunk and wanted to see me. My husband ordered him away. Monday morning he came to the house and persuaded me finally to go out with him. When we were on the street he told me that I must leave Worcester with him, or he would kill me. He had a revolver and showed it to me. He had threatened to kill me before. In fear of being shot I accompanied him to this city. All day today he watched me. I tried to get away several times, but was afraid of the revolver. He told me he would kill me if I left him. He has been addicted to the use of drugs for several years. I think he used morphine. He also drank a great deal. I don't know of any reason for his shooting the hotel keeper. Mr. Gavitt had but entered the room when he shot him. I did not see the revolver until he pointed it at himself."

Mrs. Green said further that Kay was a widower with three daughters, two of whom lived in Eastport, Me., and the other in New Haven. Although Kay had been well-to-do at one time, she said he had nothing now, but was fixated in favor of his daughters for \$8000.

Wife Broke Up Home

Bangor, Me., April 29.—William A. Kay was formerly a sheriff and jail keeper in Houlton, Aroostook county. He lived there happily with his wife and two little children and had accumulated considerable property up to 1897. In September of that year Mrs. Kay ran away with a prisoner named Charles Musgrave and her husband subsequently secured a divorce. Mrs. Kay then married Musgrave, but left him because of alleged brutal treatment by him. Kay put his children in the care of a relative in Boston and went to the Klondike. Nothing has been heard of him here since 1898.

Noted Shipbuilder Dead

San Francisco, April 29.—Irving M. Scott, who for many years was vice president and general manager of the Union Iron works, is dead. He had been in poor health for some time and a few days ago he was stricken with alarming symptoms. He had long been a sufferer from kidney trouble.

Tame Bout For Championship

Boston, April 29.—Jack O'Keefe of Chicago and George McFadden of New York fought for the white lightweight championship of the country here last night and on points the decision was given to O'Keefe. The decision did not suit the majority of spectators. The bout was tame.

To Reduce Price of Gas

Lynn, Mass., April 29.—In recognition of its 50th anniversary, which falls on July 1, the Lynn Gas and Electric Light company announces that beginning on that date the price of gas will be 90 cents per 1000 feet net. The reduction from \$1 is voluntary.

TWO PRESENTATIONS

Tuesday Evening a Lucky One for Roscoe D. Tarbox.

Roscoe D. Tarbox, a theological student, who during the past year has made his home at the parsonage of the West Quincy Methodist church and has acted as assistant pastor of the church, was given a reception Tuesday evening at the residence of Mrs. Fred L. Badger on Crescent street by the church people. The gathering which was a very enjoyable one was attended by upwards of seventy-five ladies and gentlemen. Vocal and instrumental music and light refreshments made the evening hours pass in a pleasant manner.

During the evening Rev. William A. Mayo the present pastor of the church made a few remarks and presented Mr. Tarbox with a fifty-ride book to Boston, saying as he did so that it would come in handy when he wanted to visit Quincy friends. Mr. Tarbox responded, referring to his pleasant relations with the people of the church, and assured them that he should often visit Quincy. To these remarks Rev. Mr. Mayo again arose and said that Mr. Tarbox would often have occasion to use a little money while in college and asked as he handed him a purse if he could use the \$50 enclosed.

This was too much for Mr. Tarbox and for a minute he was almost speechless and could only wave his hand in reply. The evening proved to be one of rare enjoyment to all.

The Mechanics Art High School of Boston and the Quincy High School met on the diamond at Merrymount Park Tuesday afternoon and although the High boys put up a good game and were cheered on by their classmates they were unable to do anything with the visitors.

Mechanics Art started in by making eight runs in the first but were shut out in the second. They made five runs in the third and fourth innings and were then held well for the balance of the game.

Quincy did well in the third making six runs but they could not keep up that pace although they did make three in the six. Bennett carried off the honors for Quincy in making the best plays.

Inquests

Judge Avery held inquests this morning on the death of the unknown man killed by the cars on Hancock street, Atlantic, last week and on Mrs. Lakin who was killed by the cars at Cohasset a few days ago.

CITY BREVITIES.

Observations in Daily Walks of Ledger Reporters.

It seems natural to see City Clerk Keith about City Hall.

Mrs. Robert Harding of Botolph street has been quite ill the past week.

Asa O. A. Sewell has sold a seven-room house at 10 Charles street to George K. Carter.

A civil service examination for police, firemen and clerks is being held at City Hall today.

Tonight is the closing night of the weekly whist tournaments of the Granite City club.

Mr. and Mrs. Frank Caspale of Prospect street have hired a house on Newbury avenue extension.

There will be a great game of ball at Merrymount park Saturday afternoon when the Merrymounts will have for their opponents Harvard, '04.

James F. McInnis of West Quincy has just returned from Portland, Maine, where he has been spending a few weeks with relatives and friends.

The Lucas property on Newcomb street consisting of two houses and 8,363 feet of land was sold at Commissioners' sale Tuesday to John H. Dinegan for \$1425.

Miss Mary Clare was tendered a party by many of her friends at her home corner Newbury avenue and Sagamore street, Saturday evening. A very pleasant evening was spent.

West Quincy people want that telephone pole at the entrance of the engine-house removed from the driveway. Dr. Ash also desires the pole removed from in front of his driveway.

Mr. Thomas Bowker, who was so badly hurt at the Fore River, is able to be out again. He went over to the Fore River Saturday but will not be able to go to work for two or three weeks.

Hay and Grain.

For the better accommodation of the public, the Nightingale Brothers have opened an office on Washington street, next to Stetson's shoe store, where orders left for grain, hay, etc., will receive prompt attention. They inform us that their new business is meeting with good success. As they are well known in this their native town for their honesty and push, it cannot well be otherwise.

A Swindler at the Point.

A man visited the store of Fred Thayer on South street, Quincy Point, yesterday and told a pitiful tale of woe about his lack of work and money. After he had told his tale he offered Mr. Thayer his (gold) watch for four dollars. Mr. Thayer decided to buy the watch and paid the man the money.

The man went next to Mr. Charles Connor but the swindle was detected. Later, while conversing with Mr. Thayer he told him how a man had attempted to swindle him. Mr. Thayer then closely examined his watch and found that it was solid brass. He put Officer Bradley on the trail but the rogue had left the town.

Concealed Weapons.

It is said that if two would-be policemen had minded their own business there would have been no row in City Square last Saturday night, when the 10.50 train arrived. One of the two is said to have drawn a black jack, and probably would have used it if Officer Goodhue had not taken it away from him. The habit some young men have of carrying such a weapon is a dangerous one and will get them into trouble sometime. The police should enforce the law regarding the carrying of concealed weapons.

A leading medical journal greatly deplors the increased use of cocaine in the United States and says large quantities are sold in the form of patent medicines, particularly for catarrh. It cites an instance of a single druggist who sold last year, 24,000 grains at a profit of \$6,120 and says that the retail druggist, by dispensing cocaine at a tremendous profit, has in many instances built up a thriving business on the wrecked lives of the victims.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English From Sir Edwin Caskoden's Memoir

By **EDWIN CASKODEN [CHARLES MAJOR]**

Copyright, 1898 and 1901, by the Brown-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden ride to Windsor with the king. Mary shows decided partiality for Brandon's company, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon to sail for America to avoid Mary. She takes him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed. IX.—Brandon in prison charged with murder. Mary pleads with the king. Buckingham against the prisoner. The king discovers a note sent by Mary to Brandon. Brandon condemned to death. The king learns that Brandon saved Mary from disgrace and orders his release. Brandon now madly in love with Mary. XI.—Ambassadors of the French king come to England to court Mary for their aged sovereign. The girl spurns them in a highly dramatic scene. The betrothal made by King Henry. Mary kept in ignorance of Brandon's long imprisonment. She supposed he had sailed for America. XII.—Mary explains to Brandon her neglect when he lay in prison.

CHAPTER XII.—[Continued.]

"Now, frequent she was! It seemed to me this would have melted the frozen sea, but I think Brandon felt that now his only hope lay in the safeguard of his constantly upheld indignation. When he spoke he ignored all she had said. "You did well to employ my Lord of Buckingham. It will make matters more interesting when I tell you it was he who attacked you and was caught by the leg under his wounded horse; he was lame, I am told, for some time afterward. I had watched him following you from the gate at Bridewell and at once recognized him when his mask fell off during the fight by the wall. You have done well at every step, I see."

"Oh, God; to think of it! Had I but known! Buckingham shall pay for this with his head; but how could I know? I was but a poor, distracted girl, sure to make some fatal error. I was in such agony—your wounds—believe me, I suffered more from them than you could. Every pain you felt was a pang for me—and then that awful marriage! I was being sold like a wretched slave to that old satyr, to be gloated over and feasted upon. No man can know the horror of that thought to a woman—to any woman, good or bad. To have one's beauty turn to curse her and make her desirable only—only as well great the manifestation of such a called love, it all the more repels a woman and adds to her loathing day by day. Then there was something worse than all"—she was almost weeping now—"I might have been able to bear the thought even of that hideous marriage—others have lived through the like—but after that—that day—when you—it seemed that your touch was a spark dropped into a heart full of tinder, which had been lying there awaiting it all these years. In that one moment the flame grew so intense I could not withstand it. My throat ached; I could scarcely breathe, and it seemed that my heart would burst." Here the tears gushed forth as she took a step toward him with outstretched arms and said between sobs: "I wanted you, you, for my husband—and I could not bear the torturing thought of losing you or enduring any other man. I could not give you up after that—it was all too late, too late; it had gone too far. I was lost, lost!"

He sprang to where she stood leaning toward him and caught her to his breast. She held him from her while she said: "Now you know—now you know that I would not have left you in that terrible place had I known it. No, not if it had taken my life to buy your freedom."

"I do know; I do know. Be sure of that. I know it and shall know it always, whatever happens; nothing can change me. I will never doubt you again. It is my turn to ask forgiveness now."

"No, no. Just forgive me. That is all I ask." And her head was on his breast. "Let us step out into the passageway," Edwin said Jane, and she did. There

were times when Jane seemed to be inspired.

When we went back into the room, Mary and Brandon were sitting in the window-way on his great cloak. They rose and came to us, holding each other's hands, and Mary asked, looking up to him:

"Shall we tell them?"

"As you like, my lady."

Mary was willing, and looked for Brandon to speak, so he said, "This lady whom I hold by the hand and myself have promised each other before the good God to be husband and wife if fortune ever so favor us that it be possible."

"No; that is not it," interrupted Mary. "There is no 'if' in it. It shall be whether it is possible or not. Nothing shall prevent." At this she kissed Jane and told her how she loved her, and gave me her hand, for her love was so great within her that it overflowed upon every one. She, however, always had a plenitude of love for Jane, and though she might scold her and apparently misuse her, Jane was as dear as a sister and was always sure of her steadfast, tried and lasting affection.

After Mary had said there should be no "if" Brandon replied:

"Very well, Mme. Destiny." Then, turning to us, "What ought I to do for one who is willing to stoop from so high an estate to honor me and be my wife?"

"Love her and her alone with your whole heart as long as you live. That is all she wants, I am sure," volunteered Jane sentimentally.

"Jane, you are a Mme. Solomon," said Mary, with a tone of her old time laugh. "Is the course you advise as you

"Now you know!"

would wish to be done by?" And she glanced mischievously from Jane to me as the laugh bubbled up from her heart, merry and soft, as if it had not come from what was but now the home of grief and pain.

"I know nothing about how I should like to be done by," said Jane, with a pout, "but if you have such respect for my wisdom I will offer a little more. I think it is time we should be going."

"Now, Jane, you are growing foolish again; I will not go yet," and Mary made manifest her intention by sitting down. She could not bring herself to forego the pleasure of staying, dangerous as she knew it to be, and could not bear the pain of parting, even for a short time, now that she had Brandon once more. The time was soon coming—but I am too fast again.

After a time Brandon said: "I think Jane's wisdom remains with her, Mary. It is better that you do not stay, much as I wish to have you."

She was ready to obey him at once. When she arose to go she took both his hands in hers and whispered: "Mary, I like the name on your lips," and then, glancing hurriedly over her shoulder to see if Jane and I were looking, lifted her face to him and ran after us.

We were a little in advance of the princess, and as we walked along Jane said under her breath: "Now look out for trouble; it will come quickly, and I fear for Master Brandon more than for any one. He has made a noble fight against her and against himself, and it is no wonder she loves him."

This made me feel a little jealous. "Jane, you could not love him, could you?" I asked.

"No matter what I could do, Edwin; I do not, and that should satisfy you." Her voice and manner said more than her words. The hall was almost dark, and—I have always considered that occasion one of my lost opportunities, but they are not many.

The next evening Brandon and I, upon Lady Mary's invitation, went up to her apartments, but did not stay long, fearing some one might find us there and cause trouble. We would not have gone at all had not the whole court been absent in London, for discovery would have been a serious matter to one of us at least.

As I told you once before, Henry did not care how much Brandon might love his sister, but Buckingham had white-

pered suspicions of the state of Mary's heart, and his own observations, together with the intercepted note, had given these suspicions a stronger coloring, so that a very small matter might turn them into certainties.

The king had pardoned Brandon for the killing of the two men in Billingsgate, as he was forced to do under the circumstances, but there his kindness stopped. After a short time, and all that was left for him of royal favor was permission to remain with me and live at the palace until such time as he should sail for New Spain.

EFFECTIVE WORK

Of Young Men's Christian Association Is Shown in the Navy

Lynn, Mass., April 29.—Secretary of the Navy Moody was given a reception by the Lynn Y. M. C. A. last night and spoke informally upon the work of the Y. M. C. A. among the enlisted men of the navy. The men who walk the decks of our vessels, he said, are young and intelligent, the fruit of our public schools, and to these young men the country owes a debt, for they are the best of American citizens and everything possible for their welfare should be done.

Already those in authority are trying to break up the old, bad habits, on humanitarian lines. He spoke of the many temptations that confront the men in the various harbors and described the work of improving conditions at the Bremerton yard. He said the grounds around that station were lined with places of the worst character and he had been told that nothing could be done. This strengthened his conviction that something could be done and he had given orders that no vessels should be sent there for repairs until the conditions around the yard were bettered.

He referred to the work of the Y. M. C. A. at Brooklyn and paid a tribute to Miss Helen Gould. He also quoted from letters from several naval officers in which they spoke of the excellent work of the association at Hampton Roads, and referred to the plans under way at Newport to counteract the influence of the saloon upon the men of the navy.

Fishermen May Lose Bonds

St. Johns, April 29.—It is reported that three of the American herring vessels that were icebound at Bay of Islands during the winter have visited St. Pierre, Miq., and sold their cargoes to the French fishermen for bait. Such action would be in defiance of the law. If evidence against any American fishing is found the \$1000 cash bond of that vessel will be forfeited and she will be seized the first time she again enters Newfoundland waters.

Nothing Like Experience.

"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy and learn from his own experience how quickly it gives relief, and he will remember it all his life. For sale by all druggists.

Alleged Debts of Over \$235,000

Boston, April 29.—Norman W. Bingham and Edward Davis have been appointed receivers of the Helios-Upton company, a New Jersey corporation, engaged in the manufacture of electrical appliances. The receivers were appointed in a suit brought by King Upton of Salem, a creditor, with a claim exceeding \$76,000. The debts of the company, it is alleged, exceed \$235,000, and it is unable to pay them promptly.

A Division of Revenues

Washington, April 29.—In a dispatch from Petropolis, Minister Thompson says that the Brazilian government has undergone great expense in sending troops and ships for the temporary military occupation of the Acre territory. All of the revenues now collected there, under the temporary arrangement, are to be divided equally between Brazil and Bolivia.

SCOTT'S EMULSION

makes pale, thin children fat and chubby. Overcomes wasting tendencies and brings back rosy cheeks and bright eyes.

It's surprising how quickly children respond to Scott's Emulsion. It contains just the element of nourishment their little bodies need. They thrive on it.

Even a few drops in the baby's bottle have a noticeable effect for good. Nothing better than Scott's Emulsion for growing children.

Why do substitutes for Scott's Emulsion cost less? Because they're worth less. With one you wait in vain for the benefits you had looked for. In Scott's Emulsion you get them. It never disappoints. That's worth the few cents difference in cost.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

SOLDIERS NOT INHUMAN

Bell Says Truth Is Powerful and Must Prevail

CHAFFEE'S DEALING IN RICE

"An Unusual Procedure For an Unusual Situation"—Destitute Outside Camps Fed From Profits—Comment Resulting From Miles' Report

Southampton, Eng., April 29.—General Bell, who is on his way home from the Philippines, and who sailed for New York on the Kronprinz Wilhelm today, was shown the cable digest of the report of Lieutenant General Miles. He said to a representative of The Associated Press:

"I must decline to make any statement or comment on the report further than to remark that all complaints made to General Miles while he was in the Philippines have been thoroughly investigated by order of the war department."

When asked if he did not wish to say anything concerning the truth or falsity of the accusations or of the complaints of occurrences in Batangas province, Luzon, while he was in command there, General Bell replied:

"I would greatly regret to have the American people believe that any American officers or soldiers had been wantonly cruel or inhuman in their treatment of natives. However, I have said in official reports all I care to say on that subject. I do not believe that anything I can say unofficially will change any one's opinion; nothing, certainly, would make any one who served creditably in the Philippines think that the conduct of the American army has been characterized by cruelty, nor could I change the opinion of any one who wished to believe the contrary."

When shown editorial articles from London papers commenting upon the brutality of the American army in the Philippines, General Bell said: "These comments are evidently inspired by misapprehension and I trust that the American army may not long rest under such a stigma in the eyes of foreign nations; truth is powerful and it must finally prevail."

Chaffee Answers Miles

New York, April 29.—Major General Chaffee, recently in chief command of the American forces in the Philippines, was shown extracts from Lieutenant General Miles' report to Secretary Root.

"The only part of it that interests me," said General Chaffee, "is that about the distribution of food in Bell's district in Batangas, and I would like to know whether or not he means to say we stole anything. At any rate, I will say that I am responsible for that order. There was a serious condition of affairs existing in Batangas at the time, and we decided on a concentration policy to put down the insurrection. These people were concentrated in camps, in which streets were laid out, every attention given to the proper sanitation of them and capable physicians assigned to look after the health of those concentrated in them. I may add that we did not lose even a single child during the existence of the camps. The rice was purchased after a consultation I had with General Bell. General Bell assured me that the money required to procure the food would certainly be returned to the insular treasury, and it was."

"Concerning the profits, we charged a profit of 25 cents on every 133 pounds. This was on the actual purchasing price, not the added cost of transportation, etc., that expense being borne by the army. But let me add another thing, that 25 cents profit did not go into the insular coffers. Instead, it was levied for the purpose and so used to purchase rice for the poverty-stricken and destitute not in the concentration camps."

"The point of the whole thing appears to be that I used government funds to purchase this rice. That was an unusual procedure, but it was made necessary by an unusual situation. When the concentration camps were dispersed and I was succeeded in command by General Davis there were many natives yet who were in need of sustenance, and General Davis went to the civil government for funds to purchase food for them. This was done to save the people from the extortionate prices charged by the dealers. As for what I did in the case, I am perfectly willing to let them take my neck if they want to. If anybody wants to make any trouble because I took care of thousands of destitute people out there, well, he can go it."

"As for the other cases referred to by General Miles, I do not know much about them, for I was not in command at the time."

PLACED IN COMMISSION

Reliance Proves to Be Staunch
and Sound Craft

IS GIVEN A FURTHER TEST

British Yachting Circles Stirred Up
Over Ratsey's Acceptance of Order
For New Suit of Sails For American
Boat—Alleged Violation of Promise

Newport, R. I., April 30.—After hav-
ing been formally placed in commis-
sion in the harbor here yesterday after-
noon, the cup yacht Reliance was
taken out for another trial spin, and
during two hours of sailing she was
brought into conditions of wind and
sea which gave her the most severe
test she has yet had. That she proved
herself to be a staunch, strong craft,
was the opinion of every one who saw
her struggle in the nasty sea, under the
spiteful puffs which came during the
heavy wind squalls when off the Co-
nanicut shore. She behaved admirably
on all points of sailing, and many
times during the afternoon her tender,
the Sunbeam, had a hard struggle to
hold her position in the wake.

The ceremony of putting the boat in
commission was very simple, taking
place at the yacht's mooring off the
torpedo station. Mr. Iselin, with a
few yachting men, came aboard at 2
o'clock, and directly his private signal
was sent aloft to the main truck, while
the fly pennant was sent down at the
same time. The Reliance was then
formally declared to be in commission.
Immediately after the ceremony lines
were cast off and the boat filled away
on the port tack, the foresail and
jib being set as she proceeded on the
beat out through the Fort Adams
channel in a very light breeze.

She held to the Conanicut shore, close
in, and soon began to take spiteful puffs
of wind off the land, which she weather-
ed very well. She had picked up in
speed considerably and was travelling
at a fast clip; when off Mackerel cove
the wind squalls came stronger and
more often. It was seen that the jib-
topsail sheets were not doing good
work.

The condition of the water was a
regular whirl, and the white foam was
being thrown in surges from the lee
bow. Although the wind was suf-
ficiently strong to knock down any
ordinary craft, the Reliance stood it
well, and at no time did she appear to
be in danger. She made exceedingly
fast time, and worked out of the
squalls in good condition. Although
heeled at a great angle, the battle with
the wind squalls did not interfere with
the boat's progress.

As she neared Brenton's reef on her
return, the breeze, which had shifted
to the northwest, took on hard until she
was almost abeam of the lights, ship,
speeding at a rate which gave her
tender all she could do to keep up.
The weather underbody rolled up out of
the water to such an extent as to show
about 2 1/2 feet of the bronze plating be-
low the waterline.

Mr. Iselin came ashore about 5
o'clock and said he was very much
pleased with the performance of the
yacht. A party of strangers went on
board the Reliance while she was at
anchor and took measurements, pre-
sumably for a new suit of sails. It is
believed that Ratsey, the English sail-
maker, who has a loft at City Island,
will cut the new canvas. Measure-
ments were taken of the headsails,
of the spars and of the mainsail, with
a measuring wire.

Program For Opening Day of World's
Fair Dedication Ceremonies

St. Louis, April 30.—The World's
fair dedication ceremonies commenced
this morning. President Roosevelt,
former President Cleveland and the
members of the diplomatic corps are
here and all of the troops that are to
take part in the parade are housed up
on the exposition grounds. The city
has put forth every effort to entertain
its visitors and all parts of it have
been lavishly decorated with flags,
streamers and drapings of red, blue and
yellow bunting.

At 2 p. m. President David R.
Francis of the World's Fair company
will call the meeting to order for the
formal dedication. The program:
Invocation by Cardinal Gibbons; In-
troduction of Thomas H. Carter, pres-
ent of the day; grand chorus; pre-
sentation of the building by President
Francis of the Exposition company;
dedication address by President Roose-
velt; chorus; address by Grover Cleve-
land; "America," with chorus and band
accompaniment; prayer by Bishop
Hendrix of the Methodist Episcopal
church; benediction by Bishop Potter
of the Episcopal church; centennial
salute of 100 guns; fireworks.

BADLY FRIGHTENED

Italians at Boston Kicked Theatrical
Letters From the Mafia
Boston, April 30.—Seven Boston
Italians have called at police head-
quarters to beg for protection against
the dreaded Mafia, by which they
claimed to have been ordered to con-
tribute to the defense fund in the New
York "barrel" murder case. Inspectors
have been sent to the Italian
quarter to make investigations.

Each of the foreigners who was at
headquarters showed a letter dated New
York. The letters had been mailed
Monday and received yesterday. The
Italians were thoroughly frightened,
even when they were in the secure
shelter of Chief Watts' private office.

The letters told them that every-
where they went they were marked
men; that the eye of the Mafia was on
them always; that they were as good
as dead if they did not send the re-
quired money immediately. The let-
ters were signed with a Latin name.
The Italians who received the letters
are not members of the order, but they
say they know of an Italian in their
district who is. This alleged Mafia
may be arrested by the inspectors if it
can be connected with the threatening
letters.

A Child's Extraordinary Bravery
New York, April 30.—Katie Whalen,
aged 5, saved the life of her little sis-
ter, aged 4, when the clothing of the
latter caught fire, but was so badly
burned that she may die. Busting out
the fire in her sister's clothing with
her bare hands, Katie's own clothing
caught fire and she was terribly burned.
A passerby enveloped her in his coat
and extinguished the flames. Physi-
cians say that Katie cannot live. Her
sister was not burned in the least.

Time to Revoke Permits
New York, April 30.—Police Commis-
sioner Greene has revoked 322 permits
issued to Italians for the carrying of
concealed weapons. The finding of
stilettoes and revolvers upon every one
of the 13 Italians arrested in connection
with the Madonna barrel murder
mystery is directly responsible for the
commissioner's action. Nearly every
Italian arrested recently was found to
be a walking arsenal.

Consuls Get Walking Papers
Washington, April 30.—Information
has reached the state department from
Caracas to the effect that the Vene-
zuelan government has retired the ex-
quintars of several foreign consuls on
the ground of alleged interference in
the internal affairs of the country.
Those removed are the German consul
at Maracaibo, the German consul at
Valencia and the Brazilian consul at
Ciudad Bolivar.

Sousa Strikes a Snag
Paris, April 30.—Sousa's band, which
is leaving here for Berlin and St.
Petersburg, is having trouble in secur-
ing the papers necessary to enter Rus-
sia. Twenty-four of the musicians have
no certificates of American naturaliza-
tion, which are indispensable before the
embassy can issue passports. Efforts
are being made to secure a modification
of the requirements.

A Remarkable Old Woman
Montgomery, Ala., April 30.—Mrs.
Marysith Keith, the oldest person in
Alabama, is dead. She celebrated her
116th birthday March 7. She had 18
children, 44 living grandchildren, 20
great grandchildren and two great
great grandchildren.

Trying to Evade Big Fine
Albany, April 30.—Captain Diamond
of the New York city police depart-
ment, who was fined \$1000 by Justice
Herrick for neglect of duty in failing to
suppress a disorderly house, has fled
in the county clerk's office here a notice
of appeal.

Short Sentence For Elsie Barrett
Chicago, April 30.—Elsie Barrett,
who shot Bessie Palmer, the actress,
in their apartment, was found guilty
of the second count in the indictment
charging criminal negligence. This
means that a short sentence will be
imposed.

Never Passed a Dividend
New York, April 30.—The Nassau
bank has declared its 100th semi-
annual dividend. Dividends have been
paid continuously since 1853. The
100th semi-annual dividend declared
was one of 4 percent.

MOUNTAIN DISRUPTED

Sending Millions of Tons of
Rock Upon a Town

OVER A HUNDRED PERISHED

Debris Has Blocked a River, Which
Has Already Overflowed and May
Complete the Town's Destruction
by Flood—Meagre News of Disaster

Vancouver, B. C., April 30.—Over-
whelmed by countless tons of rock, and
with probably 112 of its inhabitants
killed almost instantly, the little mining
town of Frank is threatened with com-
plete destruction by flood. Old Man's
river, which flows through the centre
of the town, is dammed up by the
fallen rock to the height of nearly 100
feet, and the entire valley above the
town is flooded for miles. A big body
of water is pressing with force upon
the dam, the only protection the town
of Frank now has, unless the river
shall find another channel. Should the
imprudent dam break, the entire vil-
lage would be swept away.

A tremendously loud reverberation
shook the whole valley of the Old Man's
river and scarcely half the inhabitants
of the town awoke to a realization of
the impending danger when, from the
top of Turtle mountain, overlooking the
settlement, millions of tons of rock
were hurled.

The Frank coal mines, across the
river from the town, were seen to be
buried under hundreds of feet of rock
just as the morning light was break-
ing. Inside of five minutes from the
first thunderous shock and before half
the town realized what had happened,
a small force of men had started to the
relief of the miners, despite the great
risk they ran of being buried under
the rocks, which were still being pre-
cipitated from the lofty mountain top.
The volunteer relief force was unable to
get into the mine, but managed to get
near enough to determine that not a
man at the working had escaped death
and many had been fearfully mangled.

The disaster was merciful to those
men who were employed above ground,
in that they must have been killed in-
stantly, while those in the workings of
the mine may yet be alive if they have
air to breathe. If all the air shafts to
the mine were closed up under the
awful avalanche, all the men must
have died. The disaster was not con-
fined to the vicinity of the mine alone,
for many of the dwelling houses in the
town of Frank were demolished by the
falling rocks. Some of the occupants
of these houses escaped death, but
many others were instantly killed.

When reports concerning the mag-
nitude of the disaster and details con-
cerning it commenced to come in from
reliable men who had been out pros-
pecting for news, it was discovered
that the earth opened for three quar-
ters of a mile and many feet in width
and that the whole northern face of
Turtle mountain slipped from its place.

The shock resultant upon the pre-
cipitation of the millions of tons of rock
into the valley, while only actually de-
molishing comparatively few of the
houses, shook the foundations of a ma-
jority of the dwellings in the town so
that they are unsafe to live in. The
railroad track for a distance of two
miles or more east of the station is
covered with from 10 to 40 feet of rock
and the telegraph wires are down. All
communication is being conducted over
one wire running west, and this one line
is so blocked with private messages
and inquiries from the outside that it is
only with the greatest difficulty that
press matter can be sent out.

The rock is still being thrown on the
town from Turtle mountain and it is
impossible to venture within half a
mile of the mine workings. The streets
are crowded with the relatives and
friends of those known to be entombed.
The women are behaving in a most
heroic manner.

It is generally thought that the
disruption of Turtle mountain was
brought about by a seismic disturbance,
although some persons declare that the
origin of the upheaval was volcanic.
No lava has been seen, and aside from
the smoke from the mountain the at-
mosphere is clear. There is, however,
no explanation for the continued up-
heaval of rock. The eruptive influ-
ences seem to centre at the crown of
Turtle mountain.

The latest theory as to the cause of
the disaster is that it was due to a
rock-slide which carried the top of
Turtle mountain down upon the vil-
lage below. It is now thought that
what was supposed to be the smoke of
a volcano was dust and that the con-
tinued fall of small bits of rock during
the day was merely the aftermath of
the original rock-slide.

Three Jailbirds Escape
Albany, April 30.—Three prisoners
escaped from the county jail here and
are still at large. They climbed
through a ventilator in the ceiling,
punched a hole through the rear wall
of the building and let themselves to
the ground by a rope. One was await-
ing trial on a charge of shooting a
man and the others were charged with
burglary.

GOULD--GEER.

A Portland, Me., Lawyer takes
Quincy Girl for His Bride.

The home of Mr. and Mrs. Henry F.
Geer of Wesson avenue, West Quincy,
was brilliant with light and spring
flowers on Wednesday evening, as the
guests assembled for the wedding of
their daughter Mary E. Geer and Mr.
Sherman L. Gould of Portland, Maine.
At seven o'clock at the close of a
beautiful spring day, a sunny day
such as a bride always hopes for, and
beneath a wedding bell of white roses,
Rev. E. W. Virgin of Dedham, united
the happy pair. The bride was attend-
ed by her sister, Mrs. Charles S. Irving
of Mattapan, who was the matron of
honor, and the groom was attended by his
brother, William H. Gould of Quincy.
The bride was given in marriage by her
father, and the wedding march was
played by Miss Mildred Irving of Mat-
tapan.

The bride's gown was of white silk
cut en traine, and trimmed with silk
ornaments. She carried a large bouquet
of white roses and wore a crescent pin
set with pearls and turquoise, a gift
from the groom. The matron of
honor also wore white, her gown being
of white organdie over silk. She car-
ried a bouquet of pinks.

A reception followed the ceremony,
from 7:30 until 10 o'clock, the parents
of the bride receiving with the young
people. The ushers were Mr. Charles
S. Irving of Mattapan, and Mr. F. B.
Gould of Wollaston. Guests were pre-
sent from Portland, Rockport and West-
brook, Maine; Lynn, Beverly, Marl-
boro, Pigeon Cove, Mattapan, Roxbury
and Quincy, Mass. Many costly and
beautiful presents were displayed.

Mr. and Mrs. Gould will make their
home in Portland, Maine.
The groom, who is well known in
West Quincy, where he formerly re-
sided, is one of Portland's (Me.) rising
lawyers.

Fore River Notes.

Considerable progress has been made
during the past week on the United
States cruiser Des Moines at the Fore
River shipyard. The work of com-
pleting the fittings is employing a
large crew of men, and the progress on
the engines has been so rapid that it is
expected to have a dock trial in a few
weeks, as soon as the funnels can be
placed and a few missing pipes and
connections placed.

Mr. H. P. Elwell, formerly superin-
tendent of the Fore River Ship and
Engine Company, has just returned
from a six weeks' trip to Scotland
where he has been purchasing steel.
The yard has lately received two ship-
ments of steel shapes for the frame of
the six-masted schooner William L.
Douglas and the two Fall River steam-
boats.

The boilers and engines on the United
States protected cruiser Des Moines,
now building at the Fore River ship-
yard, in this city, have reached a
degree of 91 per cent. of completion.
As soon as the funnels which are
already built can be placed, a dock
trial will be made, and it is expected
that the shafts will be turned in a few
weeks.

Steel is being incorporated in the
hull of the United States battleship
Rhode Island at the rate of 50,000
pounds a day, and the structural work
of the hull is estimated to have
advanced 4 per cent. during the month
of March, the degree of completion
being 31.5 per cent. The gun deck is
being laid, and preparations are being
made for installing the foundations of
the forward turret barbette; another
section has been added to the stern-
post and the frames and bulk-heads are
all in place in the lower part of the
hull.

Good Afternoon.

It is no small compliment to the American schools of dentistry that practically all the crowned heads of Europe and their families will employ only American dentists.

The Postoffice scandals are assuming alarming proportions. It is freely intimated that even the Postmaster General is seriously worried and that the situation if becoming so delicate as to call for the personal supervision of the President.

The Wall Street interests have made it evident that they do not desire the election of President Roosevelt, but in the opinion of competent judges that will only strengthen the high estimation in which the President is now held by the great majority of the voters.

Drift of Opinion.

The "slums" of Boston are to be made the subject of official study, and it is full time that this should be done. Mayor Collins has appointed a commission to undertake the work, composed of citizens especially qualified to do it intelligently. It is a matter which has long occupied the attention of voluntary charitable and benevolent associations, and some of the things they have discovered are interesting as showing the difficult nature of the problem. At a meeting of the Women's Christian Temperance Union the other day, Mrs. Katherine L. Stephenson told a story which sharply illustrates one point. A family, she said, was found in one of the lower tenement districts, in most dire need; no furniture, no clothing to speak of, no food. They were assisted in every way, sent into the country, and established in a comfortable house with a small farm adjoining. "Two or three weeks after," said Mrs. Stephenson, "we found them back, in precisely the same place, under the same conditions. When remonstrated with, the mother of the family remarked, 'We like folks better than stumps.' The congestion of population, the "slums," will always be with us, will always be a feature of every large city. It is in the nature of the inhabitants to congregate, to find the necessity of their lives in the close contact with their fellows. The open air has no charms for them compared with the close atmosphere of narrow streets and swarming apartments. They stifle in the country houses and shiver in the sunlight of the fields. The problem is to make this existence healthful and decent.—Boston Courier.

We hear so much from certain persons—often childless—about infringements on the rights of parents, usurpation by the state, etc., that I submit the following: "The parent's right to the child is less fundamental than the child's right to himself, and the child on reaching manhood has a right to himself not dulled and sapped of strength, but in the full vigor of body and mind." Therefore child labor laws, compulsory education laws, and the curfew are legal and proper. To the parent who cares for his own children they are dead letters; but they are a salvation to the child of that parent who does not care. Recently a friend of mine in another place circulated a petition for a curfew. Out of 100 interviewed only three opposed, and two of these had no children. One was a father, but because he could con-

PINE TREE CLUB.

Celebrated its Twelfth Anniversary at Town Hall last Evening.

The Pine Tree Club of Braintree observed the 12th anniversary of its organization with a dinner and dance, at the town hall, last evening. About 350 persons were present. Among the guests were Gov. and Mrs. John I. Bates, Speaker James J. Myers, E. B. Callender of Boston, Mayor Charles M.

HON. HORACE R. DRINKWATER.

Bryant of Quincy, Representative Gordon Willis of Weymouth and Representative Thomas Sutton of Needham.

The guests were presented by Col. A. C. Drinkwater, chairman of the reception committee.

After the reception a dinner was served, President Horace R. Drinkwater delivered an address of welcome, in which he referred to what the Sons and Daughters of Maine had done toward advancing the material interests of the state of their adoption.

He presented Gov. Bates as the first speaker.

tried his own family he assumed others could and should do the same, a false assumption.—Milford Gazette.

For nearly a quarter of a century the tide of population has been strongly city-ward, and many have been the speeches and the articles inspired by the abandoned farm. Now, however, the tide is said to have turned, and perhaps it will not be long before the depopulated city will be a theme over which to grow melancholy. Still the fact is that the prospect very cheerful. We shall have one more instance of the specializing tendency elsewhere so apparent. The city will be for business, the country for residence. In other days such a condition would have been impossible, or at best inexpedient. Nowadays such a condition is both possible and expedient, made so by the improved facilities for transportation and communication. Thus does science lend its aid to man and give added proof that it is invaluable.—Boston Home Journal.

Is there someone to whose happiness you are necessary? Are there those to whom your face is like a ray of the sunshine, and whose hearts grow light at the sound of your voice? You are being cheated out of the best of your life unless you are making yourself indispensable to some of those about you. If you could step out of the world tomorrow and leave no one who would miss your help, none who would long for your smiles and encouragement, if your going would not diminish the sun of good cheer and kindness on this earth, you have failed to find the thing that makes life worth while.—Young Peoples' Weekly.

Endowments for such institutions as this (Carnegie's \$600,000) of Tuskegee are far better than gifts of libraries and institutes to cities and towns which are not only able to support themselves, but had better do so than to be forever running after the bounty of individual wealth—a course distinctly hostile to the cultivation of a proper civic pride and spirit and dignity. The town of Saugus in this State has refused to accept a Carnegie gift, resolving that it will continue to pay for its own library as for its streets and other public institutions. The people of Stoneham have accepted \$15,000 from Mr. Carnegie for a library building, but only by a close vote and after some pretty blunt expressions of opinion from opposing citizens regarding the pauperizing effects of depending upon the charitable consideration of rich men.—Springfield Republican.

Indications are growing that the United States capitalists are preparing to utilize quantities of products now going to waste, as fuel prepared in the form of briquettes. The movement received its impetus from the recent coal famine.—Athol Chronicle.

Gov. Bates told of the part taken by the descendants of the Pine Tree state in advancing citizenship in the old commonwealth. Today one quarter of the population of Massachusetts are descendants of the Pine Tree state, the number being 93,115. This number is one-seventh of the present population of Maine. Gov. Bates instanced Gov. John D. Long as a typical son of the Pine Tree state.

Speaker Myers told of the work of the Legislature during the present session, alluding to the recent disturbance which

HON. HORACE R. DRINKWATER.

occurred in that body, saying that a few were responsible for what took place.

The closing speaker was Edward B. Callender of Boston.

The gathering then returned to the upper hall, where there was an entertainment consisting of soprano solos by Mrs. H. B. Emmons, readings by Arthur Cole and instrumental music by the Orchestral club.

The festival closed with dancing, the floor being in charge of Vice-President W. H. Martin.

Association Football Game.

A game will be played on Saturday, May 2, at Ward 3 park, between the Lynn Wanderers and the Quincy Football team. The Lynn players will have their best men on the field, their team being greatly strengthened by the addition of several players drawn from the strongest teams in and around Boston. Quincy will line up as follows:

Goal—Alex T. Black. Backs—Thomas Smith, George McCallister. Half-backs—John Craig, James McLeod, James Pirie. Forwards—John Bisset, Robert Robertson, Thomas Robertson, John Gould, John Storey. Reserves—Joseph Brown, Robert Craig.

The Quincy team have always made a practice of putting none but players who resided in Quincy on the field, and during the thirteen years of the organization's existence they have never departed from this rule; and it can be seen by the above list of players that the same idea will be strictly adhered to on Saturday.

The Quinys defeated the Lynns once this season, but the Lynn players intend to reverse the decision on Saturday, if possible. The Quinys intend to put up as good a game as they did on April 20; if they do not, the result is a foregone conclusion. Game called at 3.45 P. M.

Whist Tournament.

Warren H. Rideout and George W. Prescott received the prizes at the Granite City club whist tournament Wednesday evening. This was the last of the regular weekly tournaments until next fall, and the entertainment committee provided an appetizing lunch, which was served at the conclusion of the evening's play. The menu consisted of escalloped oysters, crackers, cheese, coffee, ice cream, frozen pudding and sherbet. This was the first opportunity the new entertainment committee have had to spread themselves, and they were voted to be all right.

HELD IN \$6000 BAIL.

Stearns Identified as the Man Who Slugged Two Women

Woburn, Mass., April 30.—Probable cause was found by Judge Stevens to hold William H. Stearns of Charlestown for the grand jury upon the charges of felonious assault upon Miss Annie Burke and Miss Annie Bolton in Winchester on the night of April 21. Bail was placed at \$6000, which has not yet been secured.

Stearns, who is a painter and had been employed in Winchester for a week or two past, was identified by both complainants as their assailant, and several other witnesses gave circumstantial evidence against him. Stearns' wife was the chief witness for the defense and testified that her husband was with her in Charlestown until 10:30 o'clock on the night of the assault, when he took an electric car to go back to Winchester, where he was working. By close connections this would bring him to Winchester at 11:15, while the alleged assaults took place just before 11.

A Myth Exploded.

Salem, Mass., April 30.—It has been decided by a committee of the Essex Institute that the little frame building at the rear of the institute building, which has been looked upon as the frame of the old first church of Salem, built in 1635, and has been visited by thousands of pilgrims from all over the world, was not the frame or any part of the original historical edifice. The committee does not attempt to say what the building really is. It is just possible, therefore, that the building may have been that of the first Quaker meetinghouse.

Kick on Losing Signs.

Cambridge, Mass., April 30.—About 250 Harvard men gathered in Sanders' theatre in response to a call for a "mass meeting" to protest against the action of the college authorities in seizing a large number of signs which adorned the walls of college rooms. It was voted to appoint a committee of five to consider the matter at length and report its recommendations at a second mass meeting.

Will Not Grant Advance.

Boston, April 30.—The boiler manufacturers and iron shipbuilders of Boston and vicinity have refused the request of their union help for a 10 percent advance in wages, stating that the competition is so sharp and the margin of profit so narrow that they cannot afford to grant the demand. The membership of the union is very determined, it is said, to secure an increase in wages.

Forest Fire Subdued.

Gardner, Mass., April 30.—A big forest fire was finally gotten under control last night through the efforts of the Gardner and Templeton firemen, it having been burning since Tuesday morning. Before it was subdued it had reached a furniture factory and the Pine Grove cemetery, and had burned over about 800 acres, destroying at least \$10,000 worth of timber.

Summer Hotel Badly Damaged.

Newport, N. H., April 30.—Hotel Ben Mere, one of the largest summer hotels on the shores of Lake Sunapee, was badly damaged by fire last night which started in some unknown manner in the L of the building. This portion of the structure was completely destroyed and the fire completely wrecked about one-third of the main building. The hotel is valued at \$50,000.

Fire in City Hall.

Manchester, N. H., April 30.—City hall was damaged to the extent of about \$2000 just before midnight, the fierce blaze evidently emanating from rats and matches in the janitor's room. The basement, mayor's office and city clerk's office suffered most seriously, but no valuable papers were destroyed.

To Assist Lowell Strikers.

Augusta, Me., April 30.—Already \$350 has been raised for the Lowell strikers by various unions of this city, in addition to \$200 given by the weavers, and at the meeting of the Central Labor union next week the question of devising means to raise funds for the same purpose will be considered.

Shooting May Result Fatally.

West Derry, N. H., April 30.—Cumplings W. True was arraigned before Judge Pillsbury upon the charge of shooting Fred Gowan and was placed under \$1500 bonds to appear at the October term of the superior court. Bail was furnished. Gowan is in a serious condition.

Heavy Fines For Liquor Sellers.

Calais, Me., April 30.—Judge Wiswell fined four liquor sellers \$100 and costs each and warned them that in future he would impose a jail sentence. There are several new cases before the grand jury, whose action is awaited with interest.

Two Boston Men Killed.

Boston, April 30.—Two men were killed in South Boston by the collapse of a part of an old building on Cordage street, which was being torn down. The dead are Robert Reedy, 35 years old, and William Donnelly, 35, both of South Boston.

Boy Raised a Check.

Barre, Vt., April 30.—George E. Bennett, 17, pleaded guilty to forgery in raising a check from \$3.85 to \$10.85, which was cashed by the National bank of Barre, and was sentenced to the industrial school during his minority.

Doctor Dead From Morphine.

CONVERSED IN PRIVATE

King Edward Calls Upon Pope
Leo at the Vatican

COSTUMES OF OLDEN TIMES

Worn by Attaches of the Ecclesiastical Palace—An Impressive Scene When Monarch Met Pontiff, Who Was Clothed in White

Rome, April 30.—Edward VII and Leo XIII met at the Vatican last evening and for 20 minutes conversed alone. The king, who had in the morning reviewed 25,000 of the troops of King Victor Emmanuel, after lunching at the quiral, drove from the British embassy to the Vatican, accompanied by Colonel Lamb, the British military attaché. Behind him followed the members of his suite. The king rode in a private carriage, with no equipage of the King of Italy would enter the precincts of the apostolic palace.

The king, who wore a field marshal's uniform, had no escort, except some policemen in plain clothes, and no troops lined the streets as when Emperor William visited the pope. People gathered on the street and looked on with curiosity, but they abstained from any demonstration.

The Vatican is undoubtedly one of the most picturesque courts of Europe and all costumes worn there are of medieval times. As King Edward's carriages entered the court of San Damaso surrounded by the loggia of Raphael, and which has been trodden by the feet of every sovereign who visited Rome, with the exception of the present Shah of Persia, the English ruler was saluted by a battalion of the Falatine guards in full uniform. Tattoo was given on the drumheads; there was no music, as there are no papal bands. It is declared that since the grotesque rendering of the German royal anthem by bugle on the occasion of the visit of the Emperor of Germany the experiment of having music has not been repeated.

When the royal party reached the grand staircase leading to the papal apartment, King Edward was greeted by Marquis Sacchetti, Mgr. Merry del Val and Prince Antici-Mattei. At the upper landing there was grouped in imposing array a number of other ecclesiastics, who formed a characteristic and magnificent assembly. Behind this group attired in brilliant uniforms were the Knights of the Cape and chamberlains in black velvet breeches, blouses with stiff white ruffs and gorgeously jeweled chains about their necks, giving a touch of brilliant color to the scene.

King Edward addressed a few words of kindly thanks in return for the hearty greetings offered him. The royal party then proceeded between ranks of the Swiss guards, whose halberds gleamed in the sunlight that streamed through the wide windows. The hum of the busy city alone broke the deep silence that reigned within the Vatican.

At the Clementine hall the party was met by the papal master of the chamber, Mgr. Bisleti, who was attended by personages of the secret antechamber. Upon arriving before the private apartment of the pope the noble guard rendered military honors to the British sovereign. At the conclusion of this ceremony the door of the pope's apartment was immediately opened and the aged pontiff was revealed standing at the threshold with his hand extended, awaiting his guest. He was dressed in robes of white and a red velvet cape bordered with ermine. Even King Edward paused a moment upon seeing the pontiff in his white garments. The pope's face was the color of ivory, but he moved without aid and with no apparent difficulty. From his entire person there seemed to emanate sentiments of benevolence and spirituality. The king and the head of the church clasped hands and exchanged a few words in French. King Edward passed within the papal apartment, the door was closed and the pope and his guest were left alone.

King Edward remained with the pontiff for 20 minutes. A bell was then rung and the king's suite was admitted and presented. This little ceremony seemed to please the pope immensely. At its conclusion King Edward took his leave, the pope crossing the room at his side and saying his last words at the door.

From the Vatican King Edward passed through the Piazza of St. Peter, where he was warmly greeted in English by a number of Scotch pilgrims now in Rome, who shouted: "Hurrah for the king." Had King Edward looked up at that moment he would have seen a figure in a window of the second story of the palace; it was Pope Leo. Contrasted with the British sovereign, who stood below in the sunlight and the centre of animation of the immense plaza, the solitary white figure in the palace window seemed to further the idea of the pope as a prisoner.

Instead of returning to the British embassy, the king drove directly to the quiral.

They Kept Their Secret

Jefferson City, Mo., April 30.—Chief Justice Robinson of the supreme court released Page and Hicox on a writ of habeas corpus. They were committed by Judge Hazell of the circuit court because they refused to tell the grand jury where they got certain \$500 and \$1000 bills which were found in their possession at the time of the last session of the legislature.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rewritten and Rendered into Modern English from Sir Edwin Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1898 and 1901, by the Bowen-Merrill Company

This story began in the Daily Ledger of Monday, March 16, and will be continued daily until completed.

SYNOPSIS.

Chapter I and II.—Charles Brandon kills a duelist on the field of honor and is appointed captain of the king's guard at the English court. The king's sister, Mary Tudor, quickly sets her fancy upon the gallant stranger. Brandon makes a confidant of Edwin Caskoden, master of the dance. III.—Caskoden is attentive to Lady Jane Bolingbroke, companion to the princess. In a fit of petulance Mary rebukes Brandon, then craves forgiveness. IV.—Brandon teaches Mary a new dance learned in France. The young princess is shocked at first, then delighted with the sensation of Brandon's arm around her waist. Brandon declares that the girl is perfect, but the game of making love to royalty is dangerous. V.—Brandon crosses swords with the Duke of Buckingham, an unwelcome admirer of the princess. VI.—Mary, Lady Jane, Brandon and Caskoden decide to spend the summer at Windsor, and on the return he is sent a day ahead of the royal party. VII.—Louis XII of France asks for the hand of Mary. Brandon sails for America to avoid Mary. She tells him to task for his indifference. Overcome by her pleadings, he makes a violent demonstration of his love. VIII.—Mary and Lady Jane go in disguise to consult a fortune teller. Brandon follows unknown to Mary. Buckingham plays the spy, and in a fight with Brandon he is wounded and two of his suit killed. IX.—Brandon in prison charged with murder. Mary pleads with the king. Buckingham against the prisoner. The king discovers a note sent by Mary to Brandon. Brandon condemned to death. The king learns that Brandon saved Mary from disgrace and orders his release. Brandon now madly in love with Mary. XI.—Ambassadors of the French king come to England to court Mary for their aged sovereign. The girl spurns them in a highly dramatic scene. The betrothal made by King Henry. Mary kept in ignorance of Brandon's long imprisonment. She supposed he had sailed for America. XII.—Mary explains to Brandon her neglect when he lay in prison. Bitter words followed by betrothal. Brandon dismissed from court.

CHAPTER XIII.

A GIRL'S CONSENT.

THE treaty had been agreed upon, and as to the international arrangement, at least, the marriage of Louis de Valois and Mary Tudor was a settled fact. All it needed was the consent of an eighteen-year-old girl—a small matter, of course, as marriageable women are but commodities in statecraft, and theoretically, at least, acquiescence in everything their liege lords ordain.

Wolsey, whose manner was smooth as an otter's coat, had been sent to fetch the needed "yes," but he failed. Jane told me about it.

Wolsey had gone privately to see the princess and had thrown out a sort of skirmish line by flattery her beauty, but had found her not in the best humor.

"Yes, yes, my lord of Lincoln, I know how beautiful I am. No one knows better. I know all about my hair, eyes, teeth, eyebrows and skin. I tell you I am sick of them. Don't talk to me about them. It won't help you to get my consent to marry that vile old creature. That is what you have come for, of course. I have been expecting you. Why did not my brother come?"

"I think he was afraid, and, to tell you the truth, I was afraid myself," answered Wolsey, with a smile. This made Mary smile, too, in spite of herself and went a long way toward putting her in a good humor. Wolsey continued: "His majesty could not have given me a more disagreeable task. You doubtless think I am in favor of this marriage, but I am not."

"This was as great a lie as ever fell whole out of a bishop's mouth. 'I have been obliged to fall in with the king's views on the matter, for he has had his mind set on it from the first mention by De Longueville.'"

"Was it that bearded little mummy who suggested it?"

"Yes, and if you marry the king of France you can repay him with usury." "This an inducement, by my troth."

"I do not mind saying to you in confidence that I think it an outrage to force a girl like you to marry a man like Louis of France, but how are you to avoid it?"

COULD NOT DING ABOUT IN ANY OTHER WAY.

"How do you know that I want to purchase aught in any way, Master Wolsey? I most certainly do not intend to do so by marrying France."

"I do not know that you wish to purchase anything, but a woman's heart is not always under her full control, and it sometimes goes out to one very far beneath her in station, but the equal of any man on earth in grandeur of soul and nobleness of nature. It might be that there is such a man whom any woman would be amply justified in purchasing at any sacrifice—doubtless so if it were buying happiness for two."

His meaning was too plain even to pretend to misunderstand, and Mary's eyes flashed at him as her face broke into a dimpling smile in spite of her.

Wolsey thought he had won, and to clinch the victory said, in his forceful manner: "Louis XII. will not live a year; let me carry to the king your consent, and I guarantee you his promise as to a second marriage."

In an instant Mary's eyes shot fire, and her face was like the blackest stormcloud.

"Carry this to the king: That I will see him and the whole kingdom sunk in hell before I will marry Louis of France. That is my answer once and for all. Good even, Master Wolsey." And she swept out of the room with head up and dilating nostrils, the very picture of defiance.

After Wolsey had gone Jane said to Mary: "Don't you think it would have been better had you sent a softer answer to your brother? I believe you could reach his heart even now if you were to make the effort. You have not tried in this matter as you did in the others."

"Perhaps you are right, Jane. I will go to Henry."

Mary waited until she knew the king was alone, and then went to him.

On entering the room she said: "Brother, I sent a hasty message to you by the bishop of Lincoln this morning, and have come to ask your forgiveness."

"Ah, little sister, I thought you would change your mind. Now you are a good girl."

"Oh, do not misunderstand me. I asked your forgiveness for the message. As to the marriage, I came to tell you that it would kill me and that I could not bear it. Oh, brother, you are not a woman. You cannot know."

Henry flew into a passion and, with oaths and curses, ordered her to leave him unless she was ready to give her consent. She had but two courses to take, so she left with her heart full of hatred for the most brutal wretch who ever sat upon a throne, and that is making an extreme case. As she was going she turned upon him like a fury and exclaimed:

"Never, never! Do you hear? Never!"

Preparations went on for the marriage just as if Mary had given her solemn consent. The important work of providing the trousseau began at once. When the queen went to her with silks and taffetas and fine cloths to consult about the trousseau, although the theme was one which would interest almost any woman, she would have none of it, and when Catherine insisted upon her trying on a certain gown she called her a blackamoor, tore the garment to pieces and ordered her to leave the room.

Henry sent Wolsey to tell her that the 13th day of August had been fixed upon as the day of the marriage, De Longueville to act as the French king's proxy, and Wolsey was glad to come off with his life.

Matters were getting into a pretty tangle at the palace. Mary would not speak to the king, and poor Catherine was afraid to come within arm's length of her. Wolsey was glad to keep out of her way, and she flew at Buckingham with talons and beak upon first sight. As to the battle with Buckingham, it was short, but decisive, and this was the way it came about: There had been a passage between the duke and Brandon, in which the latter had tried to coax the former into a duel, the only way of course to settle the weighty matters between them. Buckingham, however, had had a taste of Brandon's nimble sword play and, bearing in mind Judson's fate, did not care for any more. They had met by accident, and Brandon, full of smiles and as polite as a Frenchman, greeted him.

"Doubtless my lord, having crossed swords twice with you, will do me the great honor to grant that privilege the third time and will kindly tell me where my friend can wait upon a friend of his grace."

"There is no need for us to meet over that little affair. You had the best of it, and if I am satisfied you should be. I was really in the wrong, but I did not know the princess had invited you to her ball."

"Your lordship is pleased to evade," returned Brandon. "It is not the ball-room matter that I have to complain of. As you have rightly said, if you are satisfied I certainly should be, but it is that your lordship, in the name of the king, instructed the keeper of Newgate prison to confine me in an underground cell and prohibited communication with any of my friends. You so arranged it that my trial should be secret both as
